HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. TONY BLAIR, MP, MAY 2005)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Margaret Beckett, MP
SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. John Reid, MP
LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR HEALTH—The Rt. Hon. Patricia Hewitt, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Hilary Armstrong, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. Charles Clarke, MP
SECRETARY OF STATE FOR NORTHERN IRELAND AND SECRETARY OF STATE FOR WALES—The Rt. Hon. Peter Hain, MP
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos
SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR—The Rt. Hon. The Lord Falconer of Thoroton, QC
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP
SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Alan Johnson, MP
SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Ruth Kelly, MP
MINISTER OF COMMUNITIES AND LOCAL GOVERNMENT—The Rt. Hon. David Miliband, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. John Hutton, MP
CHANCELLOR OF THE DUCHY OF LANCASTER—
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Des Browne, MP

DEPARTMENTS OF STATE AND MINISTERS

Office of the Deputy Prime Minister—
DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP
MINISTERS OF STATE—
Minister of Communities and Local Government—The Rt. Hon. David Miliband, MP
Minister for Local Government—Phil Woolas, Esq, MP
Minister for Housing and Planning— Yvette Cooper, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Baroness Andrews, OBE

Cabinet Office—
CHANCELLOR OF THE DUCHY OF LANCASTER—
MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Ian McCartney, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Jim Murphy, Esq, MP

Constitutional Affairs—
SECRETARY OF STATE—The Rt. Hon. The Lord Falconer of Thoroton, QC
MINISTER OF STATE—
The Rt. Hon. Harriet Harman, QC, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Ashton of Upholland
Bridget Prentice, MP

Culture, Media and Sport—
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT AND MINISTER FOR WOMEN—The Rt. Hon. Tessa Jowell, MP
MINISTER OF STATE—
Minister for Sport and Tourism—The Rt. Hon. Richard Caborn, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
James Purnell, MP

Defence—
SECRETARY OF STATE—The Rt. Hon. John Reid, MP
MINISTER OF STATE—
The Rt. Hon. Adam Ingram, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Don Touhig, Esq, MP
The Lord Drayson
Education and Skills—
SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP
MINISTERS OF STATE—
Minister for Schools—The Rt. Hon. Jacqui Smith, MP
Minister for Higher Education and Lifelong Learning—Bill Rammell, MP
Minister for Children and Families—The Rt. Hon. Beverley Hughes, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Maria Eagle, MP
Phil Hope, MP
The Lord Adonis
Environment, Food and Rural Affairs—
SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP
MINISTER OF STATE—
Minister for Climate Change and the Environment—Elliot Morley, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Ben Bradshaw, Esq, MP
The Lord Bach
Jim Knight, MP
Foreign and Commonwealth Affairs—
SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP
MINISTERS OF STATE—
Minister for the Middle East—Dr. Kim Howells, MP
Minister for Europe—The Rt. Hon. Douglas Alexander, MP
Minister for Trade —Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
The Lord Triesman
Health—
SECRETARY OF STATE—The Rt. Hon. Patricia Hewitt, MP
MINISTERS OF STATE—
Rosie Winterton, MP
The Rt. Hon. Jane Kennedy, MP
The Lord Warner
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Caroline Flint, MP
Liam Byrne, Esq, MP
Home Office—
SECRETARY OF STATE—The Rt. Hon. Charles Clarke, MP
MINISTERS OF STATE—
Minister for Policing, Security and Community Safety—The Rt. Hon. Hazel Blears, MP
Minister for Criminal Justice and Offender Management—The Rt. Hon. Baroness Scotland of Asthal, QC
Minister for Immigration, Citizenship and Nationality—Tony McNulty, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Paul Goggins, MP
Fiona Mactaggart, MP
Andy Burnham, MP,
International Development—
SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP
Law Officers' Department—
ATTORNEY-GENERAL—The Rt. Hon. Lord Goldsmith, QC
SOLICITOR-GENERAL—Mike O'Brien, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—The Baroness Clark, QC
Leader of the House of Commons—
LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Geoffrey Hoon, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Nigel Griffiths, MP

Northern Ireland Office—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
MINISTERS OF STATE—
The Rt. Hon. Lord Rooker
David Hanson, Esq, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Angela E. Smith, MP
Shaun Woodward, Esq, MP

Paymaster General's Office—
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

Privy Council Office—
LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Amos

Scotland Office—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
David Cairns, MP

Trade and Industry—
SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP
MINISTERS OF STATE—
Minister for Industry and the Regions—The Rt. Hon. Alun Michael, MP
Minister for Energy—Malcolm Wicks, MP
Minister for Trade—Ian Pearson, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Gerry Sutcliffe, Esq, MP (Minister for Employment Relations, Consumers and Fair Markets)
Barry Gardiner, MP (Minister for Competitiveness)
Meg Munn, MP (Minister for Women and Equality)

Transport—
SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTER OF STATE—
Dr. Stephen Ladyman, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Derek Twigg, MP
Karen Buck, MP

Treasury—
PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—The Rt. Hon. Des Browne, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—John Healey, MP
ECONOMIC SECRETARY—Ivan Lewis, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Hilary Armstrong, MP
LORDS COMMISSIONERS—
Joan Ryan, MP
Gillian Merron, MP
Vernon Coaker, Esq, MP
Tom Watson, Esq, MP
David Watts, Esq, MP
ASSISTANT WHIPS—
Frank Roy, Esq, MP
Ian Cawsey, Esq, MP
Alan Campbell, Esq, MP
Claire Ward, MP
Parmjit Dhanda, MP
Tony Cunningham, Esq, MP
Kevin Brennan, Esq, MP

Wales Office—
SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
Nick Ainger, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. John Hutton, MP

MINISTERS OF STATE—

Minister for Employment and Welfare Reform—The Rt. Hon. Margaret Hodge, MP

Minister for Pensions Reform—Stephen Timms, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

The Lord Hunt of Kingsheath, OBE

Anne McGuire, MP

James Plaskitt, Esq, MP

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Bob Ainsworth, MP

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—John Heppell, Esq, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon. The Lord Grocott

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting CBE, The Lord McKenzie

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL—
David Amess, Janet Anderson, Hugh Bayley, Miss Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Derek Conway, Frank Cook, John Cummings, Mrs. Janet Dean, The Rt. Hon. Eric Forth, Roger Gale, Mike Hancock, Jimmy Hood, Mrs. Joan Humble, Eric Illsley, Martyn Jones, David Marshall, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Mike Weir, The Rt. Hon. Ann Widdecombe, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION—
The Rt. Hon. The Speaker (Chairman), The Rt. Hon. Geoffrey Hoon, MP, Chris Grayling, MP, Sir Stuart Bell, MP, Nick Harvey, MP, The Rt. Hon. David Maclean

SECRETARY OF THE COMMISSION—David Natzler

ASSISTANT SECRETARY—Geoffrey Farrar

ADMINISTRATION ESTIMATE AUDIT COMMITTEE—
Chris Grayling, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Tracey Garratty

BOARD OF MANAGEMENT—
Roger Sands, (Chief Executive), Helen Irwin (Clerk of Committees, Department of the Clerk of the House), Peter Grant Peterkin, CB, OBE (Serjeant at Arms), John Pullinger (Librarian), Andrew Walker (Director of Finance and Administration), Lorraine Sutherland (Editor of the Official Report), Sue Harrison (Director of Catering Services), Joan Miller (Director of Parliamentary ICT) (From 1st January 2006)

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

7 November 2005

Written Ministerial Statements

Monday 7 November 2005

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Gordon Brown): I will chair the Economic and Financial Affairs Council (ECOFIN) on 8 November 2005. The Paymaster General, right hon. Dawn Primarolo MP, will represent the UK. Items on the agenda are as follows:

EC Budget Roadmap: Roadmap to an integrated internal control framework; ECOFIN will discuss how to take forward the Commission's proposed roadmap towards a positive Statement of Assurance for the EC's annual budget.

Better Regulation: Ministers will be asked to agree conclusions on a common methodology for measuring the administrative burden that EU legislation would place on businesses.

EU Statistical Governance: ECOFIN will consider a package of measures to improve EU statistical governance.

Implementation of the Stability and Growth Pact: ECOFIN will consider a decision under Article 104 (8) on Hungary's Excessive Deficit Procedure.

Fiscal issues: VAT. ECOFIN will be updated on progress towards a "one stop scheme" designed to minimise compliance burdens on businesses, and will discuss reduced-rate proposals introduced by the Luxembourg Presidency.

Financial services: Cross-border consolidation in the EU financial sector. ECOFIN will note progress and agree conclusions on the supervisory approvals process for cross-border mergers and acquisitions in financial services.

Financial consequences of the Sugar Regime Reform: ECOFIN will discuss the budgetary aspects of ongoing negotiations around the reform of the sugar regime.

CONSTITUTIONAL AFFAIRS

Magistrates Courts

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My right hon. Friend the Secretary of State and Lord Chancellor (Lord Falconer of Thoroton) has made the following written statement in the other place today:

"I am pleased to announce that today I have laid before this House a paper entitled 'Supporting Magistrates Courts to Provide Justice'. Copies have been placed in the Library.

Magistrates courts play an essential role in the justice system. Each and every day they sit, the courts help to make our communities safer and more secure. They deal with over 95 per cent. of all criminal cases. They respond quickly and effectively to childcare cases. And they help people resolve their disputes as fairly as possible.

But the courts have not always received the support that they deserve and I wanted to know what we, the Government, can do to make magistrates courts even more efficient and effective. This is why, last year, I launched the Supporting Magistrates to Provide Justice programme.

The programme has looked at how the Government can help make improvements to the way magistrates courts operate. To inform us, we asked the experts: magistrates, district judges, justices' clerks and other court staff. They responded in their thousands with a range of suggestions and ideas that I set out in a Response Paper that was laid before this House on 1 April 2005.

There were clearly areas where we could—and must—improve. This paper sets out where we have already taken action and where we will be taking forward further reforms.

It is focused on four main areas:

Helping to ensure magistrates are connected to their communities. Magistrates must be able to keep abreast of the changing issues facing their evolving and increasingly diverse communities. We will support magistrates in understanding the current priorities and concerns faced by the local people they serve.

Ensuring magistrates courts are respected and valued, with court orders obeyed—courts are respected when the services and facilities they provide meet the needs of those that use and rely on the court, particularly victims and witnesses. This Government are committed to improving court facilities, providing efficient court processes and giving magistrates the authority to ensure their orders are obeyed.

Making sure the magistrates courts are effective in dealing fairly and efficiently with the cases before them. Our courts have a very important role to play in the lives of every citizen. For the community to feel truly confident in the justice system and to genuinely respect the work of the magistrates courts, it is critical that the courts deliver effective court services.

Improving the recruitment and retention of magistrates. The benefit of a volunteer magistracy is that they are able to represent the views of their community while providing a highly professional approach to discharging their responsibilities. In order that the magistracy is able to continue this critical role we propose a series of reforms and new initiatives which will see the development of a re-invigorated magistracy, attractive to the next generation of civic minded citizens willing to commit a portion of their time to building safe and secure communities.

This paper represents the next step in a continuous drive to provide the public with the service they expect from a modern magistrates courts system.

We will continue to look for further improvements so that our services are as efficient and effective as possible, making best use of the capacity of the courts, and of the talent and expertise of those working in them.

We are grateful to everyone who has contributed to the work that led to this paper."

Burial Law Reform Report

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): I intend to publish shortly a summary of the responses to the consultation paper "Burial Law and Policy in the 21st Century: The Need for a Sensitive and Sustainable Approach", which the Home Office issued last year. I am today placing pre-publication copies of that summary in the Libraries of both Houses.

We were grateful for the many detailed and thoughtful comments that were submitted. The responses indicated general support for modernisation of our burial laws, including more uniform legislation, the need to ensure adequate burial facilities, and the ability to make the best use of old burial grounds. Arrangements are now in hand to discuss with burial practitioners and others the practical details of the changes needed to give effect to law reform in this area. In doing so, we will consider sympathetically

the case for enabling the re-use of old burial grounds, seeking a balance between the interests of relatives and descendants and the wider needs of the local community.

The further work now initiated is expected to be completed next spring. Thereafter the Government will inform the House of their plans to bring forward proposals for burial law reform.

DEPUTY PRIME MINISTER

Housing Revenue Account Subsidy

The Minister for Housing and Planning (Yvette Cooper): We have today issued for consultation the drafts of the HRA subsidy and item 8 determinations for 2006–07, which set out proposed figures for subsidy allocations for individual housing authorities. Copies of the draft determinations and supporting material have been placed in the Libraries of both Houses and will also be available on my office's website from 4.30pm this afternoon at the following location:

http://www.odpm.gov.uk/housing/consult.

These allocations are based on the most up-to-date information available to us from authorities, and may change as that information is refined. Authorities have until 10am, 12 December to comment on the draft determinations, and 2 December to comment on the data.

For 2006–07, we will increase the average resources per dwelling available at the national level for management and maintenance allowances by 2.7 per cent. compared with 2005–06.

The Major Repairs Allowance will on average increase by 2.9 per cent. per dwelling in cash terms at the national level.

In addition, the draft determinations propose to continue the reforms in the calculation and allocation of management and maintenance allowances, which began in last year's determination round. The proposals for the management and maintenance allowances in 2006–07 take account of better and more representative data.

Data for the maintenance formula have been expanded to take account of both criminal damage to dwellings and burglary, a decision taken after consultation with stakeholders. Most local authorities will gain from the changes proposed in the draft determinations, and some will benefit substantially.

It is Government policy that social rents should be restructured and that over time tenants in social housing should pay similar rents for similar properties regardless of landlord.

We have carried out a three-year review of this policy which reported in 2004. We will introduce in full the recommendations made in this review in 2006–07, reinforcing the steps already taken to create a fair and transparent rent setting system in the social rented sector. In addition we will provide more protection for council tenants by capping at 5 per cent. the average cash increase in rents in any local authority for each of the next two years.

HEALTH

NHS Financial Management

The Secretary of State for Health (Ms Patricia Hewitt): I am today announcing that we will be rolling out across the national health service a new programme of financial diagnostic checks and providing the opportunity for two-star acute specialist and mental health trusts to apply for NHS foundation trust status. The concerns about financial management in some parts of the NHS have encouraged us to work with Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) to develop these new financial diagnostic tools and pilot them in two strategic health authority areas. These new financial tools will help trusts prepare for foundation trust status. Bringing two-star rated organisations into the applications process for foundation status will give a greater number of trusts the opportunity to put forward their proposals for foundation status.

The Whole Health Community Diagnostic Project will drive a culture of improved financial management across the NHS and give acute trusts a clear indication of any areas for improvement before they embark upon the NHS foundation trust application process. It will assess the financial robustness and viability of all trusts that have not yet applied to become NHS foundation trusts, in the context of their wider health economies, as well as looking at other authorisation requirements such as management and governance arrangements. The project will provide an assessment of what needs to be done to get NHS acute trusts in England ready to apply for NHS foundation trust status.

To be authorised as an NHS foundation trust by Monitor, applicants have to be able to demonstrate their clinical and financial viability and sustainability as well as their overall capacity and capability to take on the additional freedoms and flexibilities. Monitor's authorisation process is a disciplined and very challenging process. It ensures that NHS foundation trusts are clinically and financially sustainable, effectively governed, locally representative, legally constituted and well managed. This is important if they are to operate with sufficient autonomy, achieve and exceed national healthcare standards and become increasingly responsive to their communities. In allowing two-star acute, specialised and mental health trusts to apply to Monitor in addition to three-star organisations, there is no question of lowering standards for authorisation as an NHS foundation trust. Monitor will continue to be a rigorous as before in determining whether applicants can be authorised for foundation trust status.

NHS performance ratings have so far only been used as a way of identifying which trusts could be invited to apply for foundation status, but they are not part of the formal authorisation criteria. In 2006, the Healthcare Commission (the statutory name of which is the Commission for Healthcare Audit and Inspection) will replace the NHS performance ratings with an annual healthcheck performance rating system. It is therefore an appropriate time for the Government to revisit the entry requirements for foundation status and to broaden the base for applicants because the three-star requirement is too restrictive.

There are currently 32 NHS foundation trusts in operation. They are sustaining the core NHS principles of universality and equity, and collectively serving more than a quarter of the population in England. The continued rollout of NHS foundation trusts across the NHS is giving the public, patients and staff a louder voice in how their local healthcare services are designed and run. The Healthcare Commission's independent review of NHS foundation trusts and other reports have highlighted the significant benefits and opportunities presented by foundation status. We know that independence from central Government control and greater freedoms are giving NHS foundation trusts the opportunity to innovate new approaches to healthcare and healthcare services, for the benefit of NHS patients.

The Government remain committed to providing all NHS trusts with the opportunity to apply for NHS foundation trust status within the next three years. The decision on when to apply remains one to be taken locally.

National Creutzfeldt-Jakob Disease Surveillance Unit

The Parliamentary Under-Secretary of State for Health (Caroline Flint): The National Creutzfeldt-Jakob disease Surveillance Unit's (NCJDSU) 13th annual report has been published today. The report documents the unit's findings in relation to sporadic, familial and iatrogenic Creutzfeldt-Jakob disease, and also variant Creutzfeldt-Jakob disease up to 31 December 2004. Copies have been placed in the House Library, and the report is also available on the NCJDSU's website at www.cjd.ed.ac.uk.

HOME DEPARTMENT

Bichard Inquiry

The Secretary of State for the Home Department (Mr. Charles Clarke): Hon. Members will recall I made a statement to the House on 11 January 2005 updating them on progress in implementing Sir Michael Richard's recommendations arising from his inquiry into issues surrounding the Soham murders. I have today placed in the Libraries of both Houses copies of the Government's second progress report on the on-going work. Although Sir Michael has now taken a step back from this work, it is in response to his suggestion that the six-monthly cycle of reporting be sustained that I have chosen to report now and I will offer a further update to the House in March 2006.

It is now clear that the inquiry has been a catalyst which has concentrated both the Government and the public services on improving the safeguarding of children and vulnerable adults. We are making good progress across the 31 recommendations, with a number already achieved and others nearing completion. We remain fully committed to implementation of the whole programme and to ensuring all the necessary resources are available. Beyond that, we will ensure that safeguarding remains a key priority as our broader work to improve delivery continues. For example, within the "Every Child Matters" initiative and as part of the development of the new National Policing Improvement Agency.

Sir Michael's recommendations have forced us to take a long hard look at the ways in which the police manage and share information. As a result, the IMPACT programme (Information Management, Prioritisation, Analysis, Co-ordination and Tasking) which is now in place will deliver huge changes to working practices and technology. These will greatly reduce the risk of the kind of failings in information sharing which formed part of the background to the Soham murders. A comprehensive code of practice on police information management will come into force on 14 November and will be backed up by extensive training and operational guidance. New technology to enable information sharing between forces will begin rolling out to their Child Abuse Investigation Units by the end of this year. This new capacity for sharing will be progressively extended as systems develop through to 2009 and beyond.

Equally crucial are arrangements for sharing information between the police and other agencies such as social services. Key improvements are being developed as part of the current work to revise the Working Together framework which will be completed by the end of this year.

The development of a central vetting and barring scheme covering all those wishing to work with children or vulnerable adults is well underway. It will provide a comprehensive, centralised and integrated system to prevent unsuitable people from gaining access to vulnerable groups through paid or voluntary work. It will be implemented via the Safeguarding Vulnerable Groups Bill which will be introduced during this session.

New on-line training for head teachers and school governors covering the need to emphasise safeguarding as part of staff recruitment procedures has been developed. It was successfully launched in July and the scope to extend this training beyond the education sector is being considered.

Existing vetting procedures are also being strengthened. A Quality Assurance Framework to assist police forces in carrying out their roles in the vetting process has been finalised and is being rolled out.

Sir Michael was very supportive of the governance and co-ordination arrangement put in place and we have maintained the programme structure based on effective joined-up working across the Government Departments and delivery agencies involved. We are working closely with all stakeholders and agencies to ensure the interdependencies are properly managed and the projected benefits realised. At the point of delivery, training arrangements are being put in place to support implementation, together with targeted inspection and performance measurement regimes to ensure compliance with new and improved systems.

It is vital to ensure the same level of protection for all children and other vulnerable people, wherever they are in the United Kingdom. The Scottish Executive, the National Assembly for Wales and the Northern Ireland Office have therefore been closely involved in this programme of work. For some of the recommendations, the route to implementation will differ between jurisdictions, but the objective of effective, integrated systems is the same. The arrangements in different jurisdictions are set out in more detail in the report.

There are no shortcuts to delivering on the letter and the spirit of the Bichard inquiry, but the achievements and plans set out in the latest progress report are evidence of our commitment. The momentum must be maintained and I will provide a further update to this House in March 2006.

Young Adult Offenders

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): The National Offender Management Service is to establish a project to develop a strategy and standard for the management of younger adult offenders in custody and the community.

The purpose of the project will be to identify how the special needs of young adults can best be met in the context of the new approach to offender management, and taking account of the new custodial and community sentences in the Criminal Justice Act 2003.

Among other matters the project will consider the appropriate age range for those to be treated as young adult offenders, the use of the prison estate for this age group, and the regimes and interventions required in prison and in the community. It will also consider the commencement of Section 61 of the Criminal Justice and Courts Services Act 2000 (which abolishes the sentence of detention in a young offender institution) and the consequent safeguards which will be required for this age group.

The project will be led by the National Offender Management Service, and will involve operational interests from prisons and probation, and other Government Departments. Representatives from the voluntary and community sector will be invited to participate.

NORTHERN IRELAND

Tourism Ireland Limited

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): Tourism Ireland Ltd. annual report and accounts 2004 were deposited in the Houses of Parliament today.

Copies have been placed in the Library.

Written Ministerial Statements

Tuesday 8 November 2005

FOREIGN AND COMMONWEALTH AFFAIRS

Sanctions Regimes

The Minister for the Middle East (Dr. Kim Howells): The Government have committed themselves to informing Parliament on an annual basis of the sanctions regimes being implemented by the United Kingdom. Currently the United Kingdom implements mandatory United Nations sanctions, imposed by the UN Security Council acting under Chapter VII of the Charter of the United Nations, in relation to Al-Qaeda and the Taliban, Côte d'Ivoire, the Democratic Republic of the Congo, Iraq, Liberia, Rwanda, Sierra Leone, Sudan and Somalia. The UK also implements sanctions regimes imposed autonomously by the EU in relation to Belarus, Bosnia and Herzegovina, Burma, China, the former Federal Republic of Yugoslavia (in connection with individuals indicted by the International Criminal Tribunal for the former Yugoslavia), Moldova, Sudan and Zimbabwe. In accordance with a decision of the Organisation for Security and Co-operation in Europe (OSCE), the United Kingdom implements arms embargoes on Armenia and Azerbaijan. The Government also take full account of the Economic Community of West African States moratorium on certain exports of small arms and light weapons to the Economic Community of West African States members. A full list of sanctions regimes and restrictive measures implemented by the UK has been published on the Foreign and Commonwealth Office website at: www.fco.gov.uk/sanctions.

Syria/Lebanon: UN Sanctions

The Minister for the Middle East (Dr. Kim Howells): With the support of Her Majesty's Government, the United Nations Security Council on 31 October 2005 adopted UNSCR 1636 (2005) which calls on Syria to comply with the UN International Independent Investigation Commission inquiry into events surrounding the assassination of the former Prime Minister of Lebanon, Rafiq Hariri.

UNSCR 1636 (2005) warns Syria that if it does not co-operate with the UN inquiry then the Security Council will consider what further action is appropriate. The resolution also establishes sanctions against individuals suspected of involvement in the planning, sponsoring, organisation or perpetration of the assassination. The individual sanctions imposed comprise an assets freeze and a travel ban, with individuals being proposed by the UN Commission or Lebanese Government with the agreement of a UN Sanctions Committee established by UNSCR 1636 (2005). The Sanctions Committee will also be responsible for making decisions on permissible exemptions to the application of the individual measures. Such exemptions are defined by the resolution as including travel for humanitarian purposes (including in connection with religious obligation) and funds for basic expenses such as medical treatment, food and accommodation.

The measures will remain in place until the Sanctions Committee reports to the Security Council that all investigative and judicial proceedings relating to the assassination have been completed, unless the Security Council decides otherwise.

HEALTH

NHS (Pharmaceutical Services) Regulations 1992

The Minister of State, Department of Health (Jane Kennedy): In August 2003, the Department consulted on a package of proposals to reform the regulatory system governing national health service community pharmacy services. It also put forward possible options for further reform which, if pursued, would require primary legislation. When announcing the programme to implement the reforms in autumn 2004, Ministers said they would consider introducing new primary legislation:

(a) to enable reasonable charges, but not full cost recovery, to be introduced for applications concerning a chemist's inclusion on a NHS primary care trust list; and

(b) to allow NHS primary care trusts to take into account, when assessing applications, the improvements they would bring to the provision of, or access to, over-the-counter medicines and other healthcare products.

Ministers committed to consult further on such legislation. This consultation started on 25 July 2005 and ended on 20 September 2005.

These proposals are included in the Health Bill published on 27 October 2005. In relation to the second proposal, this will only apply where a primary care trust is assessing competing applications together.

A paper summarising the 29 responses received has been published today. Copies have been placed in the Library.

HOME DEPARTMENT

Immigration: Electronic Monitoring

The Minister for Immigration, Citizenship and Nationality (Mr. Tony McNulty): Section 36 of the Immigration and Asylum (treatment of claimants etc) Act 2004 allows for the electronic monitoring of those liable to be detained under the Immigration Acts. This includes asylum seekers, illegal entrants, those found working in breach of their conditions of stay, overstayers, people subject to further examination at a port of entry, and those refused leave to enter.

Electronic monitoring takes three forms: telephone reporting using voice recognition techniques, tagging and tracking. These are being used, in combination with face to face contact at immigration reporting centres, to improve compliance with the requirements we place on people to remain in contact with us. Contact Management, including electronic monitoring is a key aspect of the New Asylum Model as described in the five year plan.

During the passage of the 2004 Act, the then Minister for Immigration and Citizenship, my right hon. Friend the Member for Stretford and Urmston (Beverley Hughes) stated that an electronic monitoring requirement would be imposed only with the consent of the individual. This commitment was re-iterated when her successor my right hon. Friend the Member for Kilmarnock and Loudoun (Mr. Browne) wrote to the Joint Committee on Human Rights. Consent is not a statutory requirement but was introduced as a matter of policy in recognition of the novel use of electronic monitoring in the immigration context.

The electronic monitoring pilots have generally been a success, but asking for the subject's consent is inconsistent with any other area of contact management. It hampered our ability to manage contact with people flexibly because the need for consent left us with very little recourse if the individual failed to give it or where, having initially agreed to be monitored electronically, they subsequently failed to comply. That is why I agreed a change in the policy before the summer recess to allow the Immigration Service to draw up contact management plans without first seeking the consent of the individual. The consideration of whether the individual will comply with specific requirements will be part of the process of deciding how best to manage contact and this change places us in a stronger position by enabling us to consider what action to take where someone fails to comply with an electronic monitoring requirements.

The impact on compliance in the short period since the change in policy has been positive. Between July and September of 53 people who failed initially to comply with telephone reporting, 47 began to do so after one written warning that their continued failure may lead to their re-detention. Since the start of the pilot in October 2004, we have tagged 49 people, 23 of them since the policy on consent was changed, but we have seen no adverse impact on the level of compliance notwithstanding that we have tagged a larger proportion of high risk cases without seeking their consent.

This is a promising start, but we shall continue to monitor the situation as electronic tagging is applied in increasing numbers. I will update the House on the progress we are making in a further statement early in the New Year.

INTERNATIONAL DEVELOPMENT

Debt Relief

The Secretary of State for International Development (Hilary Benn): Excellent progress has been made on implementing the two key commitments on debt relief made by G8 leaders at the Gleneagles summit in July. In addition, the UK has granted further bilateral debt relief over the summer, and I take this opportunity to provide an update on the Heavily Indebted Poor Countries (HIPC) Initiative.

At Gleneagles, the G8 proposed 100 per cent. cancellation of the debts owed by qualifying countries to the International Monetary Fund, the International Development Association (IDA) of the World Bank, and the African Development Fund (AfDF) of the African Development Bank. Since then, the proposal has been discussed by the Board of Directors of each institution and received broad support, including from African countries. The IDA and IMF components were agreed at the Annual Meetings of the World Bank and IMF. The approval process is underway at the African Development Bank. We are working with others to resolve outstanding technical issues, and are confident that implementation of the new debt relief will begin in 2006. Up to $55 billion will be cancelled for the current 38 HIPCs, and we estimate that about $1 billion a year will be freed up for spending on poverty reduction in 2007, rising to $1.7 billion by 2010.

Countries will receive this 100 per cent. irrevocable debt cancellation when they complete the HIPC Initiative. There will be no further conditions attached. Countries that have already completed HIPC will need to demonstrate that they have maintained their commitment to poverty reduction and good macro-economic and public expenditure management. The allocation of additional donor resources through the existing Performance Based Allocation systems will then maintain a strong incentive for good policy and performance. In addition, Bank and Fund staff will continue to monitor and report on the overall efficiency of public expenditure as well as on progress in reducing corruption and enhancing transparency in recipient countries.

To ensure that the financing capacity of the World Bank and African Development Bank is not reduced, we and other G8 partners have committed to cover our share of the cost of the debt cancellation for IDA and the AFDF. We will make funds available ahead of the debt cancellation to cover the costs to the World Bank and African Development Bank for the next three years. We have committed to meet our share of ongoing costs for the duration of the loans, which in some cases is 40 years. These funds will be additional to the resources we had already agreed for these institutions as part of the recent replenishments of the concessional funds of the World Bank and the African Development Bank. G8 Finance Ministers have agreed that in future replenishment rounds the costs of the debt relief initiative be reported separately to ensure that they are clearly distinguishable. Debt relief at the IMF will be funded through internal resources as far as possible, but donors will provide additional resources if needed to ensure that the IMF's financing capacity is maintained.

The G8 also made a commitment to the achievement of a fair and sustainable solution to Nigeria's debt problems with Paris Club of Government creditors. I am able to report that a deal was formally agreed at the Paris Club on Thursday 20 October. This deal sees approximately $18 billion of Nigeria's debt cancelled, the remainder being repaid by Nigeria using part of its oil windfall. The UK's share of the debt cancellation is approximately $5.1 billion. The deal will be implemented in two phases over the next six months, after which Nigeria's entire debt to Paris Club creditors will have been resolved. This is the largest single debt deal ever reached with an African country. The Government of Nigeria have committed to ring fence the debt savings of about $1 billion a year to tackle poverty, and has invited national and international monitoring of all the spending, including by representatives of UK NGOs.

Steady progress is being made in implementing the Heavily Indebted Poor Countries (HIPC) Initiative. This targets the poorest, most indebted countries, reducing their debt burdens to sustainable levels, alongside reforms that help ensure that resources freed up are spent on poverty reduction. Rwanda, Zambia and Honduras all completed the HIPC process earlier this year and received irrevocable debt stock reductions. Most recently Burundi completed the first stage of HIPC by reaching Decision Point and so qualified for relief on its debt service payments. We expect other countries to qualify or complete the process early next year. The IMF and World Bank have stated that several more countries will be considered for the exceptional debt relief under HIPC. This is a result of the extended "Sunset Clause" which now gives countries until the end of 2006 to meet the criteria for being considered under HIPC—an extension that the UK was instrumental in lobbying for. A final list of countries is expected in early 2006. Both creditors and debtors need to maintain their efforts to ensure the full financing of the HIPC Initiative, and the full participation of all creditors. The UK is the second largest bilateral contributor to the HIPC Trust Fund, which helps multilateral organisations deliver their HIPC assistance in a timely manner. The UK has committed $436 million to date (including our share of the EC contribution) and in August made our latest payment—$20 million to cover the costs to the African Development Bank of debt stock write-off for Rwanda.

Once implemented, the G8 multilateral debt cancellation deal will supersede the UK's Multilateral Debt Relief Initiative (MDRI) for HIPC countries. For other qualifying countries, we will continue to cover 10 per cent. of their debt service to IDA and the AfDF.

In addition, the UK will give debt relief on about £42 million of development loans granted via the EU in the 1970s to 40 less developed countries. In 1978 the (then nine) EU Member States provided the World Bank's International Development Association (IDA) with $428.5 million to be lent on concessional terms. Earlier this year it was agreed that these should be treated as bilateral rather than joint funds. Consequently we will manage the UK share of these loans in line with international and UK policy on debt relief. All the nine Member States involved have agreed to cancel the loans to countries that have completed HIPC. In line with our policies, the UK will forgo payments from Decision Point and hold in trust payments between December 2000 and Decision Point; these monies will then be repaid when countries reach Completion Point. The total cost to the UK of cancellation for the HIPC countries will be about £22 million. In addition, I have decided to provide relief on our share (about £20 million) of the loans to the poorest non-HIPC countries, provided they are committed to poverty reduction, human rights and sound public financial management.

I have decided to grant assistance to the Government of Belize for a further year under the Commonwealth Debt Initiative (GDI). This decision will mean that Belize will not repay £1.458 million worth of official debt to the UK (representing payments that were due in the financial year 2003–04). The Government of Belize will put the money towards agreed poverty reduction initiatives and associated economic reform.

Darfur

The Secretary of State for International Development (Hilary Benn): On 17 October the World Health Organisation and Sudanese Ministry of Health published the report of the second Darfur mortality survey. This was a six-month retrospective mortality survey, covering the period from Bid el Fater in November 2004 to the start of the survey in May. The first survey was undertaken in August 2004, and covered deaths over a two-month period.

The report showed that while mortality rates in Darfur are still above baseline levels, they are significantly lower than the first survey and are below the international crisis threshold of one death per 10,000 people per day. In North and South Darfur, the average mortality rate was found to be 0.8 deaths per 10,000 people per day, and in West Darfur it was measured at 0.6 deaths per 10,000 people per day. The Red Cross/NGO "Sphere" project on minimum standards in disaster response puts the baseline mortality rate for Sub-Saharan Africa at 0.44 deaths per 10,000 people per day.

Due to poor security, the survey teams were unable to access some parts of Darfur especially South Darfur where the results apply only to internally displaced people in camps. The report also notes that there are times when mortality rates rise because of temporary increases in violence, seasonal disease outbreaks or breakdowns in food supply. Applying these mortality rates to the entire region for the entire year would therefore be misleading.

I am placing a copy of the report in the Library of the House of Commons.

TRADE AND INDUSTRY

Departmental Payment Performance 2004–05

The Secretary of State for Trade and Industry (Alan Johnson): The overall payment performance of Government is 97.09 per cent. Figures for the financial year 2004–05 show that there has been a continuing improvement on last year's figure of 96.68 per cent. There has also been a continued improvement in the payment performance of a number of Departments and agencies, with 65 per cent. achieving the average or above, and 54 per cent. improving on their performance of last year.

Government Departments and their agencies are required to monitor their payment performance and to publish the results in their departmental or annual reports. The table lists, by Department, the proportion of bills paid within 30 days, or other agreed credit period, on receipt of a valid invoice.

The Government take this issue very seriously, and is committed to improving the payment culture in the UK, in order to create fair and stable business transactions. The Government's own payment performance is an important element in this policy.

Main Departments 2004–05	Paid on Time %
Defence Bills Agency (Ministry of Defence)	100.00
Privy Council Office	100.00
Office for Government Commerce	99.86
Office of Gas and Electricity Mkts (OFGEM)	99.42

Foreign and Commonwealth Office	68.22
Overall Total	97.09

TRANSPORT

Office of Rail Regulation (Health and Safety Enforcement)

The Parliamentary Under-Secretary of State for Transport (Derek Twigg): The Railways Act 2005 provided for the transfer of certain health and safety functions on the railway (and other guided transport systems) from the Health and Safety Commission to the Office of Rail Regulation. In addition, regulations are required to transfer responsibility for the enforcement of health and safety legislation relating to such transport systems from the Health and Safety Executive to the Office of Rail Regulation. Draft regulations will also make clear that the Office of Rail Regulation will not have health and safety responsibilities for fairground equipment, guided buses or trolley buses. I have today published a consultation document on the draft regulations. The consultation will close on 5 December.

At the same time I have launched a consultation document on draft regulations under which the rail industry would fund the health and safety functions of the Office of Rail Regulation by means of a levy. The consultation on that document closes on 16 December.

Copies of both documents have been placed in the Library of the House.

WORK AND PENSIONS

Benefit Fraud Inspectorate (Boston Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Boston Borough Council was published today and copies have been placed in the Library.

In 2004–05, Boston Borough Council administered some £13 million in housing benefits, about 44 per cent. of its gross revenue expenditure.

In 2004–05 the council reported that it was taking 57 days on average to process new claims to housing benefits. At the time of the inspection in July 2005 the majority of the management team had only been in post for a few months but performance was beginning to improve as the backlog of claims had been cut. Allowing for some misreporting of performance the council was taking an average of 47 days to process new claims in the first quarter of 2005–06. However, significant further improvement is needed to meet the Standard of 36 days.

BFI found significant delays at each stage of the new claims process and in processing changes of circumstances. The longest delays were in the time taken to obtain all required information from customers. No monitoring of the throughput or clearance of work meant there was a lack of control over the flow of work. A limited management checking regime meant the council did not have reliable feedback on the quality of work done or the ability to identify areas were performance needed to be improved.

My right hon. Friend the Secretary of State is considering the report and may ask the council for proposals in response to BFI's findings.

Written Ministerial Statements

Wednesday 9 November 2005

CULTURE, MEDIA AND SPORT

Culture and Audiovisual Council Agenda

The Secretary of State for Culture, Media and Sport (Tessa Jowell): The Education, Youth and Culture Council will be held on 14–15 November in Brussels. Culture and Audiovisual issues will be taken on 14 November. As current President, I will chair the Council and Patricia Ferguson MSP, Scottish Executive Minister for Tourism, Culture and Sport, will represent the UK. Education and Youth issues will be taken on 15 November.

The agenda items for 14 November on which agreement is expected are as follows:

Partial political agreement on the Proposal for a Decision of the European Parliament and of the Council concerning the implementation of a programme of support for the European audiovisual sector (MEDIA 2007)—that is finalising First Reading on the content of the programme but not the funding.

Partial political agreement on the Proposal for a Decision of the European Parliament and of the Council establishing the Culture 2007 Programme (2007–13)—that is finalising First Reading on the content of the programme but not the funding.

General approach on the Proposal for a Decision of the European Parliament and of the Council establishing a community action for the European Capital of Culture event for the years 2007–19—agreement is subject to the receipt of the views of the European Parliament.

Adoption of a Council Decision designating Linz and Vilnius as the Capitals of Culture for 2009.

Adoption of a Council Decision appointing two members of the selection panel looking at cities being nominated as European Capital of Culture for 2010.

Other items on the agenda are:

An exchange of views on the digitisation of cultural heritage and the proposal for a European digital library.

Information and updates from the Presidency and the Commission regarding:

(a) UNESCO Convention on the protection of cultural contents and artistic expressions;

(b) Council work plan in the field of culture 2005–06;

(c) Proposal for a Decision of the European Parliament and of the Council on the Citizens for Europe Programme;

(d) Proposal for a Decision of the European Parliament and of the Council on the European Year of Intercultural Dialogue 2008.

Over lunch audiovisual Ministers will have an informal discussion on digital switchover.

HEALTH

National Health Service Dentistry

The Minister of State, Department of Health (Ms Rosie Winterton): We are committed to reforming National Health Service dentistry and improving access for patients. In the written statement of 16 July 2004, *Official Report*, cols 89–91WS, the Government announced the twin targets of recruiting 1,000 additional whole time dentists and funding 170 extra dental training places to address access issues. Both targets have now been achieved. Overall, over 1,400 dentists were recruited through a mixture of domestic and international recruitment. This contributed to a net increase of 1,100 dentists[1] in the last year, more than twice the average increase over the previous seven years.

The recruitment drive included (whole time equivalent dentists): 216 from Poland via the central Department of Health recruitment initiative; 297 from local international recruitment; 230 via expansion of the International Qualifying Exam; 88 from domestic returners to practice, supported by the Keeping in Touch scheme; and 622 reported by primary care trusts from local NHS activity to expand capacity in existing dental practices.

Some 189 additional dental students have now started their studies at dental school, 19 more than the original target. This brings the total number of dental undergraduates to 859, reflecting the popularity of dentistry as a career. This 29 per cent. increase is being supported by capital investment of £80 million over the four years from 2005–06, and revenue costs reaching £29 million by 2010–11.

Some 91 of the new dental training places have been allocated to the existing dental schools on a temporary basis while the Higher Education Funding Council for England conducts a bidding exercise to determine the permanent allocation of these places. This exercise will be completed by the end of January 2006.

This Government are committed to NHS dentistry and improving access for patients. The immediate benefits of the recruitment of 1,400 dentists are already clear to patients. The undergraduate expansion will stabilise the supply of dentists in the longer term and by 2010, there will be 850 extra dentistry students in training. These achievements will support the move to local commissioning of dental services from next April and the accompanying changes to contractual arrangements for NHS dentists. These reforms, when taken together with the healthy position on recruitment, will enable primary care trusts to replace capacity much more readily when other dentists leave the local area, the profession or increase their private work. The reforms will also improve the quality of dentists' working lives in the NHS and support improvements in access for NHS patients.

Quarter	*Dentists*

HOME DEPARTMENT

Identity Cards

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): Today I have published an extract of an independent review by KPMG of the cost methodology and cost assumptions used by the Identity Cards Scheme. KPMG concluded that the costing methodology is robust and appropriate for this stage of development. Copies of the extract will be placed in the House Library together with copies of the Home Office's summary of its work in progress on the areas of the Identity Cards Scheme highlighted by the review.

Written Ministerial Statements

Thursday 10 November 2005

DEFENCE

Battle Honour Awards (Operation Telic)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): In June 2005 Her Majesty The Queen graciously approved the award of a theatre honour ("Iraq 2003") and the battle honour ("Al Basrah") for units of the British Army. Subsequently, individual regiments and corps applied to the Army Honours and Distinctions Committee for the award of these Honours. Following receipt of the committee's recommendations, the Executive Committee of the Army Board has sought, and obtained, Her Majesty's gracious approval for the following awards to be made.

The following Regiments and Corps are to be awarded the Theatre Honour ("Iraq 2003"):

The Life Guards

The Blues and Royals (Royal Horse Guards and 1st Dragoons)

1st The Queen's Dragoon Guards

The Royal Scots Dragoon Guards (Carabiniers and Greys)

The Queen's Royal Lancers

Royal Tank Regiment

Irish Guards (*already awarded*[1])

The Royal Regiment of Fusiliers

The Light Infantry

The Royal Irish Regiment (27th (Inniskilling), 83rd, 87th and The Ulster Defence Regiment)

The Duke of Wellington's Regiment (West Riding)

The Black Watch (Royal Highland Regiment)

The Parachute Regiment

Army Air Corps

The Royal Yeomanry

The following Regiments and Corps are to be awarded the battle honour "Al Basrah":

The Life Guards

The Blues and Royals (Royal Horse Guards and 1st Dragoons)

1st The Queen's Dragoon Guards

The Royal Scots Dragoon Guards (Carabiniers and Greys)

The Queen's Royal Lancers

Royal Tank Regiment

Irish Guards (*already awarded*)

The Royal Regiment of Fusiliers

The Light Infantry

The Black Watch (Royal Highland Regiment)

The Parachute Regiment

Army Air Corps

[1] Her Majesty gave early approval, in June 2005, for the Irish Guards to be awarded the theatre honour "Iraq 2003" and the battle honour "Al Basrah". This early award allowed the Irish Guards to troop their colour, with their new theatre honour emblazoned upon it, at the Queen's birthday parade.

EDUCATION AND SKILLS

Student Finance

The Minister for Higher Education and Lifelong Learning (Bill Rammell): The regulatory impact assessment that was published alongside the Higher Education Act 2004 contained estimates of the fee income for the Higher Education sector and the costs of student grants and loans. These estimates were updated on 23 March 2005, *Official Report*, column 71WS. The figures below are a further update of the March statement. This latest update takes account of latest RAB charges, devolution of student support to Wales from academic year 06/07, updated student numbers and decisions about household income thresholds for the new maintenance grant for 2006–07, announced on 14 July 2005, *Official Report*, column 35WS. The latest RAB charges from 06/07 are 21 per cent. for maintenance loans and 33 per cent. for fee loans.

Table 1: Fee income for higher education providers

	Cost
Fee income from standard fee (based on standard fee 2006–07 fee of £1,200)	£900 million
Additional fee income from variable fees (based on 91 per cent. of universities charging full £3,000 fee)	£1,350 million
Total	£2,250 million

Table 2: Cost of student support

	Cost
New grant of £2,700	£860 million
Maintenance loans	£510 million
Fee Loans	£600 million

Table 3: Level of support to individual students: full-time students in Academic Year 06/07

Maintenance Loans	**Loan rate**
Full Year rates	
Students living at home	£3,415
Students living away from home in London	£6,170
Students living away from home outside London	£4,405
Final year rates	
Students living at home	£3,085
Students living away from home in London	£5,620
Students living away from home outside London	£4,080
Maintenance Grant	**Grant rate**
New Students with household income of £17,500 or less	£2,700
New Students with household income between £17,501–£37,425	Partial grant
Loans for Tuition Fees	**Loan rate**
New students	Up to £3,000
Continuing students	Up to £1,200

Notes:

1. Fee income figures rounded to the nearest £50 million. Remaining costs have been rounded to the nearest £10 million. Both are given in steady state 2006–07 terms.
2. The forecasts are based on RAB charges under a 2.2 per cent. discount rate of 21 per cent. for maintenance loans and 33 per cent. for fee loans. The RAB charge is an estimate of the percentage of

the face value of loans issued in a given year which reflects the resource cost over the expected life of the loan to the Government of making the loans. The RAB charge is made up of a) the face value of loans issued that are not expected to be repaid due to low income, death of the borrower, etc, and b) the net present value of the interest subsidy on loans that are repaid. There is an interest subsidy as borrowers pay zero real interest and the Government's current published discount rate in resource accounts is 2.2 per cent. Changes to the discount rate therefore cause changes to the RAB charges, and to the resource costs of student loans.

3. The maintenance loan forecast assumes an 82 per cent. take-up.

4. Fee loan forecasts are based on the assumption that 9 per cent. of students are charged a fee of £2,000 and 91 per cent. of students are charged a fee of £3,000. Average fee for new students will be £2,910. The forecasts also assume 80 per cent. take-up of fee deferral.

5. New grant forecasts reflect policy announcements on 14 July 2005.

6. Forecasts now exclude costs of student support for Welsh domicile students, following decisions about devolution of student support to Wales.

7. Table 3 refers to full-time, undergraduate students only. Means-testing arrangements for the Maintenance Grant and Student Loan Rates for 2006-07 were announced in a written statement, placed in the House on 14 July. Maintenance Loan entitlement will be reduced by a £1 for every £1 of Maintenance Grant payable up to a maximum of £1,200. Maintenance loan entitlement will continue to be reduced by a £1 for every £9.50 of household income in excess of £37,900 until 75 per cent. of loan maximum loan rate is left.

FOREIGN AND COMMONWEALTH AFFAIRS

Sanctions (Revised)

The Minister for the Middle East (Dr. Kim Howells): The Government have committed itself to informing Parliament on an annual basis of the sanctions regimes being implemented by the United Kingdom. Currently the United Kingdom implements mandatory United Nations sanctions, imposed by the UN Security Council acting under chapter VII of the Charter of the United Nations, in relation to al-Qaeda and the Taliban, Côte d'Ivoire, the Democratic Republic of the Congo, Iraq, Liberia, Rwanda, Sierra Leone, Sudan and Somalia. The UK also implements sanctions regimes imposed autonomously by the EU in relation to Belarus, Bosnia and Herzegovina, Burma, China, the former Federal Republic of Yugoslavia (in connection with individuals indicted by the International Criminal Tribunal for the former Yugoslavia), Iran (for nuclear rated dual use goods), Moldova, Sudan and Zimbabwe. In accordance with a decision of the Organisation for Security and Co-operation in Europe (OSCE), the United Kingdom implements arms embargoes on Armenia and Azerbaijan. The UK also imposes an arms embargo against Iran. The Government also take full account of the Economic Community of West African States (ECOWAS) moratorium on certain exports of small arms and light weapons to ECOWAS member states. A full list of sanctions regimes and restrictive measures implemented by the UK has been published on the Foreign and Commonwealth Office website at www.fco.gov.uk/sanctions.

Iraq: Export Licence System

The Minister for the Middle East (Dr. Kim Howells): On 11 October 2004, my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs announced in a written ministerial statement, *Official Report*, column 3WS, that, upon receipt of an application to export arms or related materiel to an end user not explicitly exempt from the embargo, the Government will seek certification on a case-by-case basis from the Government of Iraq or the multinational force. The certification is to ensure that the proposed export is required by the Government of Iraq or the multinational force to serve the purposes of Resolution 1546 and is therefore exempted from the embargo. A certification process has been established with the Government of Iraq.

Following consultation with the Foreign and Commonwealth Office and the Ministry of Defence, the Department of Trade and Industry recently made four exceptions to this procedure and issued licences in advance of receipt of certification from the Government of Iraq. All licences were for equipment to be used by a private security company to protect election monitors and ballot boxes for the Iraqi referendum. Equipment concerned included: armoured vehicles, body armour, military helmets, smoke grenades, mini signal flares, stun grenades and six machine guns. The Government received certification for the licences after they were issued.

HEALTH

Independent Nurse Pharmacist Prescribing

The Secretary of State for Health (Ms Patricia Hewitt): Two public consultations were carried out earlier this year on the future of independent prescribing by nurses and on the introduction of independent prescribing by pharmacists. The responses were overwhelmingly in favour of allowing appropriately qualified nurses and pharmacists to prescribe any licensed medicine for any medical condition. As a result, the Committee on Safety of Medicines has recommended to me that appropriately qualified nurses should be able to prescribe any licensed medicine for any medical condition within their professional competence—with the exception of Controlled Drugs. It has also recommended to me that a new category of non-medical prescriber—pharmacist independent prescribers—be introduced. They will have similar powers. I am announcing today that I am accepting these recommendations and that regulations will be amended to enable this from spring 2006.

We will be working with the relevant bodies across the United Kingdom—the Royal Pharmaceutical Society of Great Britain, the Pharmaceutical Society of Northern Ireland and the Nursing and Midwifery Council—to consider the training implications for their members who wish to take up these responsibilities.

This is very good news for patients who will benefit from quicker and more accessible service. It also demonstrates our confidence in nurses and pharmacists, and our wish to use their skills and professionalism to the full.

Patient safety remains paramount and strong safeguards are currently in place to regulate existing prescribing activity by nurses and pharmacists. We will work with professionals and the regulatory bodies to look at what, if any, additional measures are needed to ensure the right safeguards are in place. These extra prescribing flexibilities will only be available to nurses and pharmacists who have undertaken specific training, approved by the relevant professional and regulatory

bodies. Once trained, individuals will be required to keep their skills up to date. Nurse and pharmacist prescribers will need to work within their employers' clinical governance frameworks and they will be accountable to both their employers and their regulatory bodies for their actions.

HOME DEPARTMENT

Animal Procedures Committee

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): I am pleased to announce the appointment of four new members to the Animal Procedures Committee. They were appointed with effect from 1 February 2005.

Dr. John Doe is a Director of the Central Toxicology Laboratory and Global Head of Health Assessment at Syngenta. Mr Robert Kemp retired recently from AstraZeneca. He has over 20 years' experience of working as an animal care technician, and is the current Chairman of the Institute of Animal Technology. Professor Keith Kendrick is Head of Neuroscience at the Babraham Institute. Professor John Pickard holds senior neurosurgical/neuroscience clinical and academic posts in Cambridge.

Each has been appointed for a four year term. I am pleased that they have agreed to serve on this important committee.

Criminal Cases Review Commission

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): I would like to inform the House that Mr. David Jessel and Dr. James MacKeith have been re-appointed as Commissioners to the Criminal Cases Review Commission. Copies of the press release relating to these appointments are available in the House Library.

NORTHERN IRELAND

Probation Board for Northern Ireland

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have today received copies of the annual report of the Probation Board for Northern Ireland for the financial year 2004–05. The report outlines the Board's performance against targets during that year.

Copies of the report have been placed in the Libraries of both Houses.

North/South Implementation Bodies/Tourism Ireland Limited

The Secretary of State for Northern Ireland (Mr. Peter Hain): I have today placed in the Libraries of both Houses papers relating to decisions that have been taken during the period 1 October 2004 to 12 September 2005 which relate to the North/South Implementation Bodies and Tourism Ireland Limited under the terms of the Exchange of Notes of 19 November 2002 (Cmnd 5708).

Decisions that have been taken during the period 1 October 2004 to 12 September 2005 which relate to the North/South Implementation Bodies and Tourism Ireland under the terms of the Exchange of Notes of 19 November 2002 (Cmnd 5708).

FOYLE CARLINGFORD AND IRISH LIGHTS SECTOR

IP/FCILC 14 - Loughs Agency's Corporate Plan 2005–07, Business Plan for 2005 and Budgets 2005–07.

IP/FCILC 15 - Foyle Area and Carlingford Area (Licensing of Fishing Engines) (Amendment) Regulations 2004.

IP/FCILC 16 - Foyle and Carlingford Area Advisory Forum.

IP/FCILC 17 - Loughs Agency's Financial Statements and Annual Report periods ending 31 December 2001 and 31 December 2002.

IP/FCILC 18 - Foyle Area and Carlingford Area (Close Seasons for Angling) (Amendment) Regulations 2005.

FOOD SAFETY SECTOR

IP/FS 10 - Food Safety Promotion Board. Corporate Plan 2005–07, Business Plan for 2005, Budgets 2005–07 and 2003 Business Plan.

IP/FS 11 - Food Safety Promotion Board. North/South Pension Scheme.

IP/FS 12 - Food Safety Promotion Board. Appointment of a new Scientific Advisory Committee.

IP/FS 13 - Food Safety Promotion Board—Annual Report 2003 incorporating Financial Statements for 2002 and 2003 and a review of activities for 2001.

LANGUAGE SECTOR

IP/LAN 13 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency) Remuneration of staff and conditions of service for the Ulster-Scots Agency.

IP/LAN 14 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Code of conduct for staff of the Ulster-Scots Agency.

IP/LAN 17 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Remuneration of staff and conditions of service for Foras Na Gaeilge.

IP/LAN 18 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Staffing for Tha Boord O Ulster-Scotch (Ulster-Scots Agency).

IP/LAN 19 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency) Corporate Plans 2005–07 Business Plans and Budgets 2005 for Foras Na Gaeilge and the Ulster-Scots Agency.

IP/LAN 20 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Financial Assistance Schemes.

IP/LAN 21 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Annual Report and Accounts for period ended 31 December 2000.

IP/LAN 22 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Redeployment of two staff of Institiúid Teangeolaíochta Éireann to Foras na Gaeilge.

IP/LAN 23 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Remuneration and other conditions of Service of the Chief Executive of Foras Na Gaeilge.

IP/LAN 24 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). North/South Pension Scheme (Ulster-Scots Agency)

IP/LAN 25 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). North/South Pension Scheme (Foras na Gaeilge).

IP/LAN 26 - North/South Language Body (Irish Language Agency and Ulster-Scots Agency). Appointment of Board member to the North/South Language Body.

IP/LAN 28 - North/South Language Body (Irish Language Agency/Foras Na Gaeilge and Ulster-Scots Agency). Ulster-Scots Agency in-year bid for additional Funding.

TRADE AND BUSINESS DEVELOPMENT SECTOR

IP/TB 9 - Inter*Trade*Ireland. Corporate Plan 2005–07, Business Plan for 2005 and Budgets 2005–07.

IP/TB 10 - Inter*Trade*Ireland. Business Plan for 2005.

IP/TB 11 - Inter*Trade*Ireland. North/South Pension Scheme.

TOURISM SECTOR

IP/TOU 15 - Tourism Ireland Limited. Annual Report and Accounts for 2003.

IP/TOU 16 - Membership of Board of Tourism Ireland Limited.

IP/TOU 17 - Tourism Ireland Limited. Corporate Plan 2005–07, Business Plan for 2005 and Budget 2005–07.

IP/TOU 18 - Tourism Ireland Limited. North/South Pension Scheme.

IP/TOU 19 - Tourism Ireland Limited. Annual Report and Accounts for 2004.

INLAND WATERWAYS SECTOR

IP/WI 8 - Waterways Ireland. Corporate Plan 2005–07, Business Plan for 2005 and Budgets 2005–07.

IP/WI 9 - Proposal to make a compulsory purchase order at Webb's Bridge, Abbeyshrule, Co Longford.

IP/WI 10 - Waterways Ireland. Remuneration and other conditions of service of the Chief Executive.

IP/WI 11 - Waterways Ireland. Capital Funding 2004–05.

IP/WI 12 - Waterways Ireland. North/South Pension Scheme.

IP/WI 13 - Waterways Ireland. Annual Report and Accounts for 2003.

IP/WI 14 - Proposal to make a compulsory purchase order at Longford Bridge, Ballymahon, Co Longford.

IP/WI 15 - Waterways Ireland. Pay awards for staff based in Northern Ireland.

IP/WI 16 - Electricity Generation project, Tarmonbarry, River Shannon.

IP/WI 17 - 900 year lease on the River Shannon at Jolly Mariner, Athlone, Co Westmeath to Mr John Lally.

SPECIAL EU PROGRAMMES SECTOR

IP/SEU 12 - Special EU Programmes Body. Remuneration of staff and conditions of service.

IP/SEU 13 - Approval of Interreg IIIA Programme Complement.

IP/SEU 14 - Special EU Programmes Body. Corporate Plan 2005–07 Business Plan and Budget 2005.

IP/SEU 15 - Special EU Programmes Body. Annual Report and Accounts for 2003.

IP/SEU 16 - Special EU Programmes Body (SEUPB) staffing.

IP/SEU 17 - Extension of Peace II Operational programme amendments.

IP/SEU18 - Special EU Programmes Body. North/ South Pension Scheme.

IP/SEU 19 - Special EU Programmes Body. Business Plan 2006 and Budget 2006.

TRANSPORT

Renewable Tramport Fuel

The Secretary of State for Transport (Mr. Alistair Darling): We announced last year that we would conduct a feasibility study into the prospects for an obligation on transport fuel suppliers to ensure that a proportion of their sales were from a renewable source.

In the light of the completed study, the Government will introduce a renewable transport fuel obligation. The level of obligation will be 5 per cent. in 2010.

An obligation will ensure a cost effective transition to a renewably fuelled transport system over the long term, saving around 1 million tonnes of carbon emissions a year by 2010. Carbon savings could increase in future years, depending on how the level of obligation changes. This will help to reduce the impact of transport on climate change, and increase the United Kingdom's fuel security and diversity of supply.

To ensure that biofuels are sourced sustainably, obligated companies will be required to report on the level of carbon savings achieved and on the sustainability of their supplies.

The Government will consult widely on precisely how the obligation will operate.

A copy of the study and accompanying regulatory impact assessment have been placed in the Library of the House.

WORK AND PENSIONS

Work and Pensions Longitudinal Study

The Minister for Pensions Reform (Mr. Stephen Timms): From January 2004, following the Employment Act 2002 which introduced new data sharing provisions, the Work and Pensions Longitudinal Study has linked benefit and programme information held by the Department for Work and Pensions (DWP) on its customers, with employment records from Her Majesty's Revenue and Customs (HMRC).

To promote and facilitate retirement planning, section 234 of the Pensions Act 2004 provides new functions for the Secretary of State. To aid these functions sections 235 and 236 of and schedule 10 to the Act provide for information to be supplied to the Secretary of State for such purposes.

To enable the Secretary of State to carry out his function of promoting and facilitating retirement planning and the development of private pensions policies, DWP has expanded the database through the linking of financial data relating to PEPs, ISAs, TESSAs, private pension pots and savings accounts for all aged 60 and over. At the same time, in order to better support evaluations of welfare-to-work activity DWP has added earnings information for people aged 16 and over who have been a DWP client.

DWP and HMRC have been working together to enable this data sharing to take place and to develop safeguards for the initiative.

It is the Department's intention to link housing benefit/council tax benefit to this database. Initially housing benefit and council tax benefit information will only be linked for present and historic data to DWP benefits data. It is also the intention to link housing benefit and council tax benefit information to HMRC data, however this aspect of linking needs further investigation.

The extension to the scope of the Work and Pensions Longitudinal Study will be used to perform a range of new statistical and research analyses, as well as being used for some limited operational purposes, and will give DWP further opportunities to improve and evaluate the effectiveness of its businesses. It will, for example for those aged 60 and over:

improve data matching to support the Pension Credit take-up campaign;

enable better segmentation of the population in support of this activity;

enable better understanding and research with regard to people who work beyond state pension age; and

enable DWP to understand the links between savings held and the benefits system in retirement and how people are using or accumulating savings in retirement.

And for those of both working and pension age, it will:

enable DWP to evaluate its policies more effectively and to understand better the links between Housing Benefit and the rest of the welfare system to assist in future policy planning; and

use earnings data to better support evaluations of welfare-to-work programmes and further develop policies.

DWP has a legal and ethical responsibility to ensure that the Work and Pensions Longitudinal Study is used appropriately. We have, therefore, developed a set of safeguards around access rights, system monitoring, storage retention of the information and vetting of new uses (these are attached to this statement). Information on this, and a full range of the study's uses, has been placed in the Library and on the Department's website at http://www.dwp.gov.uk/asd/longitudinal_study/ic_longitudinal_study.asp.

Written Ministerial Statements

Friday 11 November 2005

TREASURY

Pensions Tax Simplification

The Economic Secretary to the Treasury (Mr. Ivan Lewis): The new simplified regime for the taxation of pensions begins on 6 April 2006. I can today announce that registered pension schemes will be permitted to submit reports and returns in paper form for at least six months before the requirement to submit information online becomes mandatory.

HMRC's Pension Schemes Online service will become available over a number of releases throughout 2006–07. Pension Scheme administrators and practitioners will be able to meet most of their statutory filing requirements online at the time that they are required, but paper returns and reporting will also be offered as a supplementary means of filing for a limited period.

HMRC will continue to work closely with the industry over the forthcoming months to support the implementation of the new regime. HMRC will be holding discussions with the pensions industry and software suppliers to establish what issues this delay may present and how best to address them, before moving to a mandatory online filing regime.

This delay will not affect HMRC's ability to deliver Pensions Tax Simplification on 6th April 2006. The vast majority of pension schemes and their members will also not be affected by this delay. The new pensions regime heralds greater opportunities for 15 million pension savers to save more into a pension scheme and enjoy the associated flexibilities around contributions and the taking of retirement benefits.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Association of British Insurers

The Minister for Climate Change and the Environment (Mr. Elliot Morley): I am pleased to report to the House that the Association of British Insurers (ABI) has agreed a revised Statement of Principles on flood insurance taking into account commitments made by the Government on our programme to manage flood risk. It updates the existing Statement introduced in January 2003. The revised Statement, which is attached, will come into effect on 1 January 2006, and reflects the continued partnership between the industry and the Government.

In relation to the commitments made under the Statement of Principles, Government have significantly increased investment in flood management since 1997 and is committed to levels of spend of £570 million a year throughout the 2004 spending period to 2007–08. This is over £250 million a year more than in 1997. The Environment Agency is committed to delivering a programme of efficiencies that will be re-invested in flood management so as to maintain outputs in real terms. We are on target to deliver increased protection to over 80,000 houses since April 2003 and Operating Authorities have a forward programme of works which is planned to deliver the reduction in risk agreed with the ABI.

The Environment Agency has published on their internet site an interactive flood map for England and Wales which shows the areas of land that could be at risk of flooding from rivers and the sea. The Agency is continually working to improve and update the information on flood defences and its flood mapping, and is committed to sharing this with all stakeholders.

Water and sewerage company plans to reduce public sewer flooding problems formed an important part of OfWat's price review for the period 2005–10. Over the next five years, almost £1 billion will be invested in the public sewer network to reduce significantly the risk of properties being flooded by sewage.

The Government have published its first response to the 'Making space for water' consultation including commitments to review and strengthen the planning process in flood risk locations, initiate pilot projects to develop integrated drainage partnerships in urban areas, encourage the uptake of property level resilience measures and to give the Environment Agency a strategic overview role for all types of flooding.

ABI UPDATED STATEMENT OF PRINCIPLES

General policy

It is the intention of ABI members that flood insurance for existing domestic properties and small businesses should continue to be available for as many customers as possible. The premiums charged and other terms—such as excesses—will reflect the risk of flooding but will be offered in a competitive market. There is separate ABI guidance on flood risk and new development.

This revised Statement of Principles will apply from 1 January 2006 but is subject to review in the event of significant external shocks such as withdrawal of flood reinsurance. Successfuloperation of the Statement is dependent on action by the Government to manage flood risk effectively.

Current position

The majority of the 2.2 million properties in flood risk areas are already protected to a minimum standard of 1.3 per cent. annual probability (one in 75 years) or better. However, around 15 per cent. of properties in the floodplain have a significant chance of flooding (greater than 1.3 per cent. annual probability). In some of these areas there are planned improvements to flood defences to reduce the risk, but there are other areas where there are no plans for improvement.

Despite these risks, insurers have continued to provide flood cover for the vast majority of customers in the UK.

Insurers' renewed commitment

Areas where flood risk is 1.3 per cent. annual probability (or one in 75 years) or less:

Flood cover will be available as a standard feature of household and small business policies. The level to which properties are defended above this standard will vary considerably and premiums will reflect different degrees of risk. Highly populated coastal areas, in particular, should be protected to a higher standard because of the potential consequences should a flood occur.

Areas of significant flood risk (greater than 1.3 per cent. annual probability or one in 75 years) where improved defences are planned:

Insurers will maintain flood cover for domestic properties and small businesses that they already insure where improvements in flood protection schemes sufficient to reduce the likelihood of flooding to 1.3 per cent. annual probability or less are scheduled for completion within the next five years. This will operate as a rolling five-year commitment provided the Statement of Principles remains in force. Delays or disruptions could take a scheme beyond the five-year commitment. The premiums charged and other policy terms—such as excesses—will reflect the risk.

If a domestic property in this category is sold the current insurer will continue to provide cover, subject to satisfactory information about the new owners of the property, especially their previous claims record. Where a small business is sold the current insurer will consider whether to continue to provide cover; this will depend heavily on the proposed new use of the premises and the previous claims record of the new owner.

Areas of significant flood risk (greater than 1.3 per cent. annual probability or one in 75 years) where no improvements in defences are planned:

In these areas, insurers cannot guarantee to maintain cover, but will examine the risks on a case-by-case basis. Insurers will use their best efforts to continue to provide cover and will work with the owners of domestic properties and small businesses which they currently insure to see what action could be taken by the property owner, the Environment Agency and the local authority to make the property insurable in some form. This action might include the use of accredited products, flood resilient materials and temporary defences to defend the property.

Action from Government

Continued operation of this Statement will depend on Government progress on the five key actions set out below, with an annual review of progress against specific performance targets, and a more comprehensive assessment after three years:

Reducing the annual probability of flooding each year for a substantial number of properties in the UK, a proportion of which currently have a significant chance of flooding (greater than 1.3 per cent. annual probability).

At least maintaining investment in flood management each year, so that outputs can be sustained in real terms, with a commitment to evidence-based discussions on future funding needs, taking account of climate change and other factors affecting risk.

Implementing reforms to the land-use planning system to ensure that new developments do not lead to an increase in national or local flood risk.

Communicating flood risk effectively, including providing higher quality and more detailed information on flood risk, and on existing, new and upcoming flood protection schemes.

Developing an integrated approach to urban drainage that alleviates the risks of sewer flooding and flash-flooding.

Levy Board Report

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): Rosemary Radcliffe has completed her independent review of UK agricultural and horticultural levy bodies, and her report is published today. Copies are being placed in the Libraries of both Houses. My ministerial colleagues in Scotland, Wales and Northern Ireland and I wish to offer our thanks to the Reviewer for the thorough and inclusive way in which she has carried out her work.

In summary, the Reviewer finds that there is still a case for statutory levies to address issues of market failure in the sectors in question, and she makes recommendations for a new structure to meet the sectors' needs in future. This includes proposed arrangements for improving governance, flexibility, focus inactivities undertaken, levy collection arrangements, and operations and service delivery, to increase overall value for money for, and accountability to the levy payer.

My noble Friend Lord Bach is today launching a full consultation on the report so that the views of stakeholders, and in particular levy payers, can be taken into account before formal policy proposals are developed. This consultation will run for 12 weeks, and a further statement will be made thereafter.

FOREIGN AND COMMONWEALTH AFFAIRS

UK Presidency: General Affairs and External Relations Council

The Minister for Europe (Mr. Douglas Alexander): A General Affairs and External Relations Council (GAERC) was held on 7 November in Brussels. My right hon. Friend the Foreign Secretary (Mr. Jack Straw) and I chaired the Council as Presidency. I also represented the UK on certain agenda items.

The agenda items were covered as follows:

Report on Informal Heads of State/Government meeting (Hampton Court, 27 October 2005)

The Presidency presented the six remits from Hampton Court: Research and Development, Universities, Demographic challenge, Energy, Migration, and the Common Foreign and Security Policy/European Security and Defence Policy (CFSP/ESDP). The Commission said they would take forward the first five remits, in consultation with the current and future Presidencies. The High Representative, in association, where appropriate, with the Presidency, the future Presidency and the European Commission, agreed to take forward work in the area of CFSP/ESDP.

World Trade Organisation (WTO)/Doha Development Agenda (DDA)

Following up the extensive GAERC discussion and agreed Conclusions of 18 October, Commissioner Mandelson updated the Council on the state of play in the DDA negotiations in the light of its recent conditional offer and forthcoming meetings among WTO members. The Commission confirmed that it was continuing to act within its mandate, and would continue to ensure that the Council was fully informed of developments in the negotiations. The Council also agreed, as an A point, Conclusions noting support for Saudi accession to the WTO.

Financial Perspectives 2007–13

The Council exchanged views on the EU's budget for 2007–13 and identified the areas that will need to be addressed in order for the Presidency to reach an agreement at the 15/16 December European Council: (i) the structure of EU spending; (ii) modernising the budget, including a timetable for review; and (iii) the system of EU own resources. The Presidency concluded that work on these areas should continue and that it would return to the issue at the 21/22 November GAERC.

Belarus

The Presidency introduced the item noting the deteriorating situation on human rights and political freedoms in Belarus. High Representative Solana underlined the difficulty faced by the EU in trying to bring about reform. Commissioner Ferrero-Waldner agreed noting their efforts to realign aid towards support for civil society. A large number of delegations spoke expressing concern at the deteriorating situation and highlighting the need to intensify contact and support to civil society. The Council also noted the importance of free and fair Presidential elections in 2006 and called for the Belarusian Government to issue an early invitation to an OSCE/ODIHR monitoring mission. The Council expressed willingness to take appropriate restrictive measures against responsible individuals in the event of a failure to uphold international standards. Council Conclusions were agreed which committed the Council to a further GAERC discussion in January 2006.

Kosovo

Over lunch the Council held a discussion with Martti Ahtisaari, the UN Secretary General's future Kosovo Status Envoy. Ahtisaari welcomed EU involvement in the Status process and gave an initial indication of how he intended to take forward his mandate. He also flagged the importance of addressing Kosovo's poor economic situation. High Representative Solana nominated Stefan Lehne as EU Representative to the Kosovo Status Process. The Council expressed strong support for Ahtisaari's appointment and endorsement of Stefan Lehne as EU representative. Council Conclusions were agreed.

Iran

The Council reviewed the EU's overall relations with Iran. They condemned President Ahmadinejad's reported remarks calling for Israel to be wiped from the map. They agreed that recent developments had been discouraging in the EU's main areas of concern, including Iran's approach to WMD and terrorism, the human rights situation, and Iran's policies towards the Middle East Peace Process and regional issues. They noted the importance of the EU/Iran Comprehensive Dialogue, and urged Iran to take steps to resume substantive discussions under the EU/Iran Human Rights Dialogue and to demonstrate by its actions that it is willing to improve respect for human rights.They agreed to keep the EU's relations with Iran under close review. Council Conclusions were agreed.

Syria/Lebanon

The Council underlined the significance of the unanimity achieved on UN Security Council Resolution 1636 on Syrian and reviewed progress on the implementation of UNSCR 1559. Council Conclusions were agreed.

MEPP

The Council discussed an invitation from James Wolfensohn, Quartet Special Envoy for Disengagement, on behalf of Israel and the Palestinian Authority for the EU to play a monitoring role at Rafah on the Egypt-Gaza border. Commissioner Ferrero-Waldner and High Representative Solana highlighted that an EU role in this area would help build confidence. In discussion Member States supported the idea of EU involvement in a non-executive monitoring role. This was the fruit of a continuous effort on the ground, which would reinforce the EU's political role. The Presidency concluded that there was a general endorsement for the proposals by the High Representative and the Commission. Council Conclusions were agreed.

Iraq

The Council agreed Conclusions that welcomed the 15 October referendum on the Iraqi Constitution.

UN World Summit follow-up

The Presidency introduced this item, noting that effective follow-up to the UN Summit was a priority for the EU. Member States highlighted certain aspects such as the Peacebuilding Commission, Human Rights Council, and Counter-Terrorism as key areas for urgent action. The Council agreed extensive Conclusions that set out the agreed EU position on all the key areas of Summit implementation.

Avian Flu

The Presidency introduced the item, noting the earlier discussion at the GAERC on 18 October. The Commission noted that work within the EU was well advanced. The Council agreed Conclusions that detailed the range of work under way, including a comprehensive action plan.

AoB—Colombia

Dutch Foreign Minister Bot highlighted the importance of EU support for the peace process in Colombia. The Presidency noted that the 3 October GAERC had agreed Conclusions on support for the peace process in Colombia, which set the framework for EU policy.

AoB—Cuba

The Czech Republic highlighted the problems faced by their Embassy in Havana in celebrating their national day.

HOME DEPARTMENT

Police Force Structures Review

The Secretary of State for the Home Department (Mr. Charles Clarke): Her Majesty's Inspectorate of Constabulary's (HMIC) report, "Closing the Gap", published in September 2005 concluded that the current 43 force structure in England and Wales was no longer "fit for purpose". The report recommended that the best business solution was for the police service to reconfigure based on strategic forces of sufficient size to provide both effective neighbourhood policing and protective services to combat serious organised crime and terrorism.

Following the publication of the HMIC report, the Home Secretary asked all police forces and authorities to consider the best options for their region and to submit them to him by 23 December 2005. The first stage in this process was for police forces and police authorities to develop by the end of October short listed options for each region. This stage has now been completed and feedback has been provided to all chief officers and chairs of police authorities indicating which proposals appear to be most favourable for each of the nine Government Office regions in England and for Wales. The options identified for further development are set out below, although authorities are still free to develop alternative options alongside these.

In recommending particular options, the arguments put forward by forces and authorities have been carefully considered along with the need to create a balanced and resilient policing landscape across the whole of England and Wales. Neighbourhood and Basic Command Unit (BCU) level policing remain the essential local face of the police service, and by ensuring greater resilience and capability in our police service we will help maintain this service, whilst at the same time

strengthening the capacity to deal with serious and organised crimes, major incidents and counter-terrorism.

Forces and authorities are now being asked to complete a cost benefit analysis for all of their short listed options. They will then develop a business case and initial implementation plans for their recommended option to be submitted to the Home Secretary.

The Secretary of State for Transport announced in a written statement on 11 October that, in the context of this review, he would be reviewing separately the role of the British Transport Police (BTP) Proposals for the British Transport Police will be brought forward, if appropriate, once the outcome of that review is known.

My right hon. Friend the Minister of State for Policing, Security and Community Safety (Ms Hazel Blears) has written to all Parliamentary colleagues on this matter inviting them to join the consultation process.

Options assessed at this stage as suitable for progression

South East	1. Two strategic forces: Kent, Surrey and Sussex; Thames Valley and Hampshire 2. Three strategic forces: Kent; Thames Valley; Surrey, Sussex and Hampshire 3. Three strategic forces: Kent, Surrey and Sussex; Thames Valley; Hampshire 4. Three strategic forces: Kent and Sussex; Thames Valley; Hampshire and Surrey 5. Four strategic forces: Kent; Thames Valley; Surrey and Sussex; Hampshire
South West	1. Regional South West force 2. Two strategic forces: Devon and Cornwall; Avon and Somerset, Gloucestershire, Wiltshire and Dorset
West Midlands	1. Regional West Midlands force 2. Two strategic forces: Staffordshire and West Mercia; Warwickshire and West Midlands
East Midlands	1. Regional East Midlands force 2. Two strategic forces: Derbyshire and Nottinghamshire; Leicestershire, Lincolnshire and Northamptonshire
Eastern	1. Regional Eastern force 2. Two strategic forces: Bedfordshire, Hertfordshire and Essex; Suffolk, Norfolk and Cambridgeshire 3. Two strategic forces: Norfolk, Suffolk and Essex; Hertfordshire, Bedfordshire and Cambridgeshire
Yorkshire and Humberside	1. Regional Yorkshire and Humberside force 2. Two strategic forces: West Yorkshire and North Yorkshire; South Yorkshire and Humberside
North East	1. Regional North East force
North West	1. Three strategic forces: Lancashire and Cumbria; Cheshire and Merseyside; Greater Manchester Police 2. Two strategic forces: Lancashire, Cumbria and Merseyside; Cheshire and Greater Manchester Police
Wales	1. National Wales force
London	1. Strategic force: Metropolitan Police Service and the City of London 2. Collaboration between the Metropolitan Police Service and the City of London
BTP	1. Proposals for the British Transport Police will be brought forward, if appropriate, once the outcome of the current DfT review is known

Written Ministerial Statements

Monday 14 November 2005

TREASURY

National Insurance Contributions Bill 2005

The Paymaster General (Dawn Primarolo): To assist in further consideration of the National Insurance Bill, introduced to Parliament on 27 October, Her Majesty's Revenue and Customs is today publishing draft regulations in respect of:

The first use of the powers in the Bill to backdate National Insurance liability to reflect the provisions in Schedule 2 of the Finance (No. 2) Act 2005.

To prescribe an additional statement to be contained in future forms of National Insurance elections that will make clear the election cannot transfer backdated employers National Insurance liabilities to their employees. This regulation is to be made using existing powers in the Social Security Contributions and Benefits Act 1992.

Extending the tax avoidance disclosure rules to National Insurance.

Copies of the draft regulations have been placed in the Library of the House and will also be available on the HMRC website.

CULTURE, MEDIA AND SPORT

Objects of Cultural Interest (Export Controls)

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. David Lammy): I have today laid before both Houses of Parliament the revised Statutory Guidance on the Criteria to be taken into consideration when making a decision about whether or not to grant an export licence, as required under the Export Control Act 2002.

DEFENCE

International Security Assistance Force

The Minister of State, Ministry of Defence (Mr. Adam Ingram): As previously announced by the Prime Minister, *Official Report*, 30 June 2004, column 286, the United Kingdom is committed to deploy the Headquarters Group of the Allied Rapid Reaction Corps to lead the International Security Assistance Force (ISAF) from May 2006 to February 2007. In addition, the Secretary of State for Defence has previously informed the House, *Official Report*, 7 July 2005, column 479, of preliminary plans to support the expansion of ISAF by establishing a British-led Provincial Reconstruction Team in the province of Helmand, in Southern Afghanistan. The aim of both would be to help restore Afghanistan as a secure and stable state, and prevent the country again becoming a haven for global terrorists.

The ISAF is led by NATO, which is currently planning the expansion of the ISAF into the South and East of Afghanistan. Once these plans mature, individual Allies, including the United Kingdom, will be able to take final decisions on deployment and on the nature of the capabilities that may be required.

In advance of this, however, it is sensible to begin British preparations for a potential deployment. These are necessarily based upon national planning assumptions which may need to be adapted in the light of NATO's conclusions and the final positions taken by individual allies and partners, including the UK.

In the first instance, the tempo of work to prepare the ground in Helmand for a possible British deployment is being increased. These activities are initially likely to involve some 250 troops.

Preparations are also underway in the United Kingdom. Some units, predominantly drawn from 16 Air Assault Brigade and the Joint Helicopter Command, will shortly commence collective training on a contingency basis. Similarly, the procurement of certain equipment enhancements that may be needed for a deployment of this nature is underway.

These necessary measures are prudent military preparations for a possible future deployment. They do not mean that these units or capabilities will be committed to Southern Afghanistan in 2006. No final decisions have yet been made. Should the United Kingdom decide to commit additional forces to the ISAF in 2006, a full statement will then be made to the House as soon as possible.

Operations in Afghanistan

The Minister of State, Ministry of Defence (Mr. Adam Ingram): With the expiry of the call-out order made last October, a new order has been made under Section 54 of the Reserve forces Act 1996 to enable Reservists to continue to be called out into service to support operations in Afghanistan. The new order is effective until 31 October 2006. Reservists have made a valuable contribution to operations in that country and some 63 Reservists were called out under the order made last year.

EDUCATION AND SKILLS

Education and Youth Council

The Minister for Higher Education and Lifelong Learning (Bill Rammell): The Secretary of State for Education and Skills will be chairing the Education and Youth Council which will be held in Brussels on 15 November. I will represent the UK during the Education Council and Peter Peacock, Scottish Minister for Children and Young People, will represent the UK during the Youth Council.

There are four substantive items on the education agenda in the morning.

Ministers are expected to endorse a partial political agreement on the Lifelong Learning Programme. This will involve agreement on all parts of the programme without budgetary implications.

Ministers will be asked to adopt a resolution on enabling higher education to make its full contribution to the Lisbon Strategy. There will also be an informal discussion over lunch

of issues relating to higher education based around questions relating to making more higher education institutions world class; stimulating more public/private partnerships; university-business links and postgraduate study.

Ministers are also expected to adopt conclusions on the role of the development of skills and competences in taking forward the Lisbon agenda. These conclusions build on discussions at the Informal meeting of Education Ministers in London on 12–13 July and are a Presidency initiative but fit within the ongoing Education and Training 2010 work programme.

There will be an exchange of views on the "Education and Training 2010" Work Programme—Joint Interim Report 2006. The discussion will focus on the following question, 'What priorities, in relation to both economic and social objectives, should the 2006 Joint Report set for the next phase of the "Education and Training 2010" Work Programme?'

The Youth Council will take place after lunch and Ministers will be asked to:

Endorse partial political agreement on the Youth in Action programme. As with the Lifelong Learning programme this will involve agreeing on all sections of the text without budgetary implications.

Adopt a resolution on implementing the European Pact for Youth and promoting active citizenship.

Take part in an exchange of views on 'Bringing Europe closer to its young citizens.'

INTERNATIONAL DEVELOPMENT

EU Development Ministers (Informal Meeting)

The Secretary of State for International Development (Hilary Benn): On 23 and 24 October I chaired a meeting as Presidency of EU Development Ministers in Leeds. The agenda items were as follows:

South Asian Earthquake:

Jan Egeland, the United Nations Emergency Relief Coordinator, briefed Ministers on the urgent need to respond to the South Asian earthquake. He called for more aid, particularly for shelter and helicopters. Ministers agreed that more money and help needs to be given and reiterated that coordination is vital both in the humanitarian phase and as reconstruction begins. Commissioner Louis Michel announced that the Commission had asked the European Parliament to approve the release of an additional €80 million of EC funds in 2005–06 of which €30 million would be for humanitarian aid and the remainder for reconstruction. This would be in addition to the €110 million of support already committed by Member States and the Commission. Further pledges were expected at a UN meeting in Geneva on 26 October. Ministers also agreed to work to strengthen the EU and UN's capacity to respond to future disasters.

Reform of the International Architecture:

Ministers discussed the need to ensure that the international development architecture is fully equipped to respond to the challenge of delivering more and better aid to help maximise progress towards meeting the Millennium Development Goals. There was recognition of the EU's leading role in the international development system and therefore the leading role it should play in shaping its future—particularly as the EU will account for two-thirds of DAC aid by 2010.

Mark Malloch Brown, the UN Secretary General's Chief of Staff confirmed that the UN Secretary General would appoint a team of experts to develop a proposal, in consultation with development partners and donors including the EU, for the reform of the UN development and operational architecture. This could include proposals for more tightly managed development, humanitarian and environmental entities. Ministers strongly supported the need to signal a high level of interest in, and political support for, reform to the international development system.

Ministers noted the paper circulated by the Netherlands on UN reform, but agreed that engagement should not be limited to the core group of EU and non-EU countries, referred to in the paper as the "G13". Instead, the EU as a whole should actively support UN reform, including the strengthening of country level Resident Coordinators. Austria confirmed its intention to take forward work on UN reform during its Presidency of the EU.

Ministers also discussed EU aid effectiveness, noting the importance of providing sustainable and predictable funding and the need to address issues of aid distribution. The Presidency confirmed that the 21–22 November General Affairs and External Relations Council would include the annual Orientation Debate on how to improve and monitor the effectiveness of European aid.

Putting Trade at the Service of Development:

Peter Mandelson, European Commissioner for External Trade, emphasised the importance of achieving a good outcome for developing countries from the Doha Development Round: He urged Development Ministers to help demonstrate that the EU is ready to put trade at the service of development, reinforcing Europe's role as a force for good in the world. That meant we needed to deliver on the obligations stemming from last year's Framework Agreement, including providing our partners significantly improved agricultural market access. He highlighted the need to push hard for a development "down payment" for Hong Kong. This should include other OECD countries following the EU's lead in giving Everything But Arms (EBA) access to all Least Developed Countries; achieving the right degree of differentiation in trade rules; and commitment to dedicate significantly increased resources—at EU and national levels—to help poorer countries build their capacity to trade.

Development ministers agreed that whilst the negotiating specifics are clearly a matter for trade colleagues, they have an important role to play in ensuring priority concerns of developing countries are addressed both before and after the WTO Ministerial in Hong Kong.

Ministers agreed on: the importance of increased market access for products in which developing countries have comparative advantage, especially agricultural products; the need for all agreements to reflect the different levels of development of developing countries and that there are millions of poor people working in middle income developing countries, especially in agriculture; and that South—South trade has to be part of the solution for development in least developed countries, but recognised that this is no substitute for action by the EU. Ministers highlighted

the importance of an urgent WTO response to the plight of West African cotton producers, as set out in a paper circulated by France.

Ministers emphasised the importance of ensuring Economic Partnership Agreements are successful development tools and that an effective mechanism for monitoring implementation is needed as soon as possible. Ministers agreed that increasing support to help developing countries build their capacity to trade is a high priority and called for the Presidency and Commission to bring forward a proposal on the EU's possible contribution to an enhanced aid for trade package ahead of Hong Kong. Ministers also noted that many developing countries will look at sugar as a test of EU support for their concerns and that transitional assistance for sugar producers needed to be made available in 2006.

Development Policy Statement (DPS):

Discussions on the Development Policy Statement clarified some important issues. There was consensus that poverty eradication remains the primary objective, while globalisation provides the context within which development is pursued. There was broad agreement that whilst our development objectives for working in both Low Income Countries and Middle Income Countries are the same, the way in which we implement and approach development assistance will be different, according to partner countries' situations and needs.

There was agreement on the need for a shared EU vision for development and for the EU to work together more effectively and more coherently, in line with the Paris Declaration. Doubts were expressed on the need for, and feasibility of, a single thematic framework for all EU development activities. However, it was important to indicate in a comprehensive way common objectives and principles, and a shared understanding of the breadth of activities needed to eradicate poverty.

There was broad support for the EC to underline its areas of excellence; building on its strengths and experiences and to identify where at Community level we need to further develop expertise. However, there was recognition that this should not restrict the Commission from working in other areas. What is needed is a balance between the need to concentrate efforts in country, whilst retaining the flexibility to respond to a range of partner countries' priorities.

Discussions on the Development Policy Statement will continue at working level, with the aim of reaching consensus on a tripartite statement between the Council, Commission and Parliament by November.

EU-Africa Partnership:

Donald Kaberuka, President of the African Development Bank emphasized the need for the EU Strategy to identify the comparative advantage of EU institutions within the international donor community; to recognise the importance of anchor countries because of their influence on low-income countries; and, to work through and build capacity in existing African institutions. Ministers agreed that strengthening African institutions was particularly important.

Ministers welcomed the Commission's Africa Communication, which will form an integral part of the overall EU Strategy for Africa to be agreed at the December European Council. Ministers agreed that the November GAERC should adopt positive Conclusions—broadly in line with the outline discussed by COREPER the previous week—on the Communication. Ministers highlighted the importance of peace, security and migration and other issues, and the need to ensure we get the right balance between the different elements. Ministers noted that enhancing political dialogue was a key element, including participation of civil society and parliamentarians in Africa. Ministers also agreed on the need to follow up and effectively monitor implementation of EU commitments on more and better aid.

European Development Fund (EDF):

There was agreement that the Council should consider the non-financial elements, of a possible EDF 10, especially in relation to effectiveness, without prejudice to the outcome of discussions about the 2007–13 Financial Perspective (EC Budget).

Sudan /Darfur:

There was agreement that both the UN presence in Southern Sudan and the African Union force (AMIS) in Darfur need strengthening and that capacity building of the African Union to manage peacekeeping operations was essential. Delegations agreed that the benefits of the comprehensive peace agreement were not yet being felt in Sudan, which threatened hopes for long-term peace. All atrocities were unacceptable. Member States agreed to give any evidence of specific atrocities to the Sanctions Committee and the International Criminal Court.

Food Crisis in Southern Africa:

Delegations agreed that the EU should continue to provide significant support to countries affected by food shortages in Southern Africa. Zimbabwe was highlighted as a particularly difficult case following the misreporting of harvest figures. Commissioner Louis Michel suggested that future EDF allocation criteria should reflect food security levels.

Ethiopia/Eritrea:

Delegations noted with regret that relations between Ethiopia and Eritrea remained difficult, as did the situation in Ethiopia following the elections.

WORK AND PENSIONS

Social Fund

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): My right hon. Friend the Secretary of State will be making a number of minor changes to the discretionary social fund, with effect from 14 November 2005. The changes to the fund are minor clarifications of guidance and directions, and, in the main, are consequential to legislative changes made in respect of other social security benefits.

Details of the changes have been placed in the Library.

Written Ministerial Statements

Tuesday 15 November 2005

TREASURY

Economic Reform

The Chancellor of the Exchequer (Mr. Gordon Brown): On 8 November I chaired the Economic and Financial Affairs Council (ECOFIN) in Brussels. The Paymaster General represented the UK.

Ahead of the European Court of Auditors (ECA) qualified report on the EU's 2004 Budget, published today, the Council agreed Conclusions in response to the European Commission's 'roadmap to an integrated internal control framework'. This is the eleventh successive year in which the ECA has been unable to give a positive opinion on the EU's annual budget reflecting long-term, systemic problems with financial management and control systems. It is unacceptable that European taxpayers cannot have confidence in the way in which public money is managed and spent. The Council, led by the UK Presidency, has for the first time taken action, agreeing conclusions that will contribute to bringing about a step change in financial management and control.

The Council agreed conclusions on a common methodology for measuring the administrative burden that existing and proposed EU legislation place on businesses. In line with the better regulation priorities of our Presidency, the methodology will ensure that such costs are fully accounted for in impact assessments and, over time, reduced through simplification initiatives with quantitative targets.

The Council agreed Conclusions on a package of statistical measures including political agreement to an amended Regulation on the quality of statistics for excessive deficit monitoring and evaluation and improvement in the governance of Eurostat.

The Council adopted a decision under article 104(8) of the Treaty, with regard to Hungary's Excessive Deficit Procedure.

The Council noted progress on developing a One Stop Scheme for simplifying cross-border business relating to Value-Added Tax obligations (VAT), and discussed existing proposals to extend reduced rates of VAT.

The Council was briefed by the Commission on work underway to improve the regulatory framework for cross-border mergers and acquisitions in the financial services industry. Presidency conclusions welcoming the Commission's work were adopted.

The Council discussed the financial consequences of ongoing negotiations to reform the EU's sugar regime.

DEFENCE

Housing Prime Contract

The Secretary of State for Defence (John Reid): I am pleased to announce that a contract has been awarded for the MOD's Housing Prime Contract covering England and Wales. The seven year contract is worth in the region of £690 million, and has been awarded to Modern Housing Solutions—a joint venture company between Carillion, Atkins and Enterprise. This follows the successful conclusion of discussions with the company, which was appointed as Designated Contractor in April 2005.

This contract will provide for full property maintenance, including facilities management services encompassing initially around 45,000 properties. The award of the Housing Prime Contract represents the continuation of the MOD's initiative to modernise its estate and coincides with the completion of the awards for the Department's five Regional Prime Contracts across the estate in Great Britain.

Prime Contracting is a key initiative that aims to improve the value for money MOD obtains from its expenditure on both the construction and maintenance of the estate, by encouraging innovation and efficiency through suitably incentivised contracts and conforming with the principles of 'Smart Acquisition'.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza (Epidemiology Report)

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): In my statement on 26 October regarding the incident of H5N1 avian influenza in the quarantine facility in Essex I made clear my intention to bring to the attention of the House as early as possible the findings of my Department's investigations. I have today placed in the House Libraries copies of the epidemiology report which make clear the virological examination results and conclusions which experts have drawn.

The main findings of the report are:

> Within the species documented as coming from Taiwan only the Mesias were infected with H5N1 and 53 out of 101 birds had died. This is consistent with DEFRA's working hypothesis of 23 October that the likeliest origin of the infection was the birds from Taiwan.
>
> Infection with H5N1 was transmitted between the Mesias, but there is no evidence of transmittion to other species in the facility including the sentinel birds.

The report will be fed into the independent review of avian quarantine procedures I announced on 31 October led by Professor Dimmock, and to Essex County Council who are conducting an investigation into events at the quarantine facility.

CABINET OFFICE

Civil Service (Sickness Absence)

The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy): The report "Analysis of Sickness Absence in the Home Civil Service 2004" prepared for my Department by RED Scientific Ltd.

shows that the headline figure for the average level of sickness absence was 9.1 days per staff year. This represents a 0.9 days per staff year decrease over the equivalent figure of 10.0 days set out in the report for 2003. The report contains a comprehensive analysis of the 2004 figures by Department/agency. Copies of the report are available in the Library.

The Cabinet Office is continuing to work with other Departments and agencies as they take forward their plans to reduce sickness absence and implement the recommendations of the Managing Attendance in the Public Sector report published by the Ministerial Task Force on Health, Safety and Productivity.

PRIME MINISTER

Chief Surveillance Commissioner

The Prime Minister (Mr. Tony Blair): I am pleased to announce that I have approved the appointment of the right hon. Lord Justice Rose as the Chief Surveillance Commissioner under the terms of Section 91 of the Police Act 1997.

The appointment will commence on 1 July 2006. However, in advance of that, Lord Justice Rose will become a Surveillance Commissioner on 1 May 2006.

Written Ministerial Statements

Wednesday 16 November 2005

TREASURY

Civil Registration Reform

The Financial Secretary to the Treasury (John Healey): Following the publication last year of the Regulatory Reform Committee's reports on civil registration reform, the Government announced that they would actively consider other ways of delivering the key elements of civil registration modernisation.

The Government remain committed to the modernisation of the local registration service in England and Wales, and are pressing ahead with their plans to reform the structure and delivery of civil registration. The consultation paper "Registration Modernisation", published today, sets out how local authorities are to be given greater responsibility and accountability for the delivery of the local registration service, and gives details of other important changes to be introduced to modernise civil registration.

Under these proposals local authorities would have more control to decide, within a national standards framework, how best to meet the needs of local people. Systems are also to be overhauled to speed up the registration process and deliver improved customer service. The details of the proposals have been developed by the Registrar General together with LACORS (Local Authority Coordinators of Regulatory Services) and local registration managers.

A copy of the consultation paper has been placed in the House of Commons Library.

Deposits (Eligible Liabilities)

The Chief Secretary to the Treasury (Mr. Des Browne): Under the Cash Ratio Deposit (CRD) scheme, banks and building societies place non-interest bearing deposits at the Bank of England. The Bank invests the deposits and uses the income earned to fund the costs of the Bank's sterling liquidity, monetary policy and financial stability operations, which benefit sterling deposit-takers. With the effect of 1 June 1998 the Bank of England Act 1998 placed the scheme on a statutory footing.

From next year the Bank of England will be making significant changes to its operations in sterling money markets, in particular the introduction of remunerated voluntary deposits which banks and building societies will be able to place with the Bank. As a result, my written Ministerial Statement of 13 July 2005 announced that (as required by the Bank of England Act 1998) the Treasury would begin consultation on its proposal to amend the definition of Eligible Liabilities (ELs) for CRDs.

The consultation ended in September and the Treasury published its response. The responses to the consultation recognised and understood the rationale for making the change and accepted that including voluntary deposits in the definition of ELs would have a net neutral effect on the overall levels of CRDs.

As the proposal requires a change to secondary legislation made under the Bank of England Act 1998, tomorrow I will be laying before Parliament a Statutory Instrument scheduled to come into force on 1 March 2006. Principally the Statutory Instrument will ensure that voluntary deposits do not count as an offset within the calculation of ELs on which CRDs are based.

FOREIGN AND COMMONWEALTH AFFAIRS

EU General Affairs and External Relations Council

The Minister for Europe (Mr. Douglas Alexander): The General Affairs and External Relations Council (GAERC) will be held on 21–22 November in Brussels. My right hon. Friends the Foreign Secretary, the Defence Secretary, and the International Development Secretary will represent the presidency.

The agenda items are as follows:

Defence Ministers

Capabilities

The Council is expected to approve the Requirements Catalogue, which is part of the EU's Headline Goal 2010 capability process. The catalogue has used NATO-sourced operational analysis to identify the military capabilities and force requirements needed for the EU to fulfil its level of ambition. The Council should also note the Single Progress Report on military capabilities, and discuss progress on the battlegroups concept and the work of the European Defence Agency. As presidency, we aim to focus discussion on the identified need for rapidly deployable, highly interoperable capability and the importance of filling qualitative capability shortfalls.

Civil-military co-ordination

The Council will discuss progress on bringing together the EU's civilian and military instruments in a comprehensive approach to EU crisis management. Ministers are likely to note work on EU concepts for comprehensive planning and European Security and Defence Policy (ESDP) support to security sector reform, and underline the need for these principles to be taken forward in future reviews and for planning for holistic EU engagement in particular regions.

Defence and Foreign Ministers

Western Balkans (Bosnia)

The GAERC falls on the 10th Anniversary of the initialling of the Dayton Peace Agreement, and both Defence and Foreign Ministers will hold discussions on progress in Bosnia and the evolving nature of the EU's engagement. The Council will review both the military mission Operation Althea, following its first year of operation, and the EU Police Mission (EUPM). It should agree the Joint Action to launch a follow-on mission to EUPM and is also expected to agree the Joint Action modifying the mandate of the EUSR in Bosnia to give him a greater role in coordinating EU instruments in the overall rule of law effort.

Foreign Ministers

Preparation for the 15–16 December European Council

The presidency will update the Council on preparation for the December European Council. This will be on the basis of the

traditional annotated agenda setting out the issues, with an indication of likely Conclusions. Substantive discussion will take place at the 12 December GAERC.

Financial Perspectives 2007–13

The Council will have a further substantive discussion of the issues as a follow-up to the 7 November GAERC.

Post Tsunami follow-up

The Council will have a discussion on an updated post-tsunami action plan, which will task work to be taken forward in key areas on disaster response.

WTO/DDA

The Commission will update Member States on the current status of the Doha Development Agenda (DDA) negotiations in preparation for the 13–18 December Hong Kong Ministerial Meeting.

MEPP

The Council is expected to discuss EU involvement in a possible non-executive monitoring role at Rafah on the Egypt-Gaza border. The Council is also expected to discuss the 25 January 2006 Palestinian Legislative Elections and Commission support to the electoral process. Council conclusions are expected.

Iraq

The Council is expected to discuss how the international community (including the EU) can provide further support to Iraq in relation to a broader platform of international partnership to support political, economic, governance and security development.

Iran

The Council will have a further stocktake of EU-Iran relations following the 7 November GAERC. We can expect the nuclear portfolio also to be discussed given the proximity of the 24 November International Atomic Energy Agenda (IAEA) Board meeting.

Euro Med Summit

The presidency will debrief the Council on the state of play of the main Summit texts and overall preparation.

EU/Canada and EU-Ukraine Summit Preparations

The presidency will debrief the Council on the state of play of the main Summit texts and overall preparations.

Migration in External Relations

The Council will discuss how the EU can work more closely in partnership with source and transit countries on migration issues to develop a balanced approach to migration, which harnesses the benefits of migration and also focuses on combating illegal immigration.

Development Ministers

EU Strategy for Africa

The Council is expected to agree Conclusions on the Commission Communication on the EU-Africa Strategy: Towards a Euro-African Pact to Accelerate Africa's Development. The Communication will form an integral part of the overall EU Strategy for Africa, which is expected to be agreed at the European Council on 16–17 December.

Development Policy Statement

The Council is expected to agree the Joint Declaration by the Council, the European Parliament and the Commission on the "European Consensus for Development". This is a successor to the 2000 EC Development Policy Statement. The Declaration is divided into two parts: the first provides a common vision that will guide the EU and its 25 Member States in development co-operation; and the second sets out the EC Development Policy to guide Community development assistance and implementation of the commitments in the common vision. The European Parliament is due to adopt its report on the proposal for a Joint Declaration by the Council, the European Parliament and the Commission on the European Union Development Policy "The European Consensus" in Plenary on 17 November.

Orientation Debate: EU Aid Effectiveness

The Council will hold its annual Orientation Debate on the basis of a presidency paper looking at how the quality of aid and the effectiveness of aid delivery can be improved, building on EU commitments taken in the context of the Development Assistance Committee (DAC) High Level Forum on Aid Effectiveness in Paris in March 2005. The Council is expected to agree Conclusions on the Orientation Debate.

Post Tsunami follow-up

Development Ministers will have a discussion on the humanitarian response, reconstruction and disaster preparedness aspects of a revised post-Tsunami Action Plan.

Aid for Trade

The presidency is proposing that the Council discuss and agree a comprehensive and credible EU aid for trade package in advance of the WTO Ministerial in Hong Kong on 12 December.

HOME DEPARTMENT

National Community Safety Plan

The Minister for Policing, Security and Community Safety (Hazel Blears): I have today placed in the Library of the House a copy of the National Community Safety Plan which incorporates the National Policing Plan 2006–09.

The National Community Safety Plan is the first of its kind. It sets out central Government's key community safety priorities for the next three years and our minimum expectations of each of our partners, to underline the very broadly based nature of community safety work. Its aim is to join up the approach to community safety across central Government, to instil a new relationship between public services and the communities they serve in the community safety field and to encourage a deeper and more mature relationship between central Government and its partners in this area.

The delivery of community safety requires a multi-agency approach and the police are key players, so the National Policing Plan is now embedded within the National Community Safety Plan. This, the fourth National Policing Plan, sets the framework and context for policing in England and Wales for the next three years. It will inform local police planning and help to ensure that all communities know what they should expect from their local police force.

The National Community Safety Plan is available on the web at www.crimereduction.gov.uk/ncsp.

NORTHERN IRELAND

Northern Ireland Human Rights Commission

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have today published a consultation paper on the Government's proposals for the powers of the Northern Ireland Human Rights Commission. The Government strongly believe in the importance of human rights and are committed to ensuring that the Commission has the right powers to enable it to carry out its duties effectively.

The consultation paper sets out the Government's conclusions on each of the recommendations put forward by the Commission in its own review of its powers. In total, the Commission has recommended 29 amendments to the Northern Ireland Act 1998, although following a House of Lords ruling the Commission withdrew eight of the recommendations.

In assessing these recommendations, the Government have concluded that it is satisfied that the Northern Ireland Act 1998 already broadly provides the Commission with the right powers to carry out its duties efficiently. In a number of cases, we agree with the recommendations put forward but believe that these changes do not require any additional legislative provision but should be made administratively, in co-operation with the Commission.

However in two important areas, namely, the right of access to places of detention and the power to compel evidence and witnesses, we agree that it is right to amend the Northern Ireland Act 1998 in order to grant the Commission the necessary powers to allow it to fulfil its existing functions properly.

While the Government believe that it is right for the Commission to be granted these powers, we also believe that there must be proper safeguards in place to ensure that they are used appropriately.

The consultation, which will run until 8 February 2006, invites views on all aspects of the paper, but I have asked specifically for views on how these two powers should be implemented and how we can make sure that the right safeguards are in place.

WORK AND PENSIONS

Benefit Fraud Inspectorate (Nuneaton and Bedworth Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the Benefit Fraud Inspectorate (BFI) inspection report on Nuneaton and Bedworth Borough Council was published today and copies have been placed in the Library.

In 2004–05, Nuneaton and Bedworth Borough Council administered some £25.1 million housing benefits, about 37 per cent. of its gross revenue expenditure. The council was selected for inspection because it was taking 46 days on average to process new claims for housing benefit in the quarter ended 31 December 2004 and it had operated with a backlog of claims for several years. The inability to clear the backlog was mainly due to a high turnover of Benefits service staff and managers and time lost to the introduction of new technology. Several initiatives to reduce the backlog were tried, including the introduction of a twilight shift, overtime working and the use of a dedicated backlog team. The backlog was eventually cleared in September 2004.

The overall performance of the Benefits service has improved considerably over the past 12 months. A variety of initiatives and changes to procedures have been introduced, including the fast tracking of claims and the prioritisation of changes of circumstances. BFI's sampling confirmed that processing times for new claims had improved considerably with the time taken to process new claims for the quarter ended 31 March 2005 now at the Department's standard of 36 days. The sampling also confirmed that performance in respect of changes of circumstances had followed a similar pattern of steady improvement. In 2003–04, the average time taken to process changes of circumstances was 43 days but this had reduced to an average of 17 days in 2004–05.

The overall standard of verification was good with only one area of weakness. The claim form currently used by the council does not meet the design and content principles of the Department's model claim form but the council is in the process of revising the form and will ensure that best practice is taken into account in the new version.

The council has good working relationships with many stakeholders, including landlords, housing associations, The Pensions Service and Jobcentre Plus. The council has an effective performance management framework in place to report the benefits service statistics to members but current performance targets are not challenging enough. Targets need to be reviewed to ensure that they remain up to date and challenging. This will help the council drive forward further improvements to performance and help it achieve its aim of top quartile performance by 2006.

My right hon. Friend the Secretary of State is considering the report and may ask the council for proposals in response to BFI's findings.

Benefit Fraud Inspectorate (Great Yarmouth Borough Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the Benefit Fraud Inspectorate (BFI) inspection report on Great Yarmouth Borough Council was published today and copies have been placed in the Library.

In 2004–05 Great Yarmouth Borough Council administered some £27.7 million in housing benefits, about 31 per cent. of its gross revenue expenditure. Overall, the inspection found that Great Yarmouth Borough Council was performing to a Fair standard.

The council has had a backlog of work for many years. This, together with problems recruiting and retaining processing staff and an outdated benefits IT system have made it difficult for the council to provide an effective benefits service. The council reported that it

had taken an average of 89 days to process new claims in 2004–05. However, BFI's inspection revealed that a combination of errors meant that its reported performance was understated and the real average was nearer 49 days, compared to the Standard of 36 days. Inefficient practices were creating unnecessary delays at each stage of the claims process and the council's checking regime was not identifying some of the errors that were resulting in inaccurate reporting. Only limited analysis was carried out by the council to establish the reason for failure to meet targets. Insufficient internal audit resources had been allocated to audit the benefits service.

The council has demonstrated a commitment to improving its benefit service by allocating funds to clear the backlog, implementing a new benefits IT system and seeking to enter into a partnership with consultants to help improve performance.

My right hon. Friend the Secretary of State is considering the report and may ask the council for proposals in response to BFI's findings.

Written Ministerial Statements

Thursday 17 November 2005

CABINET OFFICE

Departmental Expenditure Limit

The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Cabinet Office DEL will be increased by £1,735,000 from £224,409,000 to £226,144,000. There is no movement in the administration costs limits. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	1,735	226,144	0	226,144
Capital	0	25,000	0	25,000
Depreciation*	0	-37,338	0	-37,338
Total	1,735	213,806	0	213,806

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from drawdown of EYF of £550,000 and a transfer of £1,185,000 from various Government Departments to fund protective security measures relating to State and Government assets in central London.

There is no change to the capital element of the DEL.

DEPUTY PRIME MINISTER

Departmental Expenditure Limit

The Deputy Prime Minister (Mr. John Prescott): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Office of the Deputy Prime Minister's Departmental Expenditure Limits for 2005–06 will change as follows:

(1) **The Office of the Deputy Prime Minister's Main Programmes DEL** will be increased by £231,906,000 from £9,236,594,000 to £9,468,500,000 and the administration costs limit will also be increased by £48,107,000 from £287,251,000 to £335,358,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	-279,336	4,166,666	1,815,013	5,981,679
Capital	511,242	1,210,027	2,276,794	3,486,821
Depreciation*	-1,956	-12,722	-2,000	-14,722
Total	229,950	5,363,971	4,089,807	9,453,778

*Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

I. Take up of End Year Flexibility of £60,885,000 comprising:

Programme Expenditure

(a) £1,230,000 for Housing programmes;

(b) £1,000,000 for Coalfields Regeneration Trust;

(c) £556,000 from the Invest to Save Budget (£264,000 for Fire Services and £292,000 for the European Structural Funds);

(d) £4,390,000 for the Northern Way programme;

(e) £726,000 for non-voted English Partnerships Urban Regeneration Agencies (URA);

(f) £7,112,000 for non-voted Housing Corporation;

(g) £21,020,000 for non-voted Regional Development Agencies.

Administration Costs

(h) £24,000,000 for Central Administration;

(i) £851,000 for Other Current to cover expenditure on Boundary Commissions.

II. A net transfer of £16,790,000 from Request for Resources (RFR) 2 comprising of a transfer of £18,200,000 from RFR2 to RFR1 (£18,000,000 to non- voted Housing Corporation and £200,000 to Homelessness) and a transfer of £1,410,000 from RFR1 to RFR2 (£10,000 to Local Government Research and Publicity for the Central and Local Government Information partnerships and £1,400,000 to Best Value Inspection).

III. Increase in provision of £1,881,000 for the Invest to Save Budget comprising of £850,000 for Liveability Performance and £1,031,000 for Private Housing Renewal.

IV. A net transfer of £5,423,000 from other government departments, comprising:

From Other government departments

Programme Expenditure

(a) £850,000 from the Home Office to Homelessness for Public Service Priority programme.

Administration Costs (Central ODPM)

(b) £4,400,000 from Department for Transport to cover Accruing Superannuation Liability Charges.

Administration Costs (Government Offices)

(c) £5,362,000 from Department for Environment Food and Rural Affairs for additional core funding, Voluntary Community Sector (VCS) funding, Countryside Agency, Rights of Way Casework and SR2002 funding.

(d) £16,225,000 from Home Office to cover work on Crime Reduction Unit, Active Community Unit, Community Cohesion, Drugs Prevention Advisory Service, Communities Policy, Criminal Justice Intervention programme.

To Other government Departments

Programme Expenditure

(e) £21,020,000 transfer of non-cash costs from the Regional Development Agencies to the Department for Trade and Industry.

Administration Costs (Government Offices)

(f) £394,000 to the Department for Trade and Industry (DTI) for the core agenda.

V. An increase in receipts of £55,373,000 offsetting increases in provision of £907,000 for Emergency Fire Service; £200,000 for Fire Services; £309,000 for Housing Mobility Grant; £10,609,000 for administration costs; £12,706,000 for Government Offices; £22,000,000 for non voted English Partnerships and £8,642,000 for non voted Housing Corporation.

VI. A transfer of £365,315,000 from resource investment to capital comprising £284,000,000 for Housing Market Renewal Fund, £5,805,000 for the Growth Areas; £37,500,000 for the Liveability Fund and £38,010,000 for Homelessness.

VII. A transfer of £1,000,000 from capital to resource investment for non voted Housing Corporation.

VIII. A net transfer of £3,531,000 from non voted to voted provision comprising:

(a) A transfer of £36,479,000 from the voted Housing programmes to non voted programmes of £1,571,000 for West Northamptonshire Urban Development Corporation (UDC); £1,291,000 for English Partnerships URA (£791,000 from Growth Areas and £500,000 from Planning and Publicity), £9,215,000 to South East of England Development Agencies SEEDA (£9,000,000 from Thames Gateway and £215,000 from Growth Areas); £16,000,000 to East of England Development Agencies (EEDA), £3,300,000 to Thames Gateway (Thurrock); £3,194,000 to Thames Gateway (London UDC); £195,000 to Other Growth Areas; £1,713,000 to Housing Corporation (£713,000 from Thames Gateway and £1,000,000 from the Regional Housing Pot programme);

(b) A transfer of £1,000,000 from non voted English Partnerships to Coalfields Regeneration Trust;

(c) a transfer of £39,010,000 from non voted Housing Corporation to Homelessness programmes.

IX. As a result of the changes to Request for Resources 1, The Office of the Deputy Prime Minister's administration provision will be increased by £48,958,000 from £288,366,000 to £337,324,000.

The change in the capital element of the DEL arises from:

X. Take up of end year flexibility of £177,927,000 comprising:

Programme Expenditure

(a) £7,989,000 for Disabled Facilities Grant;

(b) £500,000 for the Northern Way programme;

(c) £4,000,000 for the European Regional Development Fund;

(d) £165,438,000 for non voted English Partnerships.

XI. An increase in receipts of £4,450,000 offsetting increases in provision of £450,000 for non voted West Northamptonshire UDC and £4,000,000 for non Voted English Partnerships.

XII. A transfer of £365,315,000 to capital from resource investment comprising £284,000,000 for the Housing Market Renewal Fund, £5,805,000 for the Growth Areas; £37,500,000 for the Liveability Fund and £38,010,000 for Homelessness.

XIII. A transfer of £31,000,000 to other Government Departments comprising of £1,000,000 to the Department for Education and Skills to provide GAP funding for Combined Universities and £30,000,000 to the Department for Culture Media and Sport as part of the Office contribution for 2005–06 towards the Olympics infrastructure costs.

XIV. A transfer of £1,000,000 from capital to resource investment for non voted Housing Corporation.

XV. Within the capital element of the DEL there is a net transfer of £41,629,000 from voted to non-voted provision comprising:

(a) A net transfer of £43,259,000 from voted Housing programmes to non voted programmes comprising of £141,000 for West Northamptonshire UDC; £7,616,000 for SEEDA (£5,416,000 from Growth Areas and £2,200,000 from Thames Gateway); £575,000 for EEDA; £16,427,000 for English Partnerships (£11,082,000 from Growth Areas and £5,345,000 from Thames Gateway); £20,000,000 to non voted Thames Gateway (£15,000,000 for Thurrock and £5,000,000 for London UDC); and a transfer of £1,500,000 from non voted Arms Length Management Organisations to the Regional Housing Pot programme;

(b) a transfer of £1,630,000 from non voted Departmental Unallocated Provision (£280,000 to European Regional Development Fund; £50,000 to Fire Services; £1,000,000 to provide Gap funding for Combined Universities and £300,000 for the National Register of Social Housing.

The Office of the Deputy Prime Minister's Local Government DEL will be increased by £56,288,000 from £46,621,883,000 to £46,678,171,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	17,689	46,186,286	104,535	46,290,821
Capital	38,599	378,740	8,610	387,350
Depreciation*	-556	0	-556	-556
Total	55,732	46,565,026	112,589	46,677,615

*Depreciation, which forms part of resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

I. Take up of End Year Flexibility of £34,589,000 comprising:

(a) £18,659,000 for Valuation Services;

(b) £3,617,000 for Best Value Intervention;

(c) £4,591,000 for Local Government on Line;

(d) £6,222,000 for Capacity Building programmes;

(e) £1,500,000 for the Efficiency Challenge Fund.

II. A net transfer of £16,790,000 to Request for Resources (RFR) 1 comprising of a transfer of £18,200,000 from RFR2 to RFR1 (£18,000,000 from the Local Government PSA Performance Fund and £200,000 from Capacity Buildings) and a transfer of £1,410,000 from RFR1 to RFR2 (£10,000 from Planning Land Use Statistics and £1,400,000 from Fire Services).

III. A net transfer of £1,996,000 from voted to non voted programmes comprising of £4,000 to voted Local Governance for Greater London Authority preparation costs and £2,000,000 to non voted Standards Board.

IV. A transfer of £110,000 from resource consumption to capital for non voted Standards Board.

The change in the capital element of the DEL arises from:

V. Take up of End Year Flexibility of £38,489,000 for Local Government on Line.

VI. A transfer of £110,000 to capital from resource consumption for non voted Standards Board.

TREASURY

Departmental Expenditure Limit

The Economic Secretary to the Treasury (Mr. Ivan Lewis): Subject to Parliamentary approval of any necessary Supplementary Estimate, National Savings and Investments DEL will be increased by £9,500,000 from £170,294,000 to £179,794,000 and the administration costs limits will be increased by £9,500,000 from £170,294,000 to, £179,794,000. Within DEL change, the impact on resources and capital are set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource	9,500	179,794		179,794
Capital		500		500
Depreciation*		-2,970		-2,970
Total	9,500	177,324		177,324

*Depreciation which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from end year flexibility being drawn down to support expenditure on major project commitments. Such projects include the work on the third party distribution channel and the pilot with Tesco; long-term savings project; internet development and others. Also some resource is essential to maintain the momentum generated through their advertising campaign, which is proving successful.

There is no change in the capital element of DEL.

The Financial Secretary to the Treasury (John Healey): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Office for National Statistics DEL will increase by £3,944,000 from £166,980,000 to £170,924,000 and the administration budget will increase by £3,944,000 from £166,430,000 to £170,374,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource	3,944	161,624	9,300	170,924
Capital	-	21,070	6,500	27,570
Depreciation*	-	-15,500	-	-15,500
Total	3,944	167,194	15,800	182,994

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from EYF of £3,944,000.

The Paymaster General (Dawn Primarolo): Subject to Parliamentary approval of the necessary Supplementary Estimate, the HM Revenue and Customs Departmental Expenditure Limit will be increased by £150,199,000 from £4,883,772,000 to £5,033,971,000 and the administration costs limit will be increased by £47,720,000 from £4,475,568,000 to £4,523,288,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource	50,249	4,300,640	359,485	4,660,125
Capital	99,950	370,869	2,977	373,846
Depreciation*	147	-164,137	-	-164,137
Total	150,346	4,507,372	362,462	4,869,834

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

Administration costs increases resulting from the take up of £50,000,000 end year flexibility entitlement (EYF) as set out in the Public Expenditure Outturn White Paper (CM6639) published in July. This is partially offset by a transfer of £2,280,000 to the Revenue and Customs Prosecution Office, as part of a machinery of government change; and

Programme expenditure changes resulting from: a transfer of £3,120,000 from the Home Office from their Recovered Assets Incentivisation Fund; a transfer of £863,000 from the Department for Education and Skills in respect of the Savings Gateway Project; and a partial offset relating to a transfer to the Home Office of £1,454,000 to fund some anti-terrorism work.

The change in the capital element of the DEL arises from the draw down of capital EYF, totalling £100,000,000, and a decrease of £50,000 to reflect a capital funding transfer to Revenue and Customs Prosecution Office as part of the machinery of Government change.

Regulation of Investment Trust Companies

The Economic Secretary to the Treasury (Mr. Ivan Lewis): The Treasury has today published a feedback document on responses to the consultation on the regulation of investment trust companies launched in November 2004. That document sought views on whether there was a need to introduce additional regulation, and possible options for doing so.

The Treasury received over 120 responses to the consultation from investment trust companies, fund managers, trade associations, consumer representatives and individuals. The overwhelming response to the consultation was in support of continuing to rely on existing Financial Services Authority (FSA) rule making powers to deliver appropriate and effective regulation of investment trust companies.

In assessing the case for change, the Government has considered whether additional regulation of investment trust companies would produce better regulation taking account of the balance between costs and benefits. On balance, the Government have concluded that changes to the structure of regulation as it applies to investment trust companies would not result in better regulation.

It is important, however, that the current regime remains both robust and proportionate. The Government welcome the FSA's forthcoming review of the Listing Rules applicable to investment companies as an opportunity to ensure that this remains the case, in the context of the listing rules generally and wider regulatory developments. The Government also looks to the industry to continue its efforts to improve governance standards.

Copies of the feedback document are available from the Library of the House. The document can also be accessed on the Treasury website at: www.hm-treasury.gov.uk.

Pre-Budget Report

The Chancellor of the Exchequer (Mr. Gordon Brown): I propose to present the Pre-Budget Report to the House of Commons on Monday 5 December.

CULTURE, MEDIA AND SPORT

Departmental Expenditure Limit

The Secretary of State for Culture, Media and Sport (Tessa Jowell): Subject to Parliamentary approval of any Supplementary Estimate, the Department for Culture Media and Sport's Departmental Expenditure Limit (DEL) will be increased by £90,973,000 from £1,539,296,000 to £1,630,269,000 and the administration cost limit will decrease by £298,000 from £49,268,000 to £48,970,000. Within the DEL change the impact on resource and capital are set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource DEL	19,111	199,881	1,358,097	1,557,978
Capital DEL	73,862	83,539	87,307	170,846
Depreciation*	-2,000	-5,942	-92,613	-98,555
Total	90,973	277,478	1,352,791	1,630,269

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting

The change in the resource element of the DEL arises from:

Drawdown of £9,657,000 End-Year flexibility of which £6,408,000 is Programme: (£1,250,000) UK Film council; (£1,000,000) Sport England; (£1,000,000) English Heritage; (£1,000,000) Culture Online; (£750,000) British library; (£600,000) Royal Parks for live 8; (£366,000) repayment of Contingencies Fund advance for the Gaming Board (£187,000) Audiovisual Eureka Film Support; (£90,000) Regional Cultural Consortiums; (£90,000) Research; and (£75,000) Sale of the Tote. The drawdown of £2,000,000 Non-Voted, non eash, EYF to meet depreciation requirements.

Transfers from other Government Departments of: £1,650,000 from Department for Education and Science (£1,620,000) for Strategic Commissioning and (£30,000) for Creativity Review; £93,000 for Ministry of Defence to Museums and Galleries for Royal Armouries; and £4,000,000 from Department for Transport in respect of Wembley Development costs. A Machinery of Government change transfer from the Department of Constitutional Affairs £48,000 for the Cenotaph ceremonies.

A transfer of £69,000 to Cabinet Office for Protecting the Centre of Government.

Grants from the Invest to Save budget allocation of £762,000, to Museums, Galleries and Libraries (£77,000) and to Sport (£685,000).

To record the Profit on the Sale of Assets £10,000.

An agreed Capital to Revenue Virement of £980,000 for the Royal Parks.

The administration cost limit has decreased by £298,000 from £49,268,000 to £48,970,000. This is as a result of transfers to programme budgets totalling £3,526,000, and a transfer to Cabinet Office of £69,000 detailed above, partially offset by the take up of Administration End Year Flexibility £3,249,000 and a Machinery of Government transfer of £48,000 from the Department of Constitutional Affairs as detailed above.

The change in the capital element of the DEL arises from:

Take up of End-Year Flexibility of £44,822,000 of which £32,500,000 is in respect of Capital Modernisation Fund projects, (£12,000,000) for Listed Places of Worship, (£18,400,000) for the Community Club Development Programme, and (£2,100,000) for Picketts Lock.

The remaining £12,322,000 EYF taken up for the following: (£4,500,000) Culture Online; (£2,962,000) The Historic Buildings and Monuments Commission; (£1,500,000 for the Community Club Development Programme; (£1,500,000) for Administration Capital expenditure; (£1,200,000) UK Film Council; (£460,000) for Licensing database; and (£200,000) for Sir John Soane's Museum.

A transfer of £30,000,000 from ODPM for Olympic-related regeneration projects.

An agreed Capital to Revenue Virement of £980,000 for the Royal Parks.

An agreed reserve claim of £20,000 for the initial costs of the Queen Mother's memorial.

DEFENCE

Regional Prime Contract (East)

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): Babcock DynCorp, a joint venture of Babcock Infrastructure Services and DynCorp International, has been awarded the Regional Prime Contract covering the Ministry of Defence's estate in Eastern England. This follows the successful conclusion of discussions with Babcock DynCorp who were appointed as Preferred Bidder in July 2005.

The seven-year contract, worth in the region of £500 million, is the last in a series of five such regional arrangements to cover the estate and provide for capital works, property maintenance and facilities management services, throughout the Eastern region of England.

The Ministry of Defence has undertaken to make significant improvements in the overall condition of its estate by changing its organisational structures and introducing Prime Contracting methods.

Encouraging innovation and efficiency, Regional Prime Contracting is a key initiative that aims to provide a better quality of service and greater value for money through suitably incentivised contracts conforming to the principles of "Smart Acquisition".

War Pensioners Report for 2004–05

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): The War Pensioners Report for 2004–05 has been published today and a copy has been placed in the House of Commons Library.

Publication of the War Pensioners Report is an annual event dating back to before the Second World War. It is a joint document presented to Parliament by the Secretaries of State for Defence, Health, Scotland and Wales.

The War Pensioners Report for 2004–05 provides an account of the administration of the War Pensions Scheme and the services provided for war pensioners in 2004–05. The Report also provides a variety of data on degrees of disability, pensioner age profiles, rates of pensions etc; and outlines the activities of the War Pensions Committees and Central Advisory Committee on War Pensions throughout the year.

Departmental Expenditure Limit

The Secretary of State for Defence (John Reid): Subject to Parliamentary approval of the necessary Supplementary Estimate, the Ministry of Defence Departmental Expenditure Limits (DEL) will be increased by £109,105,000 from £30,944,726,000 to £31,053,831,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*New DEL Voted*	*New DEL Non-voted*	*Total*
Resource	450,824	31,674,758	1,281,792	32,956,550
Capital	(341,719)	6,537,537	744	6,538,281
Depreciation*		-7,556,000	-885,000	-8,441,000
Total	109,105	30,656,295	397,536	31,053,831

* Depreciation, which forms part of Resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

a transfer from Capital DEL to Resource DEL of £370,000,000;

transfers totalling £8,553,000 from the Department for Environment, Food and Rural Affairs (£4,745,000) and the Department for Transport (£3,808,000) as their share of the National Meteorological Programme and Weather Warning Service costs under a pan Government agreement;

a transfer of £145,000 from the Department of Work and Pensions as a contribution to the Veteran Agency's postage costs;

a transfer of £500,000 from the Department for International Development in respect of the Sub Sahara Global Conflict Prevention Pool;

a transfer of £93,000 to the Department for Culture, Media and Sport in respect of staff costs for the Leeds Armouries Museum Pattern Room;

the take up of end year flexibility of £28,281,000 Capital DEL and £71,719,000 Resource DEL;

an increase in Capital Appropriations in Aid of £45,886,000 from QinetiQ, resulting from the repayment of a loan to the MOD.

The changes to Capital and Resource, together with changes in internal budgetary re-allocations, will lead to an increased net cash requirement of £459,105,000.

EDUCATION AND SKILLS

Departmental Expenditure Limit

The Secretary of State for Education and Skills (Ruth Kelly): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Education and Skills Departmental Expenditure Limit (DEL), (including the Office for Her Majesty's Chief Inspector of Schools (OFSTED) which has a separate Estimate) will be decreased by £661,000 from £30,766,423,000 to £30,765,762,000 and the administration costs limits will be increased by £1,059,000 from £275,359,000 to £276,418,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

DfES	*Resources Change* £'000	*Resources New DEL* £'000	*Resources Of which: Voted* £'000	*Resources Non-voted* £'000	*Capital Change* £'000	*Capital New DEL* £'000	*Capital Of which: Voted* £'000	*Capital Non-voted* £'000
RfR 1	-13,204	24,989,407	8,316,452	16,672,955	0	4,180,348	2,869,687	1,310,661
RfR 2	12,542	915,973	915,973	0	0	264,167	264,167	0
RfR 3	1	195,253	195,253	0	0	14	14	0
OFSTED	0	220,000	220,000	0	0	600	600	0
Sub Total	-661	26,320,633	9,647,678	16,672,955	0	4,445,129	3,134,468	1,310,661
Depreciation*	0	-47,843	-12,247	-35,596	0	0	0	0
Total	-661	26,272,790	9,635,431	16,637,359	0	4,445,129	3,134,468	1,310,661

*Depreciation, which forms part of resource DEL, is excluded from the total DEL, in the table above, since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Within the Administration Cost limits changes, the impact is set out in the following table:

DfES	*Original* £'000	*Change* £'000	*Revised* £'000
DfES (RfR1)	250,689	1,059	251,748
OFSTED	24,670	0	24,670
Total	275,359	1,059	276,418

Resource DEL

The decrease in the resource element of the DEL of £661,000 arises from a £145,038,000 decrease in the voted element of the resource DEL and an increase of £144,377,000 in the non-voted element of the resource DEL mainly to the Department's Non-Departmental Public Bodies.

Voted Resource DEL

The £145,038,000 decrease in the voted element of the resource DEL arises from:

RFR 1

A £171,495,000 movement to non-voted, for the Adventure Activities Licensing Authority £500,000, the Investors in People UK £300,000, the Children's Commissioner £3,000,000, for the Training and Development Agency for Schools £4,000,000, and for Lifelong Learning programmes transferring to the Learning and Skills Council £163,695,000. A movement from non-voted of £1,034,000 for the General Teaching Council and £300,000 for a technical adjustment to Quality Review. A reduction of £35,000,000 of receipts for the Scientific Research Investment Fund. The take up of Invest to Save Budget of £1,480,000 for the Kid's Club. A movement to RFR2 voted for the Early Support programme £5,000,000 and for Local Authority Children's Centres £19,000,000. A movement from RFR2 voted £2,000,000 for Schools Foundation Stage and £300,000 for Training and Qualifications. A movement to RFR3 voted £1,000 for a token increase due to the reclassification of funding streams for the Children's Fund. A transfer to the Department for Culture, Media and Sport of £1,650,000 for Strategic Commissioning and the Creativity Review. A transfer to the Department for International Development of £19,000 for UK Presidency gift donations. A transfer to the Department of Trade and Industry of £451,000 for the National Council for Graduate Entrepreneurship and review bodies membership fees. A transfer to Her Majesty's Revenue and Customs of £863,000 for the Savings Gateway Pilots Project. A net transfer to the Home Office of £3,205,000 for Young peoples Substance Misuse, Offenders Education, Education in Contracted Prisons and Youth - Volunteering Challenge. A transfer from the Department of Health of £2,989,000 for Academic General Practitioners, Protection of Vulnerable Adults and the Bichard Vetting and Barring Scheme. A transfer from the Office of the Deputy Prime Minister of £1,000,000 for Universities of Cornwall.

RFR2

A movement to RFR1 non-voted of £9,216,000 for the National College of School Leadership £7,000,000; the Training and Development Agency for Schools £2,000,000 and the Qualifications and Curriculum Authority £216,000. The take up of Invest to Save Budget of £58,000 to support families. A movement from RFR1 voted for the Early Support programme £5,000,000 and for Local Authority Children's Centres £19,000,000. A movement to RFR1 voted of £2,000,000 for Schools Foundation Stage and £300,000 for Training and Qualifications.

RFR3

A movement from RFR1 of £1,000 for a token increase due to the re-classification of funding streams for the Children's Fund.

Administration Cost Limits

The £1,059,000 increase in the Administration Cost Limit arises from the transfer from the Department of Health for administrating the Protection of Vulnerable Adults scheme.

Non-voted Resource DEL

The £144,377,000 increase in Non-voted resource DEL arises from the movement of £171,495,000 from RFR1 voted resource DEL; a reduction of £35,000,000 expenditure for the Scientific Research Investment Fund. A movement to RFR1 voted resource of £1,034,000 for the General Teaching Council and £300,000 for a technical adjustment to Quality Review. A movement from RFR2 voted resource of £9,216,000.

Capital DEL

There is no change in the capital element of the DEL.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Forestry Commission (DEL)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jim Knight): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Forestry Commission's DEL will be increased by £1,322,000 from £80,288,000 to £81,610,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	1,322	79,937	2,653	82,590
Capital		790	-700	90
Depreciation*		-1,070	-	-1,070
Total	1,322	79,657	1,953	81,610

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from the take up of £2,496,000 end of year flexibility to meet Woodland Grant scheme payments and costs associated with efficiency initiatives and also a transfer of £838,000 from Department of Environment, Food and Rural Affairs, to allow the Forestry Commission to administer the Farm Woodland Premium scheme. There is also increased expenditure for community woodlands of £1,100,000, offset by income received from Department of Environment, Food and Rural Affairs and increased income of £2,012,000 received from Office of Deputy Prime Minister to fund the purchase of Jeskyn's Farm (the expenditure of which is non budget and therefore not included in the above table).

Departmental Expenditure Limit

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jim Knight): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Environment Food and Rural Affairs DEL will be increased by £12,238,000 from £3,018,963,000 to £3,031,201,000 and the administration costs limit will be increased by £25,000,000 from £317,064,000 to

£342,064,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource	12,238	2,253,666	777,535	3,031,201
Capital	-	218,423	120,277	338,700
Depreciation*	-	-107,771	-97,311	-205,082
Total	12,238	2,364,318	800,501	3,164,819

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from (i) take up of £25,000,000 administration resources from the reserve for Developing Defra (ii) take up of £834,000 programme resources from the Invest to Save Budget; (iii) transfer of £4,745,000 of programme resources to the Ministry of Defence due to transfer of responsibility for Met Office functions; (iv) transfer of £5,362,000 to the Office of the Deputy Prime Minister for Government Offices funding; (v) transfer of £838,000 of programme resources to the Forestry Commission for the Farm Woodland Premium Scheme; (vi) profit of £2,651,000 on sale of a Rural Payments Agency (RPA) grain store.

There is no change in the capital element of the DEL.

FOREIGN AND COMMONWEALTH AFFAIRS

Departmental Expenditure Limit

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Foreign and Commonwealth Office Departmental Expenditure Limit (DEL) will be increased by £16,047,000 from £1,813,483,000 to £1,829,530,000 and the administration budget will be decreased by £1,400,000 from £797,638,000 to £796,238,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	Voted	New DEL Non-voted	Total
Resource	16,047	1,776,817	52,713	1,829,530
Capital	0	121,978	1,000	122,978
Depreciation*	0	-113,624	-20,000	-133,624
Total	16,047	1,785,171	33,713	1,818,884

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

Request for Resources 1

Administration

I. A transfer of £1,400,000 to the Security and Intelligence Agencies (SIA) for language training provided by the FCO. This will in future be invoiced to the SIA, resulting in an offsetting increase in both income and expenditure of £1,400,000 to reflect this;

Programme

II. Transfers from the Home Office of £1,000,000 for the funding of the Afghan Delivery Plan; and from the Department for International Development (DfID) of £7,985,000 for the transfer of the Small Grants Scheme to the FCO;

III. A transfer to the Security and Intelligence Agencies (SIA) of £3,588,000 for revisions in Planned Programme Activity;

Request for Resources 2

Programme

IV. Transfer from DfID of £12,000,000 for Africa Peacekeeping activity and £150,000 from DfID for Caucasus Conflict Prevention projects;

V. A transfer of £100,000 to SIA for revisions in Planned Programme Activity.

There is no change to the capital element of the DEL.

Consular Fees (Amendment) Order 2005

The Minister of State for Foreign and Commonwealth Affairs (Dr. Kim Howells): The Foreign and Commonwealth Office has recently undertaken an exercise to determine the fees to be charged for Biometric passports issued overseas. On 15 November 2005 Her Majesty in Council approved the Consular Fees (Amendment) Order 2005, which amends the Consular Fees Order 2005. The Government is today announcing Biometric passport fees to be charged under the amended Consular Fees Order 2005 with effect from 1 December 2005.

The fee for a standard 32 page Biometric passport will be set at £91.00, the fee for a 48 page Biometric passport will be set at £109.00, the fee for a Biometric passport for a child will be set at £59.00, and the fee for an amendment will be set at £75.50. These fees have been set following a stringent review with HM Treasury of costs.

The Biometric passport is being introduced as part of the ongoing efforts to combat passport and identity fraud. The issuing equipment will be rolled out to our passport issuing Posts between January 2006 and July 2006.

HEALTH

Broadmoor Hospital

The Minister of State, Department of Health (Ms Rosie Winterton): The Department has approved outline proposals for a major redevelopment programme at Broadmoor Hospital in Berkshire.

Broadmoor Hospital is part of West London Mental Health Trust and provides services under the provisions of the NHS Act 1977 for persons who require treatment under conditions of high security. It was recently criticised for the inadequacy of its physical infrastructure and facilities in a 2003 report by the Commission for Healthcare Audit and Inspection (now known as the Healthcare Commission).

The redevelopment proposals contained a number of construction options to rectify these deficiencies and provide a safer and more effective clinical environment.

The eventual costs have to be related to the revenue affordability of the scheme and on current estimates this means the cost of redevelopment is unlikely to exceed £190 million at today's prices.

The next step for the Broadmoor scheme will be to further explore the potential construction options over the next 12 to18 months and prepare an outline business case to select the preferred option and procurement strategy, at which point the scheme's capital budget will be set.

Departmental Expenditure Limit

The Secretary of State for Health (Ms Patricia Hewitt): Subject to the necessary Supplementary Estimate, the Department of Health's element of the Departmental Expenditure Limit (DEL) will be reduced by £174,214,000 from £78,765,403,000 to £78,591,189,000 and the Administration Cost Limit will be reduced by £1,059,000 from £248,688,000 to £247,629,000. The Food Standards Agency DEL will be increased by £300,000 from £144,124,000 to £144,424,000. The overall DEL including the Food Standards Agency will reduced by £173,914,000 from £78,909,527,000 to £78,735,613,000. The impact on resource and capital are set out in the following table.

	Change £ million	*Voted £ million*	*New DEL Non-Voted £ million*	*Total £ million*
Department of Health				
Resource DEL	-174.214	75,237.349	-464.567	74,772.782
Capital DEL	0	1,296.545	2,521.862	3,818.407
Total Department of Health DEL	-174.214	76,533.894	2057.295	78,591.189
Depreciation*	-0.134	-610.510	-51.669	-662.179
Total Department of Health spending (after adjustment)	-174.348	75,923.384	2,005.626	77,929.010
Food Standards Agency				
Resources	0.300	143.777	0	143.777
Capital	0	'0.647	0	0.647
Total Food Standards Agency DEL	0.300	144.424	0	144.424
Depreciation*	0	-2.004	0	-2.004
Total Food Standards Agency spending (after adjustment)	0.300	142.420	0	142.420

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since the capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the DEL arises from a reduction in the level of provisions by £200,000,000. A net transfers from the Home Office of £28,728,000 mainly for prison healthcare, pooled drug treatment budgets, hospital security and a contribution to change-up funding to promote volunteering, offset by the young persons substance misuse planning grant which is now administered by the Home Office. A transfer from the Scottish Executive of £47,000 for a contribution for the high security infectious disease unit and a transfer to the Department for Education and Skills of £2,989,000 (£1,059,000 administration costs) mainly for protection of vulnerable adults scheme and funding Bichard review recommendations.

The administration cost limit has been reduced by £1,059,000 from £248,688,000 to £247,629,000 as detailed above.

The change to the Food Standards Agency resource element of the DEL arose from a transfer of £300,000 programme funds from the Home Office in respect of research into the survivability of chemical biological agents in bottled water and packaged food. The Food Standards Agency's administration cost limit and capital element of the DEL remain unchanged.

HOME DEPARTMENT

Styal Prison

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): I welcome the publication today of the Prison and Probation Ombudsman's (PPO) report into the death at Styal of Julie Walsh in 2003 and wish to make a statement about developments since 2003 and further planned work relating to women offenders. Much work has been done or is underway in respect of women offenders but it is timely to take stock and assess whether the right steps are being taken.

On 21 August 2003 Paul Goggins announced that he had commissioned the Prisons and Probation Ombudsman to investigate the circumstances and events surrounding the death at Styal of Julie Walsh on 12 August 2003 and to examine the death in the context of the series of six deaths at Styal since August 2002. On 21 January 2004 Paul Goggins made a statement in which he outlined the main general findings of the Ombudsman's report and the action the Prison Service was taking as a matter of urgency to prevent a recurrence. The Ombudsman's detailed and thorough report identified some serious inadequacies at Styal relating to regimes, facilities and procedures during the period covered by the six deaths. The Ombudsman suggested what lessons can be learned from these sad events to prevent a recurrence; reported on factors common to the deaths; and made a number of recommendations, which Paul Goggins accepted. The report will be published today, 17 November 2005, on the Ombudsman's website.

The first five deaths were thoroughly investigated by the Prison Service and were examined further by the PPO as part of his investigation into the death of Julie Walsh. Full public inquests took place between October 2003 and April 2005, the sixth inquest concluding on 26 April 2005. These were thorough and transparent investigations. There has been subsequent correspondence with the Cheshire Coroner about a number of concerns he identified in respect of three of the inquests.

Many important changes have been made at Styal in the intervening period including the opening of a first night centre to which women arriving from court are transferred within 30 minutes of arrival, the introduction of a methadone detoxification programme, the opening of a specialist unit known as "CALM" to provide a therapeutic environment for those women not able to access wider regime activities, transformation of

the segregation unit into a Care, Separation and Reintegration Unit, staffed by selected prison officers and mental health nurses to support prisoners in crisis, and development of the Reeman Unit into a day care facility run by mental health nurses to support prisoners with long term mental health issues. Following a review, new suicide and self-harm prevention procedures are in place overseen by a dedicated Suicide Prevention Coordinator. ACCT (Assessment, Care in Custody and Teamwork), which provides individualised support and care for women at risk of self-harm has been introduced and staff at Styal folly trained in its use.

The Ombudsman's report raised some very serious issues and has made a valuable contribution to suicide prevention not just at Styal but also throughout the rest of the women's estate. From 1 April 2004 the Ombudsman has conducted investigations into all deaths in prison custody (and probation hostels and immigration centres). He has provided greater independent scrutiny and transparency and increased public confidence, and made it more likely that lessons are learned that reduce the likelihood of further deaths. The report has helped inform development of a suicide and self-harm prevention strategy specifically for women. Moreover, the increased knowledge and learning is being shared across other custodial institutions to help inform suicide prevention strategies across the board.

The Government believe that prison should be reserved for dangerous, serious and seriously persistent offenders and sentences should be as long as necessary for punishment and public protection, but no longer. Sentencing is a matter for the courts but sentencers should be adequately informed about the vulnerability of individual offenders and should balance the seriousness of the offence and the risk of harm offenders pose to others with the risk of harm to themselves. Section 166 of the Criminal Justice Act 2003 gives sentencers the discretion to mitigate sentences by taking into account such information and allows sentencers to impose a community sentence, providing there are relevant mitigating factors, even where the offence would normally have justified a custodial sentence. The Criminal Justice Act 2003 also states that a court must not pass a custodial sentence on an offender unless it is of the opinion that the offence, or combination of offences, are serious enough to warrant such a sentence.

Sentencers must be well informed about the range of non-custodial sentences at their disposal. To ensure effective dialogue between sentencers and those who deliver sentences liaison takes place between local probation services and sentencers. Consultative fora involving sentencers, court staff and offender managers are being used to provide feedback to sentencers on the effectiveness of sentences; to enhance understanding of sentencing options available locally; and to provide feedback on sentencing decisions including information when someone they have sentenced to custody self harms, or commits or attempts suicide. Many sentencers welcome this feedback.

Work continues on The Women's Offending Reduction Programme (WORP) to co-ordinate and implement a comprehensive programme of work to address the complex range of factors that affect women's offending—including substance misuse, mental health problems, housing, child care issues, histories of abuse, poverty and education, training and employment. WORP seeks to identify ways in which the various departments, agencies and organisations that deal with these issues can work more effectively together to tackle the problem as a whole, rather than dealing with each in isolation. £9.15 million is to be spent on new approaches in two areas to demonstrate how women's offending can be tackled effectively in the community, including provision of one-stop centres for women serving sentences in the community and for those at risk of offending. We have also introduced a full range of tough, credible and effective sentences as alternatives to custody within a new sentencing framework in the Criminal Justice Act 2003.

Work is in hand to improve the prison life experience of those women who need to be in prison, particularly relating to their health, mental health and substance abuse needs. We are also developing suicide prevention and self-harm strategies specifically for women; providing much better healthcare services in prison in partnership with the NHS; and improving clinical substance misuse services by providing effective detoxification services and drug treatment programmes for women prisoners.

We believe that all of these measures are helping to make a difference to the vulnerable women who come into contact with the Criminal Justice System. Nonetheless, the Government is not complacent and considers that it would be timely to take stock of the work being done. We therefore plan to look again at the measures in place to ensure that we are doing everything possible for these women, including looking at the pathways through the criminal justice system of "vulnerable" women with a multitude of risk factors. I will make a further announcement about this when the scope of the review has been determined.

United Kingdom Passport Fees

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): The Privy Council has made an Order in Council, the Consular Fees (No. 2) Order 2005, which gives authority for a revision in passport fees. The revision will take effect on 1 December 2005. The fee for a standard 32 page passport will increase from £42 to £51 while the fee for a 48 page passport will increase from £54.50 to £62.50. The fee for a passport for a child will increase from £25 to £34. The fee for an adult using the guaranteed one week counter service for a standard 32 page passport will increase from £70 to £77.50, for a child from £60 to £70 and a 48 page jumbo from £71 to £87. The fee for an adult using the guaranteed same day service for a standard 32 page passport will increase from £89 to £96.50, for a child from £71 to £83 and for a 48 page passport from £95.50 to £104.50. The fee for a collective passport, for organised trips for schools and youth groups, will remain unchanged at £39.

These fees have been set following a stringent review with HM Treasury of costs to ensure that the fee for each type of passport service closely reflects the production costs accrued by that service and bears its share of the cost of consular protection services. This

increase will deliver extensive improvements required in the ongoing efforts to combat passport and identity fraud.

Departmental Expenditure Limit

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): Plans to change the Charity Commission's Departmental Expenditure Limit (DEL) and administration budget for 2005–06.

Subject to Parliamentary approval of any necessary Supplementary Estimate, the Charity Commission DEL will be increased by £1,365,000 from £31,242,000 to £32,607,000 and the administration budget will be increased by £1,660,000 from £30,493,000 to £32,153,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource	1,660	32,153	0	32,153
Capital	205	1,604	0	1,604
Depreciation*	-500	-1,150	0	-1,150
Total	1,365	32,607	0	32,607

*Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

expenditure of £555,000 on restructuring within the Commission in line with the recommendations of the Strategy Unit report 'Private Action—Public Benefit' and the Commission's Strategic Review;

one off accommodation costs of £855,000;

an increase in resource cost of £500,000 depreciation relating to increases in E-Business expenditure.

In addition the resource element reflects corrections to the Main Estimate submission in terms of a £157,000 increase in administrative expenditure and a £407,000 decrease in resource costs related to Efficiency Challenge Fund monies.

The change in the capital element of the DEL arises from a known peak in E-Business expenditure, reflecting controlled underspend in prior years.

The increases will be funded by the take up of the Commission's End Year Flexibility entitlement.

Departmental Expenditure Limit

The Secretary of State for the Home Department (Mr. Charles Clarke): Plans of changes to the Departmental Expenditure Limit ("DEL") and Administration Budget for 2005–06.

Subject to Parliamentary approval of the necessary Supplementary Estimate, the Home Office's Departmental Expenditure Limits for 2005–06 will be increased by £75,695,000 from £13,570,091,000 to £13,645,786,000 and the Administration Budget will be increased by £5,855,000 from £698,671,000 to £704,526,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000

	Change	*Voted*	*New DEL Non-voted*	*Total*
Resource:	18,813	10,821,095	1,940,502	12,761,597
of which:				
Administration Budget	5,855	649,798	54,728	704,526
Capital	36,531	947,974	250,057	1,198,031
Less depreciation	20,351	-258,457	-55,385	-313,842
Total	75,695	11,510,612	2,135,174	13,645,786

*Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

DEL reserve claim totalling £15,000,000 comprising:	15,000		
In section M, £15,000,000 capital re-profiled from 2007-08 to 2005-06 for biovisa funding.	-15,000		

INTERNATIONAL DEVELOPMENT

Departmental Expenditure Limit

The Secretary of State for International Development (Hilary Benn): Subject to parliamentary approval of the necessary Supplementary Estimate, the Department for International Development departmental expenditure limit (DEL) will be decreased by £8,962,000 from £4,481,044,000 to £4,472,082,000. The administration budget remains unchanged at £238,970,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000's

	Change	Voted	New DEL Non-voted	Total
Resource	-20,954	3,814,516	637,574	4,452,090
Capital	12,000	42,000		42,000
Depreciation*	-8	-22,008		-22,008
Total	-8,962	3,834,508	637,574	4,472,082

*Depreciation, which forms part of the resource DEL, is excluded from the total DEL, since capital DEL includes capital spending and to include depreciation of these assets would lead to double counting.

The change in the resource element of the DEL arises from:

Voted

The take up of £4,865,000 of departmental unallocated provision within Request for Resources 1 to support development programmes in sub-Saharan Africa.

The take up of £5,000,000 of departmental unallocated provision within Request for Resources 1 to support programmes developing innovative approaches to development.

An increase of £2,000,000 within Request for Resources 1 in respect of additional resources provided to enable a donation to be made to the Disasters Emergency Committee equivalent to VAT charged on Tsunami appeal events.

A transfer of £19,000 from the Department for Education and Skills to Request for Resources 1 for charitable donations relating to the UK Presidencies of the G8 and European Union.

A reduction of £2,838,000 within Request for Resources 1 to adjust for the refund of VAT to the BandAid Charitable Trust being lower than the provision included in Main Estimates.

Non-voted

A reduction of £9,865,000 resulting from the transfer of departmental unallocated provision to Request for Resources 1 to support development programmes in sub-saharan Africa and programmes developing innovative approaches to development.

A reduction of £7,985,000 relating to the transfer of departmental unallocated provision to the Foreign and Commonwealth Office as a consequence of the transfer of policy responsibility for the Small Grants Scheme.

A reduction of £12,000,000 relating to the transfer of departmental unallocated provision to the Foreign and Commonwealth Office in respect of support for the African Union mission in Sudan (Darfur).

A reduction of £150,000 relating to the transfer of departmental unallocated provision to the Foreign and Commonwealth Office in respect of Global Conflict Prevention projects in the Caucasus.

The change in the capital element of the DEL arises from:

Voted

A draw down of £11,800,000 of capital end-year flexibility as set out in the Public Expenditure 2004–05 *Provisional Outturn* White Paper (Cm 6639) within Request for Resources 1 for construction of new offices and security enhancements to regional offices, for investments in regional development banks and other international development agencies, and for investment in improvements to management information and financial systems.

A draw down of £200,000 of capital end-year flexibility within Request for Resources 2 for investment in information systems for the Post Conflict Reconstruction Unit.

The change in the adjustment for depreciation arises from the inclusion within Request for Resources 2 of an allowance for the depreciation of assets used for post conflict reconstruction.

SCOTLAND

Departmental Expenditure Limit

The Secretary of State for Scotland (Mr. Alistair Darling): Subject to parliamentary approval of the necessary Supplementary Estimates, the Scotland Departmental Expenditure Limit (DEL) will be increased by £59,014,000 from £23,306,369,000 to £23,365,383,000.

The DEL increase takes account of the following routine adjustments to the Scottish Executive provision:

the take-up of End Year Flexibility (EYF) by the Scottish Executive amounting to £34,814,000; and

the take-up of 2005 Budget consequentials by the Scottish Executive amounting to £21,107,000.

The DEL increase also includes the following transfers between the Scottish Executive and other Government departments, amounting to a net increase of £3,093,000. These are:

a transfer of £3,750,000 from the Department for Transport;

net transfers of £600,000 to Department for Work and Pensions;

a transfer of £47,000 to the Department of Health; and

a transfer of £10,000 to the Home Office.

The increases will be offset by interdepartmental transfers as detailed above or charged to the DEL Reserve and will not therefore add to the planned total of public expenditure.

TRADE AND INDUSTRY

Departmental Expenditure Limit

The Secretary of State for Trade and Industry (Alan Johnson): The Department has, today, produced its Winter Supplementary 2005–06 Estimates Memorandum. Copies of the Memorandum have been placed in the Libraries of both Houses.

TRANSPORT

Departmental Expenditure Limit

The Secretary of State for Transport (Mr. Alistair Darling): Subject to Parliamentary approval of any necessary Supplementary Estimate, the Department for Transport DEL for 2005–06 will be decreased by £21,457,000 from £11,745,372,000 to £11,723,915,000 and the administration costs limits will be increased by £22,446,000 from £242,112,000 to £264,558,000.

Within the DEL change, the impact on resources and capital are as set out in the following table:

£'000

	Change	*Voted*	*New DEL Non-Voted*	*Total*
Resource:				
Administration	22,446	260,535	4,023	264,558
Programme	-36,069	6,083,420	2,458,034	8,541,454
Capital	-4,300	1,847,126	1,448,534	3,295,660
Depreciation*	-3,534	-368,380	-9,377	-377,757
Total	-21,457	7,822,701	3,901,214	11,723,915

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

Resource Change: Administration (total increase of £22,446,000)

Voted: total increase of £22,446,000.

RfR1

(i) a transfer of £19,203,000 from non voted programme resource to Central Administration arising from the winding up of the Strategic Rail Authority;

(ii) a transfer of £7,643,000 from voted programme resource arising from the winding up of the Strategic Rail Authority; partially offset by

(iii) a transfer of £4,400,000 to the Office of Deputy Prime Minister for their share of accruing superannuation liability charges.

Resource Change: Programme (total decrease of £36,096,000)

Voted: total increase of £1,575,986,000

RfR 1

(i) a net transfer from non-voted resource provision of £1,583,379,000 comprising:

(a) a transfer of £1,554,693,000 arising from the winding up of the Strategic Rail Authority and the transfers of responsibilities to the Department;

(b) £17,268,000 transfer to freight grants for functions transferred from the Strategic Rail Authority;

(c) £12,118,000 transfer from Departmental Unallocated Provision for Transport Direct (£7,000,000), Crossrail preparation costs, EU presidency costs and the study of the long term impact of transport decisions (£4,118,000) and transport security (1,000,000); partially offset by:

(d) £700,000 transfer from Roads and Local Transport to Departmental Unallocated Provision to decrease resource provision for consultancies and other services.

(ii) a transfer of £250,000 from the Department for Trade and Industry for the Low Carbon Vehicle Partnership.

(iii) a transfer of £7,643,000 to voted administration resource.

Non Voted: total decrease of £1,612,055,000.

RfR 1

(i) a net transfer of £1,583,379,000 to voted resource.

(ii) a transfer of £19,203,000 to voted administration resource; and

(iii) a net transfer of £9,473,000 to other government departments comprising:

(a) £4,000,000 to the Department for Culture, Media and Sport in respect of the Wembley National Stadium project;

(b) £3,750,000 to the Scottish Executive for functions transferred from the Strategic Rail Authority;

(c) £2,000,000 to the Office of Rail Regulation for the transfer of functions from the Strategic Rail Authority;

(d) £63,000 to the Welsh Assembly for additional staff costs arising from the devolution of rail services to Wales; partially offset by

(e) £340,000 from the Home Office for the Libra Restart Project.

Capital Change (total decrease of £4,300,000)

Voted: total increase of £50,986,000

RfR1

(i) a net transfer from non-voted capital provision of £50,986,000 comprising:

(a) a reclassification of £54,286,000 from supported capital expenditure (revenue) to capital grants for local transport major schemes;

(b) a transfer of £700,000 to transport technology research from Departmental Unallocated Provision; partially offset by

(c) £4,000,000 transfer from Transport Direct to Departmental Unallocated Provision.

Non-Voted total decrease of £55,286,000

RfR1

(i) a net transfer of £50,986,000 to voted capital and

(ii) a net transfer of £4,300,000 to the Office of Rail Regulation for the transfer of functions from the Strategic Rail Authority.

WALES

Departmental Expenditure Limit

The Secretary of State for Wales (Mr. Peter Hain): The Wales Departmental Expenditure Limit will be increased by £1,207,000 from £12,242,287,000 to £12,243,494,000. The increase is a result of:

(a) Net transfers from other Government Departments to the National Assembly for Wales of £643,000.

(b) A consequential of £564,000 for the Invest to save budget as part of the Chancellor's Spring Budget.

These transfers are as follows:

(i) £516,000 from the Home Office for the Community Safety Unit;

(ii) £64,000 from the Home Office for Social Cohesion;

(iii) £63,000 from the DFT for Rail Transport;

The increase in DEL will be offset by transfers from other Departments and will not therefore add to the planned total of public expenditure.

WORK AND PENSIONS

Vinyl Chloride Monomer-Related Diseases

The Minister for Employment and Welfare Reform (Margaret Hodge): The Industrial Injuries Advisory Council report has today been laid before Parliament. After careful consideration, I have accepted the recommendations. Amending legislation will be laid before Parliament.

In brief the changes are as follows:

In the case of Prescribed Disease C24 prescription has been changed from:

Prescribed Disease	*Occupation*
C24 (a) Angiosarcoma of the liver; (b) acro-osteolysis characterised by: (i) lytic destruction of the terminal phalanges, (ii) in Raynaud's phenomenon, the exaggerated vasomotor response to cold causing intense blanching of the digits, and (iii) sclerodermatous thickening of the skin; (c) liver fibrosis	Exposure to Vinyl Chloride Monomer in the manufacture of polyvinyl chloride

to:

Prescribed disease	*Occupation*
C24 Exposure to Vinyl Chloride Monomer causing: (a) Angiosarcoma of the liver; or (b) Osteolysis of the terminal phalanges of the fingers; or (c) Vinyl-chloride monomer-related Raynaud's phenomenon; or (d) Vinyl-chloride monomer-related sclerodermatous thickening of the skin, particularly but not exclusively of the hands; or (e) Liver fibrosis.	Work involving exposure to Vinyl Chloride Monomer in the manufacture of polyvinyl chloride. (C24c occurs in the absence of C24a, b, d, or e the occupational exposure must have occurred before 1 January 1984). [Exposure to polyvinyl chloride (PVC) is not a cause of the prescribed disease].

Copies of the report have been placed in the Library, and are available to hon. Members from the Vote Office.

Departmental Expenditure Limit

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): Subject to Parliamentary approval of the necessary Supplementary Estimate, the Department for Work and Pensions DEL will be increased by £203,583,000 from £8,623,821,000 to £8,827,404,000 and the administration costs limits

will be increased by £39,855,000 from £6,019,407,000 to £6,059,262,000. Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	New DEL Voted	New DEL Non-voted	Total
Resource	143,425	6,815,271	1,715,181	8,530,452
Capital	60,158	396,414	9,928	406,342
Depreciation[1]		-108,628	-762	-109,390
Total	203,583	7,103,057	1,724,347	8,827,404

Note:

1. Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the DEL arises from:

RfR2

i. an increase in provision of £80,000,000 (other current) due to increased spending on employment programmes (take up of end of year flexibility);

ii. an increase in provision of £600,000 (grants) due to a transfer from the Scottish Executive for the costs of administration subsidy to Local Authorities;

iii. an increase in provision of £2,939,000 (grants) due to a successful bid from the Invest to Save budget;

RfR3

iv. an increase in provision of £5,000,000 (administration) for the costs of age-related payments as announced in the 2004 Pre-budget Report;

v. an increase in provision of £31,000 (grants) due to a successful bid from the Invest to Save budget;

RfR4

vi. a reduction in provision of £145,000 (administration) due to a transfer to the Ministry of Defence for the Veterans Agency postal budget;

RfR5

vii. an increase in provision of £20,000,000 (other current non-cash) due to an increase in the provision for Early Release (end of year flexibility);

viii. an increase in provision of £25,000,000 (administration) from the Reserve to meet the cost of higher Post Office Card Account volumes as agreed in the SR2002 Settlement;

ix. an increase in provision of £10,000,000 (administration) for measures to promote Financial Inclusion as agreed in the 2005 Budget Report;

Capital

The change in the capital element of the DEL arises from:

RfR2

x. an increase in provision of £60,000,000 due to spending on Jobcentre Plus rollout (take up of End Year Flexibility);

RfR3

xi. an increase in provision of £158,000 due to a successful bid from the Invest to Save budget;

Administration Costs

The movement in the Administration Cost limit arises from those items noted above as affecting administration costs.

Movements from Non-voted expenditure

Additionally there are the following drawdowns that are neutral in overall DEL terms:

Departmental Unallocated Provision

xii. £1,500,000 (resource) into RfR2 for the Working Age Client Group;

xiii. £25,000,000 (resource) into RfR3 for the Pensions Service;

xiv. £26,675,000 (resource) into RfR5 for Corporate Administration;

xv. £7,000,000 (capital) into RfR5 for Corporate Projects;

Welfare Modernisation Fund

xvi. £25,000,000 into RfR1 for Child Support Reform;

xvii. £30,000,000 into RfR2 for the Customer Management System;

xviii. £69,000,000 (resource) and £29,000,000 (capital) into RfR3 for the Pensions Transformation Project;

xix. £47,000,000 into RfR5 for expenditure on the Payment Modernisation Project, the Resource Management Project and the Debt Management Project;

Employment Development Fund

xx. £70,000,000 into RfR2 for Jobcentre Plus roll out.

Financial Assistance Scheme

xxi. £21,000,000 from RfR3 into non-voted.

CONSTITUTIONAL AFFAIRS

Winter Supplementary Estimate 2005–06

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): Subject to parliamentary approval of any necessary Supplementary Estimate, the *Department for Constitutional Affairs, Northern Ireland Court Service and National Archives: Public Records Office and Historical Manuscripts Commission* Total Departmental Expenditure Limit (DEL) will be *increased* by £112,824,000 from £3,673,082,000 to £3,785,906,000 and the administration costs limit will be *increased* by £13,847,000 from £476,234,000 to £490,081,000

Within the DEL change, the impact on resources and capital are as set out in the following table:

£000s

	Change	New DEL Voted	New DEL Non-voted	Total
Resource:				
Admin	13,847	490,081	0	490,081
Programme	65,283	1,086,808	2,165,878	3,252,686
Capital	33,694	169,227	2,029	171,256
Depreciation*	0	-127,265	-852	-128,117
Total	112,824	1,618,851	2,167,055	3,785,906

*Depreciation, which forms part of resource DEL, is excluded from the total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting.

The change in the resource element of the Department for Constitutional Affairs DEL arises from:

Resource Change: Admin (total increase of £18,331,000)

RfR1

Transfers from other Government departments:

(i) £3,550,000 resources from the Home Office in relation to Criminal Justice Information Technology (CJIT) Criminal Justice Service (CJS) ring fence to provide additional funding for the Effective Trial Management Programme (ETMP) information technology programme.

Take up of End-Year Flexibility (EYF):

(ii) £1,225,000 increase of resources in relation to Local Government Elections.

(iii) £15,141,000 increase of resources in relation to Departmental underspends.

(iv) £150,000 increase of resources in relation to Criminal Justice Information Technology (CJIT).

Transfers to other Government departments:

(v) £248,000 to the Crown Prosecution Service in relation to staff on secondment to Liverpool Community Justice Centre.

(vi) £150,000 to the Home Office in relation to Contribution to the Central Witness Bureau.

(vii) A Machinery of Government transfer of £48,000 to the Department for Culture, Media & Sports in relation to the Remembrance Sunday Ceremony.

Transfers between sections within the Estimates:

(viii) A reduction of £1,289,000 Public Guardianship Office administration resource to program in relation to internal re-allocation.

Resource Change: Programme (total increase of £47,894,000)

RfR1

Transfers from other Government departments:

(i) £23,780,000 resources from the Home Office in relation to Criminal Justice Information Technology (CJIT) ring fenced funding.

(ii) £215,000 resources from the Home Office in relation to support funding for Essex Local Criminal Justice Board (LCJB).

Take up of End-Year Flexibility (EYF):

(iii) £14,000 to Legal Services Commission: Administration in relation to Invest to Save Budget (ISB) funding for the Live and Interactive Project—ISB Ref: 297.

Transfers between sections within the Estimates:

(iv) An increase of £1,289,000 from Public Guardianship Office administration resource to program in relation to internal re-allocation.

Transfers to other Government departments:

(v) £2,000,000 to the Home Office in relation to Local Criminal Justice Board (LCJB) funding.

(vi) £1,804,000 to Crown prosecution Service in relation to Effective Trial Management Programme (ETMP) Funding.

Enforcement Improvement Pilot:

(vii) £44,600,000 additional appropriations in aid to Her Majesty's Court Service in relation to the Enforcement Improvement Pilot Scheme (the appropriation in aid of fine receipts in order to reinvest in the enforcement process).

Other Costs

(viii) £71,000,000 non-voted resource DEL for Elections

The change in the resource element of the Northern Ireland Court Service DEL arises from:

Resource Change: Admin (total decrease of £4,484,000)

(i) To take up resource end year flexibility of £655,000 in respect of administration expenditure on the planned costs associated with the Integrated Court Operations System (ICOS), £250,000 implementation costs of the Northern Ireland Judicial Appointments Commission and in respect of additional cash expenditure on publicly funded legal services by the Northern Ireland Legal Services Commission.

(ii) A reduction of £5,389,000 administration resource to programme in relation to internal reallocation.

Resource Change: Programme (total increase of £17,389,000)

(iii) An increase of £5,389,000 from administration resource to programme in relation to internal reallocation.

(iv) To take up resource end year flexibility of £12,000,000 in respect of additional cash expenditure on publicly funded legal services by the Northern Ireland Legal Services Commission.

The change in the capital element of the Department for Constitutional Affairs DEL arises from:

Capital Change (total increase of £33,694,000)

RfR1

Transfers from other Government departments:

(i) £3,480,000 capital from the Home Office in relation to Criminal Justice Information Technology (CJIT) Criminal Justice Service (CJS) ring fence to provide additional funding for the Effective Trial Management Programme (ETMP) information technology programme.

Take up of End-Year Flexibility (EYF):

(i) £18,500,000 capital to Her Majesty's Court Service in relation to Manchester Civil Justice Centre.

(ii) £10,200,000 capital to Her Majesty's Court Service in relation to Greater London Magistrates Court Authority capital receipts.

(iii) £11,300,000 capital in relation to Core Capital Grants to Local Authorities.

(iv) £5,580,000 increase of capital in relation to the Criminal Justice Reserve.

(v) £1,330,000 increase of capital in relation to Criminal Justice Information Technology (CJIT).

(vi) £170,000 increase of capital in relation to the Capital Modernisation Fund.

(vii) £34,000 capital to Legal Services Commission: Administration in relation to Invest to Save Budget (ISB) funding for the Live and Interactive Project—ISB Ref: 297.

Transfers to other Government departments:

(i) £16,900,000 capital to the Home Office in relation to Criminal Justice Information Technology (CJIT) funding.

There is no change in the capital element of the Northern Ireland Court Service DEL.

Written Ministerial Statements

Monday 21 November 2005

CABINET OFFICE

Public Bodies Database

The Parliamentary Under-Secretary of State for the Cabinet Office (Mr. Jim Murphy): In a written ministerial statement of Thursday 10 February 2005, *Official Report*, col. 85WS, it was announced that the previous annual Cabinet Office publication "Public Bodies" had been replaced by an on-line searchable database. I am pleased to announce that the 2005 update of the database has now been completed. Data on individual public bodies as at 31 March 2005 were made available on-line during the summer, and the package has now been completed with the provision of summary reports and a printable (.pdf) file of all the 2005 data. The database is accessible at: http://www.knowledgenetwork.gov.uk/ndpb/ndpb.nsf.

The database lists the public bodies sponsored by central Government, with contact details, information about their remit and about the membership of their boards. The figures are broken down between male and female members for individual bodies, and summaries are provided at departmental level for the proportions of board members who are women, have declared they have a disability or come from a minority ethnic background.

Comparisons with 2004 database returns show that diversity levels have remained broadly similar. There has been a small increase in the proportion of appointees who have declared they have a disability, but a slight decrease in the percentage of appointments held by women and by people from minority ethnic backgrounds. This reinforces the Government's commitment to continue to pursue its diversity objectives and to promote outreach activity and plans.

The database also includes information about the Government's Task Forces, Ad-hoc Advisory Groups and Reviews, giving a more complete picture of the bodies and groups working to deliver the Government's objectives.

Copies of a printed version of the .pdf file are available in the Library.

CONSTITUTIONAL AFFAIRS

European Court of Human Rights
(B and L v United Kingdom)

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): My noble and learned Friend, the Parliamentary Under- Secretary of State, Baroness Ashton of Upholland, has made the following statement in the other place today.

"On the 13 September 2005 judgment was given in the case of B and L v United Kingdom. This case concerned an application before the European Court of Human Rights in Strasbourg, challenging the Marriage Act 1949 prohibition on the marriage of parents-in-law to children-in-law. It was held that the prohibition was in violation of Article 12 of the European Convention on Human Rights.

The Government have accepted this judgment and intend to implement it by amending the Marriage Act 1949 by way of a Remedial Order. Subject to Parliamentary approval, this amendment, when in force, will allow marriages between parents and children-in-law. The Government will lay a document containing a draft Remedial Order and the other information required by the Human Rights Act 1998 before Parliament shortly.

The parallel provisions in the Civil Partnership Act 2004 (Schedule 1, paragraphs 3 and 9; Schedule 27, paragraph 13 and 17 (in part)) will not be commenced so that same-sex couples that wish to form a civil partnership will have parity of treatment in this regard".

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council 22–24 November 2005

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): The European Union Agriculture and Fisheries Council will meet in Brussels from 22 to 24 November 2005.

I will chair the agriculture items with my hon. Friend the Parliamentary Under-Secretary, Ben Bradshaw, in the UK seat.

Ben Bradshaw will chair the fisheries items with my hon. Friend the Parliamentary Under-Secretary, Jim Knight, in the UK seat.

The main item of agriculture business is to try to reach a general approach (in effect a political conclusion) on the proposal to reform the Common Agricultural Policy sugar regime.

The Council will also consider the proposal for EU Strategic Guidelines on Rural Development, where again, we hope to reach a general approach.

The fisheries items on the agenda include Baltic Sea technical conservation measures, where we hope to reach political agreement. There will also be political debates on Baltic Sea total allowable catches and the effort control measures associated with total allowable catches and quotas for 2006.

Under any other business, the Fisheries Commissioner will update the Council on EU/ Norway fisheries agreement.

There will be an update on avian influenza by the Commissioner for Health and Consumer Protection.

Poland will inform the Council about a ban by Russia on the import of Polish meat and plants.

The Agriculture Commissioner will update the Council on developments in the WTO agricultural negotiations.

Estonia, Hungary, Latvia and Lithuania will draw the Council's attention to problems in their transition from the Single Area Payment Scheme (the temporary system of farm payments in place for the new Member States) to the Single Payment Scheme (the system which applies in the rest of the EU).

Cyprus will notify the Commission of a state aid scheme designed to compensate farmers for land lost after the Turkish occupation of Northern Cyprus.

HOME DEPARTMENT

Inspectorate for Justice, Community Safety and Custody

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): Today the Government will publish a policy statement announcing its intention to create a single inspectorate for Justice, Community Safety and Custody. Copies of the report have been placed in the Libraries of the House.

The Government are committed to creating an independent and robust inspection regime for the justice system. In March a consultation exercise was launched that sought views on the purpose, function and future structure of inspection in this sector. The consultation period ended in June and after careful consideration of views the Government believe the best way to realise that ambition is to create a single inspectorate for Justice, Community Safety and Custody.

The policy statement outlines proposals for the design of the new inspectorate. Building on the excellent work done by the five existing inspectorates for the police, the Crown Prosecution Service, court administration, prisons and probation, the new inspectorate will be a modern organisation that provides a strong, expert and independent public voice and gives authoritative assurance and constructive criticism on how the system is working for the people who rely on it: victims, witnesses, defendants, jurors, convicted offenders, professionals and the wider public as its ultimate funder and beneficiary.

The new inspectorate will have a general duty to inspect and report on the functioning of the justice system and the delivery by the bodies within it of their duties relating to wider community safety. Inspection of and reporting on the treatment and conditions of those in prison and other specified forms of custody will be a special duty of the inspectorate.

The Government look forward to working with those concerned with the future of the justice system to implement a unified and strongly led inspectorate that is forward-looking and focused on improving services so as to reduce crime and re-offending and promote confidence in the system as a whole.

Animal (Scientific Procedures) Inspectorate

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): I am pleased to inform the House that I have today placed in the Library the annual report of the Animals (Scientific Procedures) Inspectorate for the year 2004. This is the first annual report published by the Inspectorate.

Publication of the report honours a commitment given by the Government in response to a recommendation of the House of Lords Select Committee on Animals in Scientific Procedures in July 2002 that more information should be made available about the work of Inspectorate.

In the Government's response, published in January 2003, we welcomed the Select Committee's endorsement of the integrity of the Inspectorate and of the important contribution that it has made to the welfare of animals in designated establishments. We also recognised that public awareness of the valuable job done by the Inspectorate needed to be improved and concluded that this could be remedied, at least in part, by the publication of an annual report on its work.

The Inspectorate's first annual report published today explains what the inspectors do and how they do it, and provides details of the Inspectorate's staffing and structure, ways of working, professional background and skills, and training and development. There are currently 30 inspectors and our long term target is to have 33.

The report explains the Inspectorate's role in assessing and advising Home Office Ministers and officials on applications for personal and project licences and certificates of designation under the Animals (Scientific Procedures) Act 1986. It also provides details of the inspection system, through which compliance with licence authorities granted under the 1986 Act is monitored and provides information about visiting patterns and practice and the number of visits carried out during the year.

The report also explains the important role of inspectors in gathering and transmitting information on good practice and provides examples of the many events and initiatives to which the Inspectorate made significant contributions during the year.

I commend the report to the attention of Members.

NORTHERN IRELAND

Compensation Agency

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have today published the Compensation Agency's combined Corporate Plan (2005–08) and Business Plan (2005–06). The Corporate Plan sets out the long term strategic goals for the Agency over the three-year period, and the Business Plan sets out the Agency's key objectives and performance targets for the coming year.

Copies have been placed in the Libraries of both Houses.

TRANSPORT

Ship to Ship Transfers (Firth of Forth)

The Secretary of State for Transport (Mr. Alistair Darling): Forth Ports plc has submitted a revised and amplified oil spill contingency plan to the Maritime and Coastguard Agency (MCA).

The revision and amplification of the plan has been prompted by proposals that ship-to-ship transfer of oil carried as cargo should take place within Forth Ports' harbour authority area. Ship-to-ship transfer is a lawful activity. Ship-to-ship transfers within harbour authority areas already take place in the UK at Scapa Flow, Sullom Voe Oil Terminal and Nigg Oil Terminal, in some cases for as long as twenty-five years.

The MCA's role is limited to approving harbour authorities' oil spill contingency plans to ensure that they address the potential risks of activities carried out in those areas, including ship-to-ship transfers. There is no provision for the MCA to reject an oil spill contingency plan submitted to it. It must either approve

the plan or, if the plan is not compatible with the National Contingency Plan or is not appropriate for dealing with oil pollution incidents which may occur in the area in which the harbour authority or operator has jurisdiction or exercises responsibility, it may direct that the plan be altered. It is the duty of the harbour authority to alter the plan if so directed by the MCA. Failure to maintain the plan (with any directed alterations) or failure to implement the approved plan in the event of an oil pollution incident is a criminal offence.

The MCA will co-ordinate a public consultation to assess the implications for relevant nature conservation sites of Forth Ports' revised and amplified oil spill contingency plan. The consultation is designed to establish whether the revised and amplified plan will adversely affect the integrity of those nature conservation sites.

The Government have reached no view on the applicability of the ECJ judgment of 20 October 2005 on the Council Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora, commonly known as the Habitats Directive, outside the context in which the case was brought.

However, the substantive provisions of that Directive demonstrate the need for an additional activity—an appropriate assessment of the impact of the plan on the conservation objectives of designated protected sites in the Firth of Forth—which has not hitherto been explicitly addressed during the approval process but which, in my opinion, ought to be carried out as a matter of good policy.

Given the very strong interest which this subject has generated on local economic, environmental and public health grounds, I consider it entirely appropriate that such an assessment is conducted and taken into account when analysing the adequacy of the oil spill contingency plan to deal with incidents in the harbour authority's area of responsibility as the MCA is required to do under the Merchant Shipping (Oil Pollution Preparedness, Response and Co-operation Convention) Regulations 1998.

The consultation will include the submitted oil spill contingency plan material and supporting information from Forth Ports and Scottish Natural Heritage. The consultation will assess the implications of the plan for the protected sites (in view of their conservation objectives) with a view to ascertaining whether the plan will adversely affect the integrity of the sites concerned.

The planned duration of the consultation exercise is 12 weeks. Time will also be required, after the consultation period is over, for the analysis and presentation of the results of the consultation. At the end of this process, in the light of the consultation responses and taking into account the advice of Scottish Natural Heritage, the statutory nature conservation authority, the MCA will finalise its appropriate assessment and consider whether any amendments to the plan are needed.

Airports Policing

The Secretary of State for Transport (Mr. Alistair Darling): The Government have decided to amend the Civil Aviation Bill to clarify the responsibilities of airport managers and police in relation to the protection and policing of airports that have been designated by the Secretary of State under section 25 of the Aviation Security Act 1982 ("the Act"). There are currently nine airports designated for policing purposes—Heathrow, Gatwick, Stansted, Birmingham, Manchester, Prestwick, Edinburgh, Glasgow and Aberdeen. The primary responsibility for policing activity at these airports lies with the Chief Constable and the airport manager must make such payments in respect of policing the airport as the manager and the relevant authority may agree. If they cannot agree, the Secretary of State may be required to determine the amount to be paid to the police by the airport manager (section 26(3)).

Recently it has become clear that the relationship between the responsibilities of airport managers, aircraft operators and others carrying out security activities directed by the Secretary of State under Part 2 of the Act (sections 10 to 24) and of the Chief Constable whose officers police a designated airport under Part 3 (sections 25 to 31) is uncertain and also that the scope of the Secretary of State's power under section 26(3) of the Act is unclear.

Given the importance of this issue to the UK's aviation security programme the Government have therefore decided to use the Civil Aviation Bill to seek to amend the Act, to clarify the relationship between the activities of the airport manager and other directed parties at an airport, and policing activities in order to prevent disputes on this point and to provide a more independent method for settling any disputes that may arise in future. The aim of the amendment is to acknowledge that designated airports require both directed parties and police to perform activities, but that in making policing decisions the Chief Constable should be aware of the role of the directed parties and deploy his resources so that they complement those of the directed parties.

In addition to seeking this amendment, the Government have also decided to commission an independent, wide-ranging review of policing at airports. The review will aim to identify a sustainable approach to the policing of airports which takes account of the roles and responsibilities of all stakeholders in protecting an airport and in particular addresses the need for funding arrangements that are objective and transparent. The review will be asked to compare the present method of policing airports with that of other modes of transport to establish any differences or similarities in policing approaches, roles, responsibilities and accountabilities that may apply. The review will also consider whether the principle of designation can be made to work. If it cannot, the review is asked to propose alternative options. I expect the review team to report back with recommendations by spring next year.

As far as the amendment is concerned, it will be helpful to the House and to those affected by it if I set out in detail its effects:

Where an aerodrome has been designated under section 25 of the Act the respective responsibilities of directed parties and the police will be defined. In addition, the manager of the aerodrome, the police

authority and the chief officer of police (the three parties) shall be required to enter into a police services agreement (the Agreement). The Agreement must:

(1) Set out the level of police services and resources required in the year(s) ahead. The Agreement must acknowledge that the police resources will be under the direction and control of the chief officer of police. Since other agencies' and directed parties' activities may affect the police services required those agencies and parties must be consulted before the Agreement is concluded;

(2) provide for the payments in respect of policing to be made and the facilities to be provided by the aerodrome manager;

(3) make provision for modifications to the services to be provided by the police or to the payments to be made by the aerodrome manager as a result of changes of circumstances during the currency of the Agreement.

Where the three parties (i) cannot reach an Agreement because they disagree on a particular aspect such as the level of policing to be provided, or (ii) having reached an Agreement are in dispute as to its terms, construction or operation, the matter will be referred to determination by an expert. The expert must be independent of both parties and have had no prior involvement in the dispute to be determined. The expert's decision will be final and binding, save that a party may appeal to the High Court on a point of law. An expert's decision may, with the permission of the High Court, be enforced as if it were a judgment of the High Court (and may, in particular, be enforced by the use of powers in relation to contempt of court).

Any of the three parties is entitled to ask the Secretary of State to set up the determination. The expert should be a person appointed by the Secretary of State for the particular dispute, and agreed by the aerodrome manager on one side and the police parties for the other side. If the parties cannot agree, the Secretary of State will require each side to appoint an expert and those two experts to appoint a further panel member to act as chairman.

The expert will determine the procedure to be followed in determining a dispute, but any procedure must give each party to the dispute an opportunity to make representations. The Secretary of State will also have an opportunity to make representations before the expert.

Where the case is referred because the parties cannot reach an Agreement, the expert will rule on the dispute and if necessary set out what the provision should be.

Where the dispute concerns a police services agreement which has already been signed, the expert may:

(a) Give a declaration about how a provision of an Agreement is to be construed or operated;

(b) vary the terms of an Agreement;

(c) determine that one party is obliged in accordance with an agreement to pay a specified sum, or a sum to be assessed in a specified manner, to the other party; and/or

(d) make an order about costs.

The definition of the parties' respective roles in protecting an airport and provision for expert determination of any disputes will have effect from today's date and appropriate transitional provision will be made. The provisions regarding the police services agreement will take effect on Royal Assent.

Written Ministerial Statements

Tuesday 22 November 2005

TREASURY

HM Revenue and Customs

The Paymaster General (Dawn Primarolo): HMRC have today reached a settlement of their claim for compensation from Electronic Data Systems Ltd. (EDS) and Electronic Data Systems Corporation for the problems experienced with the IT system developed by EDS to support the launch of the Tax Credit system in 2003 and the subsequent operation of Tax Credits.

The aggregate settlement is £71.25 million (seventy-one million, two hundred and fifty thousand pounds) including an up front payment and payments of additional amounts over time. Details of the settlement are commercially sensitive and therefore bound by a legal confidentiality agreement as is normal in agreements of this nature.

I have written to the Chairman of the Treasury Committee to inform him of this settlement and David Varney, as Chairman of HMRC, has written in similar terms to the chairman of the Public Accounts Committee and the Public Administration Committee. Copies of all three letters have been placed in the House of Commons Library.

EDUCATION AND SKILLS

Education and Youth Council

The Minister for Higher Education and Lifelong Learning (Bill Rammell): My right hon. Friend the Secretary of State for Education and Skills chaired the EU Education and Youth Council held in Brussels on 15 November. I represented the UK during the Education Council and Peter Peacock, Scottish Minister for Children and Young People, represented the UK during the Youth Council.

There were four substantive items on the Education agenda in the morning:

Ministers adopted a partial political agreement on the Lifelong Learning Programme, which involved agreement on all parts of the programme without budgetary implications. Ministers supported a Presidency compromise deal to allow Member States involvement in selecting projects that receive over €1 million from the programme, and all outstanding reserves were lifted.

Ministers adopted a Resolution on enabling higher education to make its full contribution to the Lisbon Strategy. There was also an informal discussion on universities over lunch, reflecting on the questions posed at the Informal Summit at Hampton Court. Member States focussed on relations between business and universities and discussed a variety of methods to stimulate these. All agreed on the need to promote excellence but differed on how to achieve it; some favoured competition between universities, others building up high standards for all.

Ministers also adopted Conclusions on the role of the development of skills and competences in taking forward the Lisbon agenda, which call for the Commission to look at sectoral approaches to skills development. These conclusions build on discussions at the Informal meeting of Education Ministers in London on 12/13 July and are a Presidency initiative but fit within the ongoing Education and Training 2010 work programme.

There was an exchange of views on the direction that the "Education and Training 2010" Work Programme should take over the next two years and priorities for the Joint Interim Report 2006. Ministers called for greater emphasis on Higher Education following the Hampton Court discussions. The importance of teacher training, adult education and reducing school dropout rates was also emphasised. Many agreed that more effective investment in education and training should be prioritised. Increasing mobility, not just at the level of HE, was a priority for many. Some delegations felt the most important point was to drive forward the priorities already established.

At the Youth Council after lunch:

Ministers adopted a partial political agreement on the Youth in Action programme. As with the Lifelong Learning programme this involved agreement on all sections of the text without budgetary implications.

Ministers agreed a Resolution on implementing the European Pact for Youth and promoting active citizenship.

Ministers discussed how the EU should address the concerns of young people and be brought closer to its young citizens. They stressed the need to show young people how they benefit from the EU, through information campaigns, in order to build a sense of European identity. They also stressed the need to involve young people in developing policies that will affect them, and in decision making. Consideration of the needs of disadvantaged young people and the promotion of social inclusion and integration were also highlighted by many. Some delegations suggested establishing EU wide events involving young people, and the Commissioner mentioned European Youth Week in December as an opportunity for young people to discuss European issues.

The night before the Council, my right hon. Friend the Secretary of State for Education and Skills hosted jointly with Commissioner Figel a meeting of the EU-level social partners and the extended troika of current, previous and future Presidencies. This gave the social partners the opportunity to offer their views on the issues to be discussed at the following day's Council.

HEALTH

NHS Foundation Trusts

The Secretary of State for Health (Ms Patricia Hewitt): In accordance with schedule 2, paragraph 11 (5) of the Health and Social Care (Community Health and Standards Act 2003, Monitor's review and consolidated accounts of National Health Service foundation trusts 2004–05, HC 622, was laid before Parliament today. Monitor's statutory name is the Independent Regulator of NHS foundation trusts. Copies of the document are available in the Library.

HOME DEPARTMENT

National Reducing Re-offending Delivery Plan

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): I have today placed in the Library of the House copies of the National Reducing Re-Offending Delivery Plan, which the Government are launching today. The Delivery Plan builds on the Reducing Re-Offending National Action Plan, which was published in July last year and it includes updates on the 60 plus action points that were agreed across Government at that time.

The Delivery Plan charts the real progress National Offender Management Service (NOMS) and its partners have made over the last 18 months in delivering services to offenders that address the reasons why they re-offend. For example, the proportion of offenders released from prison without accommodation to go to has dropped by a third in the last year, the number of educational awards offenders have achieved has risen by 40 per cent. and the number completing a drug treatment course in prison or a drug testing order in the community is up by a third. The Delivery Plan also sets out the key actions the Government intend to take over the next 18 months towards the delivery our target of reducing re-offending by 10 per cent. by the end of the decade.

The Delivery Plan acknowledges that this is only the beginning and it reaffirms our commitment to build on what we have put in place. Key to delivering our target will be continuing to work with our partners nationally, but also to develop further regional and local partnerships that include business, civic society and voluntary and faith sector contributors as the most significant driver of progress. The Delivery Plan will be built upon in the NOMS five-year strategy that is being developed.

We will also shortly be publishing, with colleagues in the Department for Education and Skills and the Department for Work and Pensions, a Green Paper, "Reducing Re-offending Through Skills and Employment". We have been developing proposals for embedding skills and employment for offenders as key tenets of the broader national delivery plan for reducing re-offending which we are announcing today. We look forward to publishing a document which will be the start of a constructive dialogue with our partners about how in the future we can most effectively equip offenders for employment and with the basic skills needed for law-abiding adult life, engage employers fuily in design and delivery of programmes for offenders and drive improvement in the quality of the programmes offered to offenders.

Proceeds of Crime Act (Money Laundering)

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): I have today laid in draft before Parliament the Proceeds of Crime Act 2002 and Money Laundering Regulations (Amendment) Order 2005.

The draft Order brings to a conclusion an informal consultation exercise which the Home Office conducted last year on whether the law on the duty of accountants, auditors and tax advisers to report money laundering under the Proceeds of Crime Act 2002 needed to be changed to bring it fully into line with European Community law, and if so how. This followed representations from the Institute of Chartered Accountants in England and Wales that the current legislation discriminated unfairly against accountants, auditors and tax advisers, contrary to the second EC Money Laundering Directive (2001/97/EC.)

The consultation exercise resulted in over 40 responses mostly from the accountancy and legal professions. For the most part the accountancy profession argued that UK law was not compliant with the Directive and needed to be amended whereas the legal profession argued that there was no need for a change in the law.

In response the Government have decided to amend section 330 of the Act to provide for the defence to the "failure to disclose" offence, which currently applies to professional legal advisers in certain circumstances, to be extended to include accountants, auditors and tax advisers who satisfy certain conditions. The equal treatment between these professions, which the draft Order provides for, will apply only to the very limited extent that they are carrying out effectively the same functions in relation to legal advice. The exemption from the obligation to report money laundering to the appropriate authorities is therefore a narrow one which should only apply in specified and appropriate circumstances.

It should be noted that the limited exemption from the requirement to report money laundering does not extend to all accountants, auditors and tax advisers. It will apply only to those who are members of a professional body which requires a test of competence as a condition of membership and the maintenance of professional standards, including sanctions for non-compliance with those standards.

The amendments to the Proceeds of Crime Act made by the Order also provide a defence for a person who is employed by, or is in partnership with, a professional legal adviser or other relevant professional adviser, as defined in the Order.

The Money Laundering Regulations 2003 (S.I. 2003/3075) also give effect to the second EC Money Laundering Directive. In addition to amending section 330 of the Proceeds of Crime Act, the Order also amends the Money Laundering Regulations 2003.

The principal purpose of the EC Directive is to combat money laundering. The Government support the measures in the Directive and is folly committed to working with the financial services industry to maintain strong defences against money laundering. The amendment to the Proceeds of Crime Act, to which the Order gives effect, will help reduce the regulatory burden on accountants, auditors and tax advisers in certain circumstances without damaging the effectiveness of the money laundering reporting regime.

INTERNATIONAL DEVELOPMENT

South Asia Earthquake

The Secretary of State for International Development (Hilary Benn): On 19 November, my hon. Friend the Parliamentary Under-Secretary of State attended the Pakistan earthquake donor conference in Islamabad.

The United Nations, represented by the Secretary-General, Kofi Annan, all major donor countries and international financial institutions attended.

The Government of Pakistan proposed a range of reconstruction activities for which international community funding was needed to help the people affected by the recent earthquake. Reconstruction will be directed and led by the Government of Pakistan through the Earthquake Reconstruction and Rehabilitation Authority (ERRA).

In addition to the terrible human cost of the earthquake, the "Preliminary Damage and Needs Assessment" prepared for the Government of Pakistan by the World Bank and the Asian Development Bank estimates that Pakistan will need $5.2 billion for relief and reconstruction. This is made up of $1.7 billion for continuing relief and to restore livelihoods and $3.5 billion to replace damaged and destroyed buildings and infrastructure.

My hon. Friend announced at the conference that the United Kingdom would contribute £70 million, or over $120 million, over three years for the reconstruction effort. This money will be used to support the Government of Pakistan's reconstruction programme, which includes the rebuilding and repair of schools, hospitals, electricity and water supplies, houses, and support for restoring people's livelihoods. In conjunction with the Government of Pakistan, United Nations, other donors, international non-governmental organisations and civil society representatives we will agree how this support will be disbursed.

The total amount pledged for both relief and long-term reconstruction is now around $5.8 billion. This includes US$1.9 billion (around £1 billion) in cash grants and assistance in kind, with the remaining US$3.9 billion (£2.3 billion) in concessional loans.

The European Commission announced a new total of $110 million, with increased pledges by most EU Member States. Contributions from Germany and France are each now expected to exceed $100 million. The United States and Saudi Arabia each announced total pledges exceeding $500 million. Pledges from the International Financial Institutions—the World Bank, Asian Development Bank and Islamic Development Bank—now exceed $2.5 billion in total, with the majority offered through concessional loans.

We will need to work closely with the Government of Pakistan to ensure that effective governance structures are in place to ensure proper financial management of these funds and to ensure these pledges make a difference on the ground.

Humanitarian Assistance

The Government of Pakistan's latest figures report over 73,000 deaths and some 69,000 injured in Pakistan-administered Kashmir and in North West Frontier Province. Some 3.5 million people are affected. 2.5 million have lost their homes. 200,000 people are living in remote and cut-off areas above the snow line. In India over 1,300 died and 4,500 were injured. The immediate priority is to ensure that those who survived the disaster are supported through the winter months.

DFID is working, alongside the United Nations, the Red Cross and non-governmental organisations, to help meet the immediate survival needs of the affected population. We will continue this support for as long as necessary. To date, we have allocated £33 million (around $57 million) of assistance for the immediate relief effort. Over £30 million has been disbursed. We are prepared to contribute further.

We have provided over £10 million of direct and in-kind assistance to the United Nations, including logistics support by the United Kingdom military. This included supplying three Chinook helicopters, the airlifting of two helicopters from Spain and rations and water from Kabul using a C130 aircraft. £2 million was contributed for the NATO Air Bridge to transport priority relief items from UN warehouses, such as tents and blankets.

In addition, in support of charitable organisations, DFID has provided £6 million towards their relief programmes and funded 80 flights for the United Kingdom's Disasters and Emergency Committee at a cost of over £3.9 million.

NORTHERN IRELAND

Public Administration

The Secretary of State for Northern Ireland (Mr. Peter Hain): I am today announcing the outcome of the Review of Public Administration in Northern Ireland. This review was launched by the Northern Ireland Executive in June 2002, but since the suspension of the Northern Ireland Assembly in October 2002 has been taken forward under Direct Rule. Discussions have been held with the Northern Ireland political parties at regular intervals as the review progressed, and Ministers also received advice from the high level panel of independent experts that were appointed by the Northern Ireland Executive to work alongside the review team and provide an important independent element to the process.

The objective was to review the existing arrangements for the accountability, development, administration and delivery of public services in Northern Ireland, and to bring forward options for reform which are consistent with the arrangements and principles of the Belfast Agreement, within an appropriate framework of political and financial accountability.

I am also conscious that the reduction in the number of local authorities will have a direct impact on policing structures, and on the arrangements for improving community safety through community safety partnerships. We will take forward changes in these areas in parallel with the work to implement the RPA, in partnership with the PSNI, Policing Board and other stakeholders who play an important part in the CSP arrangements.

The scope of the review was wide-ranging covering the 26 Local Councils, all the health and social service structures, all the education support structures, all other public bodies and the functions of the 11 central Government Departments.

The review has been conducted in an open and inclusive manner. It has been highly consultative, with considerable engagement with the full range of stakeholders from the outset, and two public consultations. The most recent consultation, which sought views on specific proposals for health and social

services, education, local and public bodies, ended on 30 September 2005 with over 1,000 responses being received. The panel of independent experts worked very closely with the review team throughout the consultation process, participating in a significant number of the meetings with key stakeholder groups and ensuring that there was an agreed understanding about the key messages coming from the consultation.

There has also been an extensive programme of research including academic papers, study visits, surveys and focus groups. All of this evidence, including all of the responses to both consultations, has been published on the review website at www.rpani.gov.uk and copies of the research papers have been placed in the Libraries of both Houses as they have been published during the course of the review. Today an integrated analysis of relevant equality, social need, good relations and rural issues has been published and placed in the Libraries of both Houses along with copies of the two consultation documents.

I and my Ministerial team have been considering all of this considerable body of evidence, including the equality analysis, over the past few weeks before reaching final decisions.

In an ideal world Northern Ireland politicians in a local Executive would be taking the decisions on the outcome of this review. However, it has been impressed upon me that the need for reform is urgent. We need to press ahead but do so in the expectation that there will be a return to devolution and that the new structures will work in that context. The changes I am announcing today will take a number of years to implement, and I would hope that there will be a return to devolution in Northern Ireland in the not too distant future that would allow local politicians to take ownership of and shape the implementation process.

The decisions I am announcing today have been taken in the context of four guiding principles that emerged from the consultation processes. These principles are:

Subsidiarity, or the balance between local democracy and efficiency and effectiveness;

Equality;

Common Boundaries; and

Strong Local Government.

These principles underpin a two-tier model within which all public services in Northern Ireland will operate. In future, the regional tier, which largely comprises central Government Departments, will concentrate mainly on policy development, strategic planning and setting and monitoring standards. At this level also those services that are essentially regional in character will be delivered either by departments or regional authorities. The sub-regional tier, that will have local government at its core, will be the main vehicle for delivery of local public services. This will result in the transfer of many service delivery functions from central Government to local government. However, whether local government delivers a service directly or not, it will have a greater influence over the planning and delivery of services within its boundaries through a community planning process which councils will lead.

Within this model there will also be formal arrangements to facilitate good cooperation between central and local government, the detail of which will be developed during implementation.

The key to making this model work is greatly enhancing the role and influence of local government. All of the evidence has pointed to the need to have a smaller number of much larger councils in order that those councils have both the critical mass and the capacity to take on a greater range of functions and exert influence on the full range of service delivery bodies in their areas. I am therefore announcing that the current 26 local authorities in Northern Ireland will be reduced to seven, and that each council will have a maximum of 50 councillors. I intend to appoint a local government Boundaries Commissioner in the New Year to draw up the boundaries of the new councils. I intend to bring forward legislation to direct the Commissioner to use as a starting point the existing Councils in the following groupings:

New Councils

New Council	*Current Councils*
1	Belfast
2	Newtownabbey, Carrickfergus, Antrim and Lisburn
3	Derry, Limavady, Magherafelt and Strabane
4	Down, North Down, Ards and Castlereagh
5	Fermanagh, Dungannon and South Tyrone, Cookstown and Omagh
6	Ballymena, Ballymoney, Larne, Moyle and Coleraine
7	Armagh, Banbridge, Craigavon and Newry & Mourne

In addition to community planning and a new power of well-being I propose that the new councils will have new or enhanced responsibility for:

Planning

Local Roads

Conservation of natural and built heritage

Local economic development

Local tourism

Urban and Rural regeneration

Rural development

Future European programmes

Environmental services

Application of building regulations

Environmental Health

Leisure and recreation

Arts and Culture

Community development

Community relations

Emergency planning

Maintenance of the public realm

Functions that are transferred to local government will be accompanied by an equivalent transfer of funding. To achieve this, a new system of local government financing will be developed.

A significant number of people expressed some concern about the way in which new councils will exercise their new powers. Taking account of these concerns and the calls for a robust system of checks and balances to ensure transparent decision-making, fair and equitable treatment for all and the protection of

minority rights I am announcing that such a system will be included in legislation. However, this is a very complex and sensitive issue as we need to ensure that the system put in place achieves its objective without stifling innovation and the decision-making process within councils. Further work on the detail will be undertaken in the coming months, and I will want to consult further with the political parties that will be required to work the system.

I recognise that, with the reduction in the overall number of councillors resulting from these proposals, many councillors who have served their communities in Northern Ireland well through very difficult years may chose not to stand under the new arrangements. I have therefore decided that there will be a severance scheme to facilitate the reduction in the number of councillors. There will also be more appropriate remuneration for councillors in recognition of the responsibilities they will take on. Both these issues are being addressed by a Department of the Environment working group and I will take account of its report before deciding the details of the arrangements.

The consultation document also raised the issue of how to facilitate local involvement so that communities do not feel isolated from larger councils, and to ensure that the views of local communities are taken into account in council deliberations. It was suggested that this might be facilitated through an enhanced form of area committees (or "civic councils") in which the committees would have some form of civic role in their areas. I have decided that this should be a matter for the new councils, but will consider whether the legislation establishing the new councils should place a duty on the councils to develop a system to ensure that the views of communities are taken into account in council deliberations.

I am also announcing proposals for major changes to the Health and Social Service structures in Northern Ireland. In place of the current four boards and 19 trusts, having taken account not only of the evidence from this review but also the recent report from Professor Appleby on performance management within the Health and Personal Social Services sector, I am proposing a single Regional Health Authority to commission services, five Trusts plus the Ambulance Service Trust, the reduction of other support bodies from five to three, and the reduction of Health and Social Services Councils from four to one.

The Regional Health Authority will not only replace the four Boards, but will also take on several key functions currently undertaken by the Department of Health, Social Services and Public Safety. It will have seven local commissioning groups that will cover areas that are co-terminous with the new council areas to facilitate joint working, thus allowing councils to influence the planning of health and personal social services within their council areas to meet the needs of their constituents. My colleague, Shaun Woodward, Minister for Health and Social Services in Northern Ireland, will make a separate statement on the detail of the Health and Social Services proposals.

On Education I am proposing a single Education Authority in place of the current five Education and Library Boards. It will also take on education support functions currently delivered through a range of other education bodies including the Department of Education. The consultation document sought views on whether Youth Services and Libraries should be transferred to local government. Having considered the views expressed on these issues during the consultation, I have decided that neither of these functions should transfer. My colleague Angela Smith, Minister for Education in Northern Ireland will make a statement on the detail of the proposals for education.

The decisions I have announced today in Health and Social Services, Education and local government will reduce the total number of public bodies in these sectors from 67 to 20.

The review also considered the future of executive agencies and other public bodies in Northern Ireland and variety of views were expressed in the consultation. Work is underway to decide on the future of these bodies and I will make a further announcement on public bodies and their functions before the end of March 2006, when I have had time to consider all of the evidence and make considered decisions. As a result of this work I also expect to announce the transfer of significant extra functions to local government.

Separately and in the light of the current reform of the Tribunal system in England and Wales, a working group with members drawn from the Northern Ireland Courts Service and those NI Departments which sponsor tribunals has been established to examine the implications of these reforms for NI. As part of this work this group will review the current tribunal system in Northern Ireland in terms of efficiency, service delivery and independence, and also the judicial structures which support it, and consider the implications for the establishment of any new tribunals. The group is expected to report next year.

All of my decisions have been underpinned by detailed consideration of the implications for equality, social need, good relations and rural communities. There are clear expectations that my decisions will lead to improved accessibility to public services—particularly for those most vulnerable in our society, improvements in the diversity of people who participate in public life, and fair treatment for staff. I believe that these three issues should be a central part of the decisions taken within organisations, sectors and across the public sector as a whole during implementation.

I want to pay tribute to all those who work and have worked in the public sector in Northern Ireland and who have delivered public services through the past difficult years. I know I can count on them to continue to provide dedicated services to the public. I recognise that the changes I am announcing today will give rise to concern amongst staff about their future in the public sector. With this in mind, I propose to establish an independent advisory public sector commission to ensure the smooth transfer of staff to new organisations and to advise Government on guiding principles which would apply to all sectors. Further work is being undertaken to finalise the details of the composition and remit of this Commission.

Although the terms of reference of this review, drawn up by the former Northern Ireland Executive, precluded the number and configuration of the Northern Ireland departments, the decisions I have announced will have significant implications for Departments. I will,

therefore, be including departmental structures and responsibilities in my further discussions with all the political parties in Northern Ireland.

Public Administration (Education Sector)

The Parliamentary Under-Secretary of State for Northern Ireland (Angela E. Smith): The Government in Northern Ireland is today publishing its decisions on the Review of Public Administration (RPA) consultation. My right hon. Friend the Secretary of State for Northern Ireland has already made a written statement today in the House setting out the broad range of change across the entire Northern Ireland public sector. This statement sets out decisions relating specifically to education and how the change process will be managed.

I want to thank those who have responded to the consultation process, and to acknowledge the significant contribution which these responses have made to the consideration of the RPA proposals. Some 687 responses, two thirds of the total responses received, were related to the education proposals and as such demonstrated the interest, energy and commitment of respondents to the change process.

The analysis of the responses revealed that there was broad support for radical reform, for re-focusing the role of DE, for the establishment of a single education body, for reviewing advice services, for enhanced local involvement and for the better provision of services at the front-line.

Concerns were also raised, including the perceived absence of a clear vision for education, the implications of creating two education bodies, the threat to the ethos and autonomy of individual schools, the impact of change at local level and the possible dangers of a strong centralised administration system.

All the responses received have been considered carefully against the Government's plans for a modern, accountable and responsive framework within which education policy can be developed, implemented and monitored more effectively, in the interests of improved services for all.

The changes I am announcing today are substantial and will impact upon staff in all parts of the education service. Despite the unavoidable upheaval, I know that through the period of change we can continue to rely on their professionalism and commitment in shaping the future in the interests of young people and their families.

Against this backcloth I have made the following decisions.

Changing the Department of Education

The Department of Education will undergo significant change to enable it to focus more effectively on strategy, policy development and on the translation of policy into improved outcomes at the front line. The Department will set the overall strategic direction of the education and youth sector. Its future relationships with others will be focused on clear accountability and improving standards, with performance and quality indicators established from the outset, giving strategic direction to the delivery of services. Funding allocations will be linked closely to policy priorities and performance improvement. In future, there will be a clear separation between policy formulation and operational delivery, resulting in the transfer of certain functions from the Department to the proposed new Education Authority.

This refocusing of the Department's role will require significant internal change, with closer alignment of the strategic planning, policy making, accountability and resource allocation functions and a stronger focus on the information and evidence base needed to inform policy decisions.

These changes to DE will present challenges for the Department and its staff. I recognise the concerns of staff and trades unions about the transfer of functions and jobs out of the NICS to a new Education Authority. I am satisfied, however, that the weight of the argument is in favour of transferring a number of operational activities from DE. I have asked DE to carry out an immediate internal review to confirm those functions which will transfer and to put in place appropriate transition arrangements, in co-operation with staff and their relevant unions.

In reshaping the role of DE I am mindful that education, alone, will not be able to deliver the improvements needed and I will be putting in place effective arrangements to enable DE to work collaboratively and constructively with other Departments, agencies and institutions in the interests of children and young people.

Changing Education Support

Having considered carefully the diverse views expressed about the nature and purpose of the support arrangements I have decided that there will be a single Education Authority (EA) and not two bodies, as suggested in the consultation document. The Education Authority will have responsibility for the functions performed currently by the Education and Library Boards, the Council for the Curriculum Examinations and Assessment (CCEA) and the Regional Training Unit (RTU). It will also have responsibility for the front-line support and related functions currently undertaken by the Council for Catholic Maintained Schools (CCMS), the Northern Ireland Council for Integrated Education (NICIE) and Comhairle na Gaelscolaiochta (CnaG). The Education Authority will become the employing authority for all teaching and other staff employed in grant-aided schools. With regard to the Staff Commission, the creation of the Education Authority will mean that some of its function will be absorbed into the Authority while others will no longer be required.

The responses to the consultation reflected a concern that the proposals had the potential to undermine the ethos and status of schools. I appreciate fully the strength of feeling on this matter. I want to assure everyone involved that the new arrangements do not weaken or undermine the role of governors. Nor do they alter the ethos of individual organisations or schools. For me, ethos is developed within the organisation and is influenced by the values of governors, staff, parents, pupils and the local community.

Under the new arrangements Boards of Governors will largely retain the role they currently play in relation to the selection, appraisal, promotion and dismissal of

teachers and other school-based staff. They will continue to make the key decisions regarding the appointment and management of staff. The role of the Education Authority will be to ensure that decisions are taken within a framework which is consistent across all schools and is driven by the need to raise standards, and which reflects best practice in people management within the terms of existing employment legislation.

The ownership of the controlled schools estate, currently with the Education and Library Boards, will transfer to the Education Authority. This decision will not confer advantages to schools in the controlled sector nor disadvantage any other grant-aided school. The legislation which I will be bringing forward will explicitly ensure that the Education Authority will provide funding, services, advice and support to all grant-aided organisations on an equitable basis, irrespective of ethos or ownership considerations. The Education Authority's relationships will be consistent and support governors and staff in their work. The Department will ensure that all necessary controls are in place to deal with potential conflicts of interest and to ensure fair and equitable treatment for all.

In reshaping the delivery of support, I am determined to ensure that the Education Authority achieves no less than the very highest standards of service provision. In monitoring and evaluating the performance of the Authority, its services will be benchmarked against best practice.

The Education Authority will be fully and directly accountable to the Department of Education, in particular for the delivery of effective and efficient services. The Authority will be governed by a Board, appointed in accordance with the principles set out by the Office of the Commissioner for Public Appointments.

I am conscious of the need to ensure that the Education Authority is given sufficient flexibility to determine its own internal structures and working arrangements. However, there are three areas in particular which should be built into the organisational framework from the outset. These are:

The appointment of a Director of Children's Services to co-ordinate the Education Authority's responsibilities for children;

The close alignment of functions currently undertaken by the Council for the Curriculum, Examinations and Assessment, the Curriculum Advisory Support Service, Classroom 2000 (c2k) and the Regional Training Unit within the Education Authority; and

An effective interface between the Education Authority and other owners of the schools' estate to ensure that school provision is strategically and effectively planned.

I am mindful of the uncertainty and genuine concerns of staff employed in the Education and Library Boards and the other bodies affected by these changes. It will be important that staff concerns are identified and addressed at the outset, and of course education staff are not alone in this regard. With this in mind my Ministerial colleagues and I have agreed to establish a Public Service Commission to advise on the principles and steps necessary to ensure the smooth transfer of staff to new organisations in a fair and consistent manner.

Changing Inspection, Monitoring, Research and Advice

The inspection and monitoring of all education and training establishments and services will be the direct responsibility of the Education and Training Inspectorate, which will be operationally independent of all service providers and users. The Inspectorate will evaluate the impact of these services for the key purposes of promoting improvement in learning and teaching and of informing policy discussions and decisions. Evidence from inspection will be used to assure Government and the public on the quality and standards of services.

The Education and Training Inspectorate will continue to provide inspection services for DE, the Department of Employment and Learning (DEL) and the Department of Culture, Arts and Leisure (DCAL). The Chief Inspector or nominee will be an integral member of Departmental Boards at which all strategic Departmental and policy issues are discussed. On all education policy initiatives, the Inspectorate will provide an independent professional assessment of the effectiveness of the existing or proposed new policy. The Inspectorate will plan and implement its programme of work operating through a Service Level Agreement agreed with each Permanent Secretary. The Minister or a Permanent Secretary may, from time to time, invite the Inspectorate to carry out special assignments, as appropriate. The Minister will meet with the Chief Inspector to receive regular reports across the range of professional educational issues.

A new statutory Education Advisory Forum will be established to act as a unified advisory interface between the Department and the education sector. Its membership will include representatives from the Transferors and Trustees, as well as the Integrated and Irish Medium sectors and Voluntary Grammar Schools. Members of the Advisory Forum will provide on-going advice to the Department. The Forum will also meet the Minister for Education on a regular basis.

The establishment of the Education Advisory Forum will provide new, more effective mechanisms through which the Department can commission and receive advice. The statutory advisory role of CCEA and CCMS will be repealed and there will also be fundamental changes to the relationship between the Department and other organisations providing advice. Consequently, DE will review existing arrangements to streamline and improve coordination. This will improve decision making and strengthen the local advisory role, as set out in the consultation report. The review will help to inform the constitution, roles and responsibilities of the Advisory Forum. It will give specific consideration to the most effective ways of providing a voice for parents and young people in influencing decision-making on education.

The review will consider the Department's wider engagement of education stakeholders within a social partnership model, with the aim of strengthening the channels of communication with the teachers' unions and other interests. This review will lead to more direct engagement with Boards of Governors, school principals and teachers to ensure that their views are considered.

Changing Youth Services

DE will continue to be responsible for youth service policy and strategy, but will link this increasingly to wider education priorities. In strengthening the relationship between youth provision and formal education, youth services administration will be placed within the Education Authority, as will the functions of the Youth Council. A Northern Ireland Network for Youth will be established to strengthen the direct voice of young people in all relevant aspects of government provision. The role of District Councils in youth service provision will be strengthened also through new District Youth Networks.

Changing Procurement

Earlier this year, the Department conducted a review of the arrangements for planning, procuring and delivering school building projects. The aim was to improve the efficiency and effectiveness of the processes involved. The review concluded that there was a strong case for a single education infrastructure procurement service which would bring together the specialist skills required in support of the education sector. It would be dedicated to delivering a fit for purpose estate, to ensure that the significant investment to be made transforms our schools estate, and that planning is undertaken within a wider strategic context.

The review identified that many of the specialist activities required are currently split between the Department and the education sector bodies. These activities are important to ensure that the estate is planned and delivered effectively and will need to relate closely to the work of the Department. The allocation of these specialist functions between the Department and the Education Authority will be confirmed in due course.

Supporting Education at local level

Bringing together, in a regional Education Authority, the functions of five Education and Library Boards with specific geographically defined responsibilities is likely to raise concerns about the loss of local sensitivity in service provision. However, by their very nature, schools and youth services are delivered at local level. The relationship with the local community is strengthened in many ways including local involvement through Boards of Governors, volunteering, shared facilities and joint initiatives. The growth of the extended school model will continue to enhance the role of schools as learning communities within their localities.

I am committed to reinforcing the links between education and the local community under the new arrangements. This will be achieved by:

Ensuring that the organisation structures and activities of the Education Authority support a strong local presence and promote engagement at community level, drawing lessons from best practice across the public sector;

Active participation of the education sector in community planning; and

Education working jointly with others to maximise the opportunities for providing shared services at local level.

Relationship with other Government Departments

The transformation of administration which the RPA will bring forward will take place in the context of increasing recognition of the inter-dependence of public service provision.

The appointment of a Director of Children's Services is a clear recognition of this. There are other key interfaces which Departments must take into account in planning service delivery under the new arrangements. These include:

DE and DEL working closely together to agree the responsibilities of the Education Authority in relation to the 14-19 agenda and teacher education. I intend to see how there will be better integration of skills and education between the functions which are overseen by DE and DEL. A key aspect of this is how best we deliver the 14-19 curriculum but I believe that there are wider areas which may be worth examining. We will reflect further on this.

DE and DCAL agreeing the relationship between the new Regional Library Authority and the Education Authority. This will include consideration of the links between school and public library provision and wider opportunities for shared service provision.

Moving Forward

The new structures represent a fresh start for the administration and delivery of education services. They are not simply a reorganisation of current bodies, but rather a new and fundamentally different approach.

Within this model, the Department of Education will establish the strategic direction for education, setting policy, priorities and standards for schools and youth services, and ensuring the effective and efficient delivery of services by the new Education Authority. The Department will set clear standards for the delivery of support and this will be the basis of its commissioning and funding through the new Education Authority. Across the entire education and youth service there will be clear links between the funding provided by the Department and the anticipated outcomes.

The Department's decision-making will be informed by:

The Department's own research, evaluation and monitoring processes;

Independent advice and inspection evidence provided by the Education and Training Inspectorate;

Advice from the Education Authority, particularly in relation to curriculum and professional development; and

Advice from the new Education Advisory Forum.

Giving effect to these changes means that virtually all existing education legislation will need to be amended or repealed.

The legislation will ensure that Boards of Governors continue to exercise a large measure of autonomy in the day to day management of their schools. I fully recognise and support the distinctiveness and ethos that Boards of Governors and staff help foster within schools. I pay tribute to the role of School Governors and will protect their influence in these new arrangements.

To assist with the change process and to ensure an effective transition, the Department of Education will:

Undertake bilateral discussions with those most affected to consider the impact of changes; and

Establish a programme board, chaired by the Department, to co-ordinate implementation of the RPA in co-operation with central RPA implementation arrangements.

The role of the programme board will include:

Establishing project teams to take forward the work streams arising from RPA implementation. The individual project teams will draw on the expertise of staff within existing organisations to ensure that their knowledge and experience is used effectively;

- Defining and managing arrangements to ensure the smooth transition to the new structures; and
- Developing and managing an RPA communications strategy.

The programme board will report to the Permanent Secretary of the Department of Education and will be supported by an RPA advisory group, comprising representatives from across the education sector.

Transition

The legislative changes will determine the timeframe for putting in place shadow arrangements for the new body. However, I expect that all those involved in education administration will now move quickly to adopt joint working arrangements in preparation for the changes that will result from the RPA implementation.

Conclusion

Today's announcement signals a new beginning in how we, in education, conduct our business. We are already in the process of transforming education to meet the needs of young people in a rapidly changing world. It is entirely appropriate that the administration of education should be modernised to ensure that it can provide effective support and improve the delivery of front-line education services. The new arrangements will be more streamlined and corporate than at present and will bring greater coherence and consistency in practice.

To do less than the programme of change I have outlined today would be to do a disservice to future generations of young people and their families. Together we can make a real difference, and I urge everyone involved to work collaboratively with DE to ensure a better education service for all.

Public Administration (Future Health and Social Care Structures)

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Shaun Woodward): I am today announcing my plans for future health and social care structures in Northern Ireland. The Secretary of State for Northern Ireland's announcement on the Review of Public Administration in Northern Ireland sets out the background to the Review, reflects on the consultation process and sets out the key changes for public administration in Northern Ireland.

The current organisation of health and social services in Northern Ireland is too cumbersome, too bureaucratic and hugely inefficient. It produces inequalities and unacceptable delays for treatment.

I have already begun a rapid programme of reform and modernisation. By March 2006 people will wait no more than 12 months for in-patient and day case operations and from March 2006 the targets for replacement hips and knees will be no more than nine months, for cardiac surgery no more than six months and for cataracts no more than six months. I am also driving a £2.2 billion investment programme across the health and social services with developments at all major hospital sites and across the primary and community sector.

The next step is to put in place structures, which are patient-led, patient-centred and patient responsive and which will free resources for investment in front line health and social services.

I will replace the four Health and Social Services Boards and create a new statutory Strategic Health and Social Services Authority which will be responsible for performance managing the health and social services, ensuring that services are accessible, responsive, high quality and efficient.

Some of the functions currently exercised by the Department of Health Social Services and Public Safety will transfer to the new Authority. The Department's primary function will be to set policy and targets and it will be a significantly smaller, more tightly focused body.

Seven primary care-led Local Commissioning Groups will be established, patterned on the proposed areas of the seven new District Councils. Acting as local offices of the Strategic Health and Social Services Authority, the Local Commissioning Groups will work in conjunction with local primary care practitioners and the Authority to commission services from Trusts. These commissioning arrangements will be developed in consultation with primary care professionals and could evolve to primary care-led commissioning arrangements along the lines of proposals currently under development in England.

Five new integrated Health and Social Services Trusts will replace 18 of the 19 existing Trusts bringing the total number of Trusts to six, including the Northern Ireland Ambulance Service, which will continue to provide a regional ambulance service. As a result of having a greater critical mass these Trusts will create and develop new linkages between hospital and community-based services.

I will replace the four Health and Social Care Councils with a powerful single Patient and Client Council which will engage with people and communities to promote health and wellbeing, and ensure that services are responsive and patient-centred and that decisions reflect public priorities.

I also intend to incorporate the Health Promotion Agency into the new Strategic Health and Social Services Authority and the Regional Medical Physics Agency into one of the new Trusts, thus reducing the number of regional service delivery bodies to three. The remaining regional service delivery bodies will be the Central Services Agency, the Guardian Ad Litem Agency and the Blood Transfusion Agency.

I am content for now that there is a case for retaining in their present form the remaining smaller NDPBs which did not fall within the remit of the Review of Public Administration but I expect them to work closely with other health and social services organisations to reduce their management costs.

I will sympathetically consider the case for locating the new Strategic Health and Social Services Authority and the new Patient and Client Council outside the Belfast area.

These new structures will be put in place as quickly as possible. With immediate effect groups will be identified to lead the development of the new Trusts which will require subordinate legislation and which will become

fully operational by 1 April 2007. Over the coming months we will develop our model of a Strategic Health and Social Services Authority, which will require primary legislation, and the new primary care commissioning arrangements. This will be done in consultation with health officials, doctors, pharmacists, social workers, dentists, nurses and other health and social services professionals with a view to having these formally in place by 1 April 2008.

We will also explore ways in which we can devolve commissioning power to local primary care-led groups in advance of the Strategic Health and Social Services Authority and the Local Commissioning Groups being established.

The speed of this reorganisation will understandably give rise to concerns among people working in health and social care services and indeed in my Department. I am however committed to ensuring that every reasonable effort is made to avoid compulsory redundancies while at the a same time taking into account the legal rights of staff in the context of fundamental change to terms and conditions of employment and work location.

I am satisfied that implementation of these proposals will ensure that the health and social services in Northern Ireland become genuinely patient centred and more accessible. They will also be more effective and efficient with a greater proportion of expenditure devoted to front line service delivery and development.

Waterways Ireland

The Minister of State, Northern Ireland Office (Mr. David Hanson): Waterways Ireland is a cross border implementation body established by agreement between the British and Irish Governments dated 8 March 1999. The body has responsibility for the management, maintenance, development and restoration of the inland navigable waterways of Ireland, principally for recreational purposes.

The Sponsor Departments for the body are the Department of Culture, Arts and Leisure (DCAL) in Northern Ireland and the Department of Community, Rural and Gaeltacht Affairs (DCRGA) in the Republic of Ireland.

As DCAL Minister I have discussed accountability arrangements for the body with the DCRGA Minister and the Chief Executive of Waterways Ireland. We have agreed the Business Plan for 2006 and we have also agreed that the Chief Executive will report to Ministers on the outcome of performance targets for 2005, these include:

(i) To ensure the continued delivery of the highest standard of corporate governance in Waterways Ireland and to ensure that the Internal Audit process is carried out in a proper manner and that the recommendations of these audits are implemented in a timely manner.

(ii) To ensure the completion of an independent review of the practices and policies relating to bullying in Waterways Ireland.

(iii) To deliver a written policy on recruitment and promotions in Waterways Ireland.

(iv) To progress the procurement of suitable new accommodation for staff.

(v) To implement the Marketing Strategy of Waterways Ireland.

The Chief Executive also has specific responsibility for meeting the plans, objectives and targets set out in the current year's Business Plan.

Together with officials in our Departments I will continue to work with the DCRGA Minister and the Waterways Ireland Chief Executive to ensure the body is fully accountable for meeting the terms of its Performance Agreement 2005.

Written Ministerial Statements

Wednesday 23 November 2005

TREASURY

ECOFIN

The Economic Secretary to the Treasury (Mr. Ivan Lewis): I will chair the Economic and Financial Affairs Budget Council (Budget ECOFIN) on 24 November 2005. The Permanent Representative to the European Union, Sir John Grant, will represent the UK. The meeting will include conciliation with the European Parliament, during which the Council and the European Parliament will aim to agree on expenditure levels. Items on the agenda are as follows:

Approval of the list of "A" points.

Presentation of the Annual Report for 2004 by the European Court of Auditors: President Hubert Webber will present the EC accounts for 2004.

Preparation for conciliation with the European Parliament: ECOFIN will consider its approach for reaching an agreement with the European Parliament on the 2006 Annual EC Budget.

Preliminary Draft Amending Budget No. 8 for 2005: ECOFIN will seek to reach an agreement on Amending Budget No. 8. This takes into account the Commission's Amending Letter of 16 November, which makes a net reduction to the Commission's Agriculture and Structural Funds estimates of €1.3 billion for 2005.

Amending Letters No. 1 and 2 to the Preliminary Draft Budget for 2006: ECOFIN will seek to reach agreement on the Amending Letters to the 2006 Budget. Amending Letter No. 1 includes €40 million commitments and €21.2 payments under Heading 4 of the Budget (External Actions), in order to finance assistance to ACP countries affected by the sugar reform. Amending Letter No. 2 decreases commitments and payments under heading 1A of the Budget (Agricultural Expenditure) by €361 million, due to revisions to the Commission's expenditure forecasts.

Draft Budget for 2006: ECOFIN will seek to reach agreement on Council's second reading of the 2006 Annual Budget, having considered the amendments proposed to the Draft Budget by the European Parliament.

Proposal for a Decision of the European Parliament and the Council on the mobilisation of the Flexibility Instrument: ECOFIN will seek to reach an agreement in Council on a proposal to exceed the Financial Perspective ceilings.

CONSTITUTIONAL AFFAIRS

Legal Profession

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): I have today published a report aimed at increasing diversity in the legal profession. This report responds to the advice provided to the Secretary of State and Lord Chancellor by the Legal Services Consultative Panel.

While the Government recognise that significant improvements have been made in recent years, we consider that more action is necessary to ensure equality of opportunity for those entering or already in the profession.

The Panel made 17 recommendations on how to address the difficulties faced by those entering into, or progressing within, the legal professions. The Government broadly accept these recommendations. The report sets out how we will take this forward.

As a first step, I have written to a number of firms and chambers today asking them to publish the diversity information that they already collect on those working within their organisations. This will ensure openness and transparency. This should in turn lead to greater public confidence in the legal professions as a whole.

Copies of the report have been placed in the Libraries of both Houses.

HOME DEPARTMENT

Independent Police Complaints Commission

The Minister for Policing, Security and Community Safety (Hazel Blears): I am pleased to announce that the Annual Report of the Independent Police Complaints Commission (IPCC) is being laid before Parliament on 23 November 2005 and published on that day.

This is the first Annual Report from the IPCC. The report deals with the work completed in 2004–05 and, in particular, how the IPCC has engaged with diverse communities and stakeholders and it gives an insight into some of the high profile investigations in which the IPCC has been involved.

The report also looks forward to the extension of the IPCC jurisdiction next year when it will deal with serious complaints against HM Revenue and Customs and complaints and conduct matters involving the new Serious Organised Crime Agency. It intends to meet these and other challenges by increasing its investigative capacity and enhancing its guardianship role.

Council for the Registration of Forensic Practitioners

The Parliamentary Under-Secretary of State for the Home Department (Andy Burnham): I have approved a package of financial support for the Council for the Registration of Forensic Practitioners (the Council).

The Home Office recognises the importance of quality in forensic science and has therefore supported the Council since its creation. The Council has now been in operation for five years and it was therefore agreed that a business review should be undertaken. This review, led by the Council supported by KPMG and officials from the Home Office, produced robust business plans for the next five years.

On the basis of those plans proposals were submitted as to the level of financial support required by the Council. I have accepted those proposals and agreed (subject to review and performance) a programme of funding as follows.

Year	*Allocation*
2005-06	£430,000
2006-07	£441,000
2007-08	£403,000
2008-09	£158,000
2009-10	£130,000

I have placed in the Library a paper which provides more detail about the Council and the funding agreed.

NORTHERN IRELAND

Billy Wright Inquiry

The Secretary of State for Northern Ireland (Mr. Peter Hain): The Chairman of the Billy Wright Inquiry, Lord MacLean, wrote to me on 13 July formally to request that I convert the statutory basis of the Billy Wright Inquiry to the Inquiries Act 2005, under section 15 of that Act.

I received representations from a number of parties in relation to Lord MacLean's request. I was not formally obliged by the Inquiries Act to consider these but in this case I felt that it would be right to do so and to give the Inquiry Chairman the chance to consider them, if he wished, before responding to his request. It has taken time for me to do this, which is why I have only recently been able to arrive at a decision in relation to Lord MacLean's request.

I have very carefully considered the representations made by Lord MacLean and by other parties in relation to the request, and have sought to take all the relevant factors into account. My concern throughout has been to ensure that the Billy Wright Inquiry should be able to carry out its work both as fully and as effectively as possible. In light of this, and taking into account both Lord MacLean's case for conversion and the representations which have been made against it, I have decided to grant the request of the Billy Wright Inquiry to be converted to the Inquiries Act 2005.

Through this statement I am formally giving notice under section 15 of the Inquiries Act to Lord MacLean and the panel members that the Billy Wright Inquiry will become an inquiry under the Inquiries Act 2005. The date of conversion will be the date of this statement, 23 November 2005, and from this date the Billy Wright Inquiry will be held under the Inquiries Act 2005. Lord MacLean will remain the Chair of this Inquiry and there will be no change to its terms of reference as announced on 16 November 2004.

It remains the strong wish of both the Government and the Billy Wright Inquiry that the full facts in relation to the death of Billy Wright should be established. I would seek to reassure those who made representations in opposition to conversion that I am confident that the utmost will be done to address their concerns and to maintain public confidence in the Inquiry, both by the Inquiry itself and by the British Government. I have personally assured Mr David Wright, Billy Wright's father, that the Government will continue to co-operate fully with the Inquiry.

TRADE AND INDUSTRY

EU Competitiveness Council

The Secretary of State for Trade and Industry (Alan Johnson): My hon. Friend the Parliamentary Under-Secretary of State for Science and Innovation will Chair the Competitiveness Council for the research items and the Space Council on 28 November. I will be chairing for industry and internal market items on 29 November 2005.

The first item on 28 November will be the seventh Framework Programme for Research and Development. A UK Presidency compromise text has been put to the Council with a view to obtaining agreement from Ministers on a partial general approach. The text covers the whole of the Framework Programme minus the articles relating to the budget, which form part of separate negotiations on Future Financing.

Next, the Council aims to agree Conclusions welcoming the recent Commission Communication "More Research and Innovation—Investing for Growth and Employment. A Common Approach". I do not expect any substantive debate on this item.

The Space Council will be convened in the afternoon. This will be the third meeting of the Space Council—a joint meeting of the Competitiveness Council and the European Space Agency (ESA) Ministerial Council. Lord Sainsbury will jointly chair this meeting with the current Chair of the ESA Ministerial Council (Germany). Following presentations on European Space activities, including national space programmes, from the Commission and the Joint Secretariat, there will be an exchange of views on International Co-operation based on a UK Presidency discussion paper. The Space Council will then seek to agree a set of Orientations on the Commission's recent Communication on GMES (Global Monitoring for Environment and Security).

On 29 November, I will open the Council with a report of the discussion at dinner the previous evening on Industrial Policy (based on a short Presidency paper). This follows publication last month of the Commission's latest Communication on Industrial Policy.

We then hope to agree Council Conclusions on Better Regulation. These will welcome recent Commission initiatives on simplification of existing legislation, the withdrawal of pending proposals, and impact assessment, highlight better regulation activities in Council formations and consider next steps.

The proposed Chemicals Regulation REACH is the next item on the agenda. The UK Presidency's revised compromise text will provide the basis for a substantive debate. While we are still hopeful of political agreement during the UK Presidency, any actual vote will be delayed until a subsequent Council in response to a German request for more time to consider the proposal, given the delay in forming the new German Government.

I will present a Presidency progress report on the Competitiveness and Innovation Programme (CIP). This includes a set of principles to underpin next year's

negotiations on management structure and evaluation, which Ministers will be asked to endorse. There is unlikely to be a lengthy discussion.

At lunch, Ministers will discuss a Presidency progress report on the Services Directive. This will cover the three main political issues: scope; the interaction between the proposal and worker protection rules; and the balance between promoting free movement of services and safeguarding Member States' public policy objectives. After lunch, in the main Council meeting, we will have a further exchange of views to draw some conclusions on the way forward.

Next, we hope to agree Council conclusions on EU Contract and Consumer Law noting progress on work in these areas. I will then present a progress report on Council considerations to date on the Commission's proposal for a Health and Consumer Protection Strategy.

Finally, two items will be presented under Any Other Business. I do not expect any debate on these items:

Progress report on the re-launched Lisbon Strategy (Lisbon National Reform Programmes) (at the request of Italy);

Development of tourism in Europe after Enlargement (at the request of Lithuania).

Written Ministerial Statements

Thursday 24 November 2005

CULTURE, MEDIA AND SPORT

Culture and Audiovisual Council

The Secretary of State for Culture, Media and Sport (Tessa Jowell): On 14 November I chaired the Education, Youth and Culture Council in Brussels, when the Culture and Audiovisual agenda items were taken. Patricia Ferguson MSP, Scottish Executive Minister for Tourism, Culture and Sport, represented the UK. Education and Youth issues were taken on 15 November.

I chaired a discussion over lunch regarding plans for the switchover to digital television. The aim of the discussion was to share experiences and exchange good practice. All Member States agreed that it was a big challenge, but one that is achievable. Many stressed the added value of digital television especially for minority groups and strengthening cultural diversity. Many felt that state aid may have a role to play in ensuring that minority groups were not left behind. It was noted that different Member States were using different technologies, partly reflecting their different backgrounds. Commissioner Reding (Information Society and Media) noted the close interest of Telecoms Ministers and suggested a joint meeting might be useful in the future.

The Council agreed partial political agreements on the MEDIA 2007 programme, which provides financial support for the European film industry, and the Culture 2007 programme, which will provide financial support for transnational co-operation projects in the field of culture. The budgetary aspects of these programmes will be decided once the financial perspectives have been agreed.

With regard to the Culture 2007 programme, a compromise was reached on the wording relating to the eligibility of non-audiovisual cultural industries, which made clear that EU funding could not be used to support profit-making activities. On comitology, Member States unanimously agreed that all projects applying for an EU contribution of over €200,000 (£135,000) should be submitted to the management procedure. The minimum number of operators participating in projects was also agreed.

The Council agreed to a general approach on the proposal to improve the selection and monitoring procedures and the EU dimension of the European Capital of Culture Programme. In addition, the Council designated Linz and Vilnius as Capitals of Culture for 2009 and nominated the Council's two representatives (Mr Claude Frisoni and Sir Jeremy Isaacs) for the selection panel looking at the proposed Capitals for 2010.

I also chaired an exchange of views regarding the Commission's proposals to develop European digital libraries. All Member States spoke in support of further work on European digital libraries and the great majority supported the Commission's proposed approach of developing a network of digital libraries, rather than supporting a single, central library. Some felt that the latter option would be too costly and instead preferred to build on ongoing work. Co-operation with other Member States would avoid duplication and allow common standards to be developed so that digitised material could be shared more easily. A number of Ministers asked the Commission to do more work on possible costs involved and noted that decisions needed to be taken on what would be funded by the Member States and what would be funded by the EU.

It was noted that there were a number of key issues, such as ensuring that intellectual property rights were respected and making sure the initiative promoted all European languages, including minority languages.

Commissioner Figel (Education, Training, Culture and Multilingualism) welcomed the adoption of the UNESCO Convention on Cultural Diversity in October and noted that the Commission would soon bring forward a proposal for Community ratification. He also presented the Commission proposal for a European Year of Intercultural Dialogue in 2008.

DEFENCE

Gulf Veterans

The Parliamentary Under-Secretary of State for Defence (Mr. Don Touhig): On 31 October, a Pensions Appeal Tribunal announced its decision in the case of Mr Daniel Martin. The Government welcome the acceptance by the Pensions Appeal Tribunal of the umbrella term Gulf War Syndrome to cover conditions causally linked to the 1990–91 Gulf War. The Government hope that the use of the umbrella term will address the known concern of some Gulf veterans that we have not recognised a link between their ill-health and the 1990–91 Gulf Conflict. We hope that this will help to provide an element of closure for those who have sought some acknowledgement that their ill-health is connected to their Gulf service.

The Government also welcome the decision by the Pensions Appeal Tribunal which found that there was no reliable evidence to show that Gulf War Syndrome is a discrete medical condition. This confirms the view which the Ministry of Defence has consistently taken and which is based on the overwhelming consensus of worldwide medical and scientific opinion.

The level of awards will not be affected by the use of the umbrella term as it has always been the policy of the Ministry of Defence to award in full where evidence of disablement is shown and where that disablement is due to, or aggravated by, service.

The issues surrounding the ill-health reported by veterans of the 1990–91 Gulf Conflict remain a priority for the Government. We have acknowledged that some veterans of the Gulf Conflict have become ill and that this ill-health may be related to their Gulf service. Since taking office in 1997, the Government have made it a priority to assist veterans or their dependants by

providing medical help, initiating scientific research, making information available and providing financial assistance. We will continue this approach, as appropriate, for the future.

Future Infantry Structure

The Secretary of State for Defence (John Reid): On 16 December 2004 my predecessor announced to the House, *Official Report*, columns 1795–1800 (part no.6) volume 428, plans to re-balance the army and reduce the infantry from 40 to 36 battalions, with associated changes to the titles of the infantry battalions and regiments.

Since the announcement, significant further planning and consultation has been undertaken. This has seen detailed and extensive work, which has included a period of local consultation led by the regiments and divisions. As a result, and with the full approval of Her Majesty The Queen, I am happy to announce the new titles of the Regular and TA infantry regiments and battalions as follows:

Current Regimental/ Battalion Title	*New Regimental/ Battalion Titles*	*Abbreviation*
	The Guards Division	
1st Battalion Grenadier Guards	1st Battalion Grenadier Guards	1 GREN GDS
1st Battalion Coldstream Guards	1st Battalion Coldstream Guards	1 COLDM GDS
1st Battalion Scots Guards	1st Battalion Scots Guards	1SG
1st Battalion Irish Guards	1st Battalion Irish Guards	1 IG
1st Battalion Welsh Guards	1st Battalion Welsh Guards	1 WG
	The Scottish Division	
The Royal Regiment of Scotland		
Formation Arrangements: Regimental formation by the end of March 2006, with The Royal Scots and The King's Own Scottish Borderers Battalions of The Royal Regiment of Scotland, amalgamating on 1 August 2006.		
Regular Battalions		
1st Battalion The Royal Scots (The Royal Regiment)	*Amalgamates to become* The Royal Scots Borderers, 1st Battalion The Royal Regiment of Scotland	1 SCOTS
1st Battalion The Royal Highland Fusiliers (Princess Margaret's Own Glasgow and Ayrshire Regiment)	The Royal Highland Fusiliers, 2nd Battalion The Royal Regiment of Scotland	2 SCOTS
1st Battalion The King's Own Scottish Borderers	*Amalgamates to become* The Royal Scots Borderers, 1st Battalion The Royal Regiment of Scotland *as above*	1 SCOTS *(as above)*
1st Battalion The Black Watch (Royal Highland Regiment)	The Black Watch, 3rd Battalion The Royal Regiment of Scotland	3 SCOTS
1st Battalion The Highlanders (Seaforth, Gordons and Camerons)	The Highlanders, 4th Battalion The Royal Regiment of Scotland	4 SCOTS
1st Battalion The Argyll and Sutherland Highlanders (Princess Louise's)	The Argyll and Sutherland Highlanders, 5th Battalion The Royal Regiment of Scotland	5 SCOTS
Territorial Army Battalions		
52nd Lowland Regiment	52nd Lowland,	6 SCOTS
	The Scottish Division	
51st Highland Regiment	6th Battalion The Royal Regiment of Scotland 51st Highland, 7th Battalion The Royal Regiment of Scotland	7 SCOTS
	The Queen's Division	
The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)		
Regular Battalions		
1st Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	1st Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	1 PWRR
2nd Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	2nd Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	2 PWRR
	Territorial Army Battalion	
3rd Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	3rd Battalion The Princess of Wales's Royal Regiment (Queen's and Royal Hampshires)	3 PWRR
The Royal Regiment of Fusiliers		
	Regular Battalions	
1st Battalion The Royal Regiment of Fusiliers	1st Battalion The Royal Regiment of Fusiliers	1 RRF
2nd Battalion The Royal Regiment of Fusiliers	2nd Battalion The Royal Regiment of Fusiliers	2 RRF
	Territorial Army Battalion	
The Tyne Tees Regiment[1]	5th Battalion The Royal Regiment of Fusiliers	5 RRF
The Royal Anglian Regiment		
Regular Army Battalions		
1st Battalion The Royal Anglian Regiment	1st Battalion The Royal Anglian Regiment	1 R ANGLIAN
2nd Battalion The Royal Anglian Regiment	2nd Battalion The Royal Anglian Regiment	2 R ANGLIAN
Territorial Army Battalion		
The East of England Regiment[2]	3rd Battalion The Royal Anglian Regiment	3 R ANGLIAN
	The King's Division	
The Duke of Lancaster's Regiment (King's, Lancashire and Border)		
Formation Arrangements: Regimental formation 1 July 2006.		
Regular Battalions		
1st Battalion The King's Own Royal Border Regiment	1st Battalion The Duke of Lancaster's Regiment (King's, Lancashire and Border)	1 LANCS
1st Battalion The King's Regiment	2nd Battalion The Duke of Lancaster's Regiment (King's, Lancashire and Border)	2 LANCS
1st Battalion The Queen's Lancashire Regiment		

The King's Division

Territorial Army Battalion		
The Lancastrian and Cumbrian Volunteers	4th Battalion The Duke of Lancaster's Regiment (King's, Lancashire and Border)	4 LANCS[1]

The Yorkshire Regiment (14th / 15th, 19th and 33rd / 76th Foot)
Formation Arrangements: Regimental formation 6 June 2006.

Regular Battalions		
1st Battalion Prince Of Wales's Own Regiment Of Yorkshire	1st Battalion The Yorkshire Regiment (Prince Of Wales's Own)	1 YORKS
1st Battalion The Green Howards (Alexandra, Princess of Wales's Own Yorkshire Regiment)	2nd Battalion The Yorkshire Regiment (Green Howards)	2 YORKS
1st Battalion The Duke of Wellington's Regiment (West Riding)	3rd Battalion The Yorkshire Regiment (Duke of Wellington's)	3 YORKS
Territorial Army Battalion		
The East and West Riding Regiment	4th Battalion The Yorkshire Regiment	4 YORKS

The Prince of Wales's Division

The Mercian Regiment
Formation Arrangements: The Mercian Regiment will form on 24 August 2007.

Regular Battalions		
1st Battalion The Cheshire Regiment	1st Battalion The Mercian Regiment (Cheshire)	1 MERCIAN
1st Battalion The Worcestershire and Sherwood Foresters Regiment (26th/45th Foot)	2nd Battalion The Mercian Regiment (Worcesters and Foresters)	2 MERCIAN
1st Battalion The Staffordshire Regiment (The Prince of Wales's)	3rd Battalion The Mercian Regiment (Staffords)	3 MERCIAN
Territorial Army Battalion		
The West Midlands Regiment	4th Battalion The Mercian Regiment	4 MERCIAN

The Royal Welsh
Formation Arrangements: Regimental formation 1 March 2006.

1st Battalion The Royal Welch Fusiliers	1st Battalion The Royal Welsh (The Royal Welch Fusiliers)	1 R WELSH
1st Battalion The Royal Regiment of Wales (24th/41st Foot)	2nd Battalion The Royal Welsh (The Royal Regiment of Wales)	2 R WELSH
Territorial Army Battalion		
The Royal Welsh Regiment	3rd Battalion The Royal Welsh	3 R WELSH

The Light Division

The Rifles
Formation Arrangements: Formed in 2007.

Regular Battalions		
1st Battalion The Devonshire and Dorset Light Infantry *and* 1st Battalion The Royal Gloucestershire, Berkshire and Wiltshire Light Infantry	1st Battalion The Rifles	1 RIFLES
1st Battalion The Royal Green Jackets	2nd Battalion The Rifles	2 RIFLES
2nd Battalion The Light Infantry	3rd Battalion The Rifles	3 RIFLES
2nd Battalion The Royal Green Jackets	4th Battalion The Rifles	4 RIFLES
1st Battalion The Light Infantry	5th Battalion The Rifles	5 RIFLES
Territorial Army Battalions		
The Rifle Volunteers	6th Battalion The Rifles	6 RIFLES
The Royal Rifle Volunteers	7th Battalion The Rifles[4]	7 RIFLES

The Royal Irish Regiment (27th (Inniskilling), 83rd, 87th and Ulster Defence Regiment)[5]

Regular Battalions		
1st Battalion The Royal Irish Regiment	1st Battalion The Royal Irish Regiment	1 R IRISH
Territorial Army Battalion		
The Royal Irish Rangers	The Royal Irish Rangers	RANGERS

The Parachute Regiment

Regular Battalions		
1st Battalion, The Parachute Regiment[6]	1st Battalion The Parachute Regiment	1 PARA
2nd Battalion, The Parachute Regiment	2nd Battalion The Parachute Regiment	2 PARA
3rd Battalion, The Parachute Regiment	3rd Battalion The Parachute Regiment	3 PARA
Territorial Army Battalion		
4th Battalion, The Parachute Regiment	4th Battalion The Parachute Regiment	4 PARA

The Brigade of Gurkhas

1st Battalion The Royal Gurkha Rifles	1st Battalion The Royal Gurkha Rifles	1 RGR
2nd Battalion The Royal Gurkha Rifles	2nd Battalion The Royal Gurkha Rifles	2 RGR

The London Regiment

Territorial Army Battalion		
The London Regiment[7]	The London Regiment	LONDONS

[1] Currently within the King's Division and not part of the Royal Regiment of Fusiliers.
[2] Currently not part of the Royal Anglian Regiment.
[3] On formation in Jul 06 the new regiment will have 3 regular Bns with the TA Bn known as 4 LANCS. The 3 regular battalions will merge to form 1 LANCS and 2 LANCS in Mar 07. This is a change to the title announced in Dec 04; this is at the Regiments own request.
[4] Formed from Bn HQ and 2 x Coys of RRV with 2 x Coys of 1 ONDONS.
[5] Not included are the Home Service battalions of the Royal Irish Regiment who have not been subject to FAS.
[6] As announced on 16 December 2004, 1 PARA will be the core of the new Tri-Service Special Forces Support Group, and will be removed from the infantry structure.
[7] Currently within the Queen's Division.

The Chief of the General Staff (General Sir Mike Jackson) has written to the Infantry Colonels Commandant informing them of these changes.

DEPUTY PRIME MINISTER

Social Exclusion Unit Report

The Minister for Local Government (Mr. Phil Woolas): Today the Social Exclusion Unit in the Office of the Deputy Prime Minister is publishing a major report entitled "Transitions: Young Adults with Complex Needs".

The report proposes:

a renewed focus on the 16- to 25-year-old age group, building on the

Government's successful programmes for disadvantaged children and families;

a focus on the invisible early twenties, the age at which youth policies have tended to end;

the need for all young adults to have a trusted adult in their lives to help negotiate their way around different agencies; and,

smoother—and therefore better—transitions between services by joining up vertically to promote continuity of service from adolescence to adulthood.

The report highlights three key themes:

Thinking and Behaviour.

For young adults, issues around thinking and behaviour are particularly critical because decisions made during the transition to adulthood—particularly in areas like education and employment—are some of the most important and far-reaching decisions taken at any time of life.

Age-bound services.

The importance of the issue of age boundaries was reinforced during this project by practitioners and young people alike. Two issues dominated the discussion of this area: the often abrupt ending of services once a young person reaches a certain age, and the sometimes poor transition between youth and adult services.

Holistic services and the 'trusted adult'.

Young adults with multiple problems may lack the skills and resilience needed to make the transition to adulthood. Support, advice and guidance are crucial in order for young adults to make a successful transition. For many young adults this will come from their parents, relatives, guardians, or teachers—but not all young adults have these sources of support. For them, this supporting role may be filled by a personal advisor or mentor—or someone else acting in the role of 'trusted adult'.

The report contains 27 action points to be taken forward by Government Departments. The Implementation Team in the Social Exclusion Unit will monitor the progress made by the Departments on individual action points and will work to ensure that the overarching goals contained within the report are pursued across Government.

Baroness Andrews, Parliamentary Under-Secretary in the Office of the Deputy Prime Minister will chair an ad-hoc group of Ministers from key Departments to oversee progress towards the action points contained in the report.

Copies of the report have been placed in the Libraries of both Houses. Further copies can be downloaded from http://www.socialexclusion.gov.uk/downloaddoc.asp?id=785

FOREIGN AND COMMONWEALTH AFFAIRS

Foreign and Commonwealth Office Parliamentary Database

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): On 6 April I announced the database of parliamentarians' foreign affairs interests that the Foreign and Commonwealth Office had created.

Since then, the FCO has been working on a new Parliamentary Question (PQ) management system so that it can be compatible with the next generation of the FCO's desktop IT system which will be introduced next year. The new PQ management system will allow officials throughout the Department to see the FCO questions that hon. Members have asked. In order to concentrate parliamentary information in one place, this new system will also replace the database of parliamentary interests, and in addition to records of Parliamentary Questions hon. Members have asked, it will include records of their participation in foreign affairs debates.

HEALTH

12th Wave Work Programme (National Institute for Health and Clinical Excellence)

The Minister of State, Department of Health (Jane Kennedy): Today I am announcing referral to the National Institute for Health and Clinical Excellence (NICE) of topics for its 12th Wave work programme.

I am referring to NICE clinical guidelines in the following areas:

Low Back Pain;

Stroke;

Glaucoma;

Irritable bowel syndrome;

Investigation of children with suspected abuse;

Chronic Kidney Disease;

Spinal Cord Compression;

Borderline Personality Disorder; and

Antisocial (Dissocial) Personality Disorder.

I am also asking NICE to consult on the remit and scope for technology appraisals of the following:

Autologous tumour vaccine for stage i-iii renal cell carcinoma;

Idaraparinux sodium for the prevention of stroke in patients with atrial fibrillation and for the prevention of recurrent venous thromboembolism;

Neuro-imaging in the first onset atypical psychosis;

Cochlear Implants;

Recombinant factor Vila for traumatic bleeding;

Rimonabant for smoking cessation, weight loss and reduction of cardiovascular risk factors of overweight obesity;

Certolizumab pegol and natalizumab for the treatment of moderate to severe Crohn's disease;

Varenicline for smoking cessation;

Alteplase for acute ischaemic stroke;

Rituximab and abatacept for the treatment of refractory rheumatoid arthrits Adalimumab and leflunomide for the treatment of moderate to severe psoriatic arthritis;

Ruboxistaurin (LY333531) for diabetic eye disease;

Tegaserod maleate and cilansetron for Irritable Bowel Syndrome;

Continuous positive airways pressure (CPAP) for Sleep Apnoea; and

Muraglitazar and tesaglitazar for type II diabetes and associated lipid abnormalities.

Early referral of Herceptin (Trastuzumab) for early stage breast cancer and Velcade (Bortezomib) for multiple myeloma was made on 21 July.

NICE will begin consultation with organisations representing patients, healthcare professionals and the healthcare industries on the remit and scope of these technology appraisals. I will consider the comments arising from the consultation when finalising the precise remit of the appraisal topics.

I will shortly be considering proposals for public health topics which will be included in this programme of work.

Further information including details of the remits of the topics may be found on the NICE website at www.nice.org.uk.

NICE will be publishing indicative timescales for its work on these topics in due course.

Human Fertilisation and Embryology Authority's Annual Report 2004–05

The Parliamentary Under-Secretary of State for Health (Caroline Flint): The 2004–05 annual report of the Human Fertilisation and Embryology Authority was laid before the House today. Copies of the report have been placed in the Library.

HOME DEPARTMENT

Police Use of Firearms (England and Wales)

The Minister for Policing, Security and Community Safety (Hazel Blears): The statistics for 1 April 2004 to 31 March 2005 show that the number of police operations in which firearms were authorised was 15,981.

The Police discharged a conventional firearm 18 times covering five incidents. In addition, the Police discharged baton rounds in 23 incidents and fired Taser in 35 incidents.

Armed response vehicles were deployed on 13,137 occasions and there were 6,243 authorised firearms officers in England and Wales.

Full details are set out in the tables below:

NUMBER OF OPERATIONS IN WHICH FIREARMS WERE AUTHORISED

	2001–02	*2002–03*	*2003–04*	*2004–05*
TOTAL	13,991	14,827	16,657	15,981

INTERNATIONAL DEVELOPMENT

South Asia Earthquake: Relief

The Secretary of State for International Development (Hilary Benn): I am today committing a further £25 million to provide humanitarian assistance to those affected by the 8 October earthquake in Pakistan. This will bring DFID's total contribution to the relief effort to £58 million, which together with our pledge of £70 million to the reconstruction effort over three years, means that the UK's total contribution to relief and reconstruction is £128 million.

DFID has focused its initial £33 million of relief support on practical assistance, including shelter and logistics, and funding for the relief programmes of the United Nations, the Red Cross Movement and non-governmental organisations. Although the relief effort has gathered pace, with the onset of harsh winter conditions the need to strengthen relief operations is now critical. In particular, we need to provide for those living above the snow line or in organised or spontaneous camps. Further support for logistics, shelter, camp management, health, water and sanitation, and nutrition is required.

The additional funds announced today will help do this. We will also be giving further support to the United Nations' helicopter operation. As part of this, £5.5 million will go to the United Nations Humanitarian Air Service, as DFID takes on the contracts for four medium lift Mi-8 helicopters for a four month period. With the onset of winter the need is shifting away from heavy-lift helicopters like the UK CH-47 Chinooks—which are now completing their operations—towards medium-lift helicopters to ensure deliveries to remote and isolated communities. The Mi-8 helicopters are ideally suited to the environmental conditions and will be able to deliver relief to any location in the affected area throughout winter.

I can also report that this funding will help support an 86 strong team drawn from 59 Independent Commando Squadron Royal Engineers to be deployed under NATO command, to undertake emergency shelter building operations in remote high-altitude areas in the Bagh region. The Royal Engineers unit are highly specialist troops who are trained to operate in winter and mountainous conditions.

DFID will also be providing further support for: shelter and winter kits, including stoves, for high altitudes; management and servicing of camp sites; primary health care centres, mobile clinics, women's health and counselling; water and sanitation in camps, local communities and hospitals; and food in both camps and displaced communities in remote areas.

TRADE AND INDUSTRY

Commission for Equality and Human Rights

The Parliamentary Under-Secretary of State for Trade and Industry (Meg Munn): The Government propose the Commission for Equality and Human Rights would be based in two sites in England, with a majority of staff based in Manchester and a significant presence in London. The CEHR would also have offices in Glasgow and Cardiff and a strong regional presence throughout Great Britain.

The provisions establishing the CEHR are set out in the Equality Bill, which is currently before Parliament.

The decision follows an independent study conducted on behalf of Government to identify suitable options for the location of the new organisation. Further work will be undertaken as to the way in which the functions of the CEHR will be divided between the various sites. All existing Commissions will be fully engaged in this process. The report of the location study, a Race Equality Impact Assessment and Equality Impact Assessment, will be placed in the House Libraries shortly.

Written Answers to Questions

Monday 7 November 2005

SOLICITOR-GENERAL

Charging Decisions

Jon Trickett: To ask the Solicitor-General what guidance has been provided to *(a)* the Crown Prosecution Service and *(b)* police in relation to statutory charging arrangements and pre-charge bail from a police station to obtain a charging decision from a Crown Prosecutor. [24681]

The Solicitor-General: On 21 May 2004, the Director of Public Prosecutions issued guidance to police officers and Crown prosecutors under section 37A of the Police and Criminal Evidence Act 1984. The guidance sets out the cases that must be referred to prosecutors for charging decisions and the circumstances in which a release on bail before charge may be appropriate in accordance with the amendments to the Police and Criminal Evidence Act 1984, introduced by the Criminal Justice Act 2003.

In April 2005, further guidance was issued to the Crown Prosecution Service (CPS) and the police on the subject of granting pre-charge bail to obtain a charging decision from a Crown prosecutor. The guidance was formulated as a result of issues raised during the implementation of the statutory charging arrangements, and establishes a standardised approach to the operation of pre-charge bail.

The decision to detain or grant pre-charge bail to obtain a charging decision from a Crown prosecutor is solely for the custody officer. There is no need to consult a Crown prosecutor to authorise the granting of bail or to confirm the conditions

Corruption

Malcolm Bruce: To ask the Solicitor-General whether the Serious Fraud Office is investigating the allegation of corruption involving a Department of Trade and Industry employee. [22063]

The Solicitor-General: Following an article published in *The Guardian* newspaper on 13 October 2005, the SFO can confirm that information has been passed to it, in connection with alleged corruption of a DTI employee. The information provided is being considered to determine whether there is sufficient evidence, or realistic prospect of obtaining sufficient evidence, to justify commencing an investigation.

Departmental Skills Development Plan

Mr. Gibb: To ask the Solicitor-General which individual is responsible for developing and implementing his Department's Skills Development Plan. [23837]

The Solicitor-General: I refer the hon. Member to the answer given by my right hon. Friend the Member for Barrow and Furness (Mr. Hutton) on 2 November 2005, *Official Report*, column 1074W.

Gershon Review

Mr. Francois: To ask the Solicitor-General what progress has been made, in terms of *(a)* headcount reductions and *(b)* cost savings, in achieving the efficiency objectives set for the Law Officers' Departments by the Gershon review. [21301]

The Solicitor-General: Progress was reported in Budget 2005 and in the Annual Report for the Law Officers' Departments[1]. Further progress will be reported in the individual Law Officers' Departments Autumn Performance Reports and, at aggregate level, in the pre-Budget report.

[1] Cm 6531

Mr. Francois: To ask the Solicitor-General who in the Law Officer's Departments has been made responsible for achieving the efficiency objectives set for the Departments by the Gershon review. [21313]

The Solicitor-General: The Attorney-General, as the Minister superintending the Law Officers' Departments, is responsible for the overall delivery of the Departments' efficiency programme.

Terrorism Bill

Mr. Cash: To ask the Solicitor-General if the Attorney-General will place his advice to the Secretary of State for the Home Department on the compatibility of the Terrorism Bill with the Human Rights Act 1998 in the Library. [25606]

The Solicitor-General: I refer the hon. Member to the statement made by my right hon. Friend the Home Secretary to the House on 3 November 2005, *Official Report*, column 1071.

Mr. Cash: To ask the Solicitor-General if he will make a statement on the compatibility of the Terrorism Bill with the Human Rights Act 1998. [25609]

The Solicitor-General: My right hon. Friend the Home Secretary has made a statement under section 19(1)(a) of the Human Rights Act 1998 giving his view that the Terrorism Bill is compatible with the Convention rights. Given the long-standing convention on not disclosing the content of Law Officer advice nor whether or not such advice exists, it would be wrong to comment further on this issue.

LEADER OF THE HOUSE

Departmental Skills Development Plan

Mr. Gibb: To ask the Leader of the House which individual is responsible for developing and implementing his Office's Skills Development Plan. [23840]

Nigel Griffiths: I refer the hon. Gentleman to the answer given by the Chancellor of the Duchy of Lancaster (Mr. Hutton), on 2 November 2005, *Official Report*, column 1074W.

Departmental Spending

David T.C. Davies: To ask the Leader of the House how much his Office spent on items of art in 2004–05. [23460]

Nigel Griffiths: No expenditure by the Leader's Office has been incurred on items of art in 2004–05. Items of art in his Office are on loan from the Government Art Collection.

Scottish Legislation

David Mundell: To ask the Leader of the House further to the answer of 24 October 2005, *Official Report*, column 83W, on Scottish legislation (scrutiny), how much time was spent on scrutinising Scottish legislation between *(a)* 1992–93 and *(b)* 1999–2000, broken down by bill. [23618]

Mr. Hoon: Further details breaking down the information provided in my earlier answer are available from the Journal Office of the House.

INTERNATIONAL DEVELOPMENT

Bilateral Aid

Mr. Burrowes: To ask the Secretary of State for International Development how his Department plans *(a)* to monitor and *(b)* to disaggregate information on how direct budget support provided as bilateral aid is spent. [25897]

Hilary Benn: I refer the hon. Gentleman to the response given to my hon. friend the Member for Cardiff, North on 27 October 2005, *Official Report*, column 512W.

EU Commissioner for External Trade

Andrew George: To ask the Secretary of State for International Development what discussions he has had with the European Commissioner for External Trade on *(a)* the Economic Partnership Agreements and *(b)* the World Trade Organisation meeting in December. [24241]

Hilary Benn: I have had several discussions on both these issues with Commissioner Mandelson since he took up office. Most recently, the commissioner joined the informal meeting of EU Development Ministers which I hosted on 23 and 24 October in Leeds, by video-conference. There we discussed in particular the importance of a credible package of "Aid for Trade" measures to be in place before the World Trade Organisation (WTO) meeting in December, so that developing countries can see that we are serious in addressing their concerns over trade reforms, and also so that they will be able to adjust to new trading circumstances as well as benefit from the opportunities that trade liberalisation can bring.

Niger

Andrew George: To ask the Secretary of State for International Development when his Department first received warning of a food crisis in Niger from *(a)* the Early Warning System of the UN Food and Agriculture Organisation, *(b)* the Famine Early Warning System Network of the US Agency for International Development, *(c)* the FAO-WFP Crop and Food Supply Assessment Mission and *(d)* his Department's officials based in that country. [24260]

Hilary Benn: The Food and Agricultural Organisation of the United Nations (FAO)'s Global Information and Early Warning System (GIEWS) produces two sets of reports that warn of imminent food crises in Africa. The "Foodcrops and Shortages Report" from February 2005 stated that the harvest in Niger was normal against the five year average, and did not require exceptional and/or emergency assistance. The "Food Supply Situation and Crop Prospects" Report in April 2005 similarly omitted Niger from its list of countries facing food emergencies. Only in its June 2005 edition did the "Foodcrops and Shortages Report" recommend emergency assistance for Niger, and only in September 2005 did Niger feature on FAO/GIEWS' list of countries facing food crises.

The FEWSNET bulletin first flagged Niger as a country under "Warning Status" in December 2004, but it was not until June 2005 that this was upgraded to "Emergency Status" demanding "highest priority urgent action".

DFID attended the presentation of the World Food Programme (WFP)/FAO's initial Crop and Food Supply Assessment Mission (CFSAM) findings from the Sahel region in December 2004, where cereal production for the entire region was reported as average, in spite of drought and locusts, but where pockets of need were identified within all the Sahel countries. Based on the evidence, DFID judged that large scale food aid would not be required at that time.

DFID does not have any officials based in Niger. The London based humanitarian unit responsible for monitoring emerging crises in Africa had been monitoring the situation in the Sahel since the locust invasions of August 2004. In April 2005, the first incontrovertible evidence of a deteriorating situation was provided by Medecins Sans Frontieres. A full account of DFID's subsequent response is set out in my parliamentary written statement on the Niger food crisis made on 11 October 2005, *Official Report*, columns 26–27WS.

WALES

Dentistry

Mr. Crabb: To ask the Secretary of State for Wales when he last discussed NHS dentistry with the Health Minister in the National Assembly for Wales Government. [24702]

Mr. Hain: I met with the First Minister on 20 October when we discussed a range of issues, including dentistry. My hon. Friend, the Parliamentary Under-Secretary of State for Wales is in regular conversation with the Assembly Minister for Health and Social Services, Brian Gibbons, and plans to meet him to discuss dentistry on 14 November; I met him on 28 October. In addition, I met my right hon. Friend the Secretary of State for Health on 3 November on this very same issue.

Devolution

Mr. Roger Williams: To ask the Secretary of State for Wales when he will issue his guidance for a Government Department on devolution; and if he will place a copy in the Library. [25674]

Mr. Hain: Following the publication on 15 June 2005 of the Better Governance for Wales White Paper, the Government has agreed a revised Devolution Guidance Note 9.

General Devolution Guidance is available on the DCA website: http://www.dca.gov.uk/constitution/devolution/guidance.htm

A copy of DGN 9 is in the Library.

MINISTER FOR WOMEN

Women's Pensions

Lynda Waltho: To ask the Minister for Women and Equality what steps the Government are taking to tackle women's pension inequality; and what discussions she has had with the Department for Work and Pensions on this issue. [24107]

Meg Munn: The Women and Work Commission was set up in 2004 to look at ways to tackle the gender pay gap. Their report will be published in January 2006. The Department for Work and Pensions published a report on women and pensions last week, which provides a detailed analysis of women's pension position, without policy proposals. Both reports will inform the next steps taken by the Government to tackle women's pension inequality.

Both my right hon. Friends the Cabinet Minister for Women and I have had discussions with my right hon. Friend the Secretary of State for Work and Pensions on the issue of women's pensions. The issue of women's pensions is central to the National Pensions Debate and the women and pensions report will provide a valuable contribution to that debate. The report provides a firm basis on which to build consensus on the way forward and achieve fair outcomes for women.

Lynda Waltho: To ask the Minister for Women and Equality what steps the Government are taking to encourage women to provide for their retirement using private pensions. [24108]

Meg Munn: I welcome the report that the Department for Work and Pensions published last week, which provides a detailed analysis of women's pension position. It considers both state and private pension entitlements and highlights key influences on the level of women's retirement incomes: women's education, employment, earnings, caring responsibilities and demographic trends. It also includes research on household financial planning.

The issue of women's pensions is central to the National Pensions Debate and this report provides a valuable contribution to that debate. The report provides a firm basis on which to build consensus on the way forward and achieve fair outcomes for women.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has commissioned on preventative measures to prevent the spread of Avian influenza. [24112]

Mr. Bradshaw: The current research programme on Avian influenza (AI) is multi-disciplinary with many facets that are aimed toward improving our understanding of the disease and effective methods of prevention and control.

For example, one project is conducting studies to assess virus survival under various environmental conditions. This will provide direct evidence on risks of transmission in poultry products. Another project is seeking to develop improved diagnostic technologies that will allow more rapid identification of infection.

Other studies are currently under way to improve our understanding of viral transmission within flocks and the effect, on this, of prior immunity.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many registered quarantine sites for birds exist in the UK. [24646]

Mr. Bradshaw: Current records show that there are 83 bird quarantine facilities and centres in the UK. This figure may not distinguish between single facilities and multiple units in large bird quarantine centres.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what training for *(a)* state veterinary service veterinary surgeons and *(b)* private practice veterinary surgeons (i) has been and (ii) are being provided with in the detection of Avian influenza. [24655]

Mr. Bradshaw: All veterinary surgeons, as part of their training, are trained in clinical investigation and the diagnosis of disease.

The state veterinary service has recently run a programme of training for veterinary officers to update them on dealing with a potential outbreak of Avian influenza. Confirmation of disease is based on laboratory analysis and not clinical diagnosis in the field.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements have been made for the safe disposal of poultry carcasses in the event of a cull for avian influenza. [24656]

Mr. Bradshaw: Disposal of carcases of birds infected with highly pathogenic Avian influenza would be by off-site incineration or rendering in specialist plants. If existing incineration and rendering capacity were fully utilised, carcases would be disposed of by deep burial in suitably engineered commercial licensed landfills.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the adequacy of the capacity of the

rendering industry to deal with the number of poultry slaughtered in the event of an outbreak of Avian influenza. [24658]

Mr. Bradshaw: The Department is in close contact with the United Kingdom Renderers Association (UKRA) and has assessed the current available capacity and maximum likely capacity. The available capacity at any time will depend on the time of year, breakdowns and other demands. Some 2,500 tonnes per week (equivalent to 1.25 million chickens) would be available very quickly and a further 10–15,000 tonnes could be brought on stream within about two weeks.

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what further steps her Department plans to take to ensure that Avian influenza does not enter the UK through poultry meat imports. [23185]

Mr. Bradshaw: Poultry meat can only be imported from countries approved by the European Community. In addition the country of origin must submit a plan setting out the guarantees which it offers with regards to the use of veterinary drugs and other products which could lead to residues and contaminants in foods.

Fresh poultry meat must have been slaughtered, cut and stored in Community approved establishments.

Each consignment must be accompanied by a certificate signed and stamped by a duly authorised veterinary officer of the Government of the exporting country and bear a health mark.

All poultry meat and birds imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. These check ensure that these import conditions are met.

If there is an outbreak of notifiable disease in an exporting country Defra takes appropriate emergency safeguard action in accordance with Community legislation. This may include a ban on imports of animals and animal products from all, or parts, of that country.

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs what tests her Department carries out on meat imports to ensure that they are free of *(a)* Avian influenza and *(b)* foot and mouth disease. [23186]

Mr. Bradshaw: Testing imported meat would be both impractical and prohibitively expensive. Currently available tests have only been validated for detecting viruses in clinical samples.

Current EU legislation contains measures to ensure that meat imported into the EU does not originate from animals infected with serious disease.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for how long she expects farms infected with avian influenza to be closed. [24111]

Mr. Bradshaw: After the disease has been confirmed, the premises must first be depopulated of poultry and subjected to preliminary cleansing and disinfection. Following depopulation, the premises must be cleansed and disinfected to standards set by a DEFRA veterinarian and this may take several weeks for it to be completed. The premises must then remain empty of poultry for at least 21 days. We would then allow the premises to re-stock if there were no more outbreaks of the disease in the locality. Once restocked the poultry would be kept under close surveillance for a period of 21 days and subjected to clinical inspections during that period.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement of 26 October 2005, *Official Report*, column 308, how many poultry and bird markets she expects will be closed. [24113]

Mr. Bradshaw: Under the Avian Influenza (Preventive Measures) Regulations 2005, birds collected together at exhibitions, shows, fairs or other gatherings are no longer permitted except under licence following a veterinary risk assessment. Information on the number of poultry and bird markets is not readily available. This is anticipated to affect a number of markets.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for how long the Government propose to keep *(a)* bird auctions and *(b)* bird markets closed in the event of an outbreak of avian influenza; what assessment she has made of (i) the effect of the closures on those employed in markets and auctions; and (ii) the merits of paying compensation to those affected. [24114]

Mr. Bradshaw: On the 21 October the European Commission considered the encroaching avian influenza threat and, as a result, introduced a decision to ban bird markets, fairs and other gatherings of birds until the 31 January 2006, when the decision will be reviewed. This decision was implemented in England by the Avian Influenza (Preventive Measures) Regulations 2005 (2005 No. 2989). The ban will remain in place until the European law requiring it is lifted. We have worked with representatives of groups holding such events and assessed the risks. As a result, some gatherings may continue under licence and subject to biosecurity controls. We will consider any applications for a licence sympathetically and any which can be permitted to go ahead following a veterinary risk assessment will be licensed. There is no provision for the payment of compensation in these circumstances.

Mr. Graham Stuart: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she will take to ensure secondary losses resulting from biosecurity restrictions relating to avian influenza do not have an adverse economic impact on farmers. [24451]

Mr. Bradshaw: The Department considers that poultry farmers, in common with all animal owners, have a responsibility to maintain good biosecurity and have issued appropriate guidance. Any action taken to control avian influenza should be proportionate and decided upon in the light of an overall assessment of the risks, costs and benefits in a particular situation.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what compensation package has been agreed with the poultry industry in the event of an avian influenza outbreak; and if she will make a statement. [24503]

Mr. Bradshaw: In the event of an avian influenza outbreak, compensation would be payable under schedule 3 of the Animal Health Act 1981 against the number of healthy birds destroyed at time of slaughter.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the adequacy of personnel numbers within the state veterinary service to deal with an outbreak of avian influenza. [24505]

Mr. Bradshaw: The SVS and DEFRA as a whole have plans in place to enable them rapidly to increase personnel numbers to deal with an outbreak of avian influenza.

These plans include the ability to call on trained contingency LVIs, vets from other signatory country members of the International Health Emergency Reserve and staff from other Government Departments.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what model her Department has prepared to predict the spread of avian influenza should an outbreak occur. [24645]

Mr. Bradshaw: My Officials are currently closely engaged with both the industry to collect data and a wide range of modellers to ensure that a range of models to support policy development and decision taking is rapidly put in place.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she has given on the holding of bird fairs and sales. [24694]

Mr. Bradshaw: The Avian Influenza (Preventive Measures) Regulations 2005 prohibit birds to be collected together at any fair, market, show or exhibition except under licence following a veterinary risk assessment. Detailed guidance on these rules are set out on the DEFRA website (http://defraweb/animalh/diseases/notifiable/disease/ai/shows/qanda.htm) and relevant stakeholders have been informed.

Anne Main: To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's assessment is of the risk of the feral pigeon population as a disease reservoir for avian influenza; and if she will make a statement. [25124]

Mr. Bradshaw: In comparison to domestic chickens, feral pigeons are generally unsusceptible to highly pathogenic avian influenza (HPAI). Experimental studies show that while pigeons can be infected with HPAI they do not appear to excrete the virus. This suggests that pigeons are unlikely to form a reservoir of infection of virus. However, the risk cannot be completely discounted and the public is encouraged to report any unusual die-off in pigeons or any other wild birds to the DEFRA helpline (08459 33 55 77) when further advice will be provided.

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has in place regarding the treatment and regulation of birds in *(a)* zoological gardens and *(b)* other public animal parks (i) in preparation for and (ii) in the event of an outbreak of avian influenza. [23878]

Mr. Bradshaw: The Avian Influenza (Preventive Measures in Zoos) Regulations 2005 outline the treatment and regulation of birds in 2005, and institute similar establishments in the event of a need to reduce the risk of transmission of avian influenza If required, an avian influenza prevention (zoos) zone will be declared in all or part of England, or restrictions notices may be served on the owner or occupier of any zoo where susceptible birds are kept.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* parrots and *(b)* other birds at the quarantine facility in Essex referred to in DEFRA press release 471/05 have been examined by veterinary *(a)* inspectors, *(b)* technicians and *(c)* experts. [23895]

Mr. Bradshaw: All of the birds kept at the quarantine facility referred to in Defra press notice 471/05 have been examined by officers of the State Veterinary Service.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* parrots and *(b)* other birds have been sampled for H5N1 avian influenza virus; how many samples were collected; and what the results were of the samples submitted for laboratory examination. [23901]

Mr. Bradshaw: Two parrots were submitted on 20 September for examination and both proved to be negative for avian influenza virus. A parrot and a mesia were submitted on 14 October from which the isolation of H5N1 was made. On 22 October a total of 104 parrot and 171 other bird carcasses were submitted and representative samples according to species and location in the quarantine site were tested. A number of the mesias have tested positive. We are awaiting the results from the rest of the birds.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there have been any recorded episodes of animal-to-animal spread of H5N1 avian influenza. [23903]

Mr. Bradshaw: H5N1 avian influenza is normally transmitted between birds. The ease of transmission depends on the species of birds involved.

However, on rare occasions it has been known for other mammalian species to become infected following close contact with infective birds. There is little to suggest onward transmission from these species.

There is some evidence to suggest that pigs have become infected with avian influenza viruses of subtypes H5N1 following contact with infective birds. There is no evidence of onward transmission from pigs to other pigs.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether H5N1 avian influenza is transmissible to pigs. [23904]

Mr. Bradshaw: There is evidence to suggest that pigs have become infected with avian influenza viruses of subtypes H5N1 following contact with infective birds. There is no evidence of onward transmission from pigs to other pigs.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions officials from her Department had with officials of the Taiwan Government prior to publishing the working hypothesis of the Chief Veterinarian on the origin of the H5N1 virus recovered from bird samples taken at the quarantine facility in Essex. [23920]

Mr. Bradshaw: None.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the source of H5N1 infection among birds at the quarantine facility in Essex. [23928]

Mr. Bradshaw: Extensive virological examinations of the birds are being carried out but these will take at least two weeks to complete.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what laboratory procedures are used to identify clades. [23996]

Mr. Bradshaw: A clade is a distinct branch within a phylogenic organisation of viruses within a family. Identification of which clade an influenza virus belongs involves isolation of the virus by growth on eggs, subsequent characterisation by examination of its nucleotide sequence and then comparing this to the sequences of other viruses previously isolated. It is then possible to place the new isolate within the family tree.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what definition of clade her Department uses in relation to the taxonomy of H5N1 sub-types. [24077]

Mr. Bradshaw: A clade is a genetically homologous group of viruses which clearly can be distinguished from other groups.

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement of 26 October 2005, *Official Report*, columns 307–9, on avian influenza, what regulations she plans to bring forward to assist in reducing the risk of disease and strengthening the ability to control an outbreak of bird influenza. [24061]

Mr. Bradshaw: New measures to help prevent the spread of avian influenza have been agreed by the European Commission through Commission Decision 2005/734 amended by 2005/745.

The Avian Influenza (Preventive Measures) Regulations 2005 which came into force on 28 October implements this into domestic legislation and in the event of an increased risk assessment:

(i) Allows for future biosecurity measure to be introduced if needed (e.g. feeding and watering birds indoors or keeping birds indoors).

(ii) Bans the gathering of birds at markets, shows, fairs and similar events.

(iii) Requires keepers of 50 or more commercial poultry to notify specific information on that poultry.

The Avian Influenza (Preventative Measures in Zoos) Regulations 2005 which also came into force on 28 October 2005:

(i) Require Government to undertake a risk assessment of the possible introduction of avian influenza by wild birds.

(ii) Allow for future preventative biosecurity measures to be introduced if needed (e.g. feeding and watering birds indoors or keeping birds indoors).

(iii) Provide powers to require zoo birds to be vaccinated in high-risk areas.

Biomass Industry

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of UK-produced biomass energy for *(a)* electricity and *(b)* heat has been generated from crops grown in the UK in each of the last three years. [22083]

Malcolm Wicks: I have been asked to reply.

Estimates used to compile the tables shown in the Digest of United Kingdom Energy Statistics 2005, show that in 2002, 2003 and 2004 all biomass used for the generation of heat in the UK was home produced. For biomass used in co-firing with fossil fuels to generate electricity, 56 per cent. was imported in 2003 and 63 per cent. in 2004. Information to enable the corresponding proportion for 2002 to be calculated is not available. It is further estimated that there is no importation of other bio-fuels such as straw, or short rotation coppice for electricity generation.

The tables from the Digest of UK Energy Statistics used for this reply are 7.1, 7.2, 7.3 and 7.7. The Digest is available in the Libraries of the House.

Biosecurity

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the latest information provided by her Department to farmers on biosecurity measures to deal with avian influenza and West Nile fever. [20763]

Mr. Bradshaw: The Department has distributed guidance materials on avian influenza to our partners in the industry—including the British Poultry Council, the British Egg Industry Council and the National Farmers Union—who are helping to distribute this material to their members, who cover the majority of birds. A simple one-page leaflet on biosecurity and surveillance for smaller concerns and back yard keepers has also been produced and is being distributed widely including to all veterinary practices and placed in trade and specialist press targeting the same audience. All this information is available on my Department's website and I am placing copies in the Library of the House.

Advice regarding West Nile Virus is contained in the draft contingency plan for Specified Type Equine Exotic Diseases which is currently out for public consultation.

The draft plan can be found at: http://www.defra.gov.uk/corporate/consult/current.htm. The closing date for responses is 21 November 2005.

Information concerning West Nile Virus can also be found on the West Nile Virus Q&A at: http://defraweb/animalh/diseases/notifiable/disease/westnilevirus.htm

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the level of preparedness for the vaccination of animals against *(a)* avian influenza and *(b)* West Nile fever. [20765]

Mr. Bradshaw: There are no vaccines against avian influenza which have a marketing authorisation for use in the UK. Work is in hand to consider whether vaccination of birds in zoos or other centres on the one hand, or of commercial poultry on the other, should form part of the control strategy in the UK. There are no vaccines against West Nile fever with a marketing authorisation for use in the UK. A draft contingency plan for dealing with outbreaks of specified type equine exotic diseases (which includes West Nile virus) was issued for consultation in July 2005.

Birds

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has received on the number of wild birds traded into the European Union *(a)* in 2004 and *(b)* to date in 2005; and what checks have been made for avian influenza among these birds. [23813]

Mr. Bradshaw: Figures from the EU-wide computer system used to record imports of animals and their products, known as TRACES, show that in 2004 67,480 captive birds were imported into the European Union. Of these 66,586 were imported into the UK.

In 2005 120,639 captive birds were imported into the EU to date. Of these 119,856 were imported into the UK.

These figures are for captive birds, as no distinction can be made between captive bred birds and wild caught birds. The figures do not include poultry. However there are discrepancies between these figures and the figures reported by CITES. We are concerned about these discrepancies between these figures and are urgently investigating them to resolve the problem.

All imported captive birds must be held in quarantine for 30 days during which time a test must be carried out for the avian influenza virus.

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are followed for the quarantine of birds from different countries in separate facilities; and when this system was put in place. [23704]

Mr. Bradshaw: EU law includes no requirement for quarantined birds from different countries to be kept separate in a quarantine facility.

Call Centres

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs how many call centres were run by her Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone in each year. [23305]

Jim Knight: The Regional Payments Agency (RPA) manages the British Cattle Movement Service (BCMS) call centre and Customer Service Centre. The DEFRA and Pets Travel Scheme helplines are both situated in BCMS/RPA call centre.

The Environment Agency manages a National Customer Contact Centre and Floodline.

The following tables show figures for each contact centre and helpline.

BCMS/ English and Welsh lines

(a) Year	*Total calls received*	*Total calls answered by an agent*	*Total calls abandoned*	*Percentage calls answered*
2003–04	464,802	426,689	38,113	92
2004–05	413,813	402,437	11,376	97
2005–06	263,273	259,597	3,676	98.6

During busy periods callers receive a message that advises them that demands are high and to call back later. We do not have figures for how many callers receive this message or an engaged tone.

Defra helpline

(a) Year	*Total calls received*	*Total calls answered by an agent*	*Total calls abandoned*	*Percentage calls answered*
2004–05	77,927	72,516	5,411	93.5
2005–06 (to date)	67,778	62,302	5,476	92.5

The DEFRA helpline began operating from BCMS on 1 April 2003.

Detailed information on figures for years 2003–04 is disproportionate to costs and therefore not available.

Pets travel scheme helpline

(a) Year	*Total calls received*	*Total calls answered by an agent*	*Total calls Abandoned*	*Percentage calls answered*
2004–05	35,871	33,992	1,879	96
2005–06 (to date)	39,061	37,616	1,445	95

The Pet Travel Scheme helpline began operating from BCMS on 1 April 2004.

The BCMS call centre is able to manage call flow to both the DEFRA and Pets helplines so that callers do not receive an engaged tone through the provision of a front ended Interactive Voice Response (IVR) system. It has the capacity to point calls to a live agent ensuring that no caller receives an engaged tone. It is essential that all callers have access to advisers for the Pet Travel Scheme.

RPA Customer Service Centre

(a) The Rural Payments Agency Customer Service Centre was not active in 2003–04.

We utilized the services of two BT contact centres, Shoreditch and Derby, to help handle the volume of calls at the busiest period. The maximum number of agents (advisers) supplied by BT was 186, in mid May 2005, steadily reducing to 15 by the end of August. These were in addition to the RPA CSC normal complement of 68 agents.

	Total calls received	Total calls answered	Handled by an adviser (percentage)	Total calls abandoned	Percentage	Total calls engaged/ disconnected	Percentage
(b) 12 July 2004 to 31 March 2005	201,109	106,379	53	11,195	5.5	83,535	41.5
(c) 1 April 2005 to 28 October 2005	408,352	294,093	72	8,185	2	106,074	26

Environment Agency

National Customer Contact Centre

Period covered: 1 September 2004 to 30 September 2005 (the date the service went fully live).

	Total calls received	Total calls answered by adviser	Total calls abandoned	Percentage calls answered
2004-05	468,055	434,924	33,131	93
2005-06	485,152	449,763	35,389	93

It is extremely rare for any caller to get an engaged tone; this would only happen if we were exceptionally busy. We have no statistics available for the number of callers getting such a tone since these callers do not make it through to our system.

Floodline

The Environment Agency's FLOODLINE service has one Call Centre supplier who provides both an Interactive Voice Recording service (RMS) and a Live Agent call operator service for all the calls received on the 0845 988 1188 number.

RMS

RMS provides an automated flood warning service to the public, 24 hours a day, 365 days a year, which is accessible via the 0845 988 1188 number. Flood warnings are issued and managed by the Environment Agency and SEPA, who have the ability to record and delete warnings for particular areas of the country as required. Public callers can hear flood warnings either by

1. Navigating down a menu structure to their required area,
2. By 'quick dialling' to the required area or
3. By direct transfer to a warning message by the Floodline Call Centre operator.

Live Agent

The 0845 9881188 number also provides the public the option of speaking to a Live Agent Operator to advise on any matter associated with flooding or related issues.

Call statistics of Floodline call centre—0845 9881188

Date	Total calls received	Total calls handled by RMS	Total calls offered to adviser	Total handled by an adviser (percentage)	Received but abandoned (percentage)
January 2003 to January 2004	154,746	112,934	41,812	94.9	5.1
January 2004 to January 2005	142,407	104,063	38,344	95.5	4.5
January 2005 to October 2005 (part year)	80,273	48,179	32,094	95.5	4.5

(iii) We are unable to advise on the number of callers that received an engaged tone. This would be unlikely to happen on the RMS service as we have a concurrent capacity of 720 lines.

Charity Shops

Dr. Whitehead: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she has issued to local waste collection authorities concerning the charging of charity shops for the collection of unusable items donated by members of the public. [25505]

Mr. Bradshaw: Defra has issued no specific guidance to waste collection authorities about the charging of charity shops for the collection by waste collection authorities of unusable items donated by members of the public since the publication of the Controlled Waste Regulations 1992. Guidance to waste collection authorities in Schedule 2 to these regulations covers the types of household waste for which a charge for collection may be made. Where waste collection authorities do decide to charge they must only recover their costs of collection and these costs must be set at a level so that the authorities do not make a profit. There are no plans to change this guidance.

Commercial Poultry Producers Register

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs when the register of commercial poultry producers is expected to be established. [24062]

Mr. Bradshaw: The Department plans to establish the GB register by the end of December 2005.

Common Agricultural Policy

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will update the information released relating to individual recipients of common agricultural policy support payments to include *(a)* the postcode of the recipient and *(b)* location information at the NUTS-5 level. [23580]

Jim Knight: The Rural Payments Agency (RPA) disclosed common agricultural policy (CAP) payment information on 22 March 2005, listing the names of CAP subsidy recipients and the amount paid to them in the last two years.

The information represented an annual aggregate figure for payments to each recipient under all of the schemes paid by RPA. The full list of schemes covered by the disclosure is set out in Annex A.

RPA published on its website in July 2005 a supplement to the CAP payments information giving details of payments by geographic location for the EAGGF (European Agricultural Guidance and Guarantee Fund) year 2003–04. The regional analysis has been produced using the Nomenclature of Territorial Units for Statistics (NUTS) and NUTS levels one and two were used to provide this analysis.

It was concluded that a more detailed regional breakdown to lower levels of NUTS codes 3, 4, and 5 and the release of full postal addresses would not be appropriate. The general privacy arguments were examined in detail and it was concluded that the risks around privacy intrusion outweighed the limited additional public value of the additional postal address data.

Further, the diversion of more resources from other priority work, in particular considering RPA's imperative to commencing Single Payment Scheme payments to farmers by February 2006, to produce additional geographical breakdown would be manifestly unreasonable.

Annex A—Schemes Administered By RPA

IACS and other farm based schemes dealt with by RPA for England:

Arable schemes:

Arable Area Payments Scheme (AAPS) including Fibre Flax Subsidy and Hemp Subsidy

Aid for Grain Legumes

Bovine schemes:

Beef Special Premium Scheme (BSPS)

Suckler Cow Premium Scheme (SCPS), including decisions about suckler cow quota

Extensification Payments Scheme (EPS)

Slaughter Premium Scheme (SPS), including Veal Calf Slaughter Premium

Sheep schemes:

Sheep Annual Premium Scheme (SAPS), including the LFA Supplement and decisions about sheep quota

Agrimonetary Compensation linked to any of the above schemes

England Rural Development Programme (ERDP), including the Hill Farm Allowance Scheme (HFA).

Structural funds:

The Structural Funds are a multi-funded EU programme. Defra is the managing authority, RPA is the paying authority (responsible for financial and accounting controls) and the Government Offices act as the intermediate bodies (responsible for administration and implementation).

RPA only pays under the Guidance element for schemes in Objective 1 regions and for Leader + schemes.

Non-IACS (i.e. CAP) schemes dealt with by RPA for the UK:

General:

Aid for Concentrated Grape Must

Aid for Dehydrated Fodder

Apple Consumption Aid

Beef Information Programme

Butter for Manufacture

Butter for Non-Profit Making Organisations

Cane Sugar Refining Aid

Control of Casein in Cheese Making

Casein Production Subsidy

Citrus Processing Aid

Concentrated Butter for Direct Consumption

End Use Control of Certain Fruit and Vegetables

Fibres Processing Aid

Fish Carry-Over Aid

Fish Flat-Rate Aid

Fish Flat-Rate Premium

Fish Private Storage Aid

Fish Withdrawals Compensation

Fresh Fruit and Vegetables Withdrawals

Fruit and Vegetable Operational Programme

Fruit and Vegetable Producer Organisation Recognition

Grape Juice Aid

Herbage Seed Production Aid

Milk Quotas Scheme

Olive Oil Production Refunds

Over Thirty Months Scheme

Promotions to Internal Market

Promotions to Third Countries

School Milk Scheme

Selective Cull Scheme

Skimmed Milk Powder for Animal Feed

Starch for Prescribed End Users

Sugar and Isoglucose Production Levies

Sugar in the Chemical Industry

Intervention purchasing schemes:

Cereals

Beef

Dairy

Private storage aid schemes:

Dairy

Sheepmeat/goatmeat

Pigmeat

Beef

Sugar oils and starch:

Cane Sugar Refining

End Use Control of Certain Vegetable Oils

Olive Oil Production

Production Refund on sugar used in the Chemical Industry

Starch Refunds—Cereals

Starch Refunds—Rice

Isoglucose Quotas and Production Levies

Sugar Quotas and Production Levies

External trade schemes (including export refunds):

Bananas

Beef and Veal

Beef Import Tariff Quota

Cereals

Rice

Fish

Floriculture (live plants and flowers)

Fruit and Vegetables

Milk/Milk Products

Processed Goods (i.e products including two or more agricultural products supported by the CAP)

Oils/Fats

Oilseeds/Seeds

Pigmeat

Eggs

Poultrymeat

Sheepmeat and Goatmeat

Sugar, Isoglucose and Insulin Syrup

Tobacco

Whisky refunds

Wine

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list recipients of payment under common agricultural policy agri-environment and rural development schemes for the last two years including *(a)* size of payment, *(b)* date of payment, *(c)* name of scheme under which payment was made, *(d)* name of recipient, *(e)* postal address of recipient and *(f)* location of enterprise in respect of which the payment was made. [23581]

Jim Knight: The Rural Payments Agency (RPA) disclosed common agricultural policy (CAP) payment information on 22 March 2005, listing the names of CAP subsidy recipients and the amount paid to them in the last two years.

The information represented an annual aggregate figure for payments to each recipient under all of the schemes paid by RPA, including agri-environment and rural development schemes. The full list of schemes covered by the disclosure is set out in Annex A.

RPA investigated the practicalities of providing further breakdown by scheme, including scheme type, date of payment and name of scheme under which payment was made. It was concluded that it was unreasonable to produce this data because it is held in detailed scheme records and to reconcile the scheme statistics against the monies paid at the aggregate customer level would be extremely resource intensive.

RPA published on its website in July 2005 a supplement to the CAP payments information giving details of payments by geographic location for the EAGGF (European Agricultural Guidance and Guarantee Fund) year 2003–04. The regional analysis has been produced using the Nomenclature of Territorial Units for Statistics (NUTS) and NUTS levels one and two were used to provide this analysis. It was decided that a more detailed regional breakdown and the release of full postal addresses would not be appropriate. The general privacy arguments were examined in detail and it was concluded that the risks around privacy intrusion outweighed the limited additional public value of the additional postal address data.

Further, the diversion of more resources from other priority work, in particular considering RPA's imperative to commencing Single Payment Scheme payments to farmers by February 2006, to produce additional geographical or scheme breakdown would be manifestly unreasonable. However RPA continues to examine detailed requests on a case by case basis.

Annex A—Schemes administered by RPA

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has received on progress towards implementing the mid-term review of the Common Agricultural Policy in each other EU member state. [23823]

Jim Knight: The European Commission published a summary on 8 September 2005 entitled "Implementation of the CAP reform in the Member States" which outlines how each member state is implementing the 2003 reforms. Copies will be made available in the Library of the House.

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the EU Trade Commissioner on agricultural support payments; and if she will make a statement. [21267]

Jim Knight *[holding answer 26 October 2005]:* My right hon. Friend, the Secretary of State, discusses important policy issues with all relevant EU Commissioners, including the EU Trade Commissioner. Agricultural support payments are a key element of the current Doha Development Agenda negotiations in the WTO.

Correspondence

Mr. Salmond: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to reply to the letter dated 25 July 2005 from the hon. Member for Banff and Buchan regarding tallow combustion. [23931]

Jim Knight: The issues raised in the hon. Gentleman's letter of 25 July to my right hon. Friend the Secretary of State fall within the remit of the Scottish Executive. The hon. Gentleman's letter has therefore been transferred to the Scottish Executive correspondence section which will reply to him directly.

Departmental Consultations

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list formal consultations being sponsored by her Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22567]

Jim Knight: A list of the Department's current consultations can be found on the Defra website at via the home page under 'consultations' or direct to the website http://defraweb/corporate/consult/current.htm. This site contains the date of issue and the deadline for responses.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs which individual is responsible for developing and implementing her Department's Skills Development Plan. [23845]

Jim Knight: I refer the hon. Member to the answer given by the Chancellor of the Duchy of Lancaster (Mr. Hutton) on 2 November 2005, *Official Report*, column 1074W.

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library a copy of her Department's Skills Development Plan. [23869]

Jim Knight: We will ensure that a copy of the Department's Skills Development Plan will be made available in the Library of the House.

Departmental Vehicles

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of her Department's vehicles use *(a)* hydrogen fuel cells and *(b)* hybrid environmentally friendly technologies. [21414]

Jim Knight: The following percentages relate to vehicles owned by Defra and its executive agencies.

Type of vehicle	*Percentage*
(a) hydrogen fuel cells	0
(b) powered by hybrid environmentally friendly technologies	1.3

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of carbon dioxide emissions her Department's vehicles have produced in each year since 1997. [21415]

Jim Knight: Defra was created on 8 June 2001. Full year information is available from 2002-03. Information on carbon emissions from business road travel in vehicles owned by Defra and its executive agencies each year is shown in the following table.

Tonnes

	Carbon dioxide emissions
1 April 2002 to 31 March 2003	1,153
1 April 2003 to 31 March 2004	1,214
1 April 2004 to 31 March 2005	1,394

Business road travel is also carried out by officials in their own vehicles.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of journeys made by *(a)* officials and *(b)* Ministers in her Department have been made by public transport in each year since 1997. [21418]

Jim Knight: Records held by Defra and its executive agencies do not allow for this information to be separately identified.

Duck Producers (Inspections)

Mr. Peter Robinson: To ask the Secretary of State for Environment, Food and Rural Affairs how many inspections have been carried out in each of the last three years at the premises of duck producers. [19564]

Mr. Bradshaw: The State Veterinary Service has carried out the following number of inspections on the premises of duck producers in the last three years:

	Number
1 January to 31 December	
2003	121
2004	168
1 January to 30 September	
2005	121

Fireblight Disease

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the possible existence in wild plants of the fireblight disease. [23806]

Mr. Bradshaw: Fireblight, a bacterial plant disease, is well established throughout much of Europe and has been known to exist in the UK since the 1950s. It is a serious disease of apples, pears and related trees and shrubs in the family *Rosaceae*, sub family *Pomoideae*. The list of susceptible material includes several plants which commonly grow wild in England and Wales, including *Chaenomeles* (Flowering Quince), *Cotoneaster*, *Crataegus* (Hawthorn) and *Sorbus* (Mountain Ash).

The first UK finding of fireblight was in Kent in 1957. It is now widespread in Wales, England and also parts of Scotland but absent from Northern Ireland. The disease can be spread by wind, rain, birds and pollinating insects, as well as on contaminated pruning tools and by the planting of infected plants which may or may not show symptoms. It is known to have spread in England along hawthorn hedges planted alongside railways, motorways and main roads. There are no pesticides currently available to treat the disease.

Nurseries intending to move fireblight-host material have to be registered with DEFRA and must have at least two inspections per year in order to retain their ability to trade susceptible plants within the EU.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to ensure that exporters of fireblight-susceptible species of trees and shrubs do not use other species' names on the necessary paperwork; and what assessment she has made of whether those who inspect the paperwork are capable of *(a)* differentiating and *(b)* identifying the species. [23807]

Mr. Bradshaw: Exporters of plants and plant products to non EC countries must satisfy the plant health requirements of the importing country. In many cases importing countries require consignments to be accompanied by a phytosanitary certificate issued by the official services in the country of origin as evidence that those requirements have been met. In the case of fireblight-susceptible host plants, where requested by an exporter and if required by the importing country, DEFRA's Plant Health and Seeds Inspectorate (PHSI) will undertake inspection of the material and, if it is found to comply with the conditions of import, will issue the necessary phytosanitary certificate. This would include details of the plant genera and species.

In relation to movements within the EU, growers of fireblight host material are required to register with DEFRA as producers of plant material requiring a plant passport and they also have to apply to DEFRA for authorisation to issue plant passports. An element of the authorisation process is to designate a technically experienced person who is responsible for passporting and associated plant health matters on the premises. In order to retain their authorisation producers must be inspected at least twice a year by the PHSI. One of these inspections will take place during the period of growth of the plants and the other at the time of despatch of material, including a check of records and documentation. If at any time a registered plant passporter is shown to be deliberately falsifying information or contravening the passporting regulations, his authorisation to issue plant passports may be withdrawn.

PHSI are normally graduates and invariably have a background or qualification in horticulture or agriculture. On appointment they receive a period of intensive training, which will include plant, pest and disease identification, familiarisation with the legislation under which they will operate, plant passporting and export certification arrangements etc. On completion of this formal training they shadow experienced Inspectors for a further period of field-based training, including

visits to plant passporting and/or exporting nurseries. Identification of fireblight hosts is included as part of this general training.

Flooding

Geraldine Smith: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been allocated to complete the Morecambe sea defence scheme; and when work will commence. [24554]

Mr. Morley: Defra approved the final two phases of the Morecambe coastal works for grant aid in October this year. Lancaster city council is currently running a procurement exercise to secure a contractor and they expect to start work in this financial year. The amount of Government grant will reflect the price negotiated as part of the procurement process.

Foot and Mouth

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what payments to contractors who undertook work for the Government during the foot and mouth outbreak are outstanding; and if she will make a statement. [25433]

Mr. Bradshaw: Invoices to the value of £5.1 million remain disputed and unpaid. The Department is disputing payment in those cases where it believes on the basis of the quantum, accounting, technical and legal advice it has received that it was overcharged for goods, services and works during the foot and mouth disease outbreak.

In all other cases, the Department has paid businesses for the goods, services and works provided at its request in connection with the outbreak in 2001.

Gershon Review

Mr. Francois: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made, in terms of *(a)* headcount reductions and *(b)* cost savings, in achieving the efficiency objectives set for the Department by the Gershon review. [21296]

Jim Knight: Progress on achieving the efficiency objectives set for the Department by the Gershon review was reported in Budget 2005 and in the departmental annual report. The latter can be viewed on Defra's website at http://www.defra.gov.uk/corporate/deprep/default.htm. It contains details of headcount reductions and cost savings. Further progress will be reported in the autumn performance reports and at aggregate level in the pre-Budget report.

Mr. Francois: To ask the Secretary of State for Environment, Food and Rural Affairs who in the Department has been made responsible for achieving the efficiency objectives set for the Department by the Gershon review. [21318]

Jim Knight: The right hon. Margaret Beckett, Secretary of State for the Environment, Food and Rural Affairs is responsible for the overall delivery of the Department's efficiency programme.

Lord Bach, Parliamentary Under-Secretary for sustainable farming and food has specific responsibility for efficiency. Ministers' biographical details can be viewed at www.defra.gov.uk/corporate/ministers/index.asp.

Greenhouse Emissions

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs what assumptions of economic growth were made when setting the targets for the reduction of greenhouse emissions. [19086]

Malcolm Wicks: I have been asked to reply.

The central economic growth assumption was for a long term growth rate of 2.35 per cent. per annum. The sensitivity of projected emissions to possible alternative outcomes for economic growth was examined by analysis using assumed low and high growth rates of 1.75 per cent. and 2.85 per cent. per annum respectively.

Household Waste

Ms Keeble: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have a fortnightly collection of household waste. [22865]

Mr. Bradshaw: A number of local authorities operate partial fortnightly collections. Some of their properties receive a fortnightly collection and the remainder are weekly, or they operate an alternating system with residual waste collected one week followed by a collection of recyclable material in the following week.

No central source holds the information requested but the waste and resources action programme have provided the information given in the table.

[2] Planning to introduce or just starting to introduce a fortnightly collection.
[3] Fortnightly collection only partly rolled out across a local authority.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs how many employees in her Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23372]

Jim Knight: DEFRA runs a centrally funded Adult Further Education scheme which offers 100 per cent. funding to members of staff who wish to do a GCSE level qualification for numeracy, literacy or another key skill area. Every applicant who has applied for a numeracy/literacy qualification or course has had their costs fully funded centrally.

We are also supporting a number of employees for whom English is not their first language through 'English for Speakers of Other Languages' (ESOL) courses. Delegates can take nationally recognised tests at two levels, the higher of which is the equivalent of a GCSE pass at grade A-C.

In the current financial year DEFRA is also assisting six members of staff in undertaking London Public Sector Apprenticeships which contain modules on numeracy and literacy.

The current take up figures for these schemes are as follows:

Financial year	*Numeracy*	*Literacy*
2003–04	1	—
2004–05	1	1
2005[1]	4	—
2005[1]	—	[2]19
2005[1]	—	[3]6

[1] To date.
[2] ESOL.
[3] Apprenticeships.

DEFRA operates devolved learning and development budgets so there may be additional staff who request (and obtain) numeracy and literacy training from their own business unit budgets, however, these are not recorded centrally at present.

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to promote uptake of the national tests in adult literacy and numeracy among employees of her Department. [23408]

Jim Knight: DEFRA has used a wide range of methods to promote the uptake of the national tests in adult literacy and numeracy among our employees.

These include the dissemination of promotional material and information, including posters, CD Roms and leaflets across DEFRA sites via our network of Training Co-ordinators and through close liaison with the PCS Union Learning Representatives (ULRs).

In addition, information has been posted on our learning and development website and also on the PCS Union Learning Representatives web pages.

Presentations and facilitated discussions have been undertaken at a Training Co-ordinators conference, where co-ordinators were informed about the national tests and were given the opportunity to test their numeracy and literacy skills. These sessions were intended to enable the co-ordinators to encourage uptake among staff in their local business areas in DEFRA.

DEFRA have also held numerous 'drop-in' sessions in York and London where staff could find information and talk to learning and development advisers about all aspects of learning and development, including numeracy and literacy.

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head in each year since 2002. [23429]

Jim Knight: DEFRA operates a centrally funded Adult Further Education scheme which offers 100 per cent. funding to members of staff who wish to do a GCSE level qualification for numeracy, literacy or any

other key skill area. Every applicant who has applied for a numeracy/literacy qualification or course has had their costs fully funded.

DEFRA has spent £3,200 on in-house training in literacy and numeracy under the Adult Further Education scheme since the financial year 2003 (the first year for which figures are available). This can be broken down into financial years as follows:

Financial year	*Numeracy*	*Cost per head (£)*	*Literacy*	*Cost per head (£)*
2003–04	1	128.80	—	
2004–05	1	328.80	1	500.00
2005 (to date)	4	560.70	—	

We are also supporting a number of employees for whom English is not their first language through 'English for Speakers of Other Languages' (ESOL) courses. Delegates can take nationally recognised tests at two levels, the higher of which is the equivalent of a GCSE pass at grade A-C. The courses are funded by the Learning Skills Council.

In the current financial year DEFRA is also assisting six members of staff in undertaking London Public Sector Apprenticeships which contain modules on numeracy and literacy. These are also funded by the Learning Skills Council.

Additionally, literacy and numeracy skills are embedded in DEFRA's programme of centrally funded in-house communication skills and financial management courses which will assist the development of an individual's skills in these areas. Unfortunately, it is not practical to cost out the literacy and numeracy elements in these courses.

DEFRA operates devolved learning and development budgets so there may be staff who request (and obtain) numeracy and literacy training from their own business unit budgets which are not recorded centrally at present.

Milk Prices

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government have calculated a figure for a fair price for a litre of milk. [22726]

Jim Knight: The price of milk at producer, processor and retail level is determined by the market. It is not for Government to determine price.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* highest, *(b)* average and *(c)* lowest price paid per litre to farms for milk was in 2004–05. [22167]

Jim Knight: The Milk Development Council's Datum website shows the highest annual average farm gate milk price for the past 12 months was 21.62 pence per litre (ppl), the average price was 18.96 ppl, and the lowest 17.11 ppl.

The average price is calculated as a raw average of the 40 contracts shown on the latest price notice, irrespective of contract volumes (i.e. not a weighted average).

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the average *(a)* farm gate price of a litre of milk, *(b)* cost of producing a litre of milk and *(c)* retail price for a litre of milk was in each year between 1984 and 2004. [22170]

Jim Knight: The information is as follows:

Farm gate prices

Pence per litre

	Excluding any retrospective bonus payments made by purchasers	*Including retrospective bonus payments made by purchasers*
2001	19.13	19.26
2002	17.05	17.10
2003	18.01	18.03
2004[1]	18.45	18.47
2004[1]		
August	18.49	18.51
September	19.48	19.49
October	19.51	19.53
November	19.48	19.50
December	18.92	18.94
2005		
January	18.52	18.54
February	18.31	18.34
March	18.32	18.33
April	17.58	17.60
May	17.11	17.12
June	17.30	17.31
July	18.05	18.07
August	18.45	18.47

[1] Data from this point are provisional.

Source:
DEFRA

The table shows monthly average farm gate milk prices in pence per litre for the last thirteen months for the United Kingdom, and weighted annual averages for 2001 to 2004. The average prices are calculated from monthly surveys of milk purchasers conducted in England and Wales by DEFRA, in Scotland by SEERAD and in Northern Ireland by DARD. The size of the sample surveyed is estimated to account for 99 per cent. of milk production this month. The farm gate price is the average price received by producers, net of delivery charges. No deduction has been made for superlevy.

The University of Manchester report "The Economics of Milk Production England and Wales 2002/03", commissioned by DEFRA and the Welsh Assembly Government, calculated the average weighted cost of production to be 18.33 pence per litre. However the report also found that there is a huge disparity in the costs of production and profitability between the most and least efficient dairy farmers. The 25 per cent. of

farmers with the lowest cost of production were producing milk for an average 12 pence per litre less than the 25 per cent. with the highest costs. Data on production costs broken down by year are not available.

The average UK retail price of whole milk are available from 1986 onwards:

	Pence per litre
1986	42.1
1987	44.4
1988	45.8
1989	49.3
1990	54.5
1991	56.3
1992	59.8
1993	59.8
1994	63.3
1995	63.3
1996	63.3
1997	61.6
1998	59.8
1999	59.8
2000	59.8
2001	65.1
2002	63.3
2003	64.4
2004	61.9
2005 (average to September)	61.4

Note:
The price is an average of shop bought and delivered whole milk.

ONS

National Equine Database

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what account was taken of the free availability of similar information from other sources when deciding to charge a fee for use of the National Equine Database. [24079]

Jim Knight: The National Equine Database is being established jointly between Defra and the horse industry as it will help to meet Government objectives over passports and disease surveillance and the industry's own objectives to improve its prospects by enhancing breeding. Information about pedigree and performance can be commercially valuable and, although Defra will meet its share of future running costs, the industry will need to cover its costs. Our initial research did show that some basic information is available free from other sources, as it will be from NED. A recent study commissioned jointly with the industry indicated that the combination of the quality and accessibility of the information on the database will enable its costs to be recovered from fees.

Over-30-month Scheme

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to amend the over 30 months scheme; and if she will make a statement. [23130]

Jim Knight: The over 30 months scheme is expected to continue after the OTM Rule is lifted on 7 November until the beginning of January 2006 at the earliest. It will then be replaced by a voluntary three-year scheme (the older cattle disposal scheme) to dispose of cattle born before 1 August 1996 which are permanently excluded from the food chain.

Pesticide

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how long she expects the voluntary initiative on pesticide use to stay in place; and if she will make a statement. [22443]

Mr. Morley: The voluntary initiative on pesticides is due to conclude in March 2006. The position beyond this date will depend on the Government's evaluation of the environmental benefits delivered and on the initiative's proposals for future work. We expect new proposals from the Voluntary Initiative Steering Group on future targets and how the initiative proposes to meet those targets by the end of the year.

Poultry Meat

Mr. Wallace: To ask the Secretary of State for Environment, Food and Rural Affairs from which countries imports of poultry meat to the United Kingdom are banned. [23184]

Mr. Bradshaw: Only countries specifically approved to export poultry meat to the EU may do so. Those countries must also have EU approved establishments for slaughtering, cutting and storing fresh poultry meat. Currently the only countries with such premises are Argentina, Brazil, Bulgaria, Canada, Chile, China, Croatia, Israel, Romania and Thailand.

Some of these approved countries are currently experiencing outbreaks of Highly Pathogenic Avian Influenza (HPAI). They are China, Thailand, Romania and Croatia. We have banned imports of all live birds and related products (including poultry meat) from those countries. There are no specific bans with respect to HPAI from countries where trade is already prohibited by EU legislation.

Radioactivity

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 14 October 2005, *Official Report*, column 617W, on radioactivity, whether *(a)* national Governments and *(b)* industry regulators appointed by them will make the ultimate decision on whether a meter installed under Article 13 of the Energy End Use and Energy Services Directive should be deemed to be technically feasible and cost effective. [23561]

Mr. Morley: Article 13(1) of the draft directive would place an obligation on member states, i.e. national Governments, to ensure that, in so far as that is technically possible, financially reasonable and proportionate in relation to potential savings, final customers are provided with competitively priced individual meters that accurately reflect actual energy consumption and that provide information on actual time of use. If this obligation is included in the final text of the directive, the Government's proposals for implementation will be the subject of formal consultation in due course.

Recycling

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of household waste each local authority in England recycled in 2004–05. [24438]

Mr. Bradshaw: Information on recycling from individual local authorities for 2004–05 is not yet available.

Local authority Best Value Performance Indicators for 2004–05, which include information on household waste recycling rates will be available on 15 December from the Office of the Deputy Prime Minister's website at: www.bvpi.gov.uk

Shona McIsaac: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of household waste each council in the Yorkshire and Humber region recycled in the last period for which figures are available. [24762]

Mr. Bradshaw: The latest information on household recycling rates (including composting) are from the 2003–04 DEFRA municipal waste management survey. Full list of household recycling rates for individual local authorities can be found on the DEFRA website:

www.defraweb/environment/statistics/wastats/mwb0304/download/annexb.xls

Renewable Energy

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the Government have a renewable heat strategy; [22204]

(2) what assessment her Department has made of the effect on carbon emissions of carbon renewable heat generation. [22206]

Malcolm Wicks: I have been asked to reply.

The Government are presently developing their strategy regarding renewable heat. To inform that process, the Department commissioned with DEFRA a study from Future Energy Systems (FES) to specifically assess the heat sector, the scope it offers for carbon savings and to analyse scope for future Government support. That report is now being considered as part of the work of the climate change programme review. The FES study can be viewed on the DTI website at www.dti.gov.uk 'Heat Study.'

The Government are also be considering the recommendations of the biomass task force in this area, whose report to Government was published on 25 October 2005. The report can be viewed on the DEFRA website at www.Defra.gov.uk 'Biomass Report.'

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs how many renewable obligation certificates went to biomass crop-fuelled generation in each year of the operation of the renewables obligation; and how many of these went to co-fired generation. [22334]

Malcolm Wicks: I have been asked to reply.

The Office of Gas and Electricity Markets (Ofgem) are responsible for the administration of the renewables obligation. Information on renewable obligation certificates (ROCs), issued by generation technology on a monthly basis, is published in Ofgem's annual report on the renewables obligation. While Ofgem's annual report provides a breakdown of ROCs issued for biomass and co-firing generation, it does not distinguish between different fuel sources like crops.

Ofgem's first annual report on the renewables obligation, covering the obligation period from 1 April 2002 to 31 March 2003, was published in February 2004. The second annual report, covering the obligation period from 1 April 2003 to 31 March 2004 was published in February 2005. Copies of the annual reports are available from Ofgem's website (www.ofgem.gov.uk).

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment the Government have made of the carbon abatement which may be achieved by using biodegradable municipal waste to generate heat. [22335]

Margaret Beckett: The Department of Trade and Industry recently published a report on renewable heat, which estimated that the net carbon savings from generating heat from the biomass fraction of municipal solid waste would amount to 61kgC/MWh compared to using oil to produce heat and 46 kgC/MWh compared to gas. The report is available at: http://www.dti.gov.uk/renewables/policy_pdfs/heatreportfinal.pdf

Snares

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research she has *(a)* commissioned and *(b)* evaluated on the danger to (i) badgers, (ii) livestock and (iii) domestic animals from snares. [25280]

Jim Knight: DEFRA commissioned an independent working group on snares to examine all issues surrounding the snaring of foxes and rabbits. The group included experts on both animal welfare and wildlife management. The group's report has been published which contains a section examining the risks snares pose to non-target species such as badgers, livestock and domestic animals. In response to the report, DEFRA has published a code of good practice on the use of snares in fox and rabbit control and a DEFRA snares action plan. The documents may be found on:

http://www.defra.gov.uk/wildlife-countryside/vertebrates/snares/index.htm

UK Carbon Emissions

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what emission factors are used in the calculation of UK carbon emissions from natural gas. [22203]

Margaret Beckett: The time series of natural gas carbon emissions factors for each year from 1990 to 2003 in kilotonne carbon per megatherm fuel consumed (kt/Mtherm fuel consumed) is shown in the following table. The time series of UK specific emissions factors is derived from the recent review of carbon emission factors and is used in the UK Greenhouse Gas Inventory.

	Natural gas emissions factor (kt/Mtherm fuel consumed)
1990	1.44939
1991	1.45219
1992	1.45500
1993	1.45780
1994	1.46061
1995	1.46392
1996	1.46723
1997	1.47097
1998	1.47471
1999	1.48133
2000	1.47557
2001	1.47715
2002	1.47874
2003	1.48046

UK Exports (Australia)

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effect of the introduction of origin labelling in Australia on UK exports to that country. [22725]

Jim Knight: The objectives of the amendments to country of origin labelling in Australia and New Zealand are to provide consumers with adequate information to make informed choices and to bring existing country of origin labelling in those countries into line with World Trade Organisation agreements. The Government do not envisage that the changes will have a significant effect on UK exports to these markets.

Waste Electrical and Electronic Equipment

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs on what date the new treatment standards for waste electrical and electronic equipment will be published; and if she will make a statement. [25023]

Mr. Bradshaw: We expect to publish guidance on the selective treatment requirements set out in Annex II of Directive 2002/96/EC on waste electrical and electronic equipment (WEEE) at the same time as we make regulations to transpose the treatment permitting requirements of the directive. The guidance is being amended in the light of comments received during an earlier consultation by the Environment Agency and will be available in good time for the implementation of the directive's producer responsibility obligations in respect of WEEE in June 2006.

TRADE AND INDUSTRY

Africa

Norman Lamb: To ask the Secretary of State for Trade and Industry what changes of policy he expects will be made to give developing countries the freedom and flexibility implied in paragraph 31 of the G8 communique on Africa. [21661]

Ian Pearson: The Government have already announced changes to policy on debt relief and aid conditionally. In March the Government launched a new policy "Partnerships for poverty reduction—rethinking conditionally".

In trade negotiations, no concessions should be demanded from least developed countries. We will strive to ensure that all developing countries have the flexibility to plan and sequence liberalisation in line with national development plans through appropriate special and differential treatment provisions.

Bechtel

Mr. Drew: To ask the Secretary of State for Trade and Industry what the final cost was of the Bechtel consultancy on the British nuclear industry; and if he will publish the full report from Bechtel. [23692]

Malcolm Wicks *[holding answer 1 November 2005]:* Bechtel advised the Department, by means of a contract for services, on matters relating to arrangements for setting up the Nuclear Decommissioning Authority (NDA). Services under the contract included providing strategic management, and direct technical and commercial functions to both the Department and the 'shadow' NDA. The contract was signed on 12 August 2002 and was novated to the NDA on 25 May 2005. The final cost was £23.16 million. The Department did not request a report to be prepared.

Background to the creation of the NDA can be found on its website at www.nda.gov.uk

Mr. Drew: To ask the Secretary of State for Trade and Industry what consultancy projects Bechtel is undertaking for his Department. [23693]

Malcolm Wicks *[holding answer 1 November 2005]:* The Department has no consultancy projects with Bechtel at the present time.

Bolton Business Ventures

Dr. Iddon: To ask the Secretary of State for Trade and Industry what fund will replace the Phoenix Fund in relation to Bolton Business Ventures Ltd. [24416]

Alun Michael *[holding answer 3 November 2005]:* The Phoenix Fund was created in 2000 to stimulate enterprise in disadvantaged communities by providing business support and by improving access to finance. It was always intended to be a pump priming measure and was not designed to provide long-term or core funding for business support organisations.

Responsibility for regional economic development and business support now lies with the Regional Development Agencies. However, the Government have introduced the Community Investment Tax Relief to enable organisations like Bolton Business Ventures to raise further finance from the private sector to lend on to small businesses.

BREEAM98

Mr. Alan Reid: To ask the Secretary of State for Trade and Industry what rating has been attained under the most recent assessment of the application of BREEAM98. [21509]

Alan Johnson: The most recent BREEAM assessment on the DTI HQ Estate was in 1996, when the major refurbishment of 1 Victoria street achieved a very good rating.

British Steel Industry

Mr. Chope: To ask the Secretary of State for Trade and Industry what the outcome was of the consultation conducted by his Department on the impact of proposed new Eurocodes on the British steel industry. [22859]

Yvette Cooper: I have been asked to reply.

Government does not consult on the structural Eurocodes as these are industry standards and guidance, and public consultation is carried out by the British Standards Institute.

Businesses (Knowledge Transfer)

Stewart Hosie: To ask the Secretary of State for Trade and Industry how much businesses received through *(a)* collaborative research and development, *(b)* transfer networks and *(c)* knowledge transfer partnerships in (i) the United Kingdom and (ii) Scotland in each of the last 10 years. [22658]

Alan Johnson: The information is as follows:

(a) Collaborative Research and Development:

These are the sums made available through the DTI contributions to LINK and the current grant for collaborative R&D product.

£000

	UK grants	*Grants to Scottish-based businesses*
1988–99	44,679	2,278
1999–2000	6,768	345
2000–01	7,399	377
2001–02	7,824	399
2002–03	7,809	398
2003–04	8,375	427
2004–05	7,763	396
Total	90,618	4,620

Clear Skies and Solar Photovoltaics

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on *(a)* jobs and *(b)* investment in the UK micro-renewables sector of the decision to end the Clear Skies and Solar Photovoltaics Major Demonstration Programme; and if he will make a statement. [22425]

Malcolm Wicks *[holding answer 27 October 2005]:* The Clear Skies and Solar PV Programme have contributed to the development of the micro-generation industry in the UK, including an installer base. The new Low Carbon Buildings Programme will continue to fund the installation of micro-generation technologies in household, community and large-scale projects. The micro-generation strategy will look at removing some of the wider barriers currently hindering market development.

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what steps he is taking to minimise the gap between the end of the Clear Skies and Solar Photovoltaics Major Demonstration Programme and the start of funding allocations under the Low Carbon Buildings Programme. [22426]

Malcolm Wicks *[holding answer 27 October 2005]:* £1.5 million has been brought forward from the £30 million for the Low Carbon Buildings Programme to minimise any potential funding gap between the existing and new programme.

Correspondence

Mike Penning: To ask the Secretary of State for Trade and Industry (1) what steps he is taking to improve the Department's performance in replying to hon. Members' correspondence; [21885]

(2) what steps he is taking to improve the Department's performance in replying to correspondence from members of the public. [21907]

Alan Johnson: Every effort is made to handle all correspondence effectively and efficiently.

All correspondence from hon. Members and Peers is handled in accordance with the principles set out in 'Handling Correspondence from Members of Parliament, Members of the House of Lords, MEPs and Members of Devolved Assemblies: Guidance for Departments'. The same principles apply when handling correspondence from members of the public.

Information relating to the performance of departments in replying to Members/Peers correspondence is published on an annual basis. The Report for 2004 was published on 6 April 2005, *Official Report*, columns 137–40WS.

My Department has recently centralised correspondence and inquiry handling within a new DTI Response Centre. I believe that this will deliver a better performance in responding to Members' correspondence.

Greg Clark: To ask the Secretary of State for Trade and Industry when he will reply to the letters of 26 May 2005 and 25 July 2005 from the hon. Member for Tunbridge Wells on regulation. [24617]

Alan Johnson: My hon. Friend the Parliamentary Under-Secretary of State for Competitiveness, responded to these letters on 23 September.

Departmental Energy Consumption

Norman Lamb: To ask the Secretary of State for Trade and Industry how much energy has been consumed by his Department in each of the last five years; and how much was spent on energy in each year. [22456]

Alan Johnson: During the period April 2000 to March 2005 the Department consumed gas and electricity as is shown in the table.

	Electricity Mwh	*Electricity Cost (£000)*	*Gas Mwh*	*Gas Cost (£000)*
2004–05	17,190	1,050	6,755	120
2003–04	18,010	957	6,961	137
2002–03	17,087	942	7,924	103
2001–02	17,776	855	7,802	121
2000–01	18,532	929	8,422	115

Departmental Land

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what *(a)* land and *(b)* property his Department owns in Kettering constituency. [24363]

Alan Johnson: The DTI administrative estate does not include any land or property in the Kettering constituency.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Trade and Industry how much his Department spent on items of art in 2004–05. [23464]

Alan Johnson: My Department has not incurred any expenditure in 2004–05 on items of art.

Departmental Staff Secondment

Mr. Prisk: To ask the Secretary of State for Trade and Industry how many departmental staff are attached or seconded to small businesses as part of their career development; and which sectors they work in. [1087]

Alan Johnson: There are currently two staff on secondment from the Department of Trade and Industry to small businesses as part of their career development; one to the financial services sector and one to the retail and wholesale sector.

Small companies have shown limited interest in taking secondees from the Department. This may be due to cost implications as the Department seeks full salary reimbursement for all outward secondments.

However, the Department also operates a scheme under which all senior civil servants are required to spend at least one week in a business per year as part of their career development; these businesses often include small businesses across all sectors.

Diesel

David Wright: To ask the Secretary of State for Trade and Industry what discussions he has had with EU colleagues on strategies to bulk purchase diesel; and what assessment he has made of the likely impact of bulk purchasing on cross-European diesel prices. [23565]

Malcolm Wicks: There have been no such discussions. Recent changes in European diesel prices reflect developments in the international oil market rather than changes in purchasing strategies. International oil prices have been high due to general tightness in the oil market caused by strong global demand growth.

Member states of the European Union and the International Energy Agency (IEA) hold emergency oil stocks for release in the event of an international oil supply disruption. The recent co-ordinated response by the UK and other IEA countries made extra supplies available to the market to help it respond more effectively to the disruption caused by Hurricane Katrina.

Displaced Workers (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what plans he has to expand skills retraining services for displaced workers in Coventry. [24028]

Alun Michael *[holding answer 3 November 2005]:* The Learning and Skills Council and Job Centre Plus work together to ensure there are a range of opportunities available to support individuals being displaced as a result of redundancies. In conjunction with FE colleges and training providers they ensure that training opportunities are available for those who wish to retrain.

A number of specific measures have been put in place to ensure that Coventry workers displaced as a result of large scale redundancies such as MG Rover, Peugeot and Marconi have access to skills retraining services. This includes securing additional funds as appropriate for example through Rapid Response, European Funding and Advantage West Midlands (RDA) to provide support that cannot be funded through mainstream funds.

E-mail Scams

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what estimate he has made of the amount of money fraudulently obtained from UK consumers through e-mail scams in each of the past 10 years. [24531]

Alun Michael: The Office of Fair Trading estimates that the UK consumers lose up to £1 billion per year to a variety of scams, but is unable to provide a reliable estimate of how much was obtained specifically from e-mail scams.

India

Mr. Evans: To ask the Secretary of State for Trade and Industry what the value was of *(a)* imports from India to the UK and *(b)* exports to India from the UK in each of the last five years. [24623]

Ian Pearson *[holding answer 3 November 2005]:* The value of *(a)* imports from India to the UK and *(b)* exports to India from the UK in each of the last five years is set out in the table:

UK trade in goods with India

£ million

	UK Imports	*UK Exports*
2000	1,712	2,056
2001	1,884	1,781
2002	1,870	1,768
2003	2,147	2,293
2004	2,340	2,243

For the period January to July 2005, the value of Imports from India to the UK, in millions, was 1,629; an increase of 23 per cent. based on the corresponding period for 2004. For the same period, the value of exports to India from the UK was 1,643; an increase of 26 per cent. based on the corresponding period for 2004.

Mr. Evans: To ask the Secretary of State for Trade and Industry how many of his Department's trade missions involving representatives from companies there have been to India in each of the last five years. [24625]

Ian Pearson *[holding answer 3 November 2005]:* The total number of outward trade missions from the UK to India during the last five years is 173[1]. The total number of companies that accompanied these missions is 1,148[2]. A breakdown of the number of missions to each post during each of the last five years is set out in the table. The table also includes the total number of companies accompanying these missions.

[1] There are no records available of the number of missions that visited New Delhi and Kolkata in 2000. This may affect slightly the total number of Missions to India during the last five years.
[2] There are no records available of the number of companies that accompanied missions to New Delhi and Kom to India during the last five years.

	New Delhi	*Mumbai (inc. Ahmedabad)*	*Kolkata*	*Chennai (inc. Bangalore and Hyderabad)*	*Total*
2000	No records available	16	No records available	8	24
Number of UK companies	—	176		12	188
2001	1	1	1	3	6
Number of UK companies	2	9	9	19	39
2002	27	9	1	12	49
Number of UK companies	115	49	8	112	284
2003	22	11	0	12	45
Number of UK companies	144	64	0	113	321
2004	20	11	2	16	49
Number of UK companies	118	59	2	137	316

International Trade Agreements

Greg Mulholland: To ask the Secretary of State for Trade and Industry what steps his Department is taking towards ensuring that developing countries are not obliged to open up their markets through international trade agreements. [24441]

Ian Pearson *[holding answer 3 November 2005]:* The Government opposes forced opening of developing country markets through trade agreements or aid conditionality. We continue to work with the European Commission and the other member states to secure ambitious, pro-development trade agreements with developing countries.

Low Carbon Buildings Programme

Kate Hoey: To ask the Secretary of State for Trade and Industry what the budget is for the low carbon buildings programme. [22210]

Malcolm Wicks: The budget for the new programme is £30 million over three years.

Miners' Compensation

Mr. MacShane: To ask the Secretary of State for Trade and Industry what the total value is of compensation payments paid to former miners in the Rotherham metropolitan borough council area since 2000. [23274]

Malcolm Wicks: The total paid in compensation to former miners and their families in Rotherham borough constituency since 1 January 2000 is £10.4 million.

Nuclear Power

Mr. Chaytor: To ask the Secretary of State for Trade and Industry, whether any assessment has been made of the political stability of countries containing potential sources of uranium for use in the UK's nuclear power reactors. [23086]

Malcolm Wicks: The Department has carried out no assessment of the political stability of countries that may be potential sources of uranium for the UK's civilian nuclear power reactors.

Currently the majority of uranium for the UK's civilian nuclear power reactors is sourced from Australia and Canada.

Oil Imports and Exports

Mr. Holloway: To ask the Secretary of State for Trade and Industry in which years since 1997 the UK has been a net oil *(a)* exporter and *(b)* importer, giving the quantity of oil in each case. [24307]

Malcolm Wicks: Figures for UK oil imports and exports are routinely published in the DTIs annual Digest of UK Energy Statistics and quarterly Energy Trends publications. The UK has been a net exporter of oil (crude and products) since the early 1980s. Annual figures for 1997 to 2004 are shown in the following table with net imports denoted by a minus (−) sign.

Net exports of oil

Million tonnes

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Crude oil and natural gas liquids	36.8	43.5	49.6	41.2	35.4	33.0	23.9	7.5
Refinery feedstocks	−7.4	−6.9	−2.6	−2.7	−2.1	−2.8	−3.2	−5.6
Petroleum products	18.1	13.0	7.8	6.5	1.6	8.1	6.0	10.8
Overall oil	47.5	49.6	54.8	45.0	34.9	38.3	26.7	12.7

Source:
Digest of UK Energy Statistics

UK crude oil production peaked in 1999 and has declined subsequently. The 2003 Energy White Paper noted that the UK is expected to become a net importer of oil by around 2010.

Post Offices

Tim Farron: To ask the Secretary of State for Trade and Industry how many *(a)* sub-post offices and *(b)* post offices there were in (i) the UK and (ii) Westmorland and Lonsdale in each year since 1997. [24548]

Barry Gardiner: This is an operational matter for Post Office Ltd. (POL). I have therefore asked David Mills, the chief executive of POL, to provide a direct reply to the hon. Member.

Regional Development Agencies

Tim Loughton: To ask the Secretary of State for Trade and Industry if he will list *(a)* enterprise gateways, *(b)* enterprise hatcheries and *(c)* enterprise hubs in each regional development agency; and which of them are based in (i) stand alone and (ii) shared premises. [21677]

Alun Michael *[holding answer 25 October 2005]:* I have asked each regional development agency to provide me with the relevant information about the region's activities. I will write to the hon. Member when I have the necessary information and place a copy of the letter in the Libraries of the House.

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry how much money each regional development agency has spent on *(a)* providing, *(b)* designing, *(c)* constructing and *(d)* erecting (i) sculptures and (ii) statues in their region in the last five years for which figures are available. [20973]

Alun Michael *[holding answer 25 October 2005]:* Some of England's regional development agencies (RDAs) have commissioned sculptures and statues in their regions over the last five years as part of their wider efforts to regenerate deprived or run down areas, consistent with RDAs' statutory purposes set out in the RDAs Act 1998. Making the places where people live and work more attractive, can stimulate increased business investment, and community cohesion. Works of art also play a part in making business paths more attractive and assisting with inward investment and in promoting tourism and interpretation of historic areas and landscapes. RDAs play an important role in such developments, often working in partnership with business, local government and other public and voluntary organisations in order to promote the region and its economy.

Advantage West Midlands (AWM)

Public art plays a role in the West Midlands's regeneration and small area redevelopment. It is very rare that Advantage West Midlands directly funds public art but it contributes to schemes and developments which have an element of public art as part of the overall project.

East of England Development Agency (EEDA)

EEDA do not provide finance for stand alone sculptural pieces.

East Midlands Development Agency (EMDA)

EMDA have not commissioned or erected statues or sculpture in its region.

London Development Agency (LDA)

The LDA have contributed to the commissioning of statues through its Single Regeneration Budget programmes:

Public Roundabout Upgrade (Dagenham)—£110,000

CEME Phase 2 Lighting Sculpture (Havering)—£56,000

Bobby Moore Statue, (Green Street)—£103,027

Royal Docks Statue in Canning Town—£25,000

Royal Arsenal Plinth—£25,000 for the cleaning, repairing, moving and erecting the Duke of Wellington Statue on to the raised park at the Royal Arsenal.

One North East (ONE)

One North East have spent the following amounts on purchasing/commissioning sculptures in the region in the last five years:

	£
Being Human	40,800
Generation	62,326
Windmills	30,000

South West of England Regional Development Agency (SWERDA)

SWERDA have spent the following amounts on purchasing/commissioning sculpture in the last five years, as part of wider regeneration projects:

	£
2005–06	280,000
2004–05	436,857
2002–03	5,000
2000–01	600,000

North West Development Agency (NWDA)

Sculpture/statue	Location	NWDA investment (£)
B of the Bang	Berwick, East Manchester	500,000
Sycamore	Manchester	20,000
Rochdale Olympics	Rochdale	50,000
Gateway Statue	Ellesmere Port town centre	80,848
Meadow Lane screen	Ellesmere Port town centre	49,148
Herdi (Herdwick sheep)	Cockermouth	27,000
Spirit of Barrow	Barrow	45,000
Willie Horne Statue	Barrow	40,000
Owl Statue	Jubilee Woodland, Sefton	5,000
Another Place	Crosby Beach, Sefton	90,000
The Mersey Wave	Speke-Garston	1,350,000
Chinese Arch	Liverpool	386,000
New Brighton Pierrot	New Brighton	38,000
Splash Statue	National Football Museum, Preston	90,000
Futures Park	Bacup	5,608
Arts in the Forest	East Lancashire	5,572
Panopticons[1]	East Lancashire	600,000
Thunderbird 3	Blackpool	15,000
Blackpool Circus	Blackpool	100,000
Great Promenade show	Blackpool	46,095
Blackburn town centre	Blackburn	100,000
Mirrorball	Blackpool	n/a
Penelope	Wolstenholme Square, Liverpool	n/a
Total[2]		3,643,271

n/a = Not available.

[1] Panopticons: NWDA has approved £600,000 for this project, which has yet to complete. Spend to date is £273,833.

[2] Total does not include Mirrorball and Penelope—details of these projects are not available at present.

South East of England Development Agency (SEEDA)

SEEDA do not directly commission any sculptures or statues for the region.

Yorkshire Forward

Yorkshire Forward have commissioned the following projects:

Transformation

Commission to Public Arts for temporary sculptural installation in two towns. Cost to Yorkshire Forward £38,938, with £5,000 worth of staff time, therefore total investment of £43,938.

The Green

Commission to Public Arts for temporary installation in five towns. Cost to Yorkshire Forward £106,410 plus £15,000 staff time, therefore total investment of £121,410.

Island Wharf

The first phase of the Humber Quays project which is part of the broader City Centre Masterplan for Hull has £50,000 spent on the following: Sculptural Wave Wall in the plaza—approximately £40,000 including lighting; Sea Trek Statue—reset on a new granite plinth with lighting approximately £10,000.

Bronze Fisherman Statue

Through the Community Intervention Chest in 2002-03 the Grimsby Fishermen's memorial fund were awarded £5,000 towards the costs incurred in the commissioning of the bronze fisherman Statue in Grimsby.

John Wesley Statue

This Statue was also funded through the Community Intervention Chest, but our details are limited. It is believed they were awarded the maximum £5,000 and the Statue was erected in Epworth.

Renewable Energy

Mr. Drew: To ask the Secretary of State for Trade and Industry what the final funding settlement is for the renewables industry in the current funding programme for renewable energy. [20213]

Malcolm Wicks: I assume the question refers to the low carbon buildings programme, which is due to start in April 2006, subject to state aids clearance and for which the Government have just announced a budget of £30 million over three years.

Kate Hoey: To ask the Secretary of State for Trade and Industry what the final deadlines are for grant funding applications to the *(a)* Clear Skies and *(b)* solar photovoltaics major demonstration programmes. [22212]

Malcolm Wicks: The information is as follows.

(a) The final deadline for Clear Skies community applications was 4 November. For householders there is no set date, grants will be offered up until March 2006 unless forecasting shows that funding will run out sooner, in which case a month's notice will be given.

(b) For the PV demonstration programme the final stream 2 deadline will be in February. For household application grants will be offered up until March 2006 unless forecasting shows funding will run out sooner, in which case a month's notice will be given.

Joan Ruddock: To ask the Secretary of State for Trade and Industry when the *(a)* Clear Skies and *(b)* Solar Photovoltaics Major Demonstration Programmes will end; when their successor programmes will begin; and what steps his Department is taking to ensure continuity in the renewables sector. [22337]

Malcolm Wicks: The information is as follows:

(a) The Clear Skies Programme and Photovoltaics Demonstration Programme end in March 2006.

(b) The new Low Carbon Buildings Programme is due to start in April 2006.

£1.5 million of the £30 million budget has been brought forward to the existing programmes to ensure there is a minimal gap between their end and the start of the new programme.

Sarah Teather: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of *(a)* residential and *(b)* commercial properties (i) contracting to receive renewable energy and (ii) using on-site renewable generation in each year since 1997. [23482]

Malcolm Wicks: No estimates have been made of the number of residential and commercial properties contracted to receive renewable energy, or using on-site renewable generation, in each year since 1997.

In 2004, 3.1 per cent. of electricity came from renewable energy sources eligible under the Renewables Obligation, enough to supply over 2 million households.

Gregory Barker: To ask the Secretary of State for Trade and Industry what funding has been made available for renewable energy sources in the UK in each year since 1997. [24660]

Malcolm Wicks: It has not been possible to collate all public expenditure and other Government support since 1997 for energy technologies in the time available at proportionate cost. However, it is possible to detail direct DTI and Research Council expenditure on renewables energy. These are set out in the tables.

In addition to this both DEFRA and the Scottish Executive provide funding to the Carbon Trust which conducts research into low carbon energy activities among other activities. DEFRA also funds research into combined heat and power, which is also detailed in the tables as follows.

DTI new and renewable energy programme—external spend for each technology area by financial year from 1997–98 (rounded to nearest thousand)

	Spend							
Programme area	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Bio wastes	75,000	48,000	25,000	56,000	13,000	42,000	25,9000	—
Biomass	1,317,000	1,076,000	1,585,000	1,267,000	1,333,000	1,595,000	1,346,000	974,222
Embedded generation	586,000	530,000	596,000	589,000	776,000	1,424,000	725,000	1,105,640
Fuel cells	900,000	1,197,000	1,168,000	1,410,000	1,249,000	1,200,000	1,701,000	4,907,430
Geothermal—aquifers	0	0	0	0	0	0	0	0
Geothermal—hot dry rocks	0	0	0	0	0	0	0	0
Hydro	57,000	80,000	138,000	60,000	130,000	200,000	85,000	0
Solar	1,660,000	983,000	1,278,000	1,264,000	1,522,000	4,485,000	3,131,000	1,970,340
Tidal	0	0	0	27,000	305,000	1,996,000	2,914,000	1,268,530
Wave	0	91,000	11,000	331,000	662,000	748,000	2,104,000	—
Wind	1,240,000	950,000	801,000	913,000	1,248,000	1,428,000	1,395,000	1,459,600

Notes:
1. From 2000–01, figures do not include spend on contracts placed direct by DTI.
2. For 2004–05, highlighted cells show a combined spend for the two areas.

£

DTI capital grant programmes	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Biomass (DTI and lottery spend)	—	—	—	—	—	—	10,000	1,913,000
Offshore wind capital grants	—	—	—	—	—	—	—	15,000,000
Clear skies community renewables	—	—	—	—	—	—	200,000	1,387,000
Major PV demo programme	—	—	—	—	—	960,000	2,880,000	6,450,000
DEFRA CHP programme	1,000,000	1,300,000	1,900,000	2,500,000	2,800,000	1,600,000	2,500,000	2,000,000

Note:
Several indirect measures of state support for CHP were introduced in 2001–02. Of those that can be enumerated, climate change levy exemption on fuel inputs to good quality CHP and good quality CHP electricity outputs were valued at up to £80 million per annum, while eligibility for enhanced capital allowances is worth in the region of 10m per annum to the industry. Capital grants for community energy programme schemes were introduced in 2002–03 and the spend on schemes including CHP was: £427,000 in 2002–03, £4,315,000 in 2003–04 and £4,896,000 in 2004–05.

Gregory Barker: To ask the Secretary of State for Trade and Industry what steps have been taken to ensure that there is adequate funding for renewable energy sources in the UK. [24661]

Malcolm Wicks: The Renewables Obligation is the Government's main policy to support renewables. The value of the obligation rises every year and will be worth around £1 billion by 2010. On top of this the Government have also committed to further support renewables with £500 million of support for research, development and demonstration of a range of renewable technologies between 2002 and 2008.

Gregory Barker: To ask the Secretary of State for Trade and Industry if he will make a statement on funding targets set for renewable energy sources in the UK; and whether funding targets have been met. [24707]

Malcolm Wicks *[holding answer 3 November 2005]:* The Government do not have funding targets for renewable energy. The Government have a target of

10 per cent. of electricity from eligible sources of renewable energy by 2010, with an aspiration to double that by 2020.

To support progress towards the Government's renewables target we introduced the renewables obligation (RO) in 2002. The RO requires electricity suppliers to source an increasing proportion of their electricity sales from renewable sources. The RO, together with exemption for renewables from the climate change levy, is expected to provide support to industry of around £1 billion a year by 2010.

We have also allocated support of around £500 million, between 2002 and 2008, for capital grants and research and development, to help develop renewable and other low carbon technologies.

Lynne Jones: To ask the Secretary of State for Trade and Industry if he will make a statement on *(a)* proposals to replace the Major Photovoltaic Demonstration Programme and the Clear Skies Initiative and *(b)* the resources to be made available for new programmes. [24929]

Malcolm Wicks: A new Low Carbon Buildings Programme will supersede the current programmes. This is due to start in April 2006, subject to State Aids approval, with a budget of £30 million over a 3-year period.

Norman Baker: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on future investment decisions of his decision not to confirm an extension to the renewables obligation beyond 2015. [25032]

Malcolm Wicks: The renewables obligation already continues beyond 2015 to 2027. Under the ongoing review of the renewables obligation, the Government have set out its position that it do not consider that any additional announcements on obligation levels beyond 2015–16 are necessary at this stage.

Given the current gap between ROC-eligible renewable energy generation (3.1 per cent. in 2004) and the obligation level for 2015–16 (15.4 per cent.), we consider that there remain strong incentives within the RO to make new investments in renewable energy.

This position has been extensively discussed with industry and other stakeholders as part of the ongoing consultation.

Royal Mail

Mr. Kemp: To ask the Secretary of State for Trade and Industry (1) how much compensation was paid to members of the public for letters lost or stolen while in the possession of the Royal Mail in the last three years for which information is available; [24948]

(2) how many letters *(a)* were lost or stolen and *(b)* had items stolen from inside the letter while in the possession of the Royal Mail in the last three years for which information is available. [24949]

Barry Gardiner: This is an operational matter for Royal Mail. I have therefore asked Adam Crozier, the chief executive of Royal Mail, to provide a direct reply to my hon. Friend.

Information on complaints and compensation are published on the Royal Mail website: http://www.royalmail.group.com/

Security-sensitive Exports

Peter Law: To ask the Secretary of State for Trade and Industry what assessment he has made of the implications for the effectiveness of oversight of security-sensitive exports of the change in the number of posts in his Department's Export Control Office. [23549]

Ian Pearson: The reduction in the headcount of the Export Control Organisation has not so far materially affected its effectiveness or efficiency, as measured by the accuracy and timeliness of its licensing decisions. However I shall be monitoring the situation carefully to ensure consistent levels of service.

Small Businesses

Geraldine Smith: To ask the Secretary of State for Trade and Industry what steps he is taking to help small businesses to expand. [24561]

Alun Michael *[holding answer 3 November 2005]:* The Government places high priority on helping small business to grow and is pleased that SME productivity growth has exceeded "all firms" productivity growth over the 4-year period 1999–2003 (the most recent period for which statistics have been published.

The Government provides a range of support to encourage small businesses to expand and grow, including help with access to finance, measures to improve skills, promoting innovation and help for businesses to export. The way for any small business to gain access to this support is to contact the local Business Link, while the website www.businesslink.gov.uk provides authoritative information from over 40 Government Departments and agencies. We are also active in reducing the regulatory burden on business, freeing more entrepreneurs' time to focus on growth.

Geraldine Smith: To ask the Secretary of State for Trade and Industry what grants are available for research and development undertaken by small and medium-sized enterprises. [24555]

Alun Michael: The starting point for any business in England is to contact the local Business Link, which exists to provide advice and help in identifying the help available to meet that business's specific needs. In doing so, the Business Link will draw on assistance funded by Government and by others including local government and by commercial and other providers. The assistance provided by Government is as follows:

Each year the DTI invests over £400 million assisting businesses through grants, loans and subsidised consultancy. DTI provides the following help to small and medium-sized businesses to undertake research and development:

"Grant for Research and Development" provides grants to help individuals and small and medium-sized businesses research and develop technologically innovative products and processes.

"Collaborative Research and Development" provides grants to businesses of all sizes to carry out projects in strategically important areas of science, engineering and technology.

Collaborative Research and Development can also be used to fund collaboration with international partners through EUREKA.

Full details of DTI's support for business can be found on the DTI website at www.dti.gov.uk/bss.

Businesses can find details of further sources of help with starting and growing a business through the Grants and Support Directory on www.businesslink.gov.uk/support but will be given a personal service of advice and help by their local Business Link.

UK Trade and Investment

Norman Baker: To ask the Secretary of State for Trade and Industry what the annual budget for UK Trade and Investment and its predecessor body was in each year from 1997; and what the staff complement was in each year. [20550]

Ian Pearson: UK Trade and Investment (formerly British Trade International) was established in 1999. According to its annual report and accounts the annual spend in support of the organisation's objectives for the period 2000–01 (the first year that information is available) until 2004–05 and the staff complement for each of those years is as follows.

£ million

	Total net resources	*Staff numbers*[1]
2000–01	277	2,224
2001–02	257	2,217
2002–03	279	2,303
2003–04	289	2,305
2004–05	291	2,312

[1] Whole time equivalents.

Note:
For 2004–05 the figures are indicative.

Source:
Except for 2004–05, UK Trade and Investment (Formerly British Trade International) published Resource Accounts.

UK/Uganda Trade

Mark Simmonds: To ask the Secretary of State for Trade and Industry what the volume of trade was between the United Kingdom and Uganda in each year since 2001, broken down by product. [24437]

Ian Pearson: The information is as follows:

£000

	UK Exports	*UK Imports*
2001	34,814	8,542
2002	33,666	10,672
2003	36,765	9,448
2004	36,397	13,174

Product breakdown is as follows:

UK trade in goods with Uganda

£000

Universal Banking Service

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of the universal banking service on financial inclusion of the residents of small rural communities; and if he will make a statement. [22200]

Mr. Plaskitt: I have been asked to reply.

The move to Direct Payment and the introduction of universal banking services, which have brought banking services into many rural and urban deprived areas for the first time, have resulted in a number of benefits for individuals and the communities in which they live. Many people who were previously financially excluded in these areas now have more choice and improved local access to banking services.

The banking industry have worked with Government to make basic bank accounts, which were specifically designed to address the needs of the financially excluded, more accessible. Since the start of universal banking in April 2003, a net total of around 1.4 million basic bank accounts have been opened—and the majority of these have the facility to withdraw cash at post office counters as well as through bank branches and ATMs. Some 20 million people are able to access their current accounts through post office branches.

In April 2003, only 43 per cent. of DWP customers were paid directly into an account—following the move to Direct Payment and the introduction of universal banking services that figure has now increased to over 97 per cent.

Wholesale Gas Prices

John Hemming: To ask the Secretary of State for Trade and Industry what estimate he has made of the likely variability of wholesale gas prices during winter 2005–06. [24058]

Malcolm Wicks: Variability, or volatility, is a normal part of the working of a well-functioning commodity market. Current UK wholesale spot gas prices are determined by the price of oil and the day-to-day balance between demand and supply in the UK gas market.

When the market is tight small changes in demand and supply will have a bigger impact on price volatility than if the market were over-supplied. The balance of demand and supply, and thus the volatility of prices, will depend on many external factors, including the weather and the availability of storage facilities or import infrastructure on a day-to-day basis. In view of the unpredictability of many of these factors it is not possible to make accurate estimates of future price volatility.

John Hemming: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of the practice of straddling, whereby a domestic retail supplier sells gas at a fixed price and buys gas at a variable wholesale price. [24059]

Malcolm Wicks: The Government have not undertaken an assessment of this practice.

Pricing decisions in the retails gas market are a commercial matter for suppliers.

Wind Energy

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what capital grants have been allocated to *(a)* onshore and *(b)* offshore wind projects in each of the last five years. [23013]

Malcolm Wicks: The following table gives a breakdown of capital grants that have been allocated to offshore wind projects in each of the last five years. The information is based on the contract offer letter issued by the DTI.

Project		*Capital grant (£ million)*
North Hoyle	2003	10
Scroby Sands	2003	10
Kentish Flats	2003	10
Robin Rigg (OERL)	2003	9
Robin Rigg (SOL)	2003	9
Lynn	2003	10
Rhyl Flats	2003	10
Burbo	2003	10
Barrow Offshore	2004	10
Inner Dowsing	2004	10
Gunfleet Sands	2005	9
Norfolk Offshore	2005	10
Total	—	117

The Big Lottery funded the capital grant for Burbo. No capital grants have been allocated to onshore wind projects.

Wind Turbines

Mr. Keetch: To ask the Secretary of State for Trade and Industry what assessment has been made of the merits of the construction of wind turbines on electricity pylons. [25722]

Malcolm Wicks: No consideration has been given by the Department to the construction of wind turbines on electricity pylons. This would be a question for transmission operators/National Grid and project developers to consider.

World Trade Organisation

Greg Mulholland: To ask the Secretary of State for Trade and Industry if he will take steps to ensure full account is taken of the interests of developing countries during the World Trade Organisation negotiations on agriculture. [24440]

Ian Pearson *[holding answer 3 November 2005]:* Yes. The Government continues to work for an ambitious, pro-development outcome to the World Trade Organisation negotiations, including on agriculture.

Andrew George: To ask the Secretary of State for Trade and Industry what discussions he has had with the European Commissioner for External Trade regarding *(a)* the forthcoming World Trade Organisation meeting in Hong Kong in December and *(b)* economic partnership agreements with developing nations. [24234]

Ian Pearson: My right hon. Friend, the Secretary of State and I have discussed progress in both the World Trade Organisation negotiations and the economic partnership agreements with Trade Commissioner Peter

Mandelson on a regular basis and will continue work with him to secure an ambitious, pro-development outcome to these negotiations.

Mr. Oaten: To ask the Secretary of State for Trade and Industry if he will make a statement on the outcome of discussions held on 19 and 20 October with World Trade ministers on the preparations for the World Trade summit in Hong Kong on 13 December. [25174]

Ian Pearson: Pascal Lamy, Director General of the World Trade Organisation (WTO) gave a report to the General Council Meeting of 19 and 20 October on the progress in Doha Development Agenda (DDA) negotiations. He stated that positions were still far apart on agriculture, and identified an urgent need for progress on NAMA, services and rules. He said that he hoped to circulate draft texts for the Hong Kong ministerial by mid-November.

Mr. Oaten: To ask the Secretary of State for Trade and Industry if he will support at the World Trade summit measures to allow developing countries the right to set their own level of tariff reductions in accordance with their own development needs. [25175]

Ian Pearson: Yes. The Government believe that it is for developing countries to make their own decisions on the timing, pace, sequencing and product coverage of any market opening in line with their own national development plans and poverty reduction strategies.

HOME DEPARTMENT

Prisoners

13. **Philip Davies:** To ask the Secretary of State for the Home Department how many crimes have been committed by people who have been released from prison before the end of their sentence in each of the last eight years. [24802]

Mr. Charles Clarke: In the year ending 31 March 2005, 3,794 prisoners were released on parole licence and 265 prisoners were charged with a further offence.

In the same period, 18,799 prisoners were placed on the home detention curfew scheme and 965 prisoners were charged with a further offence.

I have placed information relating to the period 1997–98 to 2003–04 in the Library.

Mr. Goodwill: To ask the Secretary of State for the Home Department What projections he has made of the prison population in the next 12 months; and what steps he is taking to ensure projected numbers are accommodated. [24804]

Fiona Mactaggart: The most recent published update to the prison population projections was in July 2005. It indicated a range of estimates for 10 scenarios up to 2011.

Current population levels are higher than the projected estimates. The situation is being closely monitored. We are managing the population by increasing the operational capacity of the prison estate by bringing accommodation back into use more quickly from refurbishment and through additional places built at existing prisons.

Terrorism Bill

14. **Dr. Kumar:** To ask the Secretary of State for the Home Department what discussions he has had with ethnic minorities on the Terrorism Bill. [24803]

Paul Goggins: Following the events of the 7 July and 21 July, Home Office Ministers and officials have been involved in ongoing discussions with a range of communities, and in particular with the Muslim communities through the Preventing Extremism Together workgroups. Draft clauses of the Terrorism Bill were made public on 15 September and further revised clauses were made available on 6 October so that everyone with an interest had an opportunity to comment.

Domestic Violence

16. **Mr. Chaytor:** To ask the Secretary of State for the Home Department what steps he is taking to ensure that measures in place to protect children and mothers from domestic violence and abuse are effective. [24805]

Fiona Mactaggart: The National Plan for Domestic Violence includes a set of measures to ensure that domestic violence victims and their children are identified, protected and supported. These include, screening within health and social care settings and training for professionals within these sectors and the criminal justice system. The additional measures in the CJS ensure more effective case management of perpetrators giving greater protection for victims.

These measures are also being managed on a quarterly basis by the Inter-Ministerial Group on Domestic Violence.

Illegal Workers

18. **Jim Sheridan:** To ask the Secretary of State for the Home Department what steps the Government are taking to prevent people who are in the country illegally from working. [24807]

Andy Burnham: The Government are firmly committed to tackling illegal migrant working. We have taken steps to strengthen the relevant legislation by reforming section 8 of the Asylum and Immigration Act 1996 and by supporting my friend's initiative on gangmaster licensing. We are introducing new measures for a civil penalty regime and a tougher criminal offence for employers in the Immigration, Asylum and Nationality Bill, currently before the House. Our strategy also involves increasing enforcement, encouraging compliance by business, and developing joint working between agencies responsible for enforcing workplace regulations. We have also increased removals of those in breach of immigration laws.

Violent Crime

19. **Mr. Pelling:** To ask the Secretary of State for the Home Department What measures he is taking to tackle Violent Crime. [24808]

Hazel Blears: The Government are currently taking forward a very full range of work which will continue to reduce violent crime. We are introducing new measures which will give police and local communities the powers they need to tackle guns, knives and alcohol-related violence in the Violent Crime Reduction Bill which is currently before Parliament.

Identity Cards

20. **Mr. David Anderson:** To ask the Secretary of State for the Home Department if he will make a statement on the cost of identity cards. [24809]

Andy Burnham: Our current best estimate of the average unit cost of the combined passport and ID card package is £93; around 70 per cent. of these costs would be incurred anyway because of the worldwide move to biometric passports. Within our current financial estimates for the scheme it will be affordable to set a charge of £30 at current prices for a standalone ID card valid for 10 years.

Young Soldiers (Deaths)

21. **Meg Hillier:** To ask the Secretary of State for the Home Department if he will make a statement on the progress of the police inquiry into the deaths of young soldiers at Deepcut. [24810]

Hazel Blears: Devon and Cornwall police have completed their review of Surrey police's investigation into the deaths of the soldiers at Deepcut barracks.

This was submitted to Surrey police on 31 August 2005.

Traffic Offences

22. **Dr. Pugh:** To ask the Secretary of State for the Home Department if he will bring forward proposals to make it an offence for occupants of cars to refuse to identify the driver after a serious offence has been committed; and if he will make a statement. [24811]

Fiona Mactaggart: It is already an offence to refuse to identify the driver of a vehicle when required to do so by the police. Section 172(2)(a) Road Traffic Act 1988 requires the keeper of a vehicle to give information required by the police about the identity of the driver of his vehicle where the driver is alleged to be guilty of any of a number of offences in road traffic legislation. Section 172(2)(b) requires any other person to give information which is in his power to give and may lead to identification of the driver. Section 172(3) RTA 1988 provides that it is an offence to fail to provide this information.

Asylum Seekers

24. **Jeremy Corbyn:** To ask the Secretary of State for the Home Department how many asylum seekers are being held in detention. [24813]

Andy Burnham: As at 25 June 2005, the most recent date for which published figures are available, there were a total of 2,155 individuals detained. Of these, 1,689 were recorded as having sought asylum at some stage.

Andrew Rosindell: To ask the Secretary of State for the Home Department what the budget for immigration centres designed to hold asylum seekers has been since 2001. [19385]

Mr. McNulty: The Immigration and Nationality Directorate (IND) budget on running immigration removal centres for each of the years from 2001–02 is supplied in the table.

	£000
2001–02	61,941
2002–03	36,940
2003–04	50,439
2004–05	79,551
2005–06	81,908

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many asylum seekers have been returned to the Democratic Republic of the Congo in the last five years; and how many failed asylum seekers are awaiting return. [22412]

Mr. McNulty: Information on the destination that failed asylum seekers are returned to is only available since January 2004. The number of asylum seekers returned to the Democratic Republic of the Congo between January 2004 and June 2005 is given in the table.

Information on nationals of the Democratic Republic of the Congo who are removed from the UK as failed asylum seekers are published on the Home Office website: http://www.homeoffice.gov.uk/rds/immigration1.html

Information on the number of asylum seekers awaiting removal could be ascertained by examination of individual case files only at a disproportionate cost.

Removals, voluntary departures[1], assisted returns of asylum applicants to the Democratic Republic of the Congo, 2004 to Q2 2005[2,3]

	Principal applicants removed
2004	[3]15
2005[4]	[3]15

[1] Includes enforced removals, persons departing 'voluntarily' following enforcement action initiated against them, and persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration.
[2] Figures rounded to the nearest 5.
[3] Provisional figures.
[4] January to June.

Andrew Rosindell: To ask the Secretary of State for the Home Department what resources are made available to asylum seekers when they arrive in the UK; and what the cost was of the provision of such resources in the last year for which figures are available. [22951]

Mr. McNulty: The National Asylum Support Service (NASS) contracts with both the voluntary sector and/or local authorities to provide services for asylum seekers on arrival in the UK. A network of initial accommodation sites provide a variety of services, including advice on the claim process, the claimant's rights and responsibilities while the claim is under consideration and the provision of health assessments (including TB screening). The cost

of initial accommodation bed spaces during 2004–05 was £52.6 million. A further £11.7 million was spent on associated services.

Adam Afriyie: To ask the Secretary of State for the Home Department what steps the Government are taking to remove failed asylum seekers. [23095]

Mr. McNulty: Between 1994 and 2004, the number of failed asylum seekers (principle applicants) removed from the UK has more than trebled.

The Government have introduced a number of measures to ensure that we return those failed asylum seekers who have no basis of stay in the United Kingdom, and who fail to leave voluntarily. These include increased staffing; more intelligence led operations; increasing the use of charter flights; expanding the detention estate; enhancing contact management by introducing measures such as electronic tagging and promoting and increasing the number of voluntary returns and seeking greater co-operation from overseas counterparts to speed up documentation and open up more return routes.

Alcohol-related Crime

Adam Afriyie: To ask the Secretary of State for the Home Department what steps the Government are taking to deal with alcohol-related crime. [23123]

Paul Goggins: The Violent Crime Reduction Bill contains new measures for the police and local communities to tackle alcohol-related violence. The new measures will target both the individual and the collective responsibility of the alcohol industry through Alcohol Disorder Zones, Drinking Banning Orders, 48-hour directions to leave and powers to close premises for up to 48 hours where alcohol is persistently sold to under-18s. The Bill will build on the Licensing Act 2003, which comes into force on 24 November and expands police powers to tackle badly run premises—through more effective reviews and revocation of licences where appropriate—as well as increasing many of the penalties and fines for alcohol-related offences.

We are also taking forward a comprehensive Alcohol Harm Reduction Programme which will tackle a range of alcohol harms, including crime, and is being implemented across Government. Recent activities in the programme have included a series of Alcohol Misuse Enforcement Campaigns in which the police have clamped down on binge and under-age drinking. And we have been working closely with the alcohol industry to develop a Principles and Standards document which will help retailers and producers to prevent sales to under-age children and drunks, put an end to irresponsible drinks promotions and put in place end of evening dispersal policies to help drinkers get home safely and quickly.

Antisocial Behaviour

Mr. Hepburn: To ask the Secretary of State for the Home Department how many cases of antisocial behaviour have been reported to police in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [24285]

Hazel Blears: There is currently no data on the number of incidents of antisocial behaviour (ASB) due to the subjective nature of ASB itself. The latest data collected on ASB relates to the public perception of ASB in England and Wales and is measured by the British Crime Survey.

Mr. Hollobone: To ask the Secretary of State for the Home Department pursuant to the answer of 17 October 2005, *Official Report*, column 343W, on antisocial behaviour orders, how many of the 793 individuals who breached their ASBO between 1 June 2000 and 31 December 2003, consequentially received a custodial sentence. [24076]

Hazel Blears: I refer the hon. Member to my previous answer of 17 October 2005, *Official Report*, column 343W.

Of the 793 individuals who breached their antisocial behaviour order on one or more occasions between 1 June 2000 and 31 December 2003, 437 received a custodial sentence.

Anti-trafficking Operation (West Midlands)

Dr. Evan Harris: To ask the Secretary of State for the Home Department whether the four non-EU national women rescued in the anti-trafficking operation by West Midlands police on 29 September will be granted temporary admission to the UK. [22543]

Mr. McNulty: Of the six non-EEA national women who were brought to the attention of the Immigration Service by the West Midlands Police, four stated that they had not been trafficked. The two women who claim to have been trafficked have been released into the care of a Home Office funded support group.

Avian Influenza (Prisons)

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) what contingency plans have been put in place by his Department to safeguard the containment of prisoners in the event of an avian influenza epidemic; and if he will make a statement; [19220]

(2) what discussions he has had with the Ministry of Defence concerning the safeguarding of prisons in the eventuality of an avian influenza outbreak. [19221]

Fiona Mactaggart *[holding answer 17 October 2005]:* The Prison Service is taking advice from the Department of Health, as are all Government Departments, as to the potential effects of an influenza pandemic upon its workforce and the prisoners in its care.

A working group, which includes representatives from external agencies in addition to its own operational and policy personnel, has been formed to draft guidance to assist prison governors prepare local business continuity plans. These plans will be linked to those of local primary care trusts, emergency services and emergency planning authorities. They will continue to reflect security and the safety of the public as a key responsibility.

Bonded Labour

Mr. Hayes: To ask the Secretary of State for the Home Department what estimate he has made of the number of bonded labourers in the United Kingdom held by people smugglers. [22838]

Mr. McNulty: No estimate has been made of the number of bonded labourers in the United Kingdom held by people smugglers.

Border Security

Andrew Rosindell: To ask the Secretary of State for the Home Department what the cost of securing the UK's borders has been since 1997. [22952]

Mr. McNulty: The budget allocated to the Immigration and Nationality Directorate for Border Control for 2005–06 is £178 million.

It is not possible to obtain the previous amounts of funding allocated as this information is not held centrally and can be obtained only at disproportionate cost.

Common EU Border Police Force

Andrew Rosindell: To ask the Secretary of State for the Home Department if he will make a statement on his policy on the creation of a common EU border police force. [23094]

Andy Burnham: Like the majority of EU member states, the UK Government remains unconvinced of the need for a standing EU border force. There are many practical actions and concrete measures that can be taken forward with EU partners without the need to go as far as creating a European border police.

For example we are committed to working together on targeted EU joint operations aimed at strengthening the EU's external borders and to this end we fully support the aims and objectives of the recently-established EU Border Agency (Frontex).

The EU's Hague Programme refers to a feasibility study into a "European system of Border Guards" but makes no commitment to establishing one. The feasibility study will take place in 2007, as part of the review of the Border Agency.

Community Support Officers

Mr. Hepburn: To ask the Secretary of State for the Home Department how many community support officers there have been in *(a)* the South Tyneside area command and *(b)* Northumbria in each year since their inception. [24288]

Hazel Blears: Information on the number of community support officers (CSOs) in basic command units (BCUs) has only been collected since June 2005. At 30 June 2005 there were 13 CSOs in the South Tyneside BCD. CSOs were introduced nationally during 2002–03. Northumbria police did not have any CSOs as of 31 March 2003, but had 51 at the end of March 2004, and 129 at the end of June 2005.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter of 22 September 2005 from the right hon. Member for Manchester Gorton with regard to Mr. Abdul Khaleq. [24415]

Mr. Charles Clarke: I wrote to my right hon. Friend on 3 November 2005.

Criminal Injuries Compensation

Dr. Cable: To ask the Secretary of State for the Home Department what percentage of victims and qualifying applicants eligible for compensation under the Criminal Injuries Compensation Act 1995 made an application under the scheme in each of the last five years for which records are available. [21547]

Fiona Mactaggart: It is not possible to estimate what proportion of victims of violent crime might have sustained an injury sufficiently serious to qualify for an award of compensation under the Criminal Injuries Compensation Scheme and who might also have satisfied the other qualifying criteria set out in the scheme.

Dr. Cable: To ask the Secretary of State for the Home Department at what stage of the legal process victims and qualifying applicants are informed about the possibility of applying for compensation under the Criminal Injuries Compensation Scheme. [21548]

Fiona Mactaggart: The police provide victims of reported crime with the leaflet "Victims of Crime—the help and advice that's available". This has a section on compensation which includes information about the Criminal Injuries Compensation Scheme, including the CICA website address and other contact details.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for the Home Department which individual is responsible for developing and implementing his Department's Skills Development Plan. [23842]

Mr. Charles Clarke: I refer the hon. Member to the answer given by my hon. Friend the Secretary of State for Work and Pensions (Mr. John Hutton) on 2 November 2005, *Official Report*, column 1074W.

Drinking Ban

David Wright: To ask the Secretary of State for the Home Department in how many locations a ban on drinking in public places has been imposed; and how many local authorities have bans in place. [23563]

Paul Goggins: 299 separate localities in 56 local authorities have been designated under section 13(2) of the Criminal Justice and Police Act 2001 as public places where the consumption of alcohol is banned under section 12 of the aforementioned Act. This information is available and updated regularly at www.crimereduction.gov.uk.

Drug Rehabilitation

Dr. Kumar: To ask the Secretary of State for the Home Department what proportion of prison facility funding was spent on drug rehabilitation schemes in the last period for which figures are available. [18696]

Fiona Mactaggart: Out of a total £1,865 million allocated to run prisons during 2005–06, £61 million of additional funding has been provided to deliver drug treatment. This equates to 3.2 per cent. of the total allocation. The baseline figure for drug treatment expenditure is not available centrally.

Drug Smugglers

Andrew Rosindell: To ask the Secretary of State for the Home Department what punishments are available for drug smugglers who are caught by Her Majesty's Revenue and Customs. [22955]

Paul Goggins: The maximum penalty for the importation or exportation of class A drugs is life imprisonment; for class B substances it is 14 years. A court may alternatively or additionally impose a fine of any amount. Community penalties are also available.

Where an offender is convicted for the third time of an offence of importation, exportation, production, supply or possession with intent to supply class A drugs the court must impose a sentence of at least seven years save in exceptional circumstances.

Martin Horwood: To ask the Secretary of State for the Home Department how much, in *(a)* metric weight and *(b)* street value, of the (i) heroin and (ii) meta-amphetamine supply in the UK he estimates originated in Burma in 2004–05. [23646]

Paul Goggins: Drugs seizures from April to December 2004 show no evidence that any of the heroin and methamphetamine in the UK originated in Burma.

EU Committees

Angus Robertson: To ask the Secretary of State for the Home Department how many meetings of the *(a)* EU Committee on the introduction of a uniform format for visas, *(b)* EU Committee for the implementation of the community action programme on preventive measures to fight violence against children, young persons and women (Daphne) and *(c)* EU committee for the european refugee fund are planned for the UK presidency of the EU; who will be presiding over each meeting; which other UK representatives will be present; what provision is in place for representation of the devolved Governments; and if he will make a statement. [16462]

Andy Burnham: With respect to the number of working parties and their representatives;

(a) The visa working party takes forward measures on a range of matters connected with the EU common visa policy, including the uniform format visa. There are currently six meetings of this working group planned during the UK presidency. The chair of the group during the UK presidency is an official from the UK Permanent Representation to the European Union (UKREP). Other UK representatives at the meeting will vary depending on the items on the agenda but normally consist of officials from the Immigration and Nationality Directorate and UKvisas.

(b) The EU Committee for the implementation of the Community action programme on preventive measures to fight violence against children, young persons and women (Daphne II Programme 2004- 08) met on 8 September and there are no further meetings of the committee scheduled to take place within the UK presidency of the EU. The committee meetings are chaired by officials from the European Commission and the UK is represented on the Committee by a Home Office official (for domestic violence and violence against women), an official from the Department of Health (for child protection issues).

(c) The ERF committee met on 6 October 2005, no further meetings are planned during the UK presidency. The committee meeting was chaired by an official from the European Commission and the UK was represented by officials from the immigration and nationality directorate.

The UK Government take into account the views and interests of the devolved administrations when formulating the UK's policy position on all EU and international issues which touch upon devolved matters. Provision for attendance at EU meetings by Ministers and officials of the devolved administrations is set out in paragraphs 4.12–15 of the Concordat on Co-ordination of European Union Policy Issues (part of the Memorandum of Understanding between devolved Ministers and the UK Government). Ministers from the devolved administrations have attended and do attend Councils, by agreement with the lead Whitehall Minister.

A copy is available on the internet at: http://www.dca.gov.uk/constitution/devolution/pubs/odpm_dev_600629.pdf

Europe Goes Alternative Conference

Dr. Iddon: To ask the Secretary of State for the Home Department if a Minister from his Department will attend the Europe Goes Alternative Conference in Brussels on 7 November. [21389]

Andy Burnham: Due to prior Home Office Parliamentary commitments, a Home Office Minister will not be attending the Europe Goes Alternative Conference in Brussels on 7 November. However we hope that the Home Office Chief Scientific Advisor, Professor Paul Wiles, will be speaking at the meeting. Other Home Office Officials with responsibilities under the Animals (Scientific Procedures) Act 1986 and EU Directive 86/609/EEC will be attending.

Historical Sex Abuse Cases

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many strategic management groups have been established in historical sex abuse investigations; and how many were chaired by *(a)* the police and *(b)* social services. [20175]

Paul Goggins: Information on the number of strategic management groups, and who chairs them, is not collected centrally.

Infant Life Preservation Act

Mr. Amess: To ask the Secretary of State for the Home Department (1) if he will make a statement on the operation of the Infant Life Preservation Act 1929; [20095]

(2) if he will make a statement about the operation of the Infant Life Preservation Act 1929. [20629]

Fiona Mactaggart: The Infant Life (Preservation) Act 1929 makes it an offence, in England and Wales, to cause the death of an unborn child by any wilful act done with intent to destroy the child's life, if the child was capable of being born alive, unless such an act was done in good faith to preserve the life of the mother. The Act presumes a fetus to be viable at 28 weeks. A conviction under the Act carries a maximum penalty of life imprisonment.

Under section 5(1) of the Abortion Act 1967, any medical practitioner who acts in accordance with the Abortion Act will not commit an offence under the 1929 Act.

There have been two cases under the Infant Life (Preservation) Act in the last five years.

Kagho Sebata

Mr. Chope: To ask the Secretary of State for the Home Department when he will accede to the request by Kagho Sebata (Home Office reference number S1038309) for the return of his passport; and if he will make a statement. [22858]

Mr. McNulty: The immigration service responded to Mr. Sebata on 28 October 2005. In that letter he was asked to provide flight details to the immigration office in Poole who will then make arrangements for his passport to be available for him to travel.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for the Home Department how much his Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head in each year since 2002. [23432]

Mr. Charles Clarke: The Department does not collect information centrally on the amount spent on literacy and numeracy development. The Department seeks to embed literacy and numeracy development into a range of training courses offered to staff as well as working in partnership with external providers to offer literacy and numeracy development leading to national qualification which have so far not incurred significant additional cost to the Department. Provision of a breakdown of training costs for literacy and numeracy provision would incur a disproportionate cost.

Marcus Downie

Mrs. Gillan: To ask the Secretary of State for the Home Department what steps his Department plans to take to change the practices and procedures for monitoring the taking of medication by prisoners suffering from mental illness following the verdict from the inquest on the death of Marcus Downie. [19193]

Fiona Mactaggart: We will be studying any findings arising from the inquest very carefully and will then consider any action that may be appropriate.

National Offender Management Service

John McDonnell: To ask the Secretary of State for the Home Department whether he expects that some probation areas will cease to function under the National Offender Management Service proposals. [23542]

Fiona Mactaggart *[holding answer 31 October 2005]:* Under the proposals set out in the consultation paper 'Restructuring Probation to Reduce Re-offending', probation 'trusts' will become one of a number of possible providers of probation services. Their continued existence will depend on their ability to contribute to the reduction of re-offending and thereby win business.

This is about finding the best provider for the job, whether from private, voluntary and community or public sector.

John McDonnell: To ask the Secretary of State for the Home Department whether the probation boards will be retained under the National Offender Management Service designer model. [23543]

Fiona Mactaggart *[holding answer 31 October 2005]:* As we have set out in our consultation paper 'Restructuring Probation to Reduce Re-offending', we propose that probation boards cease to exist in their present form and be reconstituted as new bodies, provisionally termed 'trusts', with whom the Secretary of State may contract for probation services.

John McDonnell: To ask the Secretary of State for the Home Department how many staff who have been transferred to the National Offender Management Service since January 2004 have subsequently transferred back. [23544]

Mr. Charles Clarke *[holding answer 31 October 2005]:* In April 2005 28 staff who had transferred to the National Offender Management Service since January 2004 were loaned back at the request of the Prison Service to work on a Prison Service project.

There have been no other large scale transfers of staff back to either the Prison Service or national probation directorate although some individual staff may have chosen to transfer back through normal vacancy advertising procedures. We do not hold central records on individual career moves.

Non-custodial Sentences

Sarah Teather: To ask the Secretary of State for the Home Department how many people convicted of crimes received a non-custodial sentence since 1997, broken down *(a)* by ethnicity and *(b)* by offences for which they were convicted. [23481]

Fiona Mactaggart: Information taken from the Home Office Court Proceedings database on the number of

people convicted for crimes who received a non-custodial sentence, by offence type, England and Wales, 1997–2003 is shown in the table.

Court statistics for 2004 will be available in late November.

The available information on the number of non-custodial sentences for indictable offences at the Crown Court, broken down by ethnicity, England and Wales for 2003 is as follows:

	Number
White	16,134
Black	1,590
Asian	1,224
Other	561
Unknown	9,569
Total	29,081

Ethnicity data for magistrates courts is not available. Data for the Crown Court prior to 2003 is also not available.

Number of offenders found guilty at all courts by offence type and sentenced to a non custodial sentence, England and Wales, 1997–2003[1]

[1] These data are based on the principal offence basis.

Offences Against the Person Act

Mr. Amess: To ask the Secretary of State for the Home Department (1) if he will make a statement on the operation of sections *(a)* 58 and *(b)* 59 of the Offences Against the Person Act 1861; [20094]

(2) if he will make a statement about the operation of sections 58 and 59 of the Offences Against the Person Act 1861. [20628]

Fiona Mactaggart: Section 58 of the Offences Against the Person Act 1861 makes it an offence to administer drugs or any noxious substance, or to use an instrument or other means with the intention of causing a miscarriage. It is also an offence for a pregnant woman to administer a noxious thing to herself or to use other means to cause herself to miscarry.

The maximum penalty is life imprisonment.

Under section 59 of the 1861 Act it is an offence to supply or procure any noxious thing or instrument knowing it is intended to be used to cause a woman to miscarry her pregnancy.

The maximum penalty is five years imprisonment.

Under section 5(2) of the Abortion Act 1967, any medical practitioner who acts in accordance with the Abortion Act will not commit an offence under the 1861 Act.

There has been one case under section 58 of the 1861 Act in the last five years.

Passports

Mr. Lidington: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will return the passport of Mr. M.J. of Wendover, Buckinghamshire, (case reference J1124857; IA/02413/2005). [22430]

Mr. McNulty *[holding answer 31 October 2005]:* Mr. M.J.'s passport was returned to him with notice of the decision to refuse his application on 21 June 2005. A letter has been sent to Mr. M.J. on 27 October requesting that he return his passport to the Immigration and Nationality Directorate (IND), following the decision of the adjudicator to allow his appeal against the refusal. Once IND receive Mr. M.J.'s passport it will be endorsed appropriately and returned to him within one week.

Jenny Willott: To ask the Secretary of State for the Home Department what proportion of requests for return of documents resulted in the issuing of a loss of passport letter by the Home Office passport unit in *(a)* 1997–98, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04, *(e)* 2004–05 and *(f)* 2005 to date; and if he will make a statement. [18972]

Andy Burnham: The immigration and nationality directorate general group processes all applications for variation of leave to remain from in-country applicants. It also considers all applications for Home Office travel documents from non-British nationals, and issues travel documents where it is appropriate to do so. Please see the table for management information.

Prior to 2001–02 information on lost passport letters issued by General Group was not collected. Information on the proportion of requests for return of documents which subsequently result in the issue of a loss of passport letter is only available from April 2005. From April to September 2005, the Home Office Passport Unit received 6,239 requests for return of documents. In the same period 378 lost passport letters were issued, a proportion of 6.06 per cent.

Period	Decisions made	Lost passport letters issued	Percentage loss against decisions
2001–02	380,000	53	0.01
2002–03	403,000	335	0.8
2003–04	504,000	469	0.8
2004–05	550,097	[1]292	[2]0.05
2005–06[3]	261,011	[4]103	[5]0.04

[1] Plus 530 Royal Mail losses.

[2] Plus 0.09 per cent. Royal Mail losses.

[3] April-September 2005

[4] Plus 275 Royal Mail losses

[5] Plus 0.10 per cent. Royal Mail losses.

Jenny Willott: To ask the Secretary of State for the Home Department how many loss of passport letters were issued by the Home Office Passport Unit in *(a)* 1997–98, *(b)* 2001–02, *(c)* 2002–03, *(d)* 2003–04, *(e)* 2004–05 and *(f)* 2005 to date; and if he will make a statement. [18973]

Andy Burnham: Immigration and nationality directorate general group processes all applications for variation of leave to remain from in-country applicants. It also considers all applications for Home Office travel documents from non-British nationals, and issues travel documentation where it is appropriate to do so.

Management information provided by General Group is in the following table. Prior to 2001–02 information on lost passport letters issued by General Group was not collected.

Table—PQ 18973

Period	*Decisions made*	*Lost passport letters issued*	*Loss against decisions (percentage)*
2001–02	380,000	53	0.01
2002–03	403,000	335	0.08
2003–04	504,000	469	0.08

Mr. Peter Robinson: To ask the Secretary of State for the Home Department how many people in Northern Ireland have a valid British passport. [21242]

Andy Burnham: The UK Passport Service does not hold this information. However between October 2004 and September 2005, 142,101 British passports were issued to persons with addresses in Northern Ireland.

Police

Mr. Dismore: To ask the Secretary of State for the Home Department if he will list the areas to which police neighbourhood teams have been allocated in each London local authority area. [24224]

Hazel Blears: The roll-out of Safer Neighbourhoods Teams is a matter for the Commissioner of the Metropolitan Police Service.

A list of areas where Safer Neighbourhoods teams are currently operating has been provided by the Metropolitan Police Service and is contained in the table.

Miss McIntosh: To ask the Secretary of State for the Home Department what long-term funding has been allocated to *(a)* rural policing, *(b)* community support officers and *(c)* neighbourhood police teams. [18666]

Hazel Blears: We have provided £165 million to police authorities from the Rural Policing Fund since 2000–01. The annual provision is £30 million. We are currently considering rolling up a number of specific grants, including the Rural Policing Fund, into a single pot for each authority, to give police authorities greater financial flexibility. There are no plans to reduce the current level of funding for each authority.

The Neighbourhood Policing Fund will provide £88 million in 2006–07 and £340 million in 2007–08. In addition, we will continue to support the costs of community support officers (CSOs) recruited in the first three rounds from 2002 onwards. The grant will assist the police service to reach our target of 24,000 CSOs by 2008 and will support police authorities in building their own Neighbourhood Policing Teams.

Mr. Willis: To ask the Secretary of State for the Home Department how many police officers there were as of 1 April 2005 in each police force in England and Wales; and what the percentage at each rank was of the total establishment. [23933]

Hazel Blears: The breakdown of Police Service strength for 31 March 2005 was published on 25 July 2005 and is available in the Library and on www.homeoffice.gov.uk/rds/pdfs05/hosb1205.pdf.

Mrs. Dorries: To ask the Secretary of State for the Home Department what steps the Government is taking to improve *(a)* community engagement and *(b)* neighbourhood policing in Bedfordshire; and if he will make a statement. [24367]

Hazel Blears: The Government is committed to every area in England and Wales benefiting from dedicated, visible, accessible and responsive neighbourhood policing teams by 2008. A key aim of these teams will be to build more effective engagement with the public.

To support this, the Home Office and the Association of Police Authorities convened the National Practitioner Panel for Community Engagement in Policing. The panel has created a Guide to Community Engagement which is a resource for all policing practitioners, and which contains both practical and strategic advice for practitioners who want to develop or improve their approach to engagement. The guide is supported by a database of case studies which showcases recent and ongoing work around the country, and encourages policing practitioners to network with, and learn from, their peers.

The Government is working closely with the police service to develop neighbourhood policing, initially within pathfinder areas in every force. In Bedfordshire, this is Luton Division.

Mr. Hollobone: To ask the Secretary of State for the Home Department if he will provide additional financial and other support to the Northamptonshire police. [24190]

Hazel Blears *[holding answer 1 November 2005]:* Northamptonshire received an excellent grant settlement this year. General grants increased by 5.5 per cent. to £67.8 million, significantly higher than the 3.75 per cent. minimum increase guaranteed to all police authorities. The force has also received around £7.5 million for specific grants for initiatives such as the crime fighting fund, which has helped maintain the record number of police officers, and for capital.

Details of the provisional police funding settlement for 2006–07, and for 2007–08 as part of the move towards three-year settlements, will be announced in late November/early December.

The police standards unit have been working with Northamptonshire police since spring 2004 on a number of projects to help improve performance and the force has been provided with just under £1 million to support this work.

Prisoner Deaths

Mr. Holloway: To ask the Secretary of State for the Home Department how many prisoners have died as a result of self-inflicted injuries in prisons operating *(a)* above certified normal accommodation (CNA) and *(b)* at or below CNA in each of the past five years. [24052]

Fiona Mactaggart: The information requested is provided in the table.

Calendar year	Number of apparent self-inflicted deaths (SIDs)	Number of apparent SIDs that took place in prisons operating over CNA[1]	Number of apparent SIDs that took place in prisons operating below CNA
2000	81	52	29
2001	[2]73	46	26
2002	95	77	18
2003	[2]94	81	12
2004	95	73	22
Total	438	329	107

[1] Though the holding prisons were, at the end of the month in which the prisoners died, operating over their respective CNAs, this does not necessarily mean that the prisoners who died were accommodated in 'crowded' conditions—for example, one of two prisoners accommodated in a cell certified for one.

[2] One death in 2001 and one death in 2003 occurred in the custody of the Prison Escort and Custody Services.

Prisons

Mr. Bellingham: To ask the Secretary of State for the Home Department what recent assessment he has made of the extent of drugs being *(a)* taken into prisons by (i) prisoners, (ii) visitors, (iii) governors, (iv) officers and (v) other staff and *(b)* thrown over prison walls; and if he will make a statement. [16372]

Fiona Mactaggart: There has been no such assessment. However, a recent internal review was carried out which looked at methods of entry of illegal drugs into prisons with a view to sharing good practice. Recommendations included giving greater priority to the use of intelligence, targeting the use of mobile phones by prisoners, increased intelligence-led searching, and a managed approach to disrupt the activities of prisoners engaged in drug trafficking.

Dr. Cable: To ask the Secretary of State for the Home Department what steps he is taking to ease overcrowding in prisons. [17921]

Fiona Mactaggart: The National Offender Management Service (NOMS) keeps under review the demand on prison places and the capacity of prisons to accommodate those prisoners sent to them by the courts. It is ensuring maximum use of all spare capacity within the prison estate, increasing useable operational capacity in prisons by building additional places as part of an ongoing funded building programme, and returning to use accommodation at existing prisons.

The Government have introduced credible, intensive community sentences, which courts can tailor to individual offenders who might have otherwise received ineffective short prison sentences. We have also alerted courts to the availability of electronic monitoring to support a curfew imposed as a condition of bail. Courts are being encouraged to use this option instead of a remand in custody in appropriate cases.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps are being taken to tackle prison overcrowding; and if he will make a statement. [19663]

Fiona Mactaggart: The National Offender Management Service (NOMS) keeps under review the demand on prison places and the capacity of prisons to accommodate those prisoners sent to them by the courts. It is ensuring maximum use of all spare capacity within the prison estate, increasing useable operational capacity in prisons by building additional places as part of an ongoing funded building programme, and returning to use accommodation at existing prisons.

The Government have introduced credible, intensive community sentences, which courts can tailor to individual offenders who might have otherwise received ineffective short prison sentences. We have also alerted courts to the availability of electronic monitoring to support a curfew imposed as a condition of bail. Courts are being encouraged to use this option instead of a remand in custody in appropriate cases.

Mr. Burstow: To ask the Secretary of State for the Home Department what assessment his Department has made of the implications of the ruling in R. *v.* Leonard Cheshire Foundation [2002] H.R.L.R.30 on the applicability of the Human Rights Act 1998 to prisons built and operated under contract by non-public authorities. [20735]

Fiona Mactaggart: There are no implications arising from the ruling in R. *v.* Leonard Cheshire Foundation [2002] H.R.L.R.30 for prisons built and operated under contract by commercial organisations.

David Davis: To ask the Secretary of State for the Home Department what the average amount of purposeful activity undertaken by a prisoner has been in each prison in England and Wales in each year since 1997. [21842]

Fiona Mactaggart: The average number of weekly purposeful activity hours for each establishment during each of the financial years since 1997–98 is shown in the table.

Average number of weekly purposeful activity hours for each establishment during each of the financial years since 1997–98

[1] Moorland and Hatfield merged in 2003–04.
[2] Highpoint and Edmunds Hill began reporting separately in 2003–04.
[3] Hollesley Bay and Warren Hill began reporting separately in 2003–04.

Mr. Evans: To ask the Secretary of State for the Home Department (1) what was the average waiting time for prisoners to be transferred from their original prison to their next prison in the last period for which figures are available; [22722]

(2) what the average waiting time for prisoners in Her Majesty's prisons to obtain a classification was in the last period for which figures are available. [22723]

Fiona Mactaggart: The information requested is not collated centrally and could be obtained only at disproportionate cost.

Private Security Firms

Mr. Amess: To ask the Secretary of State for the Home Department what guidance he gives to local authorities on the use of private security firms; and if he will make a statement. [20633]

Paul Goggins: From March 2004 the Home Office and the Security Industry Authority (SIA) have had extensive discussions with local authority licensing staff in preparation for the introduction of door supervisor licensing. The SIA continues to work in partnership with the police and local authorities to ensure that licensing requirements are met by individuals and companies throughout the private security industry.

Race for Justice Project

Lynne Featherstone: To ask the Secretary of State for the Home Department whether he plans to introduce the race for justice project commissioned by the Hampshire and the Isle of Wight Criminal Justice Board across the rest of England and Wales; and if he will make a statement. [21978]

Fiona Mactaggart: The race for justice project was commissioned in 2002 to identify the views of the minority ethnic communities about their perceptions of the agencies that work within the Criminal Justice System in Hampshire and the Isle of Wight. It was designed to engage with black and minority ethnic communities, increase awareness, address concerns and try to increase confidence in the criminal justice system. In particular, the project has worked with newcomers to the area, producing a booklet 'Welcome to Britain' which addresses some of the main issues for newcomers to the Hampshire area.

It is important that all LCJBs develop projects which reflect their local circumstances and that this is tailored to needs locally rather than seeking to simply introduce the Hampshire and Isle of Wight approach nationally.

Secure Training Centres

Ms Keeble: To ask the Secretary of State for the Home Department what qualifications are held by each of the psychologists employed in each of the secure training centres. [22860]

Fiona Mactaggart: The minimum qualifications for psychologists employed at each secure training centre are defined in the contracts with the operators. The Hassockfield contract requires a degree in psychology leading to graduate registration with the British Psychological Society. The contracts for Medway, Rainsbrook and Oakhill each require a degree in psychology or an approved behavioural science degree.

Ms Keeble: To ask the Secretary of State for the Home Department (1) how many times each of the four secure training centres has been inspected in the past six years; [22866]

(2) how often each of the secure training centres received an unannounced visit by inspectors in each of the last six years. [22867]

Fiona Mactaggart: The information requested is given in the following tables.

Unannounced inspections

	Medway	*Rainsbrook*	*Hassockfield*	*Oakhill*
2000	0	0	0	[1]—
2001	0	0	0	[1]—
2002	0	0	0	[1]—
2003	0	0	0	[1]—
2004	0	1	1	1
2005 (to date)	0	0	0	0

Announced inspections

	Medway	*Rainsbrook*	*Hassockfield*	*Oakhill*
2000	1	1	1	[1]—
2001	1	1	1	[1]—
2002	1	1	1	[1]—

2004	1	1	1	1
2005 (to date)	[3]0	1	1	1

[1] Opened August 2004
[2] CSCI deferred planned inspection to early 2004.
[3] Planned for December 2005

Sex Offenders

Anne Main: To ask the Secretary of State for the Home Department what recent changes his Department has made in procedures for checking whether sex offenders are entering the UK; and if he will make a statement. [13248]

Mr. McNulty: All people coming to the UK are required to provide evidence of their identity and nationality. This is usually done by means of a passport or identity card. In addition checks are made against the UK watch list in all cases for non-EEA citizens and on a risk assessed basis for EEA citizens.

In case of any doubts or if information held on immigration service databases indicates that someone is of interest, further inquiries including reference to the other border agencies may be made.

Tagged Offenders

Andrew Rosindell: To ask the Secretary of State for the Home Department how many tagged offenders re-offended while tagged in *(a)* Romford, *(b)* Havering and *(c)* Essex in the last period for which figures are available. [22967]

Fiona Mactaggart: The figures requested for the three areas in question are not available centrally and cannot be provided only at a disproportionate cost.

Tax Credits

Mr. Laws: To ask the Secretary of State for the Home Department what co-operation the police are providing to Her Majesty's Revenue and Customs to tackle organised fraud in relation to tax credits; and if he will make a statement. [24541]

Paul Goggins: I understand that Her Majesty's Revenue and Customs (HMRC) investigators meet regularly with the police to discuss areas of mutual interest including organised fraud in the tax credits system. There are established mechanisms between HMRC and the police for the exchange of information and intelligence in relation to specific criminal activity. Where resources permit the police have been able to assist HMRC both in the arrest of suspects and in searching premises for evidence.

Travellers

Mr. David Jones: To ask the Secretary of State for the Home Department if he will take steps to amend section 62A to E of the Criminal Justice and Public Order Act 1994 to streamline the procedure for the removal of illegally encamped Travellers. [24098]

Paul Goggins: Sections 62A to E of the Criminal Justice and Public Order 1994 were introduced by the Anti-social Behaviour Act 2003 to provide the police with an additional power to deal with unauthorised encampments. The Government keeps all existing enforcement powers under review to ensure that they are adequate and public agencies are using them effectively.

TREASURY

Corporation of London

Andrew Rosindell: To ask the Chancellor of the Exchequer what meetings he has had with representatives of the Corporation of London in the last six months. [25083]

John Healey: At the Corporation's invitation, the Chancellor delivered the 2005 Mansion House speech.

Council Tax Revaluation

Mrs. Dorries: To ask the Chancellor of the Exchequer what assessment he has made of the likely impact of the revaluation of council tax in Bedfordshire. [23805]

Mr. Woolas: I have been asked to reply.

The terms of reference for Sir Michael Lyons' independent inquiry require him to make recommendations on how best to reform council tax, taking into account revaluation of domestic property. My right hon. Friends the Deputy Prime Minister and Chancellor of the Exchequer have agreed with Sir Michael that he will extend his work so that he can consider issues relating to the functions of local government and its future role, as well as, and prior to, making recommendations on local government funding. The Government have introduced into the House the Council Tax (New Valuation List for England) Bill which provides for the postponement of council tax revaluation. This will enable revaluation to take account of the Lyons Inquiry's extended work which will inform the Comprehensive Spending Review 2007.

Employment Statistics

Shona McIsaac: To ask the Chancellor of the Exchequer how many people were *(a)* employed and *(b)* unemployed in each electoral ward in Cleethorpes constituency in each of the past 10 years. [24754]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Shona McIsaac, dated 7 November 2005:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment. I am replying in her absence. (24754)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey following International Labour Organisation definitions. Estimates of unemployment are not available for wards as the survey sample size for such areas is too small.

However, ONS also compiles statistics for local areas of people claiming jobseeker's allowance. The attached table shows annual averages for 1996 to 2004 for wards within the Cleethorpes constituency.

These statistics are published on the Office for National Statistics's Nomis(r) website: www.nomisweb.co.uk.

Table 1: Jobseeker's allowance claimants resident in electoral wards of the Cleethorpes parliamentary constituency

Annual averages

Jobcentre Plus administrative systems

Grant-in-Aid

Mr. Don Foster: To ask the Chancellor of the Exchequer how much grant-in-aid the Department for Culture, Media and Sport and its predecessors spent as a percentage of gross domestic product in each year since 1993; and if he will make a statement. [24115]

Mr. Lammy: I have been asked to reply.

I am unable to provide the exact data sought: accruals based expenditure data has only been available since 1999–2000. The following table sets out the Department's expenditure in each financial year since then as a percentage of GDP.

	DCMS Expenditure (£ millions)	*Percentage of GDP*
1999–2000	1,098	0.12
2000–01	1,135	0.12
2001–02	1,112	0.11
2002–03	1,305	0.12
2003–04	1,434	0.13
2004–05	1,502	0.13

Hemel Hempstead

Mike Penning: To ask the Chancellor of the Exchequer what the level of youth unemployment has been in Hemel Hempstead constituency in each of the last five years. [25821]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Michael Penning, dated 7 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about youth unemployment. I am replying in her absence. (25821)

Table 1, attached, shows the total numbers of unemployed young people aged 16 to 24 who were resident in the Hemel Hempstead Parliamentary Constituency. The table covers the 12 month periods ending in February each year from 2001 to 2004 and the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to sampling variability. Changes in the estimates from year to year should be treated with particular caution.

The Office for National Statistics also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, shows the annual average number of JSA claimants, aged 18 to 24, resident in the Hemel Hempstead constituency for 2000 to 2004.

The data are published on the Office for National Statistics's Nomis website: www.nomisweb.co.uk.

Table 1: Numbers of unemployed, aged 16 to 24, resident in the Hemel Hempstead constituency

	Thousand
12 months ending	*Number*
February 2001	[1]
February 2002	[1]
February 2003	1
February 2004	1
March 2005	1

[1] Disclosive (sample size less than three).

Note:
The estimates for local areas are based on very small sample sizes and are subject to a very high degree of sampling variability. Changes from year to year, especially, should be treated with caution.

Revenue and Customs

Tim Farron: To ask the Chancellor of the Exchequer what plans he has for the future provision of HM Revenue and Customs customer service offices in Cumbria. [25193]

Dawn Primarolo: HM Revenue and Customs is preparing business plans to meet its efficiency savings for 2005–08. HMRC have more than 600 offices and there is a constant backdrop of change arising from leases ending and other circumstances beyond their or their estate suppliers control, such as compulsory purchase.

Although there will be changes to some HMRC offices the Department will continue to recognise its Public Service Agreement objectives to improve customer experience, support business and reduce the compliance burden and will continue to provide a face-to-face service to customers for whom it is the most appropriate form of contact.

Illegal Fuel (Northern Ireland)

Mr. Peter Robinson: To ask the Chancellor of the Exchequer how much money HM Revenue and Customs received through fines and enforcement orders directly related to the illegal use of fuel in motor vehicles in Northern Ireland in 2004–05. [24146]

John Healey: HM Revenue and Customs does not receive any revenue in connection to fines issued by a court. In 2004–05 there were two fines imposed by the court directly related to the illegal use of fuel totalling £5,000.

In addition HM Revenue and Customs collected on behalf of the Exchequer a total of £354,893 in respect of civil penalties in relation to vehicles seized.

Irish People

Chris Ruane: To ask the Chancellor of the Exchequer how many people in each ward, of each county, described themselves as Irish in the 2001 census. [25600]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Chris Ruane, dated 7 November 2005:

The National Statistician has been asked to reply to your recent question asking the Chancellor of the Exchequer how many people in each *(a)* county and *(b)* ward, broken down by county described themselves as Irish in the 2001 Census. I am replying in her absence. (25600)

The number of people who described their ethnicity to be Irish, broken down by both ward and county, is available in table KS06 on the CD supplement to the *Key Statistics for local authorities in England and Wales*, which is available in the House of Commons Library.

Lisbon Goals

Mr. Holloway: To ask the Chancellor of the Exchequer what assessment he has made of progress towards the Lisbon goals for European economic reform. [24308]

John Healey: In "Growth and Opportunity: Prioritising Economic Reform in Europe" (HM Treasury, February 2005) the Government set out their assessment of the Lisbon strategy. While some progress has been made, concerted action is still needed to increase employment and productivity in Europe.

In particular, to meet the Lisbon target of 70 per cent. employment by 2010, 23 million more Europeans will need to find work. This necessitates a comprehensive programme of reform to improve levels of skills in the labour force and to facilitate greater adaptability to change.

In addition, US productivity levels remain substantially above those in the EU. Tackling this requires further structural reform to enhance product market competition in Europe and to create the right climate for enterprise and innovation to flourish.

A further assessment of the structural economic challenges facing Europe was set out in "Global Europe: Full Employment Europe" published by the Chancellor of the Exchequer in October 2005 available at http://www.hm-treasury.gov.uk/documents/international_issues/eu_presidency_2005/eu_presidency_2005_index.cfm

Mr. Holloway: To ask the Chancellor of the Exchequer whether he plans to use the UK's presidency of the European Union to achieve progress towards the Lisbon goals for European economic reform. [24309]

John Healey: As set out in the Work Programme of the Economic and Financial Affairs (ECOFIN) Council, a key priority for the UK presidency of the European Union is to build

"prosperous, dynamic European economies through implementation of the new Lisbon Agenda to deliver sustainable growth and high employment".

At an Informal ECOFIN Council on 10 September in Manchester, Ministers and the European Commission agreed on the need for urgent action—at the European level and nationally in the context of Lisbon National Reform Programmes—to deliver growth and full employment for Europe in a global economy, including through:

modern social and labour market policies that match flexibility with fairness and equip citizens with the skills to succeed;

further regulatory reform to reduce excessive burdens on business;

further progress on completing the Single Market, including in services; and

greater Trade openness, globally and between the EU and its major trade and investment partners.

The Government is using its presidency to promote progress in all of these areas.

Manufacturing, Science and Engineering

Keith Vaz: To ask the Chancellor of the Exchequer what estimate he has made of the impact on gross domestic product of changes to the *(a)* manufacturing, *(b)* science and *(c)* engineering sectors of the domestic economy over the next 10 years. [23648]

Alun Michael: I have been asked to reply.

The Government do not produce 10-year forecasts for sectors of the economy, but the Government do have a number of policies to assist the manufacturing, science and engineering sectors. These include the Government manufacturing strategy, which is based on applying science and innovation, world-class practice, raising investment, and a high level of skills to create high-value manufacturing and engineering sectors and drive up productivity. By 2007–08 we will have doubled the science budget, from £1.3 billion in 1997–98 to £3.3 billion, with the long-term objective of increasing overall R&D spend to 2.5 per cent. of GDP by 2014 from its current level of around 1.9 per cent.

Oil Companies (Windfall Tax)

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what assessment he has made of the merits of levying a windfall tax on UK oil companies; and if he will make a statement. [24404]

John Healey: All taxes are kept under review as part of the Budget cycle. The Government are committed to delivering a tax regime for the North sea which promotes investment and take a fair share of revenue derived from a national resource.

Oil Prices

Mr. Holloway: To ask the Chancellor of the Exchequer what assessment he has made of the effect of oil prices on *(a)* revenues to the Exchequer and *(b)* the UK economy. [24322]

John Healey: The impact of higher oil prices on the public finances and the economy is discussed in Box 2.5 in the 2004 pre-Budget report.

As the Chancellor said in his statement to the International Monetary and Financial Committee on 24 September, compared to the Budget forecast the increases in oil prices over the last few months are likely to have dampened activity in the UK economy to some extent.

But the UK's macroeconomic framework today is founded on stability—with inflation expectations well anchored—in contrast to the volatility and high inflation that has dogged the UK economy in the past. The UK is therefore better placed than before to deal with the challenges of the global economy, including those posed by higher oil prices.

The Government will publish an update of the effect of oil prices on the UK's public finances and updated forecasts for the UK and world economies in the 2005 pre-Budget report as usual, taking into account all relevant factors and developments.

Parliamentary Ombudsman

Mark Lazarowicz: To ask the Chancellor of the Exchequer if he will make available increased resources to the Parliamentary Ombudsman to allow him to appoint more investigating officers. [25636]

John Healey: A three year settlement from 2005–06 to 2007–08 was recently agreed for the Office of the Parliamentary and Health Service Ombudsman. This settlement funds the Parliamentary and Health Service Ombudsman's three year strategic plan and provides for increased resources. The precise application of those resources is a matter for the Ombudsman. The budget for 2005–06 will be included in the Winter Supplementary Estimate which will be laid before Parliament later this month.

Planning Gain Supplement

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to his answer of 21 October 2005, *Official Report*, column 1315W, on planning gain supplement, whether Kate Barker's recommendations to his Department stated whether the planning gain supplement should be *(a)* revenue-neutral, *(b)* revenue-raising, *(c)* kept in full by local councils and *(d)* transferred in whole or part to central Government. [24689]

John Healey: Kate Barker's recommendations are set out in her March 2004 Review of Housing Supply.

As set out in the March 2005 economic and fiscal strategy report, the Government will respond later this year.

Plastic Carrier Bags

Stephen Hammond: To ask the Chancellor of the Exchequer what plans the Government have to introduce a tax on plastic carrier bags. [24703]

John Healey: The Chancellor continues to keep all taxes under review. The Government have no plans to introduce a plastic bags tax.

Productivity

Chris Huhne: To ask the Chancellor of the Exchequer what the annual change in gross domestic product per hour worked was in each year since 1975; and what assessment he has made of whether productivity trends are improving. [24321]

John Healey: Official statistics for whole economy output per hour is only available from 1993. The annual change in whole economy output per hour for each year since then is:

Annual growth in whole economy output per hour

Percentage

	Annual growth
1994	3.0
1995	1.4
1996	1.7
1997	1.5
1998	2.6
1999	2.2
2000	3.8
2001	1.0
2002	1.8
2003	2.0
2004	2.5

Source:
ONS

The pre-Budget report 2005 will include an updated assessment on productivity performance in the UK. As reported in the HM Treasury Departmental Report 2005, the UK is making progress in boosting its productivity performance: between 1997 and 2001Q3, the UK trend rate of actual productivity growth on an output per worker basis (figures not adjusted for employment growth) is estimated to have grown by 2.5 per cent. a year compared with a growth rate of 2 per cent. a year in the previous economic cycle (1986Q2—1997H1). Adjusting for the effect of employment growth, it is estimated that the underlying trend rate of productivity growth was 2.7 per cent. between 1997H1—2001Q3 compared to 2.2 per cent. over the previous economic cycle (1986Q2—1997H1).

Sustainable Development Strategy

Dr. Cable: To ask the Chancellor of the Exchequer what steps his Department has taken to encourage people to live more sustainable lifestyles within the framework of the Government's sustainable development strategy. [24534]

John Healey: Sustainable development must be a thread that runs through all of the Government's policy making. In including sustainable development as a cross cutting theme in the 2004 Spending Review the Treasury has demonstrated how this can be done.

Within the context of the Government's Sustainable Development Strategy each Department agreed to a number of high-level contributions to deliver the strategy. It is within these agreed contributions that HM Treasury seeks to set signals that encourage individuals to live more sustainable lifestyles. HM Treasury's five key contributions to delivering the Sustainable Development Strategy are:

Building a strong and productive economy and a fair society where there is opportunity and security for all;

A transparent public expenditure delivery framework, based on public service agreements, that focus on delivering public services in areas integral to achieving Sustainable Development in the UK, such as reducing child poverty and reducing unemployment;

Making use of the fiscal system, where appropriate, to tackle environmental externalities through developing further environmental taxes, such as the recent increases in the standard

rate of landfill tax; creating tax incentives for cleaner technologies through enhanced capital allowances and adding an environmental dimension to transport taxation, for example through fuel duty differentials to encourage the use of cleaner fuels;

A commitment to strong local government, supporting local authorities in their delivery of key public services to all communities, for example through the introduction of the three-year revenue and capital settlements, which will improve local authorities' ability to make sustainable long-term plans; and

Continuing to meet the relevant sustainable development objectives in public procurement by having a consistent approach to value for money and whole life costs of goods and services procured, and by building relevant sustainability issues into the procurement process as early as possible.

Dr. Cable: To ask the Chancellor of the Exchequer what steps his Department has taken to implement the guidelines on *(a)* water usage, *(b)* travel arrangements and *(c)* procurement in the Sustainable Development Report and Action Plan 2005. [24553]

John Healey: A delivery action plan related to our most significant impacts is summarised in section 1.6 of the Report and Action Plan http://www.hm-treasury.gov.uk/media/F2D/19/sustainabledev.pdf. In line with that action plan, our PFI partner, Exchequer Partnership, is working with ADSM in an effort to identify measures for further reducing our water usage; we continue to encourage staff to use telephone and video conferencing as a means of reducing business mileage; and we are working with our procurement service provider, HMRC, to develop a sustainable procurement strategy which will form part of our new Sustainable Development Action Plan.

Tax Credits

Dr. Cable: To ask the Chancellor of the Exchequer what assessment he has made of the effects of *(a)* research and development tax credits, *(b)* vaccines research relief and *(c)* contaminated land tax credits; and if he will make a statement. [24556]

John Healey: I refer the hon. Member to the reply I gave to him on 14 June 2005, *Official Report*, column 341W on R&D tax credits. The results from the survey of R&D companies mentioned in that reply are expected to be published later this year on the HM Revenue and Customs website.

The impact of contaminated land tax credit (CLTC) is being examined by a research study commissioned by HM Revenue and Customs (HMRC) and the Office of the Deputy Prime Minister (ODPM) that is currently being undertaken by the university of Ulster. Once completed, the findings of this research should be made available on the Departments' websites.

Mr. Frank Field: To ask the Chancellor of the Exchequer pursuant to the Paymaster General's evidence to the Treasury sub-committee on 26 October, if he will place in the Library a copy of the new and agreed tax credit award notice to be issued from April 2006. [25228]

Dawn Primarolo: I refer my right hon. Friend to the answer I gave him on 24 October 2005, *Official Report*, column 53W.

Unemployment

Julia Goldsworthy: To ask the Chancellor of the Exchequer how many and what percentage of adults of working age were *(a)* unemployed and *(b)* economically inactive in each year since 1997, broken down by constituency. [24099]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Julia Goldsworthy, dated 7 November 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment and economic inactivity. (24099)

Table 1, attached, shows the total numbers and percentages of persons of working age who are unemployed for all constituencies in Great Britain. Note that these are not equivalent to unemployment rates. Table 2, attached, shows the total numbers and percentages of persons of working age who are economically inactive for all constituencies in Great Britain.

The tables cover the 12 month periods ending in February each year from 1998 to 2004 and the 12 month period ending in March 2005. These estimates, as with any from sample surveys, are subject to sampling variability.

The Office for National Statistics also compiles statistics for local areas of people claiming Jobseeker's Allowance (ISA). Table 3, attached, shows the annual average number of ISA claimants for all constituencies in the United Kingdom for 1997 to 2004.

Since the information is so extensive, copies have been placed in the House of Commons Library.

The data are published on the Office for National Statistics's Nomis website: www.nomisweb.co.uk.

DEFENCE

0870 Numbers

Dr. Cable: To ask the Secretary of State for Defence if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24457]

Mr. Touhig: The use of 0870 numbers in the Department is determined at local level in accordance with individual business requirements. Records of 0870 numbers and the revenue received from them is not held centrally and could be provided only at disproportionate cost.

Air Support Units

Mr. Ancram: To ask the Secretary of State for Defence pursuant to the answer of 17 October 2005, *Official Report*, column 659W, on air support units, what air support was available to British forces in northern Afghanistan during the week commencing 24 October. [24493]

John Reid: The United Kingdom Forces in northern Afghanistan serve as part of the NATO-led International Security Assistance Force (ISAF) and are based in Mazar-e-Sharif (MeS), northern Afghanistan.

A wide range of air assets were available to ISAF in support of its mission in northern Afghanistan during the week commencing 24 October including: combat and reconnaissance air capability provided by the Belgians, Dutch, French, UK and the US; transport aircraft provided by the French, Germans, Swedes and UK; and, support helicopters for casualty evacuation provided by the German army. During the period in question, the Netherlands also operated a heavy lift helicopter in support of the Afghan election process.

Armoured Vehicles

Mr. Ancram: To ask the Secretary of State for Defence what his plans are concerning extending the service life of the current fleet of armoured vehicles before the Future Rapid Effect System comes into service. [23043]

Mr. Ingram: FRES, together with the Panther Command and Liaison Vehicle, is planned to replace the Saxon, FV430 and CVR(T) vehicle families. How best to align the removal from service of these vehicle families with the introduction of FRES, while ensuring continuity of the required capability, will be informed by the work conducted during the FRES initial assessment phase.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Defence whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23722]

Mr. Touhig: Ministry of Defence officials are continuing to discuss with the Carbon Trust what might be appropriate for the Department regarding the Carbon Management Programme within the context of the current partnership agreement.

In August 2004 the MOD entered into a formal partnership agreement with the Carbon Trust. Through the agreement, the Carbon Trust is providing support to the MOD on gaining an overall understanding of climate change and assistance in improving energy efficiency and cutting carbon emissions. A programme of work under the partnership arrangement has been implemented which builds on energy surveys carried out on MOD establishments and funded by the Carbon Trust or its predecessor organisation. Individual projects range from identifying the estate wide opportunities for installing renewable energy technologies through to detailed appraisals of energy use on individual sites.

Correspondence

Mike Penning: To ask the Secretary of State for Defence what steps he is taking to improve the Department's performance in replying to correspondence from the general public. [24770]

Mr. Touhig: I refer the hon. Member to the answer I gave on 2 November 2005, *Official Report*, columns 1067–68W.

Defence Expenditure

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of the trend in real terms expenditure on defence since 1997. [24569]

Mr. Ingram: Under the spending review 2004 settlement, the Ministry of Defence budget will increase by £3.7 billion from £29.7 billion in 2004–05 to £33.4 billion in 2007–08, representing 1.4 per cent. average annual growth in real terms over the next three years. This has cemented the longest sustained increase of the defence budget in 20 years and by 2007–08, planned near-cash defence spending will be some 7.5 per cent. higher in real terms than in 1997; currently it is 4.4 per cent. in real terms above 1997 levels.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Defence which individual is responsible for developing and implementing his Department's skills development plan. [23852]

Mr. Touhig: The Department's skills development plan is developed by a number of MOD central directorates on behalf of the deputy chief of the Defence staff (personnel) and the Department's personnel director. Implementation is taken forward by central directorates, working closely with the staffs of the principal personnel officers in the single services and the MOD civil service.

Mr. Gibb: To ask the Secretary of State for Defence if he will place in the Library a copy of his Department's Skills Development Plan. [23872]

Mr. Touhig: We will place copies in the Library of the House shortly.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Defence what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23761]

Mr. Touhig: The Royal Navy and the Royal Air Force presently use bespoke numeracy and literacy assessments as part of the recruiting process. Both then utilise a nationally recognised literacy and numeracy assessment tool during initial training. The Army uses the Basic Skills Agency's paper-based literacy and numeracy tests during the recruiting process and is currently assisting the DfES to develop new literacy and numeracy initial assessment tools. It is intended to use the new DfES assessment tool, once available, in the recruiting process across all of the armed services from 1 April 2006.

Assessment of the literacy and numeracy skills of recruits to the Ministry of Defence civil service may form part of the educational qualifications required or be part of a competency-based interview.

Parliamentary Questions

Dr. Julian Lewis: To ask the Secretary of State for Defence when he intends to make substantive responses to the questions about the future aircraft carriers tabled by the hon. Member for New Forest East for answer on 27 October 2005, references *(a)* 21707, *(b)* 21706, *(c)* 21705, *(d)* 21704 and *(e)* 21703. [25044]

Mr. Ingram: I replied to the hon. Member on 2 November 2005, *Official Report*, columns 1068–69W.

Iraq

Mr. Ancram: To ask the Secretary of State for Defence how many trainers NATO member states have contributed to training the Iraqi Security Forces; and if he will make a statement. [23041]

John Reid: All 26 NATO countries have agreed to provide support to the NATO Training Mission-Iraq by providing personnel, equipment or funding to train the Iraqi Security Forces in and outside Iraq. There are 166 NATO personnel in Iraq assisting with training and equipping the Iraqi Security Forces under the auspices of the NATO Training Mission-Iraq.

Mr. Ancram: To ask the Secretary of State for Defence (1) how many units of the Iraqi Security Forces are able to conduct counter-insurgency operations without support from the multi-national forces; [23044]

(2) how many Iraqi *(a)* ground combat battalions and *(b)* military and special police forces are conducting operations against insurgency; and if he will make a statement; [23046]

(3) if he will make a statement on progress in recruiting and training of the Iraqi *(a)* army, *(b)* special operations force, *(c)* strategic infrastructure battalions, *(d)* navy, *(e)* air force, *(f)* police service, *(g)* special police forces, *(h)* special police commandos, *(i)* mechanised police, *(j)* public order police, *(k)* emergency response unit, *(l)* border forces and *(m)* highway patrol; [23119]

(4) what estimate the *(a)* Coalition and *(b)* Iraqi Government has made of the total combined force structure for the Ministry of Defence and Ministry of the Interior in Iraq; and if he will make a statement. [23126]

John Reid: As part of the Coalition force in Iraq, the United Kingdom's area of responsibility is in Multi-National Division (South East). The US has oversight of all Coalition forces in Iraq and it collates all Iraqi Security Force training figures through the Multinational Security Transition Command—Iraq.

All the requested information is available in the United States Report to Congress, "Measuring Stability and Security in Iraq". A copy of this report can be found on the internet at usinfo.state.gov

Mr. Ancram: To ask the Secretary of State for Defence which body within the Iraqi Government is responsible for recruitment and vetting of Ministry of the Interior employees; and if he will make a statement. [23045]

John Reid: Overall responsibility for recruitment and vetting of Ministry of Interior personnel rests with the Human Resource Administration Department in the Ministry of Interior. The Department comprises two sections—one responsible for dealing with enlisted personnel and the other with officers.

Mr. Ancram: To ask the Secretary of State for Defence what the number of Iraqi instructors is who have completed the Train the Trainer course organised by the NATO Training Mission in Iraq. [23050]

John Reid: The NATO Training Mission-Iraq (NTM-I) is helping to build the Iraqi Security Forces (ISF) by providing training and advisory support. To date 283 Iraqis have been trained by NTM-I which includes 24 Iraqi students who received their diploma to become staff college instructors.

Mr. Ancram: To ask the Secretary of State for Defence (1) what proportion of time British troops deployed in Multi National Division in Iraq spend in *(a)* barracks and *(b)* on patrols; and if he will make a statement; [23311]

(2) how many *(a)* routine British armed forces patrols and *(b)* joint patrols with Iraqi police forces have been undertaken in Iraq in Multinational Division South East in each month since January; and if he will make a statement. [24581]

Mr. Ingram: The frequency of patrols in Multi National Division (South East) is a matter for local operational judgment and is contingent on the circumstances UK forces find themselves in at any given time. The tasking levels for personnel in theatre are kept under constant review by commanders on the ground.

We do not hold figures on the amount of time UK forces in Iraq spend on patrol or in barracks. UK troops patrol regularly, both independently and with Iraqi forces. We do not comment on the number of patrols they carry out for reasons of force protection.

Mr. Hands: To ask the Secretary of State for Defence how many British Army vehicles are in operation in Iraq; and how many are fitted with electronic countermeasures. [24526]

Mr. Ingram: For reasons of operational security, it is not Government policy to make public details of the military capability—including specific countermeasures—deployed on operations.

Irish Regiments (Posthumous Pardons)

Andrew Mackinlay: To ask the Secretary of State for Defence pursuant to the answer to questions 24129 and 24125 when the Government received the submission of the Irish Government requesting that consideration be given to granting posthumous pardons to 26 soldiers of Irish regiments executed in the great war for cowardice or desertion; on what date discussions were held between the two Governments; and when he expects to announce the UK Government's response. [25619]

Mr. Touhig: I refer my hon. Friend to the answer given by my right hon. Friend the Minister for Europe on 2 November 2005, *Official Report*, column 1086W, and to the answer I gave on 2 November 2005, *Official Report*, columns 1070–71W. There have been both formal and informal contacts with the Irish Government on this subject since their first approach in December 2003, offering our assistance before their report was written and keeping them informed of progress on our response, which we will wish to discuss with them before any announcement is made.

Joint Combat Aircraft

Dr. Julian Lewis: To ask the Secretary of State for Defence whether he expects to have available appropriate naval operating platforms for the joint combat aircraft (JCA) by the time that the United Kingdom's allocation of the JCA is ready to enter service. [24572]

Mr. Ingram: The joint combat aircraft programme remains coherent with the future carrier programme. We intend to introduce the joint combat aircraft progressively, with the expectation that the naval platforms required to operate the aircraft will be available when the joint combat aircraft achieves its in-service date.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence how many new build units in the married quarters estate are planned by his Department in each of the next three years; and how many houses this will replace from the existing married quarters estate. [23323]

Mr. Touhig: The following new build married quarters are planned in England, Wales and Scotland between now and 2008–09:

Project

Number of new builds

Financial year	*Portsmouth 2*	*Marchwood*	*Credenhill*	*Glencorse*
2005–06	—	[1]40	—	89
2006–07	128	[2]22	45	62
2007–08	20	—	—	—
2008–09	—	—	—	—

[1] Replacing 14 demolished stock
[2] Replacing 22 demolished stock

Mr. Ancram: To ask the Secretary of State for Defence how many of his Department's married quarters are empty; what proportion of this represents his Department's management margin required for managing changes; and if he will make a statement. [23324]

Mr. Touhig: 7,905 married quarters are currently empty. The Ministry of Defence aims for a management margin of 10 per cent. Using overall stock levels, this would result in a management margin of some 4,900. The present excess is the result of a number of ongoing studies into future basing requirements and quarters are being held pending decisions.

Members' Visits

Mr. Hoyle: To ask the Secretary of State for Defence how many requests from hon. Members for visits to departmental sites have been refused in each of the last five years, broken down by political party. [18959]

Mr. Touhig: The information requested is shown in the following table:

	Number of MPs refused	*Party*
2000	0	—
2001	0	—
2002	0	—
2003	0	—
2004	6	Labour
	4	Liberal Democrat
	1	Conservative
2005	0	—

The above figures exclude visit requests to operational theatres. These figures also exclude visits that were turned down in the first instance but arranged at a later date.

Ordnance

Mr. Hoyle: To ask the Secretary of State for Defence what agreement has been reached between Royal Ordnance and the Government on security of supply of initiators and boxer caps following the announcement on the Chorley Royal Ordnance site. [24705]

Mr. Ingram *[holding answer 3 November 2005]:* Under the terms of the MOD-BAE Systems Land Systems Framework Partnering Agreement BAES are responsible for ensuring security of the supply of initiators and boxer caps. Detailed discussions have taken place regarding the implications of the Chorley closure and we remain confident in the company's ability to maintain security of supply.

QinetiQ

Mr. Hancock: To ask the Secretary of State for Defence what revenue guarantees from the Department have been *(a)* indicated and *(b)* requested by QinetiQ's investment bankers in respect of the company's prospective flotation. [23634]

Mr. Ingram: I refer the hon. Member to the answer I gave on 20 October 2005, *Official Report*, column 1216W.

RAF Recruitment

Andrew Rosindell: To ask the Secretary of State for Defence how many 16 to 24-year-olds are expected to be recruited following the most recent annual Royal Air Force recruitment campaign. [25261]

Mr. Touhig: The most recent Royal Air Force recruitment campaign comprised two television advertisements that ran between 4 February and 31 March 2005. Data on how many 16 to 24-year-olds were recruited as a result of this campaign is not held. However, during the period the campaign ran, there were around 18,000 enquiries, which included some 1,800 16 to 24-year-olds who directly cited the campaign as the reason they were requesting further information.

Royal Irish Regiment

Mrs. Iris Robinson: To ask the Secretary of State for Defence (1) what plans the Government have *(a)* to retrain and *(b)* to prepare for civilian life members of the Royal Irish Regiment; and if he will make a statement; [25159]

(2) how many members of the Royal Irish Regiment who will be made redundant by 2007 reside in the Strangford constituency. [25160]

Mr. Touhig: We are considering the details of resettlement provision for Royal Irish (Home Service) personnel as part of our on-going work to finalise an appropriate overall settlement package.

We recognise that members of the Home Service Battalions are anxious to know the outcome of this work. A substantive announcement will be made as soon as this work is complete but I cannot give a date at this stage.

Currently a total of some 200 members of the Home Service Battalions of the Royal Irish Regiment reside in the Strangford constituency.

Special Nuclear Materials Load Carriers

Mr. Hancock: To ask the Secretary of State for Defence what plans he has *(a)* to replace and *(b)* to upgrade the (Special Nuclear Materials) load carrier vehicles. [19346]

Mr. Ingram: Investigations are currently being undertaken to fully scope the replacement of the existing SNM load carrier vehicles with the intention that replacement vehicles will enter service in 2008. There are no plans to upgrade the existing load carriers. The vehicles were however refurbished some nine months ago to enable them to meet programme requirements until the new vehicles are available.

Territorial Army (Kettering)

Mr. Hollobone: To ask the Secretary of State for Defence if he will list Territorial Army units located nearest to residents within the Kettering constituency. [23190]

Mr. Touhig *[holding answer 31 October 2005]:* Territorial Army units, located within a 35 mile radius of Kettering Town, are as follows:

Unit

118 Recovery Company Detachment, 104 Battalion, Royal Electrical and Mechanical Engineers

203 Squadron Detachment, 158 Transport Regiment Royal Logistics Corps

C (222) Medical Squadron, 4 General Supply Medical Regiment

B Squadron, Royal Yeomanry

118 Recovery Company Detachment, 104 Battalion, Royal Electrical and Mechanical Engineers

C Company, East of England Regiment

46 Signals Squadron Detachment, 38 Signals Regiment

118 Recovery Company, 104 Battalion Royal Electrical and Mechanical Engineers

C Company Detachment, East of England Regiment

Regimental Headquarters (RHQ) and Headquarters Sqn, 158 Transport Regiment, Royal Logistics Corps

Royal Anglian Band

89 Signals Sqn, 35 Signals Regiment

201 Transport Squadron, 158 Transport Regiment, Royal Logistics Corps

54 Signals Squadron Detachment, 36 Signals Regiment

E (Royal Green Jackets) Company, Royal Rifle Volunteers

Trident

Mr. Gordon Prentice: To ask the Secretary of State for Defence what the cost of re-fitting each of the Trident submarines was in each year since they were commissioned. [21699]

John Reid *[holding answer 27 October 2005]:* Trident submarine long overhaul period (refuel)s (LOP(R)s), formerly referred to as refits, are being undertaken progressively. The first LOP(R), on HMS Vanguard, has been completed and the second, on HMS Victorious, began in January 2005. The total cost of the LOP(R)s programme up to the end of the last financial year, rounded to the nearest £1 million is as follows. This includes planning work generic to the class as a whole.

Vanguard class spend profile

£ million

	Vanguard	*Victorious*
2000–01	7	—
2001–02	45	—
2002–03	114	—
2003–04	84	8
2004–05	39	55
Total	289	63

Wind Turbines (Yelland Farm)

Mr. Cox: To ask the Secretary of State for Defence for what reasons his Department has withdrawn its objections to the proposal to erect three 81 metre wind turbines at Yelland Farm, West Devon. [23759]

Mr. Touhig *[holding answer 2 November 2005]:* The original objection to the Yelland Farm development lodged by this Department was based on the advice of the local commander at Okehampton Training Area. However, further advice was obtained from the RAF Low Flying Policy Office, Joint Helicopter Command and HQ Army Training Estate. After these authorities had been consulted, it was confirmed that the proposed wind turbines at Yelland Farm would not prevent or restrict the RAF's or Army's ability to operate over the nearby Dartmoor and Okehampton Training Areas. On that basis, MOD withdrew its objection.

Mr. Cox: To ask the Secretary of State for Defence what evidence his Department relied upon in stating in a letter from Defence Estates of 26 May, to the West Devon borough council, that the erection of three 81 metre wind turbines at Yelland Farm, West Devon, would *(a)* limit realistic training in the Dartmoor training area and *(b)* constitute a hazard to military aircraft transiting around the Air Danger Area exclusion zone over North Dartmoor. [23760]

Mr. Touhig *[holding answer 2 November 2005]:* The Ministry of Defence's initial objection to the Yelland Farm planning application was based on the information provided by the local commander at Okehampton Training Area, and is related to the possible implications for the use of helicopters that routinely fly in and out of Okehampton Camp and operate over Dartmoor as part of operational training.

There were also initial concerns about the potential hazard to helicopters and fast jets that transit around the moor. The MOD's objection has now been withdrawn, following more detailed consideration.

EDUCATION AND SKILLS

Academies

Geraldine Smith: To ask the Secretary of State for Education and Skills what freedoms academies have been given that do not apply to other schools. [24508]

Jacqui Smith: Academies are state funded independent schools. As such they operate outside the control of the local authority. Academies operate in accordance with their Funding Agreement and Memorandum and Articles of Association. These give them freedoms that do not apply to maintained schools, in particular:

The Academy Trust (set up by the sponsor) appoints the majority of the governing body.

Academies are their own employing body, and so are free to employ their own staff and set their pay and conditions (subject to the requirements of the Transfer of Undertakings, Protection of Employment Regulations 1981 for staff transferring from a predecessor school).

An Academy does not have to follow the national curriculum but is free to develop its own, so long as it is broad and balanced. However, the core subjects of the national curriculum (English, Maths and Science) must be taught to pupils in years 7–11.

Academies control their own assets.

Academies have flexibility in admissions arrangements, but must comply with the School Admissions Code of Practice and provide education for pupils drawn wholly or mainly from the area in which the Academy is situated.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many of the expressions of interest that her Department received in establishing academies were from the private sector. [25061]

Jacqui Smith: Out of 68 live academy projects, 31 Expressions of Interest involved sponsorship from a private company or individual. The remainder were sponsored by charitable trusts or faith groups, some of the members of which have had a background business. A further 13 Expressions of Interest involving sponsorship from a private company or individual are currently under consideration.

Adult Education

Philip Davies: To ask the Secretary of State for Education and Skills what research *(a)* her Department and *(b)* the Learning and Skills Council has conducted on the (i) ability and (ii) willingness of (A) individuals and (B) employers to pay increased fees for adult education courses. [22288]

Bill Rammell: My Department recently commissioned a public poll asking people about their attitudes towards fees in the learning and skills sector. We intend to publish a report of the findings on the Department's website on the 11 November. Other research includes a study of learners (Study of Learners in Further Education (2003)) to ascertain the financial circumstances of learners in FE; and a Prior Qualifications of Adult Learners survey which includes questions about learner attitudes to contributing to the costs of their learning. We have also commissioned two surveys (Fees in Colleges—A Review Of The Use Of Discretionary Fee Remission In Further Education (2003); and FE Colleges Fee Charging Policy and Practice (1999)) about fee policies and practices from the college's perspective. DfES published research findings are available on the Department's website at dfes.gov.uk/research/.

The Learning and Skills Council (LSC) is currently researching the impact of new fee policies in the further education sector. LSC published research findings are available on their website—lsc.gov.uk.

There has been no specific research into employer attitudes to payment of fees for adult education courses.

A-level Students

Mr. Crausby: To ask the Secretary of State for Education and Skills what the retention rate was among year two A-level students in Bolton in each year since 2002. [24303]

Jacqui Smith: The Department does not hold information on retention rates during A level courses in both schools and the FE sector.

Mike Penning: To ask the Secretary of State for Education and Skills what the retention rate has been among year two A-level students in Hemel Hempstead constituency in each year since 1997. [25578]

Jacqui Smith: The Department does not hold information on retention rates during A level courses in both schools and the FE sector.

Apprenticeships

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what changes there have been in funding for training organisations providing apprenticeships in the last five years. [24994]

Phil Hope: Apprenticeships in England are funded through the work-based learning for young people budget of the Learning and Skills Council. This budget covers apprenticeships, advanced apprenticeships, NVQ learning and entry to employment. The following shows estimated spending by the LSC since it was established in 2001.

£ million

Academic year	*Total WBL budget*	*Estimated apprenticeship spend*
2001/02	673	467
2002/03	828	539
2003/04	791	560
2004/05	1,037	810

Basic Skills

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what estimate she has made of the percentage of the population who lack basic skills, broken down by *(a)* 18 to 24, *(b)* 25 to 29, *(c)* 30 to 34, *(d)* 35 to 39, *(e)* 40 to 44, *(f)* 45 to 49, *(g)* 50 to 54, *(h)* 55 to 59, *(i)* 60 to 64, *(j)* 65 to 69 and *(k)* 70 to 75 age groups. [25125]

Phil Hope: The "Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills" (DfES, October 2003) provides the latest estimates of literacy and numeracy levels across

England. The survey assessed the literacy, numeracy and ICT skills of around 8,000 adults aged between 16 and 65 in England.

The survey findings are shown in the following tables. The age groups in the published data are slightly wider than those requested, at 10 years rather than five, to ensure sufficient sample in each age group to provide a robust estimate. The data also include adults up to age 65 only.

The assessment levels correspond to the literacy and numeracy National Standards: these were introduced in 2002 to provide a framework for all adult screening tests, diagnostic tools, programmes of study and qualifications. Learners are assessed for levels of literacy and numeracy from Entry Level 1 to Level 2. Level 2 is broadly equivalent to a higher grade GCSE (A*-C).

Overall around 16 per cent. of adults had literacy skills below Level 1 and 47 per cent. had numeracy skills below this level.

Table 1: Age and literacy level

Percentage

	Total (n=7874)	*16 to 24 (n=1057)*	*25 to 34 (n=1774)*	*35 to 44 (n=2044)*	*45 to 54 (n=1509)*	*55 to 65 (n=1488)*
Entry Level 1 or below	3	1	2	2	3	3
Entry Level 2	2	3	3	3	4	4
Entry Level 3	11	9	9	10	12	15
Level 1	40	43	40	39	36	40
Level 2 or above	44	43	47	46	45	38

Table 2: Age and numeracy level

Percentage

	Total (n=8040)	*16 to 24 (n=1092)*	*25 to 34 (n=1764)*	*35 to 44 (n=2092)*	*45 to 54 (n=1551)*	*55 to 65 (n=1538)*
Entry Level 1 or below	5	5	4	5	6	8
Entry Level 2	16	15	14	15	16	19
Entry Level 3	25	29	24	24	24	26
Level 1	28	27	28	29	27	27
Level 2 or above	25	24	29	27	26	20

A copy of the survey report is in the House of Commons Library and on the DfES website: www.dfes.gov.uk

Bridgewater Primary, Northamptonshire

Mr. Binley: To ask the Secretary of State for Education and Skills whether the Bridgewater primary school to be built in Northamptonshire will have kitchen facilities. [24507]

Jacqui Smith: We understand from the authority that the school does not have kitchen facilities.

Departmental school design guidelines and funding allocations allow for the provision of full kitchen facilities if required by the school or authority. Central Government capital support for investment in schools has increased from under £700 million in 1996–97 to £5.5 billion this year and will rise further to £6.3 billion by 2007–08. The primary capital programme of £150 million in 2008–09 and £500 million in 2009–10 will support a programme to renew at least half of all primary schools over the next 15 years.

Building Schools for the Future

Mr. Drew: To ask the Secretary of State for Education and Skills (1) what the timetable is for the latest round of bids under Building Schools for the Future; when the round was announced; and what the closing date is; [24713]

(2) when the next round of bids under Building Schools for the Future is planned to take place. [24714]

Jacqui Smith *[holding answer 3 November 2005]:* Building Schools for the Future is our long-term strategic programme to transform facilities for secondary pupils over 15 years, subject to future public spending decisions. We have grouped investment in annual waves. Wave 1 projects were announced in 2003 and aim to sign contracts in the financial year 2005–06. Wave 2 and 3 projects were announced in 2004 and aim to sign contracts in 2006–07 and 2007–08 respectively. As the projects are large and involve many schools, building work can take several years after contract signature.

We plan to announce the next waves of investment after the coming comprehensive spending review, probably late in 2007. In the meantime, we have told each local authority when their schools may begin in the 15-year programme. On current plans, the Stroud and Cotswold area of Gloucestershire is not due to begin in the programme until waves 13 to 15, i.e. 2017 at the earliest.

This indicative planning information allows local authorities to look ahead strategically, discuss options with schools and communities and agree long-term education visions for schools and their buildings. By doing this, local areas will be well placed to make good use of other investment, as it becomes available, and to use the local flexibilities of the Single Capital Pot and prudential system. In this way, authorities should find that they will be able to achieve much on their critical paths to starting Building Schools for the Future.

We have just announced that, given Gloucestershire's position in Building Schools for the Future, it will receive around £20 million investment between 2006 to 2008 to rebuild one of its worst condition secondary buildings as a school of the future. My officials will be writing to the authority about this shortly.

Mr. Drew: To ask the Secretary of State for Education and Skills what funding she plans to make available under Building Schools for the Future for the refurbishment and re-building of school kitchens. [25277]

Jacqui Smith: Investment provided through Building Schools for the Future will allow school kitchens to be rebuilt or refurbished, where this is needed. Total investment amounts to £6.5 billion (including £3.75 billion PFI credits) over the three financial years 2005–06 to 2007–08. We do not break down our funding to projects for particular parts of schools, such as kitchens, but we are making clear that kitchens are essential.

Challenging Pupils

Geraldine Smith: To ask the Secretary of State for Education and Skills what measures *(a)* secondary schools and *(b)* local education authorities will be required to have in place to deal with hard to place pupils to ensure that no single school takes a disproportionate number of pupils with challenging behaviour. [24510]

Jacqui Smith: We are proposing to change the school admissions code of practice to recommend that all schools and local authorities agree protocols for the admission of hard to place pupils. These protocols should ensure that no school is asked to admit a disproportionate number of pupils with challenging behaviour. All schools and local authorities will have to have regard to this element of the code as to other elements. We want schools and local authorities to enter into these agreements voluntarily and we will be monitoring progress on this. Where agreement on protocols cannot be reached we will consider legislating to impose them.

Child Abuse

Andrew Rosindell: To ask the Secretary of State for Education and Skills how many cases of child *(a)* physical and *(b)* sexual abuse there have been in each year since 1997. [25265]

Maria Eagle: Information reported by councils with social services responsibilities on the number of registrations to child protection registers by category of abuse during the years ending 31 March 2002 to 2004 is shown in the following table. Information prior to this period was collected differently and may be found in Table 1.6 of "Children and Young People on Child Protection Registers, Year Ending 31 March 2001—England". This is available from the Department's website at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000517/CPR2001.PDF

Registrations[1] to child protection registers during the years ending 31 March 2002 to 2004, by category of abuse

England — *Number*

	2002	*2003*	*2004*
Neglect	10,800	11,700	12,600
Physical abuse	5,300	5,700	5,700
Sexual abuse	2,800	3,000	2,800
Emotional abuse	4,700	5,400	5,600
Multiple	4,100	4,400	4,300

[1] Where a child was registered more than once in the year, each registration has been counted. Registrations include unborn children.

Citizenship Education

Helen Jones: To ask the Secretary of State for Education and Skills how many teachers have been trained as specialists in citizenship education in each year since it was introduced as a statutory part of the national curriculum. [24386]

Jacqui Smith *[holding answer 3 November 2005]:* In the three academic years between 2001/02 and 2003/04, a total of 534 trainees gained qualified teacher status (QTS) from initial teacher training (ITT) courses, broken down as follows. The first year of recruitment was 2001/02.

Number of trainees gaining QTS from ITT courses for citizenship

	Trainees gaining QTS
2001/02	127
2002/03	187
2003/04	220

Source:
TDA Performance Profiles.

City Academy Students

Annette Brooke: To ask the Secretary of State for Education and Skills how many pupils in each city academy are children with special educational needs *(a)* with statements and *(b)* without statements. [25027]

Maria Eagle: The answer to your question is detailed in the table below. We only have data for the 17 academies which opened in or before September 2004. All data are from the academic year 2004/05. The data on pupils with SEN in the 10 academies which opened in September 2005 will not be available until after the annual school census in January 2006.

Name of academy	*Number of pupils with SEN but without statements*	*Number of pupils with statements of SEN*
Mossbourne Community Academy	42	9
Lambeth Academy	15	12
City of London (Southwark) Academy	46	22
The Academy at Peckham	446	39
London Academy	406	53
The Business Academy Bexley	585	76
Capital City Academy	225	20
The West London Academy	324	150
Greig City Academy	181	5
Stockley Academy	174	19
The Walsall City Academy	30	17

Name of academy	Number of pupils with SEN but without statements	Number of pupils with statements of SEN
Manchester Academy	97	7
The City Academy, Bristol	266	41
Unity City Academy	359	32
The King's Academy	244	95
Djanogly City Academy Nottingham	416	[1]
Northampton Academy	328	33

[1] Numbers under 5 have been deleted to remove the possibility of identifying individual pupils.

Annette Brooke: To ask the Secretary of State for Education and Skills how many pupils in schools from which each new academy was created were children with special educational needs *(a)* with statements and *(b)* without statements, in the last year for which figures are available. [25028]

Maria Eagle: The answer to the question is detailed in the following table. The pupil data for each school come from the academic year before the school closed.

Name of school	Academic year	Number of students with SEN without statements	Number of students with SEN statements
Kedholme School	01/02	200	18
Langbaurgh School	01/02	120	13
Thamesmead Community College	01/02	250	24
St. David and St. Katherine C of E High School	01/02	212	11
Compton Sports College	02/03	121	18
TP Rilely School	02/03	106	13
Brackenhoe Comprehensive	02/03	137	26
Coulby Newham	02/03	180	76
St. George Community College	02/03	426	61
Warwick Park School	02/03	162	39
Dulcie High School	02/03	52	10
Djanogly CTC (including Forest School)	02/03	256	0
Willesden High School	02/03	181	10
Evelyns Community School	03/04	126	19
Lings Upper School	03/04	202	24
Edgware School	03/04	322	45
Thorne Grammer School	04/05	116	37
St. Pauls RC VA School	04/05	53	29
Canon Williamson C of E School	04/05	145	8
Ramsgate School	04/05	26	14
Macmilan CTC	04/05	85	6
John Penrose School	04/05	92	18
Malory School	04/05	268	23
Haberdashers' Askes Hatcham College	04/05	146	20
Dixons CTC	04/05	234	17
Our Lady's Catholic High School	04/05	134	10

Classroom Assistants

Mr. Davey: To ask the Secretary of State for Education and Skills how many classroom assistants have been employed in *(a)* the Kingston and Surbiton constituency and *(b)* London in each year since 2001. [23879]

Jacqui Smith: The following table provides the full-time equivalent number of teaching assistants in service in Kingston and Surbiton constituency and London Government Office Region in each January since 2001.

Full-time equivalent number of teaching assistants[1] in maintained sector schools[2] and pupil referral units

	Kingston and Surbiton	London
2001	140	14,380
2002	180	15,390
2003	200	17,590
2004	240	19,880
2005	280	22,230

[1] Includes teaching assistants, special needs support staff and ethnic minority support staff.

[2] Includes maintained and non-maintained special schools.

Note:

Figures are rounded to the nearest 10.

Source:

Annual School Census.

Mr. Hollobone: To ask the Secretary of State for Education and Skills how many *(a)* classroom assistants and *(b)* full-time equivalent classroom assistant posts there were in schools in the Kettering constituency in each year since 1997. [24189]

Jacqui Smith *[holding answer 2 November 2005]:* The following table provides the full-time equivalent number of teaching assistants in maintained sector schools[2], including pupil referral units, in Kettering constituency in January of each year.

The number of full-time equivalent teaching assistant posts in Kettering is not collected centrally.

Full-time equivalent number of teaching assistants[1] in maintained sector schools[2], including pupil referral units, in Kettering constituency

	Teaching assistant FTE
1997	150
1998	160
1999	180
2000	200
2001	[3]260
2002	220
2003	240
2004	230
2005	250

[1] Includes teaching assistants, special needs support staff and ethnic minority support staff.

[2] Includes maintained and non-maintained special schools.

[3] Data for 2001 may be affected by misclassification of support staff roles following major changes to information systems.

Note:

Figures are rounded to the nearest 10.

Source:

Annual School Census.

Departmental Spending

Dr. Starkey: To ask the Secretary of State for Education and Skills how much funding was allocated by her Department to Milton Keynes for *(a)* capital projects and *(b)* revenue funding in each of the last five years. [23509]

Jacqui Smith: The information requested, in cash terms and in £ million, is set out in the following table.

	Capital Allocations	Revenue
2001–02	9.9	114.9
2002–03	20.3	124.4
2003–04	29.1	138.7
2004–05	39.1	152.4
2005–06	30.8	164.0

Notes:

1. Capital allocations to local authorities may differ, in a particular year, from local authority expenditure. This is due to timing differences and to decisions made locally. Figures for 2005–06 are provisional.

2. Revenue allocation figures, from 2003–04, include the pensions transfer to Education Formula Spending and the Learning and Skills Council; the figures prior to 2003–04 have not been adjusted. Total funding includes all revenue grants in the DfES budget relevant to pupils ages three to 19, and excludes Education Maintenance Allowances and grants not allocated at local authority level. Figures for the years 2003–04 to 2005–06 are provisional as some grants have not yet been finalised/audited.

Education Maintenance Allowance

Annette Brooke: To ask the Secretary of State for Education and Skills what checks the assessment and payment body carry out in respect of claimants of education maintenance allowance on *(a)* declared income and *(b)* attendance on the relevant courses. [25531]

Maria Eagle: The assessment and payment body (APB) accepts a range of income source documents as proof of income, such as the Tax Credit Award Notice/P60. Documents must be originals and these are scrutinised for signs of amendment or tampering as part of the assessment process. The APB also sample completed applications using random selection criteria. These applicants are written to and asked to provide further evidence to confirm the original details.

We obtained powers in the Education Act 2005 to share income and benefit data with HM Revenue and Customs and the Department for Work and Pensions. Operational policy responsibility for education maintenance allowances (EMA) lies with the Learning and Skills Council (LSC) which works with these two Departments to help operate EMAs.

Schools and colleges must record attendance, ensure their systems capture EMA student attendance accurately and initiate stopping payments for unauthorised absences. The LSC conducts regular audits on schools/colleges and checks on attendance form part of those audits.

Education White Paper

Mr. Hollobone: To ask the Secretary of State for Education and Skills how many *(a)* spelling mistakes and *(b)* grammatical errors in the Education White Paper were identified by her Department after publication. [24081]

Jacqui Smith: Since publication, we have focussed on disseminating the policy ideas in the White Paper and planning their implementation rather than proof-reading again. As with any document of this size, it is inevitable that some minor errors will remain and a small number have been noted that are not significant enough to require clarification.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what *(a)* powers, *(b)* funding and *(c)* responsibilities that are currently within the remit of local education authorities she expects (i) the Learning and Skills Council and (ii) local Learning and Skills Councils to hold following the implementation of the proposals in the Education White Paper. [24597]

Jacqui Smith: There are no proposals to transfer powers, funding or other responsibilities from local authorities to the Learning and Skills Council made in the 'Higher Standards Better Schools for All' White Paper.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what *(a)* powers, *(b)* funding and *(c)* responsibilities the proposed (i) School Improvement Partners and (ii) Office of the Schools Commissioner will hold that are currently within the remit of local education authorities. [24602]

Jacqui Smith: The School Improvement Partner of a maintained school works under contract to the local authority that maintains the school. She or he has no powers independent of the local authority and controls no funding. Although there is a degree of central specification of the responsibilities of the School Improvement Partner, no responsibilities are taken from the local authority's remit by the introduction of the School Improvement Partner. Similarly, the Schools Commissioner will hold no powers, funding or responsibilities that are currently within the remit of local education authorities. The Schools Commissioner's role in relation to local authorities will be to support and challenge them in carrying out their new duties to promote choice, diversity and fair access; and to advise the Secretary of State on the exercise of her powers of intervention if they are failing in those duties.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what assessment she has made of the likely effects of the reforms proposed in the Education White Paper on *(a)* local government finance and *(b)* the budgets of local authorities; and if she will make a statement. [24603]

Jacqui Smith: There will be additional costs to local authorities for some elements of the proposals set out in the Education White Paper and we will make resources available to fund them, so as not to create unfunded new burdens for local authorities, or put any pressure on council tax. We will consider with key stakeholders, including local government, the costs and the best methodology and route for distributing funds as policies are developed further.

Mrs. Spelman: To ask the Secretary of State for Education and Skills what assessment she has made of the likely effects of the reforms proposed in the Education White Paper on local councils appointing school governors; and if she will make a statement. [24604]

Jacqui Smith: Local authorities will continue to appoint some governors to all categories of maintained schools. As now, the governing bodies of all maintained schools—including the new trust schools—will be responsible for the strategic leadership of their schools. As now, local authorities will not appoint the majority of governors to any category of maintained school.

Failing Schools

Geraldine Smith: To ask the Secretary of State for Education and Skills what steps are taken to deal with failing schools. [24562]

Jacqui Smith *[holding answer 3 November 2005]:* When a school is judged, by Ofsted, to be failing the local authority is under a duty to prepare, within 10 working days, an action plan to improve the school. There are then termly visits from Ofsted to monitor the implementation of the action plan and the school's progress. Since 1998 the number of failing schools has more than halved and the average time to turn round such a school has reduced from 24 to 21 months. The Schools White Paper published last month includes proposals to ensure that school failure is remedied even more quickly. In particular, we propose to extend the range of intervention powers available to authorities and to require them to consider the full range of their powers immediately on receipt of an adverse Ofsted inspection report on a school.

Faith Schools (Admissions)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills pursuant to her oral answer of 27 October 2005 to the hon. Member for Barnsley, East and Mexborough (Jeff Ennis), *Official Report*, column 442, on the Education White Paper, whether her policy that looked-after children will have top priority in admissions applies equally to faith schools. [25294]

Jacqui Smith: We are committed to laying regulations before Parliament to require admission authorities to give top priority to looked-after children in their published admission arrangements. We intend that schools designated as having a religious character will, as a minimum requirement, give first priority to looked-after children of their faith, but we expect many of these schools to provide in their admission arrangements for all looked-after children to have priority unless their trust deeds prevent them from doing so.

Further Education

Kelvin Hopkins: To ask the Secretary of State for Education and Skills if she will initiate a publicity campaign to persuade adults and employers that there is a need to pay higher fees for courses provided by further education colleges; and if she will make a statement. [24409]

Bill Rammell: The recent Learning and Skills Council publication "Priorities for Success: Funding for Learning and Skills" made the commitment that

> "Government and the LSC with partners in the skills alliance will make sure that (adult learning funding) priorities are communicated nationally and locally to explain and reinforce work with learners and employers at institutional level"

(paragraph 70, page 20).

Government, Learning and Skills Council and other partners' publicity campaigns over the coming months will meet this commitment by demonstrating the many different rewards to individual learners, employers and the community that can be achieved through investment of time, effort and money in learning.

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps she is taking to encourage secondary school leavers to go into further education. [25183]

Jacqui Smith: The information requested has been placed in the House Libraries.

Gas and Electricity Supply Contracts

Mr. Jenkin: To ask the Secretary of State for Education and Skills how many schools have interruptible contracts for gas and electricity supply; and if she will make a statement. [25544]

Jacqui Smith: We have contacted some local authority energy managers and doubt if there are any schools on an interruptible gas tariff due to the relatively low level of consumption in schools. This tariff is usually associated with the business or commercial sectors where there are dual fuels in place.

You cannot interrupt electricity supplies to properties therefore there are no such tariffs for electricity.

GCSE Results

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills pursuant to her oral answer of 27 October 2005, *Official Report*, column 440, to the hon. Member for Faversham and Mid-Kent (Hugh Robertson), on GCSE results, what the evidential basis is for her statement that improvements in reading, writing and arithmetic followed after 50 years of no progress at all in raising primary school standards. [25295]

Jacqui Smith: The statement made in the answer to the oral question referred to is based on the conclusions from the research "Standards in Literacy and Numeracy" conducted by Greg Brooks, Derek Foxman and Tom Gorman, National Foundation for Educational Research (NFER), published by the National Commission on Education in December 1992. Updates to this research, "Standards in Literacy and Numeracy 1948–1994" and "Trends in the Standards of Literacy in the United Kingdom: 1948—1996" were published in 1995 and 1996 respectively.

One of the main findings of this research was that in the period between 1948 and 1996 average levels of performance of primary school children had remained much the same.

Mr. Wills: To ask the Secretary of State for Education and Skills what average number of A and A* grades at GCSE was achieved in all schools in each year from 1997. [23397]

Jacqui Smith: The information requested is given in the following table.

Average number of A and A grades at GCSE achieved by 15-year-old pupils*[1]

	A* grades	A grades	Number of 15-year-old pupils[1]	Average number of A*/A grades per pupil
1997	168,334	484,323	586,766	1.1
1998	187,473	487,413	575,210	1.2
1999	188,597	476,736	580,972	1.1
2000	216,808	528,390	580,393	1.3

[1] Pupils aged 15 at the beginning of the academic year (i.e. 31 August).
[2] Figures for 2005 are provisional. All other years are final.

Gifted and Talented Youth

Mr. Gibb: To ask the Secretary of State for Education and Skills *(a)* how many and *(b)* what proportion of secondary school pupils are members of the National Academy for Gifted and Talented Youth (i) in total, (ii) broken down by local education authority and (iii) in Bognor Regis and Littlehampton constituency. [23818]

Jacqui Smith: The White Paper "Higher Standards, Better Schools For All" makes clear our commitment to offer membership of the National Academy for Gifted and Talented Youth to the full cohort of eligible 11–19 year olds.

The National Academy has to date recruited 70,982 members from secondary schools. This is 1.78 per cent. of secondary school pupils in England. Figures for local education authorities are in the following table. The Academy has 67 secondary members in the Bognor Regis and Littlehampton constituency.

Table 1: Number of NAGTY members by region and local education authority

		Total secondary school population	Number of NAGTY members	NAGTY members as a percentage of total population
	East of England	457,930	9,809	2.142

Grammar Schools (Northern Ireland)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills pursuant to her oral answer to the hon. Member for South Antrim (Dr. McCrea) of 27 October 2005, *Official Report*, column 441, on the Education White Paper, what the basis was for her statement that the decision to abolish grammar schools in Northern Ireland was taken by the devolved assembly. [25293]

Jacqui Smith: A review of secondary education in Northern Ireland was in progress when the Assembly was suspended in October 2002. The Costello Group subsequently made its recommendations, and the decision to end academic selection was made by the Northern Ireland Office Minister, Jane Kennedy, rather than the devolved Assembly as originally stated. She announced this decision on 26 January, 2004, and the last transfer tests will be held in autumn 2008.

Homework Clubs

Derek Wyatt: To ask the Secretary of State for Education and Skills how much funding has been allocated to homework clubs in schools in *(a)* England, *(b)* Kent and *(c)* Sittingbourne and Sheppey in 2005–06. [24659]

Jacqui Smith: The information requested is not available. Homework clubs may form part of a school's or local authority's study support (out of school hours learning) programme, for which funding is available through their base budgets, and the school development grant (SDG). Schools and local authorities may

use their SDG for any purposes linked to school improvement, and it is for them to determine the amount to be allocated to study support.

Study support forms an integral part of the Government's extended services agenda, which will require schools to offer a varied menu of activities from 8 am to 6 pm year round, including during school holidays. Additional funding of £680 million is being made available up to 2008 to support the start up of extended services in schools.

Inner City Academies

Hugh Robertson: To ask the Secretary of State for Education and Skills how many *(a)* football and *(b)* cricket matches were played by inner city academies in the academic year 2004/05. [25629]

Jacqui Smith: The Department for Education and Skills does not hold this information.

Language Teaching

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps she is taking to encourage more students in secondary schools to take language GCSEs. [25182]

Jacqui Smith: In March 2005 the Secretary of State for Education and Skills announced a £115 million "Boost for Modern Foreign Languages", providing support for language teaching and learning for this and the next two years.

Part of that funding will support new approaches for teaching and learning for 11 to 18-year-olds, including alternative qualifications to traditional GCSEs and vocational options at key stage 4 which will provide more flexibility for pupils in their studies and meet the needs of a wider range of pupils. We have expanded the list of qualifications that count towards performance table scores to include more language qualifications. We are also funding a range of projects and materials to promote languages and to develop innovative curricular models which will be show-cased to provide schools with delivery ideas and support. For example, we funded CILT, the National Centre for Languages to produce 'Languages Work', a suite of materials designed to promote the value of language learning, support take up of languages beyond key stage 3, and how language skills can enhance future employability.

Last September the new languages recognition scheme, the languages ladder, became available nationally. The scheme can be used by learners of all ages and is available in eight languages. The scheme differs from existing approaches to assessment in that there are separate qualifications in each language for reading, writing, listening and speaking. The scheme can provide motivation and recognition of achievement at key stage 3, thus encouraging take up at key stage 4. Finally, the scheme can support language learning at key stage 4 within a wide range of learning pathways, including vocational and work-related contexts.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what change to the administration costs of the Learning and Skills Council she expects through the planned streamlining operation. [25128]

Bill Rammell: The LSC's core administration costs have fallen steadily from 4.6 per cent. of total funding in 2001–02, to 2.5 per cent. of its planned total budget in 2005–06. The LSC's administration budget for the next two years was set out in the Secretary of State's Grant Letter issued on 31 October 2005. This Grant Letter provides the LSC with just over £252 million (2.4 per cent. of planned total budget) for 2006–07 and just under £240 million (2.2 per cent. of planned total budget) for 2007–08 to cover its administration costs including the cost of capital and depreciation. This reflects efficiency savings already agreed. The overall administration budget will be reassessed when the results of the consultation on the LSC's "Agenda for Change", particularly its restructuring, are finalised. At this stage further savings could be released to the sector.

Maintained Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills how many independent schools have expressed an interest in joining the maintained sector in the last five years. [25669]

Jacqui Smith: In the last five years, 52 independent schools have registered with the Department their interest in joining the maintained sector; seven independent schools have become maintained schools and another three are approved to become maintained schools in 2006/07.

Offender Learning Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what assessment her Department has made of the pilot schemes for offender learning. [24991]

Phil Hope: The National Foundation for Educational Research, the largest independent educational research institution in Europe, has been appointed to assess the impact of the new offender learning and skills delivery arrangements in the three development regions (North East, North West and South West England). The research activity has commenced and results will be used to inform roll-out across the rest of England in August 2006, with a full research report published in September 2006.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) if she will take steps to ensure that the forthcoming Green Paper on Reducing Re-offending through Skills and Employment addresses *(a)* education and training while in custody and *(b)* support for former prisoners after their release; and if she will make a statement; [24992]

(2) when the Green Paper on Reducing Re-offending through Skills and Employment will be published. [24993]

Phil Hope: The Department for Education and Skills, Home Office and Department for Work and Pensions are working on proposals for a joint reform programme

to build a service that is more effective in improving offenders' skills and qualifications and in getting some offenders into sustainable employment. We hope to publish proposals in the near future. The proposals can be expected to cover issues relating to education and training in custody and in the community.

Parent Councils

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of schools have parent councils. [25660]

Jacqui Smith: We do not collect this information centrally.

Parenting Contracts

Geraldine Smith: To ask the Secretary of State for Education and Skills how many parenting contracts have been issued in *(a)* Morecambe and Lunesdale and *(b)* England since their inception. [24536]

Jacqui Smith: My Department started to collect data regarding parenting contracts (in cases of non-attendance and exclusions from school) from September 2004. Between September 2004 and 31 July 2005 local authorities in England have reported that 5,717 parenting contracts in cases of non-attendance have been agreed with parents. During the same period 418 parenting contracts in cases of exclusion from school were agreed with parents. This is the latest data we hold—autumn term data will be published in March 2006. We do not collect data below local authority level. Lancashire LA have reported that they did not issue any parenting contracts up to and including 31 July 2005.

Prison Education

Mr. Davey: To ask the Secretary of State for Education and Skills how much her Department plans to spend on prison education in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [25436]

Phil Hope: Expenditure on learning and skills for offenders in custody is planned to be £110.9 million in financial year 2005–06. Decisions have yet to be taken on spend in 2006–07 and 2007–08.

School Building Repairs

Greg Mulholland: To ask the Secretary of State for Education and Skills what assessment she has made of the requirement for school building repairs in Leeds, North-West; and what estimate she has made of the cost in each school. [25766]

Jacqui Smith: The following table shows requirements for school building repairs in Leeds, North-West, based on data supplied to the Department by the local education authority in 2003. Costs have been updated to current costs. In addition to backlog repair work, the figures cover work needed over a five year period from the dates of the assessments, including cyclical and scheduled maintenance.

Central Government capital support for investment in schools has increased from under £700 million in 1996–97 to £5.5 billion this year and will rise further to £6.3 billion by 2007–08. Progress is being made year-by-year in improving the quality of the school building stock.

School Meals

Andrew Rosindell: To ask the Secretary of State for Education and Skills what was the average amount spent on school meals per pupil per day in the last period for which figures are available. [25098]

Jacqui Smith: The Department for Education and Skills does not collect information on the average amount spent on school meals per pupil per day. However, the recent report from the school meals review panel, concluded that the average cost of ingredients in primary schools was 48.5p; and in secondary schools was 59.8p. We are currently undertaking a national audit of school food provision which asks local authorities for details of average expenditure on ingredients.

School Non-attenders

Mr. Gibb: To ask the Secretary of State for Education and Skills what estimate she has made of the proportion of children between the ages of five and 16 years who do not attend school. [25658]

Jacqui Smith: The Government make no estimates of the proportion of children between the ages of five and 16 years who do not attend school. There is currently no reliable statistical source from which to estimate of the number of children who do not attend school. In due

course, the information sharing index, provided for in Section 12 of the Children Act 2004, would enable more accurate estimates to be made.

In the meantime, the Government are concentrating on improving practice in identifying children missing, or at risk of going missing, from education and placing them in suitable provision. In the White Paper "Higher Standards, Better Schools for All—More Choice for Parents and Pupils" we announced our intention to introduce a new statutory duty on local authorities to identify children missing education.

Geraldine Smith: To ask the Secretary of State for Education and Skills what are the most recent truancy levels for *(a)* secondary and *(b)* primary schools in Morecambe and Lunesdale. [24535]

Jacqui Smith: These data are provisional: they are currently in the process of being checked by schools and, therefore, may change as a result of this process.

Percentage of half days missed due to unauthorised[1] absence in maintained schools

	Morecambe and Lunesdale	*England*
Primary	0.44	0.43
Secondary	1.34	1.25

[1] Unauthorised absence includes other forms of absence such as lateners, holidays during term time not authorised by the school, absence where reason is not yet established and truancy.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the truancy figures were from colleges of further education *(a)* in England and *(b)* broken down by constituency, in the last year for which figures are available. [24981]

Jacqui Smith: The information requested is not collected centrally. Data on pupil absences are collected only in respect of pupils of compulsory school age: i.e. those aged five to 16-years-old.

School Sport

Mr. Evans: To ask the Secretary of State for Education and Skills what average number of hours of physical education was undertaken per week in *(a)* primary and *(b)* secondary schools, in England in 2004–05. [23534]

Jacqui Smith: The 2004–05 PE and School Sport Survey of schools in School Sport Partnerships found that the average time spent each week on physical education by pupils in partnership schools was 101 minutes for pupils in primary schools and 113 minutes for pupils in secondary schools. The figures for the previous year were 97 minutes for pupils in primary schools and 110 minutes for pupils in secondary schools.

The survey results were published in September and copies have been placed in the House Libraries.

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that children in schools undertake more physical exercise. [25184]

Jacqui Smith: The Department for Education and Skills and the Department for Culture, Media and Sport are jointly implementing a national school sport strategy. The strategy is delivering an ambitious public service agreement target to increase the percentage of 5–16 year olds who spend a minimum of two hours a week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006 and then 85 per cent. by 2008. The long-term ambition, by 2010, is to offer all children at least four hours of sport every week. In the five years to 2008 over £1.5 billion is being invested (including £686 million lottery funding) to implement the strategy. The 2004–05 school sport survey results found that overall, 69 per cent. of pupils in the 11,498 schools involved, were participating in at least two hours of high quality PE and school sport a week. The results were published on 2 September 2005 and copies have been placed in both Houses of Parliament Libraries.

Mike Penning: To ask the Secretary of State for Education and Skills if she will list the schools designated as sports hubs in Hemel Hempstead constituency. [25577]

Jacqui Smith: There is one School Sport Partnership in Hemel Hempstead. The hub school for the partnership is The Cavendish School, which is a Specialist Sports College. The partnership will expand next year to include all schools in Hemel Hempstead.

School Trusts

Mr. Davey: To ask the Secretary of State for Education and Skills if she will list categories of companies which would not be permitted to set up a school trust because of the nature of their business. [25416]

Jacqui Smith: All trusts will by law be charities and will be subject to regulation by the Charities Commission. We will require trusts to have specific charitable objects and all members of trusts will be under a statutory duty to conduct the trust in accordance with its objects.

It will be for the governing bodies of individual schools to decide whether to form a partnership with a trust and to publish proposals setting out how that partnership will enhance the school's ethos and character.

The local authority can refer the governing body's decision to the schools adjudicator for determination, if there are serious concerns about the impact of the acquisition of the trust on school standards. We intend to issue guidance to governing bodies and the schools adjudicator in due course about the factors to take into account when considering proposals.

Mr. Davey: To ask the Secretary of State for Education and Skills if she will list the types of person who would not be permitted to set up a school trust. [25417]

Jacqui Smith: We will produce illustrative regulations to accompany the passage of the forthcoming Bill. The list of persons who would not be permitted to set up a school trust or to be members of such a trust will be similar to the list of individuals who cannot be members of a school company in the School Companies Regulations 2002.

Truancy

Mike Penning: To ask the Secretary of State for Education and Skills what the most recent truancy levels are for *(a)* secondary and *(b)* primary schools in the Hemel Hempstead constituency. [25810]

Jacqui Smith: These data are provisional: they are currently in the process of being checked by schools and, therefore, may change as a result of this process.

Percentage of half days missed due to unauthorised[1] absence in maintained schools

	Hemel Hempstead	*England*
Primary	0.29	0.43
Secondary	0.99	1.25

[1] Unauthorised absence includes other forms of absence such as lateness, holidays during term time not authorised by the school, absence where reason is not yet established and truancy.

Science

Mrs. Dorries: To ask the Secretary of State for Education and Skills (1) how many qualified teachers of *(a)* the sciences, *(b)* English, *(c)* modern foreign languages, *(d)* physical education, *(e)* drama, *(f)* media studies, *(g)* mathematics and *(h)* information and communication technology there have been in secondary schools in each year since 1997; and if she will make a statement; [22912]

(2) how many qualified teachers of *(a)* biology, including human biology, *(b)* chemistry, *(c)* physics and *(d)* dual science there have been in the state sector in each year since 1997; and if she will make a statement. [22924]

Jacqui Smith: The information requested is not available in the format requested. Information on subject teaching is collected through periodic secondary school staffing surveys. The following table shows the numbers of full-time teachers who provided some tuition in the subjects[1] shown. Information is provided for maintained secondary schools in England, from the two most recent sample surveys.

[1] Teachers are counted once against each subject taught.

	November 1996	*November 2002*
Mathematics	25,200	28,200
English	28,400	29,400
Combined/General Science	27,300	28,300
Biology	5,100	5,600
Chemistry	4,600	5,200
Physics	4,400	4,700
Other Sciences[1]	1,600	1,600
French	16,200	16,000
German	8,100	6,900
Spanish	2,700	3,600
Other Modern Languages	1,300	1,400
Information and Communication Technology	10,700	18,900
Drama[2]	8,900	8,100
Physical Education	20,000	21,400

[1] Includes geology, environmental science, rural science, agricultural science and science in society.

[2] Includes media studies, communication skills and expressive arts

Mrs. Dorries: To ask the Secretary of State for Education and Skills what percentage of existing science teachers will have reached retirement age by *(a)* 2006, *(b)* 2008 and *(c)* 2010. [22913]

Jacqui Smith: The information requested is not available in the format requested.

Skills for Life Courses

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what percentage of people taking Skills for Life courses have previously taken leisure courses. [24962]

Phil Hope: The information requested is not readily available and can be provided only at disproportionate cost. Learners participating in Skills for Life courses may have previously taken leisure courses but evidence suggests that for most Skills for Life learners, their Skills for Life courses will have been their first entry back into education since school.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills whether the Skills for Life courses at Entry Level 1 cover elements of the Skills for Life course at Entry Level 2. [24979]

Phil Hope: All Skills for Life courses funded by the Learning and Skills Council for England are referenced to the National Standards for Literacy and Numeracy, which cover Entry Levels 1, 2 and 3 and Levels 1 and 2. This ensures that there is consistency in a learner's studies across the country, whatever their environment or situation. The standards are constructed to facilitate progression from one level to the next in order to promote high quality learning which naturally leads the learner through the levels and where each level sets the context for higher level work in the next. Entry Level 2 Skills for Life courses build on the work done at Entry Level 1 but broaden and raise the expected levels of achievement. For instance, in literacy the contexts are extended from "forms, lists, messages, notes and records" at Entry Level 1 to also include "e-mails and simple narratives" at Entry Level 2.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many adults on the Skills for Life programme have achieved *(a)* two Skills for Life qualifications, *(b)* three Skills for Life qualifications and *(c)* four or more Skills for Life qualifications since the programme began. [24980]

Phil Hope: From April 2001 to July 2005, a confirmed 1,130,000 adults have achieved a qualification in literacy, language or numeracy and have counted towards the Skills for Life Public Service Agreement (PSA) target. However, the Department currently only has detailed and complete information on Skills for Life achievements from April 2001 until July 2004. During that period approximately 865,000 learners achieved at least one Skills for Life qualification in literacy, language or numeracy and therefore counted once towards the Skills for Life PSA target. The total number

of Skills for Life achievements of these learners was approximately 1,280,000 achievements, which is an average of 1.48 per learner. Therefore, a significant number of learners will have gained two or more achievements. The specific information requested is not readily available and can be provided only at disproportionate cost.

Special Schools

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the White Paper, "High Standards, Better Schools for All" what the issues are that arise for special schools from Trust status; and if she will make a statement. [24952]

Maria Eagle: The White Paper "Higher Standards, Better Schools for All" states that to spread innovation and diversity across the whole school system, we will promote the establishment of self-governing Trust schools. We acknowledge in the White Paper that Trust status for special schools raises a number of complex issues and we will continue to work with schools to decide the best way forward.

Sports Colleges

Hugh Robertson: To ask the Secretary of State for Education and Skills how many sports colleges there are in England. [25630]

Jacqui Smith: Sports specialism was first introduced in 1997. There are 334 specialist sports colleges. In addition, 10 chose sports as part of a combined specialism and seven chose sports as a second specialism at Redesignation.

Sunbeds

Mrs. James: To ask the Secretary of State for Education and Skills if she will undertake a publicity campaign to dissuade children from using sunbeds. [21271]

Mr. Byrne: I have been asked to reply.

SunSmart, the national skin cancer prevention and sun protection campaign, run by Cancer Research UK on behalf of the United Kingdom health departments includes in their printed resources and on the SunSmart website information and advice discouraging the use of sunbeds, especially by young people below the age of 16 years. SunSmart has this year campaigned on raising the awareness of the dangers of skin cancer among children and young people, including the risks associated with sunbeds. The Health and Safety Executive guidelines also recommend that sunbeds should not be used by young people under 16 years and that the guidelines should be available to the public at sunbed establishments.

Teacher Numbers

Mr. Hollobone: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* full-time equivalent teaching posts there were in schools in the Kettering constituency in each year since 1997. [24130]

Jacqui Smith: The following table provides the full-time equivalent number of teachers in service in maintained sector schools, including pupil referral units, in Kettering constituency in each January since 1997.

The number of full-time equivalent teaching posts in Kettering is not collected centrally.

Full-time equivalent number of teachers in maintained sector schools[1], including pupil referral units, in Kettering constituency

	Teachers FTE
1997	940
1998	940
1999	960
2000	980
2001	1,030
2002	1,030
2003	1,030
2004	1,020
2005	1,050

[1] Includes maintained and non-maintained special schools.

Note:

Figures are rounded to the nearest 10.

Source:

Annual School Census

Teachers' Pensions

Mr. Willetts: To ask the Secretary of State for Education and Skills what account is taken of differences between the value of pension provision of teachers in the public sector and that of teachers in the private sector when setting teachers' pay. [24816]

Jacqui Smith: No account is taken of the value of pension provision for teachers in the private sector when setting teachers' pay. Schools in the private sector are free to join the teachers' pensions scheme and over 50 per cent. do so.

Trust Schools

Mr. Fallon: To ask the Secretary of State for Education and Skills whether the proposed Trust schools will be able to apply for the flexibility to borrow against their assets. [24092]

Jacqui Smith *[holding answer 2 November 2005]:* The proposed Trust schools will be able to borrow against their assets on the same basis as existing maintained schools. That is, permission to borrow must be approved by the Secretary of State. Borrowing by schools scores as public expenditure and, in coming to a decision, the Secretary of State will have regard as to whether the extra cost can be met by the Department. In addition, the Secretary of State will determine whether or not the extra borrowing constitutes value for money.

Vocational Qualifications

Mr. Gibb: To ask the Secretary of State for Education and Skills how many schools offered *(a)* Part One and *(b)* Full General National Vocational Qualification at (i) Foundation and (ii) Intermediate level in each year since 1995. [23454]

Phil Hope: Information on the number of schools offering GNVQs is unavailable. Figures for the number of schools where at least one pupil has achieved this qualification is provided in the following table:

Number of schools where at least one 15-year-old pupil[1] has achieved each qualification type

	Part 1 intermediate	*Part 1 foundation*	*Full intermediate*	*Full foundation*
2005[2]	42	5	1,202	317
2004	146	25	1,087	332
2003	1,479	970	1,010	358
2002	1,186	768	531	241
2001	783	426	181	154
2000	485	285	186	154
1999	403	269	134	128
1998	212	148	102	107
1997	103	85	97	88

[1] Age at the beginning of the academic year (i.e. 31 of August).
[2] Figures for 2005 are provisional. All other figures are final.
Note:
GNVQs were first introduced into the Achievement and Attainment tables (formerly Performance Tables) in 1996/97, therefore we cannot provide this information for earlier years.

WORK AND PENSIONS

Benefit Fraud

Mike Penning: To ask the Secretary of State for Work and Pensions what steps he is taking to tackle benefit fraud; and if he will make a statement. [24664]

Mr. Plaskitt: I refer the hon. Member to the written answer I gave on 26 October 2005, *Official Report*, columns 453–54W to the hon. Member for Ilford North, (Mr. Scott).

Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what plans he has to visit Coventry. [24567]

Mr. Hutton: I have no current plans to visit Coventry but would be happy to discuss the possibility of making a visit in the future.

Disability Living Allowance

Dr. Cable: To ask the Secretary of State for Work and Pensions what the average waiting time has been between the rejection of an application for disability living allowance and an appeal hearing in each of the last five years for which records are available. [17828]

Mrs. McGuire: This is a matter for Christina Townsend, chief executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Dr. Vincent Cable, dated 7 November 2005:

The Secretary of State has asked me to respond to your question regarding what the average waiting time has been between the rejection of an application for Disability Living Allowance and an appeal hearing in each of the last five years for which records are available.

The information you have requested is shown in the table below.

Great Britain, DLA appeals 2000–05 by average duration

	Average duration (Weeks)
2000–01	33.08
2001–02	31.81
2002–03	30.38
2003–04	28.88
2004–05	27.68

Notes:
1. All figures are subject to change as more up to date data becomes available.
2. "Lodged" denotes when an appeal is submitted to the first tier agency. Lodged data only enters the GAPS database when the Appeal reaches the Appeals Service.
3. Duration is derived by calculating the time difference from when an appeal is lodged until when it is cleared. It is represented in weeks.
4. Years are represented from April to March in each instance.
Source:
100 per cent. download of the Generic Appeals Processing System.

I hope this reply is helpful.

Dr. Cable: To ask the Secretary of State for Work and Pensions how many appeals there have been as a result of rejected applications for disability living allowance in each of the last five years for which records are available. [17829]

Mrs. McGuire: This is a matter for Christina Townsend, chief executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Dr. Vincent Cable, dated 7 November 2005:

The Secretary of State has asked me to respond to your question regarding how many appeals there have been as a result of rejected applications for Disability Living Allowance in each of the last five years for which records are available.

The information you have asked for is not available in the format requested as, due to the way data is gathered, it is not possible to provide figures solely concerning appeals brought as a result of rejected applications. Information is gathered by the total number of appeals received and the table below shows this over the last 5 years.

Great Britain, disability living allowance, appeals and outcomes 2001–05[1]

	Lodged	*Received*	*Cleared at hearing*	*Cleared in favour of appellant*	*Cleared against appellant*	*Cleared upheld S of S decision confirmed*	*Cleared before hearing*	*Adjourned*	*Postponed*
2001	86,420	86,890	86,285	45,165	100	40,200	825	20,660	14,445
2002	82,535	82,290	72,815	39,495	75	32,510	735	15,785	11,320
2003	87,545	83,560	69,840	36,850	90	32,060	840	16,395	8,220
2004	90,030	87,010	75,080	38,170	115	35,800	995	18,680	7,155
2005	40,720	41,380	35,935	18,190	30	17,190	525	9,955	3,725

[1] Figures are for calendar years (January to December) except 2005 which covers January 2005 to June 2005.

Notes:
1. Data is taken from the Management Information System (MIS) computer system.
2. Figures have rounded to the nearest 5.
3. All figures are subject to change as more up to date data becomes available.
4. Figures for the latest months will rise significantly as information feeds through to the Appeals Service.
5. Figures show all DLA appeals for the dates shown and not just DLA application.
6. Appeals received figures may be higher than lodged figures as a result of lodgement being in a different month/year.

Source:
DWP, Information Directorate

Dr. Cable: To ask the Secretary of State for Work and Pensions how many people who have appealed against the withdrawal of a higher rate of disability living allowance have lost all benefit at the appeal in each of the last five years for which records are available. [17831]

Mrs. McGuire: This is a matter for Christina Townsend, chief executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Dr. Vincent Cable, dated 7 November 2005:

The Secretary of State has asked me to respond to your question regarding how many people who have appealed against the withdrawal of a higher rate of Disability Living Allowance have lost all benefit at the appeal in each of the last five years for which records are available.

The information you have asked for is not available in the format requested as, due to the way data is gathered, it is not possible to provide figures solely concerning appeals brought as a result of the withdrawal of a higher rate of Disability Living Allowance. Information is gathered by the total number of appeals received and this was set out in my response to you for PQ/05/17829.

I hope this reply is helpful.

Dr. Cable: To ask the Secretary of State for Work and Pensions how many appeals brought as a result of rejected applications for disability living allowance have been upheld in each of the last five years for which records are available. [17832]

Mrs. McGuire: This is a matter for Christina Townsend, chief executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Dr. Vincent Cable, dated 7 November 2005:

The Secretary of State has asked me to respond to your question regarding how many appeals brought as a result of rejected applications for Disability Living Allowance have been upheld in each of the last five years for which records are available.

The information you have asked for is not available in the format requested as, due to the way data is gathered, it is not possible to provide figures solely concerning appeals brought as a result of rejected applications. Information is gathered by the total number of appeals received and the table below shows this over the last 5 years.

Great Britain, disability living allowance, number of appeals and appeals where the decision has been upheld in each year from 2001–05

	Cleared at hearing	*Cleared decision upheld*
2001	86,285	40,200
2002	72,815	32,510
2003	69,840	32,060
2004	75,080	35,800
2005	35,935	17,190

Notes:
1. Data is taken from the Management Information System (MIS) computer system.

DWP Information Directorate

I hope this information is helpful.

Mr. Hancock: To ask the Secretary of State for Work and Pensions (1) what the *(a)* average and *(b)* total cost is to the disability and carers service of defending decisions to refuse claims for disability living allowance against appeals; [22707]

(2) what the *(a)* average and *(b)* total cost is to the disability and carers service of reconsidering claims for disability living allowance that were initially rejected; [22708]

(3) what the *(a)* average and *(b)* total cost is to the disability and carers service of processing new claims for disability living allowance. [22709]

Mrs. McGuire: The administration of disability living allowance is a matter for the chief executive of the disability and carers service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran to Mr. Mike Hancock, dated 7 November 2005:

The Secretary of State has asked me, as Chief Executive of the Disability and Carers Service (DCS), to reply to your questions concerning the *(a)* average and *(b)* total cost to the DCS of defending decisions to refuse claims for disability living allowance against appeals, of reconsidering claims for disability living allowance that were initially rejected, and of processing new claims for disability living allowance.

The information is not available in the format requested for appeals and reconsiderations.

I am only able to provide the average cost and total cost for all appeal applications and reconsideration requests, not just those that were refused or rejected.

£

	Average cost	*Total cost*[1]
Appeal	100.77	3,320,992
Reconsideration	44.06	1,616,371
Claim	67.63	9,570,156
Special Rules claim	52.62	376,424

[1] Year to July 2005.

Notes:
1. Figures for actual year to date at July 2005.
2. The costs include medical evidence.
3. Includes direct staff costs only for those processing the events.
4. The special rules cover people who suffer from a progressive disease that is so severe that they are not expected to live longer than six months.

I hope you find this information useful and I am sorry I cannot be more helpful.

Mr. Hancock: To ask the Secretary of State for Work and Pensions pursuant to the answer of 7 June 2005, *Official Report*, column 452W, on disability living allowance, what progress has been made in developing a new claim form for disability living allowance; and which groups are being consulted as part of this development. [22710]

Mrs. McGuire: The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran to Mr. Mike Hancock, dated 7 November 2005:

You asked the Secretary of State for Work and Pensions, pursuant to the Answer of 7th June Official Report column 452W on disability living allowance, what progress has been made in developing a new claim form for disability living allowance; and which groups are being consulted as part of this development. The Secretary of State has asked me, as Chief Executive of the Disability and Carers Service (DCS), to reply to your question.

The DCS has been developing and testing different disability living allowance (DLA) claim forms since September 2003, in order to address concerns from disabled people and their representative organisations about the difficulties they were experiencing in claiming disability benefits. This has culminated in a claim form for DLA adult working age customers, currently being tested in the areas serviced by the Disability Benefits Centres at Manchester and Bootle. The effectiveness of the claim for both customers and DCS will be evaluated fully before any decisions are made about the way forward.

The establishment of the DCS as an Agency on 1st November 2004 marked an increased focus on understanding the needs of its customers through early proactive and open consultation with customer representative organisations. Consequently, the claim form currently being tested was subject to considerable consultation and input from a wide range of customer groups through the DCS Advisory Forum (formerly the Modern Service Working Group). The Forum provides the DCS' main consultation mechanism through its membership of 14 national Voluntary and Community Sector officers, who represent customers with a wide range of disabilities. Some of the Forum members also sought input from additional organisations, whom they considered could offer valuable input.

The list of organisations is attached at annexe 1.

I hope you find this information helpful.

Annexe 1

Organisation

Macmillan Cancer Relief

Mencap

Royal National Institute for the Blind (RNIB)

Note:
The special rules cover people who suffer from a progressive disease that is so severe that they are not expected to live longer than six months.

I hope this is helpful.

DNA Bioscience

Mr. Laws: To ask the Secretary of State for Work and Pensions what meetings have taken place between the *(a)* owners and *(b)* officials of DNA Bioscience since 5 May and (i) Ministers in his Department, (ii) officials in his Department and (iii) officials in his Department's agencies and non-departmental public bodies; and if he will make a statement. [24563]

Mr. Hutton: No such meetings have taken place.

Incapacity Benefit

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the claimant off-flow rates from *(a)* incapacity benefit and *(b)* severe disability allowance were in each of the last 15 years, broken down by reason for leaving the benefit. [25192]

Mrs. McGuire: The available information is in the tables.

Incapacity benefit off-flows by reason for termination for quarters shown

'—' means nil or negligible.

[1] Figures are subject to a high degree of sampling error and should only be used as a guide.

Notes:

1. These figures have been updated to include late notified terminations, including terminations for retirement pension.
2. All figures back to 1995 have been revised, and may be subject to further change;

(a) Figures prior to 2004 are subject to minor changes

(b) Figures for 2004 include fewer late notifications than previous quarters and will be subject to greater change in future

(c) Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total terminations for May 2004 increased by 33 per cent. in the year following their initial release.

3. "PCA" means Personal Capability Assessment (formerly the 'All Work Test').
4. "OOT" means Own Occupation Test.
5. Due to operational procedures a small number of Personal Capability Assessment terminations appear in 'Other reasons'.
6. Because of changes to the recording system, terminations due to the all work test are unreliable and are included in 'Other reasons'.

DWP Information Directorate, 5 per cent. samples.

Job Clubs

Mr. Drew: To ask the Secretary of State for Work and Pensions what assessment he has made of *(a)* the impact of the reduction in the number of job clubs and *(b)* the effect of the use of larger contractors to manage services. [22492]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. David Drew, dated 7 November 2005:

The Secretary of State has asked me to reply to your question concerning his assessment of the impact of the reduction in the number of job clubs and the effect of the use of larger contractors to manage services. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobsearch help has not been provided through Jobclubs for a number of years. The service that Jobclubs used to offer is now delivered through Programme Centres, and these centres continue to play an important role in our portfolio of provision. However,

in planning to make best use of reduced funding this year for our contracted provision, it was important that we gave priority to programmes helping those at greatest disadvantage including, for example, the New Deals. This does mean that, in some areas, Programme Centre contracts have not been extended or referral numbers have been cut this year.

The policy of using fewer, larger, contractors to manage services is being introduced in the current Jobseeker's Allowance New Deal contracting round for contracts due to begin in April 2006. It is too early to judge the effect. However, this policy has been introduced to rationalise a contract portfolio of some several thousand contracts. It should provide better value for money in contract management terms, as well as offering contracts of a size that are a more commercially viable proposition for providers. It aims also to alleviate the burden for smaller providers by offering them the scope to work with other local partners rather than having to bid for separate small contracts.

I hope this is helpful.

Job Creation

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on the current review of job creation schemes. [21273]

Margaret Hodge: A review of our welfare to work programmes was commissioned in 2003 to ensure that our programmes were able to help the greatest proportion of economically inactive people into work, as well as those claiming jobseeker's allowance.

Our strategy paper 'Building on New Deal (BoND): Local solutions meeting individual needs' was published on 17 June 2004. The paper sets out our strategy for building on the success of our employment programmes.

Jobcentre Plus

Mr. Drew: To ask the Secretary of State for Work and Pensions if he will make a statement on the end of job centre contracts in the last funding round, with particular reference to further education colleges. [22491]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Leslie Strathie to Mr. David Drew, dated 7 November 2005:

The Secretary of State has asked me to reply to your question concerning the end of jobcentre contracts in the last funding round, with particular reference to further education colleges. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Most of our contracts were due to expire on 31 March 2005. We initially extended some contracts for six months, to allow decisions to be made on our future contract needs. We further extended some of those contracts from October 2005 to April 2006 to allow sufficient time for the tendering process and for new contracts to start next April. In deciding how to make best use of reduced funding this year, achievement of agreed performance targets was a key criterion for extending contracts.

Of those contracts either terminated early (for reasons of poor performance or quality) or not renewed, current information suggests that approximately 7 per cent. were with further education colleges.

I hope this is helpful.

Joan Walley: To ask the Secretary of State for Work and Pensions what large scale redundancies have been notified to the Job Centre Plus in North Staffordshire by the Department of Trade and Industry. [21832]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Joan Walley, dated 7 November 2005:

The Secretary of State has asked me to reply to your question about what large scale redundancies have been notified to Jobcentre Plus in North Staffordshire by the Department of Trade and Industry. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Since March 2005, there have been 17 notifications of redundancies across North Staffordshire, involving 1,053 employees. Of these notifications, nine were designated by Jobcentre Plus for large scale redundancy status. These are as follows:

Company	*Number of employees involved*
Strathway Wellies	11
Shires Ltd	220
Dyson Ceramic Systems	30
Faiveley Transport Birkenhead Ltd	24
Leoni Wiring Systems UK Ltd	95
Bloor Potteries Ltd	36
W Moorcroft PLC	47
Sews Components Europe BV	57
Indesit Company UK Ltd	80

I hope this information is helpful.

Lone Parents

Mark Lazarowicz: To ask the Secretary of State for Work and Pensions (1) how many people in Edinburgh, North and Leith have received the lone parent work search premium; [22023]

(2) how many people in Edinburgh, North and Leith have received the in-work credit. [22024]

Margaret Hodge: Information is not available for the constituency of Edinburgh, North and Leith, however, in the Edinburgh Jobcentre Plus district, 780 people have received the lone parent in-work credit and 190 people have received the lone parent work search premium.

New Deal

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on changes in the budget for new deal programmes for 2005–06. [21274]

Margaret Hodge: Our aim is to ensure that all new deal participants have access to the full range of programme options. By actively managing our programme budgets, we will continue to ensure that support through the new deal will be available to those customers who need the most help and support, regardless of where they live. We have adjusted some regional allocations this year to ensure that we deliver our overall priorities.

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many people have *(a)* registered on the new deal for disabled people and *(b)* obtained a sustained (i) part-time and (ii) full-time job through the new deal for disabled people. [14396]

Margaret Hodge: Between July 2001 and May 2005, a total of 144,360 people had registered with a new deal for disabled people (NDDP) job broker. The number of people gaining a job up to May 2005, following registration with an NDDP job broker, was 59,560. Of these, 29,170 were sustained full-time jobs and 8,620 were sustained part-time jobs.

Notes:
1. For the purposes of new deal for disabled people, a job is regarded as sustained when a person, placed into work through an NDDP job broker, remains in work for 13 out of 39 weeks. Prior to October 2003, an NDDP job was regarded as sustained when a person, placed into work through an NDDP job broker, remained in work for 26 out of 39 weeks.
2. NDDP jobs data relate only to the number of individuals gaining a job through an NDDP Job Broker. A measure of sustainability is not available for non-job broker jobs.
3. Although data are now available on people into jobs through NDDP up to the end of August 2005, data provided is up to the end of May 2005, to allow three months for the job to be recorded as sustained.
4. Figures are rounded to the nearest 10

Source:
DWP Information Directorate

Pensions

Gregory Barker: To ask the Secretary of State for Work and Pensions what the average monthly contribution to stakeholder pensions is. [25684]

Mr. Timms: The average individual monthly contribution to stakeholder pensions was £119 for the year ending 5 April 2004—the latest year for which data are available.

Private Finance Projects

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions pursuant to the answer of 22 June 2005, *Official Report*, column 1076W, on private finance projects, what proportion of assets and liabilities for each of the listed private finance initiatives and public private partnerships is recorded on the Government balance sheet. [16132]

Margaret Hodge: The Department has one on-balance sheet contract which is held with ICB Ltd for serviced accommodation and support functions in respect of Health and Safety Laboratories at Buxton. This private finance initiative contract is accounted for as a finance lease, with 100 per cent. of the contract value disclosed as a liability on the balance sheet. On completion of the transfer of the risks and rewards of this asset to ICB Ltd, the Department received an element of the payment in cash terms (40 per cent.) and a proportion in reduced future accommodation payments (60 per cent.). The reduction to future accommodation charges is accounted for as a prepayment, and therefore an asset, on the balance sheet.

The majority of private finance initiative contracts held by the Department for Work and Pensions are recorded as off-balance sheet. These are accounted for as operating leases and expenditure is put straight to the operating cost statement as it is incurred. Where a reduced cash value is received from the contractor, the remaining value of the asset will be disclosed as a prepayment on the balance sheet. The prepayment is then amortised to the operating cost statement over the life of the contract.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions pursuant to the answer of 22 June 2005, *Official Report*, column 1076W, on private finance projects, what the accounting treatment of assets and liabilities for each of the listed private finance initiatives and public private partnerships is; and whether this treatment is compliant with *(a)* UK generally accepted accounting practices and *(b)* international financial reporting standards. [16134]

Margaret Hodge: The Department has one on-balance sheet contract which is held with ICB Ltd for serviced accommodation and support functions in respect of Health and Safety Laboratories at Buxton. This private finance initiative contract is accounted for as a finance lease and is disclosed as a liability on the balance sheet. The reduction to future accommodation charges is accounted for as a prepayment, and therefore disclosed as an asset, on the balance sheet.

The majority of private finance initiative contracts held by the Department for Work and Pensions are recorded as off-balance sheet. These are accounted for as operating leases and expenditure is put straight to the operating cost statement as it is incurred. Where we have consideration for assets transferred to the contractor, this may be received in the form of cash or reduced future rentals. Any of the latter element will be disclosed as a prepayment on the balance sheet. The prepayment is then amortised to the operating cost statement over the life of the contract. This treatment is compliant with HM Treasury guidance detailed in their Resource Accounting Manual, which is based on UK generally accepted accounting practices.

Sure Start

Danny Alexander: To ask the Secretary of State for Work and Pensions if he will estimate the cost of extending Sure Start Maternity Grant eligibility to recipients of *(a)* long-term incapacity benefit, *(b)* short-term higher rate incapacity benefit and *(c)* short-term lower rate incapacity benefit. [14479]

Margaret Hodge: The information is not available and could be provided only at disproportionate cost.

In order to qualify for a Sure Start Maternity Grant (SSMG), claimants must have an award of one of the income related qualifying benefits or tax credits in respect of the date of claim. The qualifying benefits or tax credits are income support, income based jobseeker's allowance, pension credit, child tax credit at a rate higher than the family element and working tax credit that includes a disability or severe disability element. People who receive incapacity benefit qualify for an SSMG if they receive a qualifying benefit or tax credit.

An SSMG can be claimed at any time from the 29th week of pregnancy until three months after the birth. There will be claimants who, although they do not

qualify before the baby is born, will be entitled to a qualifying benefit or tax credit following the birth and as a consequence may be entitled to receive an SSMG.

TRANSPORT

Air Carrier Insolvencies

Mrs. Dunwoody: To ask the Secretary of State for Transport what estimate he has made of the proportion of leisure air passengers who were protected by the Air Traffic Organisers Licence in each year since 1995. [25142]

Ms Buck: Statistics compiled by the Civil Aviation Authority indicate the percentage of UK international leisure air travellers covered by ATOL over the last 10 years (year ending December) were as follows:

	Leisure passengers (million)	*ATOL protected passengers (million)*	*Percentage ATOL protected (percentage)*
1995	23.2	19.1	82
1996	22.2	21.3	96
1997	24.0	23.5	98
1998	27.4	25.0	91
1999	30.3	26.4	87
2000	33.5	28.0	84
2001	35.9	29.1	81
2002	36.8	27.9	76
2003	39.6	27.6	70
2004	42.5	28.1	66

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will estimate the proportion of leisure air passengers who will be protected by the Air Traffic Organisers Licence in each year to 2010. [25143]

Ms Buck: The percentage of UK international leisure air travellers who will be covered by ATOL over the next five years is estimated as follows:

Proportion of leisure air travellers with ATOL protection

	Percentage
2004	66
2005	54–61
2006	42–57
2007	32–53
2008	22–50
2009	22–48
2010	22–46

From 2005 the percentage is expressed in terms of a range, which reflects high and low estimates for the decline in ATOL protection.

Mrs. Dunwoody: To ask the Secretary of State for Transport what estimate he has made of the number of leisure air passengers who flew without Air Traffic Organisers Licence protection in each year since 2000. [25144]

Ms Buck: Statistics compiled by the Civil Aviation Authority indicate the number of UK international leisure air travellers not covered by ATOL over the last five years was as follows.

	Leisure passengers not ATOL protected (million)
2000	5.5
2001	6.8
2002	8.9
2003	12.0
2004	14.4

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will estimate the total regulatory compliance cost of the Air Traffic Organisers Licence bonding requirements for tour operators. [25145]

Ms Buck: The tour operator industry has estimated that it incurs direct bonding costs of £50-£60 million per annum (i.e. the aggregate amount charged by bond obligors to tour operators).

In addition to this there are costs associated with staff time spent on organising bonding and compliance. The industry estimated these costs at £22 million.

In addition tour operators pay ATOL fees to the Civil Aviation Authority of approximately £5.5 million per annum.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many UK airlines have become insolvent since 2000. [25146]

Ms Buck: There have been five airline insolvencies since 2000. They were Gill Aviation in 2001, British World Airlines and HC Airlines in 2002, Euroceltic in 2003 and Duo in 2004. AB Airlines and Debonair became insolvent in 1999 but their operating licences were revoked by the CAA in 2000.

Concessionary Travel

Mr. Laurence Robertson: To ask the Secretary of State for Transport what additional funding he is providing *(a)* in England and *(b)* to each of the district councils in Gloucestershire in 2005–06 to cover the cost of providing concessionary travel for the over-60s; how much funding he plans to provide in future years; what percentage of the total costs of providing this travel the funding will represent; and if he will make a statement. [24955]

Ms Buck: The Government will provide an extra £350 million in 2006–07 and £367.5 million in 2007–08 which will be sufficient to fund the cost to local authorities. A decision on how the extra funding will be distributed will be made in due course.

John Cummings: To ask the Secretary of State for Transport what arrangements he is making to enable cross-boundary travel between County Durham, Tyne and Wear and Teeside under the concessionary travel scheme for over-60s; and if he will make a statement. [25696]

Ms Buck: From 1 April 2006, residents who are 60 or over, or disabled will be entitled to free off-peak bus travel within the boundary of the district or unitary council, or the passenger transport executives (PTEs) in metropolitan areas. However, local authorities and PTEs will retain their discretion to work together to provide cross-boundary travel.

Cross London Rail Links

Mr. Scott: To ask the Secretary of State for Transport whether a new *(a)* chair and *(b)* chief executive of Cross London Rail Links has been appointed; and if he will make a statement. [23716]

Derek Twigg: There will be an announcement in due course.

Deparatmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Transport which individual is responsible for developing and implementing his Department's Skills Development Plan. [23835]

Ms Buck: I refer the hon. Member to the answer given on 2 November 2005, *Official Report*, column 1074W, by my right hon Friend, the then Minister of the Cabinet Office.

Mr. Gibb: To ask the Secretary of State for Transport if he will place in the Library a copy of his Department's Skills Development Plan. [23860]

Ms Buck: The available copies of the Department's Skills Development Plans have been placed in the Libraries of the House.

Departmental Estate

Mr. Hollobone: To ask the Secretary of State for Transport what *(a)* land and *(b)* property his Department owns in Kettering constituency. [24382]

Ms Buck *[holding answer 3 November 2005]:* The Secretary of State owns one small plot of land in Kettering, details are as follows:

Narrow waste strip on Rockingham Road.

This land adjoins a recently completely residential estate and details have been entered onto the English Partnerships Register of Public Sector land.

Gershon Review

Dr. Cable: To ask the Secretary of State for Transport how many full-time equivalent employee reductions his Department has made as a result of the Gershon review; what cost savings relating to IT projects were achieved; what value of efficiency savings *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06; and if he will make a statement. [24331]

Ms Buck *[holding answer 3 November 2005]:* Progress on efficiency gains and headcount reductions was reported in Budget 2005 and in the departmental annual reports. Further progress will be reported in the Department's autumn performance report and at aggregate level in the pre-Budget report.

The Department has a published efficiency target for 2005–06 of £174.8 million.

Investment in IT projects, for example to open up or extend e-channels, has made a contribution to the Department's Efficiency Programme, but these efficiency gains are not identified or measured in isolation.

Mr. Francois: To ask the Secretary of State for Transport what progress has been made, in terms of *(a)* headcount reductions and *(b)* cost savings, in achieving the efficiency objectives set for the Department by the Gershon review. [21305]

Ms Buck: Progress was reported in Budget 2005 and in the departmental annual reports. Further progress will be reported in the autumn performance reports and at aggregate level in the pre-Budget report.

IT Projects

Mr. Laws: To ask the Secretary of State for Transport how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public *(a)* in full and *(b)* in part Gateway reviews for these projects. [23525]

Ms Buck: 235 IT projects have been developed for DfT from 29 May 2002, when the Department was formed.

A Gateway review is conducted on a confidential basis for the senior responsible owner of each project. Under the Freedom of Information Act 2000 each request for the release of information contained in a Gateway Review is considered on a case-by-case basis. To date the Department has not received any requests for disclosure of Gateway reports under FOI.

London Olympics

Miss McIntosh: To ask the Secretary of State for Transport if he will make a statement on the role of the British Transport Police in the run-up to the Olympic Games to be held in London in 2012. [22313]

Derek Twigg: British Transport Police (BTP) carries out an important role in maintaining the security of the railways and in deterring potential terrorist activity. The excellent work that it does was demonstrated in its response to events in London on 7 and 21 July.

The Secretary of State for Transport announced to the House on 11 October 2005 that he is to undertake a review of the role of the BTP. The review will be undertaken by the Department for Transport in parallel with the review of the 43 local police forces being undertaken by the Home Secretary. The aim of the review is to examine the functions of the BTP and whether some or all of these are best carried out by a national force, regional forces, or, indeed, by the industry itself.

The future role of the BTP in the run up to the Olympic Games, will depend on the outcome of the review.

Motor Vehicle Emissions

Annette Brooke: To ask the Secretary of State for Transport what action he is taking to address air pollution and emissions from motor vehicles. [25123]

Ms Buck: Since the early 1990s, tighter EU emissions standards (known as Euro Standards) have been adopted for new cars, light and heavy goods vehicles and buses. The latest (Euro IV) standards are being

progressively introduced for all new vehicles over the next 12 months. An additional stage that further tightens the NOx limit for heavy duty vehicles (trucks and buses) is already in place and will come into force in 2008. The European Commission is also giving consideration to further measures that are expected to take effect from the end of this decade. These measures already have, and will continue to play, a major role in further improving air quality.

Noise Pollution

Annette Brooke: To ask the Secretary of State for Transport what representations he has received regarding noise pollution from cars fitted with double exhausts; and what discussions he has had with manufacturers on this. [25138]

Ms Buck: The answer to both points is none. Since 1996, the noise limit for all new passenger cars registered for on-road use in the European Union has been 74 dB(A). This limit applies to all cars, regardless of the type of exhaust system fitted.

Railways

Miss Kirkbride: To ask the Secretary of State for Transport when he intends to direct Network Rail to start work in developing a scheme to lengthen the platform at Bromsgrove station; and what estimate he has made of the costs of such a scheme. [24838]

Derek Twigg: Network Rail has commenced discussions with Central Trains and Worcestershire county council to investigate proposals for a platform extension scheme at Bromsgrove station. The decision on whether to proceed will be for Network Rail to take.

Miss Kirkbride: To ask the Secretary of State for Transport how much the Department has allocated to the West Midlands for rail transport infrastructure for 2005–06. [24839]

Derek Twigg: The Department does not hold data on the funding allocated for rail transport infrastructure by region. Spending on railway infrastructure is managed by Network Rail, within the total sums made available to them. This amounts to £22 billion for 2005–06 for the entire rail network, including the West Midlands.

The West Midlands Passenger Transport Executive as a regional transport authority, also allocates funding support for rail related infrastructure schemes. In 2005–06 this amounts to £5.262 million.

Mr. Duncan: To ask the Secretary of State for Transport which railway lines he expects to close in order to allow more high speed and freight services to run. [25139]

Mr. Darling: There are no plans to close railway lines in order to allow more high speed and freight services to run.

Mr. Duncan: To ask the Secretary of State for Transport if he will list the railway lines being considered for closure by his Department in the next 12 months. [25189]

Mr. Darling: There are two current closure notices in respect of railway lines between Stratford and North Woolwich and Farringdon and Moorgate.

The Stratford to North Woolwich notice is in anticipation of the conversion to light rail and the transfer of services to DLR between Stratford International and Royal Victoria stations in East London.

Rail services between Farringdon and Moorgate are currently provided by main line rail and London Underground (LUL), with LUL being the dominant provider. In connection with the Thameslink 2000 Project, LUL will become the sole provider if proposals are implemented.

Mr. Duncan: To ask the Secretary of State for Transport what restrictions are in place regarding the sale of alcohol on board trains. [25191]

Mr. Darling: The national railway byelaws allow a train operator or the police to give reasonable notice prohibiting the possession of intoxicating liquor, and therefore also its sale and consumption, on any specified train service or services.

The Licensing Act 2003 will give magistrates courts the power to prohibit the sale of alcohol on trains if requested by a senior police officer.

Road Schemes

Gregory Barker: To ask the Secretary of State for Transport what assessment has been made of the economic impact of the Bexhill to Hastings link road on the local community; and if he will make a statement. [25238]

Ms Buck: The Economic Impact Report submitted by East Sussex county council in 2004 as part of their bid for funding for the Bexhill to Hastings link road demonstrated that this scheme would make a significant contribution to the strategy for the regeneration of Hastings. This is one of the factors we took into account in giving Provisional Approval for this scheme in December 2004 for funding through the Local Transport Programme.

CULTURE, MEDIA AND SPORT

Arts Council England

Mr. Pelling: To ask the Secretary of State for Culture, Media and Sport how much grant-in-aid funding was allocated by Arts Council England to culture in *(a)* London and *(b)* Croydon in the financial year 2005–06. [24544]

Mr. Lammy: Arts Council England allocates grant-in-aid funding to their portfolio of regularly funded organisations.

The following figures supplied by Arts Council England provide a breakdown of the information requested.

Arts Council England, London—regularly funded organisation budget

2005–06	*£*
London	152,343,445
Of which:	
Croydon—regularly funded organisations	
Croydon Clocktower	82,500
London Mozart Players	153,750
Total	236,250

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how much grant-in-aid funding was allocated by Arts Council England to recipients in *(a)* Hertfordshire and *(b)* Dacorum in 2005–06. [25820]

Mr. Lammy: Arts Council England allocates grant-in-aid funding to their portfolio of regularly funded organisations.

The following figures supplied by Arts Council England provide a breakdown of the information requested.

Regularly funded organisation	*Hertfordshire*	*2005–06 (£)*
Old Town Hall, Hemel Hempstead	Dacorum	23,650
SNAP People's Theatre	East Hertfordshire	62,375
Trestle Theatre Company	St. Albans	248,337
Independent Publishers' Guild	North Hertfordshire	25,650
Watford Palace Theatre	Watford	679,752
Total		1,039,764

Big Lottery Fund

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what the *(a)* cost to date and *(b)* projected cost is of the merger of the Community Fund and the New Opportunities Fund to create the Big Lottery Fund. [24927]

Mr. Caborn: The cost to date of the administrative merger of the Community Fund and the New Opportunities Fund to create the Big Lottery Fund is £4,976,235. The administrative merger of the funds is now effectively complete, though some minor costs will be incurred in effecting the legal merger, if the National Lottery Bill before Parliament is passed.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport when the Minister for Creative Industries and Tourism will reply to the letter of 18 August from the hon. Member for West Worcestershire (Ref: CMS 21066/DC). [22137]

James Purnell *[holding answer 27 October 2005]:* I wrote to the hon. Member on 26 October 2005.

Departmental Meetings

Mrs. May: To ask the Secretary of State for Culture, Media and Sport (1) what meetings Members of her Department have had with representatives from *(a)* the Natural History museum, *(b)* the Royal Armouries, *(c)* Sir John Soane's museum, *(d)* Sport England, *(e)* the Tate Gallery, *(f)* the UK Film Council, *(g)* the British Library, *(h)* UK Sport, *(i)* the Victoria and Albert museum, *(j)* Visit Britain and *(k)* the Wallace Collection since 1 January; and what issues were discussed in each meeting; [21156]

(2) what meetings *(a)* Ministers and *(b)* Officials of her Department have had with representatives from the (i) National Lottery Commission, (ii) National Maritime museum, (iii) National Museum of Science and Industry, (iv) National Portrait Gallery, (v) National Gallery, (vi) National Heritage Memorial Fund (Heritage Lottery Fund), (vii) Museums, Libraries and Archives Council, (viii) Museum of Science and Industry in Manchester, (ix) Museum of London, (x) Millennium Commission, (xi) Imperial War museum, (xii) the Tate, (xiii) Horserace Betting Levy Board, (xiv) Football Licensing Authority, (xv) Horniman Public Museum and Public Park Trust, (xvi) Historic Royal Palaces, (xvii) Gaming Board, (xviii) Geffrye museum, (ixx) English Heritage, (xx) CABE, (xxi) Big Lottery Fund, (xxii) Arts Council England, (xxiii) Alcohol Education and Research Council, (xxiv) Churches Conservation Trust and (xxv) British Museum since 1 January; and what issues were discussed in each meeting. [21157]

Mr. Lammy: Ministers and Officials hold regular meetings with representatives of the Department's sponsored bodies on a wide range of issues. The detailed information requested could be provided only at disproportionate cost.

Digital Switchover

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport whether her plans for help and follow-up support with digital switchover for people aged 75 years and over extend to providing free *(a)* installation, *(b)* equipment and *(c)* telephone helpline advice in relation to digital television reception: [24372]

James Purnell: We have made clear that targeted support will be available to households where someone is aged 75 or over; and to households where someone has a severe disability—defined as those people eligible for either disability living allowance or attendance allowance.

The full details of the scheme are being developed, but the assistance will consist of providing the necessary equipment to convert one television set and the relevant support to install and use such equipment. This help will be free for the poorest eligible households, those on income support, jobseeker's allowance or pension credit; other qualifying households will pay a modest fee.

Football Funding (Northern Ireland)

Mr. Peter Robinson: To ask the Secretary of State for Culture, Media and Sport how much *(a)* lottery and *(b)* Foundation for Sport and the Arts funding was allocated to (i) soccer and (ii) the Gaelic Football Association in Northern Ireland in each of the last five years. [24161]

Mr. Caborn: The Sports Council for Northern Ireland has provided the following table that gives a breakdown of figures for lottery funding allocated to (i) soccer and

(ii) the Gaelic Football Association in Northern Ireland in each of the last five years. I understand that the Foundation for Sport and the Arts does not currently fund soccer or the Gaelic Football Association in Northern Ireland.

£

	Soccer	Gaelic Football Association
2001-02	442,908	657,869
2002-03	696,561	884,462
2003-04	322,149	118,112
2004-05	765,048	750,947
2005-06	9,000	101,330

Note:
The old lottery capital funding programmes closed during 2004-05. The new programme was launched in January 2005; however no offers were made until October 2005.

Freelance Musicians (National Insurance)

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport when the Treasury first informed *(a)* her and *(b)* her Department that freelance musicians would be required to pay higher national insurance contributions. [24926]

Mr. Lammy: Implementation of the regulations on national insurance contributions is normally a matter for Her Majesty's Revenue and Customs (HMRC). Arts Council England and my officials are working with HMRC to find the most practicable solution while keeping me fully informed.

Lottery Tickets

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how many retailers sell National Lottery tickets; and how many of those retailers also sell Olympic Lottery tickets. [25487]

Mr. Caborn: We have been informed by Camelot Group plc. the National Lottery operator, that currently 27,686 retailers sell lottery tickets and 88 per cent. of them hold stocks of "Go For Gold" Olympic Lottery scratchcards.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how many retailers selling National Lottery tickets have declined to sell Olympic Lottery tickets. [25488]

Mr. Caborn: Camelot Group plc. have informed us that they do not collect this information. However, they are not aware of any retailers having declined to sell "Go For Gold" Olympic Lottery scratchcards.

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what guidance has been given to retailers selling National Lottery tickets on the sale of Olympic Lottery tickets. [25491]

Mr. Caborn: Camelot Group plc. have informed us that guidance for retailers is the same as for other games in the scratchcard portfolio. However, retailers have been informed that Good Cause revenue generated through the "Go For Gold" Olympic Lottery scratchcard would help to raise the funding required to stage the London Games. Camelot maintains on-going dialogue with retailers, who are able to seek help and advice from the operator via the retailer hotline.

Museums and Galleries (London)

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport whether visitor numbers for those museums and galleries in London that are funded by grant in aid have declined since the terrorist attacks in July. [24928]

Mr. Lammy: Yes, the numbers of visits to London-based museums and galleries sponsored by my Department have fallen since the terrorist attacks in July. Compared to the same period last year, visit numbers fell by 20 per cent. in July and by 30 per cent. in August. However, recent figures have shown an improvement, with only a 5 per cent. drop in visits in September.

National Heritage Act

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many undertakings to indemnify objects under section 16 of the National Heritage Act 1980 have been made in each year since 1990 by *(a)* her Department and its predecessors and *(b)* the Museums Libraries and Archives Council and its predecessors; what the contingent liabilities were in each case; and if she will make a statement. [24168]

Mr. Lammy: Information on undertakings to indemnify objects prior to the setting up of the Department of National Heritage in 1992 is no longer available. The information from 1992 is set out in the following table which details all statutory/non-statutory actual and contingent liabilities held by the Department for Culture, Media and Sport and its predecessor, the Department of National Heritage, as at the end of each financial year.

Financial year	Number of indemnities	Contingent liabilities (£)
2004-05	1,034	2,751,808,379
2003-04	687	3,177,492,071
2002-03	714	3,063,354,125
2001-02	629	2,466,655,792
2000-01	647	2,041,341,917
1999-2000	626	1,829,371,639
1998-99	520	2,230,770,568
1997-98	596	1,568,106,674
1996-97	469	1,337,264,837
1995-96	452	1,366,004,790
1994-95	469	2,096,423,871
1993-94	437	1,844,520,914
1992-93	501	1,187,879,848

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what rules govern the staging of other sports fixtures in the UK during the Olympic games in 2012. [25026]

Mr. Caborn: The IOC, as part of the host city contract, ask all host cities to take steps to ensure that no major event that could have an impact on the successful organisation and staging of the games takes place in London or at other competition venues during the period of the games. The Government and LOCOG will be working with the IOC, venue owners, local

authorities and national governing bodies to ensure we take a common sense approach to the application of this particular requirement.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether any member of the English Institute of Sport had discussions with *(a)* candidates, *(b)* potential candidates and *(c)* voting members during the recent elections to the chairmanship of the British Olympic Association. [22610]

Mr. Caborn *[holding answer 28 October 2005]:* The English institute of Sport (EIS) is not a body sponsored by this Department but is grant funded by and therefore accountable to Sport England.

I have been informed by Sport England that the chair of the EIS was asked by a potential candidate for the post of chairman of the BOA for his personal opinion as to whether their possible candidacy had merit. On his behalf, the EIS chairman contacted a voting member of the National Olympic Committee (NOC) about the possibility of a late nomination for the potential candidate being accepted. The potential candidate ultimately did not stand.

I have also been informed that at no stage did the EIS chairman have discussions with, or make suggestions to, NOC members about how they should vote in the election.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many businesses in the Marshgate area need to be resettled to accommodate the London 2012 Olympics; how many have accepted final settlements; and by what date the relocation needs to be completed. [22613]

Mr. Caborn *[holding answer 28 October 2005]:* There are 284 businesses (of which 96 are in or adjacent to Marshgate Lane) in the Olympic Park area that the London Development Agency is seeking to engage with individually to understand their relocation requirements and to discuss with them the LDA's offer to acquire their premises by agreement.

164 of these have appointed advisers in order to start negotiations and the LDA has reached in-principle agreements with 31 businesses, of which 22 have signed Heads of Agreements.

The majority of the businesses in the Olympic Park area will need to move by mid-2007. However around 53 of the businesses will not be required to relocate until later in the process, as vacant possession of their land is not required until 2009.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how compensation for businesses due to be relocated due to the London 2012 Olympics is calculated ; and on what date the land value is assessed. [22614]

Mr. Caborn *[holding answer 28 October 2005]:* The businesses or parties with an interest in the land to be acquired under a confirmed Compulsory Purchase Order are compensated under the statutory Compensation Code.

They receive the market value of their premises or other land interests. In addition they are entitled to the following: a disturbance payment in terms of either the business' relocation or extinguishment, a statutory loss payment can be made to commercial and residential owners/occupiers based on a percentage of market value of their property or interests. They are also paid the reasonable costs of their legal advisors and surveyors. Each party with a compensateable interest is entitled to appoint a chartered surveyor to negotiate the compensation on their behalf with the acquiring authority. Disputes as to the level of compensation payable are referred to the Lands Tribunal.

If the CPO is confirmed the date of land valuation is either a date the parties agree as appropriate, or the date the acquiring authority takes possession of the land. This will not be before the date on which the Secretary of State for Trade and Industry issues his decision concerning confirmation of the CPO.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what rules govern the use of sports stadiums whose name includes an advertisement as a venue for Olympic Sports in 2012. [25024]

Mr. Caborn: The IOC require all host cities to sign up to a comprehensive "Look of the Games" programme, which includes details of how Olympic venues are presented. All 2012 venues, as part of this programme, have agreed to give LOCOG the exclusive control of all venues naming rights and signage for the period of the Games.

Television Signal

Mr. Holloway: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to provide individuals with assistance with the switchover to digital television. [24050]

James Purnell: I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State to my hon. Friend the Member for Glasgow, North (Ann McKechin) on 28 October 2005, *Official Report*, column 614W.

World Cup

John Hemming: To ask the Secretary of State for Culture, Media and Sport which day in 2006 has been earmarked for the return of the football World Cup trophy to England in the event of victory in Germany. [24817]

Mr. Caborn: In the event of the England football team being victorious at the 2006 World Cup in Germany, suitable arrangements to celebrate this success and to welcome both the team and trophy home will be made with the relevant authorities.

CABINET OFFICE

Civil Servants

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster what account is taken of differences between the value of civil service pension provision and that of workers in comparable jobs in the private sector in setting the pay of civil servants. [24819]

Mr. Jim Murphy: When making recommendations to Government on pay for the senior civil service, the independent Senior Salaries Review Body reviews all the elements of the total reward package, including pension, and compares them with those available to executives with similar roles in the private and wider public sectors. The Government are not bound to accept the Review Body's advice but always consider its independent views.

Departments and agencies have authority to determine pay and conditions for their staff below the senior civil service which are appropriate for their business needs and are consistent with Government's policies on the civil service and take account of the Government's policies on public sector pay. Her Majesty's Treasury's annual "Pay Remit Guidance" makes it clear that pay is only one element of the total reward package. Accordingly, Departments and agencies are expected to take account of the overall package, including pensions, when benchmarking against pay levels in the wider economy.

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster what the cohort life expectancy of *(a)* male and *(b)* female civil servants retiring in normal health at age 60 (i) was in 1972, (ii) is based on the latest available data and (iii) is projected on dates for which estimates are available up to 2045. [24879]

Mr. Jim Murphy: The Scheme Actuary to the Principal Civil Service Pension Scheme (PCSPS) has provided the following figures for the expected average life expectancy of civil servants retiring in normal health at age 60:

	Male	*Female*
1972	79.5	83.2
2003[1]	84.4	87.4
Current civil servants	86.8	89.8

[1] The assumptions used for existing pensioners in the last review of employer contributions to the PCSPS.

No projected figures have been made for each year up to 2045.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the literacy and numeracy skills of new recruits to his Department. [21008]

Mr. Jim Murphy: The Cabinet Office competence based recruitment system is designed to identify candidates with the most suitable skills and competences for the job. Candidates are assessed on their ability to communicate effectively both verbally and in writing, and where necessary asked to provide evidence of their numeracy levels. There is also scope, within the selection system, for further testing of candidate's communication and numerical skills through verbal and numerical reasoning tests.

Mr. Gibb: To ask the Chancellor of the Duchy of Lancaster what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23783]

Mr. Jim Murphy: All new recruits to the Department within the last 12 months have at least a level 2 qualification in English and mathematics.

Duchy Property (Kettering)

Mr. Hollobone: To ask the Chancellor of the Duchy of Lancaster what *(a)* land and *(b)* property the Duchy owns in the Kettering constituency. [24362]

Mr. Jim Murphy: The Duchy of Lancaster does not own any land or property in the Kettering constituency, but does have certain manorial rights, mainly relating to minerals.

e-Government

Miss McIntosh: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the level of security on the e-Government network. [25430]

Mr. Jim Murphy: Her Majesty's Government operates the Government Secure Intranet (GSI) which is kept under regular security assessment to ensure that risks are mitigated to an appropriate level. As part of the critical national infrastructure, connections to the GSI are assured through the National Infrastructure Security Co-ordination Centre (NISCC) authorisation.

Gershon Review

Dr. Cable: To ask the Chancellor of the Duchy of Lancaster how many full-time equivalent employee reductions were made in his Department as a result of the Gershon review; what cost savings relating to IT projects have been made; what value of efficiency savings *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06; and if he will make a statement. [24638]

Mr. Jim Murphy: Progress in 2004–05 will be reported in the Cabinet Office's Autumn Performance Report.

No savings are planned relating to information technology projects.

The Department has an efficiency target for 2007–08 but no intermediate target for 2005–06.

Influenza Pandemic

Mr. Lansley: To ask the Chancellor of the Duchy of Lancaster whether he has drafted regulations to be laid before Parliament under the Civil Contingencies Act 2004 in the event of an influenza pandemic. [25110]

Mr. Jim Murphy: The Government maintain a set of draft emergency regulations which could be made in the event of any emergency which met the thresholds set out in Part 2 of the Civil Contingencies Act 2004. The thresholds are that the emergency itself must be sufficiently serious, it must be necessary to take new powers, and that any new powers taken must be proportionate to the situation.

These draft regulations are generic, and so do not include any specific regulations which relate to an influenza pandemic. However, they do include a range of powers in relation to human health and connected matters, which could be quickly adapted to the specific requirements of a pandemic should the need arise.

Staff Relocation

Dr. Cable: To ask the Chancellor of the Duchy of Lancaster how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of the Lyons review of public sector relocation; to which places they have been relocated; and if he will make a statement. [24637]

Mr. Jim Murphy: No posts were relocated in 2004–05. 15 posts are expected to move to Warrington in 2005–06 as the first tranche of the relocation of part of the e-Government Unit. Details have yet to be finalised.

CONSTITUTIONAL AFFAIRS

Asylum and Immigration Tribunal

Mr. Mudie: To ask the Minister of State, Department for Constitutional Affairs what the average time was between the receipt of papers by the Asylum and Immigration Tribunal from the Home Office appeals processing centre and the relevant appeal taking place in the last period for which figures are available. [24872]

Bridget Prentice: The latest provisional information from the Asylum and Immigration Tribunal (AIT) indicates that, for the period April to end of June 2005, the average time between the AIT receipt of an appeal from the Immigration and Nationality Directorate (IND), and the date set for a substantive appeal hearing before an immigration judge, is as follows:

(i) Five weeks for asylum appeals; and

(ii) Nine weeks for immigration appeals (comprising in-country and entry clearance cases but not including family visitor appeals).

This information only applies to appeals received by the AIT from the IND. It does not include appeals lodged directly with the AIT following its commencement on 4 April 2005.

Asylum Seekers

Andrew Rosindell: To ask the Minister of State, Department for Constitutional Affairs how many failed asylum seekers are appealing against a Home Office decision to deport them from Great Britain. [22965]

Bridget Prentice: The Asylum and Immigration Tribunal (AIT) does not hold information on the current numbers of failed asylum seekers who have appeals before it arising from the service of a notice of the intention to deport, by the Immigration Services, pursuant to s.63 of the Immigration and Asylum Act 1999.

Checks with the Immigration and Nationality Directorate (IND) of the Home Office have confirmed that IND do not collate information on the numbers of failed asylum seekers appealing against these type of decisions.

Carbon Management Programme

Norman Lamb: To ask the Minister of State, Department for Constitutional Affairs whether her Department will sign up to the Carbon Trust's Carbon Management programme. [23724]

Bridget Prentice: My Department is fully committed to reducing carbon emissions and is signed up to the Government's Energy White Paper which sets targets of reducing absolute carbon from fuel and energy efficiency used in buildings on their estate by 12.5 per cent. by 2010–11 relative to 1999–2000. My Department also fully recognises the need for Government Departments to show leadership on energy efficiency, and has over the past 10 years introduced a rolling programme of energy surveys and energy saving works.

At this time the Department is finalising its sustainable development strategy, which includes targets for reduction of energy consumption and on-going energy savings works. The Department will consider joining the Carbon Trust's scheme as part of its on-going sustainable development action plan.

Court Fines (Northern Ireland)

Mr. Peter Robinson: To ask the Minister of State, Department for Constitutional Affairs how much has been collected in fines at magistrates courts in Northern Ireland in each of the last three years. [25170]

Bridget Prentice: Fines collected in magistrates courts in Northern Ireland in each of the last three years are as follows:

	£
2002–03	3,577,780
2003–04	4,267,210
2004–05	4,755,490

Court Service (Northern Ireland)

Mr. Gregory Campbell: To ask the Minister of State, Department for Constitutional Affairs when she expects to report on the outcome of the investigation being carried out into irregularities that may have occurred involving private firms and the Court Service in Northern Ireland. [24774]

Bridget Prentice: The Northern Ireland Court Service asked the Police Service of Northern Ireland to investigate the circumstances surrounding the participation of two of its officials in a sailing holiday at the invitation of a prominent contractor. This investigation is still ongoing.

I am not in a position to indicate when that investigation will be concluded as the conduct of the police investigation is a matter for the PSNI.

In addition to the police investigation the Northern Ireland Court Service also established an independent investigation into the acceptance of gifts and hospitality. As the police investigation necessarily has primacy, the independent investigation will not be completed until after the police investigation has been concluded.

Debt Arrears

Dr. Cable: To ask the Minister of State, Department for Constitutional Affairs how many county court judgments have been *(a)* registered and *(b)* issued on people due to arrears of unsecured debt for each month for which data is available since 1990, broken down by county; and if she will make a statement. [24299]

Bridget Prentice: The Department does not hold all of the information requested and it could be provided only at a disproportionate cost. However, the following table sets out the number of judgments against individual consumers registered each month from January 1990 to September 2005, which is the only information currently available.

Register of county court judgments—consumer judgment registrations

	January	*February*	*March*	*April*	*May*	*June*	*July*
2005	73,907	62,590	68,125	72,072	62,191	59,758	71,776

1995	94,416	118,381	121,355	95,095	72,228	1,145,998
1994	92,508	135,392	99,634	105,535	90,462	1,304,769
1993	114,437	106,082	141,478	108,341	95,498	1,473,861
1992	125,630	129,717	146,182	99,005	112,442	1,688,036
1991	151,409	224,236	187,770	197,800	109,262	1,817,611
1990	178,813	149,651	133,799	184,048	108,803	1,486,008

Dr. Cable: To ask the Minister of State, Department for Constitutional Affairs what recent assessment his Department has undertaken of the circumstances in which financial institutions can repossess debtors' homes in order to collect unsecured debts; and if she will make a statement. [24300]

Ms Harman: My Department has not undertaken, nor have any plans to undertake, an assessment of the circumstances by which an individuals' home can be repossessed due to unsecured debts.

Chris Huhne: To ask the Minister of State, Department for Constitutional Affairs how many proceedings for the repossession of mortgaged property were initiated in each quarter since 1988, broken down by region; and how many repossessions were granted to lenders in each quarter. [24323]

Bridget Prentice: A table setting out the relevant mortgage possession figures from the 1st Quarter 1988 to the 3rd Quarter 2005, broken down by region has been placed in the Libraries of both Houses. The 2004 and 2005 figures are provisional and therefore liable to revision to take account of any late amendments.

Departmental Property (Kettering)

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs what *(a)* land and *(b)* property her Department owns in Kettering constituency. [24785]

Ms Harman: The Department for Constitutional Affairs has two freehold properties within the electoral constituency of Kettering county. These are Kettering magistrates court, located in London Road, Kettering, and Kettering county court, located in Dryland Street, Kettering. We do not hold any land separately within the electoral constituency of Kettering.

DNA Bioscience

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs whether DNA Bioscience is accredited for DNA-related work in the UK. [25226]

Bridget Prentice: I refer the hon. Member to my reply to the hon. Member for Monmouth (David T.C. Davies) on 24 October 2005, *Official Report*, column 8W. I am still investigating the matters raised by the hon. Member's question, and I will write when I am in a position to do so.

Expert Witnesses

Mrs. Curtis-Thomas: To ask the Minister of State, Department for Constitutional Affairs if she will make a statement on the training received by individuals who give expert testimony in court. [20181]

Fiona Mactaggart: I have been asked to reply.

Training for individuals who give expert testimony in court is available from a range of commercial bodies. It is also often supplied by the professional bodies to which many of those who give expert evidence belong. We welcome the recent initiative by the Bar Council clarifying the duty of counsel to ensure that evidence in support of a client's case is presented to best effect.

Great War Medal Index

Mr. Stephen O'Brien: To ask the Minister of State, Department for Constitutional Affairs whether the Great War Medal Index cards are privately owned. [23656]

Ms Harman: On 6 May 2005, by authority delegated from the Lord Chancellor, The National Archives (TNA) approved the presentation of the bulk of the First World War Army medal rolls' index cards to the Western Front Association (WFA). A small sub-collection, for awards to women, was separately presented to the Imperial War Museum. Approval in both cases was granted by virtue of section 3.6 of the Public Records Act 1958, under which records thus presented lose their "public record" status and pass into the legal ownership of the recipient institution.

Mr. Stephen O'Brien: To ask the Minister of State, Department for Constitutional Affairs what criteria were used in making the decision to pass the original Great War Medal Index Cards to the Western Front Association. [23657]

Ms Harman: The decision to pass the First World War Army medal index cards to the Western Front Association (WFA) was based on the following criteria:

The WFA's ability to provide adequate storage for the whole collection, appropriate in terms of both environmental and physical security

The WFA's preparedness to accept the full collection

The WFA's commitment, and declared wish, to enable access to the information by researchers as soon as practicable

Mr. Stephen O'Brien: To ask the Minister of State, Department for Constitutional Affairs what tendering process was undertaken for the storage of the Great War Medal Index Cards. [23658]

Ms Harman: Following the agreement in principle to pass the Great War Medal Index cards to the Western Front Association (WFA), it became the WFA's responsibility to find appropriate premises for the storage of the cards. No tendering process was undertaken by The National Archives or by the Ministry of Defence.

Mr. Stephen O'Brien: To ask the Minister of State, Department for Constitutional Affairs if she will list military museums which are classified as National Archive depositories. [23659]

Ms Harman: The regimental and corps museums listed have appointments, under the Public Records Act 1958 section 4(1), as places of deposit for preserved public records:

Airborne Forces Museum

Armed Forces Chaplaincy Centre

Cheshire Military Museum Archives

Royal Military Academy, Sandhurst Collection

Tank Museum

Hearings in Chambers

Jon Trickett: To ask the Minister of State, Department for Constitutional Affairs what guidance she has provided to the Crown Prosecution Service in relation to representation at hearings by justices in chambers. [20743]

The Solicitor-General: I have been asked to reply.

When the police arrest a suspect and the Crown Prosecution Service (CPS) makes a decision to charge the suspect, the custody officer will decide whether to detain or to admit the suspect to post-charge bail until the first court hearing.

At court, the magistrates will consider the issue of bail afresh, following a bail recommendation by the Crown prosecutor and bail representations by the defence.

Following the introduction of statutory charging, the police now have an additional power to release a suspect on pre-charge bail to obtain a charging decision from a Crown prosecutor.

On 21 May 2004, the Director of Public Prosecutions issued guidance to police officers and Crown prosecutors under section 37A of the Police and Criminal Evidence Act 1984. The guidance sets out the cases which must be referred to prosecutors for charging decisions and the circumstances in which a release on bail before charge may be appropriate in accordance with the amendments to the Police and Criminal Evidence Act 1984, introduced by the Criminal Justice Act 2003. Further guidance was issued in April 2005 to the CPS and the police on the use of pre-charge bail.

Unsecured Debts

Dr. Cable: To ask the Minister of State, Department for Constitutional Affairs whether she plans to bring forward proposals to increase enforcement powers for financial institutions seeking to recover unsecured debts; and if she will make a statement. [24552]

Ms Harman: My Department set out proposals to reform the civil enforcement process in the White Paper "Effective Enforcement", published March 2003.

The introduction of our proposals, which are subject to the availability of parliamentary time for new legislation, seek, among other things, to streamline the charging order process as opposed to increasing powers. In addition, in looking to address the issue of vulnerable debtors and unscrupulous lenders, the proposals aim to tighten the licensing procedure for those involved in enforcement to tackle some of the difficulties experienced within the lending sector. My Department and other Government Departments continue to liaise closely on this.

While looking to protect vulnerable debtors the Government also recognise that responsible creditors who are owed money and having gained valid judgments through the courts should have the right to enforce that judgment by the most appropriate means available.

Voter Registration

Ms Abbott: To ask the Minister of State, Department for Constitutional Affairs what measures she has taken to increase the registration on the electoral register of black and ethnic minorities. [19682]

Ms Harman: The Electoral Commission published its report Understanding Electoral Registration in September this year. The report provides a comprehensive analysis of registration rates and a detailed analysis of non-registration by ethnic group.

The report shows that on 15 October 2000—the date on which the report's analysis is based—the level of non-registration among the eligible all ethnic minority in England and Wales was 17 per cent. My Department is actively working with representatives from black and ethnic minorities groups such as Operation Black Vote, Blink 1990 Trust, The Muslim Council of Britain, Muslim Public Affairs Committee, Hindu Council of Britain, Hindu Forum of Britain to increase awareness on voter registration. My Department is also co-hosting a seminar on under-registration in London and the Office of the Deputy Prime Minister.

FOREIGN AND COMMONWEALTH AFFAIRS

Convention on Tibet (Edinburgh)

Huw Irranca-Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government will be represented at the International Parliamentary Convention on Tibet in Edinburgh in November. [26190]

Mr. Straw: No. We are aware of the meeting. It is not an official event. The Government have no involvement in it and will not be represented at it.

Our position in respect of Tibet is long-standing and is unchanged.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter of 7 September from the right hon. Member for Manchester Gorton with regard to Mr. Siddak Ali. [24413]

Dr. Howells: My noble Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Lord Triesman of Tottenham) replied to my right hon. Friend on 2 November.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter of 26 September from the right hon. Member for Manchester Gorton with regard to Mrs. Tahira Hussain. [24414]

Dr. Howells: My right. hon. Friend the Foreign Secretary replied on 25 October.

Custodial Sentences (Overseas)

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nationals are serving custodial sentences outside the UK, broken down by category of offence. [23699]

Dr. Howells: Records on numbers of British nationals serving custodial sentences overseas broken down by every offence are not held centrally and could be obtained only at disproportionate cost. However, on 31 March 2005, British consular staff were aware of 2,764 British nationals in detention overseas. 1,266 British nationals were detained for drugs-related offences, and 118 for child sex-related offences. These figures include detainees on remand, as well as those serving custodial sentences.

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nationals are serving custodial sentences outside the UK, broken down by country. [23700]

Dr. Howells: Records on numbers of British nationals serving custodial sentences overseas are not held centrally and could be obtained only at disproportionate cost. However, on 31 March 2005, British consular staff were aware of 2,764 British nationals in detention overseas. The breakdown is shown in the following table. This figure includes detainees on remand, as well as those serving custodial sentences.

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nationals have served custodial sentences outside the UK in each year for the last 10 years. [23701]

Dr. Howells: Records on the numbers of British nationals serving custodial sentences overseas are not held centrally and could be obtained only at disproportionate cost. However, the following table provides a figure for the number of new cases of British nationals detained overseas each year for the last nine years. These figures include both those detained and released without charge or acquitted, and those who went on to serve custodial sentences.

	Total
1996	5,639
1997	6,039
1998	6,159
1999	6,501
2000	8,758

2002	6,501
2003–04	6,744
2004–05	5,975

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23788]

Mr. Straw: I refer the hon. Member to the answer I gave on 27 October 2005, *Official Report*, columns 507–08W. Examples of the ability tests used during the recruitment process are available from Capita Recruitment Agency at www.productinfo@.capita.co.uk.

Ethiopia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent shootings in Addis Ababa; and what action he has taken to express the UK's concern to the Ethiopian authorities. [24786]

Ian Pearson: We are extremely concerned about the outbreaks of violence in Ethiopia since 1 November and are monitoring events closely. There have been a number of deaths and injuries and we offer our sincere condolences to the families of the victims. We deplore all types of violence whether by security forces or demonstrators. We have called on all sides to exercise maximum restraint, to desist from confrontation and violence and to respect the laws of Ethiopia.

My noble Lord the Minister for Africa (Lord Triesman of Tottenham) summoned the Ethiopian Charge d'Affaires on 1 November to underline the Government's concerns, including at the arrest of Opposition leaders and some civil society representatives. We have urged that all those not to be charged should be released immediately. We have also urged that all detainees should have access to due legal process and the protection afforded by the Constitution. The British Ambassador in Addis Ababa made the same points to the Ethiopian Foreign Minister on 2 November and the Prime Minister on 3 November.

G8 Summit (Gleneagles)

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of hosting the G8 Summit in Gleneagles. [24566]

Ian Pearson: An estimate for the organisational costs of the G8 Summit of £12.1 million has been made available on the G8 website at www.g8.gov.uk. A breakdown of this figure for the organisational costs of the Gleneagles Summit is nearly ready for publication. The process has been delayed to allow some suppliers to submit final invoices.

These details will then be placed in the Library of the House and made available on the G8 web site.

Securing the Gleneagles Summit was the responsibility of the Devolved Administration and I understand that Scottish Ministers are separately preparing to release these costs.

Holy See

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Answer of 1 November 2005, *Official Report*, column 954W, on Holy See, why no advert inviting applications for the post of UK Ambassador to the Holy See was published in any national paper of Scotland. [25075]

Mr. Straw: The advert appeared in broadsheet newspapers and *The Economist* which have a UK-wide distribution to ensure that we reached a wide pool of potential candidates in all parts of the UK.

India

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what the strength is of the British Trade Mission in India. [25729]

Ian Pearson: The total number of staff carrying out commercial work in each of the United Kingdom Trade and Investment's offices in India is set out in the table as follows.

Market/Post	*Total*
India	
Ahmedabad	2
Bangalore	7
Bhopal	1
Chennai	7
Hyderabad	3
Kolkata	7
Mumbai	22
New Delhi	25
Pune	2

Iran

Mr. Binley: To ask the Secretary of State for Foreign and Commonwealth Affairs what UK policy is towards Iran; and what changes have been made as a consequence of the deaths of British soldiers in which the Government said there was Iranian involvement. [22549]

Dr. Howells: We have serious concerns about Iran's policies in a number of areas. With other members of the United Nations Security Council, we have condemned President Ahmadinejad's remarks on 26 October about Israel.

The UK's policy towards Iran is one of critical engagement. We aim to support reform in Iran where possible, and at the same time to encourage Iran to address serious international concerns about its policies in areas such as its nuclear and ballistic missile programmes, human rights, and its approach towards terrorism and the Middle East Peace Process.

The nature of some explosive devices used against British troops and others in Iraq suggests a connection with elements linked to Iran or with Lebanese Hizbollah, which has close ties to Iran. We continue to investigate. We have pressed the Iranian authorities on many occasions to play a constructive role in Iraq, and cut their links to armed groups. We have called on Iran to do more to live up to its public promises to improve border security, fight terrorism and not to interfere in Iraq's internal affairs.

Mr. Scott: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations are being made to the Iranian Government about the statement made by its President on the right of the state of Israel to exist. [23717]

Dr. Howells: The United Nations Security Council has spoken for the whole international community in condemning the remarks about Israel attributed to President Ahmadinejad.

We summoned the Iranian Chargé d'affaires on 27 October to protest. On the same day, we issued a statement on behalf of European Union Heads of Government, which condemned the comments in the strongest terms. The statement emphasised that calls for violence, and for the destruction of any state, are manifestly inconsistent with any claim to be a mature and responsible member of the international community.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will break off diplomatic relations with Iran following its President's remarks about Israel. [23900]

Dr. Howells: The European Union has condemned in the strongest terms the remarks about Israel attributed to President Ahmadinejad. We have also summoned the Iranian Chargé d'Affaires in London to protest.

The UK's policy towards Iran remains one of critical engagement. We aim to support reform in Iran where possible, and at the same time to encourage Iran to address serious international concerns about its policies in areas such as its nuclear and ballistic missile programmes, human rights, and its approach towards terrorism and the Middle East Peace Process.

Iraq

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence he has received of Iranian involvement in Iraqi resistance groups operating in the British sector of Iraq. [23929]

Dr. Howells: As my right hon. Friend the Prime Minister has said, the nature of some explosive devices used, including against British troops, leads us either to Iranian elements or to Lebanese Hezbollah, which has very close links with Iran's Revolutionary Guards. We are unable to provide further details as to do so could prejudice the capability, effectiveness, and security of Iraqi, UK and other coalition armed forces.

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on the replacement of stored locally grown seeds traditionally used by Iraqi farmers by annually licensed genetically modified seeds imported from the US; and if he will make a statement. [24443]

Dr. Howells: Ministers have received letters from hon. Members in recent months on behalf of constituents concerned about the impact on Iraqi farmers of the Coalition Provisional Authority's Order no. 81. Other than this correspondence, Ministers have received no representations on the replacement of locally grown seeds in Iraq by genetically modified seeds, imported from the US or elsewhere.

Order 81 concerns the registration and protection of intellectual property rights in new plant varieties. The Order was the subject of consultation and co-ordination with the Iraqi Governing Council, and was consistent with the needs identified by the United Nations for the development of Iraq and its transition from a centrally planned to a market-based economy.

This Order has no effect on existing breeds of plants, such as those used by most Iraqi farmers. It should not therefore affect the ability of Iraqi farmers to save seeds from traditional sources. Farmers will also continue to have a choice of sources for their seed supply, saving their own seeds of traditional and unprotected varieties, or buying seeds which are subject to patent or plant variety rights protection.

Iraq-Niger (Alleged Uranium Deal)

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to paragraphs 91 and 92 of the Intelligence and Security Committee Report, Cm 5972, Session 2002–03, whether the Government has been informed as to when the US Federal Bureau of Intelligence investigation ordered by Senator Rockefeller in March 2003 into the source of the forged documents on an Iraq-Niger uranium deal is due to report. [23855]

Dr. Howells: The investigation requested by Senator Rockefeller is continuing. The Federal Bureau of Investigation has still not given an indication of when the investigation will be completed.

IT Projects

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23517]

Mr. Straw: There have been 19 major Foreign and Commonwealth Office (FCO) IT projects subject to Office of Government commerce gateway criteria and review since 2001. The FCO has not so far published Gateway reviews of projects.

Libya

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to visit Libya; and what his long-term goals are for Anglo-Libyan relations. [23899]

Dr. Howells: My right hon. Friend the Foreign Secretary has no current plans to visit Libya.

The UK's work with the US which led to Libya's decision to dismantle its weapons programmes has, we believe, established a relationship of trust. As the Foreign Secretary said in January 2004, for our part, we have recognised our responsibility to enable Libya to come fully into the mainstream of the international community. That is what we will work to achieve, including through increased cooperation between the UK and Libya. We remain aware of Libya's past record, but believe it is right to build on the improvement in relations.

Middle East

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Palestinian authority on the situation in the Middle East; and if he will make a statement. [23715]

Dr. Howells: We have had regular discussions with the Palestinian Authority (PA) leadership on the situation in the Middle East. During my visit to the region in September, I raised with PA representatives the need for the PA to build on the opportunity offered by disengagement, to stop violence, and to show real progress on security reform.

We continue to call on the PA to take further action on security. The PA must act decisively against terrorists who launch rocket attacks and suicide bombings at Israeli targets.

We also believe Israel must meet its own obligations under the Roadmap, including freezing settlements and dismantling outposts. Both parties must move forward in parallel if we are to see real progress.

Spain

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Spanish government about the implementation of Ley Reguladora de Actividades Urbanisticas with respect to the way it applies to British citizens in that country; and if he will make a statement. [24779]

Dr. Howells: My right hon. Friend the Foreign Secretary raised the implementation of the Ley Reguladora de Actividades Urbanisticas (LRAU) with the Spanish Foreign Minister, Miguel Angel Moratinos, in October 2004. Our Ambassador in Madrid and our Consul in Alicante, have continued to lobby the Central and Regional Governments. They have also made representations both bilaterally and in conjunction with other countries. The Valencia Autonomous Community's (VAC) own Ombudsman has criticised law 6/94. In response to lobbying, the Valencia regional government drew up a new law to replace the LRAU, the Ley Urbanistica Valenciana (LUV). While the proposed new law addresses some of the concerns expressed by interested parties, it does not give the sort of tenure, guarantees and property rights that are enjoyed in other parts of Spain and other European countries: nor does it fully address many of the Ombudsman's criticisms.

We will continue to give as much publicity as we can to the risks of buying property in this part of Spain. We will use every opportunity, including high level visits, to remind the central and autonomous regional governments of our concerns.

UK Embassies (Security)

Dr. Murrison: To ask the Secretary of State for Foreign and Commonwealth Affairs what was the cost of contract security staff in UK embassies in each year since 1990; and if he will make a statement. [22585]

Mr. Straw: We take the security of our staff, both overseas and in the UK, extremely seriously. The level of threat faced by our staff serving in certain parts of the world is high. We need to ensure that our staff working in these high threat areas are protected to enable them to carry out their duties effectively.

For the period before 1 April 1999, the information is no longer available.

For the period from 1 April 1999 to March 2004, the information is not held centrally and could be obtained only at disproportionate cost. In the financial year 2004–05, the Foreign and Commonwealth Office in London spent £34.1 million on overseas security contracts. For this financial year, we estimate that we will spend £50.1 million. In addition, many of our overseas missions have guarding contracts with local security companies. These figures are not held centrally and the aggregate value of the contracts could be obtained only at disproportionate cost.

DEPUTY PRIME MINISTER

Architects Registration Board

Mr. Gummer: To ask the Deputy Prime Minister if he will reconstitute the Architects Registration Board so that jurisdiction extends only to practising architects who have chosen not to be a member of the Royal Institute of British Architects. [19957]

Yvette Cooper: The Government have no plans to provide two separate registration systems.

Building Regulations

Andrew Rosindell: To ask the Deputy Prime Minister how many building regulations have been put in place over the last five years. [22941]

Yvette Cooper: The Building Regulations 2000 (SI 2000/2531) consolidated all previous building regulations. They have been amended by the following regulations:

The Building (Amendment) Regulations 2001 (SI 2001/3335), which amended the requirements for Parts H (Drainage and Waste Disposal), J (Combustion Appliances and Fuel Storage Systems) and L (Conservation of Fuel and Power) of the Regulations.

The Building (Amendment) Regulations 2002 (SI 2002/0440), which introduced competent person self-certification schemes for the installation of heat-producing appliances and replacement glazing.

The Building (Amendment) (No. 2) Regulations 2002 (SI 2002/2871), which amended the requirements for Part E (Resistance to the passage of sound) of the Regulations.

The Building (Amendment) Regulations 2003 (SI 2003/2692), which amended the requirements for Part M (Access) of the Regulations.

The Building (Amendment) Regulations 2004 (SI 2004/1465), which amended Part C (Site preparation and resistance to contaminants and moisture) and further amended Part E (resistance to the passage of sound) to allow the use of robust details to satisfy the requirements.

The Building (Amendment) (No. 2) Regulations 2004 (SI2Q04/1808), now entirely revoked.

The Building (Amendment) (No.3) Regulations 2004 (SI2004/3210), which introduced Part P (Electrical safety) and authorised further competent person self-certification schemes.

Carbon Emissions

Norman Baker: To ask the Deputy Prime Minister what estimate he has made of the average carbon emissions associated with *(a)* the construction of a new average-sized dwelling and *(b)* the demolition of an existing average-sized dwelling. [25030]

Yvette Cooper: BRE figures suggest that that the embodied energy (which covers the extraction of construction materials, processing, transport and manufacture) associated with the construction of a traditional build house of three bedrooms, 90 sq metres, built under current building regulations, and to the national building specification for England and Wales is 35 tonnes CO_2 equivalent. We are not aware of any such estimates relating to demolition of existing houses.

Council Tax

David T.C. Davies: To ask the Deputy Prime Minister when preparations for the current council tax re-banding process began. [23623]

Mr. Woolas: The Valuation Office Agency started preliminary work on council tax revaluation in England in December 2002. As reported to the House on 10 October 2005, *Official Report*, column 5WS, in the written statement by my right hon. Friend the Member for South Shields (Mr. Miliband), the Government announced on 20 September 2005 that it intended to legislate to postpone the revaluation and that preparatory work was being stood down.

David T.C. Davies: To ask the Deputy Prime Minister how many people employed by his Department have been involved in council tax re-banding exercises to date. [23624]

Mr. Woolas: Staff in three posts in the Office of the Deputy Prime Minister were working principally on matters related to council tax revaluation in England until the Government's announcement of 20 September that preparatory work was being stood down. A number of others contributed to a lesser degree.

Mr. Hollobone: To ask the Deputy Prime Minister what assessment he has made of the likely impact of the revaluation of council tax in *(a)* the Kettering constituency and *(b)* Northamptonshire. [24132]

Mr. Woolas: The terms of reference for Sir Michael Lyons' independent inquiry require him to make recommendations on how best to reform council tax, taking into account revaluation of domestic property. My right hon. Friends the Deputy Prime Minister and Chancellor of the Exchequer have agreed with Sir Michael that he will extend his work so that he can consider issues relating to the functions of local government and its future role, as well as, and prior to, making recommendations on local government funding. The Government have introduced into the House the Council Tax (New Valuation List for England) Bill which provides for the postponement of council tax revaluation. This will enable revaluation to take account of the Lyons Inquiry's extended work which will inform the Comprehensive Spending Review 2007.

Decent Homes Standard

Mrs. Spelman: To ask the Deputy Prime Minister by what date he expects all social rented homes will have met the decent homes standard. [23617]

Mr. Woolas: Work completed and local programmes already in place take us 90 per cent. of the way to meeting our target of bringing all social homes up to the decent homes standard by 2010. We are now focusing our efforts on dealing with the remaining 10 per cent.

Departmental Energy Consumption

Norman Lamb: To ask the Deputy Prime Minister how much energy has been consumed by his Department in each of the last five years; and how much was spent on energy in each year. [22459]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) was formed in May 2002. The energy used and costs incurred since this date are:

	Weather corrected energy use (KWh)	*Cost (£)*
2002–03		
ODPM	43,035,355	1,310,609
QEII Conference Centre	11,286,795	271,529
2003–04		
ODPM	50,384,483	1,291,870
QEII Conference Centre	12,493,963	392,903
2004–05		
ODPM[1]	46,870,430	1,136,946
QEII Conference Centre	13,287,478	490,739

[1] Figures for 2004–05 exclude The Rent Service which was transferred to The Department of Works and Pensions in April 2004

The ODPM figure includes Fire Service College and Planning Inspectorate, while for historical reasons QEII is recorded and reported separately. The answer does not include figures for 26 Whitehall which is managed by the Cabinet Office, and for which the Office of the Deputy Prime Minister pays an agreed proportion of the cost of all services supplied by the Cabinet Office.

This answer does not include the buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments.

Departmental Estate

Mr. Hollobone: To ask the Deputy Prime Minister what *(a)* land and *(b)* property his Department owns in Kettering constituency. [24782]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not own any land or property in the Kettering constituency.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Deputy Prime Minister what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23779]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not keep records of the educational qualifications of its recruited staff and to determine this would be at disproportionate cost. All our recruitment is based on applicants meeting competences and it is possible that recruitment to some grades does not require candidates to have specific qualifications.

Departmental Skills Development Plan

Mr. Gibb: To ask the Deputy Prime Minister if he will place in the Library a copy of his Department's Skills Development Plan. [23871]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has placed a copy of the Skills Development Plan in the Library of the House.

Departmental Spending

David T.C. Davies: To ask the Deputy Prime Minister how much his Department spent on items of art in 2004–05. [23474]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has not spent any money on the purchase of works of art in 2004–05. Any work of art displayed in our buildings is provided by the Government Art Collection on a loan basis.

I refer the hon. Member to the answer given by the hon. Member for Tottenham (Mr. Lammy) on 1 November 2005, *Official Report*, column 896W.

East of England Regional Chamber

Mr. Ruffley: To ask the Deputy Prime Minister what the cost of the East of England regional chamber *(a)* was for the last two years and *(b)* is projected to be in the next two years. [24845]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) of 17 October 2005, *Official Report*, column 817W. Figures for Government grant to East of England Regional Assembly for the next two years are not yet available.

English Partnerships

Mr. Lancaster: To ask the Deputy Prime Minister what plans he has to change the level of investment into Milton Keynes via English Partnerships over the next four years. [22716]

Yvette Cooper: Milton Keynes, as part of the Milton Keynes-South Midlands Growth Area, forms an important part of the Government's Sustainable Communities agenda.

Distribution of English Partnerships investment nationally and including that in Milton Keynes is a matter for English Partnerships' Board, and is set out in English Partnerships' annual Corporate Plan once Ministers have agreed it. English Partnerships expenditure in Milton Keynes in 2005–06 is forecast to be in the order of £57 million. We are discussing English Partnerships' future national programme and priorities as part of their current corporate planning round for the years 2005–06 to 2008–09.

Funding for ODPM programmes, including English Partnerships, for 2008–09 to 2010–11 will be dependent on the results of the Comprehensive Spending Review 2007.

Fire Service

Steve McCabe: To ask the Deputy Prime Minister what was the average time taken by the West Midlands Fire Service to arrive on scene in response to a 999 call in each of the last 12 months. [22407]

Jim Fitzpatrick: The available information covers attendance at primary fires. The following table shows the average response time to primary fires attended by West Midlands Fire and Rescue Service each month during 2004–05. This is measured in minutes from time of first call to the fire and rescue service to time of arrival at the scene.

Primary fires attended by West Midlands FRS: Average response times, 2004–05

	Minutes
April	5.9
May	6.0
June	5.9
July	6.0
August	6.2
September	5.9
October	6.1
November	6.2
December	5.9
January	6.1
February	6.1
March	5.7
2004–05	6.0

Notes:

1. Figures for 2004/05 are provisional.
2. Data exclude late calls, heat and smoke damage only incidents.

Source:

Fire and Rescue Service FDR1 returns to ODPM.

Mike Penning: To ask the Deputy Prime Minister what the average time taken by Hertfordshire Fire Service to arrive on the scene of an incident in response to a 999 call has been in each year since 1997. [24020]

Jim Fitzpatrick: The available information covers attendance at primary fires only. The following table shows the average response time to primary fires attended by Hertfordshire Fire and Rescue Service each year since 1997. This is measured in minutes from time of first call to the fire and rescue service to time of arrival at the scene.

Primary fires attended by Hertfordshire FRS: Average response times 1997–2004

	Response time (minutes)
1997	6.8
1998	6.9
1999	7.0
2000	7.2
2001	7.0

Primary fires attended by Hertfordshire FRS: Average response times 1997–2004

	Response time (minutes)
2002	7.2
2003	7.4
2004[1]	6.9

[1] Figures for 2004 are provisional

Note:
Figures are based on sampled, weighted data and exclude late calls, heat and smoke damage only incidents.

Source:
Fire and Rescue Service FDR1 returns to ODPM.

Mr. Holloway: To ask the Deputy Prime Minister what assessment he has made of the effect on the number of jobs in *(a)* the parliamentary constituency of Gravesham *(b)* the county of Kent and *(c)* the South East region of establishing a regional fire control room for the South East region. [24174]

Jim Fitzpatrick: Following the establishment of regional fire control centres the Office of the Deputy Prime Minister expects fewer people to be employed in delivering control room services, both nationally and in individual regions. Work is in hand to define the precise number of staff that will be required to run the new control centres in each region, though final decisions on staff numbers will ultimately be a matter for the employers, not for ODPM. No detailed assessment has been made on the effect on the number of jobs in Gravesham or in Kent.

Mr. Holloway: To ask the Deputy Prime Minister what assessment he has made of the impact on Fire and Rescue Service average response times in Gravesham of establishing a regional fire control room for the South East region. [24176]

Jim Fitzpatrick: The Office of the Deputy Prime Minister expects that the establishment of the new national network of control centres will result in response times under normal operating conditions that are as good as or better than now. We expect a significant improvement however during surges in demand or when dealing with particularly large incidents. It is not possible to assess the impact on response times in Gravesham.

Mr. Drew: To ask the Deputy Prime Minister what evaluation of the Firelink system will be carried out in advance of the move to regional control centres. [24445]

Jim Fitzpatrick: The competition for the Firelink system for the Fire and Rescue Service has followed EU procurement rules. The specification for the wide area radio communications system was output based to ensure that current functions required by the Fire and Rescue Service could be met, in addition to ensuring a high level of resilience and interoperability both within the Fire and Rescue Service and with the other emergency services. The evaluation of final bids from suppliers has been based on four key areas: technical issues, project management, procurement and whole life costs. The outcome of the competition will be based on the balance of these factors. all of which will enable the Firelink system to be migrated into the regional control rooms.

Fire-related Deaths (Leeds)

Greg Mulholland: To ask the Deputy Prime Minister how many fire-related deaths there have been in dwellings in Leeds, north-west in each year since 1997. [25769]

Jim Fitzpatrick: West Yorkshire fire and rescue service have supplied the following information on the number of fire-related deaths in dwellings in Leeds north-west from 1997 to 2004.

	Number of deaths in dwelling fires
1997	2
1998	1
1999	3
2000	0
2001	1
2002	1
2003	0
2004	0

All the fire deaths in the table were fires accidentally started in dwellings, there were no deaths in deliberate dwelling fires.

Green Belt

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to his answer of 11 October 2005, *Official Report*, column 440W, on green belt, if he will list the type of development in each case that was *(a)* refused and *(b)* allowed. [19854]

Yvette Cooper: Further information about the cases referred to in the answer of 11 October has been made available in the Libraries of the House. This information relates to cases decided between 1 April 1999 and 30 September 2005 and indicates the type of development for each case that was refused or allowed.

Greg Mulholland: To ask the Deputy Prime Minister what plans his Department has to establish a national register of *(a)* the total area of land within the existing green belt and *(b)* applications for a change of use for green belt land. [22664]

Yvette Cooper *[holding answer 28 October 2005]:* A national database has been established to monitor the extent of green belt in England based on digitising green belt boundaries in proposal maps in local development plans. The first results using this methodology were published in April 2000 based on local development plans in existence in 1997. An update was published in September 2004, based on local development plans in 2003. This approach, using digitisation technology provides much more reliable figures than those published prior to 2000. There are no present plans to monitor planning applications for change of use for green belt land.

Greg Mulholland: To ask the Deputy Prime Minister what total area of land within the green belt has had a change of use status since 1997. [21210]

Yvette Cooper: Estimates for average land area within designated green belt that has assumed a change of use each year are from Land Use Change Statistics as shown as follows.

Annual average area of land within 1997 designated green belt that has changed use 1997–2003

Hectares

	New use		
Previous use	*Undeveloped*	*Developed*	*Total*
Undeveloped	3,573	817	4,390
Developed	556	811	1,367
Total	4,129	1,628	5,757

Andrew Rosindell: To ask the Deputy Prime Minister whether the Government plans to build houses on green belt land in east Tilbury, Thurrock. [25070]

Yvette Cooper: Any proposals for new housing in east Tilbury will have to be considered through the planning system in the normal way. Each individual planning application must be considered on its own merits and determined principally against relevant policies in an adopted development plan for the area, unless material considerations indicate otherwise. There remains a general presumption against inappropriate development within the green belt. Such development should not be approved except in very special circumstances, as set out in planning policy guidance note 2, green belts.

The Thurrock Thames Gateway Development Corporation is currently developing a regeneration framework which will set the context for the likely range of regeneration activities in the for the Thurrock area. It is expected to consult on this shortly.

Highbury

Jeremy Corbyn: To ask the Deputy Prime Minister pursuant to the answer of 24 October 2005, *Official Report*, column 15W, on Highbury, what monitoring his Department has undertaken of section 106 agreements relating to the Arsenal stadium, Lough Road and Highbury Square developments. [23290]

Yvette Cooper: Central Government do not monitor the implementation of individual planning obligations (or section 106 agreements), as these are private agreements between local planning authorities and developers. The Office of the Deputy Prime Minister sets a national policy framework for planning obligations, within which local planning authorities have freedom to establish and implement their own local policies and detailed procedures.

Homelessness

Mrs. Spelman: To ask the Deputy Prime Minister (1) what the levels of child homelessness have been in each Government office region in each year since 1997; [19877]

(2) how many accommodation places are provided for homeless children in each Government office region area. [19878]

Yvette Cooper: Information reported each quarter by local authorities about their activities under homelessness legislation distinguishes the number of households accepted as unintentionally homeless, in priority need and consequently owed a main homelessness duty that contain one, two and three or more children. It is therefore possible to calculate an estimate of the number of children in these households and this information has been made available in the Library of the House.

Also identified, since 2002, are the number of households in temporary accommodation that contain dependent children and/or an expectant mother, on the last day of the quarter and, since 2004, the number of dependent or expected children in these households. This information has been made available in the Library of the House.

Information about the total number of units of temporary accommodation potentially available for use by households with children is not available centrally.

Greg Mulholland: To ask the Deputy Prime Minister if he will estimate how many homeless *(a)* 16-year-olds and *(b)* 17-year-olds there have been in Leeds, North West since 1997; and how many have been placed in bed and breakfast accommodation in Leeds, North West in each year. [24001]

Yvette Cooper: As local authorities' actions under homelessness legislation are reported in terms of local housing authority districts, information is collected for Leeds City Council, within which the Leeds, North West constituency is located.

Under the Housing Act 1996, local authorities have a statutory duty to provide assistance to those who are homeless, or threatened with homelessness, and a main homelessness duty (to ensure that suitable accommodation is available) is owed where the authority is satisfied that the applicant is eligible for assistance, unintentionally homeless and within a "priority need" category.

The priority need categories were extended in July 2002 to include all applicants aged 16 or 17. Previously the category "vulnerable young persons" would have included those aged 16 and 17, but these cannot be separately identified. Since that time, the authority has reported 860 applicants aged 16 or 17 and found to be owed a main homelessness duty, as follows:

	All acceptances	*Of which: 16 to 17-year-olds*	*as percentage of All*
July 2002 to March 2003	3,760	264	7
April 2003 to March 2004	4,950	338	7
April 2004 to March 2005	2,780	216	8
April 2005 to June 2005	510	42	8

Applicants with, or expecting, children will be classified under the priority categories "households with dependent children" and "household member pregnant" respectively as the main qualification; these categories may therefore include some 16 and 17-year-old applicants, but these cannot be separately identified.

Upon acceptance some of these applicants will have been provided with a settled housing solution immediately, while others will have been placed in some form of temporary accommodation, which could include bed and breakfast. As information reported about households in the various forms of temporary accommodation does not distinguish the applicant's

age, it is not possible to provide the number 16 and 17-year-olds placed in bed and breakfast. However, Leeds ceased using bed and breakfast to accommodate households after March 2004.

House Competition Costs

Sarah Teather: To ask the Deputy Prime Minister if he will publish the construction *(a)* strategies and *(b)* costs of the competitors in the £60,000 house competition; and if he will make a statement. [23479]

Yvette Cooper: The Office of the Deputy Prime Minister and English Partnerships are working to prepare a publication drawing out the lessons that have been learned from the Design for Manufacture competition. The consortia that submit bids at stage II and III of the competition will be invited to feed into the publication, which will seek to highlight what was best about each of the bids and what lessons may be drawn from them in terms of best practice for the construction industry as a whole. It will include information about costs, technologies and construction strategies. We aim to be able to publish this document by spring 2006, and are also exploring other ways to ensure that the lessons learnt are disseminated and adopted across the industry.

In addition English Partnerships intend to measure and monitor, using construction industry key performance indicators, the actual construction efficiency (both cost and process) during the construction phase and the whole life cost/occupancy costs while the homes are in habitation. This will be a longer term project, but data will be made available to the construction industry and the regeneration sector in due course.

Housing

Mr. Holloway: To ask the Deputy Prime Minister how many affordable housing units have been *(a)* built and *(b)* procured in Gravesham since 1997. [19835]

Yvette Cooper: The following table shows the number of new homes built or acquired/refurbished in Gravesham from 1997–98 to 2004–05 through the Housing Corporation approved development programme and local authority social housing grant. The number of homes acquired/refurbished includes an element for properties in registered social landlord (RSL) ownership which have been re-improved (such as by providing an extension to the property).

Completions in Gravesham 1997–98 to 2004–05

	(a) New build	*(b) Acquired/refurbished*
1997–98	24	7
1998–99	21	16
1999–2000	18	3
2000–01	20	2
2001–02	24	24
2002–03	64	3
2003–04	21	2
2004–05	92	10

Source:
Housing Corporation.

Mr. Iain Wright: To ask the Deputy Prime Minister what steps he is taking to increase the number of units of *(a)* social and *(b)* affordable housing in Hartlepool constituency. [20933]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister, through Government office for the north-east, is working with a range of bodies in Hartlepool to deal with the issues of social and affordable housing. The borough has considerable reserves of housing land, particularly brown-field land at Victoria Harbour and at Middle Warren, where a wide range of house types and prices can be accommodated.

The New Deal for Communities (NDC) partnership is working in west central Hartlepool to address the issue of market failure which was becoming a problem. One of the biggest challenges for the NDC is to tackle the decline in older terraced housing in the area, to make it an area where young families want to move into and where people want to stay. A plan has been put in place, approved by residents, and a resident led company, Hartlepool Revival, has been set up to put the plan into action. The company has its own legal status and is seen as the sustainable element of NDC in Hartlepool.

Excellent groundbreaking work was undertaken by the NDC, which involved wide participation from NDC residents and local stakeholders. This resulted in the publication of the promised Community Housing Plan in May 2003. The Community Housing Plan is the residents' and NDC's way of tackling the housing market failure that parts of the area have suffered.

The Community Housing Plan was developed by social regeneration consultants, in consultation with local residents, to determine the future of the 113 streets in the NDC area. This ensured community leadership of the creation of a plan which is robust enough to stand up in all necessary legal areas alongside the statutory local plan and the local authority's housing strategy. Hartlepool borough council has an active role in the management of this programme via their presence on the NDC housing sub-group. The plan will establish principles which will guide the "Area Re-Modelling Project" in years 3–10, including establishing areas which may be considered for possible demolition. The plan is expected to transform the NDC area upon completion.

Mr. Hancock: To ask the Deputy Prime Minister what modelling work his Department is doing to evaluate the infrastructure needs for its housing projections in *(a)* the South East and *(b)* London. [21092]

Yvette Cooper: The Government continue to support work to assess overall infrastructure requirements for housing growth, such as the approach taken in the Milton Keynes Prospectus and in other growth location business plans. For example, partners in Milton Keynes have estimated that the infrastructure required until 2016 to accommodate 15,000 new homes in the expansion areas of Milton Keynes will cost £1.2 billion. We welcome this work and anticipate that partners in other growth locations will undertake similar infrastructure assessment exercises.

Assessing the infrastructure requirements for growth is a complex and evolving process due to both the detailed layout of development and new approaches in the nature of service provision affecting what is needed. Therefore the total cost of infrastructure requirements will vary from one growth location to another.

The Government's aim is to provide as much information as it can on likely future levels of support but this needs to be made in the context of the public expenditure cycle.

The Office of the Deputy Prime Minister is working closely with other Government Departments to ensure that planned investment in transport, schools, hospitals, green infrastructure and other facilities supports new housing in the growth areas.

Bill Wiggin: To ask the Deputy Prime Minister how many dwellings have been refurbished under the decent homes standard programme; and how many further dwellings the Government plan to refurbish under the programme. [22972]

Yvette Cooper: Since 1997 we have reduced the number of social homes that do not meet the decent homes standard by more than one million out of a total of 2.1 million. Work completed and plans in place will take us 90 per cent. of the way towards meeting our target of ensuring that all social sector homes meet the standard. We are now focusing our efforts on dealing with the remaining 10 per cent.

Bill Wiggin: To ask the Deputy Prime Minister (1) what the average cost is per dwelling of refurbishment under the Government's decent homes standard programme; [22973]

(2) what have been the 10 most expensive refurbishments under the Government's decent homes standard programme; [22974]

(3) how many refurbishments under the decent homes standard programme cost more than £20,000. [22975]

Yvette Cooper: The Office of the Deputy Prime Minister holds information on a scheme by scheme basis on the cost of delivering decent homes, but there would be a disproportionate cost in calculating an average cost per dwelling across all schemes, and in analysing all this data to provide the most expensive schemes and those costing more than £20,000.

Jim Cousins: To ask the Deputy Prime Minister (1) how many *(a)* affordable housing units and *(b)* housing units for special needs he expected to be provided when he gave his consent to the Newcastle Gateshead Pathfinder giving Newcastle city council funds to buy part of the land owned by Newcastle Breweries; [24243]

(2) what conditions he agreed to be placed on Newcastle city council in return for the grant of funding to buy land owned by Newcastle Breweries; and on what date he gave his consent for this expenditure. [24244]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister does not give consent to specific pathfinder projects. However, given the significance of the proposals relating to the Newcastle Breweries site, officials from the Office of the Deputy Prime Minister (ODPM) were consulted and kept informed by the pathfinder throughout the process leading to the purchase. In order to maintain compliance with the Pathfinder's funding agreement, the land purchased will need to be redeveloped for residential or mixed use. Any profit from the disposal of the land will need to be used for regeneration activities within the pathfinder area or returned to ODPM.

No decisions have yet been taken by the Pathfinder on the numbers of affordable housing units or housing units for special needs that will be built on the Newcastle Breweries site. The Pathfinder will need to consider a number of factors, including the views of the community, housing market intelligence, technical surveys and detailed work on the identification of options for housing provision to secure optimum design, type, and tenure.

Mr. Drew: To ask the Deputy Prime Minister if he will change the building regulations to ensure that each new build property *(a)* includes renewable energy facilities and *(b)* is energy efficient. [24405]

Yvette Cooper: Part L of the Building Regulations sets levels for energy performance in ways that offer designers the flexibility to choose solutions that best meet their needs, are cost-effective and practical, and enable innovation. Without prescribing solutions this enables builders to take up the benefits of renewable and other "low and zero carbon" technologies. In September the Office of the Deputy Prime Minister announced further improvements to these energy efficiency requirements that will come into effect next April and will encourage greater take-up of renewable systems.

Mr. Laws: To ask the Deputy Prime Minister which 25 local authorities had the highest number of households on the housing register per head of population in the local authority area as at 1st April; and if he will make a statement. [22168]

Yvette Cooper: The 25 local authorities with the highest percentage of households in their local authority that are on the local authority's housing list are provided in the table.

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Local authorities sometimes maintain a common waiting list with the housing association/s in their district. However, information is not held centrally where a Housing Association maintains a separate waiting list to the local authority.

Local authorities with the 25 highest percentage figures for number of households on their housing register at 1 April 2005

Local authority	*Region*	*Number of households on housing register*	*Households on register as a percentage of total households in local authority area*
Sheffield	Yorkshire and the Humber	72,604	33
City of London	London	1,204	30
Newham	London	25,317	26
Tower Hamlets	London	21,183	24

Local authorities with the 25 highest percentage figures for number of households on their housing register at 1 April 2005

Local authority	*Region*	*Number of households on housing register*	*Households on register as a percentage of total households in local authority area*
Mansfield	East Midlands	9,784	24
Haringey	London	19,930	20
Camden	London	16,532	17
Sandwell	West Midlands	19,655	17
Bradford	North West	32,046	17
Corby	East Midlands	3,404	16
Lewisham	London	18,279	16
Brent	London	17,351	15
Bolton	North West	16,096	15
Sunderland	North East	16,222	14
Rotherham	Yorkshire and the Humber	13,903	13
South Tyneside	North East	8,649	13
Bassetlaw	East Midlands	5,750	13
Great Yarmouth	East of England	5,035	13
South Kesteven	East Midlands	6,509	12
Salford	North West	11,216	12
Walsall	West Midlands	12,024	12
Hounslow	London	10,382	12
Wirral	North West	15,524	11
Blackburn with Darwen UA	North West	6,177	11
Rushmoor	South East	4,151	11

Sarah Teather: To ask the Deputy Prime Minister what percentage of homes built for key workers have been sold to key workers, broken down by region. [15837]

Yvette Cooper: The percentage of homes built for key workers that have been sold/let or are in the process of being sold/let to key workers is:

64 percent. in London,

65 percent. in the south-east and;

83 percent. in the east.

The remaining units are in the process of being marketed for sale/let. 47 percent. of these key worker units have only been completed in the last three months. A cascade mechanism is in place to deal with any units that are difficult to sell/let.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what assessment he has made of tenant involvement in *(a)* registered social landlords after privatisation, *(b)* arms-length management organisations and *(c)* council controlled housing; and what steps he plans to take to strengthen tenant involvement. [17862]

Yvette Cooper: The Audit Commission considers resident involvement in its inspections of local authorities, arms length management organisations and registered social landlords. Inspection reports are available on the Commission's website at:

www.audit-commission.gov.uk.

In addition, RSLs are required to publish an annual tenant involvement impact assessment.

Mike Penning: To ask the Deputy Prime Minister how many vacant homes there are in Hertfordshire; and if he will make a statement. [24018]

Yvette Cooper: There were 10,980 empty homes in Hertfordshire as at November 2004, the latest date for which figures are available. The data are as reported on CTB1 and CTB1S forms submitted by billing authorities to the Office of the Deputy Prime Minister each year. The figure includes both long and short-term empty properties.

The Government are introducing new powers from April next year for local authorities to reduce the number of long term empty homes in their area.

Literacy and Numeracy

Mr. Gibb: To ask the Deputy Prime Minister how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23374]

Jim Fitzpatrick: This information is not held centrally.

Mr. Gibb: To ask the Deputy Prime Minister how much his Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head in each year since 2002. [23427]

Jim Fitzpatrick: Nil. The Office of the Deputy Prime Minister (ODPM) has not provided in-house training on literacy or numeracy.

ODPM's approach has been to raise awareness of staff and line managers through its induction package for new entrants, introduced in May 2004; and to all staff through various marketing mechanisms including the ODPM intranet and other promotional activities.

Where development advice has been requested on literacy and numeracy, learners have been referred to appropriate providers whose assistance is free of charge.

Mr. Gibb: To ask the Deputy Prime Minister what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23785]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not use specific literacy or numeracy tests. All of our recruitment is carried out using a competence based process that requires the candidate to

demonstrate how they meet the skills required for the post(s). This requires a good level of literacy. If we had a post that required specific numeracy skills, we would take advice from our recruitment consultants on the most appropriate method of assessment.

Local Government

Mike Penning: To ask the Deputy Prime Minister what plans the Government have for the restructuring of local government; and if he will make a statement. [21517]

Mr. Woolas: The Office of the Deputy Prime Minister is aware of the debate in local government about moving from two tier to unitary local government. This is a debate which is led from within local government. We are following the debate with interest.

Mrs. Spelman: To ask the Deputy Prime Minister if he will make a statement on the Audit Commission's plans to move Comprehensive Performance Assessment to a star rating measure. [24685]

Mr. Woolas: This is an operational matter for the Audit Commission. I will ask the chief executive to write to the hon. Member and ensure the answer is made available in the Libraries of the House.

Mike Penning: To ask the Deputy Prime Minister what assessment he has made of the merits of unitary status for councils in Hertfordshire. [24019]

Mr. Woolas: The Office of the Deputy Prime Minister has made no such assessment. We are aware of the debate in local government about moving from two tier to unitary local government but this is a debate which is led from within local government. We are following the debate with interest.

Mr. Kemp: To ask the Deputy Prime Minister what representations he has received about the proposal to move to whole council local elections every four years, as outlined in the consultation document "Vibrant Local Leadership". [23209]

Mr. Woolas: Following publication of the discussion document "Vibrant Local Leadership" which indicated that the Office of the Deputy Prime Minister was minded to agree with the Electoral Commission's recommendation that all English local authorities should hold whole council elections, we have received seven requests from district councils to move to whole council elections and several other representations generally in support of change.

Mr. Andy Reed: To ask the Deputy Prime Minister what consultations have been held with local authorities about the new data being used to calculate the day visitor indicator as part of the formula spending share; and if he will make a statement. [24054]

Mr. Woolas: The option to update the day visitor indicator was part of the wider consultation on changes to the Local Government Finance Distribution system, which ran for a 12 week period between 19 July and 10 October 2005.

The research underlying the option was also disseminated and discussed at the Local Government Finance Settlement Working Group (SWG) to which local authority representatives attend.

Both the consultation papers and SWG papers have been placed on the Office of the Deputy Prime Minister's website.

Mr. Andy Reed: To ask the Deputy Prime Minister what assessment he has made of the impact of the new data for day visitor indicators as part of the formula spending share on the financial position of Charnwood borough council. [24056]

Mr. Woolas: No exemplification has been made for any authority on the impact the inclusion of the new day visitors indicator would have on formula spending shares.

Mr. Andy Reed: To ask the Deputy Prime Minister what *(a)* time period and *(b)* methodology was used in amending the day visitor indicator of the formula spending share; and if he will make a statement. [24057]

Mr. Woolas: The information is as follows:

(a) The proposed update to the day visitors indicator outlined in the recent Formula Grant Distribution consultation paper used data from the 2002–03 Great Britain Day Visits Survey, the 2001 census and the 2003 Labour Force Survey. Data from Visit Britain and the Ordnance Survey were also used.

(b) The methodology on the updated modelling of the day visitor indicator can be found on the Office of the Deputy Prime Minister's local government finance website at: http://www.local.odpm.gov.uk/finance/0607/swg0508/dayvisitors.pdf

Ministers are currently considering whether to use the updated day visitor data in the 2006–07 Formula Spending Shares taking into account representations received during the consultation on this issue. The decision will be announced to the House later this year as part of the provisional local government settlement.

Pathfinder Areas

Norman Baker: To ask the Deputy Prime Minister how many dwellings in each pathfinder area have been *(a)* demolished and *(b)* constructed in each year since 2001. [25031]

Yvette Cooper: The following table shows the number of demolitions, constructions and refurbishments funded directly by Housing Market Renewal Funding and are for the year 2004–05 for which we have data. The information comes from core indicator returns submitted to the Office of the Deputy Prime Minister by the pathfinders every six months.

Number

Pathfinder	*Demolitions*	*Constructions*	*Refurbishments*
Birmingham Sandwell	71	47	10
East Lancashire	397	0	674
Hull and east Riding	0	0	0
Manchester Salford	677	2,114	4,304
Merseyside	122	6	2,446
Newcastle Gateshead	409	9	489
North Staffordshire	234	6	141
Oldham Rochdale	78	0	832
South Yorkshire	1,097	0	760
Total	3,085	2,182	9,656

Planning

Mrs. Spelman: To ask the Deputy Prime Minister what guidance the Government have provided to local planning authorities on informing nearby local residents

that a planning application in their vicinity has been submitted; and what definition of vicinity he uses in this context. [24682]

Yvette Cooper: A local planning authority's duty to publicise planning applications is explained in Department of Environment Circular 15/92, "Publicity for Planning Applications". Within the requirements of the Town and Country Planning (General Development Procedure) Order 1995, authorities have discretion to decide what level and type of publicity would be appropriate in a particular case. The term "vicinity" is not defined. However, the circular does urge authorities to go beyond the minimum legal requirements when inviting local people to comment on planning applications. The Office of the Deputy Prime Minister expects authorities to make use of their websites in this context. Authorities should also set out, in Statements of Community Involvement, their own policy on consultation about applications; for example, when and how local amenity or residents' groups should be informed.

Railways (Fire Precautions)

John McDonnell: To ask the Deputy Prime Minister pursuant to the answer of 10 October 2005, *Official Report*, column 402W on railways (fire regulations), if he will seek from local fire and rescue authorities the number of railway stations and premises in their areas covered by the Fire Precautions (Sub-Surface Railway Stations) Regulations 1989. [23939]

Jim Fitzpatrick: In the answer to my hon. Friend on 10 October, the latest figures reported by the Fire and Rescue Service at that time showed that 168 such premises are known in England and Wales in 2003–04. However, the Office of the Deputy Prime Minister has subsequently been informed by the Cleveland Fire and Rescue Service that they do not have a sub surface railway station. The revised number is therefore 167. These are in each area as follows:

Premises in England and Wales subject to enforcement under the Fire Precautions (Sub-Surface Railway Stations) Regulations 1989

Fire and Rescue Service	*Number*
London	160
Merseyside	5
South Wales	1
West Midlands	1

John McDonnell: To ask the Deputy Prime Minister pursuant to the answer of 10 October 2005, *Official Report*, column 402W, on railways (fire regulations), how many of the premises covered by the Fire Precautions (Sub-Surface Railway Stations) Regulations 1989 in 2003–04 were *(a)* metro or underground stations and premises and *(b)* national heavy rail stations and premises. [23940]

Jim Fitzpatrick: The statistics the Office of the Deputy Prime Minister receives from local fire and rescue authorities do not differentiate between *(a)* metro or underground stations and premises, nor *(b)* national heavy rail stations and premises.

Regional Chambers

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 25 October 2005, *Official Report*, column 340W, on regional chambers, for what reasons the Audit Commission does not audit the other regional chambers; if he will place in the Library copies of the assemblies' most recent business plans; and if he will make a statement. [24686]

Yvette Cooper: I refer the hon. Member to my answers of 1 November 2005, *Official Report*, column 907W, and 25 October 2005, *Official Report*, column 340W.

The web addresses for the eight regional assemblies in England and their umbrella body the English Regions Network are detailed below:

East of England Regional Assembly—www.eera.gov.uk

East Midlands Regional Assembly—www.emra.gov.uk

North East Assembly—www.northeastassembly.gov.uk

North West Regional Assembly—www.nwra.gov.uk

South East England Regional Assembly—www.southeast-ra.gov.uk

South West Regional Assembly—www.southwest-ra.gov.uk

West Midlands Regional Assembly—www.wmra.gov.uk

Yorkshire and the Humber Assembly—www.yhassembly.gov.uk

English Regional Network—www.ern.gov.uk.

Rossendale Borough Council

Janet Anderson: To ask the Deputy Prime Minister what the cost to public funds has been to date of the corporate recovery of Rossendale borough council since the draft Corporate Governance Inspection Report of May 2002. [23485]

Mr. Woolas: Since May 2002 Rossendale borough council has received £167,000 from the ODPM capacity building fund to assist with areas such as financial management and procurement, project management, risk management, member development and leadership programmes.

Section 106 Agreements

Jeremy Corbyn: To ask the Deputy Prime Minister what information he collates on the cash in lieu of developments held under section 106 agreements by each London local authority. [23288]

Yvette Cooper: Information on the contributions made by developers under section 106 of the Town and Country Planning Act 1990 is not collected centrally. Local planning authorities, including London boroughs, record this information on their individual planning registers.

Sustainable Buildings

Mr. Alan Reid: To ask the Deputy Prime Minister what steps are planned to apply the new code for sustainable buildings. [21504]

Yvette Cooper: From April 2006 all new residential homes receiving Government funding will need to meet the new code for sustainable buildings. The new code for sustainable buildings is a voluntary scheme being developed by Government and industry. The Office of the Deputy Prime Minister intends to issue a formal consultation paper in the near future and aim to publish the code early in 2006.

Telecommunications Masts

Mr. Burstow: To ask the Deputy Prime Minister pursuant to his answer of 12 September 2005, *Official Report*, column 2441W, on telecommunication masts, if he will break down the figures by Government office region. [20649]

Yvette Cooper: The following table gives the number of planning appeals received, decided and allowed for telecommunications (including radio/TV—mast/aerial/dish/antenna), both in total and for each Government office.

	2002	2003	2004	2005
Received in calendar year				
Total	871	637	752	459
East Midlands	38	21	25	17
East of England	69	65	80	41
London	184	168	113	104
North East	50	32	53	11
North West	126	66	93	58
South East	156	144	212	113
South West	76	60	45	37
West Midlands	107	47	102	57
Yorkshire and Humberside	65	34	29	21
Decided in calendar year				
Total	761	705	478	596
East Midlands	34	18	18	19
East of England	63	72	41	67
London	144	187	104	91
North East	45	37	35	31
North West	107	83	55	74
South East	131	144	121	167
South West	80	64	30	50
West Midlands	92	61	51	76
Yorkshire and Humberside	65	39	23	21

	Allowed (percentage) in calendar year							
	2002		2003		2004		2005	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
Total	517	(67.9)	413	(58.6)	252	(52.7)	328	(55.0)
East Midlands	26	(76.5)	11	(61.1)	11	(61.1)	10	(52.6)
East of England	42	(66.7)	41	(56.9)	22	(53.7)	37	(55.2)
London	88	(61.1)	114	(61.0)	41	(39.4)	49	(53.8)
North East	36	(80.0)	24	(64.9)	24	(68.6)	18	(58.1)
North West	79	(73.8)	47	(56.6)	35	(63.6)	39	(52.7)
South East	78	(59.5)	83	(57.6)	61	(50.4)	90	(53.9)
South West	55	(68.8)	34	(53.1)	14	(46.7)	25	(50.0)
West Midlands	66	(71.7)	33	(54.1)	28	(54.9)	47	(61.8)
Yorkshire and Humberside	47	(72.3)	26	(66.7)	16	(69.6)	13	(61.9)

Tenancies

Margaret Moran: To ask the Deputy Prime Minister how many tenancies have ceased at the end of an introductory tenancy, broken down by *(a)* local authority and *(b)* registered social landlord. [24032]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

Margaret Moran: To ask the Deputy Prime Minister if he will publish a draft bill on tenure reform. [24033]

Yvette Cooper: The Law Commission are planning to publish a draft Bill setting out their proposals on tenure reform in 2006.

Thames Gateway

Andrew Rosindell: To ask the Deputy Prime Minister what the timetable is for the building of the Thames Gateway project. [25068]

Yvette Cooper: "Creating Sustainable Communities: Delivering the Thames Gateway", a strategy document launched earlier this year by my right hon. Friends the Prime Minister and Deputy Prime Minister, sets out the vision for growth and regeneration of this important area over the next 10 years and longer. The Office of the Deputy Prime Minister's target is to deliver 120,000 new homes by 2016 and alongside this are projects to deliver improvements to roads and public transport, infrastructure for health, education and skills and environmental protection. In addition to these large scale infrastructure projects, Government are funding a range of projects that unlock further regeneration or growth potential—for example by revitalising town centres and bringing brownfield land back into productive use.

Travellers

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 24 October 2005, *Official Report*, column 24W, on Travellers, what the budget of the new Gypsy and Traveller Unit is for 2005–06; and what its planned *(a)* work programme and *(b)* activities are. [24688]

Yvette Cooper: The Gypsy and Traveller Unit, supported by Government offices in the regions, is working closely with local authorities, local police forces and representatives of the Gypsy and Traveller community, to promote increased site provision alongside effective use of enforcement powers against inappropriate sites. The overall aim is to reduce tensions between Gypsies and Travellers and the settled

community through effective accommodation provision and enforcement on public sites. To help with this it is producing a "plain guide" to enforcement powers and is reviewing what more can be done to make them work effectively.

The unit is also working with other Government Departments and stakeholders to look at the social exclusion and service provision for Gypsies and Travellers.

The budgeted cost of the unit for 2005–06 is £0.5 million.

NORTHERN IRELAND

11-plus Examination

Mr. Lidington: To ask the Secretary of State for Northern Ireland if the Council for Curriculum, Examinations and Assessment and the Department for Education Northern Ireland will evaluate the proposals by Dr. Hugh Morrison of Queen's University, Belfast, for an alternative to the 11-plus examination; and if he will make a statement. [24410]

Angela E. Smith: Following the Government's decision to end academic selection, there are no plans for an alternative testing regime to replace the 11 plus tests. New admissions arrangements will be based on informed parental choice.

The pupil profile will provide an ongoing record of a child's educational progress, and assist parents and children in deciding which post-primary schools to apply to.

CCEA is willing to discuss Dr. Morrison's proposals in the context of planned advice for schools on a range of possible assessment tools that could be used to support teacher assessment and to inform completion of the pupil profile.

A and E Waiting Times

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many patients were waiting for more than two hours on trolleys in accident and emergency departments of hospitals in Northern Ireland in each year since 1998. [24159]

Mr. Woodward: The number of hospital trolley waits waiting two hours or more is reported to the Department by trusts on a quarterly basis.

Number of hospital trolley waits waiting two hours or more recorded in Northern Ireland 1998–99 to 2004–05

Financial year	*Trolley waits waiting more than two hours*
1998–99	3,943
1999–2000	6,040
2000–01	10,346
2001–02	15,041
2002–03	25,131
2003–04	29,978
2004–05	35,056

Note:
In a small number of cases trusts have returned data for a representative sample of trolley waits.

Departmental Information Return CH10.

A20

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when the Road Service expects to commence construction of the A20 Frederick Street Link in Newtownards. [24899]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Lady in response to this question.

Letter from Malcolm McKibbin to Mrs. Iris Robinson, dated 7 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding when the Roads Service expects to commence construction of the A20 Frederick Street Link in Newtownards.

I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Roads Service anticipates that work could commence on the construction of the A20 Frederick Street Link in 2007. However, this would be subject to the satisfactory completion of statutory processes and the availability of funding at that time.

I hope this information is helpful.

Abdominal Aortic Aneurysm

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the average waiting time for surgery for abdominal aortic aneurysm was in the last period for which figures are available; and if he will make a statement. [25021]

Mr. Woodward: Information on the waiting times for surgery for abdominal aortic aneurysms is not collected centrally. However, patients presenting with this condition generally have their surgery carried out as a matter of urgency.

If an abdominal aorta aneurysm is identified early, elective surgical repair can be carried out. Although this will be a very successful procedure for the majority of those operated upon, it is nonetheless associated with a mortality rate of 6 to 8 per cent.

Screening for abdominal aorta aneurysms is now on the agenda of the UK National Screening Committee, which is chaired by the Department's Chief Medical Officer.

Addictions Service (Strangford)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the addictions service offered to those in Strangford constituency. [24887]

Mr. Woodward: There is a wide range of addiction services currently offered to those in the Strangford constituency covering types of treatment such as detoxification, rehabilitation, substitute prescribing and therapeutic counselling (both adult and young people). These services are provided in peoples' homes, in health and social care facilities and in a hospital in-patient unit.

Alzheimer's

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what resources have been made available in Northern Ireland for *(a)* sufferers from and *(b)* carers who are affected by Alzheimer's disease in 2005–06. [24775]

Mr. Woodward: Alzheimer's is one of a number of physical and mental conditions that impact seriously upon the lives of older people and their families. In Northern Ireland, resources are allocated by programme of care for different classes of patients andclients rather than by specific conditions. Information on resources for Alzheimer's disease is not therefore available separately. Decisions relating to the treatment and support of clients and their carers are made by health and social services boards in light of local priorities and available resources.

Ards Hospital (Psychiatry)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many admissions to the psychiatry unit at Ards hospital in each of the last five years have been for addictions. [24888]

Mr. Woodward: There have been no admissions to the mental health inpatient unit at Ards hospital for addictions. Addictions inpatient care is provided in ward 15 in Downshire hospital, Down Lisburn Trust. If a patient is admitted to Ards who has an addictions problem it is because they have a concomitant mental health problem. A dual diagnosis worker and inpatient staff then provide treatment.

Armed Robberies

Mr. Wallace: To ask the Secretary of State for Northern Ireland how many armed robberies have taken place in West Belfast since July. [24768]

Mr. Woodward: I am advised by the Police Service of Northern Ireland that 21 armed robberies have taken place in the West Belfast District Command Unit between 1 July and 2 November 2005.

Avian Influenza

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals in the Province would be covered by the antiviral drugs stockpiled to counter an outbreak of avian influenza. [24919]

Mr. Woodward: The Department is stockpiling a supply of the anti-viral drug oseltamivir (or tamiflu) that will be sufficient to treat up to 438,000 people or 25 per cent. of the total population ie the predicted attack rate of a pandemic flu outbreak. This is in line with plans in the rest of the UK.

Benefit Fraud

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the level of *(a)* detected and *(b)* undetected benefit fraud in Northern Ireland in each year since 1998. [24148]

Mr. Hanson: The information is as follows.

Detected fraud

The information requested is available only from April 2000. The following table shows the number of detected fraud cases for each year since April 2000 and the amount of benefit overpaid in those cases:

	Total number	*Value of overpayments (£ million)*
2000–01	231	0.56
2001–02	492	1.59
2002–03	394	1.58
2003–04	367	1.90
2004–05	485	3.35
2005[1]	306	3.32

[1] To 31 October 2005

Undetected fraud

The estimated value of undetected benefit fraud is set out in the following table. The information requested is available only from 2000–01 year. The table shows the estimate of undetected fraud as a monetary value and as a percentage of benefit expenditure.

Estimated value of undetected benefit fraud

	Total value (£ million)	*Value as percentage of benefit expenditure*
2000–01	46.06	1.5
2001–02	60.45	1.9
2002–03	32.29	1.0
2003–04	36.62	1.2
2004–05	23.74	0.7

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were convicted of benefit fraud in each year since 1998. [24149]

Mr. Hanson: The Social Security Agency is committed to a robust approach to tackling fraud and deploys a series of sanctions against offenders:

formal cautions;

administrative penalties; and

prosecution.

Acceptance of a caution or administrative penalty is an admission by the person that benefit was claimed illegally. Information on numbers who have been through this process is available only from the 2000–01 financial year, as follows:

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*2005-year to date*
Successful prosecutions	231	465	322	237	234	107
Administrative penalties	10	11	49	102	168	153
Formal cautions	0	16	23	28	83	46
Total	241	492	394	367	485	306

Blind and Partially-sighted People

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what steps he is taking to provide *(a)* enhanced social care and rehabilitation services and *(b)* additional resources in rehabilitation worker training and support to help blind and partially-sighted people in Northern Ireland. [25045]

Mr. Woodward: The Department of Health, Social Services and Public Safety is currently engaged in a consultation process which will help highlight the steps needed to provide enhanced social care and rehabilitation services for blind and partially sighted people and determine the resources required.

Breast Cancer

Dr. McCrea: To ask the Secretary of State for Northern Ireland what action the Department of Health, Social Services and Public Safety is taking to promote breast cancer awareness among women aged *(a)* 18 to 25 years and *(b)* 65 to 75 years. [23381]

Mr. Woodward: Women in the age group 65 to 75 years of age will have had the opportunity to participate in the Department's breast screening programme (for women aged 50 to 64) and may continue, if they wish, to be screened after age 65. It is the Department's intention to extend the screening programme to all women in the age group 65–70, as soon as possible.

In March 2003, my Department's Chief Medical Officer, Dr. Henrietta Campbell announced the launch of three new leaflets about breast awareness/breast screening. One of these "Looking for Changes" is intended for women of all ages and copies were sent to every GP and practice manager in Northern Ireland, as well as to health promotion units in all four health and social services boards. This leaflet is available in five different languages. Among other things, the leaflet encourages women to make an appointment with their GP if they become aware of any changes in their breasts. Breast cancer is rare in women aged 18–25 years old.

Buckley Report

Sammy Wilson: To ask the Secretary of State for Northern Ireland if he will estimate the costs incurred in commissioning and producing Sir Michael Buckley's report regarding the University of Ulster. [23079]

Angela E. Smith: I am informed by the University that the estimated cost incurred in commissioning and producing Sir Michael Buckley's report regarding the University of Ulster was £8,560 excluding value added tax. This includes all payments to Sir Michael Buckley.

The University's Council was provided with a legal opinion on the contents of the report at a cost of £900, excluding value added tax.

C8

Lady Hermon: To ask the Secretary of State for Northern Ireland whether the process of evidence location and collation by the policing unit designated C8 has been completed; whether the collection and centralisation of located evidence has commenced; and whether the evidence will be assembled and centralised in *(a)* Northern Ireland and *(b)* Great Britain. [24013]

Mr. Woodward: I am advised that part of the Historical Enquiry Team's (C8) setting up process has been to locate and catalogue all the case papers, correspondence and exhibits that remain from the period under review (between 1968 and the signing of the Good Friday Agreement in 1998). A thorough search process was required, and the method chosen by the police as the most comprehensive and least disruptive to day to day policing was to employ a team of dedicated searchers, controlled centrally by the HET. This team, comprising of agency staff on short-term contracts, commenced work in March 2005 with a remit to search every police building of the PSNI estate. The Forensic Science Agency of Northern Ireland commenced a parallel search of its own, to complement the HET undertaking.

The search of all 29 PSNI district command units and HQ premises is due for completion by mid November 2005. It has been conducted in close collaboration with the setting up of the PSNI central storage facility, where all items will eventually be stored. The items recovered will be retained in Northern Ireland to facilitate the review process to be completed by the HET.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many of the staff employed in the policing unit designated C8 are *(a)* serving police officers and *(b)* former members of the Royal Ulster Constabulary; and how many are (i) members and (ii) former members of other police forces. [24030]

Mr. Woodward: I am advised that, at present, there are:

(a) five serving police officers on the Historical Enquiry Team (C8); four from the Metropolitan police and one from Strathclyde police. These officers are the senior managers of the team and have been recruited to assist in it's design;

(b) two retired members of the PSNI/RUC employed on a contractual basis; one senior manager to provide local knowledge and intelligence and the other, a specialist in family liaison work. Since inception, 40 former PSNI/RUC staff have also been supplied by an agency to work on the search process and provide administrative support; and

(c) two former members of other police forces; the head of the unit is a recently retired commander from the Metropolitan police, and a retired detective superintendent from the MPS is contracted to advise on establishing a review and family liaison process.

Lady Hermon: To ask the Secretary of State for Northern Ireland what the *(a)* role and *(b)* task is of the policing unit designated C8; what progress has been made by this unit towards the completion of its task; and how many people are employed within this unit, broken down by rank. [24031]

Mr. Woodward: The role of the Historical Enquiry Team (C8) is to re-examine all unresolved deaths in Northern Ireland attributable to the security situation between 1968 and the signing of the Good Friday Agreement in 1998.

The HET has defined its task as:

To assist in bringing 'closure', where possible, to the families of victims of an unresolved death, during this period;

To re-examine all deaths attributable to 'The Troubles' and ensure that all investigative and evidential opportunities are examined and exploited in a manner that satisfies the PSNI's obligation of an 'Effective Investigation' (article 2, Code of Ethics for PSNI); and

To do so in a way that commands the confidence of the wider community.

The HET was established in April 2005, and is due to become operational on 9 January 2006. The intervening period has seen preparatory work including refurbishing and equipping the Sprucefield PSNI site as its base; a search process to recover and catalogue case files, correspondence and exhibits; preparation of policies and protocols for conduct of reviews and re-investigations; interviewing and appointing staff and negotiating for their secondment; introducing arrangements with other agencies to gather information, evidence and trace individuals; and working with families who have come forward already. The HET has also been in consultation with many families direct, and with non-government organisations and lawyers representing families.

At present there are 23 staff on HET daily work, including one head of unit, (senior civil servant grade), one detective superintendent, three detective chief inspectors, one detective sergeant, and 17 civilian staff providing administrative and ancillary support. A further 32 agency staff (ungraded) are employed on the search process.

Car Theft

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many car thefts there were in each district command unit in each of the last five years. [25169]

Mr. Woodward: The Police Service of Northern Ireland records theft of vehicles and unauthorised taking of vehicles as a single category. The figures are provided in the following table.

Recorded theft or unauthorised taking of a motor vehicle

	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*

Cardiomyopathy

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many newly diagnosed cases of cardiomyopathy there were in the Province in each of the last five years. [24856]

Mr. Woodward: The number of newly diagnosed cases of cardiomyopathy in Northern Ireland is not available.

Information is available on the number of cardiomyopathy sufferers admitted as in-patients to hospitals in Northern Ireland. The number of admissions to hospital with a primary or secondary diagnosis of cardiomyopathy is detailed in the following table for each of the last five years available. It should be noted that any individual could have been admitted to hospital more than once over the course of a year or over a number of years and would therefore be counted more than once in the table.

	Admissions for cardiomyopathy
2004–05	593
2003–04	628
2002–03	561
2001–02	552
2000–01	501

Hospital Inpatients System DHSS&PS

Carers

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what plans he has to implement a pay scale for carers across Northern Ireland. [22768]

Mr. Hanson: Carers have access to the full range of social security benefits, including carers allowance, and tax credits, depending on their individual circumstances, and to a wide range of services from their local Health and Social Services Trust, which are designed to offer practical support for their caring role. The Government are satisfied that targeting help in this way represents the best use of resources, and has no plans to introduce a pay scale for carers.

Child Support Agency

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the administration cost of the Child Support Agency in Northern Ireland has been in each of the past five years; and what the expected expenditure is in *(a)* 2005–06 and *(b)* 2006–07. [25167]

Mr. Hanson: Administration expenditure over the past five years is as follows:

	£ million
2000–01	10.256
2001–02	11.380
2002–03	13.500
2003–04	15.023
2004–05	15.046

Estimated expenditure for 2005–06 and 2006–07 is as follows:

	£ million
2005–06	17.464
2006–07	[1]15.817

[1] Based on anticipated budget allocation.

Class Statistics

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of those living in each district council area in the Province are *(a)* professionals and *(b)* skilled workers. [24866]

Angela E. Smith: The following table contains estimates from the 2003 Labour Force Survey local area database showing the percentage of all persons in employment in each district council area that are classified as being in professional and skilled trade occupations.

Percentage of all persons in employment classified as being in professional or skilled trade occupations

District council area	*Professional occupations*	*Skilled trade occupations*
Antrim	[1]10	[1]18
Ards	[1]13	19
Armagh	[1]10	[1]14
Ballymena	[1]6	21

Labour Force Survey, Local Area Database 2003.

Clinical Negligence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the likely costs resulting from clinical negligence in the Province in each of the next five years. [24861]

Mr. Woodward: The cost to the Health and Personal Social Services budget is the net impact of the provision being established for new clinical negligence cases, reduced by the settlement of existing cases. This is estimated at £11 million in each of the three years from 2005–06 to 2007–08. No estimates have yet been made beyond 2007–08.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many clinical negligence cases are pending within each health trust in the Province. [24862]

Mr. Woodward: The information is not available in the form requested and could be provided only at a disproportionate cost.

Compensation Agency

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what proportion of cases have been considered by the Compensation Agency in Northern Ireland for more than two years before a decision was arrived at. [22637]

Mr. Hain: The Compensation Agency's electronic database was introduced in 1988. It has only been possible to retrieve information relating to claims which

have been captured on that database. Claims which were in existence prior to this were kept on paper records and files which have subsequently been destroyed through routine destruction procedures.

Analysis of the database shows that the Compensation Agency has made decisions on 309,533 claims since 1988. Of these, 40,336 or 13 per cent. were made after two years.

Conviction Rates

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what was the conviction rate for *(a)* common assault, *(b)* breach of peace and *(c)* drunkenness in each of the last five years broken down by district command unit. [22755]

Mr. Hanson: The following tables relate to the years 2000–03 and detail the number of persons prosecuted and convicted at court. The tables are based on the police district command unit in which the offender's address falls. Where numbers are small conviction rates for each DCU are not calculated but the number of prosecutions and convictions are presented, along with the overall conviction rates for each year. Due to changes in the way data is collected figures for 1999 are not directly comparable but table four shows Northern Ireland level prosecutions and convictions for that year, for the three offence categories in question. It should be noted that many offences of common assault, breach of peace and drunkenness may be brought to justice via a police caution rather than via a court prosecution.

Table 1: Number of convictions and conviction rates for common assault offences by police district command unit 2000–03[1]

[1] Common assault offences include: common assault, common assault on adult, and common assault on a child/ young person.
[2] Data are based on the police district command unit in which an offender's address falls. Police district command units became operational in April 2001. However, for the purposes of comparability, calendar year 2000 data are also disaggregated by DCU, rather than police division. Missing data relate to those offenders for which DCU information is not available.
[3] The conviction rate is based on the number of persons found guilty out of those brought to court for the offence. Caution is recommended when interpreting rates, due to small numbers in some categories.

[1] Breach of the peace offences include behaviour likely to cause breach of the peace, and behaviour likely to cause breach of peace on licensed premises.

[2] Due to the very small numbers in most cells, a conviction rate (based on the number of persons found guilty out of those brought to court for the offence) has not been calculated for each DCU; however, an overall conviction rate is shown for each calendar year.

[3] Data are based on the police district command unit in which an offender's address falls. Police district command units became operational in April 2001. However, for the purposes of comparability, calendar year 2000 data are also disaggregated by DCU, rather than police division. Missing data relate to those offenders for which DCU information is not available.

[1] Drunkenness offences include simple drunk, drunk and disorderly, drunk in charge of animal, entering an aircraft when drunk, being drunk when in aircraft, drunk in charge of child, being drunk in licensed premises. Offences relating to drink under road traffic legislation are excluded.

[2] Due to the very small numbers in most cells, a conviction rate (based on the number of persons found guilty out of those brought to court for the offence) has not been calculated for each DCU; however, an overall conviction rate is shown for each calendar year.

[3] Data are based on the police district command unit in which an offender's address falls. Police district command units became operational in April 2001. However, for the purposes of comparability, calendar year 2000 data are also disaggregated by DCU, rather than police division. Missing data relate to those offenders for which DCU information is not available.

Table 4: Number of prosecutions, convictions and conviction rates for common assault, breach of peace and drunkenness offences—1999

Offence	Prosecutions	Convictions	Conviction rate[4] (percentage)
Common assaults[1]	1,086	814	75
Breach of peace[2]	205	157	77
Drunkenness[3]	165	141	85

[1] Common assault offences include: common assault, common assault on adult, and common assault on a child/young person.
[2] Breach of the peace offences include behaviour likely to cause breach of the peace, and behaviour likely to cause breach of peace on licensed premises.
[3] Drunkenness offences include simple drunk, drunk and disorderly, drunk in charge of animal, entering an aircraft when drunk, being drunk when in aircraft, drunk in charge of child, being drunk in licensed premises. Offences relating to drink under road traffic legislation are excluded.
[4] The conviction rate is based on the number of persons found guilty out of those brought to court for the offence.

Cultural Events (Funding)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much funding his Department has provided for *(a)* Ulster Scots and *(b)* Irish cultural (i) groups, (ii) events and (iii) projects in each of the last three years in Northern Ireland. [22761]

Mr. Hanson: The Department of Culture, Arts and Leisure (DCAL) jointly funds the Ulster-Scots Agency and Foras na Gaeilge, the Irish Language Agency. The Ulster-Scots Agency has a statutory remit to promote Ulster-Scots language and culture. Foras na Gaeilge has a statutory remit to promote the Irish language.

The amounts allocated to the Ulster-Scots Agency and Foras na Gaeilge by DCAL in 2002, 2003 and 2004, which were given to cultural groups, events and projects in Northern Ireland are detailed in the table.

STG

	Foras na Gaeilge (Irish Language Agency) (£)	Tha Boord o Ulster-Scotch (Ulster-Scots Agency) (£)
2002[1]	2,862,644	509,208
2003[1]	2,514,262	734,769
2004[1]	2,039,322	962,934

Funding is also available from departmental mainstream programmes for projects which may have an Irish or Ulster-Scots language or culture dimension, which cannot be separated from the primary funding objectives.

Departmental Finance/Genetic Testing

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding has been allocated to the Department for Health, Social Services and Public Safety Research and Development Fund in each of the last five years; and if he will make a statement on access to genetic testing for individuals in the Province. [24882]

Mr. Woodward: The amount of funding allocated to the Department of Health, Social Services and Public Safety Research and Development Fund in each of the last five financial years was as follows:

£000

	Allocation
2000-01	8,765
2001-02	8,621
2002-03	8,640
2003-04	10,582
2004-05	11,247

The HPSS Research and Development Office have no dealings nor have funded genetic testing for individuals in the Province in the last five years.

Departmental Funding

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding he expects to be allocated to the Department for Health, Social Services and Public Safety Research and Development Fund in *(a)* 2006–07 and *(b)* 2007–08. [24907]

Mr. Woodward: No decision has as yet been made with regard to the future funding of Research and Development within the HPSS for 2006–07 and 2007–08. A formal consultation process is currently under way in relation to the recently published Draft Priorities and Budget for Northern Ireland. Final decisions on spending allocations will be made following the end of this consultation period, which closes on 5 December 2005.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Northern Ireland which individual is responsible for developing and implementing his Department's Skills Development Plan. [23839]

Mr. Hanson: The Director of Resources is the individual responsible for developing and implementing the Department's Skills Development Plan.

Mr. Gibb: To ask the Secretary of State for Northern Ireland if he will place in the Library a copy of his Department's skills development plan. [23865]

Mr. Hanson: I have arranged for a copy of the Northern Ireland office skills development plan to be placed in the Library.

Disability Services

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much funding has been allocated to learning disability services in Northern Ireland in each of the last 10 years for which figures are available. [25212]

Mr. Woodward: Expenditure on learning disability services in each of the last ten years is as follows:

	£ million
1995-96	58
1996-97	77
1997-98	83
1998-99	89
1999-2000	94

	£ million
2000–01	100
2001–02	115
2002–03	136
2003–04	152

Information for 2004–05 is not yet available.

Doctors' Training

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the average expenditure on the training of *(a)* a general practitioner registrar and *(b)* a doctor in the year after completing their general practitioner registrar year was in the Province in 2004–05. [24868]

Mr. Woodward: The average expenditure on the training of a general practitioner registrar in the year 2004–05 was £77,866 and average expenditure for a doctor in the year after completing their general practitioner registrar year was £911.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many doctors have completed general practitioner training in the Province in each of the last five years. [24869]

Mr. Woodward: The total number of doctors who have completed general practice training in the Province in each of the last five years is as follows:

	Number
2005	47
2004	46
2003	41
2002	36
2001	34

Domestic Violence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many domestic violence incidents *(a)* were reported in each constituency and *(b)* led to prosecution through the court system in the last year for which figures are available; and if he will make a statement. [22628]

Mr. Hanson: The PSNI are the sole source of reliable information about domestic violence as they capture recorded crimes with a domestic motivation. The information is therefore only available across PSNI District Command Units and is set out in the table for the year 2004–05.

It is believed however that these figures do not reflect the true level of domestic violence in Northern Ireland. In the Northern Ireland Crime Survey 2003–04, 19 per cent. of female respondents claimed they had been the victims of domestic violence at some time in their lives, while 11 per cent. of male respondents made a similar claim.

Area	Total offences recorded
Antrim	235
Ards	345
Armagh	166
Ballymena	311
Ballymoney	122
Banbridge	200
East Belfast	397
North Belfast	630
South Belfast	325
West Belfast	522
Carrickfergus	152
Castlereagh	187
Coleraine	309
Cookstown	196
Craigavon	556
Down	147
Dungannon South Tyrone	122
Fermanagh	151
Foyle	651
Larne	111
Limivady	204
Lisburn	819
Magherafelt	99
Moyle	52
Newry and Mourne	268
Newtownabbey	395
North Down	294
Omagh	219
Strabane	323
Total	8,508

In relation to *(b)* figures relating to domestic violence incidents that led to prosecution through the court system are not available. Domestic violence is not a category against which crime is recorded and therefore it is not possible to directly attribute offences to the cases outlined above.

Education Action Zones

Mr. Dodds: To ask the Secretary of State for Northern Ireland (1) if he will publish the education action zone proposals of each education and library board in Northern Ireland; [23662]

(2) what funding has been allocated to each education action zone in Northern Ireland; [23663]

(3) what progress education and library boards have made in seeking and securing inter-agency support for education action zones. [23664]

(4) what the start date is for education action zones in each education and library board area in Northern Ireland. [23667]

Angela E. Smith: The purpose of education action zones (EAZs) was to help schools in specific designated areas become a community resource providing facilities, services and support both in and beyond education. Some £2 million per annum was allocated for EAZs but to date only modest funding has been provided to Education and Library Boards to assist them in developing proposals. Inter-agency support was a requirement for EAZ funding and was included in all of the proposals received. No start dates had yet been determined for EAZs. As the hon. Member will have seen from the draft Budget 2005, we are now proposing to extend these benefits to schools right across Northern Ireland, targeted initially at schools in disadvantaged

areas, through the new investment in extended schools, as part of the Children's and Young People's package. We propose to roll education action zones, into this wider initiative. The Budget proposals are, however, still at draft stage, and views on them are welcome.

Education and Library Boards

Sammy Wilson: To ask the Secretary of State for Northern Ireland what representations the Department of Education for Northern Ireland has received regarding accounting procedures at the *(a)* Belfast Education and Library Board and *(b)* South Eastern Education and Library Board. [21234]

Angela E. Smith: Accounting and accountability issues are a central item for discussion at the regular accountability reviews held between the Department and each Board. Board members have expressed concern regarding complexities in operating resource accounting, although all public bodies have for some years, been required to account for the public expenditure allocated to them in line with government accounting procedures and the principles and practice of resource accounting.

The report from the Statutory Inquiry into Financial Management and Control in the Belfast and South Eastern Education and Library Boards pointed to the importance of Board members understanding the financial context in which the Boards operate and probing and challenging officers on issues relating to finance and accountability. As part of the process of enabling Board members to fulfil this role, my Department is providing additional training and support to all Board members to complement existing internal induction arrangements and ensure that all Board members understand standards of public accounting and accountability.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the cumulative deficit is for each education and library board; and if he will make a statement. [22640]

Angela E. Smith: The cumulative deficit for each education and library board at 31 March 2005 is as follows:

	£ million
Belfast	10.7
North Eastern	[1]—
South Eastern	20.5
Southern	[1]—
Western	[1]—

[1] None.

In common with all public bodies, the five education and library boards are required to live within the allocations voted by Parliament. I have been assured that this will be the case in 2005–06. Plans are also in place to ensure that the two boards in deficit repay the amounts they overspend in previous years.

Energy Efficient Lightbulbs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of households that have at least one energy efficient light bulb from an energy efficiency advice centre in Northern Ireland. [25711]

Mr. Hanson: Energy efficiency advice centres, now known as the energy saving trust advice centre, distribute energy efficiency light bulbs, provided by Northern Ireland Electricity, at a rate of one per household, largely through promotional events and energy saving road shows. Information on the number distributed in this way since 2003–04 is as follows:

	Number of light bulbs distributed
2003–04	11,170
2004–05	35,600
2005–06	[1]28,000

[1] Some of these have yet to be distributed.

Eye Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on current research he has funded into retinitis pigmentosa. [24883]

Mr. Woodward: There are a total of three research projects currently being sponsored by the DHSS and PS R and D Office on retinitis pigmentosa. These are listed in the following table along with the start dates and a calculated budget figure for the work.

Research title (short version)	*Start date*	*Budget (£)*
Studentship 2002—The identification and characterisation of novel ion channels within the retina	1 October 2002	48,439
Fellowship 2004—The relationship between measurements of retinal thickness using optical coherence tomography and retinal function using multifocal electroretinography in patients with myopia and retinal disorders	13 September 2004	156,145
RRG 11.13 The application of systematic proteomics to characterise the neuroretina and the inherent subsistence factors that maintain its integrity	1 May 2002	170,292

The total amount spent on these projects is £374,876. Summaries of each project are available if required.

Fair Employment

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will meet the Equality Commission to discuss the implications of the maps presented in chapter six of the Commission's publication, Fair Employment in Northern Ireland A Generation On. [24266]

Angela E. Smith: I am aware of the research published by the Equality Commission for Northern Ireland in

"Fair Employment: A Generation On". I have asked officials to consider the implications of the maps in chapter six of this publication, to discuss this with the Equality Commission and to keep Ministers advised as necessary.

Fireworks

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many permits have been issued to the public for use of fireworks in each of the last three years. [25223]

Mr. Woodward: The number of applications made in each of the last three years is as follows.

	Number of applications
2002	999
2003	1,257
2004	889

Government Projects

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will list the projects being undertaken by the Department for Health, Social Services and Public Safety Research and Development Office. [24881]

Mr. Woodward: There are a total of 248 active/successful projects currently being undertaken by the R&D Office. A table listing these, along with the start dates and a calculated budget figure for the work has been placed in the Library.

Grammar Schools

Mr. Gibb: To ask the Secretary of State for Northern Ireland how many *(a)* voluntary and *(b)* state-controlled grammar schools there are in Northern Ireland. [23819]

Angela E. Smith: There are currently 52 voluntary grammar schools and 17 state-controlled grammar schools in Northern Ireland.

Health Scans

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the average waiting time for *(a)* emergency and *(b)* routine ultrasound scans was in each health trust in the Province in 2004–05. [24857]

Mr. Woodward: Information on waiting times for ultrasound scans is not collected centrally

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients are awaiting an ultrasound scan in the Province. [24858]

Mr. Woodward: Information on waiting times for ultrasound scans is not collected centrally.

Hospital Readmissions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of patients discharged from hospitals in the Province were readmitted within two months in the last five years. [24922]

Mr. Woodward: The information requested is not available. It is not possible to identify the number of individuals readmitted to Northern Ireland hospitals.

Hospital Travel Cost Scheme

Dr. McCrea: To ask the Secretary of State for Northern Ireland what the qualifying criteria are for patients wishing to access the hospital travel cost scheme (HTCS); what financial provision is available under the scheme; and what the level of uptake of the HTCS has been in each of the four health board areas in each of the past three years. [23386]

Mr. Woodward: Information on entitlement to hospital travel costs is contained in part 2 of the Travelling Expenses and Remission of Charges Regulations (Northern Ireland) 2004, which are available on the website www.opsi.gov.uk.

The financial provision available under the scheme is governed by the regulations, which state:

"(5) The amount of any HS travel expenses to which a person is entitled under these Regulations

(a) must be calculated by reference to the cost of travelling by the cheapest means of transport which is reasonable having regard to the person's age, medical condition and any other relevant circumstances; and

(b) where travel is by private car, may include a mileage allowance and car parking expenses."

The level of uptake in monetary terms is included in the following table. It should be noted that the figures for 2002–03 are incomplete.

£

	2002–03[1]	*2003–04*	*2004–05*
NHSSB	81,219.00	89,508.00	88,128.00
SHSSB	55,285.60	59,965.98	60,291.78
EHSSB	349,539.02	554,004.54	626,648.07
WHSSB	173,625.00	196,313.00	207,368.00
Total	659,668.62	899,791.52	982,435.85

[1] Due to a change in computer systems Foyle, Newry and Mourne, Homefirst, South and East Belfast, the Royal Group of Hospitals and Down Lisburn Trusts were not able to provide figures for the year 2002–03.

Hospital-acquired Infections

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many infections were acquired *(a)* in hospitals and *(b)* elsewhere within the health service in the Province in each of the last 10 years. [24921]

Mr. Woodward: The information is not available in the format requested. Current surveillance cannot differentiate between infections that were acquired in hospitals or those that were acquired elsewhere.

Housing Associations

Mr. Dodds: To ask the Secretary of State for Northern Ireland (1) what the average length of time taken to process planning applications for housing associations in Northern Ireland was in each year since 2001; [24064]

(2) how many applications for planning have been made by housing associations in Northern Ireland in each year since 1999; what the average approval time

was; what the average validation time was; and what the annual percentage change in planning fees was. [24065]

Angela E. Smith: The information requested is included in the following tables.

Table 1: Number of planning applications from housing associations between 2000 and 2005 with average processing and validation times

	2000	2001	2002	2003	2004	2005
Number of applications	97	85	81	80	110	81
Average processing times in weeks	23.3	22.7	28.8	28	27.4	29.1
Average processing times to approval in weeks	23.3	22.7	28.8	27.2	27.1	27.7
Average validation times in weeks	2.2	3	2.5	2	3.4	2.7

Notes:

1. It is only possible to provide accurate data for the last five years, as all the information for 1999 is not held electronically by the planning service. It would be possible to extract the information for 1999 but at a disproportionate cost as it would involve a manual examination of approximately 22,182 files.
2. It should be noted that it is not always explicit that an application is on behalf of a housing association as applications may be submitted by an agent without reference to the association on the application forms.

Table 2: Percentage increase in planning fees between 1999 and 2005

	Percentage increase in planning fees
1999	0
2000	0
2001	3
2002	0
2003	14
2004	10
2005	12

Knockmore Link Road

Mr. Donaldson: To ask the Secretary of State for Northern Ireland whether the Roads Service plans to proceed with the proposed new Knockmore Link Road in Lisburn. [25496]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Malcolm McKibbin to Mr. Jeffrey M. Donaldson, dated 7 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what plans Roads Service has to proceed with the proposed new Knockmore Link Road in Lisburn. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Roads Service has identified the Knockmore Link scheme within the Belfast Metropolitan Transport Plan 2015, which was published in November 2004. The scheme, which would provide access to the West Lisburn site as a major employment location, is also included in the Draft Belfast Metropolitan Area Plan 2015 (BMAP).

Roads Service has no current proposals for the implementation of this scheme and therefore it has not been included in any forward planning programmes. This non-strategic road scheme will be subject to the Area Plan Inquiry which is scheduled for 2006. As stated in the Draft BMAP 2015, developers will be responsible for either full or substantial part funding for the scheme. Therefore, delivery of the scheme will be dependent on developer proposals following the outcome of the Area Plan Inquiry.

I hope this information is helpful.

Lagan Valley Hospital

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what plans the Department of Health, social services and public safety has to provide capital funding for improvement works at Lagan Valley hospital. [25033]

Mr. Woodward: The Department received a business case from Down Lisburn Trust dated 9 June for the re-development of Lagan Valley site at an estimated capital cost of £62 million. The Department has since been working with the Trust to develop these plans. In the meantime the Department has recently approved £350,000 capital funding for the upgrading of sterile services at the hospital and is considering further interim proposals which include additional theatre accommodation.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for Northern Ireland what steps he is taking to promote uptake of the national tests in adult literacy and numeracy among employees of his Department. [23413]

Mr. Hanson: The Knowledge 'skills for life' programme is a key part of the Northern Ireland Office learning programme. It forms a part of a 'ladder for development' to Modern Apprenticeships and all other training development opportunities offered by the Department. The programme is open to all NIO staff, although it is not expected that those currently holding a GCSE in English and/or maths would typically require this type of support. The programme is promoted during the Induction programme and by means of information flyers. Literacy and numeracy training is also embedded in the Department's general course training programme.

Mr. Gibb: To ask the Secretary of State for Northern Ireland how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23418]

Mr. Hanson: Since 2002, one member of staff in the Northern Ireland Office has requested training to improve their literacy skills. The applicant was interviewed to assess their training requirement and an appropriate course was identified with a local College. On-going support is being provided to the student throughout the duration of the course. No one has sought assistance with numeracy skills although basic figure work would be included as part of the Department's financial training courses.

Manufacturing Employment

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people were employed in the manufacturing sector in each parliamentary constituency in Northern Ireland in each of the last 10 years. [25150]

Angela E. Smith: Estimates of the number of employee jobs below Northern Ireland level are only available from the Census of Employment on a biennial basis and the most up-to-date figures relate to September 2003. The estimates of employee jobs in the manufacturing sector for the period September 1995 to September 2003 for each parliamentary constituency area within Northern Ireland can be found in Table 1.

Table 1: Number of employee jobs in the manufacturing sector at September 1995, September 1997, September 1999, September 2001 and September 2003 for each parliamentary constituency area

Parliamentary constituency area	*September 1995*	*September 1997*	*September 1999*	*September 2001*	*September 2003*
Belfast East	10,259	9,689	9,506	9,537	7,600
Belfast North	5,209	5,228	4,617	4,377	3,712
Belfast South	3,556	3,279	2,767	2,819	2,557
Belfast West	2,085	2,546	2,785	2,801	2,466
East Antrim	4,690	5,085	4,925	4,883	3,646
East Londonderry	5,446	5,748	5,964	5,276	4,905
Fermanagh and South Tyrone	6,424	7,304	7,541	7,103	7,083

Census of Employment, DETI

Medical Negligence

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much has been paid out due to medical negligence in each health board in each of the last 10 years. [25149]

Mr. Woodward: Amounts paid in settlement of clinical negligence claims in relation to the previous four years is detailed in the following table:

£000

	2001–02	*2002–03*	*2003–04*	*2004–05*
EHSSB	2,527	3,845	6,395	3,266
NHSSB	1,775	5,633	1,026	3,590
SHSSB	629	962	5,638	3,845
WHSSB	2,484	3,112	2,135	1,020
Total	7,415	13,552	15,194	11,721

The information relating to the previous six years is not readily available in the form requested and could be obtained only at disproportionate cost.

The amount paid in any one year in respect of clinical negligence can vary considerably due to the uncertain timing of the settlement of cases.

Mobile Classrooms

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many schools in each education board in Northern Ireland make use of temporary mobile classroom accommodation; and what the timetable is for the replacement of this accommodation in each board. [24155]

Angela E. Smith: The number of schools using temporary accommodation was 694 at 31 March 2005. The following table details the number of schools by board area.

Board area	*Number of schools with temporary classrooms*
Belfast	58
Western	154
North Eastern	165
South Eastern	121
Southern	196
Total	694

Temporary classrooms are removed through a combination of major capital schemes and the Strategic Investment Programme (formerly Reinvestment and Reform initiative) which provides funding specifically to remove temporary classrooms. As a result of the increase in capital funding for major works in recent years around 700 temporary classrooms will be removed from 80 schools as these schemes come to fruition over the next few years. The programme of capital investment is planned to continue over the coming years and it is expected that this will remove further temporary classrooms from the estate. There is no timetable for the removal of all temporary accommodation as temporary classrooms can provide an appropriate solution to meet immediate accommodation needs.

Multiple Sclerosis

Mark Durkan: To ask the Secretary of State for Northern Ireland what assessment he has made of the

impact of prescription price reductions for multiple sclerosis disease modifying treatments (DMTs) since 2002; what change there has been in *(a)* the cost per person in each year, *(b)* the numbers of multiple sclerosis patients receiving DMTs in each board area in each year, *(c)* the waiting lists and waiting times for DMTs in each board area in each year and *(d)* the expenditure by each board on DMTs in each year; and if he will make a statement. [23362]

Mr. Woodward: The information requested is as follows:

(a) Since 2002, disease modifying therapies for people with multiple sclerosis have been provided under a UK-wide risk sharing scheme agreed between the UK health departments and the product manufacturers. Costs vary according to which drug a patient is prescribed. The cost per patient per year of the drugs being supplied to the health service for the purposes of the scheme are:

£

	Cost per patient per year
Avonex	8,502
Betaferon	7,259
Copaxone	5,823
Rebif	
Lower dose	7,513
Higher dose	8,942

These costs have remained unchanged since 2002.

(b) The number of patients receiving disease modifying treatments in each board area in each year for which information is available is shown in the following. These figures include patients on break from treatment.

	30 April 2003[1]	*30 April 2004*[1]	*30 April 2005*	*30 September 2005*
Eastern	171	200	220	219
Northern	123	159	176	179
Southern	72	100	104	103
Western	76	74	73	75
Total	442	533	573	576

[1] Information on DMTs was not collected by the Department on a regular basis prior to May 2004; these earlier figures have been provided by Royal Group of Hospitals Trust.

(c) Information on the number of patients waiting for treatment in each board area in each year for which information is available is shown in the following table. Comparable information on waiting lists for disease modifying treatment was not collected on a regular basis prior to September 2004.

	30 September 2004	*31 March 2005*	*30 September 2005*
Eastern	10	30	56
Northern	33	34	56
Southern	11	7	16
Western	16	16	19
Total	70	87	147

Notes:
1. Patients currently suspended from the waiting list are excluded from these figures.
2. Information is not available on waiting times.

(d) The boards have advised that expenditure on DMTs in each year was as shown in the following table.

£

	Eastern	*Northern*	*Southern*	*Western*[1]
2002–03	1,435,745	993,850	558,862	438,132
2003–04	1,544,745	1,150,891	714,420	439,930
2004–05	1,637,315	1,260,089	796,111	565,149

[1] Excludes healthcare at home costs

The Department will continue to seek to improve access to specialist medicines, which offer the potential for significant improvement in patient care. This year, an estimated £4.7 million will be spent on providing disease-modifying therapies for people with multiple sclerosis.

NHS Complaints

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many complaints have been made against each health trust in the Province in each of the last five years. [24859]

Mr. Woodward: The information requested is as follows:

	2000-01	*2001–02*	*2002–03*	*2003–04*	*2004–05*

NHS Outsourcing

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost to each health board in Northern Ireland of contracting procedures out to the private sector has been in each of the last five years. [25225]

Mr. Woodward: The cost of procedures purchased by each health board from the private sector in each of the last five years is as follows:

Cost (£)

Board	2000–01	2001–02	2002–03	2003–04	2004–05
EHSSB	410,000	1,344,000	2,056,000	1,428,000	1,790,000
NHSSB	[1]n/a	751,765	1,541,423	3,102,800	2,529,301
SHSSB	398,648	429,000	891,784	1,779,502	917,906
WHSSB	780,000	[2]1,513,000	2,106,000	4,324,000	3,807,000
Total	1,588,648	4,037,765	6,595,207	10,634,302	9,044,207

[1] Figures for Northern Board are not available for 2000–01
[2] figure includes MRJ scans

The information provided in the table relates to transfers to and from a number of different hospitals over the five years.

NHS Sickness Absence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many employees of health trusts in the Province are on sick leave, broken down by profession. [24901]

Mr. Woodward: The number of employees who were on sick leave on 30 September 2005 is set out in the following table:

Staff group	Number of employees on sick leave
Administrative and clerical	549
Works and maintenance	37
Ancillary and general	876
Nursing and midwifery	1,415
Social work staff	333
Professional and technical	240
Medical and dental	50
NI Ambulance Service[1]	[1]83.59

[1] The NI Ambulance Service HSS Trust was only able to provide information in whole time equivalent due to the shift patterns worked by employees. Their figure includes employees in the ambulance, administrative and clerical, ancillary and general and medical staff groups.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the costs resulting from sick leave among NHS employees in the Province in 2004–05. [24902]

Mr. Woodward: The information requested is not held centrally.

Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many overseas nurses are employed by each health trust in the Province. [24903]

Mr. Woodward: Information requested is provided in the following table.

Nurses from overseas employed by health trust as at 1 November 2005

Trust	Headcount	Whole-time equivalent
Altnagelvin Group HSS Trust	30	30.00
Armagh and Dungannon HSS Trust	0	0.00

Ombudsmen (Police Complaints)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many complaints he has received from police officers regarding *(a)* actions by officers from the Ombudsman's Office and *(b)* investigations carried out by the Police Ombudsman in each of the last five years. [25148]

Mr. Woodward: In light of the Police Ombudsman's independent status, the NIO does not receive and handle complaints made against the Police Ombudsman's Office, except on the very narrow ground of maladministration in the Ombudsman's administrative processes. A complaint about the Ombudsman's handling of an investigation, or its outcome should be pursued through the Ombudsman's own internal complaints mechanism.

Records of complaints of alleged administrative maladministration are available from January 2005. Since then, three such complaints have been received from police officers.

Orthopaedic Surgeons

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many consultant orthopaedic surgeons there are in Northern Ireland. [24152]

Mr. Woodward: Information is only available for those consultant orthopaedic surgeons working within the Northern Ireland Health and Personal Social Services workforce. This information is provided in the table.

Number of consultant orthopaedic surgeons employed within the NI HPSS by trust as at 31 October 2005

Trust	Headcount	Whole-time equivalent

[1] To 30 September.

Note:

2005 statistics are provisional and may be subject to minor amendment.

Pedestrian Crossings

Mark Durkan: To ask the Secretary of State for Northern Ireland (1) what the assessment procedures and criteria are for new pedestrian crossings in Northern Ireland; whether he plans to review them; and if he will make a statement; [24487]

(2) in what locations pedestrian crossings have been requested in each roads service division in the past five years; where they have been provided; and where there are plans for new crossings; [24488]

(3) how much his Department spent on pedestrian crossings in the last five years in each roads service division; what the budgeted expenditure is for 2005–06; and what the planned expenditure is in each of the next five years. [24489]

Mr. Woodward: I have asked the Chief Executive of Roads Service (Dr. Malcolm McKibbin) to write to the hon. Gentleman in response to these questions. A copy of the letter will be placed in the Library.

Pension Books

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many pension books were issued in Northern Ireland in each of the last five years. [24153]

Mr. Hanson: In April 2003, Direct Payment became the normal method of payment for social security benefits. Pension order books were phased out in March 2005 and none have been issued since then.

The number of pension order books issued in Northern Ireland in the last five years is shown in the table as follows.

	Number of pension order books
2000	455,500
2001	448,433
2002	437,155
2003	383,917
2004	167,882

Pensioners

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the pensioner population is in each Westminster constituency in Northern Ireland. [24150]

Angela E. Smith: The following table gives the official estimate of the population of Northern Ireland of pensionable age (65 and over for males, and 60 and over for females), at 30 June 2004 by parliamentary constituency in Northern Ireland.

Northern Ireland mid-year population of pensionable age, by parliamentary constituency, 2004

Parliamentary constituency	Population of pensionable age
Belfast East	17,100
Belfast North	16,400
Belfast South	15,100
Belfast West	12,400
East Antrim	14,300
East Londonderry	14,400
Fermanagh and South Tyrone	15,300
Foyle	13,300
Lagan Valley	16,600
Mid Ulster	12,300
Newry and Armagh	15,200
North Antrim	18,400
North Down	17,400
South Antrim	15,300
South Down	16,100
Strangford	16,800
Upper Bann	16,300
West Tyrone	12,500

PFI Hospitals

Dr. McCrea: To ask the Secretary of State for Northern Ireland what hospital projects have been built in Northern Ireland using private finance initiative schemes in each year since 2001; and where each is located. [25781]

Mr. Woodward: No hospital projects have been built in Northern Ireland using private finance initiative schemes since 2001. However, one construction project has reached financial completion in 2005, and building work has commenced. This project is for a services centre involving new pathology, pharmacy and changing rooms in Altnagelvin hospitals HSS Trust.

Planning Applications

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many planning applications were determined by the Planning Appeals Commission in each year since 1999; and how many of these determinations were in favour of the applicant in each local government council in Northern Ireland. [22808]

Angela E. Smith: The Planning Appeals Commission is a tribunal non-departmental public body, and the chief commissioner has written to the hon. Gentleman. A copy of the letter has been placed in the Library.

Police Service

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many police cells are in use in each district command unit in Northern Ireland. [25166]

Mr. Woodward: The following table provides details of cell provision in designated custody suites across the district command units and the serious crime suite at Antrim. The figures include cells suitable for juvenile detention.

Cells available in each designated custody suite

DCU area	Location	Designated custody suite	Number of available cells
Urban region

Prisons

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many prisoners sentenced in courts in Northern Ireland are serving their sentence at prisons in *(a)* England, *(b)* Scotland and *(c)* Wales. [24157]

Mr. Woodward: There are currently six prisoners sentenced in courts in Northern Ireland who are serving their sentences in English prisons. There are no such prisoners in Scottish or Welsh prisons.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what *(a)* representations and *(b)* complaints have been made by members of the public to the Prison Service in Northern Ireland in the last two years regarding the location of the prison at Magilligan, County Londonderry. [24776]

Mr. Woodward: The Northern Ireland Prison Service have record of only once instance where a member of the public made representation, via electronic mail in September 2005, regarding the location of Magilligan Prison. It is known that a number of families of prisoners would favour a location nearer to major centres of population.

However the Service is aware of the interest in the issue, and is fully engaged with staff on the subject. Magilligan Prison has a positive relationship with the local community and the Director General of the Prison Service recently attended a meeting of Limavady Borough Council's Economic Development Committee at which a range of views were expressed. No firm decision has yet been taken on the prison's future location.

Restorative Justice

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many restorative justice schemes have been introduced in Northern Ireland under the terms of Part IV of the Justice (Northern Ireland) Act 2002. [23675]

Mr. Hanson: Youth conferences as described in Part IV of the Justice (Northern Ireland) Act 2002 are being rolled out in Northern Ireland as one scheme, managed by the Youth Conference Service, which is part of the Youth Justice Agency.

Road Accidents

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many road traffic collisions involving stolen vehicles there have been in each of the last five years; and how many were *(a)* fatal collisions, *(b)* serious collisions and *(c)* slight collisions in each year. [25154]

Mr. Woodward: The information requested is provided in the following table.

	Fatal collision	Serious collision	Slight collision	Total
2000	4	45	228	277
2001	6	50	231	287
2002	5	29	192	226
2003	7	25	133	165
2004	2	18	80	100
Total	24	167	864	1,055

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many road traffic collisions involving hit and run vehicles there have been in each of the last five years; and how many were *(a)* fatal collisions, *(b)* serious collisions and *(c)* slight collisions in each year. [25155]

Mr. Woodward: The information requested is provided in the following table.

Number of injury road traffic collisions where a hit and run vehicle was involved: 2000–04

	Fatal collision	Serious collision	Slight collision	Total
2000	4	98	734	836
2001	4	83	738	825
2002	6	103	659	768
2003	3	75	626	704
2004	5	60	489	554
Total	22	419	3,246	3,687

Road Traffic Offences

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 24 October 2005, *Official Report*, column 114W, on road traffic offences, what 'intelligence led basis' means in this context; and how the operational command units choose the roads which they police. [24179]

Mr. Woodward: This is an operational matter for the Chief Constable, who will write to the hon. Gentleman. A copy of the letter will be placed in the Library.

School Transport

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much he has allocated for school transport in Northern Ireland for *(a)* 2005–06 and *(b)* 2006–07. [24177]

Angela E. Smith: Funding for home to school transport is provided by each Education and Library Board out of its overall budget for support services to schools, and is subject to the approval of the Department. The Revised Resource Allocation Plans provided by the boards show that they expect to spend approximately £65 million on home to school transport in 2005–06. Allocations to boards for 2006–07 have yet to be determined and will be subject to the outcome of Budget 2005.

Schools (Viability Criteria)

Lady Hermon: To ask the Secretary of State for Northern Ireland what criteria are used in assessing the viability of schools in terms of pupil numbers; and whether the same criteria are applied across all educational sectors in Northern Ireland. [22328]

Angela E. Smith: The pupil viability criterion for new primary schools seeking recognition for grant-aid purposes is a minimum first year intake of 15 pupils in Belfast and Londonderry and 12 pupils elsewhere. The pupil viability criterion for new post-primary schools seeking recognition for grant-aid purposes is a minimum year eight intake of 50 pupils.

To qualify for capital funding, primary schools must achieve a minimum first year intake of 20 pupils in Belfast and Londonderry and 15 pupils elsewhere for three years. Post-primary schools must achieve minimum year eight intakes of 50 pupils for three years.

These criteria apply to all proposals for new schools and to all educational sectors. Pupil numbers Are not the sole criteria considered by the Department of Education in approving funding for a new school.

There are no minimum viability numbers set for existing schools. However, the department has considered it appropriate to review the position of a primary school if its enrolment is below 60 pupils and a post-primary school if its enrolment is below 300 pupils. The department is currently reviewing the viability criteria for schools.

Sexual Equality

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken in Northern Ireland to promote sexual equality in the workplace in relation to terms and conditions of employment, particularly in relation to pay and opportunities for promotion. [22803]

Angela E. Smith: There is a robust framework of sex equality legislation in place in Northern Ireland which prohibits discrimination on the ground of sex in terms and conditions of employment, including promotion and equal pay between men and women.

A range of employment rights is also in place for working parents, such as extended paid maternity leave and the right to request flexible working for parents of young children or disabled children under 18.

The Equality Commission for Northern Ireland has a duty to promote equality of opportunity between men and women and provides advice and assistance in relation to employment issues. The Commission, in partnership with Opportunity Now Northern Ireland, facilitates the Equal Pay Forum, made up of employers and trade union officials, which raises awareness and promotes best practice on equal pay issues.

Smoking-related Deaths

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many smoking-related deaths there were in Northern Ireland in the last four years; and how many people he estimates smoked regularly in each age group in each of the last four years. [22812]

Angela E. Smith: Smoking history is rarely recorded on death certificates. Estimates can however be made of the number of deaths attributable to smoking, by using information on the contribution that smoking makes to specific conditions recorded at death. The Health Development Agency[1] published the most recent estimates for Northern Ireland in 2004. This report estimated that over the period 1998–2002, an average of 2,300 deaths were caused by smoking each year in Northern Ireland.

The most recent survey estimates of the percentage of the population of Northern Ireland who smoke are given in the following table.

[1] Twigg, L., Moon, G., and Walker, S. The smoking epidemic in England, Health Development Agency, 2004 (http://www.publichealth.nice.org.uk/page.aspx?o=502811).

Table: Prevalence of smoking by age in Northern Ireland, 2002-03 and 2004-05

Percentage

Age group	*Financial year* 2002-03	2004-05
16–24	32	29
25–34	32	55
35–44	27	32
45–64	26	26
65 +	14	12
All adults aged 16 +	26	26

Source:
Continuous Household Survey

Sports Council

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will make a statement on the level of Sports Council funding for minority sports in Northern Ireland in 2005–06. [24847]

Mr. Hanson: The Sports Council for Northern Ireland is responsible for the development of sport in Northern Ireland including the distribution of funding to sport. The Sports Council does not use or recognise the term "minority sports" in deciding funding levels. Figures on Sports Council funding levels to sport in Northern Ireland in 2005–06 are not yet available.

Staff Assaults

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what costs were incurred by the Department of Health, Social Services and Public Safety resulting from attacks on ambulance crews and their vehicles in the last three years; and if he will make a statement. [22636]

Mr. Woodward: The costs incurred by the Northern Ireland ambulance service resulting from attacks on ambulance crews and their vehicles in the last three years are not readily identifiable. The trust is currently developing a method of accurately capturing these costs.

While the number of attacks has reduced in the last three years, attacks on front-line ambulance staff and their equipment not only endangers them, but also reduces their ability to deliver vital services which could ultimately result in putting the lives of patients lives needlessly at risk.

Teachers

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to increase the number of students taking up teacher training programmes. [24178]

Angela E. Smith: The level of intakes to teacher education courses is determined annually by the Department of Education, with the aim of maintaining a reasonable match between the numbers being trained and the projected numbers of teaching vacancies. Pupil numbers are on the decline and the anticipated number of teachers required annually reflects that trend. Student intakes are therefore being reduced accordingly.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland when he expects to publish a report on the work of the Teachers' Health and Well-Being Strategy Group; and if he will make a statement. [25047]

Angela E. Smith: I have been informed that the chair of the Teachers' Health and Well-being Strategy Group expects to reconvene the group in mid-November when a revised draft of the strategy document will be tabled. The report will then be presented to management side of the Teachers' Negotiating Committee, who the group reports to, before being placed on the agenda for formal discussion at the Teachers' Negotiating Committee. Until these procedures are complete I am unable to specify a particular date for publication.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland who has been consulted during the consultation process being carried out by the Teachers' Health and Well-Being Strategy Group; and when he expects to receive a report on the outcome of the consultation. [25048]

Angela E. Smith: There has not been a formal consultation process at this stage.

The Teachers' Health and Well-being Strategy Group was established by, and reports to, the management side of the Teachers' Negotiating Committee and it is the management side who will decide on any consultation process when they receive the report from the strategy group.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* Protestant and *(b)* Catholic teachers are employed in (i) the state controlled sector, (ii) the Catholic maintained sector and the (iii) integrated sector; and if he will make a statement. [25162]

Angela E. Smith: The Department of Education in Northern Ireland does not hold statistical information on the religious breakdown of teachers, nor is it aware of any bodies that do.

Terrorism Act

Mr. Holloway: To ask the Secretary of State for Northern Ireland how many suspected Irish terrorists have been held for more than seven days under Schedule 8 of the Terrorism Act 2000. [24138]

Mr. Woodward: Section 306 of the Criminal Justice Act 2003, extends the maximum period of detention permitted under Schedule 8 of the Terrorism Act 2000 from seven to 14 days. PSNI advises that no persons have been detained for more than seven days under this legislation.

Unauthorised Encampments Order

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when he intends to enable the Unauthorised Encampments (Northern Ireland) Order 2005 in Northern Ireland. [24142]

Mr. Hanson: During the debate into the legislation, I indicated that I intended to defer bringing the substantive provisions of the order into effect until I am satisfied that an adequate number of transit sites are operational in Northern Ireland. I anticipate that five sites will be operational in 2006, I am reviewing the situation with the Housing Executive with a view to enabling the necessary provisions as soon as possible once the sites are operational.

Victim Groups (Funding)

David Simpson: To ask the Secretary of State for Northern Ireland how much funding has been allocated for victim groups in Northern Ireland in the past five years, broken down by *(a)* Westminster parliamentary constituency and *(b)* district council area. [17532]

Angela E. Smith: Records show that funding detailed in the following tables has been allocated to organisations involved in providing support for victims between April 1998 and March 2005. A year by year breakdown of these figures is not available and could be provided only at disproportionate cost.

In addition to the amounts shown, victims' groups may also apply for funding from any programme or scheme, such as the District Council Community Relations Programme or European Union funding through the Local Strategy Partnerships, for which they can satisfy the relevant eligibility criteria.

The funding has been attributed to the relevant parliamentary constituency and local district council area according to headquarters address of the group or organisation concerned. The group or organisation in some instances will provide services on a wider geographic area.

(a) Westminster parliamentary constituency

	£
East Antrim	180,610

Strabane	1,098,162

Note:
The Community Foundation for Northern Ireland (formerly Northern Ireland Voluntary Trust) also received £1,123,324 through the EU Special Programme for Peace and Reconciliation (Peace I), which supported victims of violence. The Foundation allocated these funds in support of a number of projects for both ex-offenders and victims. Persons from these groups could benefit from the same project and it is not possible to disaggregate the assistance between the two groups.

Victims Commissioner

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what budget is planned for the Office of the Commissioner for Victims; how many staff are expected to be employed in that office; and when the office will open. [25161]

Angela E. Smith: The recently appointed Interim Commissioner for Victims and Survivors, Mrs. Bertha McDougall, is due to take up post with effect from 5 December 2005. Her office will be operational from that date. Sufficient resources will be made available to enable the Interim Commissioner to carry out her duties and it is anticipated at this stage that she will have a staff of four to assist her.

Young Offender Institutions

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many young offenders institutions there are in Northern Ireland; how many offenders are in each; and what the capacity is of each. [24158]

Mr. Woodward: The Northern Ireland Prison Service has one Young Offenders Centre located at Hydebank Wood, Belfast.

The centre can currently accommodate up to 244 males in single cell accommodation. At 4 November it housed 196 young offenders.

Youth Conferences

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will list the places where youth conferences of the kind set out in the Justice (Northern Ireland) Act 2002 have been piloted in Northern Ireland since December 2003, broken down by police district command unit. [23676]

Mr. Hanson: Youth conferences of the kind set out in the Justice (Northern Ireland) Act 2002 have been rolled out to the following court divisions:

County court division	*Date commenced*	*PSNI district command unit*
Belfast	18 December 2003	West Belfast South Belfast East Belfast North Belfast Carrickfergus Newtownabbey
Fermanagh and Tyrone	5 April 2004	Fermanagh Strabane Dungannon and South Tyrone Cookstown Omagh
Armagh and South Down	6 June 2005	Banbridge Newry and Mourne Armagh

HEALTH

Adult Social Care

Mr. Lansley: To ask the Secretary of State for Health when she plans to publish a White Paper on adult social care. [23112]

Mr. Byrne: We are drawing to the close of a major listening exercise that will feed into a new White Paper covering the health and care that people need in the community. The public consultation exercise is known as "Your Health, Your Care, Your Say: Improving Community Health and Care Services".

The consultation is broad in scope and covers both health and social care because that is what makes sense to people. The White Paper will bring together the outcome from the social care Green Paper, "Independence, Well-being and Choice", with thinking on health services provided in community settings. The consultation is due to close on 4 November and the aim will be to publish a White Paper around the turn of the year.

Alzheimer's Disease

Mr. David Jones: To ask the Secretary of State for Health when she expects to receive updated guidance from the National Institute for Health and Clinical Excellence on the use of *(a)* donepezil, *(b)* rivastigmine, *(c)* galantigmine and *(d)* memantine for the treatment of Alzheimer's disease. [22617]

Jane Kennedy: This is a matter for the National Institute for Health and Clinical Excellence (NICE). Information about NICE'S current work programme is available on its website at www.nice.org.uk.

Ambulance Services (Salisbury)

Robert Key: To ask the Secretary of State for Health what progress has been made on replacing the ambulance station in Salisbury. [23596]

Caroline Flint: It is for the local national health service to decide on how to deliver health services in their local communities which includes decisions on the replacement of local ambulance stations. The hon. Member may wish to approach the chair of Wiltshire Ambulance Service NHS Trust directly.

However, I have been informed by Avon, Gloucestershire and Wiltshire Strategic Health Authority, that there are currently no plans to replace Salisbury ambulance station.

Asperger's Syndrome

Helen Jones: To ask the Secretary of State for Health (1) if she will ensure that each child diagnosed with Asperger's syndrome receives immediate referral for assessment in order to gain access to appropriate therapies and social skills training; [16886]

(2) if she will make it her policy that each child diagnosed with Asperger's syndrome should be allocated a key worker or lead nurse immediately following diagnosis. [16887]

Mr. Byrne: The importance of early identification of developmental disorders followed up with prompt early interventions is emphasised in standard eight of the national service framework (NSF) for children, young people and maternity services. This standard applies to all disabled children and young people and those with complex health needs, including those with Asperger's syndrome. Autism spectrum disorders were the subject of one of the first two exemplars which we published at the same time as the NSF.

The standard sets out clearly that parents of severely disabled children or those with high levels of need require a key worker. The key worker service should be provided in line with the guidance in "Together from the Start" (DH/DfES 2003) and "Care Co-ordination Network UK Key Worker Standards" (Care Co-ordination Network UK, April 2004) and supported by cross-agency senior management commitment. "Key Worker Standards" notes that a successful key worker service is dependent on an agreed referral system and specific guidelines for eligibility for the key worker service. These should be determined according to local need.

Avian Influenza

Sandra Gidley: To ask the Secretary of State for Health whether she plans to extend the range of high risk groups who currently receive influenza vaccination. [21775]

Caroline Flint: The risk groups who are currently offered seasonal influenza vaccine are based on advice from the joint committee on vaccination and immunisation (JCVI). The JCVI keeps its advice under regular review.

Breast Screening

Miss McIntosh: To ask the Secretary of State for Health if she will make a statement on breast screening performed at age 50 and over on patients living in *(a)* North Yorkshire and *(b)* Essex; and at what (i) age and (ii) frequency such screening is carried out. [22788]

Ms Rosie Winterton: The national computerised call/recall system for breast screening was introduced in 1988. Women aged 50 to 64 are invited for free breast screening every three years. Following successful Government funded pilot studies, the programme is being extended to women aged 65 to 70. Women over 70 can request free three yearly screening.

Cancelled/Delayed Treatment

Mr. Evans: To ask the Secretary of State for Health how many *(a)* cancelled operations and *(b)* delayed transfers of care there have been in Lancashire hospital teaching NHS trust in each of the last seven years. [22724]

Mr. Byrne: The information requested on cancelled operations is shown in table 1.

Table 1: Cancelled operations in Lancashire teaching hospitals national health service foundation trust: 2001–02 to 2005–06

	Number of last minute cancellations for non clinical reasons
2001–02	[1]386
2002–03	389
2003–04	440
2004–05	406
2005–06	[2]123

[1] Due to organisational changes this figure represents Chorley and South Ribble primary care trust only in the first quarter, then Chorley and South Ribble NHS trust and Preston acute hospitals trust in the second, third and fourth quarters of 2001–02.
[2] This figure for 2005–06 represents only those cancelled operations in the first quarter of 2005–06. Data for other quarters is not yet available.
Note:
Data were originally collected by health authority only prior to 2001–02. Trust level data were collected from 2001–02 onwards.
Source:
QMCO

The information requested on delayed transfers of care is shown in table 2.

Table 2: Delayed transfers of care in Lancashire teaching hospitals NHS foundation trust: 1999–2000 to 2004–05

2002–03	17
2003–04	03
2004–05	15

[1] Figures represent Chorley and South Ribble NHS trust and Preston acute hospitals NHS trust. Situation reports (SITREPS) were not collected prior to 1999–2000.
Source:
SITREPS

Cancer

John Mann: To ask the Secretary of State for Health how many primary care trusts are providing cancer patients with velcade. [23006]

Jane Kennedy: The information is not available in the format requested.

Mr. Paterson: To ask the Secretary of State for Health whether cancer drugs are approved more rapidly if applications are restricted to national use and do not require European approval by the EU's committee for medicinal products for formal marketing approval. [20983]

Jane Kennedy: The time allowed for marketing authorisation of products is specified in European legislation and is the same for all types of drugs and whether approved by national licensing or by the European Commission through the European Medicines Agency's scientific committee for human medicinal products. The maximum time allowed for the evaluation of the company's data for the initial authorisation of a new product is 210 days in both cases. Variations to the initial authorisation, for example to add new uses, have to be evaluated within 90 days in both cases. The national agencies and the European agencies may also accelerate those procedure times where justified for example by urgent unmet medical needs for potentially life-saving drugs.

However, if one considers the needs of all European patients, approval can be faster using the European Union single procedure than a series of separate national approval procedures. That is one of the reasons why many complex new drugs using new biotechnology methods of production must use the European 'single licence' procedure. From November, all new anti-cancer drugs must also use this procedure so that they can be available to all European patients as quickly as possible.

John Mann: To ask the Secretary of State for Health how many primary care trusts fund velcade for cancer treatment. [23141]

Ms Rosie Winterton *[holding answer 28 October 2005]:* Information on the number of primary care trusts funding velcade for cancer treatment is not collected centrally.

In July, the Secretary of State announced that velcade would be referred to the National Institute for Health and Clinical Excellence for early appraisal.

Carbon Monoxide Poisoning

Mr. Hancock: To ask the Secretary of State for Health pursuant to her answer of 12 October 2005, *Official Report*, column 538W, on carbon monoxide poisoning, what the budget for section 64 grants is in 2005–06; and if she will make a statement. [23630]

Caroline Flint: The budget for grants awarded to the voluntary and community sector under the section 64 General Scheme of Grants in 2005–06 is £17.88 million. A list of new and continuing grants is published annually on the Department's website at www.dh.gov.uk/section64.

The section 64 General Scheme of Grants helps to strengthen and further develop the partnership between the Department and the voluntary and community sector. It is the Department's main funding stream for national voluntary organisations working in the health and social care fields.

Care Guidance

Mr. Burstow: To ask the Secretary of State for Health (1) what guidance her Department issues to *(a)* local authority social services and *(b)* NHS organisations concerning the frequency of assessments for (i) social care, (ii) registered nursing contribution and (iii) NHS continuing care; [22268]

(2) when she expects to issue new guidance concerning NHS continuing care; [22316]

(3) if she will place in the Library a summary of the main issues discussed in the electronic discussion forum set up for her Department's work on NHS continuing care. [22318]

Mr. Byrne: The Department is currently working on the production of a national assessment framework for continuing care due for publication in early 2006. This should result in a single set of national eligibility criteria and suitable assessment methodologies for access to national health service continuing care.

Contributions to the electronic discussion forum, set up on the Department's website, in relation to the work on continuing care have not, to date, been significant. For the most part, the forum has attracted particular local queries rather than debate, and no issues have been raised that have not been aired at face-to-face stakeholder events.

In the lead-up to the formal public consultation, we are noting all comments received from stakeholders. This will continue during the consultation period, and the information will be available after completion of this process.

Policy guidance on fair access to care services (FACS) was published on 2 June 2002 under guidance of local authority circular (LAC) (2002)13. The guidance provides councils with an eligibility framework for adult social care for them to use when setting and applying their eligibility criteria. It also covers the timing of reviews.

Detailed guidance on registered nursing care contributions are available on the Department's website at:

www.dh.gov.uk/assetRoot/04/01/23/03/04012303.pdf—Health Service Circular HSC 2003/006—"Guidance on NHS Funded Nursing Care".

www.dh.gov.uk/assetRoot/04/01/22/04/040122204.pdf—Health Service Circular HSC 2001/17—"Guidance on Free Nursing Care in Nursing Homes".

Following the ombudsman's report on continuing care assessment procedures, new cases are now considered routinely as part of hospital discharge. Detailed guidance on procedures for NHS continuing care are available on the Department's website at:

www.dh.gov.uk/assetRoot/04/01/22/80/04012280.pdf—Health Service Circular HSC2 2001/015—"Continuing Care: NHS and Local Councils' responsibilities".

Carers' Grants

Sandra Gidley: To ask the Secretary of State for Health what funds have been allocated to fund carers' grants in each of the last five years, broken down by local authority. [23207]

Mr. Byrne: Information showing the funds allocated to councils in the carers' grant in each of the last five years has been placed in the Library.

Choose and Book System

Mr. Drew: To ask the Secretary of State for Health if she will set out the criteria used to choose those general practitioners who wish to participate in the pilot choose and book exercise; and if she will make a statement. [22408]

Mr. Byrne: The choose and book programme has concluded its proof of concept pilot phase, which was conducted over 14 primary care and 13 secondary care sites. This was concluded in June 2005. The programme will not be undertaking any more pilots as the system has moved to wider roll out across the national health service.

The choose and book system is now available to all general practitioner practices (GP) in England in either the web based format or fully integrated. Local GPs should contact their local primary care trust's choose and book lead to agree a go live date.

Steve Webb: To ask the Secretary of State for Health what percentage of general practitioner practices are making referrals using the choose and book system. [22121]

Mr. Byrne: As at 27 October 2005, 1,089 general practitioner (GP) practices had gone live with and started to make referrals using the choose and book system. This equates to 13 per cent. of the GP practices in England.

Commission for Social Care

Mr. Burstow: To ask the Secretary of State for Health what steps she has taken to ensure that the Commission for Social Care Inspection has the capacity to analyse trends in the numbers and types of complaints it receives. [22379]

Mr. Byrne: As an independent body, it is up to the Commission for Social Care Inspection (CSCI), to manage its resources and ensure that it adequately performs all its functions.

To ensure that the CSCI has the resources to carry out its functions, the Department provides funding through grant-in-aid to supplement income generated by the CSCI from its regulatory work. In 2004–05, grant-in-aid from the Department amounted to just under £101 million.

An analysis of trends in the number and types of complaints against regulated services that the CSCI has received can be found in its annual report 2004–05, which is available in the Library.

Mr. Burstow: To ask the Secretary of State for Health when she expects the Commission for Social Care Inspection to publish its follow-up report on medication in care homes. [22380]

Mr. Byrne: I understand from the chair of the Commission for Social Care Inspection (CSCI), that the follow-up report on medication in care homes, will be published in February 2006.

The follow-up report will contain information about how care homes score against medication national minimum standards, similar to the original medication report published by the National Care Standards Commission in March 2004.

Publication of the report has been put back from December 2005 to February 2006, so that it can incorporate an analysis of complaints regarding medication issues that the Commission has received about care homes. It will also incorporate the results of a survey of CSCI inspectors on what factors led them to award top or bottom scores for homes against the medication standards.

Mr. Burstow: To ask the Secretary of State for Health when she expects the Commission for Social Care Inspection to publish its national report on its joint inspection activity. [22381]

Mr. Byrne: I understand from the chair of the Commission for Social Care Inspection (CSCI) that the national report on "Joint inspection of services for older people" will be published in March 2006.

The report covers the inspection work that CSCI, the Healthcare Commission and the Audit Commission have jointly carried out into the way in which the national health service and councils are working together with their partners to meet the needs of older people and improve their lives.

Community Pharmacists

Dr. Stoate: To ask the Secretary of State for Health if she will ensure that community pharmacists are allocated a guaranteed seat on the commissioning boards of the locality commissioning consortia which are due to be set up as part of the new practice-based commissioning system. [22413]

Mr. Byrne: There is no requirement for commissioning consortia to be established under practice based commissioning. This is a decision for primary care trusts, involving their practices and other primary healthcare professionals as appropriate.

Consultant Physicians

Dr. Richard Taylor: To ask the Secretary of State for Health what estimate she has made of the results of the 2004 annual consultant physician census carried out by the Federation of Royal Colleges of Physicians of the UK; and if she will make a statement. [21570]

Mr. Byrne: The Department does not accept the Royal College of Physician's contention that 78 per cent. of consultant physicians intend to retire early. There is often a distinct difference between the intention expressed when doctors are asked such a question and what actually happens when individual doctors reach the relevant age. The average retirement age for consultants has been relatively steady in recent years at around 63 to 64 years of age.

The Department has developed a range of flexible retirement options, so doctors approaching retirement can adapt their working patterns without affecting pension entitlement. By extending their working lives through flexible retirement, experienced doctors can continue to provide their important services to patients and local communities.

Continuing Care

Mr. Lansley: To ask the Secretary of State for Health what the average duration of an episode of NHS continuing care has been in each year since 1997–98; and what the total cost has been of providing NHS continuing care in each year since 1997–98. [23111]

Mr. Byrne: Information on the average duration of a continuing care episode is not held centrally. There is no way to estimate with any precision the average duration of an episode of this type. Durations are likely to vary considerably, ranging from individuals with a life expectancy of just a few days, to those who remain in continuing care for extended periods. Information relating to the total cost of providing continuing care is not held centrally.

Sandra Gidley: To ask the Secretary of State for Health what the evidential basis is for the statement in her response of 21 July 2005 to the Health Select Committee's report on Continuing Care that the divide between health and social care provision, and the basis on which it is provided, has stood since 1948. [23205]

Mr. Byrne: The distinction is a matter of law. The founding legislation of our health and social care are two separate and distinct Acts of this Parliament in the immediate post-war period; the National Health Service Act, 1946 and the National Assistance Act, 1948. More recent legislation, such as the Health and Social Care Act of 2001, has fostered and promoted co-operation and joint working between health and social care.

Sandra Gidley: To ask the Secretary of State for Health (1) what procedures are in place to be followed by *(a)* primary care trust officers and *(b)* social workers to ensure that the NHS carries out a complete fully-funded NHS continuing care assessment where it is required; [21882]

(2) pursuant to the Government's response to the Health Select Committee's report, on NHS continuing care, cm 6650, on what date the template requiring all strategic health authorities to advertise was issued; and what the wording of the template is; [21877]

(3) how many times the NHS has settled cases out of court after solicitors for a patient have served final legal notice that court proceedings to secure free continuing care under R. (Coughlan) *v.* Devon Health Authority are being launched. [21869]

Mr. Byrne: Following the Ombudsman's report on continuing care assessment procedures, eligibility for fully funded national health service continuing care is now considered routinely as part of hospital discharge. Detailed guidance on procedures for NHS continuing care is available on the Departments website at the following addresses:

Continuing Care: NHS and Local Councils' responsibilities is available at www.dh.gov.uk/assetRoot/04/01/22/80/04012280.pdf.

Continuing Care (NHS responsibility) Directions 2004 is available at www.dh.gov.uk/assetRoot/04/07/46/90/04074690.pdf.

Delayed Discharge (Continuing Care) Directions 2004 is available at www.dh.gov.uk/assetRoot/04/07/46/91/04074691.pdf.

Strategic health authority (SHA) continuing care leads were sent a template on 13 May 2003. This template provided a suggested procedure for SHAs and primary care trusts to follow when investigating continuing care inquiries arising from the Ombudsman's report. It suggested what reasonable action was required in order to make people aware of the review process. A copy of the template is available in the Library.

Information on the extent, if any, that the NHS has settled NHS continuing care eligibility cases out of court following receipt of final legal notice has not been collected.

Dacorum Primary Care Trust

Mike Penning: To ask the Secretary of State for Health what proportion of the at risk population of *(a)* Dacorum primary care trust and *(b)* Hertfordshire is expected to be inoculated against existing strains of influenza by (i) 30 November and (ii) 31 December. [22845]

Caroline Flint: I refer the hon. Member to the reply I gave to the hon. Member for Kettering (Mr. Hollobone) on Tuesday 1 November 2005, *Official Report*, column 970W.

Mike Penning: To ask the Secretary of State for Health how many cases of breast cancer have been diagnosed in the area covered by Dacorum primary care trust in each month since January. [23025]

Ms Rosie Winterton: The information requested is not held centrally.

Dentistry

Mr. Lancaster: To ask the Secretary of State for Health what the Government's policy is on NHS dentist administration fees for children of those on incapacity benefits. [23062]

Ms Rosie Winterton: No provision exists in the National Health Service General Dental Services Regulations 1992 (as amended) or the National Health Service (Dental Charges) Regulations 1989 for payment to dentists of an administration fee for children of those on incapacity benefit.

Departmental Estate

Julia Goldsworthy: To ask the Secretary of State for Health what have been identified as the most significant sustainable development impacts in relation to operation of her Department's estate. [22100]

Caroline Flint: I refer the hon. Member to the reply I gave to her on 12 October 2005, *Official Report*, column 548W.

Departmental Policies

Mrs. Hodgson: To ask the Secretary of State for Health if she will set out, with statistical evidence relating as closely as possible to Gateshead, East and Washington, West constituency, the effects in Gateshead, East and Washington, West of changes to her Department's policies since 1997. [22278]

Mr. Byrne: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Gateshead, East and Washington, West constituency.

For example:

At the end of August 2005, there were no people waiting more than nine months for in-patient treatment at the Gateshead Health NHS Foundation Trust, while in 1999 at Gateshead Health NHS Trust there were a total of 348 waiting more than nine months.

At the end of June 2005, there were three patients waiting over 13 weeks for out-patient treatment at the Gateshead Health NHS Foundation Trust, while in March 2000 there were a total of 397.

At the end of August 2005, there were no people waiting more than nine months for in-patient treatment within Gateshead Primary Care Trust (PCT), a fall from 274 in June 2002.

At the end of June 2005, the number of patients waiting over 13 weeks for out-patient treatment within Gateshead PCT has fallen to five from 724 in June 2002.

In June 2003, at Gateshead Health NHS Trust, 92.8 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge.

Figures for Gateshead Health NHS Foundation Trust in June 2005 show an improvement to 99.1 per cent.

Between September 1998 and March 2005, the number of consultants at Gateshead Health NHS Trust, now Gateshead Health NHS Foundation Trust, has increased from 69 to 98.

Figures for June 2005 show that all patients within Gateshead PCT are able to be offered an appointment with a primary care professional within two working days.

In the Gateshead unitary authority area, death rates from cancer per 100,000 population have fallen from 250.7 in 1997 to 215.5 in 2003.

In the Gateshead unitary authority area, death rates from coronary heart disease per 100,000 population have fallen from 200.5 in 1997 to 146.3 in 2003.

Gateshead PCTs allocation has risen to £242.7 million for 2005–06, a cash increase of 9.2 per cent.

Departmental Staff

Mr. Gibb: To ask the Secretary of State for Health what assessment she has made of the *(a)* literacy and *(b)* numeracy skills of new recruits to her Department. [21004]

Jane Kennedy: The Department operates a competency based recruitment process, which requires candidates to demonstrate that they have the skills and competencies required for the advertised role. Applicants are generally assessed initially on the strength of their written application. Short listed candidates are expected to provide additional evidence at the interview stage. Where high levels of literacy or numeracy are required for a particular role a specific literacy or numeracy test may be carried out.

Departmental Water Consumption

Julia Goldsworthy: To ask the Secretary of State for Health what reduction there has been in water consumption by her Department between 2002 and 31 March 2005. [22103]

Caroline Flint: In 2002–03, the water consumed in the Department's main London offices amounted to 22,346 cubic metres. In 2004–05, this amount had reduced to 18,012. Overall consumption per head had reduced from 8.72 to 7.50 cubic metres. This exceeds the target of 7.7 cubic metres per head contained in the "Framework for Sustainable Development on the Government Estate".

Julia Goldsworthy: To ask the Secretary of State for Health at which non-office sites on *(a)* her Department's estates and *(b)* estates of its arm's length bodies opportunities have been identified for significant water savings. [22104]

Jane Kennedy: The Department and its agencies have only three non-office sites. None of these has significant water usage and there are no opportunities for significant savings. Nevertheless, staff are encouraged to conserve water where possible.

Of the Department's arms length bodies, water saving initiatives have been identified as follows:

Health Protection Agency (HPA)

Over the past few years the HPA and its predecessor bodies have introduced a number of measures to reduce water on its large sites at Colindale, Chilton and Porton. These measures include reduction in the number of autoclaves used, introduction of automatic unitaps for hand washing and the introduction of low water usage WC cisterns.

The HPA has a green page on its intranet, which promotes the responsible use of water with minimal wastage.

NHS Blood and Transplant

NHS Blood and Transplant has three operating divisions:

Bio Products Laboratory (BPL),

National Blood Service (NBS) and

UK Transplant (UKT).

Water usage within the NBS and UKT is minimal, as processes do not require the use of large quantities of water. Water usage is constantly monitored and controlled through environmental monitoring controls.

All water usage at BPL is in line with environmental consent limits.

NHS Direct

NHS Direct is considering acquiring new facilities. Resource consumption comparators will form part of the procurement assessment process.

Doctors

Mr. Hepburn: To ask the Secretary of State for Health how many general practitioners per head of population there have been in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* England in each year since 1997. [21049]

Mr. Byrne: Information on the number of general practitioners, excluding retainers and registrars, per 100,000 population is collected by primary care trust (PCT) area and is therefore not available on a constituency basis.

Information for the North East and England between 1997 and 2004 is shown in the table.

Information for South Tyneside PCT and the PCTs comprising Tyne and Wear is also shown in the table. However, the latest population data available at PCT level is for 2003. Information is only available at PCT level since 2001, as this was the first year PCTs were established.

[1] General Medical Practitioners (excluding retainers and registrars) includes Contracted GPs, QMS Others and PMS Others. Prior to September 2004 this group included QMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, Salaried Doctors (Para 52 SFA), PMS Other, Flexible Career Scheme GPs and GP Returners.
[2] 2004 Primary Care Trust ONS population data to be published November 2005.
[3] Data not applicable.

Notes:
1. PCTs did not come into existence until 2001. Therefore data for PCTs before 2001 is not available.
2. Data as at 1 October 1997–99 and 30 September 2000–04.

Source:
NHS Health and Social Care Information Centre General and Personal Medical Services Statistics 2001 ONS Population Census.

Greg Clark: To ask the Secretary of State for Health how many deanery-approved junior doctors' training places there were for *(a)* senior house officers and *(b)* registrars in each of the last 10 years. [19507]

Mr. Byrne: Information on the number of deanery approved junior doctors' training places is not collected centrally.

The Health and Social Care Information Centre aggregates information from each postgraduate deanery in respect of doctors holding training numbers as specialist registrars, but not senior house officers. This information is only available from 2000 and is shown in the table.

Hospital, public health medicine and community health services: deanery approved training places[1] for specialist registrars; 2000–04, England[1]

	Total
2000	15,515
2001	16,846
2002	16,460
2003	17,270
2004	19,444

[1] Figures as at 30 September for 2000 and as at 31 March 2001–04.

National Health Service Health and Social Care Information Centre specialist registrar training monitoring collection.

European Medicines Evaluation Agency

Mr. Paterson: To ask the Secretary of State for Health how many drugs have been approved by the European Medicines Evaluation Agency for formal marketing approval in each of the last five years. [20992]

Jane Kennedy: The European Commission, which approves products through European Medicines Agency procedures, publishes a community register of medicinal products for human use, which lists the following numbers of marketing authorisation approvals:

44, between October 2000 and September 2001.

31, between October 2001 and September 2002.

25, between October 2002 and September 2003.

34, between October 2003 and September 2004.

19, between October 2004 and September 2005.

Food Supplements (Tryptophan)

Mr. Burns: To ask the Secretary of State for Health (1) what assessment she has made of whether the consultation process undertaken by the Food Standards Agency on proposed changes in the regulation of tryptophan in food supplements was consistent *(a)* with the principles set out in Cabinet Office code of practice on consultation and *(b)* with the code of good practice in consultations and policy appraisal; and if she will make a statement; [22237]

(2) what assessment she has made of the merits of *(a)* warning statements and *(b)* statutory limits as a means of regulating the use of tryptophan in food supplements; [22238]

(3) what steps the Food Standards Agency took to communicate with stakeholders about its proposals for new regulations on the use of tryptophan in food supplements after the closure of its formal consultation exercise and prior to the laying of statutory instruments; [22239]

(4) why the Food Standards Agency proposed lower limits for the use of tryptophan in food supplements than the levels established by the agency's Ad Hoc Expert Advisory Committee on Vitamins and Minerals. [22240]

Caroline Flint *[holding answer 27 October 2005]:* The consultation process carried out by the Food Standards Agency (FSA) included preparing a regulatory impact assessment (RIA) to determine the impact on industry and consumers, which was followed by a 12-week consultation period with stakeholders on the proposed regulations and the draft RIA. The impact on industry, on allowing the re-introduction of L-tryptophan into supplements, was considered and on balance was considered to be positive given that supplements containing tryptophan have been prohibited for sale since 1990. Consumer choice will also be increased without presenting an appreciable risk to health. This approach is consistent with the Cabinet Office code of practice on consultation and the code of good practice in consultations and policy appraisal.

The use of advisory statements was not considered appropriate due to the severity of the symptoms of eosinophilia-myalgia syndrome in people taking dietary supplements containing tryptophan pre-1990, and the uncertainty relating to gaps in the scientific evidence. The United Kingdom Government's committee on toxicity (COT) decided to recommend a daily dose level of 220 milligrammes (mg) on a precautionary basis that would not present an appreciable risk to health.

Following the closure of the formal consultation exercise on the regulations for the use of tryptophan in foods, the COT secretariat has reviewed the data submitted by respondents. They found that there was no new evidence to that already reviewed by COT in 2004, when it reached its conclusions on the safety of tryptophan that would support a higher level of tryptophan being used in food supplements. The FSA therefore adopted the level and purity criteria recommended by COT, and this has therefore been adopted into UK legislation to reintroduce the sale of tryptophan supplements in the UK, in the interests of consumer choice and safety. We have asked COT to review its recommendation and any new information on tryptophan since June 2004, and this will be considered at the COT meeting in December. Depending on COTs advice the legislation may be amended. A summary of consultation responses and full RIA will be sent to all respondents, and made available on the FSA website.

Tryptophan was not considered by the expert group on vitamins and minerals (EVM) as it is not a vitamin or mineral. The EVM proposed safe upper levels (SULs) for vitamins and minerals using the well-established paradigm for setting acceptable and tolerable intake levels for chemicals in food. Where the data were not adequate to set a SUL, the EVM gave guidance on levels that would not be expected to result in adverse effects.

The COT uses the same paradigm in its consideration of the safety of tryptophan as a supplement. In its evaluation the COT noted significant uncertainties and decided that an uncertainty factor of 10 should be applied to derive a dose that would not be expected to be a risk to health in the general population. The limit proposed by the COT was 220 mg of tryptophan per day.

Foundation Trusts

Mr. Austin Mitchell: To ask the Secretary of State for Health when she will allow foundation hospitals to compete to provide services in other areas. [17864]

Mr. Byrne: National health service foundation trusts are empowered to develop and deliver new services either on their existing sites or further afield.

The independent sector treatment programme is an efficient and cost effective use of the private sector capacity to reduce waiting times and offer choice across the NHS. The programme is targeted at independent sector providers who are able to make available additional capacity to NHS commissioners. We are following strict procurement regulations, and have not restricted any organisation from expressing an interest and then participating in the procurement.

Rosie Cooper: To ask the Secretary of State for Health whether NHS foundation trusts may advertise their services abroad to attract non-UK patients. [21394]

Mr. Byrne: There is no legal restriction preventing a national health service foundation trust (NHSFT) advertising its services abroad to attract non-United

Kingdom patients. However, NHSFTs are bound by a duty to provide NHS services to NHS patients according to NHS values and principles and cannot increase their income from private patients at the expense of NHS patients. Section 15 of the Health Care Act 2003 provided for a private patient cap on such income for NHSFTs.

GP Practices

Mr. Lansley: To ask the Secretary of State for Health what percentage of GP practices had adopted practice-based commissioning in the last period for which figures are available. [23036]

Mr. Byrne: The information requested is not collected centrally.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 14 October 2005, *Official Report*, column 626W, on GP practices, how many general practitioners, excluding retrainers and registrars are projected to leave the national health service work force at age 55 or above in total between 2005 and 2015, broken down by *(a)* strategic health authority area and *(b)* primary care trust area; and how many general practitioners excluding retrainers and registrars have left the national health service work force at age 55 or above in each year since 1990. [20464]

Mr. Byrne: Information relating to the number of general practitioners, excluding retainers and registrars projected to leave the national health service at age 55 or above in total between 2005 and 2015 broken down by strategic health authority and primary care trust could be provided only at disproportionate cost.

Information on the number of GPs, excluding retainers and registrars, who have left the national health service at age 55 or above in each year between 2000 and 2003 is shown in the table.

Leavers from	*GPs of 55 and over leavers (headcount)*
2000	702
2001	728
2002	614
2003	639

Information between 1998 and 2000 could also be provided only at disproportionate cost.

Information prior to 1998 is not of reliable quality.

Health Care Providers

Helen Goodman: To ask the Secretary of State for Health what assessment she has made of whether overcapacity will emerge in the NHS under the Government's policy of promoting a choice of healthcare provider for NHS patients. [22333]

Mr. Byrne: I refer the hon. Member to the reply I gave to the hon. Member for North Durham (Mr. Jones) on 31 October 2005, *Official Report*, column 834W.

Health Protection Agency

Mr. Drew: To ask the Secretary of State for Health what the budget of the Health Protection Agency has been in each year since its inception. [23951]

Caroline Flint: This information is in the Health Protection Agency's annual report and accounts for 2003–04 and 2004–05, copies of which are available in the Library.

Hepatitis C

Mr. Bellingham: To ask the Secretary of State for Health what the costs have been of the hepatitis C FaCe It campaign separately identifying *(a)* the cost of information packs sent to primary health care professionals, *(b)* the professional fees charged by Munro and Foster, *(c)* the cost of staging FaCe It events and *(d)* other expenditure. [20673]

Caroline Flint: The information available on expenditure on the FaCe It campaign is shown in the table.

FaCe It hepatitis C awareness campaign: expenditure to date

£000

Category	*2003–04*	*2004–05*	*2005–06*[1]
Information pack for health care professionals	19	62	0
Professional fees charged by Munro and Forster	[2]	[2]	[2]
Cost of staging FaCe It events	0	65	67
Other expenditure, for example, Hepatitis C Information Line	68	431	219

[1] To 31 October 2005.
[2] Disclosure of this information would be likely to prejudice commercial interests.

Hospices

Dr. Kumar: To ask the Secretary of State for Health how much Government funding was made available to *(a)* children's and *(b)* adult hospices for 2005–06. [22373]

Mr. Byrne: The Department does not routinely collect the data requested on national health service funding for adult and children's hospices. Data supplied by Help the Hospices shows that NHS funding for adult hospices in 2004 was £97.8 million, an increase of about 50 per cent. over 2000 and that NHS funding for adult hospices averaged 34 per cent. of expenditure.

Hospital Beds

Derek Wyatt: To ask the Secretary of State for Health what estimate she has made of the number of beds available in community hospitals in *(a)* west Kent, *(b)* east Kent, *(c)* Thames Gateway, *(d)* Medway and *(e)* Medway and Swale. [24619]

Caroline Flint *[holding answer 3 November 2005]:* The information requested is not collected in the format requested. However, information on the total number of beds available in all national health service trusts and primary care trusts in England has been placed in the Library.

Influenza Pandemic/Vaccines

Steve Webb: To ask the Secretary of State for Health what assessment she has made of the relative risks to the populations of different primary care trust areas across the country during an influenza pandemic; and if she will make a statement. [22195]

Caroline Flint: The United Kingdom influenza pandemic contingency plan indicates national risks—UK, England and devolved authorities—and those for the typical numbers in a variety of primary care settings, for example, primary care trusts (PCTs), general practitioner practices, of various sizes assuming everyone is affected equally. The indicative numbers do not take into account the detailed demographics of each PCT or GP practice because until the characteristics of the disease are known there is no reliable way of taking account of local variations in population.

Mr. Davey: To ask the Secretary of State for Health what assessment she has made of the supply of influenza vaccines available to Kingston primary care trust; and if she will make a statement. [22226]

Caroline Flint: The Department met with vaccine suppliers to discuss supply arrangements and the number of doses required for the flu campaign. This year around 13.4 million doses of vaccine will be made available in the United Kingdom. This is sufficient to provide enough vaccine for those aged over 65 and in at risk groups. General practices are responsible for placing their own orders for supplies of vaccine with manufacturers and for agreeing delivery schedules. The Department holds a central contingency stock, which can be used to address local supply difficulties.

Norman Lamb: To ask the Secretary of State for Health whether she expects all those in vulnerable groups who want influenza vaccinations to receive them; and whether she has received reports of shortages of vaccine. [22449]

Caroline Flint: The Department met with vaccine suppliers to discuss supply arrangements and the number of doses required for the flu campaign. This year around 13.4 million doses of vaccine will be made available in the United Kingdom. This amount is based on an estimate of likely uptake among those aged over 65 and in specific at risk groups. The amount of vaccine ordered represents an increase over previous years and we are aiming to increase uptake in the at risk groups.

Mr. Laurence Robertson: To ask the Secretary of State for Health what assessment she has made of the supply of influenza vaccines to primary care trusts, with particular reference to Cheltenham and Tewkesbury primary care trust; and if she will make a statement. [21455]

Caroline Flint *[holding answer 25 October 2005]:* The Department met with vaccine suppliers to discuss supply arrangements and the number of doses required for the flu campaign. This year around 13.4 million doses of vaccine will be made available in the United Kingdom. This is sufficient to provide enough vaccine for those aged over 65 and in at risk groups. General practices are responsible for placing their own orders for supplies of vaccine with manufacturers and for agreeing delivery schedules. The Department holds a central contingency stock, which can be used to address local supply difficulties.

Mr. Drew: To ask the Secretary of State for Health what advice her Department offers on the consumption of poultry, with particular reference to avian influenza. [22442]

Caroline Flint: The Food Standards Agency (FSA) advises that poultry should always be cooked thoroughly before being eaten to avoid food poisoning due to Salmonella and Campylobacter.

On the basis of current scientific evidence, the FSA advises that avian influenza does not pose a food safety risk for United Kingdom consumers. This is because for people, the risk of catching the disease is from being in close contact with live poultry that have the disease and not through eating cooked poultry.

Informal Carers

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to improve the training opportunities available to informal carers. [23158]

Mr. Byrne: The Government recognise that many carers would like access to training and support in their caring role or feel that their own personal development and general mental and physical well-being would be enhanced by undertaking training or educational opportunities.

Section two of the Carers (Equal Opportunities) Act 2004, which came into force on 1 April 2005, provides that when assessing a carer's needs, councils must take into account whether the carer works or wishes to work, undertakes or wishes to undertake education, training or leisure activities.

For example, "Learning for living" is a City and Guilds course specifically designed for this purpose. It is an online learning resource that can lead to a qualification accredited by the Qualifications and Curriculum Authority. The level two certificate in personal development and learning for unpaid carers is designed to identify and build on the knowledge, understanding and skills of people who are unpaid carers, either currently or in the recent past. The award provides carers with an opportunity for self-development and confidence building, to prepare for other roles and choices and to transfer the skills acquired from the caring role.

Information Technology (Expenditure)

Steve Webb: To ask the Secretary of State for Health pursuant to the answer of 21 July 2005, *Official Report*, column 2170W, on Information Technology (Expenditure) what the total revenue expenditure was for NHS trusts in 2003–04. [18889]

Mr. Byrne: The total revenue expenditure in national health service trusts was £36,008,134,000 in 2003–04.

Source:
2003–04 audited NHS trust summarisation schedules.

Medical Staff (CRB Checks)

Mr. Lansley: To ask the Secretary of State for Health (1) how much her Department spent on Criminal Records Bureau (CRB) checks for *(a)* physiotherapists, *(b)* speech and language therapists, *(c)* occupational therapists, *(d)* nursing staff, *(e)* doctors and *(f)* other staff employed by the NHS in each year since the CRB was established; how many checks were carried out; and what percentage were cleared; [20847]

(2) how much her Department spent on Criminal Records Bureau (CRB) police checks for *(a)* locum staff and *(b)* permanent staff employed by the NHS in each year since the CRB was established; [20848]

(3) what percentage of staff employed by the NHS who were subject to Criminal Records Bureau (CRB) checks had already been subject to a CRB police check within the last *(a)* year, *(b)* two years and *(c)* five years; [20849]

(4) how much her Department spent on Criminal Records Bureau (CRB) checks for staff working for the NHS in each year since the CRB was established; how many checks have been conducted; and what percentage were cleared. [20850]

Mr. Byrne: National health service employers are responsible for paying for Criminal Records Bureau checks on their employees and prospective employees. Information about the amount spent and the number of checks carried out is not collected centrally by the Department.

Medicine Reviews (Older People)

Mr. Burstow: To ask the Secretary of State for Health whether the target for medicine reviews in the National Service Framework for Older People has been superseded. [23067]

Mr. Byrne: Although good progress has been made, the target for medicine reviews in the national service framework for older people has not been superseded.

Mental Health

Mr. Burstow: To ask the Secretary of State for Health what steps her Department has taken to ensure that local protocols and pathways are established to deliver services to people who have a learning disability with mental health problems. [22981]

Mr. Byrne: Adults with disabilities, including those with learning disabilities, are covered by the mental health national service framework (NSF) in respect of their mental health problems.

"Valuing People: A New Strategy for Learning Disability for the 21st Century" (2001), the first White Paper for people with learning disabilities for 30 years, requires clear local protocols to be in place for collaboration between specialist learning disability services and specialist mental health services.

In order to promote the development of such local protocols, a learning disabilities dimension was added to the NSF local implementation planning group in 2002 and again in 2004.

The National Institute for Mental Health in England and the valuing people support team published a service improvement toolkit called "Green Light: How Good Are Your Mental Health Services for People with Learning Disabilities?" in 2004. This guidance is designed to help local services to work together to ensure that the delivery of the NSF is working for people with mental health problems who also have a learning disability.

Mr. Burstow: To ask the Secretary of State for Health what research her Department has commissioned into *(a)* stress, *(b)* depression and *(c)* other mental health problems among carers. [22982]

Mr. Byrne: The Department has not commissioned any specific research in this area. However, we are aware of the potential pressures of caring on a carer's mental health. This is why, through recent guidance, we refer to a carer centred approach to assessment and encourage local authorities to take the mental health needs of carers fully into account when they carry out carers assessments.

Midwives

Joan Walley: To ask the Secretary of State for Health if she will make a statement on the extent of financial support to be offered to student midwives. [23151]

Mr. Byrne: Diploma level midwifery students receive a non-means tested bursary of up to £6,859 per year. Additional allowances can supplement the bursary if a student is for example: aged over 26; a single parent; disabled; has dependants or on maternity leave. All midwifery students on national health service funded courses have their personal tuition fees, currently £1,175 per year, paid on their behalf.

MRI Scanners

Dr. Cable: To ask the Secretary of State for Health what progress has been made in establishing a national database of MRI scanners held by each hospital trust; what assessment has been made of *(a)* the extent of capacity utilisation and *(b)* waiting times for (i) urgent and (ii) non-urgent cases; and where available data is published. [16940]

Mr. Byrne: As part of the cancer plan central capital funded programme, an informal database of magnetic resonance imaging (MRI) scanners and their locations has been maintained to facilitate the procurement process and monitor deliveries.

Data on waiting times for MRI scans is not currently collected centrally, but a new data collection is under active review. It is for national health service trusts in partnership with their primary care trusts to assess their MRI scanner utilisation and capacity and that they are using their diagnostic capacity to the full.

Myalgic Encephalomyelitis

Steve Webb: To ask the Secretary of State for Health (1) what assessment she has made of the effectiveness of cognitive behavioural therapy for the treatment of myalgic encephalomyelitis; [22194]

(2) how much funding her Department committed for *(a)* 2005–06 and *(b)* the previous four years for research into the (i) biological causes, (ii) effects and (iii) treatments for myalgic encephalomyelitis. [22193]

Mr. Byrne: In May 2003, the Medical Research Council (MRC) announced funding for a major trial into various treatment options for those with myalgic encephalomyelitis. Known as PACE—pacing, activity and cognitive behavioural therapy: a randomised evaluation—this trial is ongoing.

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology. The MRC is currently funding two complementary trials into various treatment options for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) that aim to improve quality of life for those who are ill. The Department is meeting part of the cost of the trials, to which in total £4.2 million has been allocated. Patient recruitment began toward the end of last year.

Over 75 per cent. of the Department's total expenditure on health research is, however, devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myalgic encephalomyelitis, can be found on the national research register on the Department's website at www.dh.gov.uk/research.

Mr. Holloway: To ask the Secretary of State for Health what funding she has made available for research into the physical causes of myalgic encephalomyelitis. [22747]

Mr. Byrne: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics: research proposals in all areas compete for the funding available. When appropriate, high quality research in particular areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

The MRC is currently funding two complementary trials into various treatment options for chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) that aim to improve quality of life for those who are ill. The Department is meeting part of the cost of the trials, to which in total £4.2 million has been allocated. Patient recruitment began towards the end of last year.

The Department has, since 1998, separately commissioned and funded a number of small-scale research projects related to aspects of CFS/ME at a total cost of £293,000.

Over 75 per cent. of the Department's total expenditure on health research is, however, devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myalgic encephalomyelitis, can be found on the national research register on the Department's website at www.dh.gov.uk/research

Myasthenia

Mike Penning: To ask the Secretary of State for Health what funding her Department has allocated for research into myasthenia gravis in 2005–06. [22131]

Mr. Byrne: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC is currently funding a five-year senior non-clinical fellowship at a total cost of £913,000 specifically to research disease mechanisms and ribonucleic acid-based therapies for pathogenic mutations at the neuromuscular synapse. This basic study aims to understand the underlying mechanisms behind myasthenia gravis and other similar conditions.

The MRC has also recently awarded a £205,000 research grant to support a study that aims to investigate a novel therapeutic approach for the silencing of genes causing neuromuscular disease. It is hoped that this research will have widespread application where nucleic acids are contemplated as potential therapeutic agents for muscle or neuromuscular junction disease.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myasthenia gravis, can be found on the national research register on the Department's website at www.dh.gov.uk/research.

National School Fruit Scheme

Norman Baker: To ask the Secretary of State for Health what percentage of fruit supplied to schools under the National School Fruit Scheme was sourced according to seasonal variations in local and national availability in the period September 2004 to September 2005. [21879]

Caroline Flint: All fruit is supplied based on national seasonal availability.

The table shows a breakdown of the produce supplied by the school 'fruit and vegetable scheme during the school year 2004–05 by school term and source region.

Percentage

Term	*United Kingdom*	*Imported*
Autumn	30	70
Spring	29	71
Summer	10	90

Although we are obliged to tender competitively and under European Union competition law cannot favour United Kingdom growers in our tendering process, we have designed the school consumption calendar to reflect any seasonality for produce on a national and international level.

Norman Baker: To ask the Secretary of State for Health from which holding locations fruit is supplied to schools under the National School Fruit Scheme; and by what methods it is transported. [21880]

Caroline Flint: There are 15 distributors to the school fruit and vegetable scheme operating out of 23 distribution centres around the country. Distribution centres are located strategically around the country to attempt to minimise the journey time to schools.

Distributor	Location of distribution centres
A. G. Axton	Berkshire
Arthur Brett	West Midlands
Country Fresh	South Yorkshire
Croydon Fruiterers	London
F. W. Gedney	Ormskirk, Norfolk/Suffolk
G. W. Price	North Yorkshire
George Cossey	Somerset
H. B. Hawkes	London
Minor Weir and Willis	East Midlands, London, South East
Parkfresh Foods	Liverpool
Peachey's	Essex
Pioneer Foods	Cumbria
Prescott Thomas	London
Redbridge	Hereford, Stoke-on-Trent, Gateshead, Southampton, Bristol, Wigan
West Country Foods	Cornwall

The distributors primarily use diesel powered long-wheelbase 'Transit' type vans, with full refrigeration.

Neurological Conditions

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Daventy (Mr. Boswell) of 12 September 2005, *Official Report*, column 2719W, on neurological conditions, what work force issues were identified by the work force team; and what steps are being taken to address them. [20653]

Mr. Byrne: The work force group identified shortages in the professions required to deliver the long term conditions national service framework, including medical consultants, allied health professions, specialist nurses and support staff, and the need for a greater flexibility in when and how services are delivered.

The work force development priorities in this area are reviewed, alongside the requirements in other areas, by the work force review team and will be reflected, with other work force priorities, in the annual workforce planning recommendations to strategic health authorities (SHAs), which are expected to be published shortly. The recommendations cover work force planning in England for healthcare scientists, allied health professions, nurses and midwives, dental teams and doctors and are based on available evidence provided from many sources, including the work force group. The SHAs then consider their local circumstances and options for addressing their specific requirements.

On 28 September this year, "Skills for Health" launched a range of competencies in this area to support the national health service in its delivery of more flexible approaches to services.

NHS Beds

Lynne Featherstone: To ask the Secretary of State for Health how many *(a)* accident and emergency, *(b)* intensive care unit and *(c)* general beds are available in each NHS trust; what percentage that represents of the total beds in each case; and if she will make a statement. [21988]

Mr. Byrne: Accident and emergency departments do not have any beds. Information on the number of available beds in wards classified as intensive care and general and acute beds and also the percentage of the total by trust in 2004–05 has been placed in the Library.

NHS Complaints

Mr. Gordon Prentice: To ask the Secretary of State for Health what assessment she has made of the Parliamentary and Health Service Ombudsman's observations on NHS complaints structures; and if she will make a statement. [21873]

Jane Kennedy: "Making Things Better: A Report on Reform of the NHS Complaints Procedure in England" (10 March 2005) is a useful and timely report, which focuses on the need to develop a more patient-centred national health service complaints procedure. The objective of any complaints process must be to satisfy the person who has raised concerns and, where appropriate, to use that information in order to improve services.

NHS Finance

Mr. Lansley: To ask the Secretary of State for Health if she will define the term control total, used for the purposes of the financial monitoring of NHS organisations; and whether NHS organisations will be required to repay the deficits contained within their respective control totals. [18076]

Mr. Byrne: Control totals are used where it would be impossible to return to financial balance in a single year. The aim is to bring strategic health authorities (SHAs) as close as possible to financial balance for their local health communities.

The control totals are set in consultation with SHAs. Irrespective of the control totals set, SHAs carry forward deficits and surpluses to the following financial year. This ensures organisations do not benefit from having a deficit, and are not disadvantaged by having a surplus.

Mr. Burstow: To ask the Secretary of State for Health which NHS organisations have financial recovery plans; when each was agreed; over what period each runs; which have been subject to revision; and for what reasons. [22979]

Mr. Byrne: The Department manages the financial performance of the national health service through strategic health authorities (SHAs). NHS organisations that overspend are required to develop recovery plans to return to financial balance. Recovery plans are agreed and managed by SHAs so the information requested is not held by the Department.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 21 October 2005, *Official Report*, column 1287W, on NHS finance, who will provide the additional funding needed to provide strategic health authorities with an uplift to their carry forward; and what she has estimated the scheme will cost in 2006–07. [23008]

Mr. Byrne: Under the incentive scheme, strategic health authorities that underspend will receive additional resources and those that overspend will receive a reduction to their resources. On this basis, we expect the scheme to be self-balancing.

Mr. Lansley: To ask the Secretary of State for Health when she expects to take the decision on which name should replace the name of direct payments. [23100]

Mr. Byrne: There was a mixed response to the proposal to change the name of direct payments as outlined in the Green Paper, "Independence, Well-being and Choice: Our vision for the future of social care for adults in England". We are currently considering the implications of this issue further.

An interim analysis of the response to the consultation, which is informing our thinking towards the forthcoming heath and social care White Paper is available in the Library.

Mr. Lansley: To ask the Secretary of State for Health which areas will be piloting individual budgets; when she expects the pilots to begin; and how individual budgets will differ from the system of direct payments. [23101]

Mr. Byrne: The first individual budget pilot, which will take place in West Sussex and focus on older people, will begin in December this year. The remaining sites, of which there will be around a dozen, are in the process of being selected. An announcement will be made in November. They will come on stream throughout 2006 and will continue for between 18 months and two years.

The programme of pilots is being developed with input from stakeholders including people who use services, and an academic research and evaluation team. The pilots are being comprehensively evaluated in order to ensure that they can provide us with the evidence we need to make decisions about future roll-out.

Individual budgets would build on some of the successful features of direct payments and have the same principles of choice and control. There are, however, some key differences. Individual budgets would include a number of income streams rather than simply social care services in order to give the individual a more joined-up package of support. Individual budgets would also give the individual choice over how they receive their allocation; it does not have to be a cash allocation. Most importantly, individual budgets put people in the centre of the planning process, recognising that they are the person best placed to understand their own needs and how to meet them.

Mr. Bone: To ask the Secretary of State for Health if she will make a statement on the financial position of the NHS. [21532]

Mr. Byrne: The national health service has achieved overall financial balance in each of the past four years, up to 2004–05. The audited accounts show that the NHS as a whole will end 2004–05 with an overall deficit of around £250 million. This represents around only 0.4 per cent. of total NHS resources, compared with the 1.5 per cent. deficit figure in 1996–97.

NHS Staff

Mr. Baron: To ask the Secretary of State for Health what assessment has been made of the reasons for graduate unemployment in *(a)* physiotherapy, *(b)* medicine, *(c)* speech and language therapy and *(d)* nursing; and if she will make a statement. [21737]

Mr. Byrne *[holding answer 25 October 2005]:* After a period of sustained investment to ensure a rapid growth in the national health service workforce, the national health service is now moving to more of a steady state where there is a closer match between supply and demand. NHS expenditure is continuing to grow but getting the right staffing complement is an issue that needs to be addressed locally. Workforce planners within strategic health authorities are working closely with local NHS employers to make sure that staff and students understand the range of opportunities that are available. The electronic recruitment service NHS jobs (www.jobs.nhs.uk) has hundreds of jobs for all staff groups.

NHS Training

Daniel Kawczynski: To ask the Secretary of State for Health what assessment she has made of the effects of medical careers reforms in the NHS on the number of training contracts available to senior house officers. [23548]

Mr. Byrne: There were 20,094 medically qualified senior house officer (SHO) and equivalents in the national health service as at 30 September 2004, up from 14,580 in 1997. The full implementation of modernising medical careers (MMC) in the period beginning in 2007 will see the phasing out of the SHO grade and the introduction of new structures. The number of places available in new structures will continue to be decided by service and educational need. The launch of the foundation programme as the first phase of MMC in August this year saw some SHO posts converted to SHO equivalent foundation year two posts but this conversion did not affect the overall number of posts available for doctors working at the SHO level.

Nurses

Miss McIntosh: To ask the Secretary of State for Health what estimate she has made of the number of nurses leaving the NHS in each of the last three years. [22786]

Mr. Byrne: The information requested is not collected centrally.

Nutrition

Mr. Burstow: To ask the Secretary of State for Health what research her Department has commissioned into the nutrition of older people *(a)* in care homes, *(b)* receiving domiciliary care, *(c)* in an acute hospital ward and *(d)* in intermediate care. [22382]

Mr. Byrne: The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. The remainder funds health and social care research through the Department's central research programmes. Details of individual projects, including a number concerned with nutrition and older people, can be found on the national research register at www.dh.gov.uk/research.

Overseas Treatment

Mr. Amess: To ask the Secretary of State for Health if she will list the health establishments abroad which have treated NHS patients in the last five years; and which other establishments she plans to use. [20610]

Mr. Byrne: Since the end of 2002, patients have been referred for treatment in Europe, primarily to Belgium at Brussels, Bruges and Gent, by Guys and St. Thomas's hospital under the London patient choice (LCP) arrangements. There were also a number of individual contract arrangements set up by national health service commissioners. Information about the health establishments contracted with by NHS commissioners for this purpose has not been collected centrally. The LCP scheme ended on 31 March 2005 although primary care trusts are able to contract with healthcare providers abroad on an individual needs basis. There are no current central plans for further referral schemes abroad because we are rapidly increasing the capacity to treat NHS patients within England.

Data on where United Kingdom patients are treated in the European Economic Area under the E111/112 schemes is not available in the format requested.

Patient Appointments

Tim Loughton: To ask the Secretary of State for Health how many general practitioners appointments were missed in each of the last five years. [18815]

Mr. Byrne: I refer the hon. Member to the reply given to the hon. Member for South Cambridgeshire (Mr. Lansley) on 28 June 2005, *Official Report*, column 1523W.

Patients' Groups

Mr. Lansley: To ask the Secretary of State for Health (1) on what occasions she has met bodies representing patients' groups since 5 May; [20487]

(2) which patient groups she has met since 6 May; and on which dates. [20856]

Jane Kennedy: I refer the hon. Member to the reply I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 5 October 2005, *Official Report*, column 2831W.

PCTs/Strategic Health Authorities (Document Distribution)

Mr. Amess: To ask the Secretary of State for Health if she will list the *(a)* reference numbers and *(b)* titles of (i) statutory instruments, (ii) departmental circulars and (iii) other documents distributed direct to (A) primary care trusts and (B) strategic health authorities consequential to the provisions of the Abortion Act 1967 and the Human Fertilisation and Embryology Act 1990 in the last three years; what action was required in respect of each; and what further documents in these categories she proposes to circulate in the next 12 months. [20614]

Caroline Flint: In the last three years, primary care trusts (PCTs) and strategic health authorities (SHAs) have been given access to the following letters and documents about the provisions of the Abortion Act, which set out the Government's policy, recommended good practice and refers to the legal position on abortion in relation to services:

Letters

The Chief Medical Officer wrote to PCTs and SHAs on 21 September 2005, following the publication of his report, "An Investigation into the British Pregnancy Advisory Service (BPAS) Response to Requests for Late Abortions".

The following documents issued by the Department:

"Effective Commissioning of Sexual Health and HIV Services", a sexual health and HIV commissioning toolkit for PCTs and local authorities (2003).

Government response to the Health Select Committee's third report of session 2002–03 on sexual health (2003).

"An investigation into the British Pregnancy Advisory Service (BPAS) Response to

Requests for Late Abortions", a report by the Chief Medical Officer (2005).

The following documents funded by the Department:

"The Care of Women Requesting Induced Abortion", Royal College of Obstetricians and Gynaecologists (2004).

"Recommended Standards for Sexual Health Services", Medical Foundation for Aids and Sexual Health (2005).

The Department will be issuing best practice guidance for abortion services in spring 2006. The guidance will also take into account the issues raised by the Chief Medical Officer's recommendations, including the legal position on abortion.

Contact with the national health service about the provision of the Human Fertilisation and Embryology Act is made with the license holders of fertility clinics. However, in August 2005, all NHS chief executives were given access to the document, "The Review of the Human Fertilisation and Embryology Act, A Public Consultation" via the chief executive's bulletin.

Pensions

Mr. Laws: To ask the Secretary of State for Health what the effective rate of employer contribution is to final salary pension schemes for nurses in the public sector. [21589]

Mr. Byrne: The effective rate of national health service employer contributions for nurses who are members of the NHS Pension Scheme is 14 per cent. The employee contribution rate for nurses is 6 per cent.

Physiotherapy

Mr. Baron: To ask the Secretary of State for Health how many physiotherapy training places have been commissioned over each of the last four years, broken down by strategic health authority. [23068]

Mr. Byrne *[holding answer 28 October]:* The information requested is shown in the tables.

Numbers of physiotherapy training commissions broken down by strategic health authority (SHA) have been collected since 2002–03. Training commissions in 2001–02 are shown by regional office area.

Table 1: Physiotherapy pre-registration training commissions in 2001-02 by regional office area

	Headcount
England	1,780
Northern and Yorkshire	309
Trent	157
East	151
London	302
South East	219
South West	156
West Midlands	262
North West	224

Quartlery monitoring returns.

Pressure Ulcers

Mr. Lansley: To ask the Secretary of State for Health if she will make a statement on the effectiveness of vacuum-assisted closure machines for the treatment of pressure ulcers; whether she plans to instruct the National Institute for Health and Clinical Excellence to examine the effectiveness of such machines; what other steps she is taking to prevent the development of pressure ulcers in patients in hospitals; and if she will make a statement. [23109]

Mr. Byrne: The National Institute for Health and Clinical Excellence published new clinical guidance on pressure ulcer management in September 2005. This comprehensive guidance includes appraisals on the effectiveness of a wide range of options for the prevention and treatment of pressure ulcers, including vacuum-assisted closure methods.

Reducing the incidence of pressure sores in hospitals is tackled locally through the development and implementation of individualised plans for prevention and treatment agreed and delivered by a multidisciplinary team working with patients and their carers.

Primary Care Trusts

Mr. Kevan Jones: To ask the Secretary of State for Health what estimate she has made of the number of redundancies which may arise from the reorganisation of primary care trusts *(a)* in Durham and *(b)* in England. [17476]

Mr. Byrne *[holding answer 13 October 2005]:* The Department has received proposals on primary care trust configurations from County Durham and Tees Valley strategic health authority and these will be considered by an independent external panel to see whether the proposals meet the criteria identified in the document, "Commissioning a Patient-Led NHS", published on 28 July. Before any changes are made, proposals will be subject to a full three-month public consultation, beginning in December.

Sandra Gidley: To ask the Secretary of State for Health what guidance her Department has issued to primary care trusts on compliance with the Secretary of State's directive of 27 February 2004. [23181]

Mr. Byrne: Related directions on continuing care and delayed discharges came into force from 27 February 2004. They, and all other published guidance, are available on the Department's website at www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/IntegratedCare/ContinuingCarePolicy/fs/en.

Private Finance Initiative

Julia Goldsworthy: To ask the Secretary of State for Health (1) what steps she is taking to ensure that private finance initiative projects for which her Department is responsible create the minimum of environmental damage; [22109]

(2) what assessment her Department has made of *(a)* the (i) sustainability and (ii) environmental impacts of private finance initiative projects for which her Department is responsible and *(b)* what assessment has been made of the effectiveness of the private finance initiative process to deliver environmentally sustainable projects for her Department; [22110]

(3) what role her Department *(a)* has and *(b)* plans to take to make the private finance initiative process more accountable and transparent in terms of environmental sustainability; [22111]

(4) what steps she is taking to make private finance initiative contracts for which her Department is responsible more accountable and transparent in terms of environmental sustainability. [22112]

Mr. Byrne: The national health service environmental assessment tool kit (NEAT) is the NHS response to the Government's objective of a sustainable construction programme.

All capital development schemes, whether private finance initiative (PFI) or publicly funded, must submit a NEAT as part of their full business case. The business

case must demonstrate a commitment to meeting the NEAT score rating of "excellent" for a new build or "very good" for a refurbishment scheme.

By integrating the design, build and operational aspects into a single financial package, PFI helps to encourage greater efficiency, including energy efficiency, over the whole life of the contract.

Radiographers

Dr. McCrea: To ask the Secretary of State for Health how many radiographers have been employed in the NHS in each year since 1997. [23196]

Mr. Byrne: The information requested is shown in the table.

National health service hospital and community health services: qualified radiography staff in England as at 30 September for each specified year

	Qualified radiography staff	*of which:*	
		Diagnostic radiography	*Therapeutic radiography*
1997	11,771	10,364	1,407
1998	12,118	10,645	1,473
1999	12,330	10,839	1,491
2000	12,489	11,036	1,453
2001	12,706	11,163	1,543
2002	13,031	11,489	1,542
2003	13,344	11,687	1,657
2004	13,900	12,147	1,753

Note:
New occupation codes for healthcare scientists were introduced in 2003. As a result, a small number of staff previously included under diagnostic radiography are now classified within medical physics
Source:
Health and Social Care Information Centre non-medical workforce census.

Residential Care

Mr. Burstow: To ask the Secretary of State for Health (1) in what circumstances a local authority can set limits on what it will pay to meet the assessed needs of a person requiring care in a residential setting; [22263]

(2) when she will next review the capital limits for state support for costs of care in residential settings. [22264]

Mr. Byrne: The National Assistance Act 1948 sets out the framework within which local authorities decide what people can afford to contribute to the cost of their residential care. Local authorities (LAs) are responsible for assessing the care needs of any person seeking public financial support in order to enter a care home.

LAs assess a person's ability to pay charges using the National Assistance (Assessment of Resources) Regulations 1992 and the Charges for Residential Accommodation Guide (CRAG). The CRAG provides guidance to local authorities to help them understand the charging regulations and helps to ensure a consistent approach to charging.

The capital limits set the amount below which people can receive LA help with the cost of their care. People with less than £20,500 are entitled to apply for financial help from social services and local authorities are required to disregard savings of £12,500 or less when assessing residents ability to pay for their care.

The capital limits are reviewed annually. The review of the Assessment of Regulations, including the capital limits and the CRAG will begin shortly and are intended to be implemented from April 2006.

Sexual Health

Dr. Kumar: To ask the Secretary of State for Health how many people under the age of 16 years have attended a sexual health clinic in *(a)* Tees Valley and *(b)* Middlesbrough, South and East Cleveland constituency in each year since 1997. [22347]

Mr. Byrne: The number of attendances at genito-urinary medicine (GUM) clinics is not available by age group, but age group data are collected for a selection of diagnoses and are shown in the table. The data shown are for diagnoses made at GUM clinics (and excludes primary care) within County Durham and Tees Valley Strategic Health Authority (SHA) and not by the patients' area of residence. For confidentiality reasons, these data are only routinely published at SHA level.

Number of diagnoses[1] of selected sexually transmitted infections in young people aged under 16, County Durham and Tees Valley SHA: 1997 to 2004

	Number
1997	30
1998	26
1999	29
2000	39
2001	27
2002	40
2003	49
2004	42

[1] Diagnosed conditions: primary and secondary syphilis, gonorrhoea, herpes, genital warts and Chlamydia.
Source:
KC60 Returns, Health Protection Agency.

Sleep Apnoea

Mr. Lancaster: To ask the Secretary of State for Health what is the Government's policy on the prescription of continuous positive airway pressure equipment on the NHS for patients suffering from sleep apnoea. [23162]

Mr. Byrne: It is for health professionals in primary care organisations, in consultation with other stakeholders, to determine which services their populations require and ensure the appropriate level of provision. This would include the provision of continuous positive airway pressure equipment for patients with sleep apnoea where appropriate.

Smallpox Vaccine

Dr. Gibson: To ask the Secretary of State for Health who the members were of the Joint Committee on Vaccination and Immunisation which decided to purchase the Lister strain of virus for smallpox vaccine production. [22114]

Caroline Flint: The Secretary of State for Health made the decision to purchase the Lister strain of smallpox vaccine, taking into account advice provided from the expert sub-group of the joint committee on vaccination and immunisation (JCVI). This expert advisory sub-group was chaired by Professor Michael Langman, the chair of the JCVI at the time, and was comprised of those core members of the JCVI with experience relevant to smallpox vaccine issues and other invited experts from the organisations listed as follows. These other experts were invited on the basis of their individual expertise in their field and did not necessarily present the views of those organisations to which they belonged. The names of the participants are not therefore being made public. The names of all members of the JCVI are available on the JCVI website at www.advisorybodies.doh.gov.uk/jcvi/index.htm.

Organisations to which the attendees belonged were:

Royal Free Hospital
Public Health Laboratory Service
Institute of Child Health
St. Bart's Hospital
National Institute of Biological Standards and Control
Imperial College Medical School
University of Birmingham
Centre for Applied Microbiology
Medicines Control Agency
Defence and Scientific and Technology Laboratories
Ministry of Defence
Department of Health

Smoking

David Taylor: To ask the Secretary of State for Health what assessment she has made of the health and safety implications of smoking carriages in *(a)* enclosed public places and *(b)* workplaces. [22519]

Caroline Flint *[holding answer 31 October 2005]:* A regulatory impact assessment (RIA) has been published alongside the Health Bill. The RIA contains estimates of costs and benefits of legislation to end smoking in enclosed public places and workplaces. A copy is available in the Library.

Social Care Services

Mr. Lansley: To ask the Secretary of State for Health what guidance has been published on *(a)* access to and *(b)* transfer of care records from the NHS to social services; how she expects the sharing of patient care records to develop under the National Programme for IT; and whether legislation will be needed to ensure social services have access to patient records under the National Programme for IT. [23102]

Mr. Byrne: General guidance on information sharing with social services has been published as part of the Department's publication, "Confidentiality: Code of Practice for the NHS". The national programme for information technology, aiming to deliver a national health service care records service by 2010, will, in time, support appropriate access to patient care records by all staff involved in providing that care. Social services will only have access to patient health records with the consent of the patient concerned or where access is already permitted by law, so new legislation will not be required.

Mr. Lansley: To ask the Secretary of State for Health what the timescale is for the development of a national framework for continuing care. [23103]

Mr. Byrne: I refer the hon. Member to my press statement of 22 July 2005. This confirmed that work would accelerate on the introduction of a national set of eligibility criteria for national health service continuing care. The Department is progressing work on the production of the national assessment framework for continuing care due for publication in early 2006.

Mr. Lansley: To ask the Secretary of State for Health what steps she plans to take to improve the support offered to carers. [23105]

Mr. Byrne: Carers remain a high priority for this Government. We continue to be committed to ensuring they are supported both as carers and as individuals in their own right. We have supported legislation that strengthens the rights of carers to an assessment of their own needs as carers and involves a right to a carer's assessment. In addition, The Carers (Equal Opportunities) Act 2004 requires councils to take into account whether the carer works or wishes to work, undertakes or wishes to undertake education, training or leisure activities.

We are also continuing to fund support to carers through the carer's grant. Since its introduction in 1999, the grant has provided an extra £450 million to increase the number of breaks for carers. The grant is worth £185 million in 2005–06 and will continue at this level until at least 2007–08.

Speech/Language Therapy

Mr. Boswell: To ask the Secretary of State for Health what steps she is taking to ensure adequate provision of speech and language therapists in the public sector. [22184]

Mr. Byrne: At September 2004, there were 6,556 speech and language therapists employed in the national health service, an increase of 1,685, or 35 per cent. since 1997.There is a range of initiatives in place to support sustained growth in the number of speech and language therapists. These include improving pay and conditions, encouraging the NHS to become a better, more flexible and diverse employer, increasing training, help with accessing child care and continuing professional development and running national and local recruitment campaigns.

It is for primary care trusts (PCTs), in partnership with strategic health authorities, local authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. This process provides the means for addressing needs within the local community, including the provision of speech and language therapy.

PCTs are receiving record levels of investment between 2005–06 and 2007–08 to enable them to develop services.

Supporting People Report

Mr. Burstow: To ask the Secretary of State for Health what steps she is taking to act on the recommendation in the Audit Commission's report on supporting people, that her Department, the Office of the Deputy Prime Minister, providers and administering authorities should jointly consider practical problems and opportunities. [23614]

Mr. Byrne: The Government will be considering the findings of the Audit Commission report in the context of the ongoing work to develop a supporting people strategy. I understand that the Office of the Deputy Prime Minister will issue a consultation paper on this shortly. Departmental officials have been closely involved in the development of that consultation paper, and the consultation will provide an opportunity for joint consideration of a way forward which also includes providers and administering authorities.

Swale Primary Care Trust

Derek Wyatt: To ask the Secretary of State for Health how many beds Medway primary care trust procured from Swale primary care trust between 2003–04 and 2004–05 for *(a)* Sheppey community hospital and *(b)* Sittingbourne memorial hospital. [24622]

Caroline Flint *[holding answer 3 November 2005]:* The information requested is not collected centrally.

Tryptophan

Mr. Burns: To ask the Secretary of State for Health (1) why the Food Standards Agency did not publish the responses to its recent consultation exercise on the use of tryptophan in food prior to the laying before the House of statutory instruments on the matter; [22216]

(2) if she will make available in the Library a copy of the submissions received by the Food Standards Agency in response to its recent consultation exercise on the use of tryptophan in food; and if she will take steps to ensure that the Agency publishes the responses on its website; [22217]

(3) if she will withdraw the draft Tryptophan in Food (England) Regulations 2005 to allow further consultation. [22218]

Caroline Flint: A copy of the submissions received by the Food Standards Agency (FSA) in response to its recent consultation on the use of tryptophan in food will be placed in the Library. The FSA will make all the documents available in its library and publish these on its website, including the regulatory impact assessment (RIA) and a copy of the regulations. The intention was to publish all the documents when the statutory instruments were laid before the House, but a further delay has occurred due to a typographical error in the RIA, which now requires re-signing before publication.

The Tryptophan in Food (England) Regulations 2005 will not be withdrawn as this will allow L-tryptophan back onto the market and provide consumers with the opportunity to purchase supplements containing L-tryptophan again. The FSA has asked the committee on toxicity to review its recommendation on L-tryptophan and, depending on its advice, the legislation may then be amended.

Mr. Burns: To ask the Secretary of State for Health what representations have been made to the chief executive of the Food Standards Agency on the agency's decision in relation to the regulation of tryptophan in food supplements since 7 October 2005; and when she will respond to each. [22623]

Caroline Flint *[holding answer 28 October 2005]:* The chief executive of the Food Standards Agency (FSA) received a letter from the Institute of Optimum Nutrition dated 7 October regarding the FSA's decision in relation to the regulation of tryptophan in food supplements. A response to this letter was issued on 25 October.

Vulnerable Adults (Abuse)

Mr. Burstow: To ask the Secretary of State for Health pursuant to her answer of 20 October 2005, *Official Report*, column 1180W, on no secrets guidance, what plans she has to collect information on the number of adult protection referrals received and investigations undertaken. [22370]

Mr. Byrne: I refer the hon. Member to the reply I gave on 16 June 2005, *Official Report*, column 629W.

The second phase of the project is now under way and I will be reporting on the outcome in due course.

Waiting Times

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Written Answer of 20 June 2005, *Official Report*, column 785W, on breast cancer (waiting times), how the Labour Party manifesto commitment that all women will be seen within two weeks of referral by their general practitioner by 2008 will be monitored. [23952]

Ms Rosie Winterton: The 2005 Labour Party manifesto gave the commitment that all women with breast symptoms, even if cancer is not initially suspected, should be seen within two weeks of referral by their general practitioner by 2008. Details of this commitment and how it will be resourced, implemented and monitored are yet to be determined with stakeholders and finalised.

Your Health, Your Care, Your Say

Mr. Yeo: To ask the Secretary of State for Health what the total cost is of employing Opinion Leader Research for the Your Health, Your Care, Your Say consultation exercise. [23228]

Mr. Byrne: The cost of the contract with opinion leader research, which includes organising and running four regional deliberative events and a national citizen's summit, and analysing the results of these events alongside feedback from local events and completed questionnaires is £949,000.

Mr. Yeo: To ask the Secretary of State for Health what estimate she has made of the cost of the Your Health, Your Care, Your Say consultation exercise to *(a)* the Department, *(b)* strategic health authorities, *(c)* health trusts and *(d)* local authorities. [23588]

Mr. Byrne: The estimated cost of the nationally organised elements of the consultation is £1.2 million which is funded from the Department's running costs budget. No estimate is available of the cost to health and social care organisations.

Written Answers to Questions

Tuesday 8 November 2005

CABINET OFFICE

Better Regulation Agenda

25. **Andrew Gwynne:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on progress in removing unnecessary burdens on small businesses through the better regulation agenda; [25390]

26. **Gordon Banks:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on progress in removing unnecessary burdens on small businesses through the better regulation agenda. [25391]

Mr. Jim Murphy: We are making significant progress in implementing the package of reforms set out in the 2005 Budget.

We have launched a major exercise to measure and then reduce the administrative burdens faced by business and we are on track with a major rationalisation of regulators. These changes will benefit small business.

Ministerial Visit

27. **Mr. Wallace:** To ask the Chancellor of the Duchy of Lancaster if he will visit the Wyre Estuary in Lancaster and Wyre constituency to discuss the administration of the Duchy's lands there. [25392]

Mr. Jim Murphy: In the light of recent events and pending the appointment of a new Chancellor of the Duchy of Lancaster I am unable to commit to such a visit.

However, I am aware that the hon. Member has arranged to meet with the Chief Executive of the Duchy of Lancaster in London on 17 November.

Special Advisers

John Bercow: To ask the Chancellor of the Duchy of Lancaster how many special advisers are employed by the Government; and if he will make a statement. [25388]

Mr. Jim Murphy: There are currently 80 special advisers in post.

TRANSPORT

Transport Infrastructure (Shoreham)

10. **Tim Loughton:** To ask the Secretary of State for Transport what assessment he has made of the transport infrastructure improvements required in and around Adur in West Sussex to facilitate the proposed expansion of facilities at Shoreham airport and Shoreham harbour. [25403]

Ms Buck: Any proposals to expand Shoreham airport or harbour would be for the owners of those facilities to bring forward, alongside, as appropriate, proposals to address associated landside transport issues.

Regional Airports

11. **Mr. McGovern:** To ask the Secretary of State for Transport if he will make a statement on Government support for regional airports. [25404]

Mr. Darling: The great majority of airports in the UK are operated on a commercial basis, but the Air Transport White Paper makes clear there may be a case for limited public funding to support small airports operated by local authorities and those in objective 1 and 2 areas. We have facilitated the use of route development funds and fifth freedom rights to attract new services at regional airports, and development agencies can provide support where it would help to deliver regional economic objectives.

A43

12. **Mr. Hollobone:** To ask the Secretary of State for Transport if he will make a statement on plans to upgrade the A43 Kettering to Northampton road. [25405]

Dr. Ladyman: Any plans to upgrade the A43 between Kettering and Northampton will be for Northamptonshire county council, as local highway authority, to consider.

Aircraft Pollution

13. **Paul Flynn:** To ask the Secretary of State for Transport what steps he is taking to reduce pollution caused by aircraft. [25406]

Ms Buck: The balanced strategy set out in The Future of Air Transport White Paper required that we did more to reduce and mitigate the environmental impacts of air transport. It included a range of measures at national and international level to address noise, local air quality and climate change issues. These are supplemented by specific environmental controls and appropriate mitigation action at individual airports.

Roadside Workers

14. **Harry Cohen:** To ask the Secretary of State for Transport if he will take steps to reduce the number of traffic-related deaths of roadside workers; and if he will make a statement. [25407]

Dr. Ladyman: I have been discussing with the Highways Agency, it's contractors and stakeholders at the highest level, proposals to bring about a step change in the approach to health and safety for road workers to achieve a lasting reduction in the risks for this vulnerable group.

M4

15. **Mr. Gray:** To ask the Secretary of State for Transport how many cars per day used junction 16 of the M4 in the last year for which figures are available; and what his estimate is of the capacity of the junction. [25408]

Dr. Ladyman: During 2004, on average 24,700 cars per day used junction 16 of the M4 (that is they turned on or off the motorway at this junction).

A specific study would be required to determine the absolute capacity, however, peak hour congestion problems indicate that this junction is running at or above capacity at certain times of the day.

Rail Network (East Midlands)

17. **David Taylor:** To ask the Secretary of State for Transport what assessment he has made of the adequacy of the regional rail network in the East Midlands. [25410]

Derek Twigg: The most recent assessment of the regional rail network in the East Midlands was made as part of the SRA Midland Mainline/East Midlands Route Utilisation Strategy which was published in March 2004. This work reviewed the usage of existing services and made recommendations around their future development.

Rail Services

18. **Daniel Kawczynski:** To ask the Secretary of State for Transport what steps he is taking to encourage better rail services between Shropshire and London. [25411]

Derek Twigg: The Department is currently examining the business case for direct rail services between Shrewsbury, Telford and London. The work is being carried out in conjunction with local authorities in the area and other interested bodies.

19. **Peter Viggers:** To ask the Secretary of State for Transport what steps he is taking to ensure reliable train services during the autumn and winter months. [25412]

Derek Twigg: Network Rail and train operators have measures in place to address the operational risks presented by severe weather in the autumn and winter. The details are an operational matter for Network Rail.

Sustainable Communities Plan

20. **Andrew Selous:** To ask the Secretary of State for Transport what planning assessments have been made of the transport capacity of the Sustainable Communities Plan areas. [25413]

Ms Buck: The Milton Keynes South Midlands sub-regional spatial strategy was published on 17 March 2005. This provided the area with a framework for delivery of its spatial strategy including an assessment of transport capacity issues and requirements.

The draft spatial strategy for the East of England which takes in London/Stansted/Cambridge/Peterborough growth area and parts of the Thames Gateway is current being tested through its examination in public. This draft contains a regional transport strategy.

A similar planning process will follow in the rest of the south-east which takes in the Kent element of Thames Gateway and the Ashford growth area.

A5120

Mr. Greg Knight: To ask the Secretary of State for Transport (1) what assessment he has made of the congestion on the A5120 in the vicinity of Junction 12 of the M1 motorway; [25425]

(2) what plans he has to improve traffic flows on the A5120 at Junction 12 of the M1 motorway. [25427]

Dr. Ladyman: Several sources of information have been used to determine existing traffic flows and vehicle movements at Junction 12; these include travel surveys, vehicle origin/destination data, and several vehicle surveys undertaken from 2003–04. This information has been used in traffic modelling work, which will forecast future traffic flows. The A5120 is the responsibility of Bedfordshire county council and we have no information about congestion in the vicinity of junction 12. However further studies will be undertaken as the M1 widening junctions 10–13 scheme is developed.

Proposals to widen the M1 motorway between Junctions 10 and 13 (including improvements to junctions 11,12 and 13) were displayed at public consultation exhibitions from November 2004 to January 2005. A preferred route announcement for this scheme is planned for later this year.

Air Carrier Insolvencies

Mrs. Dunwoody: To ask the Secretary of State for Transport what estimate he has made of the percentage of travel insurance policies which cover air carrier insolvency. [25141]

Ms Buck: Civil Aviation Authority research indicates about 10 per cent. of travel insurance policies cover air carrier insolvency.

Central Railway

Mr. Lidington: To ask the Secretary of State for Transport if he will place in the Library copies of the documents on the Central Railway project that were released by his Department to Central Railway plc following an application under the Freedom of Information Act 2000. [25254]

Derek Twigg: The documents will be placed in the Libraries of the House.

Concessionary Travel (South Gloucestershire)

Steve Webb: To ask the Secretary of State for Transport if he will estimate the cost to South Gloucestershire council of implementing the national half-fare concessionary travel scheme; and what additional resources he will be allocating to South Gloucestershire council in respect of the proposed extension of the concessionary travel scheme. [26577]

Ms Buck: The Government will provide an extra £350 million in 2006–07 which will be sufficient to fund the cost to local authorities. A decision on how the extra funding will be distributed will be made in due course.

Departmental Estate

Daniel Kawczynski: To ask the Secretary of State for Transport what *(a)* land and *(b)* property his Department owns in the Shrewsbury and Atcham constituency. [25331]

Ms Buck: Details of land and property owned by the Department in Shrewsbury and Atcham constituency are set out as follows.

The Highways Agency currently has three pieces of agricultural land in its portfolio, which fall in the Shrewsbury and Atcham constituency. These pieces of

land are at Montford Bridge, Shrewsbury and together amount to 17.69 acres. Two pieces of land are to the east of the A5 and the third piece of land is to the west of the A5.

The Vehicle and Operator Services Agency currently owns Shrewsbury Goods Vehicle Test Station, Ennerdale Road, Harlescott, Shrewsbury, SY1 3LF.

Eurotunnel

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will make a statement on the progress of the Eurotunnel Working Group in addressing issues surrounding the process of Eurotunnel's audit system. [24611]

Derek Twigg: The Channel Tunnel Safety Authority's (CTSA's) Annual Report for 2004–05 notes, in paragraph 75, that the Health and Safety at Work and Human Factors Working Group will be considering, among other things, the process of Eurotunnel's audit system in the course of 2005–06. I expect that the CTSA's Annual Report for 2005–06 will cover the results of that consideration.

Highways Agency

Mr. Greg Knight: To ask the Secretary of State for Transport what systems are in place to ensure that there is consistency and national co-ordination of policy across regional offices of the Highways Agency; and whether he plans to make changes to the systems. [25426]

Dr. Ladyman: The Highways Agency is a national executive agency reporting to Ministers, with annual objectives agreed by Ministers and set out and published in its business plan each year. The chief executive of the Highways Agency is responsible for ensuring consistency of application of policy and co-ordination across its regional offices. He reports to me on a regular basis.

Motorway Crash Barriers

Sir Paul Beresford: To ask the Secretary of State for Transport what the guidelines are for the *(a)* choice and *(b)* construction of each type of motorway crash barrier. [26120]

Dr. Ladyman: The choice of safety barrier in a motorway central reserve is controlled by the Highways Agency Interim Advice Note 60/05—The Introduction of a New Highways Agency Policy for the Performance Requirements for Central Reserve Safety Barriers on Motorways. The implementation of this advice requires future barriers to be of concrete unless there are over-riding circumstances.

The guidelines for the choice and construction of the barrier that can be used in other motorway locations are contained in the documents listed:

(a) Highways Agency Interim Requirements for Road Restraint Systems December 2004—Chapters 1 to 6 inclusive.

(b) Highways Agency Interim Advice Note 44/05 (Rev 4)—Interim Requirements for Road Restraint Systems (Vehicle and Pedestrian) Revision 4. (IRRS)

(c) European Standards in the Series EN1317—Road Restraint Systems.

(d) Highways Agency Interim Advice Note 55/04—Guidance on the use of European Standard BS EN 1317—Road Restraint System.

Detailed guidelines for the construction of safety barriers are contained in the manufacturer's product specifications and in the Manual of Contract Documents for Highway Works, Volume 1, Specification for Highway Works, Clauses: Series 0100, 0400, Appendices: A, C and E

Night Parking Charges

Miss McIntosh: To ask the Secretary of State for Transport under what legal authority local authorities may charge for car parking in towns and city centres at night. [21384]

Ms Buck: Section 35 of the Road Traffic Regulation Act 1984 allows local authorities to charge for the use of off-street car parks, while section 46 allows them to charge for the use of designated on-street parking places. The determination of the levels of charges is a matter for individual authorities.

Ports

Tom Brake: To ask the Secretary of State for Transport if he will list ports which are *(a)* compliant and *(b)* non-compliant under the International Ship and Port Security Code. [24199]

Dr. Ladyman: There are over 500 port facilities in the United Kingdom that are compliant under the International Ship and Port Facility Security Code. The names of the facilities have been lodged in the Library in the document titled "ISPS Compliant Port Facilities in the UK".

The ISPS Code applies to port facilities serving passenger ships and cargo ships over 500 Gross Tonnes engaged on international voyages and domestic Class A ferries which travel more than 20 nautical miles from the UK coastline.

Rail Franchises

John McDonnell: To ask the Secretary of State for Transport what costs have been incurred in respect of rail franchise tendering processes since May 1997. [24576]

Derek Twigg: The letting of franchises since 1997 has been successively undertaken by the Office of Passenger Rail Franchising, the Shadow Strategic Rail Authority, the Strategic Rail Authority and since July 2005, the Department for Transport.

Franchise tendering costs were part of the general business costs of these organisations and could be provided only at disproportionate cost.

Mr. Denis Murphy: To ask the Secretary of State for Transport when his Department plans to publish the consultants' final report on the review of the Northern Rail franchise; whether its recommendations will be incorporated into the 2006 rail timetable planning conference; and if he will make a statement on the implications of the review for the "Northern Way" initiative. [24946]

Derek Twigg: Work on the review of the Northern Rail franchise is proceeding, and I expect to announce proposals for consultation early next year. The consultation will seek the views of organisations involved in the "Northern Way" initiative.

Mr. Denis Murphy: To ask the Secretary of State for Transport on what date his Department plans to publish the final regional planning assessment for North East England; and whether its recommendations will be incorporated into the 2006 rail timetable planning conference. [24947]

Derek Twigg: I am currently considering the draft of the North East England rail regional planning assessment with a view to publication in due course.

Railways

Mr. Denis Murphy: To ask the Secretary of State for Transport on what date his Department plans to recommence the rail passenger partnership funding for new passenger rail services; what plans he has to review such funding; and if he will make a statement. [24945]

Derek Twigg: There are no specific proposals to re-introduce rail passenger partnership funding at this stage. My right hon. Friend the Secretary of State's statement to Parliament of 10 February 2005 sets out the funding for rail until 2008–09. Future funding arrangements for the railway will be reviewed as part of the 2007 spending review and the development of the high level output specification for Network Rail.

Daniel Kawczynski: To ask the Secretary of State for Transport what plans there are to upgrade the infrastructure at Shrewsbury railway station. [25332]

Derek Twigg: Network Rail is investigating potential enhancements to platform 3 in conjunction with Arriva Trains Wales, to improve capacity at the station, and this will be progressed after the impact of new timetables in December 2005 is known.

Mr. Holloway: To ask the Secretary of State for Transport what assessment he has made of the efficiency of rail links to Gravesham; and if he will make a statement. [24184]

Derek Twigg: The pattern and efficiency of train services throughout Kent including services to Gravesham have been extensively reviewed in preparation for the forthcoming award of the new Integrated Kent Franchise. The latest published figures show South Eastern Trains achieving an 89.3 per cent. on-time performance in the first quarter of 2005–06.

Tom Brake: To ask the Secretary of State for Transport what correspondence he has received from the London business community on its contribution to the funding of Crossrail; and if he will publish it. [24213]

Derek Twigg: The Secretary of State has received a number of letters regarding the funding of Crossrail from representatives of the London business community. The Secretary of State does not generally publish the correspondence he receives and has no plans to do so in this case.

Mike Penning: To ask the Secretary of State for Transport what assessment he has made of the efficiency of rail links to *(a)* Kings Langley, *(b)* Apsley and *(c)* Hemel Hempstead; and if he will make a statement. [25574]

Derek Twigg: These stations have benefited from the West Coast Main Line Modernisation Project. Platforms have been extended to accommodate 12 car train lengths at all three stations. New air conditioned trains are also being introduced for certain services and line speed improvements are being implemented during 2006, to allow more attractive and reliable services to be operated.

Mr. George Howarth: To ask the Secretary of State for Transport what assessment has been made of the performance of South East Trains since it was returned to public hands. [26519]

Derek Twigg: The performance of all train operators, including South Eastern Trains (SET), is monitored on a four-weekly basis. The most recent figures for SET show an on-time performance of 88.3 percent. Corresponding figures for the most directly comparable operators are 89.1 percent. for southern and 92.1 percent for South West Trains.

Mr. George Howarth: To ask the Secretary of State for Transport what the staff turnover rate for Cross London Rail Links Limited was in the past 12 months. [26539]

Derek Twigg: I understand from Cross London Rail Links Limited (CLRLL) that, between November 2004 and November 2005, the number of staff directly employed by the company rose from 59 to 73; eight employees left the company and 22 new employees joined.

Road Usage

Mrs. Dunwoody: To ask the Secretary of State for Transport what his estimate is of road usage by *(a)* domestic and *(b)* non-domestic heavy goods vehicles in the United Kingdom in 2004. [25132]

Dr. Ladyman: The latest available information that separately identifies the use made of roads in Great Britain by UK-registered and foreign- registered heavy goods vehicles is for 2003. Estimates for that year are as follows:

Heavy goods vehicle traffic	*Billions Vehicle kilometres*
(a) UK registered HGVs :	27.6
(b) Foreign registered HGVs :	0.9

Source:
DfT: Traffic in Great Britain, and Survey of Foreign Vehicle Activity in GB 2003

Mrs. Dunwoody: To ask the Secretary of State for Transport what percentage of transcontinental haulage lorries in the United Kingdom in *(a)* 2002, *(b)* 2003 and *(c)* 2004 were non-domestic; and if he will make a statement. [25134]

Dr. Ladyman: Based on data collected by the Department about the number of heavy goods vehicles travelling to mainland Europe from Great Britain[1] the information is as follows:

	UK-registered (thousands)	*Foreign-registered (thousands)*	*Foreign-registered as share of total[1] (percentage)*
2002	493	1,290	72
2003	474	1,322	73
2004	493	1,447	74

[1] For a small number of vehicles country of registration is not known.

Source:

DfT: Road Goods Vehicles Travelling to Mainland Europe

1. Traffic to the Republic of Ireland is excluded

Schools (Peak-time Traffic)

Dr. Kumar: To ask the Secretary of State for Transport what support his Department is providing to initiatives to reduce the amount of peak time traffic around schools in *(a)* the Tees Valley and *(b)* the Middlesbrough, South and East Cleveland constituency. [22071]

Derek Twigg: The Government want to reduce the present level of car use for journeys to and from school and make it possible for more pupils to walk, cycle or use public transport. The Department for Transport and Department for Education and Skills are providing support to all local authorities in England to help them achieve this through their joint "Travelling to School" project.

As part of the project both Departments are providing joint funding (£7.5 million a year) to local authorities to enable them to employ school travel advisers to work with schools and help them develop and implement school travel plans and other initiatives to reduce car use. In addition, the Department for Education and Skills is awarding small capital grants (from a fund of £20 million a year) to schools with approved school travel plans to enable them to make improvements to school sites that will encourage sustainable travel to school. Both funding for school travel advisers and small capital grants was originally awarded for the period April 2004 to March 2006 but was extended earlier this year to March 2008.

Telecommunication Masts

Mrs. Spelman: To ask the Secretary of State for Transport whether telecommunication masts constructed by Network Rail will be used to provide mobile phone telecommunication services for the general public; and if he will make a statement. [25621]

Derek Twigg: This is an operational matter for Network Rail. Network Rail will respond directly to the hon. Member.

Transport Links (Essex)

Andrew Rosindell: To ask the Secretary of State for Transport what plans the Government have in the context of the Thames Gateway to build new transport links in Essex. [25069]

Ms Buck: DfT and ODPM are working with the South Essex Transportation Board to identify the further transport and other infrastructure needs of the area in the context of the Thames Gateway.

In 2003 the Secretary of State for Transport announced a £1.6 billion investment in the widening of the M25. This programme will take in widening between junctions 27–30 on the Essex stretch of the motorway.

DfT relies on the respective transport authorities to come forward with proposals for suitable schemes through their local transport plans. Provisional plans were submitted this summer and are currently being assessed.

Waterways

Mr. Drew: To ask the Secretary of State for Transport what guidelines he has issued to users of waterways on the definition of the term commercial. [25385]

Dr. Ladyman: The term commercial, applied to a vessel, is generally explained as any vessel which is not a pleasure vessel.

The term "pleasure vessel" is defined, in the Merchant Shipping (Marine Accident Reporting and Investigation) Regulations 2005 as:

> "pleasure vessel" means any vessel which is
>
> (i) wholly owned by an individual or individuals and used only for the sport or pleasure of the owner or the immediate family or friends of the owner; or
>
> (ii) owned by a body corporate and used only for the sport or pleasure of employees or officers of the body corporate, or their immediate family or friends, and is on a voyage or excursion which is one for which the owner is not paid for or in connection with operating the vessel or carrying any person, other than as a contribution to the direct expenses of the operation of the vessel incurred during the voyage or excursion; or
>
> (iii) any vessel which is wholly owned by or on behalf of a members' club formed for the purpose of sport or pleasure which, at the time it is being used, is used only for the sport or pleasure of members of that club or their immediate family, and for the use of which any charges levied are paid into club funds and applied for the general use of the club;

and no payments other than those mentioned are made by or on behalf of the users of the vessel, other than by the owner, and in this definition, "immediate family" means, in relation to an individual, the husband, wife or civil partner of the individual, and a brother, sister, ancestor or lineal descendant of that individual or of that individual's husband, wife or civil partner.

PRIME MINISTER

Civil Servants (Business Appointment Rules)

Dr. Tony Wright: To ask the Prime Minister when he expects the review of the business appointment rules for former civil servants will be published. [23822]

The Prime Minister: I refer my hon. Friend to the answer given by my right hon. Friend the then Chancellor of the Duchy of Lancaster (Mr. Hutton) to the hon. Member for North Norfolk (Norman Lamb) on Friday 28 October 2005, *Official Report*, column 613W.

Departmental Spending

David T.C. Davies: To ask the Prime Minister how much his Office spent on items of art in 2004–05. [23462]

The Prime Minister: My Office has not bought any items of art.

Dexion Workers

Mike Penning: To ask the Prime Minister if he will meet former Dexion workers from Hemel Hempstead. [25569]

The Prime Minister: I understand that my right hon. Friend the Secretary of State for Work and Pensions (Mr. Hutton) will meet the hon. Member shortly to discuss this matter.

Ministerial Visit

Mike Penning: To ask the Prime Minister what plans he has to visit Hemel Hempstead Hospital in this session of Parliament. [26252]

The Prime Minister: I have no current plans to do so.

Olympic Games

Hugh Robertson: To ask the Prime Minister why the Secretary of State for Foreign and Commonwealth Affairs chairs the Ministerial Committee on the Olympics. [25627]

The Prime Minister *[holding answer 7 November 2005]:* I act in accordance with the way previous Prime Ministers have chosen their chairmen of Cabinet committees.

Overseas Visits

Norman Baker: To ask the Prime Minister if he will make it his policy to be accompanied by the Secretary of State for Environment, Food and Rural Affairs on all trips to *(a)* China and *(b)* India. [25013]

The Prime Minister: I am accompanied by Ministers as and when appropriate.

Visits

Mr. Hollobone: To ask the Prime Minister pursuant to the answer of 21 October 2005, *Official Report*, column 1298W, for what reasons the cost of the visit was not met from public funds; and what the purpose of the visit was. [25933]

The Prime Minister: This is not a matter for the Government.

TRADE AND INDUSTRY

0870 Phone Numbers

Dr. Cable: To ask the Secretary of State for Trade and Industry if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24458]

Alan Johnson: A number of services provided by contractors on behalf of my Department have used 0870 telephone numbers. From the central records available the 0870 telephone numbers used in the last five years are:

0870 600 6080
0870 240 5927
0870 240 5929
0870 606 1515
0870 191 0111
0870 191 0112
0870 191 0113
0870 191 0114
0870 191 0115
0870 191 0116
0870 150 2100
0870 150 2300
0870 150 2333
0870 150 2500

The DTI has received no revenue from the use of these 0870 telephone numbers over the last five years.

Animal Health

Robert Key: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on animal health of the coming into force of the Supply of Relevant Veterinary Medicinal Products Order 2005. [25285]

Mr. Sutcliffe: The Regulatory Impact Assessment for the Order considers the effect on animal health in detail, noting in particular that veterinary surgeons will still take decisions on which medicines prescribed or dispensed for animals under their care. Animal health was considered both by the Competition Commission in making the recommendations implemented through the order and by Government when accepting the recommendations.

Carbon Dioxide Emissions

Stephen Williams: To ask the Secretary of State for Trade and Industry what recent estimate the Government have made of the carbon dioxide emissions produced by the *(a)* building, *(b)* maintenance and *(c)* decommissioning of a new nuclear power station and the mining of the uranium fuel over (i) 10, (ii) 20 and (iii) 50 years; and if he will make a statement. [25665]

Malcolm Wicks: The Department has undertaken no assessment of the lifecycle carbon emissions of a nuclear fission plant.

Development Agencies

Mr. Jenkin: To ask the Secretary of State for Trade and Industry if he will list for each regional development agency in England the total sum spent on *(a)* corporate entertainment and *(b)* hospitality for each financial year since their creation. [19729]

Alun Michael: A table showing the breakdown for each of England's regional development agencies (RDAs) is as follows. The following definitions were used as a guide to each category:

(a) Corporate entertainment—the amount staff recorded as entertainment costs in their travel and subsistence claims over the last five years.

(b) Hospitality—expenditure on providing hospitality for RDAs' stakeholders and partners. RDAs do not account for such activities in this way, so these figures are an estimate, attributable to specific project activity. These figures do not include regular business meetings, consultation events, conferences and workshops where refreshments were provided.

RDA spend on corporate entertainment and hospitality 1999–2005

£

	1 April 1999–31 March 2000		1 April 2000–31 March 2001		1 April 2001–31 March 2002	
	Corporate entertainment	Hospitality	Corporate entertainment	Hospitality	Corporate entertainment	Hospitality
Advantage West Midlands (AWM)	0	8,500	0	28,500	0	163,500

One North East (ONE)	38,744	11,900	21,986	18,374	20,560	14,040
South of England Development Agency (SEEDA)	36,089	—	50,858	—	45,640	5,000
South West of England Regional Development Agency (SWRDA)	22,817	2,545	15,330	1,735	17,428	3,124
Yorkshire Forward (YF)	25,957	19,035	33,545	30,883	26,977	12,299

Notes:

1. AWM—the contents of the hospitality line and entertaining line do not include any costs relating to programme expenditure which are incurred incidentally on entertaining/hospitality as the information cannot easily be extracted.
2. EEDA response—figures are not available for years prior to 2002–03, but are not believed to be significantly different from 2002–03 (ie approximately £7,500 for both categories together).
3. SEEDA—the figures for corporate entertainment include hospitality—they were not able to separate them out before 2004–05.
4. YF—the contents of the hospitality line and entertaining line do not include any costs relating to programme expenditure which are incurred incidentally on entertaining/hospitality as the information cannot easily be extracted from our database.

Global Interactive Entertainment

Charles Hendry: To ask the Secretary of State for Trade and Industry what assessment he has made of the UK's position within the global interactive entertainment market place; and what steps he is taking to prevent the relocation overseas of UK-based interactive entertainment corporations. [24960]

Alun Michael: In 2002 the DTI published a detailed study of the competitiveness of the UK computer games industry entitled "From Exuberant Youth to Sustainable Maturity". A copy was placed in the Libraries of the House. The analysis confirms that the UK has a vibrant and valuable computer games industry.

DTI works closely with UK Trade and Investment and the sector in focusing its efforts on maintaining the UK's position as a centre of excellence for the global electronic interactive games industry. The UK is a free and open market for international business so the Government does not seek to inhibit companies from placing their global business in the location that best suits their need.

Home Credit Providers

Chris Huhne: To ask the Secretary of State for Trade and Industry what assessment he has made of whether a conflict of interest may arise from the Office of Fair Trading being responsible for regulating home credit providers and for assessing competitive problems in the market. [24491]

Mr. Sutcliffe: The OFT is a regulatory body which is charged with certain responsibilities set out in statute. Under the Consumer Credit Act many types of business—including home credit companies—have to obtain a licence from the OFT. Under the Competition Act and Enterprise Act the OFT is responsible for competition law.

These functions are consistent as the OFT seeks to make markets work well and the CCA and competition powers both contribute to this aim. Therefore it is highly unlikely that any conflict of interest should arise.

Household Energy Bills

Mr. Jenkin: To ask the Secretary of State for Trade and Industry what the average annual household bill has been for *(a)* gas and *(b)* electricity in each year since 1997. [25543]

Malcolm Wicks: The average annual standard credit household bills for gas and electricity for each year since 1997 are shown in the following table:

£

	Electricity	*Gas*
1997	285	328
1998	268	315
1999	264	305
2000	257	295
2001	250	293
2002	249	310
2003	250	320
2004	257	333
2005	284	383

Note:
Gas bills are calculated using an annual consumption of 18,000 kWh, electricity bills a consumption of 3,300 kWh. Figures are inclusive of VAT. Figures for 2005 bills for both fuels are provisional. These figures are in cash terms.
Source:
Quarterly Energy Prices, DTI.

Land and Vertical Agreements Exclusion Order

James Brokenshire: To ask the Secretary of State for Trade and Industry for what reasons the Government decided to repeal the Land and Vertical Agreements Exclusion Order 2000. [25327]

Mr. Sutcliffe: The Government repealed the Land and Vertical Agreements Exclusion Order 2000 as part of the package of legislation that came into effect on 1 May 2004 to modernise competition law. The substantive arguments concerning repeal of this order may be found in the following documents:

1. The Government's June 2003 consultation on its proposals for the treatment of existing exclusions and exemptions from the Competition Act 1998 in the light of EC Regulation 1/2003 which may be found at: http://www.dti.gov.uk/ccp/consultpdf/modconsult1.pdf. The section on vertical agreements is at pages 21–32.

2. The Government's response to that consultation which may be found at http://www.dti.gov.uk/ccp/consultpdf/compmodresp.pdf. The section on vertical agreements is at pages 8–11.

Magazine Distribution

James Brokenshire: To ask the Secretary of State for Trade and Industry what representations the Office of Fair Trading has received from the European Commission on the legality of magazine distribution in the UK. [25326]

Mr. Sutcliffe: The EU Commission submitted views to the Office of Fair Trading (OFT) on the application of EU Competition Law to agreements on the distribution of newspapers and magazines, in response to the OFT's consultation document "Newspaper, Magazine Distribution—Public Consultation on draft opinion of OFT" issued 19 May 2005.

James Brokenshire: To ask the Secretary of State for Trade and Industry what assessment he has made of the measures being taken by other European Union countries to ensure that they are compliant with relevant European Union competition law in respect of magazine wholesalers and distributors. [25328]

Mr. Sutcliffe: None. It is for other national competition authorities and/or the companies concerned to look at their domestic systems of newspapers and magazine distribution to assess whether they are compatible with competition law (including EC competition law).

Martin Benfield

Norman Lamb: To ask the Secretary of State for Trade and Industry when *(a)* Ministers and *(b)* officials in his Department were first informed of the allegations concerning Martin Benfield, a former secondee working in his Department in relation to his involvement with Europa Crown Limited; what information concerning the allegations was made known to (i) Ministers and (ii) his Department; what action was taken as a result of information received, including information from criminal proceedings in the USA; whether an investigation was conducted; and whether disciplinary procedures were pursued against any individuals. [21678]

Ian Pearson *[holding answer 25 October 2005]:* Bribery and corruption are criminal offences and as such are dealt with by the criminal justice system; in any such case evidence should be handed over to them. UKTI takes such allegations very seriously and co-operates fully with the criminal justice system if asked to do so.

National Minimum Wage

Kelvin Hopkins: To ask the Secretary of State for Trade and Industry how many individual workers have benefited from the recent rise in the National Minimum Wage. [26140]

Mr. Sutcliffe: In October 2005, the national minimum wage for adults (workers aged 22 and over) increased to £5.05 per hour. For workers aged 18 to 21, the National Minimum Wage was increased to £4.25 per hour.

The DTI estimates that around 1.3 million people in the UK will be covered by the October 2005 uprating of the National Minimum Wage. The DTI has based this estimate on data from the Annual Survey of Hours and Earnings 2004.

Natural Gas

Andrew Rosindell: To ask the Secretary of State for Trade and Industry which companies are the five largest suppliers of natural gas in the UK. [25120]

Malcolm Wicks: Because the source of the available information is a statistical survey, the information requested cannot be given without the direct agreement of all the companies concerned.

Nuclear Power

Lynne Jones: To ask the Secretary of State for Trade and Industry what assessment he has made of the practicality of developing nuclear-based combined heat and power energy services in the North East. [24935]

Malcolm Wicks: The Department has undertaken no assessment of combined heat and power energy systems utilising nuclear generation.

Nuclear Reactors

Mr. Chaytor: To ask the Secretary of State for Trade and Industry, what assessment has been made of the increase in the mass of spent fuel over the current stockpile that would be created by a new programme of 10 AP-1000 nuclear reactors. [25596]

Malcolm Wicks: While the Department has undertaken no formal assessment, an industry assessment is included in papers on keeping the nuclear option open (KNOO) that were prepared for the DTIs Energy Advisory Panel and contributed to the work on the Energy White Paper:

KNOO Scoping Paper (EAP 11.06.02-P3)

KNOO Summary Paper (EAP 01.10.02-P3)

KNOO Miniprojects

These papers were placed in the Libraries of the House at the start for this year in response to a written parliamentary question from the hon. Member for Blaenau Gwent on 23 February 2005, *Official Report*, column 648w.

Nuclear Waste

Mr. Drew: To ask the Secretary of State for Trade and Industry what recent discussions he has had with the Canadian Nuclear Waste Management Organisation. [24398]

Malcolm Wicks: I have had no direct recent discussions with the Canadian Nuclear Waste Management Organisation (NWMO), however, officials of NWMO were invited to the UK recently by the House of Lords Science and Technology Committee and took the opportunity to visit during the week beginning 23 October.

During the visit they held talks with members of the Lords Committee, the independent Committee on Radioactive Waste Management (CoRWM), and met with relevant officials from Defra and the DTI.

Options for the long-term management of higher activity wastes in the UK are currently the subject of consideration and evaluation by CoRWM, who are due to make their final recommendations to the Government in 2006. The long-term management policy for these higher activity wastes will then be decided by the UK Government and the devolved administrations in the light of CoRWM's recommendations.

Renewable Energy

Mr. Betts: To ask the Secretary of State for Trade and Industry what estimate he has made of the capital grant funding required to deliver the Government's Energy White Paper commitment to a 10 year solar PV demonstration programme; and if he will make a statement. [21396]

Malcolm Wicks: Since 2002 the Government have committed £41 million to the Major PV Demonstration programme and PV field trials. A further £30 million over three years has just been announced for the Low Carbon Buildings Programme, which will support renewables technologies including solar PV. In addition, the Government are developing a mirocgeneration strategy to tackle those barriers hindering the development of a sustainable market for microgeneration products.

Norman Lamb: To ask the Secretary of State for Trade and Industry what the deadline is for grant applications to *(a)* stream two of his Department's Solar PV Major Demonstration programmes and *(b)* the community stream of his Department's Clear Skies programme. [21667]

Malcolm Wicks: The Solar PV Major Demonstration programme will hold a final call for applications under stream two in February 2006 and the community stream of the Clear Skies will hold a final call for applications on 4 November 2005.

Norman Lamb: To ask the Secretary of State for Trade and Industry what the deadline is for final householder applications for stream one of his Department's *(a)* Clear Skies and *(b)* Solar PV Demonstration programmes. [21668]

Malcolm Wicks: There is no set deadline for householder (stream one) applications under Clear Skies and the Solar PV Demonstration programmes. Grants will be offered up until March 2006 unless forecasting shows that funding will run out sooner, in which case a month's notice will be given.

Norman Lamb: To ask the Secretary of State for Trade and Industry how much time will elapse between the end of stream two funding allocations under the Solar PV Demonstration programme and the Clear Skies Capital Grant programme and the start of stream two allocations under the Low Carbon Buildings programme. [21669]

Malcolm Wicks: Plans to bring forward £1.5 million from the new £30 million budget for the Low Carbon Buildings programme should address concerns about a potential funding gap between the existing and new programmes.

Sir Paul Beresford: To ask the Secretary of State for Trade and Industry what assessment he has made of the effectiveness of *(a)* biomass, *(b)* tidal, *(c)* wind, *(d)* solar and *(e)* hydro-electric power in producing electricity; and what proportion of UK electricity production he expects each to contribute by 2010. [26119]

Malcolm Wicks: The Renewables Innovation Review was published in 2004 and considered which are the key renewable technologies for the delivery of the UK targets and aspirations for renewables, the UK's wider carbon reduction aspirations and for the creation of UK economic benefit. A copy of the review can be found on the DTI website at http://www.dti.gov.uk/renewables/renew_2.1.4.htm.

The Renewables Obligation is the Government's key mechanism for encouraging renewable generation. It is market based and does not prescribe the level of contribution from different renewable technologies. However, it is expected that wind will make the major contribution towards the Government's 2010 target of 10 per cent. renewables with a smaller contribution from other technologies.

Self-employed

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what statutory help is available to the self-employed in connection with *(a)* maternity (i) pay and (ii) leave and *(b)* paternity leave. [25950]

Mr. Sutcliffe: The self-employed have no employer, so it is not possible for any statutory scheme of leave to apply to them.

Maternity allowance (MA) is payable for 26 weeks to self-employed women who meet the qualifying conditions. Eligible women receive £106 per week, or 90 percent. of their average weekly earnings if that is less.

Solar Energy

Mr. Drew: To ask the Secretary of State for Trade and Industry what assessment he has made of the likely impact on business planning for solar photovoltaic of the changes in funding mechanisms operated by the Department. [24446]

Malcolm Wicks: Business planning in the solar PV industry will need to take account of the recent announcement of a £30 million budget over three years for the low carbon buildings programme together with plans to develop a microgeneration strategy to tackle barriers to a sustainable market for microgeneration products.

Telecommunications

Charles Hendry: To ask the Secretary of State for Trade and Industry (1) what assessment he has made of the reasons why the target set by the telecoms adjudicator for 250,000 lines in the local loop network to be unbundled by June was not met; and if he will make a statement on his assessment of the impact of the failure to meet that target upon the Government's digital strategy; [18501]

(2) what steps he is taking to ensure that the target set by the telecoms adjudicator for one million lines to be unbundled from the local loop network by June 2006 is met; and if he will make a statement. [18502]

Alun Michael: The telecommunications adjudicator scheme was initiated by Ofcom, the independent regulator of the communications sector to facilitate scale processes for the unbundling of local loops to meet market demand. Membership of this industry scheme is voluntary by BT Group plc and the LLU operators. Any targets set by the independent adjudicator are a matter for him on the basis of the best information then available.

The pace at which local loops are unbundled is a product of the regulatory framework set by Ofcom; the development of scale processes which is for BT, the industry and the adjudicator within that regulatory framework; and investment decisions by current and prospective LLU operators. I understand that lines are currently being unbundled at the rate of 4,000 a week; a rate that is expected by the adjudicator to rise substantially in the near term as existing broadband operators bulk migrate their customer base to LLU and as significant new operators invest in the market.

The digital strategy is multi-faceted, involving coordination of activities across Government to gain concerted action to deliver the benefits of a digitally enabled UK. Success will require effective partnership between private, public, community and voluntary interests utilising a range of delivery mechanisms, including the internet, mobile and broadcasting technologies. Progress toward implementation is being made across the digital strategy, for example by the DfES on transforming learning with ICT, the Home Office multi agency child internet safety centre and the publication on 1 November, of the strategy for transformational Government enabled by technology, which set out the vision for Government in the twenty-first century.

Uranium

Dr. Whitehead: To ask the Secretary of State for Trade and Industry from which countries uranium is supplied to UK nuclear power stations. [25484]

Malcolm Wicks: Currently the majority of uranium for the UK's civilian nuclear power reactors is sourced from Australia and Canada.

Dr. Whitehead: To ask the Secretary of State for Trade and Industry what estimate he has made of the remaining unmined supplies of uranium across the world; and how many years' supply of uranium for nuclear power stations this represents should power generation continue at present levels. [25485]

Malcolm Wicks: The Department of Trade and Industry has made no estimate of the global supply of uranium or of the number of years that uranium could be supplied.

The Organisation for Economic Co-operation and Development (OECD) Nuclear Energy Agency and the International Atomic Energy Agency has published a report examining uranium production. The report, "Uranium 2003: Resources, Production and Demand"(2004) edition can be viewed at the OECD Bookshop website under Statistics Publications:
http://www.oecdbookshop.org/oecd/index.asp?lang=en

Dr. Whitehead: To ask the Secretary of State for Trade and Industry what recent estimate he has made of the carbon dioxide emissions resulting from the *(a)* mining, *(b)* processing, *(c)* transportation and *(d)* utilisation of uranium used in the production of nuclear energy in the UK; and what that figure represents in terms of emissions per kilowatt hour of energy produced. [25506]

Malcolm Wicks: The Department has undertaken no assessment of the lifecycle carbon emissions of a nuclear fission plant.

World Trade Organisation

Anne Snelgrove: To ask the Secretary of State for Trade and Industry what his priorities are for the forthcoming World Trade Organisation meeting in Hong Kong. [25620]

Ian Pearson: Her Majesty's Government objective for the 6th World Trade Organisation Ministerial Conference in Hong Kong is to achieve a package that

(i) is pro-development, (ii) helps build a more competitive European economy and (iii) allows a conclusion to the current trade round—the Doha Development Agenda—by the end of 2006.

CULTURE, MEDIA AND SPORT

Amateur Sports Clubs

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what the average fee for a licence paid by amateur sports clubs is following the implementation of the Licensing Act 2003; and if she will make a statement. [23924]

James Purnell: The data is not available. However, we estimate that most amateur sports clubs will fall within fee bands A and B. As regards a premises licence or a club premises certificate, clubs falling within Band A (non domestic rateable value between £0 and £4,300) will pay a fee of £100 for any conversion, new application or variation, with an annual charge of £70 thereafter, while clubs falling within Band B (non domestic rateable value from £4,301 to £33,000) will pay a fee of £190 and an annual charge of £180.

BBC Licence Fee

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many complaints she has received regarding the BBC licence fee in each of the last 10 years. [25872]

James Purnell: The information requested is not recorded centrally.

Concessionary Television Licences

Shona McIsaac: To ask the Secretary of State for Culture, Media and Sport how many concessionary television licences for *(a)* over-75s and *(b)* blind people were issued in each constituency in the Yorkshire and Humber region in each of the past two years. [24753]

James Purnell: TV Licensing, who administer television licence fee concessions as agents for the BBC, are not able to provide geographical breakdowns of the number of concessionary licences issued. However, according to Department for Work and Pensions records, the number of households with at least one person aged 75 or over claiming the winter fuel payment in each constituency in the Yorkshire and Humber region in 2004–05 was

Constituency	*Households with a person aged 75 or over claiming the winter fuel payment, 2004–05*

Departmental Staff (Relocation)

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport how many people in her Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 following the Lyons Review; where they have been relocated; and if she will make a statement. [25078]

Mr. Lammy: DCMS's headcount has fallen by six since 1 April 2004. There have been no cost savings relating to IT projects. In 2004–05, DCMS's efficiency programme achieved savings totalling £28.5 million. Planned efficiency in 2005–06 total £152 million, against a programme target of £87 million. These savings have been made, or are expected to be made, in programmes across DCMS, the NDPBs it sponsors and local authority culture and leisure sectors.

Football Foundation

Mr. Iain Wright: To ask the Secretary of State for Culture, Media and Sport how much money from the

Football Foundation has been awarded in the Hartlepool constituency in each year since the organisation was founded. [25678]

Mr. Caborn: Funding broken down by constituency is not available, but the overall approved total of funds committed to the Hartlepool region since the Football Foundation's creation in 2000–01 is £2,961,587.

This figure includes funding for a range of capital projects, community and education initiatives, provision of football kit and stadia improvement projects.

Gambling Act

John Penrose: To ask the Secretary of State for Culture, Media and Sport on what date Part 3 of the Gambling Act 2005 will come into force. [25728]

Mr. Caborn: We plan to bring the Gambling Act 2005 fully into force with effect from September 2007, and we have no plans to bring any of the provisions of Part 3 into force before that date.

Gershon Review

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent employee reductions have been made as a result of the Gershon review; what *(a)* cost savings relating to IT projects and *(b)* total value of efficiency savings (i) were achieved in 2004–05 and (ii) are expected to be achieved in 2005–06; and if she will make a statement. [25079]

Mr. Lammy: The Department has no plans to relocate any people following the Lyons Review. However, in the non-departmental public bodies for which the Department is responsible, 12 posts in the Arts Council were relocated to Cambridge in 2004–05 and in 2005–06 there are plans to transfer 30 posts in the Big Lottery Fund to Newcastle.

Independent Sports Review

Mike Penning: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had on the Independent Sports Review; and if she will make a statement. [25944]

Mr. Caborn: I always welcome contributions and ideas regarding the way we fund and administer the delivery of sport. I therefore read the Independent Sports Review with interest and noted its recommendations. I have not held any recent discussions on the report.

IT Projects

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport how many IT projects which cost over £1 million and were introduced since 1997 are in use in her Department. [26591]

Mr. Lammy: We have had no IT projects which have cost over £1 million.

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport how many of the IT projects costing over £1 million in use in her Department and introduced since 1997 have been scrutinised by the Public Accounts Committee; and if she will list them. [26592]

Mr. Lammy: We have had no IT projects costing over £1 million scrutinised by the Public Accounts Committee.

National Lottery

Mr. Andrew Turner: To ask the Secretary of State for Culture, Media and Sport what definition she uses of additionality in relation to the operation of the national lottery. [26239]

Mr. Caborn: We continue to follow the principle set out in our July 2003 policy statement

"Lottery funding will not be allowed to become a substitute for funding that would normally fall to mainstream Government spending"

a basic principle which has been expressed in slightly different ways in the past by successive Governments. We do not, however, believe that a legal definition is appropriate.

Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether she has discussed with *(a)* the Football Association, *(b)* the Premier League and *(c)* the Football League plans to stage matches in the UK over the period of the Olympic Games in 2012; and if she will make a statement. [25049]

Mr. Caborn *[holding answer 7 November 2005]:* Neither my right hon. Friend, the Secretary of State, nor I have held any discussions with the football authorities about the staging of matches in the UK during the period of the Olympic Games in 2012. However, officials will be discussing this with the football authorities in due course.

The International Olympic Committee (IOC), as part of the Host City Contract, ask all host cities to take steps to ensure that no major event that could have an impact on the successful organisation and staging of the Games takes place in London or at other competition venues during the period of the Games. The Government and the London Organising Committee of the Olympic Games (LOCOG) will be working with the IOC, venue owners, local authorities and national governing bodies to ensure we take a common sense approach to the application of this particular requirement.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether she has discussed with the England and Wales Cricket Board the staging of international cricket matches in the UK over the Olympic period in 2012; and if she will make a statement. [25050]

Mr. Caborn *[holding answer 7 November 2005]:* Neither my right hon. Friend, the Secretary of State, nor I have held discussions with the England and Wales Cricket Board (ECB) about the staging of international cricket matches in the UK over the Olympic period. However, my officials met the ECB last week to discuss the issue.

The International Olympic Committee (IOC), as part of the Host City Contract, ask all host cities to take steps to ensure that no major event that could have an impact on the successful organisation and staging of the Games

takes place in London or at other competition venues during the period of the Games. The Government and the London Organising Committee of the Olympic Games (LOCOG) will be working with the IOC, venue owners, local authorities and national governing bodies to ensure we take a common sense approach to the application of this particular requirement.

Premier League

Mrs. May: To ask the Secretary of State for Culture, Media and Sport how much the Office of Communications has spent to date on its investigation into Premier League broadcasting rights. [25706]

James Purnell: Ofcom and the Office of Fair Trading, as the national competition authorities, have been advising the European Commission in relation to their investigation into the sale of Premier League broadcasting rights. The level of expenditure by Ofcom on this work is a matter for the Chief Executive, Stephen Carter, and officials have asked him to respond directly to the hon. Member. Copies of the letter will be placed in the Libraries of both Houses.

Super-casinos

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how many bids there have been for a super-casino; and which locations such bids relate to. [25876]

Mr. Caborn: My right hon. Friend the Secretary of State has established an independent casino advisory panel to assist her in the exercise of her order making powers under Section 175(4) of the Gambling Act 2005 to determine the geographical distribution of the new casino premises licences, including the licence for the one regional casino permitted by the Act.

The panel is beginning to develop the necessary criteria for examining the proposals and detailing the process by which proposals should be submitted. It is envisaged that the panel will ask for formal proposals to be submitted to it early in the New Year.

Television Licences

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how the non-payment of television licences is detected. [25889]

James Purnell: The BBC has responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the corporation. I have therefore asked the BBC's head of revenue management to consider the question raised by the hon. Member and to write to him direct. Copies of the reply will be placed in the Libraries of both Houses.

Ultra-local Television

Mr. Michael Foster: To ask the Secretary of State for Culture, Media and Sport if she will reframe the BBC's remit in local communities as a cautious and selective intervention in limited areas where it is clear that commercial models are not sustainable. [25343]

James Purnell: As stated in the Green Paper published in March 2005, the BBC needs to be vigilant about its potential to have a negative effect on commercial competitors. The Green Paper set out proposals for achieving this including that significant new activities should be subject to market impact assessments. Further detail will be set out in the forthcoming White Paper.

Under-aged Drinkers

Mr. Holloway: To ask the Secretary of State for Culture, Media and Sport what impact she expects the Licensing Act 2003 to have on alcohol abuse amongst under-aged drinkers in *(a)* England and *(b)* Gravesham. [24051]

James Purnell: When implemented on 24 November, the Licensing Act 2003 (the 2003 Act) will increase the penalties for selling alcohol to children. The maximum fine on conviction will be increased to £5,000 and there will be the ability to suspend or forfeit personal licences at first offence, rather than on second conviction, as is the case now. The Act also removes a range of exceptions which allow children to buy alcohol, for example in clubs, and on river and coastal 'booze cruises'.

The 2003 Act is only one element of the Government's approach to tackling alcohol abuse. For example, the Alcohol Harm Reduction Strategy is founded on improving education and heath intervention, and the Violent Crime Bill will introduce a new closure power where premises are found to have sold alcohol persistently to people under 18-years-old.

INTERNATIONAL DEVELOPMENT

0870 Numbers

Dr. Cable: To ask the Secretary of State for International Development if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24463]

Mr. Thomas: DFID has not operated any 0870 telephone numbers in the past five years, and therefore has not received any such revenue.

Africa

Andrew Rosindell: To ask the Secretary of State for International Development how the aid to Africa agreed at the G8 summit is being allocated between countries. [25210]

Hilary Benn: As agreed at the Gleneagles summit, the commitments of the G8 and other donors will lead to an increase in official development assistance to Africa of US$25 billion a year by 2010.

UK's assistance to Africa will increase to £1.25 billion per annum by 2008. These resources will be allocated to individual countries in line with DFID's resource allocation process. To help inform the decision, DFID uses a financial model to generate suggested allocations for bilateral

country programmes. This model takes account of both the extent of a country's poverty and the likely effectiveness of UK aid in reducing that poverty. Vulnerability to economic shocks and the amount of aid which countries are likely to receive from other donors are also taken into account, alongside a number of other factors. Country-by-country, these include the effectiveness of multilateral channels, conflict and reconstruction needs, inequality and social exclusion, our historical engagement and the political environment. In line with our new policy on conditionality, aid allocations are subject to developing country governments' commitment to poverty reduction, sound financial management, and human rights.

It is for other donors to decide how they will allocate their increased aid between African countries.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for International Development which individual is responsible for developing and implementing his Department's Skills Development Plan. [23841]

Mr. Thomas: DFID's Human Resources Director is responsible for developing and implementing the Department's Skills Development Plan.

Mr. Gibb: To ask the Secretary of State for International Development if he will place in the Library a copy of his Department's Skills Development Plan. [23866]

Mr. Thomas: I have arranged for the document entitled "DFID Skills Development Plans, 2005–2006" to be placed in the Libraries of the House.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Secretary of State for International Development what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23773]

Mr. Thomas: DFID does not collect data on the qualifications of its new recruits. The vast majority of our posts require qualifications above level 2. We verify qualifications before a new recruit takes up post. Even where we do not require qualifications at level 2 or above, our competence based recruitment, which may include literacy and numeracy tests as appropriate, provide an assurance on levels of skill.

Mr. Gibb: To ask the Secretary of State for International Development what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23792]

Mr. Thomas: I refer the member for Bognor Regis and Littlehampton to my response answer given the 27 October 2005, *Official Report*, column 511W.

Departmental Staff (Relocation)

Dr. Cable: To ask the Secretary of State for International Development how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 following the Lyons Review; where they have been relocated; and if he will make a statement. [25077]

Mr. Thomas: As a result of the Lyons Review, DFID agreed to relocate 85 posts from London to its office in Abercrombie House, East Kilbride. As at the end of September 2005, 74 posts have so far been relocated, of which five were relocated between January to March 2004, 40 were relocated during the financial year 2004–05, and 29 in the first six months of 2005–06. Another five moves are planned before the end of December 2005, and the target will be met by the end of 2005–06. All relocations are to East Kilbride.

Diplomatic Representation

Andrew George: To ask the Secretary of State for International Development what assessment he has made of the contribution to *(a)* development and *(b)* his Department's work of United Kingdom embassies and high commissions in developing countries. [24240]

Hilary Benn: The United Kingdom impacts on development through many of its policies, not just those relating to aid. DFID therefore works closely with other Government Departments on issues such as trade, agriculture, migration and security, to improve the development impact of UK policies. DFID works particularly closely with the Foreign and Commonwealth Office (FCO) because of its political role and presence in developing countries. We do this through several mechanisms at Whitehall and country level. For example, the global and Africa conflict prevention pools bring together the FCO, the Ministry of Defence (MOD) and DFID to improve the UK's response to countries affected by conflict. We post development experts into embassies, and in the case of Sudan, have set up a joint FCO-DFID unit. These mechanisms have helped to promote closer understanding and working between the Departments.

UK Government Departments make assessments of their own performance against their objectives (as expressed in their public service agreements (PSA) twice annually. These assessments are published in the departmental reports and autumn performance reports which are available in the Libraries of the House. Where Departments share public service agreement targets, these assessments of progress are made jointly. The FCO therefore makes its own assessment of progress against its PSA target on sustainable development, which is their target most closely related to international development. DFID, the FCO and the MOD make a joint assessment of progress against the shared conflict prevention target, and DFID, the FCO and the Department of Trade and Industry make a joint assessment of progress against the shared target on international trade. The next assessment will be provided in the autumn performance report 2005, which will be published in December.

Both DFID and the FCO closely monitor our working relationship and an action plan is in place to improve in collaborative working, both in the UK and overseas. We are reviewing how best to work with the FCO at country level. DFID country offices may be co-located with a British embassy or high commission, or may operate from stand-alone premises, depending on local circumstances. Whether co-located or not, there is close co-operation between the embassy/high

commission and the DFID country office. This includes the sharing of analysis of local political, economic and development issues, of mutual benefit to the work of both Departments. Efforts to monitor collaboration at country level forms part of our work on improving the impact of the overall UK policy on development.

Disasters Emergency Committee

Mr. Gordon Prentice: To ask the Secretary of State for International Development if he will encourage the Disasters Emergency Committee to extend the list of organisations to whom it offers free transport of relief materials to those areas in Kashmir, Pakistan and India that were affected by the recent earthquake. [24402]

Mr. Thomas: DFID is funding flights for the Disasters Emergency Committee (DEC) agencies so that the money they raise from their public appeal is spent on relief materials and programmes. So far we have funded 46 flights. We encourage the DEC to share available space on flights whenever possible.

Indian Ocean Tsunami

Andrew George: To ask the Secretary of State for International Development what targets were set to measure the impact of UK aid to countries affected by the Indian ocean tsunami. [24238]

Mr. Thomas: Each country affected by the Tsunami produced a detailed needs assessment in order to guide the relief and reconstruction effort. DFID's humanitarian relief and reconstruction work has been agreed in close consultation with country Governments in light of these assessments. A detailed independent review of our humanitarian response in Indonesia, Sri Lanka, and India has been completed. This confirmed that DFID projects were appropriate to the relief needs of the affected populations, and were effectively implemented in a way which maximised their impact. DFID will undertake similar assessments of our reconstruction work once the balance of funds available has been fully committed.

Individual agencies providing relief and reconstruction assistance are expected to have set their own targets, taking into account affected country Government's needs assessments. In line with the Charity Commission's Statement of Recommended Practice 2004, it is then expected that they report annually on progress and activities against their stated objectives.

Andrew George: To ask the Secretary of State for International Development what assessment he has made of the progress of *(a)* UK and *(b)* EU-funded reconstruction programmes in countries affected by the Indian Ocean tsunami. [24239]

Mr. Thomas: A detailed independent review of our humanitarian response in Indonesia, Sri Lanka, and India has been completed. This confirmed that DFID projects were appropriate to the relief needs of the affected populations, and were effectively implemented in a way which maximised their impact.

DFID has allocated £65 million to meet reconstruction needs in the tsunami affected countries. Of this, £41 million has been committed; the use of the balance will depend on evidence of where this funding can be most appropriately used. Assessment of the use of these funds will begin once they have been fully committed.

The Government of Sri Lanka, together with donors, is currently reviewing the impact of all tsunami recovery programmes. This review is expected to be completed by the end of November, and as well as detailing successes will also identify areas where increased effort is required.

The European Court Authorities are currently evaluating the humanitarian programmes of ECHO (Humanitarian Aid Department of the European Commission). However, their report is not yet available. No assessment has yet been made of EU funded reconstruction programmes as much of this work is still underway.

TB

John Barrett: To ask the Secretary of State for International Development what average percentage of funding allocated to direct budget support was attributed to the control and treatment of TB in the last year for which figures are available. [24454]

Mr. Thomas: DFID provides a significant part of its funding directly to Government budgets in support of their overall strategies for poverty reduction (Poverty Reduction Budget Support). DFID provided £339 million in 2003–04 and £423 million in 2004–05 in this way. Partner Governments may use some part of this funding directly for TB control activities, or for building up health services to diagnose and treat TB as well as other major causes of ill health. It is not currently possible to provide accurate estimates of the proportion of PRBS which is spent directly on TB control and treatment. This is because national Governments do not have financial accounting systems that trace the proportion of direct budget support spent on individual diseases.

DEFENCE

Armed Forces Pay

Mr. Willetts: To ask the Secretary of State for Defence what account is taken of differences between the value of pension provision of members of the armed forces and that of workers in comparable jobs in the private sector when settling the pay of members of the armed forces. [25065]

Mr. Touhig: The Armed Forces Pay Review Body, in their recommendations on the total remuneration package for the armed forces, make an adjustment to comparator earnings figures to take account of the higher relative value of the Armed Forces Pension Scheme benefits against that of the pension schemes of comparator organisations. The non-contributory nature of the scheme is one factor taken into account but a key factor is the early and fast accrual of benefits under the AFPS compared with those available in the civilian sector.

Core Sites Initiative

Mr. Ancram: To ask the Secretary of State for Defence when his Department's Core Sites Initiative will be concluded; if he will publish an interim report on progress on the Initiative; and if he will make a statement. [23317]

Mr. Touhig: The initial categorisation was completed in December 2002. Since then we have set in train some major packages of rationalisation and, as reported in the Stewardship Report on the Defence Estate 2004, we have used the baseline data collected during the Core Sites work to help inform our planning toward an estate of the right size and quality. We are working now on producing a rationalisation plan to cover the whole estate that, once initiated, will facilitate further consolidation of defence activity on to a smaller number of more densely utilised locations. Future operational needs, technological advances, and organisational change will be key factors in our planning for the future estate. Each rationalisation proposal that emerges will be subject to full consultation in the normal way.

WALES

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Wales whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23734]

Nick Ainger: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA). The current DCA plan is to sign up to the Carbon Management programme, but has no date fixed for joining the scheme.

Carbon Offset Scheme

Mark Williams: To ask the Secretary of State for Wales how much is due to be spent in *(a)* 2005–06 and *(b)* each of the next four financial years on the carbon offset scheme by his Department; and what estimate he has made of the number and distance of flights and related carbon dioxide emissions which are being offset in each case. [22391]

Nick Ainger: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA) and complies with its environmental policies. The DCA is considering adopting the Carbon Offset Scheme.

Sustainable Development

Mark Williams: To ask the Secretary of State for Wales when he plans to publish the next departmental sustainable development action plan. [22386]

Nick Ainger: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA) and operates within the DCA's action plan.

The DCA is developing a new action plan to be published this financial year via its website—www.dca.gov.uk

Mark Williams: To ask the Secretary of State for Wales what assessment has been made of progress towards implementation of each target set in the last departmental sustainable development action plan. [22387]

Nick Ainger: In June 2003 the Wales Office became a separate entity within the Department for Constitutional Affairs (DCA). It is covered by DCA action plans and reports. The DCA is developing a new action plan, based on targets laid out in the Framework for Sustainable Development on the Government Estate. The plan is to be published this financial year, via the DCA website—www.dca.gov.uk

Mark Williams: To ask the Secretary of State for Wales what percentage of *(a)* new building work and *(b)* refurbishment of buildings of (i) his Department and (ii) agencies of his Department, has been subject to environmental assessment using BREEAM and BREEAM98 since May 1997. [22388]

Nick Ainger: The Wales Office has had no major building refurbishment work, since it was established in July 1999.

Welsh Housing Quality Standard

Bill Wiggin: To ask the Secretary of State for Wales what discussions he has had with *(a)* the National Assembly for Wales and *(b)* the Chancellor of the Exchequer regarding the funding for enabling Welsh councils to reach the Welsh Housing Quality Standard by 2012. [22984]

Nick Ainger: The Welsh Assembly Government's long-term vision is that everyone in Wales shall have the opportunity to live in good quality homes. To achieve this, steps are needed to ensure that existing housing meets the Welsh Housing Quality Standard. Social landlords are expected to devise realistic programmes to bring their properties up to the standard by the end of 2012. The Assembly has an agreement with HM Treasury that enables housing authorities to pay off overhanging debt to the Public Works Loan Board, on transfer of stock to a registered social landlord.

Winter Deaths

Bill Wiggin: To ask the Secretary of State for Wales how many people aged over 65 years in Wales died in each year since 1997 as a result of the effects of the winter months; and if he will make a statement. [23039]

Nick Ainger: Estimates from the Office for National Statistics indicate that excess winter deaths of people aged 65 and over in Wales since 1997 have been as follows:

	Number
1997–98	1,200
1998–99	2,670
1999–2000	2,660
2000–01	1,470
2001–02	1,460
2002–03	1,340
2003–04	1,480
2004–05	1,800

Note:
Estimates up to 2003–04 to the nearest 10, for 2004–05 to the nearest 100

The Welsh Assembly Government has policies and actions to reduce the impact of cold winter weather on the health of older people. It funds the Home Energy Efficiency Scheme, which provides insulation and central heating in homes. The annual Keep Well This Winter campaign encourages older people to take extra measures to look after their health during the winter, such as having the flu vaccination, eating properly and taking appropriate exercise, by keeping warm and by keeping safe.

LEADER OF THE HOUSE

Sinn Fein Members (Allowances)

Mr. Gregory Campbell: To ask the Leader of the House what total amount of public money has been spent on additional cost allowance claims by Sinn Fein Members of the House of Commons since they became eligible to make such claims. [25479]

Mr. Hoon: Between 8 January 2002 and 31 March 2005, when Sinn Fein Members were eligible to claim allowances, the total of the additional cost allowance claimed by all Sinn Fein Members has been £211,041.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Advisory Committee on Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the membership is of the Advisory Committee on Pesticides. [25233]

Mr. Morley: The list of current members of the ACP is published on their website at http://www.pesticides.gov.uk/acp.asp?id=1506

Current members are:

Membership of The Advisory Committee on Pesticides: 1 January 2005

Chairman

Professor David Coggon is Professor of Occupational and Environmental Medicine at the Medical Research Council Environmental Epidemiology Unit, University of Southampton. He has been the Chairman of the Committee for five years.

Deputy Chairman

Professor Robert Smith is a Professor of Biology at the University of Leicester and has been a member of the Committee for five years and Deputy Chairman for two years.

Members

Dr. Nicholas Bateman is Director of the Scottish Poisons Information Bureau, Reader in Clinical Pharmacology and Consultant Physician in Edinburgh. He has been a member of the Committee for five years. Dr. John Cherrie is an Occupational Hygienist at the Institute of Occupational Medicine in Edinburgh and Honorary Reader at the University of Aberdeen. He has been a member of the Committee for two years.

Mr. James Clarke is Science and Business Development Manager of ADAS Sustainable Crop Management at ADAS. He has been a member of the Committee for two years.

Dr. Richard (Charlie) Clutterbuck is an Honorary Visiting Fellow in the Department of Health Management and Food Policy, City University London and has been a member of the Committee for two years.

Professor David Colman is Professor of Agricultural Economics in the School of Social Sciences at The University of Manchester, and is a new member to the Committee.

Dr. Clifford Elcombe is a Senior Lecturer, (toxicologist) at the Biomedical Research Centre, Dundee University and has been a member of the Committee for three years.

Dr. Ian Grieve is a Senior Lecturer and Head of the Department of Environment Science at the University of Stirling and has been a member of the Committee for four years.

Professor Gabrielle Hawksworth is a Professor of Molecular Toxicology at The University of Aberdeen, and is a new member to the Committee.

Dr. Charles Vyvyan Howard is a Senior Lecturer, (medical toxico-pathologist) in the Department of Human Anatomy and Cell Biology at the University of Liverpool and has been a member of the Committee for two years.

Ms Rosaline Howell is a Senior Lecturer in the Department of Environmental and Geographical Sciences at Manchester Metropolitan University and has been a member of the Committee for one year.

Dr. Alastair Leake is Head of The Game Conservancy Trust's Allerton Project in Loddington, Leicestershire and is a new member to the Committee.

Professor David Macdonald is Director of the Wildlife Conservation Research Unit at the University of Oxford and is A. D. White Professor at Cornell University. He has been a member of the Committee for two years.

Professor Lorraine Maltby is Professor of Environmental Biology at The University of Sheffield and has been a member of the Committee for two years.

Ms Diane McCrea is an independent consultant in food and consumer affairs and has been a member of the Committee for one year.

Dr. Patricia McElhatton is Director of the National Teratology Information Service in Newcastle upon Tyne and has been a member of the Committee for five years.

Dr. Martin McPherson is a Technical Director at Crop Protection Services, Stockbridge Technology Centre in Selby, and is a new member of the Committee.

Dr. Daniel Osborn is Science Director for the Sustainable Economies Programme of the Centre for Ecology and Hydrology and has been a member of the Committee for two years.

Dr. Vinod Tohani is a Consultant in Public Health Medicine/Consultant in Communicable Disease Control at the Southern Health Board in Armagh, Northern Ireland and has been a member of the Committee for three years.

Dr. Rosemary Waring is a Reader in human toxicology at the School of Biosciences at the University of Birmingham and has been a member of the Committee for two years.

Prof. Coggon has served as Chairman for two consecutive terms of office and will retire from this position on 31 December 2005

I have recently announced the appointment of Prof. Jon Ayres as Chairman of the committee with effect from 1 January 2006 for a term of three years. http://www.defra.gov.uk/news/2005/051021d.htm

Aircraft Pollution

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has undertaken into the polluting effects of chemtrails for aircraft. [24397]

Mr. Morley: The Department is not researching into chemtrails from aircraft as they are not scientifically recognised phenomena. However, condensation trails (contrails) are known to exist and have been documented since the 1940s. Contrails are composed of ice crystals forming on the small particles and water vapour emitted by aircraft as the result of the combustion process, they form behind high-flying aircraft depending on the temperature and humidity of the atmosphere.

A major scientific report, "Aviation and the Global Atmosphere", was published in 1999 by the Intergovernmental Panel on Climate Change. The report assessed the current contribution of aviation to climate change and, based on a range of scenarios and assumptions, forecast its contribution up to 2050. It estimated that contrails covered about 0.1 per cent. of the Earth's surface in 1992 and projected this cover would grow to 0.5 per cent. by 2050 (on middle range assumptions). More recently this work has been updated from the results of the EU 5th Framework Project, TRADEOFF.

Contrails continue to be the subject of research to help better understand both how they are formed and what effects they have on the atmosphere.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the length of time the avian influenza virus survives in soil. [24110]

Mr. Bradshaw: The survival of avian influenza viruses in the environment will be influenced by the strain of the virus, whether they are held in water or faeces, the host from which the faeces came, the physical properties of the faeces and the ambient temperature. The scientific literature gives a range, with different strains of virus from 12 to 36 hours at 37C for chicken faeces artificially infected with Low Pathogenic H7N2 to at least 105 days in wet faeces under field conditions with High Pathogenic H5N2.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many birds *(a)* entered and *(b)* died in quarantine in the UK in each year from 2000 to 2005. [24648]

Mr. Bradshaw: Figures from the EU wide computer system used to record imports of animals and their products, known as TRACES, show that from January 2004 to date 186,442 captive birds were imported into the UK.

From January 2000 to December 2004 our records show that 679,166 captive birds were imported into the European Union. We do not have figures for UK imports during this period as this figure was obtained from the previous EU computer system and a detailed breakdown of the figures is no longer available.

These figures are for captive birds, as no distinction can be made between captive bred birds and wild caught birds. The figures to not include poultry. However there are discrepancies between these figures and the figures reported by CITES. We are concerned about these discrepancies between these figures and are urgently investigating them to resolve the problem.

Records of bird deaths in quarantine are not held centrally. However any such deaths are required to be reported by the quarantine facility to their local veterinary inspector who arranges for post-mortem examination at an approved laboratory.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the arrangements are for ministerial responsibility for the State Veterinary Service across England and Wales in *(a)* normal circumstances and *(b)* the event of an outbreak of avian influenza. [24654]

Mr. Bradshaw: I have ministerial responsibility for the State Veterinary Service in both normal circumstances and during animal disease outbreaks.

My right hon. Friend the Secretary of State has overall responsibility for Defra and its agencies.

Details of how the Prime Minister, other Ministers and the Devolved Administrations are involved in the management of disease emergencies, can be found in Defra's "Exotic Animal Disease Generic Contingency Plan". The contingency plan is on Defra's website.

Charles Hendry: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken by her Department to ensure that bird farmers are adequately protected against risks of avian influenza; and what information is being disseminated by her Department to farmers regarding the current situation. [24958]

Mr. Bradshaw: Information for bird keepers regarding worker protection has been published on the Defra website (http://defraweb/animalh/diseases/notifiable/disease/ai/poultrykeepers.htm). This information includes biosecurity advice, recommendations regarding personal protective equipment and guidance on measures to take should an outbreak of avian influenza virus be suspected.

As a matter of course we have distributed guidance material to our partners in the industry who are helping to distribute this material to their members, who cover the great majority of bird keepers. We have also produced a simple one-page leaflet on biosecurity and surveillance for smaller concerns and hobby keepers. This was posted on our website and sent out to organisations representing the industry to send on to their members. It has also been mailed to 3,800 vet practices in Great Britain.

In addition we have placed adverts in trade and specialist press targeting the same audience to get biosecurity and surveillance messages across. All these pieces of guidance are available on the Defra website.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish new advice to poultry-keepers regarding measures that they can take to reduce the risk of spreading avian influenza. [25052]

Mr. Bradshaw: We have reviewed our biosecurity guidance for poultry keepers and published two leaflets during the last month, one aimed at commercial keepers and the other for smaller concerns and hobby keepers. We have also published advice on assessing risks.

We have distributed this guidance material to our partners in the industry who are helping to distribute to their members, who cover the great majority of bird keepers. In addition, the material has been mailed to 3,800 vet practices in Great Britain in order to reach the hobby keeper. We have also placed adverts in trade and specialist press to get biosecurity and surveillance messages across to this same group.

This information is available on the Defra website: http://defraweb/animalh/diseases/notifiable/disease/ai/poultrykeepers.htm).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the epidemiological significance of clades is in relation to the H5N1 virus of avian influenza. [25378]

Mr. Bradshaw: Between 15 and 20 clades of H5N1 avian influenza virus have been identified since typing work began. The H5N1 viruses which have caused disease in poultry and humans since 2004 lie within a distinct sub-grouping formed by two clades.

Biofuels

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Chancellor of the Exchequer about the level of tax on biofuels; and if she will make a statement. [23168]

Mr. Morley: The Department is in regular contact with Treasury Ministers to discuss a whole range of matters related to energy and environmental policy. In addition, my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs meets regularly with the Chancellor of the Exchequer on a wide range of matters that affect the business of the Department. As with all tax matters, decisions on duty incentives rest with the Chancellor of the Exchequer.

Bird Trade

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many wild birds were traded into the UK *(a)* in 2004 and *(b)* to date in 2005; and what checks have been made for avian influenza among these birds. [23812]

Mr. Bradshaw: Figures from the EU wide computer system used to record imports of animals and their products, known as TRACES, show that in 2004 67,480 captive birds were imported into the European Union. Of these 66,586 were imported into the UK.

In 2005, 120,639 captive birds were imported into the EU to date. Of these 119,856 were imported into the UK.

These figures are for captive birds, as no distinction can be made between captive bred birds and wild caught birds. The figures do not include poultry. However there are discrepancies between these figures and the figures reported by CITES. We are concerned about these discrepancies between these figures and are urgently investigating them to resolve the problem.

All imported captive birds must be held in quarantine for 30 days during which time a test must be carried out for the avian influenza virus.

Brazilian Meat

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what means of identification is available to segregate the two parts where consignments of beef from Brazil are a mixture of animals slaughtered before and after 30 September. [26074]

Mr. Bradshaw: The packaging of consignments has a traceability code which includes three elements: the approval number of the meat plant; the slaughter date; and an internal number. For example:

Code: 17510109050000 =

1751—Approval number of plant

01–1st

09—September

05—2005

0000—internal number

Border inspection posts can therefore determine from the traceability code on the boxes of meat, the date the animal was slaughtered.

Byway Claims

Mr. Laxton: To ask the Secretary of State for Environment, Food and Rural Affairs how many byway claims were made to *(a)* Wiltshire county council and *(b)* other county councils between 5 August and 11 October; and how many of these were attributable to the Trail Riders Federation in each case. [24420]

Jim Knight: The figures provided by county councils are as follows.

Highway authority	*Number of byway claims made between 5 August and 11 October*	*Number of these claims attributable to Trail Riders Fellowship*
Bedfordshire	0	—
Buckinghamshire	0	—
Cambridgeshire	0	—
Cheshire	0	—
Cornwall	0	—
Cumbria	2	2
Derbyshire	0	—
Devon	0	—
Dorset	24	19
Durham	0	—
East Sussex	0	—
Essex	0	—
Gloucestershire	2	0
Hampshire	0	—
Herefordshire	0	—
Hertfordshire	0	—
Kent	0	—
Lancashire	1	0
Leicestershire	0	—
Lincolnshire	5	4
Norfolk	0	—
Northamptonshire	0	—
Northumberland	0	—
North Yorkshire	1	0
Nottinghamshire	0	—
Oxfordshire	0	—
Rutland	0	—

Highway authority	Number of byway claims made between 5 August and 11 October	Number of these claims attributable to Trail Riders Fellowship
Shropshire	0	—
Somerset	0	—
Staffordshire	0	—
Suffolk	4	0
Surrey	0	—
Warwickshire	0	—
West Sussex	0	—
Wiltshire	12	3
Worcestershire	0	—

Departmental Estate

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* land and *(b)* property her Department owns in Kettering constituency. [24381]

Jim Knight *[holding answer 3 November 2005]:* The Department does not own any land or property in the Kettering constituency.

Energy Efficiency

Anne Snelgrove: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to build local markets for biomass wood fuel. [22684]

Mr. Morley: The Government support the use of woodfuel for the generation of heat, combined heat and power (CHP), and electricity. We are working closely with industry and others to develop markets and promote uptake. Householders and community organisations can apply for funding under DTI's £12.5 million Clear Skies Initiative to install renewable energy schemes, including wood-fuelled boiler systems. Defra's £60 million Community Energy programme provides capital grants to install new and refurbish old community heating networks, including renewable energy systems. DTI and the Big Lottery Fund's Bio-energy Capital Grants Scheme has allocated £66 million of funding to develop end-use markets for biomass, including woodfuel, in the heat, CHP and electricity generation sectors. Grants are also available from the regional development agencies. Co-firing of woodfuel with fossil fuels in conventional power stations is a developing end-use. Support to help develop the supply chain for woodfuel has been made available under the £3.5 million Bio-energy Infrastructure Scheme. The Community Renewables Initiative's local support teams are working to develop local woodfuel projects in their areas.

We recognise that there are issues that make it difficult to encourage the confidence needed for the development of woodfuel markets. The Biomass Task Force, led by Sir Ben Gill, was set up a year ago to identify the barriers to developing biomass energy, including woodfuel, and to recommend ways to overcome the problems. Their report was published on 25 October. The Government has committed itself to publishing a full response to the report within the next six months.

John Battle: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of current energy usage in the public sector the Government estimates can be saved through energy efficiency measures. [24971]

Mr. Morley: For analysis purposes, the public sector is usually treated as part of the wider commercial and public services sector. Estimates from experts vary, depending on assumptions made. In broad terms, it might be possible to achieve savings of around 30 per cent. if all technical measures were implemented, regardless of cost, across the sector as a whole. However, the potential for cost-effective measures by 2010 is around 10 per cent.. The same figures are assumed to apply to the public sector share.

Flooding

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances victims of flooding are eligible for compensation from her Department. [24932]

Mr. Morley: The approach adopted by successive governments has been that no compensation is generally payable to those affected by flooding. This reflects the fact that flood defence legislation is based on "permissive powers" i.e. that bodies such as the Environment Agency are empowered to undertake flood defence works but are not obligated to do so.

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what criteria the Department uses to decide whether a storm is of a one in 30-year storm for the purposes of establishing when compensation may be paid by a water undertaking following flood damage; [24512]

(2) what legislation governs compensation payments by water undertakings in the event of flooding. [24513]

Mr. Morley: The Guaranteed Standards Scheme (GSS) sets out the conditions under which customers of water and sewerage companies are entitled to compensation. It lays down statutory standards of service that must be met by companies for internal sewer flooding and is governed by the Water Industry Act 1991, under the Water Supply and Sewerage Services (Customer Service Standards) Regulations.

Most companies' compensation payments and assistance to customers go beyond the statutory requirements. If, however, sewer flooding has been caused by severe weather (e.g. widespread flooding) then a payment is not due.

GM Crops

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the recent European Court of Justice ruling on GM crops. [25230]

Mr. Morley: The recent European Court of Justice ruling turned down an application by Austria for a derogation from Directive 2001/18/EC to declare the region of Upper Austria a GM-free zone. The court's ruling was based on the fact that the Austrian Government failed to prove that the region of Upper Austria had a unique ecosystem which might justify a

specific local risk assessment. Under existing EU law, in order to declare a GM-free zone, that is a region where GM crops cannot be cultivated, a member state has to prove that there are special reasons to introduce national measures.

Under current EU law, as agreed by EU member states, the only legitimate grounds for narrowing the geographical scope of an approval to prevent cultivation in a defined zone are the production of clear evidence that the GM crop involved poses a particular risk to the specific area in question. In the Austrian case, the European Court of Justice found that Austria had not demonstrated the existence of any such risks to the region of Upper Austria.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's latest recommendation is on field separation distances between GM and non-GM crops. [25232]

Mr. Morley: The separation distances between GM and non-GM crops used in the Farm Scale Evaluations were based on information from the National Institute of Agricultural Botany (NIAB) in 2000. We have commissioned a further report from NIAB on separation distances to inform the proposals we are developing on the co-existence of GM and non-GM crops. We will issue a consultation paper on this in due course.

Greenhouse Gases

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the emissions of the Kyoto basket of gases will be between 2008 and 2012 if the trend in emissions of the last *(a)* five years, *(b)* four years, *(c)* three years, *(d)* two years and *(e)* one year continue; and whether the Kyoto target would be met under each projection. [25008]

Mr. Morley: The UK commitment under the Kyoto protocol is to reduce these emission by 12.5 per cent. below the base year level for the years of the commitment period (2008–12).

The following table shows projected UK greenhouse gas (GHG) emissions and percentage reductions during the commitment period obtained by assuming that the linear trend in emissions of the last *(a)* five years, *(b)* four years, *(c)* three years, *(d)* two years and *(e)* one year continue, based on the most recent published UK Greenhouse Gas Inventory data, which cover the period 1990 to 2003. The table indicates that the UK will exceed the reduction target in each projection except for case *(e)* where one year's difference in emissions is used to indicate the trend. Case *(e)* is the least robust projection as it is most susceptible to interannual variability due to fuel price relativities, external temperatures and other effects. On the basis of projections provided to the European Union in June, we expect to exceed the Kyoto commitment by about 8 percentage points, and the review of the UK Climate Change Programme currently is assessing the actions needed to put the UK back on course to meet our domestic target of achieving a 20 per cent. reduction in carbon dioxide emissions by 2010, which would further increase the safety margin.

Projections based on trend back	*Average UK GHG emission 2008–12 (MtC)*	*Reduction from Kyoto protocol base year emissions (percentage)*
(a) 5 years	163.5	-20.3
(b) 4 years	176.1	-14.2
(c) 3 years	176.5	-14.0
(d) 2 years	164.9	-19.6
(e) 1 year	190.9	-7.0

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of new recruits to her Department do not have a level 2 qualification in English and mathematics. [23777]

Jim Knight: This information is not available. This is because Defra introduced a competence based recruitment and selection system in October 2003. Competences are individual abilities or characteristics that are key to effectiveness in work and do not rely on educational qualifications. New recruits to Defra to grades below the senior civil service will have demonstrated the particular skills and behaviours at the level required for the vacancy for which they applied. For specialist posts such as scientists, lawyers, vets and statisticians, candidates are also asked to provide further detail of their technical knowledge (including qualifications) and expertise for the posts.

Mr. Gibb: To ask the Secretary of State for 0Environment, Food and Rural Affairs what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of her Department. [23787]

Jim Knight: Since October 2003 Defra has operated competence based recruitment and selection processes. Competences are individual abilities or characteristics that are key to effectiveness in work. The aim is to obtain precise and verifiable information about when candidates have displayed the particular behaviours at the level required for the vacancy. This is achieved generally through a structured competence based application form and assessment through interview and, where appropriate, assessment centre exercises.

Non-food Crops

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many non-food crops are grown in England; and what the percentage produced of each sort was *(a)* by value and *(b)* by volume in 2004–05. [22175]

Mr. Morley: In 2004, at least 11 crops were grown in England for non-food and energy use. The contribution of each of these in terms of production area and value is shown in the following table. Our best estimate of n on-food crop production area in 2004 is approximately 115,000 hectares, 40 per cent. of this area was represented by non-food crop production on set-aside land.

These figures do not necessarily give the whole picture: a number of crops can be used for either food or non-food uses; non-food crops may be grown on non set-aside land or not declared under any particular scheme; and part of the crop may be used as food while co-products are used as industrial raw materials or fuel.

Estimated areas of non-food crops grown in England, tonnage of seed or biomass produced (tonnes) and estimate of total value (tonnage x £/tonne) in the 2004 cropping season

Crop	Area (ha)	Area (percentage)	Tonnage (tonnes)	Estimated total value[1] (£)	Total value (percentage)
Oilseed Rape	66,468	57.5	[2,3]199,197	27 million	56.8
Linseed	32,000	27.7	[2,3]53,864	9.7 million	20.4
High Erucic Acid Oilseed rape	8,430	7.3	[2]39,047	7.4 million	15.6
Papaver Somniferum	1,978	1.7	[2]2,242	692,000	1.5
Hemp	1,539	1.3	[2]8,464	931,000	2.0
Flax	1,426	1.2	[2]2,139	53,000	0.1
Short Rotation Coppice	1,729	1.5	[3]13,832	553,000	1.2
Crambe	862	0.8	[2]758	136,000	0.3
Miscanthus	333	0.3	[3]2,660	90,000	0.2
Barley	456	0.4	[2]2,445	142,000	0.3
Wheat	288	0.3	[2]2,036	118,000	0.2
Essential Oil Crops	73	<0.1	[2]532	746,000	1.6
Total	115,260				

[1] Estimated values based on industry derived or estimated market values and tonnage data.
[2] Declared tonnages by first processor in Defra payment schemes.
[3] Estimated tonnages based on average yield—note that as oilseed rape and linseed are grown on both set-aside and main regime land, part of the tonnage is declared and part estimated. Much of the SRC and miscanthus would not have reached first harvest by 2004 and will therefore not have delivered the tonnage and value estimated.

Notes:
1. The data represents information collated through various Defra payment schemes. However, some crops for non-food use (eg essential oil crops) may be grown outside such schemes and out-with any arable support scheme, in addition some food crops may be diverted to non-food uses (eg wheat for starch). Accurate information on such crops and crop movements is not centrally collated. The data therefore represents an underestimate of the true non-food crop area and production statistics.
2. Data presented for Short Rotation Coppice and Miscanthus areas represents information collated under the Energy Crops Scheme on planting grant applications and applications under the Woodland Grant Scheme.
3. Data for non-food crops grown on set-aside and crops for energy grown on non-set-aside land in receipt of payments under the new Energy Aid Payment Scheme was derived from data collated by the Rural Payments Agency (RPA). 32,927 ha of rape were grown on main regime land in 2004 for biodiesel production—this is included in the figures for oilseed rape in the table.
4. Data for Linseed is derived from Defra Statistics for main regime land and the RPA for production on set-aside (999 ha).
5. Data for flax and hemp areas and production is derived from declarations under the UK Flax and Hemp Fibre Regime.

Nuclear Plants (Coastal Erosion)

Peter Law: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the impact of coastal erosion on *(a)* each coastally-sited nuclear plant, *(b)* Sellafield and *(c)* the low level radioactive disposal site at Drigg. [23555]

Mr. Morley: Operational responsibility for managing the risk from coastal erosion in England rests with maritime district councils who, in partnership with the Environment Agency and other bodies with coastal defence responsibilities, take an integrated and long-term view of managing coastlines through Shoreline Management Plans. These plans, in line with Government policy, consider the implications of coastal processes, including erosion. More detailed coastal strategies are then developed, taking into account economic, social and environmental matters. These detailed strategies consider the specific needs of key coastal installations, such as nuclear power stations, Sellafield and the Low-level Waste Repository (LLWR) at Drigg.

The safety of nuclear installations in the UK is regulated by the Health and Safety Executive (HSE) which requires operators to produce safety cases which address a range of internal and external hazards, including flooding. Safety cases are periodically reviewed and updated to reflect changing conditions.

HSE, the Environment Agency, maritime district councils and operators ensure, through consultation on the development of Shoreline Management Plans, that the plans do not compromise the needs of nuclear sites.

The impact of coastal erosion on the LLWR has also been considered as part of a Post-Closure Safety Case for the site, submitted to the Environment Agency by British Nuclear Group Sellafield Limited (BNGSL) in September 2002. BNGSL's assessment predicts that the LLWR could be destroyed by coastal erosion in 500 to 5,000 years if no action were taken to maintain the coastline.

The Environment Agency will shortly issue its decision on future regulation of the LLWR, and is proposing to require BNGSL to consider a number of options to reduce predicted impacts.

Poultry Numbers

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of poultry kept by individuals other than farmers; and what mechanisms are in place to enable advice to be made available to them. [20948]

Mr. Bradshaw *[holding answer 24 October 2005]:* The number of poultry keepers is unknown. However the Government have put in place legislation to set up a

register of poultry keepers and are proceeding to collect data from all those who keep 50 or more birds. The Government have used its website, information sent to all veterinary practices, information sent to stakeholder representative organisations to cascade to their members and advertisements placed in interest journals and media to distribute advice to all keepers including backyard keepers.

Recycling

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress she has made towards re-starting the collection and recycling of farm-use black plastic wrap; and if she will seek to legislate to introduce a statutory levy. [24407]

Mr. Bradshaw: In December 2004, the Government issued a consultation paper on the Waste Management (England and Wales) Regulations, which will apply waste management controls to agricultural waste. Included in this consultation paper was a chapter proposing that a Producer Responsibility scheme should be introduced, under which the producers of non-packaging farm plastics, such as silage wrap and crop covers, would be obligated to pay for their collection and recovery or disposal. The main question posed was whether such a system should be voluntary or mandatory.

I am now considering the way forward together with ministerial colleagues in light of the responses to the consultation.

Packaging plastics are already covered by the Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended). However, it is envisaged that any producer responsibility scheme that is introduced will be developed to enable the collection of both packaging and non-packaging waste plastics from farms.

I have recently awarded the Agricultural Waste Stakeholders Forum (AWSF) £1 million of Business Resource Efficiency and Waste (BREW) funding to establish a programme of work to investigate the challenges of collecting and recycling farm plastics, including how best to collect packaging and non-packaging plastics together, and to identify potential solutions to the problems associated with the collection of this waste stream.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of *(a)* paper and *(b)* other recyclable waste were recycled by the Department in 2004–05. [25461]

Jim Knight: During 2004–05, the most recent full year for which figures are available, Defra and its executive agencies recycled

(a) 668.83 tonnes of paper, and

(b) 274.27 tonnes of other recyclable waste.

Television Sets

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs on what date she plans to publish guidance for local authorities on the disposal of discarded television sets. [25006]

Mr. Bradshaw: The Waste Electrical and Electronic Equipment (WEEE) Directive aims to prevent WEEE arisings and to encourage reuse, recycling and recovery of WEEE. Article 6(1) and annex II of the directive introduce requirements for the treatment of collected items of WEEE to remove certain substances, preparations and components to avoid the dispersion of pollutants into the recycled material or waste stream. We intend to publish guidance on compliance with these requirements by those treating WEEE when regulations are made to transpose this provision.

If local authorities register their civic amenity sites as designated collection facilities, producers will be responsible for the costs of treatment and recycling of separately collected WEEE, including televisions, from June 2006.

In order to obtain better information on the potential hazardous nature of WEEE, Defra have commissioned a project to identify hazardous components in specified items of household WEEE. This project will assist Defra in drawing up guidance for local authorities, recyclers, treatment facilities and other interested parties to enable the identification of hazardous WEEE. Defra aim to publish guidance in spring 2006.

The Environment Agency has published frequently asked questions (FAQs) on hazardous waste issues and guidance on the management of specific waste streams including cathode ray tubes, commonly found in televisions. This information is available on the Environment Agency's website at: www.environment-agency.gov.uk and the FAQs are also available on the Defra website www.defra.gov.uk/environment/waste/special/index.htm.

Warm Front Scheme

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how many residents in the Hemel Hempstead constituency were *(a)* eligible for and *(b)* received grants under the warm front scheme in each of the last five years. [25812]

Mr. Morley: Information on the exact number of residents in Hemel Hempstead eligible for warm front is not available. However, on the basis of the statistical modelling used by the warm front scheme manager it is estimated that around 5,250 households in Hemel Hempstead could currently be eligible for assistance from the scheme.

Between the launch of the warm front scheme in June 2000 and the end of March 2005, the numbers of households assisted in each year in Hemel Hempstead constituency are as follows:

	Number of households assisted
2000–01	42
2001–02	131
2002–03	124
2003–04	37
2004–05	150
Total	484

HOUSE OF COMMONS COMMISSION

Energy Consumption (Parliamentary Estate)

Norman Lamb: To ask the hon. Member for North Devon, representing the House of Commons Commission how much energy has been consumed by the Parliamentary Estate in each of the last five years; and how much was spent on energy in each year. [26149]

Nick Harvey: The information is as follows:

(a) The total energy consumption of the Parliamentary Estate in each of the last five years is as follows:

	kWh
2000–01	53,500,000
2001–02	54,400,000
2002–03	56,400,000
2003–04	58,500,000
2004–05	60,300,000

(b) Cash expenditure on energy in each of the last five years is as follows:

	£000
2000–01	1,180
2001–02	1,460
2002–03	1,520
2003–04	1,490
2004–05	1,890

The figures do not include energy used in 7 Millbank which is paid through a service charge, and show cash spent without any accruals.

Fairtrade Products

Mr. Pelling: To ask the hon. Member for North Devon, representing the House of Commons Commission how many Fairtrade products are *(a)* used and *(b)* for sale in the House; and what plans there are to increase this number. [26229]

Nick Harvey: A total of eight products approved by the Fairtrade Foundation are sold in the House of Commons restaurants on a permanent basis, and another 10 are available from time to time. Of these, coffee, tea and bananas are used throughout the Refreshment Department, although the last named are not always available. The Department is considering changing to the use of Fairtrade approved sugar. Other products are introduced for sale in response to consumer demand or as a result of becoming aware of new products available on the market.

Flowers (Expenditure)

David Taylor: To ask the hon. Member for North Devon, representing the House of Commons Commission what the House's expenditure on flowers was in each of the last five years for which figures are available. [24495]

Nick Harvey: Expenditure on flowers in the catering outlets was:

	£
2000–01	7,497
2001–02	8,378
2002–03	8,081
2003–04	9,457
2004–05	11,513

Flowers are also displayed elsewhere in the House and used at functions. These had a net cost of £8,196 in 2004–05, giving total expenditure of £19,709 in that year. The financial systems do not in every respect separately identify the cost of flowers, so that identifying total expenditure figures for earlier years would involve disproportionate cost.

TREASURY

Civil Service Relocation

Dr. Gibson: To ask the Chancellor of the Exchequer what discussions he has had with local councils in Norwich on plans to relocate civil servants there; and how many jobs are involved. [25918]

Mr. Des Browne: As I stated in my answer on 1 November, 11 HM Treasury Group posts are planned to relocate to Norwich. Neither the Chancellor nor myself, as the Minister responsible for the relocation programme, have held discussions with local councils in Norwich on plans to relocate civil servants there. However, officials from the Office of Government Commerce, which is overseeing the implementation of the relocation programme, have attended relocation events hosted by Norwich City Council.

Expenditure/Revenue (Scotland)

Stewart Hosie: To ask the Chancellor of the Exchequer pursuant to the answer of 12 July 2005, *Official Report*, column 889W, on expenditure and revenue in Scotland, what further information his Department would need to collect to produce a breakdown of aggregate *(a)* revenue and *(b)* borrowing by country and region. [24763]

Mr. Des Browne: Estimates of expenditure and revenue in Scotland are published by the Scottish Executive in "Government Expenditure and Revenue in Scotland". The Treasury does not produce a breakdown of aggregate revenue and borrowing by country and region. The Scottish Executive's publication explains the methodological basis of the Scottish Executive

research; that a wide range of indicators and assumptions were used; that regional budgetary accounts remain relatively undeveloped; and that there is no requirement for the compilation of UK regional budgetary accounts.

Forms (Duplication of Information)

Charles Hendry: To ask the Chancellor of the Exchequer if he will make changes to forms *(a)* V064, *(b)* V06003 and *(c)* V07012 in order to reduce duplication of required information; and what assessment he has made of the efficiency of these forms in their current format. [24957]

Mr. Ivan Lewis: The Valuation Office Agency keeps all its forms under review to take account of changes in the legislation and taxpayers' suggestions. The three forms concerned are thought to be fit for purpose.

Golden Rule

Mr. Hollobone: To ask the Chancellor of the Exchequer if he will introduce an independent monitoring system for the Golden Rule. [25952]

Mr. Des Browne: Progress against the golden rule is measured by the average annual surplus on the current budget as a percentage of GDP since the cycle began. The independent Office for National Statistics produces the public finance and national accounts statistics on which this measurement is based. These statistics are subject to the same safeguards and quality control procedures that apply to all statistics produced within the National Statistics framework. The Chancellor confirmed to the Treasury Committee on 19 July, the Comptroller and Auditor General has been invited to audit the end date of the previous economic cycle and give us his view as to whether the judgment is reasonable and cautious.

Budget 2005 projections show that the Government will meet the golden rule in the current economic cycle. These projections will be updated in the forthcoming pre-Budget report.

Hemel Hempstead

Mike Penning: To ask the Chancellor of the Exchequer what estimate he has made of the average outstanding balance on mortgages for homes in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire; what the average month's interest payable on each of those balances would be at current interest rates; and what the average month's interest payable on each balance would have been (i) in May 1997 and (ii) immediately after the pound left the exchange rate mechanism in 1992. [26350]

Mr. Ivan Lewis: Data on mortgage balances outstanding is only available at a national level.

Pensions

Mr. Newmark: To ask the Chancellor of the Exchequer what the total amount is of unfunded pension liabilities from former nationalised industries. [26221]

Mr. Des Browne: Former nationalised industries did not generally participate in unfunded public service schemes, they usually used funded schemes. A small number of employees are believed to have been provided with unfunded pensions by their nationalised industry employer. Some industry employees became members of unfunded public service pension schemes at privatisation. Such pensions' liabilities as remain in the public sector cannot be separately identified (or could not be without disproportionate cost).

Mr. Willetts: To ask the Chancellor of the Exchequer (1) pursuant to the announcement on public sector pensions of 18 October, at what rate he assumed current members of public sector pension schemes would be replaced by new employees in each decade for the purposes of estimating the revised cost of public sector pensions; [24877]

(2) what the evidential basis was for the estimate of *(a)* gross savings on the cost of public sector pensions of £26 billion and *(b)* net savings of £13 billion over the next 50 years announced by officials on 19 October. [24878]

Mr. Des Browne: The figures were calculated by scheme actuaries on the basis of the data and assumptions they use for each scheme. The following table indicates the staff turnover assumed across the pension schemes for teachers, the NHS and civil servants that were the subject of the agreement at the Public Services Forum on 18 October:

Estimated proportion of the combined pensionable payroll relating to scheme members who join after April 2006

	Percentage
2006	0
2013	33
2018	50
2023	64
2028	77
2033	86
2038	93
2043	97

Railtrack

Mr. George Osborne: To ask the Chancellor of the Exchequer what the 10 conditions necessary for him to support the decision to transform Railtrack into a non-equity company limited by guarantee were. [16018]

Mr. Des Browne: Following the judgment in the Railtrack Private Shareholders' Action Group trial the Department for Transport has made available for public inspection a full set of the documents contained in the trial bundles. The trial bundles were compiled by the legal advisors to the Department and the claimants. Documents containing the conditions are included in the bundles.

Self-employment

Mr. Hollobone: To ask the Chancellor of the Exchequer what estimate he has made of the number of self-employed *(a)* women and *(b)* men in the UK; and how many are aged 16 to 45 years. [25949]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. Philip Hollobone, dated 8 November 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about the total number of self-employed people and those aged 16 to 45 years. (25949)

The attached table provides available information showing the numbers of self-employed people aged 16 and over and those aged 16 to 45 by gender. The table covers the three month period ending in August 2005.

These estimates from the Labour Force Survey are, as with any sample survey, subject to sampling variability.

Self-employed [1] people in the United Kingdom by age and gender not seasonally adjusted

Thousand

Three months ending August 2005	All persons	Men	Women
All aged 16 and over	3,569	2,596	973
of whom aged 16–45	1,810	1,304	506

[1] Self-employed is based on the respondents self classification.

Source:
ONS Labour Force Survey

Stamp Duty

Mr. Hollobone: To ask the Chancellor of the Exchequer how much stamp duty from the purchase of residential property was collected from *(a)* Kettering constituency, *(b)* Northamptonshire and *(c)* England in each year since 1997. [25948]

Mr. Ivan Lewis: Estimates of stamp duty from purchases of residential property in England between 1997–98 and 2004–05 are given at http://www.hmrc.gov.uk/stats/stamp_duty/table15_2_october04.pdf. Information is not available at the parliamentary constituency or county level for these years.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer how many and what value of hardship payments were made to tax credit claimants suffering hardship where an overpayment had occurred in *(a)* 2003–04, *(b)* 2004–05 and *(c)* each month of 2005–06. [18255]

Dawn Primarolo *[holding answer 14 October 2005]:* For 2003–04 and 2004–05, I refer my right hon. Friend to the answer I gave him on 21 July 2005, *Official Report*, column 2035W.

For 2005–06, it is no longer necessary for HM Revenue and Customs to issue manual payments in cases of hardship. Instead, a new process allows for an adjustment on the tax credits system to reduce the rate of recovery of an overpayment in-year.

Information on the number of payments adjusted in this way is not currently available.

Mr. Laws: To ask the Chancellor of the Exchequer whether it is his policy automatically to write-off tax credit overpayments of £380 or less; and if he will make a statement. [19287]

Dawn Primarolo: HMRC's approach to handling overpayments is set out in its Code of Practice 26: "What happens if we have paid you too much tax credit?" published on the HMRC website at www.hmrc.gov.uk/leaflets/credit.htm

Mr. Frank Field: To ask the Chancellor of the Exchequer how many tax credit claimants have been waiting *(a)* one month, *(b)* two months, *(c)* three months, *(d)* four months, *(e)* five months, *(f)* six months, *(g)* one year and *(h)* two years for backdated tax credit payments to be made. [19409]

Dawn Primarolo: This information is not available.

Mr. Frank Field: To ask the Chancellor of the Exchequer for what reasons the IT system used by Revenue and Customs staff when dealing with hon. Members' queries through the MPs Tax Credit Hotline was unavailable on Friday 14 October. [19415]

Dawn Primarolo *[holding answer 20 October 2005]:* There was an isolated fault at the local telephone exchange which affected a number of workstations within the Tax Credit Office including the MP Hotline. Other areas of the Tax Credit Office were functioning normally.

Mr. Laws: To ask the Chancellor of the Exchequer whether the IT contract for the new tax credits has been agreed on a fixed negotiated price basis. [19722]

Dawn Primarolo: The tax credits IT system is delivered through an overarching IT services contract, known as Aspire. Within the terms of this contact there is a fixed price for maintaining live operational services.

Mr. Frank Field: To ask the Chancellor of the Exchequer pursuant to the answer of 18 October 2005, *Official Report*, column 948W, on tax credits, if he will place in the Library a copy of the Customer Service Manual and Customer Contact Clarity of Writing: 2005–06 Guide. [21173]

Dawn Primarolo: The Department's Customer Service Manual is being reviewed. It sets out the customer service policy and good practice for face to face service staff. It will be replaced in due course by content on the Department's Face to Face service site. As some of the content has already been superceded by the Clarity of Writing or other guidance, the manual is not available as a single document.

The Clarity of Writing guidance has been placed in the Library.

Greg Clark: To ask the Chancellor of the Exchequer how much in overpaid tax credits has been remitted in full and then held by the Tax Credits Office for offsetting in each of the last three years; and what the running total is for the 2005–06 financial year. [21401]

Dawn Primarolo: This information is not available.

However, where HM Revenue and Customs agree to remit an overpayment of tax credits, amounts already recovered will be used to clear any known overpayment due for recovery. Any net underpayment will then be paid to the claimant.

Mr. Laws: To ask the Chancellor of the Exchequer how many overpayments remain outstanding from 2003–04; and to what total value. [25246]

Dawn Primarolo: Information about the total value of overpayments from 2003–04 that remain outstanding as at 5 April 2005 can be derived from the "Comptroller and Auditor General's Standard Report on the Accounts of the Inland Revenue 2004–05" This can be found at: http://www.hmrc.gov.uk/about/ir-report2005.pdf.

Mr. Mudie: To ask the Chancellor of the Exchequer how many of the Parliamentary Ombudsman's recommendations in Tax Credits: Putting Things Right have been accepted; from what date they have operated; and how many *(a)* have been refused and *(b)* are under consideration. [19137]

Mr. Laws: To ask the Chancellor of the Exchequer which of the recommendations made by the Parliamentary Ombudsman in her report of June 2005 on Tax Credits: Putting Things Right have been *(a)* accepted and *(b)* implemented; and if he will make a statement. [19300]

Dawn Primarolo *[holding answer 18 October 2005]:* The Government's response to the Ombudsman's recommendations was set out in the Paymaster General's letter to her of 29 July (a copy of which is available on the Ombudsman's website). The Department has already acted on a number of those recommendations, including:

Improved guidance and training for contact centre staff about interim payments and the availability of help in cases of hardship;

Improvements in the tax credits award notice to help understanding of the reasons why overpayments may arise;

Planned improvements in the presentation of information accompanying award notices to draw attention to hardship provisions.

Other improvements are under consideration in the review of Code of Practice 26.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many tax credit overpayments were caused in 2003–04 when an error resulted in a child or children no longer being shown on the award notice. [19406]

Dawn Primarolo: Where a child or children are removed from a claim, whether or not as a result of an error, the effect would be to reduce payments and not generate an overpayment. It is therefore not possible to provide the information requested.

HOME DEPARTMENT

Accession State Worker Registration Scheme

Mr. Steen: To ask the Secretary of State for the Home Department what the average length of time taken to process applications for a registration certificate under the Accession State Worker Registration Scheme was in the last period for which figures are available. [21459]

Mr. McNulty *[holding answer 26 October 2005]:* For the period 1 April 2005 to 30 September 2005 the average number of days taken to process applications for a registration certificate under the Accession State Worker Registration Scheme is 13 days.

Asylum/Immigration

John Bercow: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness to date of the Dublin II Regulation of 2003 in reducing *(a)* asylum shopping and *(b)* the problem of refugees in orbit. [20269]

Mr. McNulty: The European Commission has recently launched a comprehensive evaluation process to cover all aspects of the Dublin arrangements, including the operation of the secure electronic communications network for Dublin II requests ("DubliNet") and the supporting Eurodac fingerprint database. The resulting report, expected in 2006, will analyse the impact of the Dublin arrangements to draw conclusions on the added value of Dublin II and the Eurodac Regulation EC No. 2725/2000.

The second Annual Report to the Council and the European Parliament on the activities of the Eurodac Central Unit concluded that Eurodac represents an extremely important tool for a faster and more efficient application of the Dublin arrangements. The report also notes that Eurodac data provide a sound indicator of the phenomenon of "asylum shopping" in member states. Copies of the report can be found in the Libraries. The Home Office's assessment of the report is set out in Explanatory Memorandum 10464/05 sent to the Parliamentary Scrutiny Committees on 14 September 2005.

Our own assessment of the new Dublin arrangements, supported by Eurodac is favourable. Dublin II and Eurodac enabled us to return 1,982 applicants in 2004 to other European countries without considering their claims ourselves. This is far more effective than the gentleman's agreement which applied until 1997, under which fewer people were removed in a year than the Dublin arrangements have enabled us to remove in a month. While it is not possible to prove to what extent asylum shopping that would otherwise have happened is not happening as a result of the new arrangements, asylum intake across the EU15 has fallen by 21 per cent. between 2003 and 2004 (source IRSS).

On the question of refugees in orbit, the Dublin II Regulation is based on a mechanism to identify the member state responsible for determining an asylum claim and provides guarantees that identified state will take charge of or take back an asylum seeker within prescribed time limits. In addition, unlike the old Dublin Convention, the regulation reflects the agreement that member states fully accept to take responsibility for an asylum applicant where a procedural time limit is breached. This ensures that asylum applicants do not face prolonged periods of uncertainty.

John Bercow: To ask the Secretary of State for the Home Department what assessment he has made of how the UK compares with other EU member states in terms of reception conditions for asylum seekers. [20270]

Mr. McNulty: The Home Office commissioned research to compare the reception and accommodation policies for asylum seekers in the Netherlands, Denmark, Sweden and Germany in 2002–03. A summary of the report is due to be published as an online research findings publication in due course.

The European Migration Network is currently in the process of producing a synthesis report of the reception systems that are in place for asylum seekers in the participating EU member states. The UK has provided information to inform this report which is due to be published early in 2006 by the European Commission.

An EU directive laying down minimum standards for the reception of asylum seekers entered into force on 5 February 2005; all EU member states were required to bring their law and practice into line with the directive by this date. The European Commission is due to evaluate the implementation of this measure by 2007.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress in negotiations on the draft EU asylum procedures directive. [20271]

Mr. McNulty: In April 2004, the Justice and Home Affairs Council reached a general approach on the draft asylum procedures directive. In November 2004, the text was remitted to the European Parliament for re-consultation.

The European Parliament delivered a further opinion on the draft directive in September 2005. The Council has now begun its consideration of the Parliament's report. Once this is complete, the Council will move towards final adoption of the directive.

Mr. Clegg: To ask the Secretary of State for the Home Department what criteria were used in making the decision to maintain a non-cash or voucher system for providing support to asylum seekers who make section 4 declarations. [20443]

Mr. McNulty: Support under section four is provided on a temporary basis to those who are in the process of leaving the country. It was always intended that support would take the form of accommodation and food and that there would be no access to cash. That is the position as set out in the legislation as approved by Parliament.

Lynne Jones: To ask the Secretary of State for the Home Department how many failed asylum seekers are in receipt of National Asylum Support Services section 4 support, broken down by *(a)* regional location, *(b)* accommodation provider and *(c)* type of accommodation and subsistence support provided. [20492]

Mr. McNulty: National Asylum Support Services (NASS) management information confirms that on 24 October there were 7,355 people (excluding dependants) in receipt of section four support.

A table showing the regional breakdown of those supported has been placed in the Library together with a list of accommodation providers who are providing section 4 accommodation to NASS. In the majority of cases support provided consists of accommodation and £35 per week in vouchers for each supported person to enable the purchase of food and other essential items. It is not possible, owing to the need to check individual records, to put a figure on the small number supported through full-board accommodation.

List of accommodation providers providing section 4 accommodation to NASS

Provider
Accommodata Ltd.
Angel Group
Capital
Caradon Estates Ltd.
Clearsprings
Gateshead Council
M&Q
RCA Sheffield
Safehaven
YMCA—Glasgow
YMCA—London
YMCA—Cornwall
YMCA—Liverpool
YMCA—Welwyn Garden City
YMCA—West London

Regional breakdown of numbers supported under section 4 as at 24 October 2005

Region	[1]*Number supported*
East Midlands	585
East of England	45
London	635
North East	475
North West	1,140
Scotland	185
South East	100
South West	255
Wales	300
West Midlands	1,745
Yorkshire and Humberside	1,900
Total	7,355

[1] all figures are provisional and have been rounded to the nearest 5. As such they may not sum due to rounding.

Lynne Jones: To ask the Secretary of State for the Home Department how many applications for section 4 support were made to the National Asylum Support Service in each month since 1 January; and what the outcome was in each case. [20493]

Mr. McNulty: The monthly breakdown of decisions made this year is set out in the table. A further 404 applications made in September and October still await a decision.

Section 4 of the Immigration and Asylum Act 1999: Record of decisions made in 2005

Month	*Granted*	*Refused*
January	2,663	289
February	2,542	636
March	1,008	582
April	803	275
May	660	304
June	766	365
July	782	303
August	352	277
September	244	84
Total	9,620	3,115

Lynne Jones: To ask the Secretary of State for the Home Department what the average time taken by the National Asylum Support Service to determine an application for section 4 support was in the last period

for which figures are available; what the target time is for determining such applications; and what the current performance against this target is. [20494]

Mr. McNulty: The National Asylum Support Service's (NASS) target for deciding applications for support under section 4 is five working days which has routinely been met in the past year. However, a very significant increase in applications meant that NASS could no longer meet this target in all cases.

Increased recruitment and training of staff has improved performance. NASS expects to routinely be meeting the five days target by the end of this calendar year. In the meantime, special arrangements have been made with the voluntary sector (who represent the great majority of section 4 applicants) to prioritise the very urgent cases. These cases, which typically comprise about 20 per cent. of the weekly intake, are being decided on the same day they are received or the day after.

Lynne Jones: To ask the Secretary of State for the Home Department what measures have been put in place by each of the National Asylum Support Service section 4 accommodation providers to ensure that mothers with babies in receipt of section 4 vouchers exchangeable for food and drink are able to *(a)* obtain nappies and other essentials and *(b)* wash baby clothing. [20496]

Mr. McNulty: Vouchers can generally be used to buy nappies and other toiletries at both supermarkets and other retail outlets. Where this is not the case the National Asylum Support Service works with its accommodation providers to supply the items direct to the supported person. The National Asylum Support Service requires that appropriate facilities to wash clothes must be provided in all properties used to house those supported under section 4.

Norman Baker: To ask the Secretary of State for the Home Department how many asylum seekers have been convicted and imprisoned for not possessing, without reasonable excuse, a valid document showing their identity and nationality when first interviewed by an immigration officer after arriving in the UK under section 2 of the Asylum and Immigration (Treatment of Claimants, etc) Act 2004 since the Act came into force; how many asylum seekers have been convicted of attempting to leave the country with invalid documents in the same period; and how many in each category have been held in HMP Lewes in the corresponding period. [21876]

Mr. McNulty: According to locally collated management information, which may be subject to change, there have been 350 convictions under section 2 of the Asylum and Immigration (Treatment of Claimants, etc) Act 2004 since it came into force on 22 September 2004 until 20 October 2005.

Statistics on asylum seekers convicted of attempting to leave the UK with invalid documents could be obtained only at disproportionate cost.

Statistics on how many persons convicted in each category have been detained at HMP Lewes could be obtained only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for the Home Department what the average length of time was that a failed asylum seeker was held in a detention centre prior to deportation or removal from the UK in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05; what the average length of time has been since April; and if he will make a statement. [21883]

Mr. McNulty: Information on the average length of time that a failed asylum seeker was held in a detention centre prior to deportation or removal from the UK is not available. It would only be available by examination of individual case files at disproportionate cost.

Quarterly snapshots are published showing the number of people detained solely under Immigration Act powers on the last Saturday of each quarter and these can be broken down by length of detention. This information may be found in the Quarterly Asylum statistics publications on the Home Office Research Development and Statistics website at: www.homeoffice.gov.uk/rds/immigration1.html

Jenny Willott: To ask the Secretary of State for the Home Department what the average number of times was that a failed asylum-seeker was transferred between detention centres in the UK prior to removal or deportation from the UK in the last period for which figures are available; and if he will make a statement. [21919]

Mr. McNulty: The information is not available in the form requested.

Jenny Willott: To ask the Secretary of State for the Home Department how much the Department spent on transferring failed asylum seekers between detention centres in the UK in *(a)* 2004–05, *(b)* 2003–04 and *(c)* 2002–03; how much it has spent since April; and if he will make a statement. [21920]

Mr. McNulty: The information is not available in the form requested

Lynne Featherstone: To ask the Secretary of State for the Home Department what the cost of asylum support was at *(a)* 1 January, *(b)* 1 February, *(c)* 1 March, *(d)* 1 April, *(e)* 1 May, *(f)* 1 June, *(g)* 1 July, *(h)* 1 August, *(i)* 1 September and *(j)* 1 October; and if he will make a statement. [21972]

Mr. McNulty: Audited costs for the provision of support to asylum seekers for the period in question are not yet available. Information relating to costs for the financial year 2004–05 will be published on the immigration and nationality directorate (IND) website once the audit of that year's costs has been completed. Information for 2005–06 will be published as soon as possible after the end of the financial year. Information for the financial years 1996–97 to 2003–04 was given in answer to a question from the hon. Member for Meriden (Mrs. Spelman) on 21 February 2005, *Official Report*, column 442W and is also published on the IND website.

Andrew Rosindell: To ask the Secretary of State for the Home Department what the cost of accommodating asylum seekers has been in each year since 1997. [22950]

Andy Burnham: The information is not available in the precise format requested. Before 3 April 2000 asylum seekers were supported under either the ad hoc arrangements administered by the Department for Work and Pensions or by local authorities.

Asylum seekers supported under income support arrangements were eligible to receive housing benefit to meet the costs of their accommodation. I have placed a table showing the amounts paid in housing benefit from 1996–97—1999–2000 in the Library.

Between 1996–97 and 1999–2000 the Department of Health was responsible for paying grant to local authorities supporting asylum seekers. Details of the total amounts paid to local authorities were provided on 9 May 2000, *Official Report*, columns 330–31W in answer to a question from the hon. Member for Ribble Valley (Mr. Evans). Part of this grant would have included an element to meet the costs of accommodation but it is not possible to identify the actual amounts.

Since 3 April 2000 the National Asylum Support Service (NASS) has been responsible for the budget for asylum support. I have placed in the Library information on the costs of providing accommodation to asylum seekers supported directly by NASS for the years 2000–01—2003–04. Information for 2004–05 will be published on the Immigration and Nationality Directorate website, www.ind.homeoffice.gov.uk as soon as possible after the expenditure for that year has been audited.

Local authorities retain responsibility for providing support to some asylum seekers who made their claim for asylum before the NASS administered support arrangements took effect in their areas. The Home Office is responsible for paying grants to local authorities to meet their direct costs of providing support. Annual payments to local authorities by NASS from 1999–2000 can be found at: http://www.ind.homeoffice.gov.uk/ind/en/home/applying/national_asylum_support/stakeholders/finance.html

Part of this grant would have included an element to meet the costs of accommodation but it is not possible to identify the actual amounts.

Expenditure by NASS on accommodation for asylum seekers: for the period 2001–01—2003–04

£ million

Financial year	Expenditure on dispersal accommodation	Expenditure on emergency (initial) accommodation	Total expenditure
2000–01	115	[1]—	115
2001–02	247	[1]—	247
2002–03	319	107	426
2003–04	343	96	439

[1] Not available.

Expenditure on housing benefit paid to asylum seekers 1996–97—1999–2000

Financial year	£ million Expenditure
1996–97	19
1997–98	14
1998–99	12
1999–2000	135

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government is taking to prevent abuse of the benefits system by asylum seekers. [22953]

Andy Burnham: Asylum seekers are not eligible to receive mainstream benefits. Eligible asylum seekers who would otherwise be destitute may be provided with support (accommodation and/or financial assistance) by the National Asylum Support Service (NASS). Financial support payments are made via the application registration card (ARC), a biometric smartcard that contains photographic identification and details unique to individual asylum seekers. Accommodation providers under contract to NASS are required, as part of their contract, to visit addresses at regular intervals to confirm the supported asylum seeker is living at the address.

Daniel Kawczynski: To ask the Secretary of State for the Home Department how many Somalian asylum seekers tried to enter the UK in each year from 1997; how many have been allowed to stay; and how many have been deported. [24295]

Andy Burnham: Information is not available on how many Somalis try to enter the UK each year who would, if successful, subsequently apply for asylum, and such information could be obtained only at disproportionate cost. Applications for asylum in the UK can only be made from within the UK.

Information on the number of asylum applications made by Somali nationals, initial decisions and appeals outcomes, and asylum removals is published quarterly and annually in the regular asylum statistics, copies of which are available from the Library and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. McGovern: To ask the Secretary of State for the Home Department what procedures are undertaken before the decision is made to detain failed asylum seekers, with particular reference to *(a)* pre-notification and *(b)* the use of other detention methods. [25316]

Andy Burnham *[holding answer 7 November 2005]*: Throughout the process and before any removal decision is taken, the person is notified in writing, and has explained verbally, his immigration status and liability to detention and bail rights. If detained he will also be informed of the reasons for detention.

Alternatives to detention, e.g. setting reporting restrictions, must be considered before any detention is authorised. In all cases detention must be used sparingly, and for the shortest period necessary.

Border Control

Adam Afriyie: To ask the Secretary of State for the Home Department what assessment he has made of the merits of introducing a UK border control police force. [24122]

Mr. McNulty: The Government has no plans at present to create a single border control police force or agency.

The White Paper "One Step Ahead—A 21st Century Strategy to Defeat Organise Crime" tasked Customs, the Immigration and Nationality Directorate (IND) and the police to work together to develop options for providing more effective border controls through enhanced inter-agency co-operation.

Noting the distinct and essential responsibilities of each of the three principal border agencies, the White Paper indicated that there were no plans to create a single border agency.

Nevertheless the White Paper pointed to much closer working between the border agencies. There is already considerable successful integrated working at both a local and national level between the border agencies.

With this in view, the Border Management Programme has been established to take this forward. It will provide more effective working between the agencies in order to maximise border security while minimising the impact on legitimate traffic.

In support of this closer working, the e-Borders programme will deliver a fully integrated border control system fit for the 21st century. It will develop a means of capturing and sharing relevant passenger information through compatible systems across Government providing a comprehensive secure system for all the agencies working together at the border.

Mr. Vaizey: To ask the Secretary of State for the Home Department whether the Government plan to introduce a UK border control police force. [16732]

Mr. McNulty: The Government have no current plans to create a single border control police force or agency.

There is already considerable successful integrated working at both a local and national level between the border agencies.

The White Paper "One Step Ahead—A 21st Century Strategy to Defeat Organise Crime" in March 2003, tasked customs, IND and the police to work together to develop options for providing more effective border controls through enhanced inter-agency co-operation.

The Border Management programme has been established to take this forward. It will provide more effective working between the agencies in order to maximise border security while minimising the impact on legitimate traffic.

In support of this, the e-Borders programme will deliver a fully integrated border control system fit for the 21st century. It will develop a means of capturing and sharing relevant passenger information through compatible systems across Government providing a comprehensive secure system for all the agencies working together at the border.

Criminal Injuries Compensation

Dr. Cable: To ask the Secretary of State for the Home Department what the average processing time has been of an application for compensation under the Criminal Injuries Compensation Scheme 2001 in each year of its operation. [21259]

Fiona Mactaggart: The Criminal Injuries Compensation Authority advise that median number of days elapsed between receipt of the application and the issue of the decision at the Claims Assessment Stage for applications made under the 2001 Scheme for the years 2001–02, 2002–03, 2003–04 and 2004–05 was 156 days, 221 days, 238 days and 258 days respectively.

Domestic Violence

Andrew Selous: To ask the Secretary of State for the Home Department what minimum statutory level of *(a)* funding and *(b)* other support local authorities are required to provide for victims of domestic violence; and if he will make a statement. [22427]

Fiona Mactaggart: There is no set minimum statutory level of funding that local authorities are required to provide for victims of domestic violence.

However, as part of the new three-year Local Area Agreement initiative between central Government and local government, funding to deliver local priorities will be available. Local partnerships will be responsible for identifying the need for addressing domestic violence as a local priority for improvement to enable them to prioritise their spending. The agreements are based on outcomes, indicators and targets aimed at delivering a better quality of life for people through improving performance on a range of national and local priorities.

In April 2005, the revised Best Value Performance Indicator BV225 was implemented. The indicator covers a range of activities that local authorities need to undertake to successfully address the problem of domestic violence. Its purpose is to assess the overall provision and effectiveness of local authority services designed to prevent and support victims of domestic violence.

European Return Fund

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the progress with discussions in the European Council on the minimum standards for return procedures and mechanisms for supporting removal efforts with a European Return Fund to be established by 2007. [20256]

Mr. McNulty: On 1 September 2005, the European Commission issued a proposal for a Directive of the European Parliament and the Council on common standards and procedures in member states for returning illegally staying third country nationals (COM (2005) 391 final). The Commission has presented this proposal and there has been a first exchange of views. The first formal reading of the proposal in the Council will commence in November.

On 3 May 2005, the Commission issued a proposal for a Decision of the European Parliament and Council establishing the European Return Fund for the period 2008–13 as part of the General Management Programme "Solidarity and Management of Migration Flows". The first reading of the proposal in the Council commenced in September. The first reading of provisions that are specific to the Return Fund is expected to be concluded in November. The first reading of those provisions that are common to the four instruments within the General Management Programme is expected to continue into the next presidency of the EU.

Identity Cards

Mr. Wallace: To ask the Secretary of State for the Home Department what discussions he has had with the Chancellor of the Exchequer on the maximum allowable cost for the stand-alone identity card. [19166]

Mr. McNulty: The figure for an affordable charge for a stand-alone identity card has been arrived at following careful scrutiny of the costs of the Identity Cards Scheme over the summer by the Home Office, in full consultation with Treasury and other Government Departments.

Mr. Wallace: To ask the Secretary of State for the Home Department what the total planned budget is for the consultation, trialling and roll out of the Identity Card Scheme. [19167]

Mr. McNulty: The current best estimate for the total average annual running costs for issuing passports and ID cards to UK nationals is £584 million.

The Home Department is not breaking this cost down further because this information is commercially sensitive and discussion of estimated costs may prejudice the procurement process by limiting the Department's ability to secure value for money from the market.

Mr. Wallace: To ask the Secretary of State for the Home Department when he expects to publish the cap on the fee to be charged for the stand-alone identity card. [19168]

Mr. McNulty: It will be affordable within current Home Office spending plans to set a charge of £30 at current prices for a stand-alone identity card which is valid for 10 years.

Mr. Wallace: To ask the Secretary of State for the Home Department if he will lay before the House detailed proposals on the charging regime for identity cards, in line with the commitment given by the Parliamentary Under-Secretary of State, before the Identity Cards Bill completes Third Reading in the House. [19170]

Mr. McNulty: Details of an affordable charge for a stand-alone identity card have already been released, in line with the commitment given by the Home Secretary in June. Decisions regarding the detailed charging strategy have not yet been made. As the Home Secretary stated in June, the actual charges will be determined at the time of introduction of the scheme.

Additionally, the Identity Cards Bill was recently amended by the Government so that Clause 37(7) of the Bill allows for an affirmative resolution procedure to take place the first time a resolution is laid before Parliament setting the charge for identity cards. This will give Parliament greater scope for debate when this occurs.

The actual amount charged to a person will depend on future policy decisions on charging within the scope allowed by the Identity Cards Bill. Issues which the Government wishes to explore further on charging include:

refining estimates of revenues for the verification service as potential users develop more detailed plans for how they will use the scheme;

whether and to what extent offering cards at lower cost, for example to people on low incomes, may be possible;

cost estimates for some components of the scheme may change once the Home Office engages formally with suppliers as part of the procurement process.

Lynne Jones: To ask the Secretary of State for the Home Department whether his Department's cost-benefit analysis of the identity cards scheme includes estimates for the benefits which are defined in paragraph 25 of the Regulatory Impact Assessment of 25 May as not yet quantified completely. [20865]

Mr. McNulty: The cost-benefit analysis of the identify cards scheme does include initial estimates for some of the benefits previously defined as not yet quantified completely in paragraph 25 of the Regulatory Impact Assessment of 25 May. Further analysis is under way to refine these estimates.

Lynne Jones: To ask the Secretary of State for the Home Department if he will publish the graph on page 11 of his Department's document, "Identity Cards Scheme—Benefits Overview" with dates on the time axis; and if he will publish the supporting evidence for the figures given in the graph. [20869]

Mr. McNulty: The date line to the graph on page 11 of the benefits summary document has been deliberately left out, as we are not in a position to know when Royal Assent is likely to be given to the Bill. This date will obviously influence the start date of the project and the timing of any benefits being realised.

The graph as it stands is flexible, as it represents annual movements in the benefits accrual. Therefore a reader of the graph could predict any start date for identity cards roll out, and then understand from the graph the progression of benefit accrual from that date.

The underlying analysis for this graph contains detail that currently could be prejudicial to the future procurement of the identity card scheme, which is driven by Royal Assent being granted.

Mr. Harper: To ask the Secretary of State for the Home Department what his most recent estimate is of the *(a)* set-up costs, *(b)* annual running costs and *(c)* cost per card of the identity card scheme. [21354]

Mr. McNulty: The current best estimate for the total average running costs for issuing passports and ID cards to UK nationals is £584 million per annum.

The Home Office is not breaking this cost down further, nor publishing details of set-up costs, because this information is commercially sensitive and discussion of more detailed estimated costs may prejudice the procurement process by limiting the Department's ability to secure value for money from the market.

The current best estimate for the average unit cost of the combined passport and ID card package is £93. In addition, it will be affordable to set a charge of £30 at current prices for a standalone ID card which is valid for 10 years.

Mr. Harper: To ask the Secretary of State for the Home Department what the cost of the Identity Card Scheme has been to date. [21382]

Mr. McNulty: The Government announced its intention to introduce legislation for an identity cards scheme in November 2003, following a six month consultation exercise. In preparation £28.66 million has been spent between the start of the 2003 financial year and the end of September 2005.

Ms Butler: To ask the Secretary of State for the Home Department (1) what provisions have been made for *(a)* lone parents, *(b)* low income families, *(c)* the unemployed, *(d)* children and *(e)* students in relation to the proposed cost of identity cards; [21564]

(2) what assistance will be provided for people that cannot afford the proposed £30 identity card fee. [21565]

Mr. McNulty: It will be affordable within current Home Office spending plans to set a charge of £30 at current prices for a standalone identity card which is valid for 10 years. Further decisions have yet to be made on the detailed charging strategy to be in place before introduction of the identity cards scheme.

Immigration

John Bercow: To ask the Secretary of State for the Home Department (1) if he will list the employment sectors in which the use of immigrant labour is filling long-term vacancies; [18734]

(2) if he will list the sectors of employment in which the use of immigrant labour is reducing skills shortages. [18735]

Mr. McNulty: Most non-EEA nationals coming to the UK for skilled employment require a work permit. Work permits can be issued in any sector as long as the occupation is on the shortage list or the role meets the requirements of the resident labour market test. In 2004, the top sectors for which work permits were issued were: health and medical services; computer services; hospitality and catering; administration, business and management services; education and cultural activities; financial services; entertainment and leisure services; manufacturing; retail and related services.

Anne Snelgrove: To ask the Secretary of State for the Home Department if he will place in the Library monthly reports on the number of people detained under immigration law. [22683]

Mr. McNulty: The Home Office currently publishes a quarterly snapshot of people held under Immigration Act powers on the last Saturday of every quarter. This is available from the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Managed Migration Routes

Mr. Russell Brown: To ask the Secretary of State for the Home Department when he expects to complete the review of managed migration routes, with particular reference to the rules on ancestry. [18159]

Mr. McNulty: Following a statement to Parliament by the Home Secretary on 22 April 2004, the Immigration and Nationality Directorate (IND) are reviewing a number of managed migration routes to enter and remain in the United Kingdom. This review is ongoing across all managed migration routes. As a result, IND are unable to process some applications for leave to remain through the ancestry route at present. We will resume consideration of these applications as soon as possible.

Passport Return

Mr. Lidington: To ask the Secretary of State for the Home Department when the immigration and nationality directorate will return the passports of the W. family of Aylesbury (case reference: W1004856; B23701/5). [22431]

Mr. McNulty *[holding answer 31 October 2005]:* The immigration and nationality directorate has not yet been able to locate the passports. A letter explaining that the passports could not be found was sent to the hon. Member's constituents on 24 October, together with a letter which may assist the family in obtaining new passports from their national authority.

Mr. Lidington: To ask the Secretary of State for the Home Department what the average time taken after the determination of a case for his Department to return passports and other personal documents to successful applicants for leave to remain in the United Kingdom was in the last period for which figures are available. [22432]

Mr. McNulty *[holding answer 31 October 2005]:* General Group, who handle leave to remain applications, make every attempt to despatch passports and personal documents with the decision letter back to the applicant as soon as practicable after the determination of a case. General Group continually strive to meet published service standards for both charged and non-charge leave to remain applications.

This information is published on the immigration and nationality directorate website at www.ind.homeoffice.gov.uk.

Police

Lynne Featherstone: To ask the Secretary of State for the Home Department how many police forces have selected one of their basic command units to implement and champion neighbourhood policing; and if he will make a statement. [21930]

Hazel Blears: Each of the 43 police forces in England and Wales has selected a pathfinder basic command unit (BCD) to implement and develop neighbourhood policing. This is in addition to other BCUs in police forces that have also adopted a neighbourhood policing approach.

Keith Vaz: To ask the Secretary of State for the Home Department what steps the Government is taking to ensure that the expansion of the shoot-to-kill policy does not lead to an increase in mistaken killings by the police. [23394]

Hazel Blears: All police use of firearms is subject to the law on the use of force. In particular, the Criminal Law Act 1967 provides that the police may use such force as is reasonable in the circumstances to effect an arrest or to prevent crime. It is for the individual officer to justify their actions, if necessary in court.

Prisons

Mr. Heald: To ask the Secretary of State for the Home Department how many convicted prisoners there were in each prison in England and Wales in the most recent period for which figures are available; and in which parliamentary constituency each prison is located. [23200]

Fiona Mactaggart: The information requested, as recorded on the Prison Service IT system, is provided in the table.

Sentenced prison population, by prison establishment and parliamentary constituency

Proceeds of Crime Act

Malcolm Bruce: To ask the Secretary of State for the Home Department what the timetable is for introducing Orders in Council under Part Eleven of the Proceeds of Crime Act 2002; and if he will make a statement.[24630]

Paul Goggins *[holding answer 3 November 2005]:* The Order for co-operation between the United Kingdom jurisdictions was introduced in 2002 (S.I. 2002/3133).

The Government intend to lay the Order to enable international co-operation in the freezing and confiscation of the proceeds of crime in the next few weeks, with a view to having the legislation in place by the end of the year. The Order to facilitate international co-operation in financial investigations will follow in the new year.

Protection Programmes

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress with pilot protection programmes outside the EU which are due to be launched by the end of 2005. [20274]

Mr. McNulty: On 12 October 2005, the Justice and Home Affairs Council endorsed draft council conclusions, to be formally adopted at the General Affairs and External Relations Council on 7 November 2005, which support the European Commission's proposals for pilot regional protection programmes in the western newly independent states (Ukraine, Moldova and Belarus) and sub-Saharan Africa (in particular the Great Lakes/East Africa). The conclusions invite the Commission to inform the Council of detailed programmes for the implementation of these proposed pilots by the end of November 2005.

Readmission Agreements

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on the readmission agreements with third countries to be signed by the EU. [20275]

Mr. McNulty: As the current EU presidency, the UK attaches a high priority to the conclusion of readmission negotiations between the EU and international partner countries. Negotiations with Russia were finalised in time for the EU-Russia summit on 4 October. We intend to support the European Commission to make substantial progress in the negotiation of other agreements.

Refugees

John Bercow: To ask the Secretary of State for the Home Department if he will list the 10 countries from which most refugees originated in 2004. [16752]

Mr. McNulty: Information on grants of asylum at initial decision is published quarterly and annually. The information requested is published in the annual bulletin Asylum Statistics United Kingdom 2004. Copies are available from the Library of the House and on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on EU co-operation with third countries in order to manage and reduce the intake of refugees into the EU. [20273]

Mr. McNulty: The Hague multi-annual programme, which was endorsed by the European Council on 4 and 5 November 2004, sets out the EU's work plan for strengthening the area of freedom, security and justice over the next five years and includes an EU strategy on the external dimension of asylum and migration. This covers co-operation with third countries in managing migration and asylum; development of EU regional protection programmes and the intensified co-operation with countries of transit to enable these countries to better manage migration and to provide adequate protection for refugees. The UK strongly supports work in this area and has taken it forward as a matter of priority under its presidency of the EU.

Schlumberger Sema Ltd.

Mark Fisher: To ask the Secretary of State for the Home Department if he will publish the minutes of meetings between his Officials and Schlumberger Sema Ltd. [11149]

Mr. McNulty: The majority of meetings between departmental Officials and Schlumberger Sema Ltd. (SS) have been within its relationships between the Home Office Immigration and Nationality Directorate (IND).

IND meetings took place in the context of three separate commercial relationships:

- support and development of the ASYS IT system;
- programme support and training services for the casework information database (CID) system redevelopment; and
- as a short listed (and eventually successful) bidder for the IND Procurement of Infrastructure and Development Services (IPIDS) contract for the outsourcing of IND's major IT services.

Other meetings also took place between Home Office (Centre) and Schlumberger Sema Ltd. (SS) in respect of the HOITS (Home Office IT Services) contract; from the formation of SS in 2001 through to the end of the HOITS contract on 31 March 2002 and then for a further short-term contract of a few months for support of the RDS and IND INDECS mainframe services until these were absorbed into the Sirius IT2000 agreement.

The engagement between IND and Schlumberger Sema Ltd. (SS) resulted in significant quantities of recorded minutes, covering all aspects of the working relationships.

Consideration could be given to making minutes of meetings or action plans available to address a specific query, subject to commercial confidentiality or disproportionate cost.

Sex Offenders

Anne Main: To ask the Secretary of State for the Home Department what reciprocal arrangements exist between the UK and *(a)* Northern and *(b)* Southern Cyprus on the exchange of information regarding the travel of those who have committed sex offences; and if he will make a statement. [13249]

Andy Burnham: The UK does not recognise Northern Cyprus. There are no formal arrangements in place to directly exchange information on those who have committed sexual offences.

No reciprocal measures exist between the UK and the Republic of Cyprus (southern Cyprus). However, in the UK, offenders who are subject to the notification requirements of Part two of the Sexual Offences Act 2003 (which are often known as the sex offenders register) must notify the police of any intention to travel

overseas for a period of three days or more. When an offender notifies his intention to travel overseas the local police force will make a judgment as to whether, in their opinion, the authorities in the country concerned should be informed that the offender is travelling. If they decide that they should, then this information is passed to the National Criminal Intelligence Service who will then inform the destination country if there are reasonable grounds for believing that the offender will present a risk of offending within that community. The Republic of Cyprus does not have a similar requirement on offenders and so they would not routinely know if an offender was planning to travel, and would not be able to inform the UK.

The UK or the Republic of Cyprus may also request criminal record information on a national of the other state under the terms of the 1959 Council of Europe Mutual Legal Assistance Convention and the EU Council Decision on the exchange of information on extracted from the criminal record.

Tasar Stun Guns

Mr. Burstow: To ask the Secretary of State for the Home Department how many times the Metropolitan police has *(a)* deployed and *(b)* used Tasar stun guns in each of the last 12 months; and if he will make a statement. [21716]

Hazel Blears: The Commissioner for the Metropolitan police has provided the information in the table.

Metropolitan police—Deployment of Taser

Number

	Deployed	*Fired*
October 2004	213	2
November 2004	168	1
December 2004	174	2
January 2005	148	1
February 2005	157	2
March 2005	176	2
April 2005	241	4
May 2005	262	3
June 2005	264	2
July 2005	301	3
August 2005	268	2
September 2005	273	2
October 2005	[1]45	0

[1] up to 7 October

TOGETHER Action Line

Lynne Featherstone: To ask the Secretary of State for the Home Department how many calls have been received by the TOGETHER ActionLine in each month since its inception; and if he will make a statement. [21980]

Hazel Blears: The total number of inquiries received by the TOGETHER ActionLine since its inception in February 2004 to September 2005 is 13,845. 11,878 phone calls were received and 1,967 e-mails.

The overall monthly average number of inquiries including calls and e-mails is 694.

The TOGETHER ActionLine is a separate service which provides help and advice to practitioners to improve their response to antisocial behaviour. The ActionLine, complimented by the TOGETHER website helps practitioners to become confident in using the powers available to them and gives them access to innovative and creative solutions and enables them to network and share knowledge and successes.

Visas

Mr. McGovern: To ask the Secretary of State for the Home Department what assessment he has made of the take-up of visas under the Fresh Talent: Working in Scotland scheme. [25312]

Andy Burnham *[holding answer 7 November 2005]:* The Scottish Executive is monitoring and evaluating the Fresh Talent: Working in Scotland scheme and we are discussing with them how and when information on the scheme will be published.

As set out in the published policy, the Home Office are passing details of all those who have been granted leave under the scheme to the Scottish Executive. This is to enable them to contact participants at regular intervals.

The table shows the number of participants in the scheme so far, broken down by those who applied from overseas and those who applied from within the UK. This data is based on internal Management Information and is provisional and subject to change.

	Entry clearance[1]	*In country*
1	25	75
August	30	100
September	20	120
October	30	190
Total	100	485

[1] UKvisas makes every effort to ensure that statistics produced from our "Central Reference System" are accurate. However, the complexity of our global business, including technical failures or occasional inconsistencies in data entry across any of over 150 offices, means we cannot 100 per cent. guarantee accuracy. UKvisas continues to work on IT and working practices to improve the quality of the statistics we provide.

Note:

Figures are rounded to the nearest 5.

Young Offenders

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to his answer of 12 October 2005, *Official Report*, column 496W, how many of the young people supervised by youth offending teams in 2004–05 that had a substance misuse need have received an intervention or treatment, broken down by type of intervention made. [20663]

Fiona Mactaggart: The following table for 2004–05 gives a breakdown of the level of need, intervention and treatment received within 10 working days of the assessment. (Joint Youth Justice Board/National Treatment Agency performance indicator.) Of the 11,551 who were assessed as needing a Tier two, three or four intervention, 10,645 (92 per cent.) accessed an intervention or treatment service within 10 days of the assessment.

Data monitoring for 2005–06 has been improved to include the numbers of young people who accessed a service more than 10 days after assessment.

Intervention or treatment	Service provided—Tier description	Numbers of young people assessed with need	Those who received an intervention or treatment within 10 days of being assessed	Percentage
Tier 2	Practitioners with some drug and alcohol experience and youth specialist knowledge	8,224	7,672	93.3
Tier 3	Young people's specialist drug services and other specialised services that work with complex cases requiring multi-disciplinary, team-based work	3,155	2,826	89.6
Tier 4	Services providing very specialist medical forms of intervention for young drug misusers with complex care needs	172	147	85.5
Total		11,551	10,645	92.2

[1] Taken from the Youth Justice Board's Key elements of effective practice manual on Substance Misuse.

Zimbabwe

Peter Bottomley: To ask the Secretary of State for the Home Department what arrangements he has in place for Zimbabweans in Zimbabwe and neighbouring countries to apply for asylum. [15869]

Andy Burnham: The immigration rules require a person to be in the United Kingdom or at a port of entry in order to claim asylum here. Under our published asylum policy instruction on Applications from Abroad, IND may consider exceptionally outside the rules a claim for asylum made abroad if certain strict criteria are met.

A person cannot be a refugee for the purposes of the 1951 Refugee Convention while in their country of origin, so it would only be in truly exceptional circumstances that the UK would consider an asylum claim from a person within their own country.

The policy applies to Zimbabwean nationals on the same basis as it applies to others.

Mr. Vaizey: To ask the Secretary of State for the Home Department if he will make a statement on the deportation to Zimbabwe of asylum seekers. [16718]

Mr. McNulty: On 5–7 October 2005 the Asylum and Immigration Tribunal considered the appeal of a Zimbabwean asylum seeker. The basis of the appeal was that failed asylum seekers are at real risk of mistreatment on return from the UK to Zimbabwe. The AIT's country guidance determination was promulgated on 18 October 2005.

The Tribunal found that the particular way we were enforcing returns of failed Zimbabwean asylum seekers from the UK to Harare airport put them at risk. We will not be enforcing returns to Zimbabwe while we work to resolve the concerns identified by the Tribunal about the way we do so.

The Tribunal did not find that Zimbabwe was unsafe generally for failed asylum seekers or that those who return there voluntarily are at risk. Failed asylum seekers have no right to remain in the UK and we continue to expect them to return.

We will continue to provide protection through the asylum system to Zimbabweans who genuinely have a well founded fear of persecution but we do not accept that failed asylum seekers whose claims have been found on appeal to be unfounded are in this position.

We do not believe that this determination requires us, as a matter of law, to grant refugee status or any other form of leave to remain to failed Zimbabwean asylum seekers. We have already argued successfully before the Tribunal in one individual case since the country guidance case was promulgated that, in the light of the Government's commitment not to enforce returns while we work to identify a route and method which does not expose returnees to a risk contrary to our international obligations, Zimbabwean asylum claims must be decided on their individual facts.

We are considering appealing the AIT country guidance determination.

DEPUTY PRIME MINISTER

Carbon Management Programme

Norman Lamb: To ask the Deputy Prime Minister whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23726]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has been working on carbon reduction programmes and are presently co-operating with the Carbon Trust on energy efficiency projects, designed to reduce the level of carbon created by its estate operations. Officials have been in contact with the Carbon Trust in respect of their offer to undertake an initial feasibility study on how the Office of the Deputy Prime Minister would adopt a Carbon Management programme and its potential for managing its Carbon Footprint. A decision on whether to sign up to the Carbon Trust's Carbon Management programme will be taken once this feasibility study is complete.

Councils (Norfolk)

Dr. Gibson: To ask the Deputy Prime Minister what assessment he has made of the merits of unitary status for councils in Norfolk. [22093]

Mr. Woolas: I refer my hon. Friend to the answer given to the hon. Member for Hemel Hempstead (Mike Penning) on 7 November 2005 (UIN 24019).

Demotion Orders

Margaret Moran: To ask the Deputy Prime Minister how many demotion orders have been granted by *(a)* local authorities and *(b)* registered social landlords since their introduction. [24029]

Yvette Cooper: The Office of the Deputy Prime Minister has until this financial year, not requested local authorities to supply data on the number of secure

tenancies they demoted. We are now asking them to provide this information and the first tranche of this data will be available for 2005–06.

The Housing Corporation has commenced the collection of this data. According to its Regulatory and Statistical Returns for 2004–05, 76 tenancies have been demoted since June 2004 when this tool first became available.

Fire Service Personnel (Assaults)

John Cummings: To ask the Deputy Prime Minister how many assaults on fire service personnel in the course of their duties there have been in the County of Durham in the last five years. [25697]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) has been maintaining records of attacks on firefighters since April 2004. Prior to that date their was no requirement for the fire and rescue service to report attacks on firefighters.

Since April 2004 there has been in place a procedure for attacks on firefighters to be notified to the ODPM using the Fires and Incidents of Special Interest (FOSI) reporting procedures, as detailed in a Dear Chief Fire Officer (DCOL) letter 3/2004 issued on 1 April 2005. Since 1 April 2004 there have been reports of eight attacks on firefighters of the Durham and Darlington Fire and Rescue Service.

Firelink Contract

Mr. Drew: To ask the Deputy Prime Minister when the Firelink contract successful bid is likely to be announced. [25369]

Jim Fitzpatrick: The Office of the Deputy Prime Minister expects to announce the preferred bidder for the Firelink contract during November, with a view to signing the contract before Christmas.

Mr. Drew: To ask the Deputy Prime Minister what account is taken of the number of proposed communication masts when assessing bids for the Firelink project. [25370]

Jim Fitzpatrick: The number of proposed communication masts has been taken into account as part of the technical assessment of supplier bids, where information about proposed coverage was provided by the suppliers. This is just one aspect of the assessment of the bids, as the overall evaluation has taken into account three other key areas: project management, procurement and whole life costs. It is the balance of this assessment that determines the outcome of the competition.

Gershon Review

Dr. Cable: To ask the Deputy Prime Minister how many full-time equivalent employee reductions have been made as a result of the Gershon review; what *(a)* cost savings relating to IT projects and *(b)* value of efficiency savings (i) were achieved in 2004–05 and (ii) are expected to be achieved in 2005–06; and if he will make a statement. [23689]

Jim Fitzpatrick *[holding answer 1 November 2005]:* Progress on both headcount reductions in the Office of the Deputy Prime Minister (Central), Government Offices for the Regions and ODPM's executive agencies and on cost savings was reported in the ODPM Departmental Annual Report, 2004. Further progress will be reported in the Autumn Performance Reports, which will include figures for headcount reduction in NDPBs as well as the core Department and at aggregate level in the pre-Budget report.

Efficiency savings relating to IT projects relating to the efficiency review will not start to flow until 2006–07.

Housing

Mr. Hunt: To ask the Deputy Prime Minister what assessment his Department has made of the potential environmental impact of its plans for new housing developments in the south-east; and if he will make a statement. [26393]

Yvette Cooper: The process for preparing regional plans for new development is set out in the Planning and Compulsory Purchase Act 2004. Accordingly, it is the South East England Regional Assembly which is responsible for appraising the sustainability of alternative development options as part of their drafting of the Regional Spatial Strategy (known as the "South East Plan"). After the Assembly submit their draft Plan to Government, there is further public consultation and testing by an independent Panel before the Plan is finalised by Government.

IT Projects

Mr. Austin Mitchell: To ask the Deputy Prime Minister if he will list for each IT project his Department has undertaken since May 1997 which has incurred a total expenditure of £5 million or more *(a)* the name of the project, *(b)* its intended purpose, *(c)* the principal contractors involved and the payments made to each, *(d)* the original estimate of the cost of the project, *(e)* the actual outturn of expenditure on the project, *(f)* the intended date on which the project was to be fully implemented, *(g)* the actual date on which it was fully implemented or cancelled, *(h)* modifications which have been made to the project since it was first commissioned, *(i)* contractors on the project whose contracts have been cancelled, *(j)* replacement or additional contractors on the project, *(k)* the most reliable estimate of public expenditure saved as a result of implementing the project and *(l)* the most reliable estimates of improved performance of departmental functions as a result of implementing the project. [20626]

Jim Fitzpatrick: Since the Office of the Deputy Prime Minister was established in May 2002, none of the IT projects we have completed has cost more than £5 million.

Mr. Laws: To ask the Deputy Prime Minister how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public *(a)* in full and *(b)* in part Gateway reviews for these projects. [23522]

Jim Fitzpatrick: According to central records, 47 IT projects have either been completed or set in train since the Office of the Deputy Prime Minister (ODPM) was established in May 2002.

Gateway reviews are conducted on a confidential basis for the Senior Responsible Owner and ODPM have not agreed for any report material to be made public. Under the Freedom of Information Act 2000 each request for the release of information contained in a Gateway Review is considered on a case-by-case basis.

Management Consultants

Dr. Gibson: To ask the Deputy Prime Minister how much has been spent on management consultants by *(a)* Norwich city council and *(b)* Norfolk county council in each of the last five years. [24393]

Mr. Woolas: The Office of the Deputy Prime Minister does not hold this information for local authorities. However, we are advised that the information could be obtained from each authority and suggest that my hon. Friend contacts the Head of Efficiency at Norfolk county council and the Acting Director of Finance at Norwich city council in order to obtain the relevant figures.

Notting Hill Housing Trust

Mr. Hands: To ask the Deputy Prime Minister how many complaints have been received against the Notting Hill Housing Trust in each of the last five years; and how many have been investigated by the Ombudsman. [24528]

Mr. Woolas: Since 2001–02 complaints have been received against the Notting Hill Housing Trust (NHHT) by the following organisations:

Organisation	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*2005–06*
Netting Hill Housing Trust[4]	[1]650	[1]700	688	470	[2]370
Housing Corporation	[3]2	14	6	7	1
ODPM	0	2	6	5	0

[1] Figures for 2001–02 and the first half of 2002–03 are estimated. During this period complaints were dealt with within NHHT area teams. NHHT launched its Complaint Team in November 2003 and the figures from this date are accurate.
[2] From 1 April to 31 October 2005.
[3] From 1 October 2001 to 31 March 2002.
[4] Data provided by NHHT.

Complaints against NHHT received by the Independent Housing Ombudsman (IHO) and the number of those that were investigated are set out as follows:

	Organisation	
	Received by the IHO	*Investigated by the IHO*
2001–02	32	3
2002–03	37	9
2003–04	48	11
2004–05	28	7
2005–06	15	4

Pensions

Sarah Teather: To ask the Deputy Prime Minister if he will make a statement on the financial position of the London borough of Brent council pension scheme. [24476]

Mr. Woolas: The Local Government Pension Scheme Regulations require an actuarial valuation of each of the Scheme's funds every three years. At the valuation carried out as at 31 March 2004, the independent actuary appointed by the London borough of Brent reported that the fund held assets of £360 million against liabilities of £534 million. Accordingly the actuary set an appropriate employer contribution rate for the three financial years starting with 2005–06 to secure the solvency of the fund. Brent council has also published a Funding Strategy Statement, as required by the regulations, setting out its approach to managing its pension liabilities.

Regional Fire Control Centres

Mr. Gale: To ask the Deputy Prime Minister what his current estimate is of *(a)* the capital costs of the construction of a regional network of fire control centres, *(b)* the capital costs of the closure and relocation of England's 46 control rooms and *(c)* the revenue costs of running a network of regional fire control centres over their projected 15-year lifecycle. [26195]

Jim Fitzpatrick: The business case, on www.odpm.firecontrol.gov.uk, presents the "one-off" and "ongoing" costs for regional controls, which are related to (but not the same as) "capital" and "revenue" figures respectively. Accounting treatment is still under consideration.

The one-off gross cost of implementing networked regional control centres in England is forecast to be £160 million. This figure includes developing and installing the new ICT infrastructure, the costs associated with transition from existing control rooms to the new arrangements, and project management. The buildings will be leased from developers, who will meet the capital costs of their construction.

The business case does not contain any capital costs for closing existing control rooms. However, the one-off costs for relocating control room functions have been included in the £160 million cost referred to above.

The annual operating cost for providing control services with national network of regional centres, under steady state operating conditions, is currently forecast to be approximately £52 million.

Mr. Gale: To ask the Deputy Prime Minister what his current estimate is of the cost savings which will be achieved through staff reductions arising from the relocation of existing control rooms to regional fire control centres. [26196]

Jim Fitzpatrick: After the last control centre goes live, it is estimated that the new network of regional fire control centres will achieve annual savings of over £20 million (30 per cent. reduction in annual running costs).

Staffing represents the largest cost element under both the current position and regional controls. Consequently, the largest relative savings will be generated in this area. There are additional contributions from the economies of scale achieved through the national infrastructure services contract, the avoidance of infrastructure replacement costs (including related project management), and the economies of scale achieved in servicing control centre accommodation.

Respect Unit

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to his answer of 27 October 2005, *Official Report*, column 489W, on respect, whether any payment is being made by his Department to the Home Office specifically for the Respect Unit functions. [24700]

Jim Fitzpatrick: The Office of the Deputy Prime Minister has not made any payment directly to the Home Office for the Respect Unit's functions, although we have seconded a member of staff to work in the Unit.

I refer the hon. Member to the previous answer given on 27 October 2005, *Official Report*, column 489W.

Standards Board for England

Mr. Andrew Turner: To ask the Deputy Prime Minister how many cases have been referred to the Standards Board for England in the last 12 months for which information is available; and of these how many were *(a)* found to be cases where the code of conduct had not been breached, *(b)* found to be cases where it was inappropriate for further action to be taken and *(c)* referred for investigation by an ethical standards officer. [25752]

Mr. Woolas: In the 2004–05 the Standards Board for England received 3,861 allegations that members of local authorities had breached the code of conduct for members. During that year, 1,543 allegations were not referred for investigation as the alleged conduct would not have involved a failure to comply with the code, 1,195 allegations were not referred for investigation because the allegations were found to be inappropriate for further action to be taken, and 949 allegations were referred for investigation.

Mr. Andrew Turner: To ask the Deputy Prime Minister in how many cases referred by the Standards Board for England for investigation in the last 12 months for which figures are available it was found that *(a)* there was no evidence of failure to comply with the code, *(b)* no further action was required, *(c)* the matter should be referred to the monitoring officer of the local authority and *(d)* the matter should be referred to the adjudication panel. [25753]

Mr. Woolas: The information requested in respect of the investigations completed by ethical standards officers of the Standards Board for England in 2004–05 is as follows.

(a) 310 cases—no evidence was found of a failure to comply with the code of conduct for members.

(b) 947 cases—no further action was required.

(c) 78 cases—referred to local authority monitoring officers.

(d) 111 cases—referred to the Adjudication Panel for England.

Mr. Andrew Turner: To ask the Deputy Prime Minister what the average cost of a case referred to the Standards Board for England was where the finding was *(a)* no breach, *(b)* no further action appropriate and *(c)* referred for investigation in the last 12 months for which figures are available. [25754]

Mr. Woolas: The Standards Board for England estimates that the average cost for them to make a referral decision in 2004–05 was £225, regardless of the decision made. The Board does not separately record costs in respect of the specific referral decisions made.

The average cost of an investigation into an allegation of a breach of the code of conduct by members of local authorities is about £5,000 per case.

Sustainable Development

David Howarth: To ask the Deputy Prime Minister if he will make a statement on his Department's performance against its key sustainable development impacts over the last 12 months. [24391]

Jim Fitzpatrick: The Office of the Deputy Prime Minister played a full part in preparing the UK Sustainable Development Strategy, "Securing the Future", which was launched in March 2005. The UK Sustainable Development Strategy makes clear that sustainable communities represent sustainable development at a local level.

The Office of the Deputy Prime Minister's Annual Report describes progress in creating sustainable communities and gives details on our key performance indicators.

Copies of the UK Sustainable Development Strategy and the Department's Annual Report are in the Library of the House.

The Office of the Deputy Prime Minister will be producing a Sustainable Development Action Plan in December 2005, which will set out the steps the Office is taking to contribute to the delivery of the Strategy, including arrangements for monitoring progress.

Travellers

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 11 October 2005, *Official Report*, column 445W, on Travellers, for what reasons copies of the written reports were not deposited in the Libraries at the time of the written answer; and whether copies have now been deposited in the Library. [22259]

Yvette Cooper: The letters were not deposited at the time of the written answer due to an administrative oversight for which I apologise. The documents have been made available in the Libraries of the House.

FOREIGN AND COMMONWEALTH AFFAIRS

African Union

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress the Government have made in assisting the African Union in meeting its commitments, with particular reference to full troop deployment in Darfur. [24394]

Ian Pearson: The UK has committed £19 million funding this year to the African Union Mission in Sudan (AMIS). This brings our total contribution to AMIS, since its inception, to almost £32 million. We are using this money to provide equipment, including 950 vehicles of which we have already purchased 450, and to provide military and civilian policing advice, expertise and training. We have also used some of our contribution to fund airlift of troops into Darfur.

The UK and international partners have urged the African Union to carry out a further assessment mission to examine the effectiveness of the expanded AMIS and present recommendations for the future, including whether any further expansion is required. We expect this mission will take place in the coming weeks.

Departmental Skills Development Plan

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs which individual is responsible for developing and implementing his Department's Skills Development Plan. [23844]

Mr. Straw: The Foreign and Commonwealth Office's (FCO) Skills Development Plan is the responsibility of Ms Gerry Reffo, Head of the FCO's Professional Development Policy Team.

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of his Department's Skills Development Plan. [23868]

Mr. Straw: The Foreign and Commonwealth Office is reviewing its departmental Skills Development Plan in line with the Professional Skills in Government (PSG) initiative, to reflect, in particular, the skills audit taking place at present and the changes in training that the PSG is helping to bring about. A revised version of the Skills Development Plan will be prepared by the end of January 2006 and placed in the Library of the House.

Departmental Sponsorship

Mr. Peter Ainsworth: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list formal consultations being sponsored by his Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22568]

Mr. Straw: The joint Foreign and Commonwealth Office (FCO) and Home Office Forced Marriage Unit launched a full public consultation on whether to introduce a new forced marriage criminal offence. This was launched on 5 September and will last until 5 December. On 20 October we started a consultation on our Consular Guide, which sets out what the FCO can and cannot do for British nationals in difficulty abroad. This will last until the end of November. The FCO has also contributed to consultations of other Government Departments, such as the 16 week consultation on managed migration routes to the UK which was launched on 19 July and on which the FCO and Home Office organised a joint seminar with foreign embassies. In addition to formal consultations, we frequently seek the views of a range of stakeholders in setting strategy, for example our sustainable development strategy, published in March this year, and in forming policy.

Departmental Staff (Qualifications)

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23776]

Mr. Straw: All entry points into the Foreign and Commonwealth Office, save one, require candidates to have a minimum of a level 2 in English and Mathematics. The exception is for new recruits at Administrative Assistant level who are required to have a minimum of GCSE grade A*-C (or equivalent) in English Language. An educational qualification in Mathematics is not required, although numeracy is tested during ability tests.

In 2005–06, 65 candidates have been successful at Administrative Assistant level, subject to pre-appointment checks. Of these 65 candidates, 22 do not have the equivalent of a level 2 in Mathematics.

European Constitution

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made *(a)* to the European Commission and *(b)* to other EU member states on the inclusion of a €6 million provision in next year's EU budget for promoting the European Constitution. [26242]

Mr. Douglas Alexander: The European Commission has requested a further €6 million from the EU budget to support work on the Future of Europe debate. The EU's budget for 2006 must be agreed between the European Council and the European Parliament. The Commission initiated this process by proposing a Preliminary Draft Budget, which was amended by the Council in its first reading on 15 July to form the Draft Budget. The European Parliament agreed its own amendments to the Draft Budget on 27 October, and the Council will conclude its second reading on 24 November. The budget will then go back to the European Parliament, hopefully for approval at its plenary on 13–15 December. In this context, the UK has worked closely with other member states to find agreement on the 2006 budget, but no member state has yet made any specific representations on the €6 million requested by the European Commission to support work on the Future of Europe debate.

European Union Border Controls

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will visit the new eastern border of the EU to see the border controls in place to protect the EU from illegal immigration. [25338]

Mr. Douglas Alexander: The UK co-operates closely with all EU member states on measures to strengthen the external borders, including those responsible for managing the new Eastern border. We fully support the aims and objectives of Frontex, the new European Border Agency based in Warsaw, to which we have seconded two UK officials. This will ensure more structured and effective co-operation between member states. We also work bilaterally and through the EU with accession, candidate and third countries to strengthen their border management capacity, including through ministerial visits when necessary.

My right hon. Friend the Foreign Secretary has no plans at present to visit the Eastern border.

European Union Budget

Mr. Bone: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress towards agreeing a budget for the European Union under the United Kingdom's presidency. [24455]

Mr. Douglas Alexander: I refer the hon. Member to the statement made by my right hon. Friend the Foreign Secretary to the House on 1 November 2005, *Official Report*, columns 707–09.

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to ask his French counterpart to increase that country's budget contributions to the EU. [25329]

Mr. Douglas Alexander: I refer the hon. Member to the statement made by my right hon. Friend the Foreign Secretary on 1 November 2005, *Official Report*, columns 707–09. The Foreign Secretary made clear that we speak regularly to our French counterparts, as we do with all EU member states, on the way to take forward the future financing negotiations.

G8 Summit (Gleneagles)

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost to public funds was of hosting the G8 summit at Gleneagles. [25832]

Ian Pearson: An estimate for the organisational costs of the G8 summit of £12.1 million has been made available on the G8 website at www.g8.gov.uk. A breakdown of this figure is nearly ready for publication. The process has been delayed to allow some suppliers to submit final invoices.

These details will be placed in the Library of the House, before also being made available on the G8 website.

Securing the Gleneagles summit was the responsibility of the Devolved Administration and I understand that Scottish Ministers are separately preparing to release details of these costs.

Ireland

Mark Durkan: To ask the Secretary of State for Foreign and Commonwealth Affairs which of the bilateral treaties, conventions, agreements and similar instruments made between the United Kingdom and Ireland from 1921 to date are still in force. [24739]

Mr. Douglas Alexander: The United Kingdom has entered into 66 bilateral treaties with Ireland since 1 January 1921. Five of those treaties have been expressly terminated leaving 61 still in force. A list of the treaties concerned has been placed in the Library of the House.

Pakistan

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights in Pakistan. [25340]

Dr. Howells: We remain concerned by the human rights situation in Pakistan and we continue to raise these concerns with the Government of Pakistan, both bilaterally and through the European Union. We believe that doing this through the collective voice of the European Union is the most effective way of expressing these concerns.

Tibet

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese Government on the arrest of *(a)* Sonam Gyalpo from Lhasa and *(b)* four monks from the Labrang Tashikyil Monastery in the Gansu Province of Tibet; and if he will make a statement. [24204]

Ian Pearson: The Government are very concerned about Tibetans who find themselves in prison for actions which we consider to be the peaceful expression of political, cultural, and religious rights. We have made representations on behalf of many such prisoners over the years and will continue to do so. The Government will look to raise specific cases of concern brought to our attention by non-governmental organisations at appropriate opportunities. A number of Tibetan prisoners were raised as part of the EU China Human Rights Dialogue held on 24 October in Beijing.

Turkish Republic of Northern Cyprus

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the lifting of embargoes on the Turkish Republic of northern Cyprus. [24831]

Mr. Douglas Alexander: There are no actual embargoes in force against north Cyprus, but the lack of a settlement of the Cyprus problem and the suspension of the EU acquis in the north do make many issues, including trade, more difficult.

The Government strongly supports the EU's commitment, set out at the General Affairs and External Relations Council on 26 April 2004, to end the isolation

of the Turkish Cypriot community and facilitate the reunification of Cyprus by encouraging the economic development of the Turkish Cypriot community. We will continue our efforts during our Presidency of the EU in working with the European Commission and member states towards achieving this aim.

Uganda

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the outcome of the referendum in Uganda in July. [24434]

Ian Pearson: The UK issued a statement on 5 August, on behalf of the European Union, following the 28 July referendum on the political transition in Uganda. The statement welcomed the decision of the Ugandan people to endorse the re-introduction of a multi-party political system. This represents a significant step forward for democratic accountability in Uganda.

Uganda now needs to ensure that the necessary legislation for multi-party politics is in place well before the elections in February or March 2006. The ruling Movement party and in particular its Secretariat should also be fully separated from the state.

Mark Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress towards a resolution to the conflict in Northern Uganda. [24436]

Ian Pearson: The UK remains concerned at the continuation of the 19 year conflict in Northern Uganda and the serious humanitarian situation for the more than 1.4 million people still living in camps for internally displaced people.

The UK continues to call on the Government of Uganda to ensure that all of its citizens are protected and provided for. A recent upsurge in violent attacks in northern Uganda has led to the UN and other humanitarian organisations suspending field missions. This is a matter of grave concern.

The International Criminal Court (ICC) unsealed its first warrants on 13 October for the arrest of five Lord's Resistance Army (LRA) commanders. The UK is a strong supporter of the work of the ICC and calls on all those involved to work to facilitate the arrest of the individuals subject to the warrants. The UK is encouraging Uganda to work hard to encourage all members of the LRA, not subject to ICC or national arrest warrants, to seek amnesty, reconciliation and reintegration into their communities.

WORK AND PENSIONS

Benefits

Dr. Kumar: To ask the Secretary of State for Work and Pensions how many people claiming *(a)* jobseeker's allowance and *(b)* disability benefit have more than five GCSEs or equivalent qualifications in (i) England, (ii) the Tees Valley and (iii) Middlesbrough, South and East Cleveland constituency. [26488]

Mr. Plaskitt: The information is not available.

Mike Penning: To ask the Secretary of State for Work and Pensions how many people received *(a)* housing benefit, *(b)* council tax benefit, *(c)* income support and *(d)* incapacity benefit in the constituency of Hemel Hempstead, in each year since 1997. [24039]

Mr. Plaskitt: The available information is in the tables.

Housing benefit and council tax benefit caseloads in Dacorum borough council, May 1997–2005

	Housing benefit	Council tax benefit
1997	8,100	9,000
1998	7,600	8,500
1999	7,100	8,000
2000	7,000	7,900
2001	6,700	7,600
2002	6,500	7,400
2003	6,700	7,500
2004	6,900	7,800
2005	7,100	8,200

Notes:

1. Figures for housing benefit and council tax benefit are not available for parliamentary constituencies.
2. The data refer to benefit units, which may be a single person or a couple.
3. Figures have been rounded to the nearest hundred.
4. Council tax benefit totals exclude any second adult rebate cases.
5. Housing benefit figures exclude any extended payment cases.

Incapacity benefit and severe disability allowance claimants in the Hemel Hempstead parliamentary constituency, May 2000–05

1997	2,500
1998	2,500
1999	2,600
2000	2,500
2001	2,600
2002	2,700
2003	2,800
2004	2,800
2005	2,800

Notes:

1. Caseload figures are rounded to the nearest hundred.
2. Claimants include incapacity benefit, severe disability allowance and national insurance contributions-only cases.

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study.

Mr. Davey: To ask the Secretary of State for Work and Pensions how many people in Kingston and Surbiton constituency have received *(a)* widows benefit, *(b)* housing benefit, *(c)* council tax benefit and *(d)* income support in each year since 1997. [23887]

Mr. Plaskitt: The available information is in the tables.

Bereavement benefit and widows benefit recipients in the Kingston and Surbiton parliamentary constituency: May 2000–05

As at May:	Bereavement benefit	Widows benefit
2000	n/a	400
2001	n/a	300
2002	100	300
2003	100	200
2004	100	200
2005	100	200

Notes:

1. n/a = not applicable; bereavement benefit replaced widows benefit for new claims in April 2001
2. Caseload figures are rounded to the nearest hundred.
3. Breakdown by parliamentary constituency is not available prior to May 2000.

Bereavement Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of men who lost their wives and who claimed for widows and bereavement benefits prior to 1 April 2001 but whose claims were rejected are now eligible to claim retrospectively for *(a)* widow's bereavement allowance and *(b)* bereavement payment; and if he will make a statement on eligibility to backdated widows' and bereavement benefits in cases where the wife of a man died before 1 April 2001. [26259]

Mr. Plaskitt: Bereavement benefits were introduced on 9 April 2001 for both men and women. Prior to this date there was no provision to pay widows' benefits to men and this is still the case.

The Government have decided to offer settlement on claims for discrimination relating to widowed mothers' allowance and widow's payment, but only to those widowers who have an admissible case in the European Court of Human Rights and who satisfy the benefit conditions and made their original claim at the correct time. Widowers who were unsuccessful in the recent cases before the House of Lords were able to take their case to Europe provided they did so by 4 November 2005 (six months from the House of Lords ruling). We are not currently aware of how many cases may be involved.

Any claims for widow's payment or widowed mothers' allowance by a man whose wife died before 9 April 2001 and who has not previously made an application to the European Court or was not involved with the domestic cases will now be too late. Any claims received from widowers at Jobcentre Plus or social security offices will be subject to the usual late claim rules and will be disallowed because they are out of time. In deciding on this approach we have been guided by previous admissibility decisions of the European Court of Human Rights in widowers' cases.

Child Support

Mr. Laws: To ask the Secretary of State for Work and Pensions how many potential child support cases are awaiting processing at the point of entry for benefit cases via the Jobcentre Plus interface. [18698]

Mr. Plaskitt: At the end of August 2005 there were 85,000 such cases. However, in addition to new valid applications this figure includes applications where there is insufficient information available to identify the non-resident parent, and changes of circumstance in relation to an existing case.

Correspondence

Mr. Davey: To ask the Secretary of State for Work and Pensions when he will reply to the correspondence dated 22 March and 1 April from the hon. Member for Kingston and Surbiton with regard to Mr. Stephen Stone, reference Ston010, sent again on 4 July. [23877]

Mr. Plaskitt: I replied to the hon. Member on 31 October. I am sorry that the hon. Member's correspondence was handled incorrectly in the Department.

Departmental Energy Consumption

Norman Lamb: To ask the Secretary of State for Work and Pensions how much energy has been consumed by his Department in each of the last five years; and how much was spent on energy in each year. [22466]

Mr. Plaskitt: The figures for energy consumption and costs are in the table. The Department for Work and Pensions was created in June 2001. From July 2002, the figures include the Health and safety Executive, and from April 2004, the Rent Service.

	Consumption (KwH)	Cost (£)
2001–02	694,310,805	16,397,153
2002–03	715,754,197	19,051,582
2003–04	730,616,284	20,418,022
2004–05	757,031,373	24,501,543

Departmental Policies

Mrs. Hodgson: To ask the Secretary of State for Work and Pensions if he will set out, with statistical evidence relating as closely as possible to Gateshead, East and Washington, West constituency, the effects in Gateshead, East and Washington, West of changes to his Department's policies since 1997. [22280]

Mrs. McGuire: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Gateshead, East and Washington, West will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 29 per cent. of adults and 6 per cent. of children in north-east region are likely to be covered by the provisions of the DDA.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.8 million; in Gateshead, East and Washington, West, the proportion in employment has risen to 76.4 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.4 million people have been helped into work by the new deals, with over 2,780 in Gateshead, East and Washington, West alone.

Significant progress has been made in tackling child poverty and the latest figures (for 2003–04) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. Child rates in income support and jobseeker's allowance have been increased by 40 per cent. since 2001–02, increasing above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 1,800 families in Gateshead, East and Washington, West.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the least well off pensioners. The Government will be spending nearly £11 billion extra in 2005–06 on pensioners as a result of measures introduced since 1997. Almost half of this spending going to the least well off third.

Our reforms include the state second pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of May 2005, around 5,300 pensioners in Gateshead, East and Washington, West are receiving pension credit, with an average award of £36.44 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2005–06) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for 2005–06, eligible households with someone aged 65 or over, not receiving the guarantee element of pension credit will receive a one-off payment of £200 to help with their council tax bills. It is paid with the winter fuel payment, and one-off payment of £50 for pensioner households with someone aged 70 and over in receipt of the pension credit guarantee in recognition of the fact that the oldest and poorest pensioners are likely to be disproportionately affected by the rise in cost of living expenses.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 7 per cent. respectively. Some 15,200 pensioners in Gateshead, East and Washington, West have benefited from this increase.

Housing Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the annual cost to *(a)* the Exchequer and *(b)* local authorities of a 10 per cent. reduction in the housing benefit taper; [18677]

(2) what estimate he has made of the annual cost to *(a)* the Exchequer and *(b)* local authorities of a five per cent. reduction in the council tax benefit taper. [18678]

Mr. Plaskitt: There will be no cost to local authorities for paying additional benefit as this will be met by the Department. The only impact to local authorities will be associated with the processing and maintenance of additional new claims, the numbers of which are in the table. The Department does not collect management information relating to the cost to authorities of processing and maintaining claims.

The available information is in the table.

Cost associated with reducing housing benefit (HB) and council tax benefit (CTB) tapers

	Number of new beneficiaries floating on	*Number of existing beneficiaries gaining*	*Cost in annually managed expenditure (£ million per year)*
Reducing the HB taper from 65 per cent. to 55 per cent.	125,000	875,000	230
Reducing the CTB taper from 20 per cent. to 15 per cent.	370,000	1,115,000	155

Notes:

1. All figures are for Great Britain.
2. Beneficiaries are rounded to the nearest five thousand and costs are rounded to the nearest £5 million.
3. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
4. The impact is estimated using the Department's Policy Simulation Model for 2005–06, using data from the 2003–04 Family Resources Survey up-rated to 2005–06 prices, benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.
5. Results are subject to sampling and reporting errors and estimation assumptions, and are therefore indicative only. No behavioural changes are assumed.

Mr. Dismore: To ask the Secretary of State for Work and Pensions what the average housing benefit payment was to tenants in social rented accommodation in each local authority area in England in *(a)* 1991 and *(b)* 2004. [24225]

Mr. Plaskitt: The information is not available for 1991. The available information for 2004 has been placed in the Library.

Incapacity Benefit

Jim Cousins: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women (i) over and (ii) under the age of 50 years were claiming incapacity benefit in each (A) region and (B) country of the UK in the last period for which figures are available, broken down by the number of years for which claimants had been on the benefit. [25309]

Mr. Timms: The available information is in the table.

Number of incapacity benefit and severe disability allowance claimants in Great Britain, by age, gender, region, and duration of claim at 31 May 2005

	All	Up to 6 months	6–12 months	1–2 years	2–3 years	3–4 years	4–5 years	Thousand 5 years and over

DWP Information Directorate: Work and Pensions Longitudinal Study 100 per cent. data.

Jim Cousins: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women (i) over and (ii) under 50 years were claiming incapacity benefit in each (A) (1) region and (2) country of the UK and (B) social services authority area in the last period for which figures are available. [25310]

Mrs. McGuire: The information is not available in the format requested. The information for Great Britain and local authorities in Great Britain has been placed in the Library.

Jim Cousins: To ask the Secretary of State for Work and Pensions what the expenditure on incapacity benefit was in each *(a)* region and *(b)* country of the UK in the last period for which figures are available. [25311]

Mr. Timms: The available information is in the table.

Incapacity benefit expenditure 2003–04

£ million

	Nominal terms	Real terms (2005–06 prices)
Great Britain	6,641	6,942
England	5,184	5,418
North East	493	516
North West	1,106	1,156
Yorkshire and The Humber	623	651
East Midlands	475	497
West Midlands	630	659
East of England	409	427
London	509	532
South East	510	533
South West	428	448
Wales	611	638
Scotland	809	846

Notes:

1. Benefit expenditure in Northern Ireland is the responsibility of the Northern Ireland office.
2. Great Britain expenditure consistent with Budget 2005.
3. Country and Government Office Region expenditure is derived from data underlying the Analysis of Public Expenditure by Country and Region 2005.
4. Does not include overseas expenditure.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of the 17,000 claimants with recorded job entries in Pathways to Work pilots *(a)* returned to incapacity benefits and *(b)* claimed jobseeker's allowance within (i) one month, (ii) two months, (iii) six months and (iv) 12 months in the latest period for which figures are available; and if he will make a statement on the assessment that has been carried out of those claimants of incapacity benefit with recorded job entries in the pilot areas who subsequently returned to benefits. [26262]

Margaret Hodge: Moving into employment from incapacity benefits is a major transition for many people. Over half of those claiming incapacity benefits have been claiming for more than eight years and have a range of barriers to overcome in addition to their health condition. We recognise the challenge that the transition to work represents but we want to support and encourage people to make this transition to transform their life-chances. For example, we have already extended the linking rules so that people who take the risk of leaving incapacity benefits can return to previous benefit levels.

The statistical information requested is in the table.

Proportion of job entrants in Pathways to Work areas returning to benefit

	Incapacity benefit	*Jobseeker's allowance*	*Percentage Incapacity benefit or jobseeker's allowance*
Within 1 month	3	2	5
Within 2 months	5	4	9
Within 6 months	11	9	19
Within 12 months	14	12	24

Note:

Data are to the end of August 2005.

Sources:

1. The statistics quoted in this response are taken from the Pathways to Work Evaluation Database.
2. The benefits data are taken from the Department's 100 per cent. Benefits Database.

New Deal

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's contribution to the establishment of the New Deal for Skills. [21815]

Margaret Hodge: The Departments for Work and Pensions, Education and Skills, Trade and Industry and Treasury have worked jointly to develop a package of measures that are known collectively as New Deal for Skills. DWP and DfES are taking the work forward as a joint project.

New Deal for Skills comprises three main strands: Skills Coaching, Skills Passports and the Adult Learning Option. DWP have been actively involved in the design and delivery of the DfES funded Skills Coaching and Skills Passports trials. DWP are then funding and managing the evaluation work for the Skills Coaching and Skills Passports trials. We expect the full evaluation report to be available next summer.

DWP have lead responsibility for the work to pilot the Adult Learning Option from September 2006. This will test the effectiveness of providing financial support to encourage low skilled Jobcentre Plus customers to take up full-time Level 2 further education courses, where a lack of skills stops them entering the labour market.

More detail on the New Deal for Skills may be found in "Skills and the Global Economy" and "Skills:Getting on in Business, getting on at work"(Cm6483). Both documents are available in the Library.

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions which training companies providing courses under the new deal for young people he expects to have their contracts renewed. [25200]

Margaret Hodge: Contracts for new deal for young people are currently being re-tendered, to run for a minimum of two years from April 2006. The competitive tendering process is in two stages. The closing date for first stage bids is 4 November in most instances. All bids received will be carefully evaluated against published criteria, and those bidders who are successful at that stage will be invited to submit second stage bids. Contracts will be awarded in early 2006.

Organisations currently providing new deal training services for young people are entitled to bid for these new contracts. We cannot pre-empt the results of the procurement process, but it is likely that many current providers will be successful in winning further work for Jobcentre Plus, either in their own right or as sub-contractors to other training providers.

Pensions

Mr. Brady: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of people in receipt of UK state pensions which have been frozen due to their residence in countries without reciprocal pension arrangements with the UK; [26245]

(2) what estimate he has made of the cost of *(a)* up-rating all frozen overseas pensions from 1 January 2006 and *(b)* backdating them to the point at which they were first frozen; [26243]

(3) what estimate he has made of the net cost of establishing reciprocal pension arrangements with all countries which have no such agreement with the UK. [26244]

Mr. Timms: At 31 October 2005 approximately 510,000 UK state pensions were in payment to people residing outside the European economic area (EEA) in a country with which the UK do not have a reciprocal agreement covering the uprating of pensions.

Benefits are normally uprated in April. The estimated cost of uprating these pensions from April 2006 is £20 million in 2006–07. This increases to £110 million by 2009–10 and with ongoing increases thereafter.

If the rate paid was restored to that which would have been payable had the individuals concerned remained in the UK and arrears of benefit were paid in respect of earlier periods during which the pension had not been uprated—the cost would be in the region of £3 billion in 2006–07, with ongoing costs of £400 million per annum rising over subsequent years

The UK state pension is currently paid in over 150 countries outside the EEA with which the UK do not have a reciprocal agreement covering the uprating of pensions. The fundamental requirements for any reciprocal agreement on the uprating of pensions are that the 'other' country has a system for paying the equivalent of the UK state pension and that there is reciprocity of costs. It is not possible to estimate the net costs of establishing reciprocal agreements as the Department do not hold information on:

a) what (if any) pension systems exist in many of the countries in question; and

b) the numbers of people resident in the UK who would as a result of reciprocal agreements become eligible for pensions under the systems of the countries in question.

Pension Commission

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what the cost of the Pension Commission has been to date. [25054]

Mr. Timms: The Pensions Commission's estimated monthly average costs between April 2003 and September 2005 are as follows:

	£
Cost of:	
Pensions Commissioners' time	0
Pensions Commission Secretariat staffing	33,000
Pensions Commission non-staff costs	8,000
Pensions Commission social research	8,000

Notes:
1. Figures are rounded to the nearest 1000.
2. The Department meets the costs of general office overheads e.g. accommodation, IT etc. Consequently, these costs are not separately identifiable from DWP's running costs.

Recycled Paper

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much paper his Department used in each year since 1997; how much was recycled paper; and if he will make a statement. [21611]

Mr. Plaskitt: Paper usage, for the Department for Work and Pensions, as reported in the Greening Government, and Sustainable Development in Government report, is summarised in the table.

	Office paper (reams)	*Percentage of recycled paper*	*Paper for printed publications (tonnes)*	*Percentage of recycled paper*
2001–02	[1] 1,330,392	1.35	[3] 8,434	16
	[2] 494,290	0.77	—	—
2002–03	1,933,634	3.17	5,164	41
2003–04	2,149,853	5.3	5,655	4.2
2004–05	1,908,633	10.85	[3] —	[3] —

[1] DSS only.
[2] ES
[3] Information not available.

The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment including the former Employment Service (ES).

In September 2005 new contracts for stationery and paper for printed publications were let. This will make the use of recycled paper the standard across DWP.

Jobseeker's Allowance

Mr. Laws: To ask the Secretary of State for Work and Pensions what the off-flow from jobseeker's allowance was in each year since 1997 for *(a)* the UK, *(b)* each region and *(c)* each parliamentary constituency, broken down by reason; and what percentage of jobseeker's allowance off-flow this represented in each case. [18622]

Mr. Plaskitt: The information has been placed in the Library.

Unemployment

Mr. Gerrard: To ask the Secretary of State for Work and Pensions how many unemployed or economically inactive adults wanting to work *(a)* held a Level 2 qualification and (i) had and (ii) did not have a limiting longstanding health condition and *(b)* did not hold a Level 2 qualification and (A) had and (B) did not have a limiting longstanding health condition in (1) 1997 and (2) 2005. [23285]

Margaret Hodge: The information requested is in the following table:

	1997	*2005*
Number of unemployed or economically inactive adults wanting to work who held a Level 2 qualification or above	2,223,000	1,958,000
Of these:		
Number of those with limiting longstanding health condition	259,000	292,000
Number of those without a limiting longstanding health condition	1,964,000	1,666,000

	1997	2005
Number of unemployed or economically inactive adults wanting to work who did not hold a Level 2 qualification	2,082,000	1,345,000
Of these:		
Number of those with limiting longstanding health condition	411,000	321,000
Number of those without a limiting longstanding health condition	1,671,000	1,024,000

Notes:
1. The figures are for Great Britain.
2. The figures are based on ILO definitions of unemployment and economic inactivity.
3. The economic inactive group includes students and retired people.

Source:
The 1997 Labour Force Survey (summer quarter) and the 2005 Labour Force Survey (summer quarter).

Mr. Boswell: To ask the Secretary of State for Work and Pensions what the change was in claimant count unemployment attributable to *(a)* new claims and *(b)* changes in the duration of existing claims in each of the last 12 calendar months. [24766]

Mr. Plaskitt: The information requested is in the following table.

Unemployment claimant count September 2004 to September 2005

	Claimant count	Inflows—new claimants	Stock—existing claimants	Monthly change in claimant count	Monthly change in inflows	Change due to changes in duration
September 2004	836,000	198,300	637,700	—	—	—
October 2004	836,400	200,300	636,100	400	2,000	-1,600
November 2004	831,900	198,900	633,000	-4,500	-1,400	-3,100
December 2004	825,000	201,200	623,800	-6,900	2,300	-9,200
January 2005	813,800	197,700	616,100	-11,200	-3,500	-7,700
February 2005	817,700	201,500	616,200	3,900	3,800	100
March 2005	831,300	203,900	627,400	13,600	2,400	11,200
April 2005	842,100	204,400	637,700	10,800	500	10,300
May 2005	856,100	211,700	644,400	14,000	7,300	6,700
June 2005	863,200	204,900	658,300	7,100	-6,800	13,900
July 2005	864,600	201,300	663,300	1,400	-3,600	5,000
August 2005	867,300	202,400	664,900	2,700	1,100	1,600
September 2005	875,500	197,600	677,900	8,200	-4,800	13,000

Notes:
1. Figures are for UK, seasonally adjusted, and to the nearest 100.
2. Inflows are standardised to a four ½ week month.

Office for National Statistics data (available at www.nomisweb.co.uk).

Widow's Benefit

Tom Brake: To ask the Secretary of State for Work and Pensions if he will issue clear guidance on how claimants should claim widow's benefit following the European Court of Human Rights ruling. [26219]

Mr. Plaskitt: We are unable to issue guidance for claims to widows' benefits from men. We introduced Bereavement Benefits from 9 April 2001 for both men and women but before this date there was no provision for the payment of widows' benefits to men. This remains the case today.

On 5 May 2005 the House of Lords unanimously rejected widowers' claims concerning payment of widows' payment and widowed mothers' allowance before April 2001. They also found the Government to be justified in not paying Widows Pension to widowers.

Any application for widows' payment or widowed mothers' allowance from a man whose wife died before 9 April 2001 and who either has not made an application to the European Court of Human Rights or was not part of proceedings in the domestic courts will now be too late.

Mental Health (Employment)

Helen Jones: To ask the Secretary of State for Work and Pensions what recent discussions he has had on helping those with mental health problems to find work. [22066]

Margaret Hodge: There are ongoing discussions with officials, lobby groups and our voluntary community and private sector partners about how we can do more to help people with mental health problems find work. We will ensure that the needs of this group are considered as part of our wider welfare reform plans.

CONSTITUTIONAL AFFAIRS

Asylum Seekers

Mr. Clegg: To ask the Minister of State, Department for Constitutional Affairs how many legal aid franchises in asylum work were operating in *(a)* England and Wales and *(b)* the Yorkshire and Humberside region in each of the last five years for which figures are available. [19038]

Bridget Prentice: The information is as follows:

(a) The numbers of immigration asylum and non-asylum legal aid franchises in England and Wales are as follows:

April to March each year	Franchises
2000–01	545
2001–02	591
2002–03	644
2003–04	604
2004–05	491
2005-To date	398

(b) The numbers of immigration and asylum legal aid franchises in the Yorkshire and Humberside region are as follows:

April to March each year	*Franchises*
2000-01	32
2001-02	32
2002-03	33
2003-04	31
2004-05	25
2005-To date	15

Mr. Clegg: To ask the Minister of State, Department for Constitutional Affairs what steps are being taken by the Legal Services Commission to ensure adequate legal advice for asylum seekers in the Yorkshire and Humberside region. [19041]

Bridget Prentice: There are currently 15 specialist providers of immigration and asylum services across the Yorkshire and Humberside region funded by the Legal Services Commission (LSC), working across 19 different locations.

The LSC recognises that there is currently an imbalance between the adequacy of legal advice provision in the South Yorkshire and Humber area as compared to West Yorkshire, with a degree of unmet need occurring in South Yorkshire and Humber.

As a result, the LSC is currently tendering for 3,335 additional New Matter Starts, which increases the amount of legal aid work suppliers can do to match demand, in immigration to ensure adequate provision of publicly funded immigration and asylum services across the Yorkshire region. The emphasis will be on Hull for the Humber area, and on Sheffield for the South Yorkshire area.

In addition, the LSC has worked with the Immigration Advisory Service (IAS), a national supplier of legal services, to establish an outreach service run in conjunction with members of the local Community Legal Service Partnership. This service has been extremely successful and has recently extended its availability to two days per week.

Coroners

Grant Shapps: To ask the Minister of State, Department for Constitutional Affairs pursuant to her answer of 2 November 2005, *Official Report*, column 1164W, when she expects to make a statement on reforms of the coroners' system. [25611]

Ms Harman: I expect to make a statement in early 2006.

Electoral Administration Bill

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs if she will place in the Library annotated copies of Acts proposed to be substantially amended by the Electoral Administration Bill, showing in each *(a)* the omissions and *(b)* the additions proposed by the Bill. [24966]

Ms Harman: The only Act that is substantially amended by the Electoral Administration Bill is the Representation of the People Act 1983 (RPA). A Keeling schedule for the RPA, setting out the amendments proposed in the Bill, is available on the DCA website at http://www.dca.gov.uk/legist/keeling.htm and will be placed in the Commons Library.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 17 October 2005, *Official Report*, column 752W, on the Electoral Administration Bill, if she will deposit copies of the responses received by her Department in the Library. [25589]

Ms Harman: I will be happy to place the responses in the Library once I have confirmed with the authors that they are content for me to do so.

Entry Clearance

Tony Baldry: To ask the Minister of State, Department for Constitutional Affairs when Balvir Kamar reference IMM/ECR/1195812/OJ/NS will receive notification of his application for entry clearance. [25465]

Bridget Prentice: Checks with officials at UK Visas have confirmed that that the reference provided in the question relates to an appeal from a Balvir Kaur, and not the name provided.

Officials at the Asylum and Immigration Tribunal (AIT) have confirmed that the appeal of Balvir Kaur has been received from the diplomatic post, processed and allocated a case number. The appeal will be allocated a hearing date before an Immigration Judge within the next 10 working days which will be confirmed to all parties to the appeal in writing.

Tony Baldry: To ask the Minister of State, Department for Constitutional Affairs when Muhammad Shabir (reference 973021) will receive notification of appeal for entry clearance. [25466]

Bridget Prentice: The Asylum and Immigration Tribunal (AIT) has confirmed that the appeal for Muhammad Shabir, matching the reference provided in the question, has been received from the diplomatic post, processed and allocated a case number. The appeal has been listed for a substantive hearing before an Immigration Judge on 2 December 2005 with a notice of hearing confirming this date sent to all parties to the appeal.

Freedom of Information

Norman Baker: To ask the Minister of State, Department for Constitutional Affairs how many requests under the Freedom of Information Act 2000 have been submitted to the Central Clearing House in each month since the inception of that unit, broken down by public authority. [25051]

Ms Harman *[holding answer 7 November 2005]:* The Access to Information Central Clearing House received 3,006 referrals between 1 January and 31 October 2005.

I will write to my hon. Friend providing a full response to his question breaking down this volume of referrals both by month and department and copies will be placed in the Libraries of both Houses.

IT Projects

Mr. Laws: To ask the Minister of State, Department for Constitutional Affairs how many IT projects have been developed for her Department since 2001; and whether she has agreed to make public the Gateway Reviews for these projects *(a)* in full and *(b)* in part. [23515]

Bridget Prentice: In common with any large organisation, IT based change projects in my Department range in scale from the very small (say simply involving a small number of new PCs) to those having strategic importance for the Department as a whole. In the strategic group, there have been three change programmes: Libra (covering the magistrates courts); CTMP (covering the Crown court and county court) and ARAMIS (covering headquarters areas).

The basis of Gateway Review is that they are conducted on a confidential basis for the Senior Responsible Owner (SRO). This is to promote an open and honest exchange between the programme/project teams and review teams. For this reason, gateway reports are not routinely published by my Department.

In line with the Freedom of Information Act, requests for disclosure of Gateway reviews are dealt with on a case by case basis. Of the three DCA programmes, one gateway review—the Libra Gate 3 review report—has, in part, been released.

Parliamentary Constituencies

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs what new parliamentary constituencies the Government expect to be in operation following the reviews made by the Boundary Commission for England. [25587]

Ms Harman: The final report of the Boundary Commission in relation to parliamentary constituencies in England has yet to be published. The Boundary Commission for England is an independent body and the Government cannot comment on any potential final recommendations at this stage.

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs when the Government expect to lay the draft order implementing the recommendations of the Boundary Commission for England in relation to changes to parliamentary boundaries. [25588]

Ms Harman: The final report of the Boundary Commission in relation to parliamentary constituencies in England has yet to be published. The report and draft order will be laid before Parliament as soon as practicable after they have been submitted to the Secretary of State.

Skills for Life Strategy

Mr. Gibb: To ask the Minister of State, Department for Constitutional Affairs which individual is responsible for developing and implementing her Department's Skills for Life strategy. [23854]

Bridget Prentice: I refer the hon. Member to the answer given by my right hon. Friend the Member for Barrow and Furness (Mr. Hutton) on 2 November 2005, *Official Report*, column 1074W.

HEALTH

Nursing Degrees (Placements)

Dr. Whitehead: To ask the Secretary of State for Education and Skills what measures she is taking to ensure that satisfactory placements are available to students studying for degrees in nursing. [22051]

Mr. Byrne *[holding answer 27 October 2005]:* This is a matter for higher education institutions in discussion with the national health service. Strategic health authorities continue to work with the NHS and higher education partners to ensure that there are high quality placements for the number of nursing students in training. The provision and quality of clinical placements are also important elements of the new national contract for commissioning nurse training.

Ambulance Service Trusts (West Midlands)

Mr. Jenkins: To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management costs by each NHS ambulance service trust in the West Midlands area, expressed (i) as a percentage of their total budgets and (ii) as the cost per head of population in the areas they cover, in the latest year for which figures are available. [22625]

Ms Rosie Winterton: The information requested for 2004–05, the latest available year, is shown in the following table.

Administration and management costs by national health service ambulance trust in the West Midlands, 2004–05

NHS ambulance trust name	*Management costs £ thousand*	*Management costs as a percentage of turnover*
Coventry and Warwickshire Ambulance NHS Trust	1,051	4.6
Hereford and Worcester Ambulance NHS Trust	1,090	6.6
Staffordshire Ambulance Service Trust	1,757	7.0
West Midlands Ambulance Service NHS Trust	3,410	5.7

Notes:
1. Administration costs are not identified separately so all information given relates to management costs only.
2. It is not possible to provide 'cost per head of population' for NHS ambulance trusts as the Department does not maintain trust population figures.
3. 'Total budget' has been interpreted as total income (turnover) for NHS ambulance trusts.
4. 'West Midlands area' has been interpreted as the area covered by the Shropshire and Staffordshire, Birmingham and Black Country and West Midlands South strategic health authorities.

Audited summarisation schedules of the named trusts.

Avian Influenza

Steve Webb: To ask the Secretary of State for Health what steps her Department is taking to support research into *(a)* a vaccine for the H5N1 strain of avian flu, *(b)* drugs to treat a potential influenza pandemic and *(c)* enhanced diagnostic techniques to identify and research new infections; and if she will make a statement. [20029]

Ms Rosie Winterton [*holding answer 20 October 2005*]: The Department is currently finalising a strategy that will ensure that its vaccine, anti-viral and diagnosis related research activities are in line with those of other research funders in the United Kingdom, in Europe and in North America. To that end, the Medical Research Council will hold a workshop in December to identify particular strategic research needs for pandemic influenza. When this consultation process is complete, we will be in a position to commission high quality research that is both applicable to the needs of the UK and coordinated with the efforts of other countries.

The strategy will build on the body of Government funded research completed in the recent past and currently underway. This includes, for example, a £400,000 study commissioned by the Department into the optimum dose and dosing schedule for influenza vaccine when given to people for the first time.

Keith Vaz: To ask the Secretary of State for Health what assessment she has made of the likelihood of the strain of avian influenza found in Turkey mutating to a human virus. [21595]

Ms Rosie Winterton: We seek advice on threat assessments of avian influenza from the World Health Organisation (WHO). The strain of avian influenza in Turkey is very similar to that currently circulating in South East Asia. The WHO advised in May that the viruses are continuing to evolve and pose a continuing and potentially growing pandemic threat. It is monitoring the situation but has not raised the alert level.

Experts are concerned that the H5N1 virus has demonstrated the ability to jump the species barrier to cause disease and death in humans, but there is no confirmed evidence of person to person transmission of this virus. Thus, the risk of a human pandemic of H5N1 is considered to be low.

Sandra Gidley: To ask the Secretary of State for Health whether the UK plans to provide assistance to countries that may be affected by avian influenza variants at an earlier stage than the UK, including by providing supplies of vaccines. [21774]

Ms Rosie Winterton: The United Kingdom is working with international partners, including the European Union and the World Health Organisation (WHO), to enhance global preparedness for an influenza pandemic. We have already contributed £500,000 to the WHO to improve surveillance in South East Asia.

The WHO is securing three million courses of antiviral drugs as part of the immediate response to a pandemic. These drugs may help to contain an emerging pandemic virus or slow its spread.

Any requests for UK contributions to expand the WHO stockpile, or for vaccine when it becomes available, will be considered on a case by case basis.

Mr. Lansley: To ask the Secretary of State for Health pursuant to her statement of 17 October 2005, *Official Report*, column 629, on Avian influenza, what total funding has been provided to test NHS plans for an influenza pandemic locally; where this funding has been allocated; and what further spending she anticipates to ensure NHS bodies contingency plans will be effective in the event of an influenza pandemic. [22654]

Ms Rosie Winterton: The development and testing of local plans to deal with an influenza pandemic, takes place within the existing resources available to national health service bodies.

Blood Donation (Leeds)

Greg Mulholland: To ask the Secretary of State for Health if she will allocate further resources to encourage people in Leeds, North-West to give blood. [24000]

Mr. Byrne: NHS Blood and Transplant Authority (NHSBT) is responsible for managing blood supplies in England and North Wales. NHSBT blood stocks are currently satisfactory and are meeting demands from hospitals. In fact, every hospital demand in the last six years has been met.

NHSBT plans the resources required to meet demand for blood in advance, and continually reviews and redistributes stock across the country, as necessary. At present no additional resources are required to maintain adequate blood stocks. Maintaining blood stocks and raising awareness among blood donors, is carried out through a range of marketing and communication techniques.

Breast Screening

Miss McIntosh: To ask the Secretary of State for Health what representations she has received on the breast screening results from Epping hospital; and if she will make a statement. [22789]

Ms Rosie Winterton: There have been no representations to Secretary of State for Health on breast screening results from Epping hospital.

Cancer

Mr. Paterson: To ask the Secretary of State for Health if she will discuss the effectiveness of Herceptin on early stage treatment of breast cancer with the Secretary of State for Scotland. [20994]

Ms Rosie Winterton: My right hon. Friend has no plans to discuss the effectiveness of Herceptin with my right hon. Friend, the Secretary of State for Scotland. Both have announced plans for the managed introduction of Herceptin once it is licensed.

Mr. Lansley: To ask the Secretary of State for Health which groups are typically under-represented in the NHS routine breast cancer screening programme; and what steps she is taking to increase the uptake of routine breast cancer screening among these groups. [23968]

Ms Rosie Winterton: Evidence shows that groups who are less likely to attend for screening are those who live in deprived areas and women from some ethnic minority groups.

We have taken a number of steps to encourage those women who are under represented to attend for screening. These include:

The leaflet, "Breast Screening: The Facts", which is sent out with every invitation for screening, has been translated into 19 languages.

Many primary care trusts, particularly those in inner-city areas, have local initiatives in place, such as screening in community centres to encourage local women to attend their appointments.

In 2003, national health service cancer screening programmes published "Inequalities of Access to Cancer Screening: A Literature Review" and they have appointed a member of staff who is responsible for implementing the review's recommendations.

A communications pack, designed to raise awareness and increase the number of women attending for screening, has been issued to all local NHS breast cancer screening programmes.

Mr. Lansley: To ask the Secretary of State for Health what representations she has received from *(a)* NHS organisations and *(b)* other interested parties on failures to ensure that the three-year interval for screening under the NHS routine breast cancer screening programme is being met. [23969]

Ms Rosie Winterton: The National Health Service Cancer Plan, published in 2000, stated that we would extend invitations for breast screening to women aged 65 to 70 and introduce two-view mammography at all screening rounds. Over 98 per cent. of local screening programmes have now implemented these changes. However, the changes together represent a 40 per cent. increase in the workload of the programme. We are aware that this has had an impact on some services maintaining the three-year interval for screening and we are taking steps to bring all screening intervals back to three years.

Annette Brooke: To ask the Secretary of State for Health what steps her Department has taken to produce culturally-sensitive breast cancer awareness information in a variety of formats and languages. [24708]

Ms Rosie Winterton *[holding answer 3 November 2005]:* It is important that all women are breast aware and report any changes to their doctors. That is why in 1999 we produced the leaflet, "Be Breast Aware", in collaboration with Cancer Research UK, giving advice on this issue. The leaflet has been translated into Bengali, Chinese, Gujarati, Polish, Punjabi, Urdu, Vietnamese, Greek, Hindi and Turkish. Over 3 million copies of the leaflet have been distributed since 1999, over 200,000 of which were in the translated versions.

In addition to the standard print versions, the Department is committed to providing alternative publication services and we supply on-demand to all requests for alternative formats, such as Braille, audio-tape and large print.

Mr. Paterson: To ask the Secretary of State for Health what the cost per capita was of treating cancer in England in each of the last five years. [19902]

Ms Rosie Winterton: We do not hold information about the proportion of national health service expenditure spent on treating cancer patients. It is for individual primary care trusts to decide the level of funding they allocate to cancer services for their population.

Sandra Gidley: To ask the Secretary of State for Health if she will make a statement on the implications of the development of a vaccine for the virus which causes cervical cancer for the cervical cancer screening programme. [21777]

Ms Rosie Winterton: The vaccines in development are a preventative measure; however, they are only effective against approximately 80 per cent. of human papilloma viruses thought to be linked to cancer; they need to be given to women and girls before they become sexually active and we do not yet know how long they are effective for. We would therefore expect little or no effect on the cervical screening programme for a decade or more after the introduction of any vaccination programme.

Cervical screening currently remains the most effective way of preventing cervical cancer and the programme continues to encourage strongly all women between 25 and 64 to attend for regular screening when invited. The programme also continues to strive to improve its high quality, world-leading service through new research and developments in technology that could benefit both women and staff.

Sandra Gidley: To ask the Secretary of State for Health what plans she has to fund the provision of HER2 testing for the suitability of Herceptin to all women diagnosed with early stage breast cancer. [21963]

Ms Rosie Winterton: In this financial year, the funding for the provision of HER2 testing will have to come from existing budgets. However, Roche, the manufacturer of Herceptin, has undertaken to assist cancer networks in ensuring that high quality testing arrangements are put in place, for example through the provision of training for laboratory staff.

Committee for Medicinal Products for Human Use

Mr. Paterson: To ask the Secretary of State for Health what the UK's financial contribution to the cost of running the EU's Committee for Medicinal Products for Human Use was in each of the last five years. [20988]

Jane Kennedy: The Medicines and Healthcare products Regulatory Agency does not make any direct financial contribution to the European Medicines Agency for the cost of running the Committee for Medicinal Products for Human Use, now known as the Committee on Human Medicinal Products.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health when she plans to publish her Department's response to the Primary Care Dental Salaried Services Review; and if she will make a statement on the reason for the time taken to do so. [23279]

Ms Rosie Winterton *[holding answer 31 October 2005]:* Plans for publication of the response to the review of salaried dentists in primary care have not been finalised. We are currently considering the significant issues raised by the review's proposed reform of the career structure of the salaried services.

Mr. Willis: To ask the Secretary of State for Health pursuant to the answer of 10 October 2005, *Official Report*, column 205W, on NHS dentistry, how many patients were registered with an NHS dentist in each primary care trust in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05, excluding those patients who pay for the whole of their treatment. [23892]

Ms Rosie Winterton: The relevant available information was placed in the Library. We have updated the information up to September 2005 and this has been placed in the Library.

The Department does not collect data on those patients who pay for the whole of their treatment because these are private patients.

Departmental Consultation

Mr. Peter Ainsworth: To ask the Secretary of State for Health if she will list formal consultations being sponsored by her Department and its agencies; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22569]

Jane Kennedy: The table shows the 10 public written consultations currently being undertaken by the Department. The Department does not gather or hold information about consultations carried out separately by its executive agencies or other arm's length bodies.

All current and closed consultations are listed on the Department's website at

www.dh.gov.uk/Consultations.

Department/ agency	*Title of consultation*	*Commencement date*	*Deadline for responses*
Department of Health (DH)	Arrangements for the provision of dressings, incontinence appliances, stoma appliances, chemical reagents and other appliances to primary and secondary care	24 October 2005	23 January 2006
DH	Proposed changes to the regulatory framework for adult social care services	14 October 2005	14 January 2006
DH	European Commission proposal for a programme of community action in the field of health and consumer protection 2007–13	10 October 2005	6 January 2006
DH	Consultation on the future governance arrangements for the National Institute for Biological Standards and Control	10 October 2005	31 December 2005
DH	The acutely or critically sick or injured child in the District General Hospital: a team response	15 August 2005	31 December 2005
DH	Draft Revised Colorectal Measures for the Manual for Cancer Services 2004	30 September 2005	30 December 2005
DH	Proposals to simplify the reimbursement arrangements for NHS dispensing contractors: a consultation	7 September 2005	30 November 2005
DH	Review of the Human Fertilisation and Embryology Act: a public consultation	16 August 2005	25 November 2005
DH	Your Health, Your Care, Your Say	12 September 2005	04 November 2005
DH	Code of Conduct for Payment by Results: draft for consultation	4 August 2005	4 November 2005

Generic Medicines

Mr. Martyn Jones: To ask the Secretary of State for Health (1) what recent assessment she has made of the reimbursement scheme to pharmacists for the supply of Category M generic medicines; and if she will make a statement; [23626]

(2) what assessment she has made of the price differential between generic medicines obtained via NHS prescription and those available over-the-counter in supermarkets; and if she will make a statement. [23627]

Jane Kennedy: The newly introduced category M of generic medicines has two objectives: to reduce the cost of annual reimbursement to community pharmacy in England by £300 million and to set reimbursement prices of individual medicines in a manner which reflects the underlying market prices. Each category of the tariff is recalculated quarterly in the light of the best estimate of the achieved reduction in cost: in that sense, the area is reviewed quarterly and is meeting its objectives.

Category M reimbursement prices are reflective of the underlying market prices and are intentionally set at a level which leaves unrecovered discount available to community pharmacies as part of the new pharmacy contractual framework. The prices of over-the-counter medicines are determined by a consumer market in which the Department has no economic locus. There is, therefore, little expectation that prices of medicines available over the counter would coincide with the category M reimbursement prices.

Hand Gels

Mr. Lansley: To ask the Secretary of State for Health what assessment she has made of the level of use of hand gels by health professionals in hospitals for the purposes of infection control. [20857]

Jane Kennedy: The "cleanyourhands" campaign was launched in September 2004 and aims to improve hand hygiene compliance by national health service staff through the use of alcohol handrub. Product consumption (usage) levels are being recorded for all trusts ordering their handrub product through the NHS Purchasing and Supply Agency/logistics route and a 65 per cent. increase in handrub consumption occurred from September 2004 to September 2005.

Health Care Recruitment

Andrew George: To ask the Secretary of State for Health what recent discussions she has had with the private sector on signing up to the code of practice on the International Recruitment of Healthcare Professionals. [24205]

Mr. Byrne: I have had no such recent discussions.

Andrew George: To ask the Secretary of State for Health how many health care professionals originally from developing countries continued to work in the NHS after their temporary contracts ran out in each year since 2001 for which records are available. [24207]

Mr. Byrne: This information is not collected centrally.

Andrew George: To ask the Secretary of State for Health whether the NHS has used healthcare recruitment agencies based outside the UK for the recruitment of healthcare professionals from developing countries since the code of practice was agreed. [24217]

Mr. Byrne: NHS Employers is responsible for monitoring the code of practice and maintaining the register. No information is available centrally regarding contracts between agencies which have signed up to the code of practice and the national health service.

Hospices

Mr. Hollobone: To ask the Secretary of State for Health if she will *(a)* increase financial support for and *(b)* promote the expansion of the hospice movement. [24191]

Ms Rosie Winterton *[holding answer 2 November 2005]:* Primary care trusts (PCTs) are responsible within the national health service for commissioning and funding services for their resident population, including palliative care. The Government have met their commitment in the NHS Cancer Plan to invest an extra £50 million per annum in specialist palliative care. Over half of this additional funding went to the voluntary sector, mainly hospices, in 2003–04. PCTs, having assessed their local priorities, can invest more. This investment must be in line with local strategic plans and an assessment of need, which may, or may not indicate the need to provide more specialist palliative care beds.

Hospital Beds

Mr. Spring: To ask the Secretary of State for Health how many hospital beds there were in each health trust in Suffolk in each of the last three years. [22260]

Ms Rosie Winterton: The information requested is shown in the following table.

Average daily number of available[1] beds 2002–03 to 2004–05

Primary care trust (PCT)/national health service trust	*2002–03*	*2003–04*	*2004–05*
Suffolk West PCT	29	30	19
Central Suffolk PCT	86	86	43
Ipswich PCT	-	15	15
Suffolk Coastal PCT	122	122	105
Waveney PCT	69	69	58
Ipswich Hospital NHS Trust	767	782	756
Local Health Partnerships NHS Trust	432	410	408
West Suffolk Hospitals NHS Trust	638	676	631

[1] Includes occupied and unoccupied beds.

Department of Health form KH03.

Hospital Construction

Grant Shapps: To ask the Secretary of State for Health whether the building of a new hospital in Hatfield depends on East and North Hertfordshire NHS trust balancing its budget in 2005 to 2008. [22171]

Ms Rosie Winterton: Performance against the break-even duty must be achieved over the medium term, such that an organisation with a deficit in any year must plan to return to break-even and clear its accumulated deficit within three years, or exceptionally five years.

In any period in which a trust reports a deficit, it is required to have an agreed recovery plan in place to restore financial balance. Such a plan might include postponement of capital investment or postponement of private finance initiative (PFI) developments that are being worked up, but there is no requirement that recovery plans must envisage postponement of investment decisions.

Before a large and complex scheme, such as that in development by East and North Hertfordshire national health service trust can advertise in the Official Journal of the European Union for potential PFI partners, it must demonstrate convincingly in its outline business case (OBC) that it will be able to afford its scheme.

It is therefore conceivable that, in the year in which the OBC is submitted, the trust could still have a deficit, but it would have to demonstrate that it had a robust financial plan both to recover its deficit and go on to afford the eventual unitary payment of its scheme. It would also need to demonstrate an ability to achieve its financial plans.

PFI contractors will have their own financial criteria that they expect a NHS trust to meet before they will have sufficient confidence to bid for its scheme. We would expect these to be no less stringent than the above.

Infection Control Report

Mrs. Maria Miller: To ask the Secretary of State for Health if she will monitor levels of co-operation by NHS trusts with the director of infection control in enabling publication of her annual report by the deadline announced. [19355]

Jane Kennedy: "Winning Ways", published in December 2003, asked all national health service organisations to appoint a director of infection prevention and control (DIPC). However, the Department will not be monitoring the reports from DIPCs, as effective assessment would depend upon local knowledge. Under the proposals to strengthen measures to tackle healthcare associated infections set out in the Health Bill, the Healthcare Commission will take on the responsibility for ensuring compliance with the new code of practice. DIPCs will be key in implementing this code.

Influenza

Mr. Lansley: To ask the Secretary of State for Health whether she intends to quantify available critical care capacity in the independent sector; and if she will secure agreements with independent sector providers to secure this capacity for NHS use in the event of an influenza pandemic. [23038]

Ms Rosie Winterton: The amount of critical care capacity in the private sector has not been quantified. Under the local health community emergency plans, if the level of a future influenza pandemic warrants it, the

command arrangements that are already in place can enable the use of any health facility including the independent sector and private nursing homes.

Julia Goldsworthy: To ask the Secretary of State for Health what the take-up rate for influenza vaccinations was in each *(a)* strategic health authority and *(b)* primary care trust in England in each year since 2002–03. [24097]

Caroline Flint: The information requested has been placed in the Library.

Steve Webb: To ask the Secretary of State for Health whether *(a)* healthcare workers, *(b)* Government Ministers and other officials and *(c)* other workers in key industries will be given priority treatment with antivirals in the event of an influenza pandemic. [22088]

Ms Rosie Winterton: As the stockpile is intended to be large enough to cover all those likely to be infected, the issue of prioritisation between competing claims for the drugs ought not to arise.

We are aware of the possibility that a pandemic may strike before the antiviral stockpile is complete and our antiviral storage and distribution framework takes this into account. Antivirals will need to be prioritised, initially to healthcare workers and to those who fall into one of the 'clinical at risk' groups (as defined for seasonal 'flu).

Steve Webb: To ask the Secretary of State for Health what restrictions her Department plans to place on the movement of the public in the event of an influenza pandemic. [22089]

Ms Rosie Winterton: In the event of a pandemic, the Department will issue advice to the public. It will continue to keep the situation under review, taking account both of the circumstances at the time and of advice from the World Health Organization.

Steve Webb: To ask the Secretary of State for Health what action her Department is taking to help ensure other countries are *(a)* prepared for an influenza pandemic and *(b)* able to stockpile antiviral drugs; and if she will make a statement. [22091]

Ms Rosie Winterton: The Department is working closely with other countries and international organisations such as the World Health Organization (WHO) and the European Union (EU). We are sharing information through events such as the pandemic influenza workshop, jointly hosted by WHO and the EU in Copenhagen. We are engaged in the development of the United States of America initiative for an international partnership on avian and pandemic flu and are contributing to the meeting in Geneva co-hosted by WHO, Food and Agriculture Organisation, World Organisation for Animal Health on 7–9 November. The United Kingdom will continue to work with WHO, fellow EU member states, the European Commission and the European Centre for Disease Prevention and Control and with other internal partners to support international preparedness.

In addition, the UK has provided £500,000 to the WHO to enhance international influenza surveillance in South East Asia.

The WHO has secured 3 million treatment centres of antiviral drugs for international use. These could be used to try to slow down or prevent the spread of a pandemic virus in the country of source. Any requests for UK contributions to expand the WHO stockpile will be considered on a case-by-case basis.

Steve Webb: To ask the Secretary of State for Health (1) when she plans to publish *(a)* clinical management guidelines for patients suffering from pandemic influenza and *(b)* infection control guidelines in the event of an influenza pandemic; [22094]

(2) when her Department plans to publish *(a)* the clinical management guidelines to help inform management of patients suffering from pandemic influenza and *(b)* the infection control guidelines for an influenza pandemic. [22123]

Ms Rosie Winterton: Clinical management guidelines have been developed with the Health Protection Agency (HPA) and the British Thoracic Society to help inform management of patients suffering from pandemic flu. We have also produced infection control guidelines with the HPA. Both sets of guidelines are available on the Department's website at www.dh.gov.uk/pandemicflu.

Steve Webb: To ask the Secretary of State for Health what auditing measures her Department has undertaken to ensure that *(a)* primary care trusts, *(b)* local authorities and *(c)* NHS trusts are prepared for an influenza pandemic. [22097]

Ms Rosie Winterton: The Department published the revised, "UK Influenza Pandemic Contingency Plan" on 19 October, which will inform the work undertaken at local and national levels to prepare for an influenza pandemic. We also produced in May 2005, Operational Guidance for National Health Service planners on preparing for an influenza pandemic to inform local plans.

The Department is putting in place procedures to ensure that NHS organisations' plans can be audited for assurance of their capability in planning for and responding to, an influenza pandemic.

In addition, pandemic influenza exercise programmes have taken place around the country which have enabled NHS organisations to test the plans they have in place. The Health Protection Agency has also developed an off the shelf exercise package for use in testing influenza pandemic preparedness plans.

Steve Webb: To ask the Secretary of State for Health who the Department's pandemic co-ordinator for an influenza pandemic is. [22122]

Ms Rosie Winterton: The Chief Medical Officer, Professor Sir Liam Donaldson, is the Department of Health's pandemic influenza coordinator.

Steve Webb: To ask the Secretary of State for Health what plans her Department has to stockpile influenza drugs other than Tamiflu; and if she will make a statement. [22150]

Ms Rosie Winterton: We are stockpiling 14.6 million treatment courses of Tamiflu, which should be sufficient to treat those who may fall ill in an influenza pandemic.

There are currently no plans to procure a stockpile of other antiviral drugs, but we are keeping the options under constant review.

Mr. Lansley: To ask the Secretary of State for Health what powers she has, and under which legislation *(a)* to prevent large public gatherings, *(b)* to close football matches and other similar sporting events characterised by mass attendance and *(c)* to prevent movement of people across large geographical distances in the event of an influenza pandemic. [23974]

Ms Rosie Winterton: As explained in "The UK Influenza Pandemic Contingency Plan" (Annex E, paragraphs 8–10), there are powers in the Civil Contingencies Act 2004 which could be used in the event of an emergency.

Those powers are designed to allow the Government to respond quickly and effectively to the most serious emergencies where existing powers prove to be insufficient. There can be no automatic assumption that the Civil Contingency Act powers would need to be used in the event of an influenza pandemic.

Any use of emergency powers must satisfy a range of robust legal safeguards that ensure their use would be tailored to the specific circumstances at hand. It is therefore not possible, and would be potentially misleading, to comment on any specific measures that could be taken using emergency powers in the event of a pandemic: it would depend on the specific circumstances prevailing at the time.

Geraldine Smith: To ask the Secretary of State for Health what steps the Government have taken to respond to an influenza pandemic. [24497]

Ms Rosie Winterton *[holding answer 3 November 2005]:* I refer my hon. Friend to the oral statement given by my right hon. Friend the Secretary of State on 17 October 2005, *Official Report*, columns 629–38 and to the written statement I gave on 19 October 2005, *Official Report*, columns 57–58WS.

Lupus

Mr. Sheerman: To ask the Secretary of State for Health what funding has been allocated over the past five years *(a)* to raise awareness of Lupus and *(b)* for research into effective treatment. [24427]

Mr. Byrne: It is for primary care trusts to decide how to spend the funding allocations they are given in he light of local needs and priorities. Information on the amount spent on raising awareness of lupus is not held centrally.

The NHS Direct website contains specific information on lupus. The musculoskeletal framework, a best practice guide to supporting people with musculoskeletal conditions, will be published later this year. This will do much to raise awareness amongst health professionals and the general public for all musculoskeletal conditions, including lupus.

The main part of the Department's expenditure on health research is allocated to, and managed by, national health service organisations. Details of individual projects supported in the NHS, including a significant number concerned with lupus, are to be found on the national research register at www.dh.gov.uk/research. The Medical Research Council, an independent body funded by the Department of Trade and Industry via the Office of Science and Technology, also funds medical research. It is not possible to identify the total amount spent on research into the treatment of lupus.

Macular Holes

Mr. Lansley: To ask the Secretary of State for Health what steps she is taking to improve the standard of care offered to those suffering from a macular hole. [23034]

Ms Rosie Winterton: The vast majority of individuals with macular hole have their condition diagnosed by an optometrist during a routine sight test. Sight tests are free under the national health service to people aged 60 and over, children, individuals at particular risk of eye disease and those on a low income. Individuals who are identified as requiring further investigation can now be referred directly to hospital following an NHS funded sight test.

There is only one proven treatment for individuals diagnosed with macular hole and that is surgery. This is available in most large eye units that provide vitreoretinal surgery.

The Department has put a number of measures in place aimed at reducing waiting times in the NHS. By the end of 2005, no patient will have to wait more than 13 weeks for an out-patient appointment or more than six months for surgery, and most waits will be much shorter than this.

In many cases, surgery can stop the visual disturbances getting worse and can help sight to recover to a high standard. The final visual outcome, however, will depend on the size of the hole that has been treated. For those individuals whose sight is still affected after surgery, low vision aids may be of help. The NHS hospital eye service provides optical devices and loans low vision aids, such as high-powered reading lenses, hand-held and stand magnifiers and telescopes, to people with visual impairment. In addition, some primary care trusts have local arrangements for the provision of low vision aids through community based opticians.

Mr. Lansley: To ask the Secretary of State for Health how many finished episodes of care relating to the treatment of macular holes there have been in each year since 1997; and what the *(a)* mean and *(b)* median waiting time was in each year. [23035]

Ms Rosie Winterton: The following table shows the number of finished in-year admission episodes and the mean and median waiting times for those individuals whose primary diagnosis was degeneration of the macular and posterior pole.

Count of finished consultant episodes, mean and median time waited in days, national health service hospitals, England 1997–98 to 2003–04

	Finished in-year admission episodes	Mean waiting time in days	Median waiting time in days
1997–98	2,825	58	40
1998–99	2,972	57	35
1999–2000	2,766	60	34
2000–01	2,666	64	37
2001–02	3,206	55	30
2002–03	2,909	67	36
2003–04	3,325	65	40

Note:
A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Mental Health

Ed Balls: To ask the Secretary of State for Health how much funding has been allocated to preventative and early intervention services for children's mental health disorders in *(a)* Normanton constituency, *(b)* Wakefield East primary care trust (PCT), *(c)* Wakefield West PCT, *(d)* Wakefield district and *(e)* West Yorkshire in 2005–06. [24247]

Mr. Byrne: Funding is allocated directly to primary care trust (PCTs). It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

The table shows the funding allocations made to the West Yorkshire PCTs, including Eastern Wakefield PCT and Wakefield West PCT, for 2005–06 to 2007–08.

£000

	Allocations		
West Yorkshire PCTs	*2005–06*	*2006–07*	*2007–08*
Airedale	122,014	147,328	159,132
Bradford City	160,758	195,932	214,724
Bradford South and West	158,353	192,836	210,881
Calderdale	215,534	254,621	275,396
East Leeds	179,743	212,695	230,027
Eastern Wakefield	208,492	255,393	283,337
Huddersfield Central	144,457	172,344	186,412
Leeds North East	160,333	192,073	207,743
Leeds North West	172,126	208,941	228,463
Leeds West	123,183	145,982	157,882
North Bradford	98,680	119,364	129,248
North Kirklees	178,807	215,698	236,133
South Huddersfield	80,382	97,051	104,967
South Leeds	163,518	192,333	208,252
Wakefield West	156,303	189,155	205,849
Total	2,322,682	2,791,746	3,038,445

Motor Neurone Disease

Mr. Gibb: To ask the Secretary of State for Health what her policy is on the availability of non-invasive positive pressure ventilation to motor neurone disease sufferers. [23817]

Mr. Byrne: Data on non-invasive ventilation for patients with motor neurone disease are not collected by the Department.

A team from University College London and the University of Newcastle upon Tyne have been chosen to lead a £20 million initiative to speed up the development of new medical treatments for dementia and neurodegenerative disease. The team will co-ordinate a network of national health service staff and resources across the country to expand the number and range of clinical trials of medical treatments for neurodegenerative diseases including motor neurone disease.

The network will offer unprecedented opportunities to bring the latest clinical treatments and trials to people in the United Kingdom. The new scheme will operate in close partnership with patient organisations to ensure that we are addressing the research questions that are of most importance to patients.

MS Therapy Centres

Tim Loughton: To ask the Secretary of State for Health if she will make a statement on proposals for inspection charges for multiple sclerosis therapy centres. [19007]

Jane Kennedy: I am satisfied that multiple sclerosis therapy centres should continue to be subject to the Healthcare Commission's regulatory regime. The Commission is developing costed options for regulating independent healthcare providers, including multiple sclerosis therapy centres. I expect these options to reflect the risk-based approach to inspection which the Commission has been developing. The Commission intends to consult on its proposals shortly.

NHS Budgets (Oxford)

Mr. Andrew Smith: To ask the Secretary of State for Health if she will visit Oxford to assess the impact of changes proposed in *(a)* mental healthcare and *(b)* other local NHS budgets. [19488]

Ms Rosie Winterton *[holding answer 19 October 2005]:* My right hon. Friend, the Secretary of State currently has no plans to visit Oxford, as her autumn schedule is now fixed. If my right hon. Friend would like to invite the Secretary of State for a visit then a formal request should be sent to the ministerial visits Unit room 448 Richmond House, 79 Whitehall, London SW1A 2NS, for consideration.

NHS Commissioning

Mr. Andrew Smith: To ask the Secretary of State for Health (1) what steps she is taking under the reforms proposed by commissioning a patient-led NHS to provide for the employment and management of those primary care trust staff and functions which do not form part of the management and delivery of out-sourced commissioning. [18718]

(2) what guidance she plans to issue on the procedures for bidding for the provision of management and delivery of commissioning in Oxfordshire. [18719]

Mr. Byrne *[holding answer 17 October 2005]:* Strategic health authorities are expected to provide proposals for local commissioning arrangements to the

Department by 15 October. A human resources framework for dealing with any subsequent organisational change will be published in due course. All proposals including staff implications will be subject to full local consultation. Once final decisions have been taken the Department will consider what guidance is needed.

NHS Deficits

Mike Penning: To ask the Secretary of State for Health what the total deficit is for all strategic health authorities, primary care trusts and other NHS trusts in England brought forward from 2004–05, broken down by *(a)* authority and *(b)* trust; and if she will make a statement. [24728]

Mr. Byrne: The national health service as a whole ended 2004–05 with an overall deficit of around £250 million, or 0.4 percent., of available resources. Information on the 2004–05 financial position of individual NHS organisations—strategic health authorities, primary care trusts and NHS trusts—has been placed in the Library. It is also available on the Department's website at

http://www.dh.gov.uk/PublicationsAndStatistics/FreedomOfInformation/ClassesOfInformation/fs/en.

This information shows those NHS organisations that reported an overspend in 2004–05.

NHS Trusts (Sickness Absence)

Mike Penning: To ask the Secretary of State for Health what the rate of employee absence due to sickness at *(a)* Dacorum Primary Care Trust and *(b)* West Hertfordshire Hospital Trust has been in each year since 1997. [23024]

Ms Rosie Winterton: The table shows the sickness and absence rates for Dacorum Primary Care Trust (PCT) and West Hertfordshire Hospital Trust. The sickness and absence data goes back to 2000 and all figures between 2000 and 2004 have been included where available. There are no figures for 2000 for Dacorum PCT, which only came into being in 2001.

Sickness and absence rates for Dacorum PCT and West Hertfordshire hospitals national health service trust, 2000–04

Organisation name		*Sickness absence rate (percentage)* 2000	2001	2002	2003	2004
RWG	West Hertfordshire Hospitals NHS Trust	4.7	4.6	4.9	5.0	4.9
5GW	Dacorum PCT	[1]—	4.7	4.1	5.1	6.3
England		4.7	4.8	4.6	4.7	4.6

[1] The organisation did not exist in that particular year.

Notes:

1. Sickness absence rate is defined as the amount of time lost through absences as a percentage of staff time available.
2. This does not cover maternity leave, carers' leave or any periods of absence agreed under family friendly/flexible working policies.
3. General practitioners and their staff are not included in the above figures. The overall England figures are estimates, as some organisations in the NHS did not provide figures for sickness absence.

Source:

NHS Health and Social Care Information Centre sickness absence surveys, 2000–2004.

PET Scanners

Mr. Todd: To ask the Secretary of State for Health how many PET scanners are operated by NHS acute trusts, broken down by location; and if she will make a statement. [24311]

Ms Rosie Winterton: There are five positron emission tomography-computed tomography (PET-CT) scanners and one PET scanner currently operated by national health service trusts.

Two PET-CT scanners are jointly owned and managed by Guy's and St. Thomas's NHS Trust and King's College London. University College London Hospital NHS Trust, the Royal Marsden NHS Foundation Trust (NHSFT), and University Hospital Birmingham NHSFT also have PET-CT scanners. The one PET scanner is at Hammersmith Hospitals NHS Trust.

On 11 October 2005, the Department published "A Framework for the Development of Positron Emission Tomography (PET) Services in England". The intention of the framework is to provide guidance to commissioners and potential service providers on the development of services and to ensure that there is equitable access to scans for cancer patients across the country.

While there are a number of NHS and NHS/independent sector (IS) partnership schemes in development, it has been recognised that there is unequal access to current provision. To address this, £20 million capital funding will be made available to the NHS over two years for investment in PET-CT scanners. An additional 25,000 scans will be purchased annually over five years from the IS as part of the wider IS diagnostic procurement.

Podiatry

Mr. Drew: To ask the Secretary of State for Health (1) what steps are being taken to ensure that the matching of job descriptions to pay bands in podiatry is consistent throughout England; [19175]

(2) what assessment she has made of the consistency of pay banding for podiatry staff, with particular reference to new posts across different primary care trusts; what assessment she has made of the effects of differences in pay banding on recruitment; and if she will make a statement. [19176]

Mr. Byrne: A full range of national profiles has been produced, covering podiatry posts from band two through to band nine.

A national computer-aided job evaluation system has been purchased to support organisations in applying the scheme consistently throughout England and the job evaluation group, a subgroup of the NHS Staff Council, has responsibility for production of the national profiles. This group consists of representatives from both staff and management side. Job profiles are based on current jobs in the service and profiles are subject to consultation with a wider reference group prior to being agreed for publication by the executive of the NHS Staff Council. Where a post locally does not match a national profile, local evaluation will take place based on the same national health service job evaluation scheme.

Individual NHS employers ultimately are responsible for consistency checking for their organisation based on the agreed national guidance, but this is supported by both national and strategic health authority-level processes.

Premature Births

Sandra Gidley: To ask the Secretary of State for Health (1) how many babies were born prematurely in England in each year since 1997; [23824]

(2) how many babies were born at *(a)* under 24 weeks, *(b)* 24 to 28 weeks, *(c)* 28 to 32 weeks and *(d)* 32 to 37 weeks in England in each year since 1997. [23825]

Mr. Byrne: The available information is published in table 21 of the statistical bulletin "NHS Maternity Statistics, England". Figures are available for the financial years 1997–98 and 2000–01 to 2003–04. Copies of the bulletins are available in the Library and on the Department's website at http://www.dh.gov.uk.

Primary Care Trusts

Mr. Dismore: To ask the Secretary of State for Health (1) what assessment she has made of the impact for patient care in Barnet of *(a)* a potential merger of Barnet primary care trust (PCT) into a larger PCT and *(b)* the removal of Barnet PCT's role in providing services; and if she will make a statement; [20572]

(2) what assessment she has made of the impact on patient services of Barnet primary care trust's co-terminosity with other public sector providers including the borough council; and if she will make a statement. [20575]

Jane Kennedy: Strategic health authorities (SHAs) have recently submitted their proposals for the re-configuration of primary care trusts (PCTs), which set out how they intend to strengthen their commissioning function. These proposals will be assessed by an independent external panel drawn from and representing a wide range of stakeholder interests. The panel will determine whether the SHA proposals meet the criteria stipulated in the document, "Commissioning a Patient-Led NHS", published in July 2005. If the criteria are judged to have been met, the proposals will go forward to a three month public consultation, in which the wider impact of PCT re-configuration will be considered, including issues surrounding co-terminosity with local authorities and other local partner organisations. No decisions on the reorganisation of PCTs will be taken until this process has been completed.Similarly, no decisions on the future provision of community and primary healthcare services will be taken until after the White Paper on community healthcare services has been published. The White Paper will be informed by the results of the "Your Health, Your Care, Your Say" listening exercise, which is currently under way. Clinical services will continue to be provided by PCTs unless and until those PCTs decide otherwise. These decisions would be driven locally, following our White Paper deliberations and will only be implemented following full local public and staff consultation.

Mike Penning: To ask the Secretary of State for Health what the cumulative deficit is for the *(a)* Dacorum Primary Care Trust, *(b)* West Hertfordshire Hospital Trust and *(c)* Hertfordshire and Bedfordshire Strategic Health Authority; and if she will make a statement. [23286]

Ms Rosie Winterton: The cumulative breakeven position for 2004–05 for West Hertfordshire Hospital Trust is a deficit of £14.4 million.

The term cumulative deficit does not apply to strategic health authorities (SHAs) and primary care trusts (PCTs). The 2004–05 outturn of the PCT and SHA against the revenue resource limit is shown in the table.

National health service organisation	*2004–05 under/(over) spend against the revenue resource limit (£ thousand)*
Bedfordshire and Hertfordshire SHA	1,976
Dacorum PCT	(4,840)

Source:
2004–05 summarisation schedules.

The term "cumulative deficit" does not apply to SHAs or PCTs. Therefore, there is no cumulative deficit position available for SHAs and PCTs. Therefore, the 2004–05 outturn of the SHA and the PCT against the revenue resource limit for 2004–05 has been given.

If a SHA or PCT reports a deficit position in one year, that deficit is recovered by deducting it from the resources available to it in the subsequent year. Therefore, its current performance represents its cumulative position.

If, on the other hand, a NHS trust reports a deficit, it has its income reduced in the following year. In addition to this, it has a statutory duty to make good that deficit by reporting a surplus to offset it within the following two years, or four years by exception. It is the net deficit incurred during these years that is defined as the cumulative deficit for NHS trusts.

The financial position of the NHS as a whole ended 2004–05 with an overall deficit of around £250 million. This has to be seen in relation to the overall NHS spending; it represents only around 0.4 per cent. of resources. This and the latest available data on the 2004–05 financial position for all NHS organisations—SHAs, PCTs and NHS trusts—was put in the public domain on 19 September. It was based on the 2004–05 summarisation schedules that were released to the *Financial Times* and made available on the Department's website.

It is the responsibility of SHAs to deliver both overall financial balance for their local health communities and to ensure each and every body achieves financial balance. However, there is a degree of flexibility in how this is managed at a local level. In circumstances where a surplus cannot be generated in the following year, SHAs can agree a recovery plan which phases the recovery of deficits over a number of years. This would require other NHS organisations within the health economy to underspend over the same period. Any such arrangements would have to be subject to the agreement of local providers, commissioners and the managing SHA.

Mr. Jenkins: To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management costs by each primary care trust in the West Midlands area, expressed (i) as a percentage of their total budget and (ii) as the cost per head of population in the areas they cover, in the last year for which figures are available. [22624]

Ms Rosie Winterton: The information requested for 2004–05, the latest available year, is shown in the table.

Administration and management costs for primary care trusts in the West Midlands area, 2004–05

Primary care trust (PCT) name	*Management costs (£ thousands)*	*Management costs as a percentage of net operating costs*	*Management costs per weighted head of population (£)*
Burntwood, Lichfield and Tamworth	3,639	2.5	28.16
Cannock Chase	2,185	1.7	18.83
Coventry Teaching	7,131	1.8	21.20
Dudley Beacon and Castle	2,676	2.3	24.10
Dudley South	4,210	2.0	22.59
East Staffordshire	2,349	1.9	21.73
Eastern Birmingham	6,192	2.1	22.21
Heart of Birmingham Teaching	6,354	1.8	18.81
Herefordshire	3,375	1.8	20.10
Newcastle-under-Lyme	1,975	1.7	20.03
North Birmingham	3,141	1.6	19.04
North Stoke	4,135	2.4	28.67
North Warwickshire	5,177	2.9	28.45
Oldbury and Smethwick	2,387	1.9	20.09
Redditch and Bromsgrove	2,847	1.8	18.11
Rowley Regis and Tipton	2,066	2.0	22.45
Rugby	1,466	1.6	19.97
Shropshire County	5,390	1.8	21.41
Solihull	3,760	1.8	20.89
South Birmingham	4,460	1.0	12.63
South Stoke	3,004	1.9	20.96
South Warwickshire	4,693	1.9	20.98
South Western Staffordshire	2,324	1.3	13.54
South Worcestershire	3,770	1.3	13.29
Staffordshire Moorlands	2,038	1.7	21.11
Telford and Wrekin	3,438	2.2	23.04
Walsall Teaching	6,362	2.1	22.83
Wednesbury and West Bromwich	2,714	2.0	20.37
Wolverhampton City	5,586	2.0	20.76
Wyre Forest	2,257	2.1	20.35

Notes:
1. Administration costs are not identified separately, so all information given relates to management costs only.
2. 'Total budget' has been interpreted as net operating costs for PCTs.
3. 'West Midlands area' has been interpreted as the area covered by the Shropshire and Staffordshire, Birmingham and Black Country and West Midlands South strategic health authorities.

Sources:
1. Audited summarisation schedules of the named PCTs.
2. Weighted population figures for the PCTs.

Public Consultation

Mr. Burstow: To ask the Secretary of State for Health how many Your Health, Your Care, Your Say events are planned; and what population each is intended to cover. [23834]

Mr. Byrne: Four regional events were held in Gateshead, Leicester, London and Plymouth, where the audiences reflected the adult populations for the surrounding area. A national citizens' summit was held in Birmingham with the 998 participants broadly reflecting the adult population of England. In addition, a series of locally organised events have been taking place around England, attended by people from local populations, while some voluntary organisations have held their own meetings, which have included people in seldom heard groups.

Mr. Yeo: To ask the Secretary of State for Health (1) whether representations from members of the public to her Department concerning proposals to alter healthcare provision by Suffolk West Primary Care Trust will be considered as part of the Your Health, Your Care, Your Say consultation exercise; [23225]

(2) how many members of the public from the Sudbury area of Suffolk have been selected to take part in the Your Health, Your Care, Your Say consultation exercise. [23227]

Ms Rosie Winterton: The provision of healthcare in Suffolk West is a matter for the Suffolk West Primary Care Trust and its local residents can contribute to the consultation, "Modernising Healthcare in West Suffolk" until 12 December. Members of the public can

take part in the Your Health, Your Care, Your Say consultation in various ways, including an online questionnaire at: www.nhs.uk/yoursay.

Information on how many members of the public from the Sudbury area of Suffolk have been selected to take part in the Your Health, Your Care, Your Say consultation exercise is not available.

Pulmonary Disease

Mr. Todd: To ask the Secretary of State for Health if she will make a statement on the availability of pulmonary rehabilitation for those suffering from chronic obstructive pulmonary disease. [24310]

Mr. Byrne: In England, health professionals in primary care trusts are responsible for determining which health services their local population requires, including pulmonary rehabilitation, and ensuring provision of these services. Data regarding the availability of local services for individual medical conditions is not collected centrally.

Radiotherapy

Mr. Lansley: To ask the Secretary of State for Health whether she plans to measure waiting times for radiotherapy. [23965]

Ms Rosie Winterton: We have no plans to introduce data collection to measure radiotherapy waiting times. The NHS Cancer Plan set out maximum waiting time targets for cancer treatment, which include radiotherapy where this is given as a first definitive treatment. Standards of a maximum wait of one month from diagnosis to first treatment and a maximum two month wait from urgent general practitioner referral to first treatment for breast cancer are already in place. From December 2005, these targets will be in place for all cancer patients.

Schizophrenia

Tim Loughton: To ask the Secretary of State for Health what assessment she has made of the incidence of death from a respiratory infection in people with schizophrenia compared with the standardised mortality rates for respiratory infection. [24025]

Ms Rosie Winterton: While no assessment has been made by the Department, an independent study by Harris and Barraclough—British Journal of Psychiatry (1998), 173, 11-53—describes the increased risk of premature death from natural and unnatural causes for the common mental disorders. Analysing six studies which looked at respiratory disease as cause of death among patients with schizophrenia, the standardised mortality ratio was found to be significantly raised.

In the "Choosing Health" White Paper, 2004, the Government recognise the importance of physical health care for people with severe mental illness. This is why £7 million has been allocated to Spearhead primary care trusts to support them in improving physical health checks for this group.

Shropshire Health Authority

Daniel Kawczynski: To ask the Secretary of State for Health how many staff were employed in communication roles in Shropshire Health Authority in October. [25335]

Ms Rosie Winterton: Shropshire and Staffordshire Strategic Health Authority employs three people in communications roles.

Smoking

Mrs. Hodgson: To ask the Secretary of State for Health how many submissions she received following the recent consultation on banning smoking in public places; how many submissions supported the Government's preferred option; and how many submissions supported the option which would ban smoking in all enclosed workplaces and private members clubs and bars and pubs not selling food. [24045]

Caroline Flint: We received over 57,000 responses to the consultation on the Smokefree Elements of the Health Bill. We intend to publish a summary of the results shortly.

Social Care Services

Mr. Lansley: To ask the Secretary of State for Health when she initiated her review of health and social care regulation; what the remit of the review is; who is carrying out the review; when she expects the review to be completed; whether it will be published; whether the results will be subject to public consultation; and when she expects to lay before Parliament the legislation needed to enact the results of the review. [23113]

Jane Kennedy: I refer the hon. Member to the Written Ministerial Statement I made on 19 October 2005, *Official Report*, columns 56-57 WS.

The review was initially announced by the Government in the Chancellor's budget report in March 2005. The terms of reference for the review were published on 19 October. Any plans for further legislation, should that be needed, will be announced in the Queen's Speech next year as usual.

Sun Beds

Mrs. James: To ask the Secretary of State for Health what representations her Department has received from cancer charities about coin-operated sunbed tanning retail outlets. [20813]

Ms Rosie Winterton: The Department is aware of concerns expressed by Cancer Research UK about the use of coin-operated sunbeds in tanning retail outlets, particularly where they are unsupervised. The charity is keen that there should be clear notices wherever sunbeds are used describing those most at risk of skin cancer and advising against their use, especially for young people under 16 years. Cancer Research UK is currently itself in discussions with the sunbed industry about self-regulation and about improving information for both staff and customers, including the displaying of

information. The Health and Safety Executive also issued guidelines in 1995 on the use of sunbeds both for operators and customers, with the recommendation that the guidance should be made available to the public.

Swale Primary Care Trust

Derek Wyatt: To ask the Secretary of State for Health how many NHS dentists serve the Swale Primary Care Trust area. [24620]

Ms Rosie Winterton *[holding answer 3 November 2005]:* As at 30 September 2005, there were 33 national health service dentists with either a general dental services or personal dental services contract within Swale Primary Care Trust.

SOLICITOR-GENERAL

Iraq

Peter Law: To ask the Solicitor-General what discussions his Department has had with the Information Commissioner since April in respect of outstanding applications for information on the policy formulation of the Attorney-General's opinion on the legality of military action against Iraq made under the Freedom of Information Act 2000. [25507]

The Solicitor-General: The Government do not comment on cases which are or may be under consideration by the Information Commissioner.

Police

Simon Hughes: To ask the Solicitor-General if he will review the policy on prosecutions of police officers following deaths following action taken by police officers in the execution of their duty. [25983]

The Solicitor-General: The Police Reform Act 2002 as amended by the Serious and Organised Crime Act 2005 and the Police Act 2005 creates a statutory duty on the police to refer to the Independent Police Complaints Commission (IPCC) incidents when persons have died following some form of direct or indirect contact with the police and there is reason to believe that the contact may have caused or contributed to the death. It is then for the IPCC to oversee the investigation into the death with the appropriate level of external supervision.

The evidence will be considered by the IPCC to decide whether the evidence indicates that a person whose conduct was under investigation may have committed a criminal offence. If the IPCC decides that this threshold has been reached then the file should be referred to the Crown Prosecution Service to consider whether or not any individual should be charged.

A Crown prosecutor will then review the evidence against the guidance contained in the Code for Crown Prosecutors. The Code has two stages to a decision to prosecute.

The prosecutor will first consider whether or not there is enough evidence to provide a realistic prospect of conviction against each defendant on each charge. In undertaking this consideration of the evidence the prosecutor must consider what the defence case may be, including a defence case of self-defence, and how that is likely to affect the prosecution case.

If the case does pass the evidential test then the reviewing prosecutor must consider whether a prosecution would be in the public interest. The prosecutor will consider what if any public interest factors may weigh either in favour of, or against, a prosecution. A prosecution will usually take place unless there are public interest factors tending against a prosecution, which clearly outweigh those tending in favour.

The policy guidelines set out in the Code for Crown Prosecutors are kept under review. The last review, which included a public consultation exercise, took place in 2004 with the current edition of the Code having been published in November 2004. It is a publicly available document issued by the Director of Public Prosecutions under section 10 of the Prosecution of Offences Act 1985. There are no immediate plans for the Code to be reviewed.

NORTHERN IRELAND

2012 Olympics

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what representations he has made to his Cabinet colleagues about attracting some of the events of the 2012 Olympic games to Northern Ireland. [25491]

Mr. Hanson: There is regular liaison with the Department of Culture, Media and Sport (DCMS) in support of the London Bid and to maximise the opportunities for Northern Ireland. Northern Ireland are represented at a senior level on the Nations and Regions Committee. I recently attended a meeting of the Sports Cabinet in Cardiff chaired by the Secretary of State for Culture, Media and Sport, the right hon. Member for Dulwich and West Norwood (Tessa Jowell). At this meeting, the issue of attracting events and participation to Northern Ireland was discussed. Further discussion will continue.

Abdominal Aortic Aneurysm

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people in each board area have died of abdominal aortic aneurysm in the last five years, and if he will make a statement. [25020]

Angela E. Smith: The following table gives the number of deaths registered in Northern Ireland in each Health and Social Services Board area in each year between 2000 and 2004 where the underlying cause of death was recorded as abdominal aortic aneurysm[1]

[1] International Classification of Diseases, Tenth Revision code I71.3 and I71.4 for years 2001–04 and Ninth Revision codes 441.3 and 441.4 for year 2000.

Table: Number of deaths due to abdominal aortic aneurysm, by Health and Social Services Board, registered in Northern Ireland (2000–04)

Health and Social Services Board	Abdominal aortic aneurysm				
	2000	2001	2002	2003	2004[1]
Eastern	37	43	60	51	65
Northern	25	27	25	25	31
Southern	15	19	12	12	15
Western	15	12	12	19	12
Northern Ireland	92	101	109	107	123

[1] Data for 2004 is provisional.

Ards Hospital (Psychiatry)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve psychiatry facilities on the Ards hospital site. [24885]

Mr. Woodward: The Eastern Health and Social Services Board is developing a business case for its Primary and Community Care Infrastructure. Consideration of a full range of options for the future provision of psychiatry services on the Ards hospital site will be a major element of the business case.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many admissions there have been to the psychiatry unit at Ards hospital in each of the last five years. [24886]

Mr. Woodward: The number of admissions to the psychiatric unit at Ards hospital in each of the last five years is detailed in the following table:

Financial year	Number of admissions
2004–05	257
2003–04	398
2002–03	326
2001–02	348
2000–01	317

Source:
Ulster Hospital and Community Trust.

Benefit Fraud

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the cost of benefit fraud in the Province in each of the last five years. [24900]

Mr. Hanson: The information requested is as follows:

Benefit Fraud

The levels of benefit fraud are estimated on the basis of a programme of benefit reviews carried out on a random selection of cases selected by the Department's statisticians. The following table provides details of the estimated monetary value of fraud and the percentage of overall expenditure this represents. The estimates relate to the main benefits but do not include some benefits where the risks of fraud are believed to be small.

Estimated value of undetected benefit fraud

	Total value £ million	Value as percentage of benefit expenditure
2000–01	46.06	1.5
2001–02	60.45	1.9
2002–03	32. 29	1.0
2003–04	36.62	1.2
2004–05	23. 74	0.7

Breast Cancer

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether breast cancer sufferers in the Province are informed immediately if they are found to be suitable for trastuzumab treatment. [24912]

Mr. Woodward: All women diagnosed with breast cancer in Northern Ireland are automatically tested for suitability for Trastuzumab (Herceptin) treatment. Patients are informed of their suitability as soon as possible after the results become available.

Buckley Report

Sammy Wilson: To ask the Secretary of State for Northern Ireland when the Department received Sir Michael Buckley's report on the university of Ulster; and if he will publish the report. [22643]

Angela E. Smith: The Department for Employment and Learning has not received Sir Michael Buckley's report, nor does it hold a copy. As the Department passed the draft report to Sir Brian Fender last March, an official read a copy in order to ascertain whether there were any issues of accountability which were relevant to the Department.

The publication of Sir Michael Buckley's report is a matter for the university of Ulster.

Sammy Wilson: To ask the Secretary of State for Northern Ireland when he intends to publish Sir Michael Buckley's report regarding the University of Ulster. [23080]

Angela E. Smith: The publication of Sir Michael Buckley's report is a matter for the University of Ulster.

Child Protection

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will take steps to ensure that children in Northern Ireland are afforded the same legislative protection from abuse as is afforded to children in England and Wales. [25304]

Mr. Woodward: Yes.

The Ministerial Sub Group on Children chaired by Lord Rooker has decided that a cross departmental review of current legislation provision in England and Wales, led by OFMDFM, will be undertaken to identify gaps in the legislative provision which exist within Northern Ireland. The review will be conducted over the next few months and will include child protection legislation.

DHSSPS are already developing proposals for public consultation on new legislation, which will bring Northern Ireland closer to England and Wales in terms of strengthening a number of child protection arrangements.

All Articles (except Article 46) of the Protection of Children and Vulnerable Adults Order (NI) 2003, which introduced statutory barring and vetting as an aid to employment procedures in relation to children and vulnerable adults, commenced with effect from 1 April 2005 and brings the existing legislative framework into line with England and Wales. Officials from DHSSPS, DE and NIO are also working closely with counterparts in England and Wales on the extension of a proposed new Bichard vetting and barring scheme to Northern Ireland.

Class Sizes

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the average number of pupils in primary school classes was within each education and library board in the Province in 1997. [25798]

Angela E. Smith: The information requested is as follows:

Education and library board area	*Average class size (1997–98)*
Belfast	24.3
Western	22.9
North Eastern	23.7
South Eastern	24.8
Southern	23.0
Northern Ireland average	23.7

Note:
Figures apply to those pupils in year 1 to year 7 only.

Community and Voluntary Sector Funding

Mark Durkan: To ask the Secretary of State for Northern Ireland on what date the Department of Social Development Taskforce Report on funding for the community and voluntary sector will be published. [24852]

Mr. Hanson: In March 2005, the Government published 'Positive Steps', its response to "Investing Together", the Report of the Task Force on Resourcing the Voluntary and Community Sector. It sets out a significant agenda for change and investment to help ensure that the voluntary and community sector is better placed to cope with social and economic change and imminent changes to the funding environment. An Implementation Group consisting of Senior Officials will oversee implementation of the actions contained within the report. An Annual Report on progress will be presented to the Joint Government/Voluntary and Community Sector Forum.

Consultancy Firms

Mark Durkan: To ask the Secretary of State for Northern Ireland if he will list consultancy firms engaged to provide advice to each Northern Ireland Department in the last five years in respect of the outsourcing of Civil Service functions and services; how much has been paid to each consultancy firm by each Department; and if he will make a statement. [22144]

Angela E. Smith: The following table sets out the list of consultancy firms engaged to provide advice to Northern Ireland Departments in respect of the outsourcing of civil service functions and services, and how much has been paid to each consultancy firm by each Department in the last five years.

Year contract awarded	*Name of firm*	*Amount paid (£) 2004–05*	*[1]2005–06*	*[1]Total*	*Service*	*Department*
2004	Deloitte MCS Limited	272,233	175,119	447,352	e-HR Contract	DFP
2005	Grant Thornton UK LLP	—	58,088	58,088	e-HR Contract	DFP
2004	Helm Corporation	32,102	—	32,102	Broadband Aggregation Project	DFP
2004	Mason's Communications	4,900	—	4,900	Broadband Aggregation Project	DFP

[1] Figures reflect position up to 30 September 2005.

Payments made by the Strategic Investment Board to consultancy firms providing legal advice on the eHR project are listed separately as follows. These payments, although strictly not made by departments, are included for completeness.

Year contract awarded	*Name of firm*	*Amount paid (£) 2003–04*	*2004–05*	*[1]2005–06*	*[1]Total*	*Service*
2003	Denise Wheatley Associates	—	13,512	—	13,512	e-HR Contract
2003	Denton Wilde Sapte	146,718	853,469	811,643	1,811,830	e-HR Contract

[1] Figures reflect position up to 30 September 2005.

Contraceptive Advice

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what obligations school nurses are under to inform school staff when they are approached by 11-year-old girls seeking contraceptive treatment on school property. [24917]

Mr. Woodward: None, but given the girls' age the school nurse is required to discuss such cases with social services in accordance with child protection policies and procedures which implement the Department's guidance on Co-operating to Safeguard Children issued in May 2003.

Council of Catholic Maintained Schools

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many Protestants sit on the Council of Catholic Maintained Schools; and if he will make a statement. [25196]

Angela E. Smith: There are currently eight members appointed by the head of the Department of Education to serve as members on the Council for Catholic Maintained Schools. Of this total there are two Protestants and six Roman Catholics. The Department

does not hold community background information on the remaining 28 members of the Council as they are not appointed by the head of the Department.

Departmental Recruitment

Mr. Gibb: To ask the Secretary of State for Northern Ireland what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23772]

Angela E. Smith: The vast majority of appointments to the NICS non-industrial grades are for administrative positions in which candidates must hold at least a grade C or better pass in GCSE or equivalent. The majority of NICS posts do not require a mathematics qualification. Applicants for each post are required to provide details of those qualifications which are necessary to demonstrate their eligibility for the advertised post. It should be noted that many new recruits are assessed by test prior to being appointed. These tests may comprise a number of elements which measure numeracy and literacy.

There are no formal educational requirement for staff appointed to support grades e.g. messengers, security guards etc., however these applicants are required to pass a numeracy and literacy aptitude test. Staff appointed to industrial grades, e.g. drivers etc., do not require qualifications in English or mathematics.

Mr. Gibb: To ask the Secretary of State for Northern Ireland what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23791]

Angela E. Smith: All appointees to posts at administrative assistant, administrative officer, executive officer and staff officer positions in the Northern Ireland Civil Service (NICS) are required to satisfy a minimum standard through tests which measure 'following procedures', 'numerical reasoning' and 'speed and accuracy'. These specifically test numeracy, while literacy is tested through candidates' ability to understand and follow procedures correctly.

The selection process for the graduate staff officer grade also includes assessment centre exercises. Recruitment to other specialist grades within the NICS involves testing in the specific competences required for the post, e.g. assistant statisticians, assistant scientific officers and IT specialists which all have a mathematical element.

District Councils

Mark Durkan: To ask the Secretary of State for Northern Ireland what the staff breakdown by community background is of each district council in Northern Ireland; which district councils in Northern Ireland have implemented affirmative action measures in response to staff under-representation; and what affirmative action measures have been taken by district councils with identified under-representation in each case. [25301]

Angela E. Smith: The staff breakdown by community background for each district council, set out in the following table, has been taken from the Equality Commission's 2003 Monitoring Report.

District council	*P.*	*R.C.*	*N.D.*	*Total*
Antrim	190	82	8	280
Ards	339	63	26	428
Armagh	139	115	0	254
Ballymena	231	52	15	298
Ballymoney	90	19	12	121
Banbridge	155	39	4	198
Belfast	1,455	868	106	2,429
Carrickfergus	172	13	21	206
Castlereagh	464	43	51	558
Coleraine	227	74	20	321
Cookstown	112	92	3	207
Craigavon	258	165	11	434
Derry	137	443	12	592
Down	76	219	19	314
Dungannon and South Tyrone	150	138	18	306
Fermanagh	101	139	4	244
Larne	110	39	5	154
Limavady	80	53	7	140
Lisburn	352	85	19	456
Magherafelt	99	96	0	195
Moyle	33	75	11	119
Newry and Mourne	56	343	6	405
Newtownabbey	434	57	8	499
North Down	404	48	45	497
Omagh	136	270	34	440
Strabane	59	107	3	169
Total	6,059	3,737	468	10,264

Note:

P = Protestant; RC = Roman Catholic; ND = Non-denominational

District councils are listed in Schedule 1 of the Fair Employment (Specification of Public Authorities) Order (Northern Ireland) 2000 as one of the public authorities required to secure fair participation in employment. However, details about the implementation of affirmative action measures are not held centrally and could be obtained only at disproportionate cost.

Education and Library Boards

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many Roman Catholics sit on education and library boards; and if he will make a statement. [25195]

Angela E. Smith: The members of the education and library boards were appointed by the Minister for Education and were selected in accordance with legislative requirements and the code of practice laid down by the Commissioner for Public Appointments.

Each Board has 35 members of which 14 were nominated by the relevant local councils, eight were nominated by the Transferors and Trustees and 13 were appointed through an open competition process that is regulated by the Commissioner for Public Appointments. The Commissioner's independent assessor found the process used to have met the exacting standards set down by OCPA.

The information available in respect of the community background of members of each of the education and library boards is detailed in the following table. To enable Ministers and Departments to ensure that the pool of candidates from which appointments are made contains a fair and equitable representation of the Northern Ireland community, in accordance with OCPA guidelines, details of community background are sought from each candidate for monitoring purposes.

This information is not made available to the shortlisting and interview panels or to the Minister when decisions on appointments are being made.

Electronic Human Resources Contract

Mark Durkan: To ask the Secretary of State for Northern Ireland when the Department of Finance and Personnel expects to designate a company as the preferred bidder for the Northern Ireland Civil Service electronic Human Resources Contract. [24925]

Angela E. Smith: The Department of Finance and Personnel expects to designate a company as preferred bidder for the Northern Ireland Civil Service electronic Human Resources Contract by the end of November 2005.

Enzyme Disorders

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people in the Province who suffer from enzyme disorders. [24918]

Mr. Woodward: Information on the number of people suffering from enzyme disorders is not available.

Enzyme deficiency disorders result in a very wide spectrum of clinical consequences depending on the enzyme involved.

Fuel Poverty

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) how many people he estimates are living in fuel poverty within each Westminster parliamentary constituency in the Province; [24870]

(2) if he will estimate the number of people living in fuel poverty within each district council area in the Province. [24884]

Mr. Hanson: Figures on fuel poverty are classified in terms of households rather than individual people and are collected on a district council, rather than a parliamentary constituency basis. The estimated number of people in fuel poverty based on the 2001 House Condition Survey is as follows:

District council area	*Estimated number of households in fuel poverty*
Antrim	6,800
Ards	7,910
Armagh	5,060
Ballymena	8,150
Bally money	4,070
Banbridge	4,680
Belfast	42,960
Carrickfergus	3,400
Castlereagh	5,650
Coleraine	6,520
Cookstown	3,610
Craigavon	13,450
Deny	13,090
Down	6,040
Dungannon and South Tyrone	3,670
Fermanagh	6,460
Larne	4,400
Limavady	4,020
Lisburn	10,570
Magherafelt	5,690
Moyle	2,170
Newry and Mourne	6,650
Newtownabbey	10,040
North Down	7,650
Omagh	5,100
Strabane	5,450
Northern Ireland total	203,260

An interim House Condition Survey was carried out in 2004 and the results of this are currently being analysed.

GCSE Qualifications

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* males and *(b)* females in the Province left school with no GCSE passes in each of the last 10 years. [25791]

Angela E. Smith: Figures for 2004–05 are not yet available. Figures for the previous 10 years are as follows:

	Percentage of males who left school with no GCSE passes	*Percentage of females who left school with no GCSE passes*
1994–95	7.5	3.4
1995–96[1]	5.0	2.3
1996–97	7.8	4.5
1997–98	7.1	3.6
1998–99	6.5	2.7
1999–2000	6.9	3.4
2000–01	7.8	3.7
2001–02	8.1	3.4
2002–03[2]	n/a	n/a
2003–04	7.3	3.9

n/a = not available

[1] Qualifications data were missing for approximately 3 per cent. of school leavers.

[2] Due to software difficulties with the schools' administrative system, the 2002/03 School Leavers' Survey had to be abandoned.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* males and *(b)* females in the Province achieved passes in mathematics and English at GCSE level in each of the last 10 years. [25792]

Angela E. Smith: Information is not available for 1995–96 and not yet available for 2004–05. For the other years requested the figures are as follows:

Percentage of pupils aged 15 at the start of each school year who achieved grades A-G*

Gender/Subject	*1996–97*	*1997–98*	*1998–99*	*1999–2000*

Mathematics	85	87	86	85
English and Mathematics	82	83	83	83

Hospital Beds

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many hospital beds there are within each hospital trust in the Province dedicated to addictions treatment. [24889]

Mr. Woodward: The information requested is shown in the following table:

Number of beds in Northern Ireland designated for the treatment of addictions at 31 March 2005

Provider trust	*Designated beds for the treatment of addiction*
Armagh and Dungannon HSS Trust	10
Down Lisburn HSS Trust	14
Homefirst Community HSS Trust	10
South and East Belfast HSS Trust[1]	12
Sperrin Lakeland HSS Trust	7
Northern Ireland	53

[1] South and East Belfast HSS Trust and North and West Belfast HSS Trust jointly manage the 12 beds designated for the treatment of addictions.

Source:

Northern Ireland HPSS Trusts.

Illegal Waste Disposal

Sammy Wilson: To ask the Secretary of State for Northern Ireland what estimates have been made of the tonnage of illegally dumped waste originating from the Irish Republic and deposited in Northern Ireland in each of the last five years. [23083]

Angela E. Smith: The Department of the Environment's Environment and Heritage Service took over responsibility for the regulation of illegal waste activity, including incidents of illegal dumping of material originating in the Republic of Ireland, in October 2002. Between that date and the end of 2004, some 250,000 tonnes of biodegradable ROI waste was detected in Northern Ireland. It is not possible to determine the year in which the waste was disposed of, so the figure cannot be broken down into annual tonnages. An updated amount to reflect the period up to end 2005 is being calculated and will be available early in 2006.

Lagan College/Millennium Primary School, Strangford

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the total cost has been of upgrading roads and footpaths at *(a)* Lagan College and *(b)* the Millennium Primary School in the Strangford constituency. [25014]

Mr. Woodward: The chief executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Lady in response to this question.

Letter from Dr. Malcolm McKibbin to Mrs. Iris Robinson, dated 8 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what the total cost has been of upgrading roads and footpaths at *(a)* Lagan College and *(b)* the Millennium Primary School in the Strangford constituency.

I have been asked to reply as this issue falls within my responsibility as Chief Executive of Roads Service.

Following the receipt of a number of requests from various interested parties, Roads Service carried out a minor works improvement scheme at the junction of Manse Road and Glencregagh Road at a cost of £660,000.

The scheme, which was completed in 2004, included the provision of a new widened and realigned carriageway; right turn pockets at Lagan College and Glencregagh Road; improved sightlines at the Manse Road/Glencregagh Road junction; and the construction of approximately 1.3 km of new footway to provide continuous pedestrian access on Manse Road between Four Winds Roundabout and Lagan College.

Colleagues in the Department of Education (DE) have also confirmed that road improvement works were carried out at the site of the new Millennium Primary School in 2003 as a condition of the school's planning approval. These works, which were necessary to ensure satisfactory means of access in the interests of road safety and the convenience of road users, cost approximately £330,000 and were funded by DE.

Subsequent to the school opening, it became apparent that drivers were not observing the signs and road markings and that safety was being threatened by illegal overtaking manoeuvres in the vicinity of the school. To address this, Roads Service installed further traffic islands, signs, road markings and lighting at a cost of £29,000.

I hope this information is helpful.

Marriage Licences

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many marriage licences were issued by each local government councils in each of the last five years. [24144]

Angela E. Smith: Prior to 1 January 2004, all civil marriages were carried out either by registrar's certificate or registrar's licence but separate statistics are not available for each form of authority. Table 1 gives the total number of civil marriages by local government district between 2000 and 2003.

New marriage legislation introduced from 1 January 2004 provided for universal civil preliminaries with a schedule issued by the registrar constituting the authority for all marriages, religious or civil, to take place. Table 2 gives the number of marriages carried out by schedule and the number of civil marriages by schedule by local government district in 2004. In addition, table 2 gives the number of civil marriages that took place in 2004, under the previous legislation.

Table 1: Total number of civil marriages by local government district, 2000 to 2003

Local government district	2000	2001	2002	2003
Antrim	59	60	67	46

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the prevalence of mental ill health in the Province. [24863]

Mr. Woodward: There has been no survey of the prevalence of mental ill health in Northern Ireland however; a survey carried out in 2000 by the Office for National Statistics in Great Britain indicate that one in six people will suffer from a mental illness at any one time.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much has been spent on mental health services in the Province in each of the last five years; and if he will make a statement. [24894]

Mr. Woodward: Expenditure on mental health services for the last five financial years is listed in the following table.

	Mental health expenditure (£ million
1999-2000	124.033
2000-01	133.206
2001-02	139.345
2002-03	150.773
2003-04	161.141
Total	708.498

The Review of Mental Health and Learning Disability includes a specific expert working committee whose responsibility is to cost the recommendations emerging from the Review. This will inform future funding decisions in the development of mental health services.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much has been spent on mental health promotion in the Province in each of the last 10 years; and if he will make a statement. [24895]

Mr. Woodward: Mental health promotion is included as part of the work of a wide range of health and social services professionals and it is not possible to distinguish amounts spent on it by them. However since the publication of the draft Strategy for Promoting Mental and Emotional Health in Northern Ireland my Department has allocated the following specific amounts towards promoting mental health.

	£
2001-02	50,000
2002-03	200,000
2003-04	300,000
2004-05	350,000
2005-06	600,000

The Mental Health Promotion Strategy and Action Plan contains 30 actions to promote mental health and prevent suicide. The Strategy is being overseen by a Multi-sectoral Implementation group.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the priorities agreed at the World Health Organisation European Ministerial Conference on Mental Health in January. [24896]

Mr. Woodward: The priorities stated in the Mental Health Declaration for Europe are fundamental to a modern mental health service and are principles fully espoused by the current Review of Mental Health and Learning Disability, which will inform the reform and modernisation of mental health services here.

MOT Vehicle Tests

Mark Durkan: To ask the Secretary of State for Northern Ireland what criteria are used in Northern Ireland for MOT vehicle tests; and whether there is a requirement for speedometers to include kilometres per hour as well as miles per hour. [24849]

Angela E. Smith: The criteria used in Northern Ireland for MOT vehicle tests are contained in the Motor Vehicle Testing Regulations (Northern Ireland) 2003 which specify the class of vehicles subject to testing and the related test items. Schedule 2 of these regulations cites the speedometer as a testable item for Class IV vehicles (motor cars). Regulation 40 of the Motor Vehicles (Construction and Use) Regulations (Northern Ireland) 1999 provides for a motor vehicle to be fitted with a speedometer which indicates speed both in miles per hour and kilometres per hour, either simultaneously or, if required, separately.

Multiple Sclerosis

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding has been allocated by each health board in the Province for disease modifying therapies for multiple sclerosis in each of the last five years. [24891]

Mr. Woodward: The health and social services boards have advised that expenditure on disease modifying therapies for multiple sclerosis in each of the last five years was as shown in the following table:

£

	Eastern	*Northern*	*Southern*	*Western*	*NI Total*
2000-01	1,178,036	749,244	401,934	292,179	2,621,393
2001-02	1,538,340	1,076,476	610,937	431,455	3,657,208
2002-03	1,435,745	993,850	558,862	438,132	3,426,589
2003-04	1,544,745	1,150,891	714,420	439,930	3,849,986
2004-05	1,637,315	1,267,089	796,111	565,149	4,265,664

Nurses

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland what assessment he has made of the reasons for nurses leaving the NHS in Northern Ireland; and if he will take steps to increase the number of nurses trained each year. [25522]

Mr. Woodward: During the year ended 31 March 2005 a total of 893 nursing and midwifery staff left the Northern Ireland Health and Personal Social Services (HPSS). This figure will include retirements and those who have left the NI HPSS to join the NHS in England, Scotland and Wales. Information on the actual destination of leavers is not collected.

The annual intake of student nurses has increased from 480 in 1999 to the current level of 750. This level is kept under review through the Department's ongoing workforce planning process.

National Match-funded Money

Dr. McCrea: To ask the Secretary of State for Northern Ireland which schemes the national match-funded money has been spent on in each year since modulation was introduced; and how much has been spent on each scheme. [25786]

Angela E. Smith: The schemes and associated amounts on which modulation match funding has been spent in each year since the introduction of modulation are detailed in the following table.

Scheme name	*Financial year (£)*				
	2001-02	*2002-03*	*2003-04*	*2004-05*	*2005-06 (to date)*
Environmentally Sensitive Area Scheme	—	13,540.14	149,095.20	198,895.29	130,282.94
Organic Farming Scheme	98,604.63	51,234.89	44,631.11	24,271.23	53,992.83
Countryside Management Scheme	—	473,977.67	1,041,198.55	1,608,446.91	770,999.76

Scheme name	Financial year (£) 2001–02	2002–03	2003–04	2004–05	2005–06 (to date)
Farm Woodland Premium Scheme	47,501.67	80,541.14	122,848.61	140,577.70	—
Short Rotation Coppice Challenge Fund	—	—	—	—	59,667.25
Total	146,106.30	619,293.84	1,357,773.47	1,972,191.13	955,275.53

NHS Complaints

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many complaints have been made against general practitioners in the Province in each of the last five years. [24860]

Mr. Woodward: The information requested is as follows:

	Number of complaints
2000–01	[1] 314
2001–02	[2] 536
2002–03	611
2003–04	587
2004–05	665

[1] no figures available for WHS SB or SHSSB areas during 2000–01
[2] no figures available for SHSSB area during 2001–02

Northern Area Plan

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress has been made on the draft Northern Area Plan in Northern Ireland; and how many individuals have been affected because their planning application has been either deferred or refused as a result. [25712]

Angela E. Smith: The closing date for receipt of representations on the Northern Area Plan (NAP) was 6 July 2005. To date, 5,600 representations on the plan have been recorded and these are currently being analysed. It is likely that these will require to be addressed through the public inquiry process for NAP. It is too early in the process to give an indication of when a public inquiry will be held.

The Planning (Development Plans) Regulations (NI) 1991, as amended, requires the Department to make copies of all objections to a development plan available for inspection prior to the inquiry. Copies of the representations will be put on public display as soon as possible and the Department will invite counter-objections, which must be submitted within an 8-week period.

Approximately 350 planning applications have been affected by the draft NAP. Of that, 81 have the draft NAP as the sole reason for refusal. It should be noted that many of these applications are by the same applicant.

Planning Enforcement

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many planning enforcement officers there are in each area of Northern Ireland. [25219]

Angela E. Smith: The number of enforcement officers by Divisional Planning Office is set out in the following table.

Division	Number of enforcement officers
Ballymena	7.5
Belfast	5.0
Craigavon	6.5
Downpatrick	3.0
Coleraine/Londonderry	9.5
Omagh/Enniskillen	7.5
HQ Special Studies Section	4
Total	43

Police Service

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many industrial tribunal applications were lodged against the Police Service of Northern Ireland in 2004–05; and what the status is of each case. [25153]

Angela E. Smith: During 2004–05 there were 61 individual applications registered against the Police Service of Northern Ireland. The status of these is that 16 applications were withdrawn and 45 remain current.

Porphyria

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what treatment is available on the NHS in Northern Ireland for porphyria variegate; how many consultants in the Province specialise in this area of medicine; how many sufferers there are in the Province; and if he will make a statement. [24982]

Mr. Woodward: Variegate porphyria is a very rare condition. Patients suffering from this disease can vary greatly in their clinical symptoms and therefore are likely to receive treatment from clinicians in a number of specialties including general medicine and dermatology. The symptoms of this illness can be severe however many adverse effects can be reduced or avoided by prompt diagnosis, sustained intervention and monitoring. The first line of treatment is to avoid factors which trigger acute attacks and there is also specific treatment for difficult cases. This treatment is all available within the HPSS in Northern Ireland.

There are two consultants in Northern Ireland who have an interest in inherited metabolic disorders of this type. Information on the number of patients in the Northern Ireland suffering from variegate porphyria is not available centrally but is thought to be very small.

Prisons

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost was of maintaining the prison population in Northern Ireland in *(a)* 2003–04 and *(b)* 2004–05; and what the average cost per prisoner was in each year. [24154]

Mr. Woodward: The hon. Gentleman asks for the average cost per prisoner. The Northern Ireland Prison Service NIPS) does not publish figures for the average

cost per prisoner in its annual report and accounts. The Northern Ireland prison service uses the average cost per prisoner place, which is one of the service's key PSA targets agreed with Treasury.

The net cost of operations and CPPP for the financial years requested are:

Financial year	Net cost of operations (£000)	CPPP(£)
2003–04	112,461	81,426
2004–05	115,495	85,935

In 2003–04 the CPPP target was £83,275 and 2004–05 was £86,800. The Northern Ireland Prison Service achieved the target in both years.

Property Valuations

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what plans the Government have to bring forward legislation to introduce a discrete capital value system of local taxation in Northern Ireland. [24592]

Angela E. Smith: The first of two Orders in Council to give effect to a range of rating reforms in April 2007, including the change from rental to capital values for domestic property, was published for consultation on 7 October. The draft Rates (Capital Values, etc.) (Northern Ireland) Order 2005 provides for the determination, publication and revision of the capital values of domestic property in Northern Ireland. These capital values will be published in April 2006. The second Order in Council will be published for consultation next year.

Pupil Expulsions

Dr. McCrea: To ask the Secretary of State for Northern Ireland what criteria are used in the decision to expel a pupil in *(a)* primary, *(b)* secondary and *(c)* grammar school in the (i) controlled, (ii) maintained, (iii) integrated and (iv) voluntary sectors of education. [25763]

Angela E. Smith: The Department of Education has not issued criteria to be used in the decision to expel a pupil from any school in Northern Ireland.

All schools are required by law to have a discipline policy, which sets out sanctions, including expulsion, which the school will impose for breaches of school discipline. It is for individual schools to draw up their own discipline policy, including the criteria they will use in decisions to expel a pupil from school.

Railways

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what percentage change there has been in numbers of passengers on the Northern Ireland rail network in the past three years. [26580]

Mr. Woodward: The percentage change in numbers of passengers on the Northern Ireland rail network in the past three years has been:

	Percentage
2002–03	+5.5
2003–04	+5.2
2004–05	-0.9

Road Safety

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will list locations of traffic calming schemes that the road service expects to introduce in the Province within the next 12 months. [24898]

Mr. Woodward: The chief executive of the roads service (Dr. Malcolm McKibbin) has been asked to write to the hon. Lady in response to this question.

Letter from Dr. Malcolm McKibbin to Mrs Iris Robinson, dated 8 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding the locations of traffic calming schemes that Road Service expects to introduce in the Province within the next 12 months.

I have been asked to reply as this issue falls within my responsibility as chief Executive of Roads Service.

In relation to the provision of traffic calming measures, I am sure you will appreciate that, although the funding allocated to traffic calming has been increased significantly year on year, demand far outstrips our capacity to meet all such requests and priorities have to be established. We do this by taking account of a number of factors: the accident history of the site, with additional weighting being applied to collisions involving vulnerable road users; the speed, volume and type of traffic; and the characteristics of the general area. Of these we give the highest priority to safety because we believe it is only right to treat sites with an accident history before those with a reasonably good safety record. Implicitly, this assessment process takes cognisance of the overall cost of road traffic collisions to society in general. This approach has led to a substantial reduction in collisions and personal injuries at those sites, over a number of years.

Table A attached lists the locations of traffic calming schemes Roads Service has programmed for completion this financial year. Our programme of traffic calming works for 2006/2007 has not yet been finalised and Table B attached is a preliminary list of schemes under consideration at this stage. Naturally, implementation of these schemes will be subject to the successful completion of the statutory processes including local consultation and the resolution of any objections.

I hope this information is helpful.

Saville Inquiry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will break down by main category of expenditure the total and final cost to public funds of the Saville Inquiry into events in Londonderry in January 1972. [25713]

Mr. Hanson: On the figures available at the end of October 2005 the total cash spend of the Bloody Sunday Inquiry was £163 million. Breaking this down into the main categories previously requested by the hon. Member gives the following figures. Some limited expenditure will continue until the Tribunal submits its final report to the Secretary of State for Northern Ireland.

		£ million
	NIO	*MOD*
(a) legal fees	55.535	29.711
(b) accommodation	14.954	—
(c) transportation	3.217	—
(d) provision of IT equipment	12.836	—
(e) hiring of halls	7.574	—
(f) other	[1] 36.179	[2] 3.034

[1] For the NIO this figure includes salary costs of Tribunal members (except Lord Saville) and Inquiry staff, witness expenses, expert witnesses, office services and security, telecommunications and other miscellaneous office expenditure.

[2] For the MOD this figure includes Inquiry related staff and support costs, accommodation, a Police Investigation and other miscellaneous fees and expenses.

School Transport

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how much has been spent by each of the education and library boards in Northern Ireland on the provision of school transport for primary school children who leave school at 2 pm in each year since 2000. [25497]

Angela E. Smith: Information with regard to pupils finishing school at 2 pm who are eligible for school transport assistance is not available in the format requested. However, on the basis of boards' expenditure figures it is estimated that the cost of transporting these pupils by board vehicles was as follows:

£ million

	BELB	*NEELB*	*SEELB*	*SELB*	*WELB*	*Total*
2000–01	0.2124	0.2962	0.2551	0.6562	0.883	2.3029
2001–02	0.2691	0.3120	0.3234	0.6533	1.0199	2.5777
2002–03	0.763	0.5766	0.243	0.9506	1.146	2.9925
2003–04	0.1131	0.5985	0.7019	0.9287	1.0181	3.3603
2004–05	0.1166	0.7174	0.3523	0.9004	1.1284	3.2151

South Tyrone Hospital

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland what medical and surgical services are provided by the South Tyrone Hospital in Dungannon. [25523]

Mr. Woodward: The following services are provided from the South Tyrone Hospital site:

Geriatric Inpatient and Day Services

Minor Injuries Service

Day Case Services—General Surgery, Gynaecology, Ophthalmology, Pain Management, Oral Surgery, Community Dentistry, Gastroenterology, Rheumatology, ENT

Paediatric Ambulatory Care services

Outpatient Services

Pain Management, Palliative Medicine, Anti-Coagulant, Dermatology, General Medicine, Thoracic Medicine, Cardiology Medicine, Diabetology, Geriatric Medicine, Geriatric Assessment, Haematology, Paediatric, Rheumatology, Neurology, Day Hospital, Colposcopy, Gynaecology, Obstetrics, ENT, General Surgery, Thoracic Surgery, Ophthalmology, Renal, Varicose Ulcer, Continence, Optometry.

Road Safety Bill

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) if he will take steps to secure the extension of the provisions of the Road Safety Bill to Northern Ireland; [25638]

(2) what discussions he has had with his Cabinet colleagues in relation to the extension of the Road Safety Bill to Northern Ireland. [25639]

Angela E. Smith: Road Traffic legislation is a transferred matter and responsibility for its progress in Northern Ireland rests with the Department of the Environment. For this reason the provisions of the Road Safety Bill do not, in general, apply to Northern Ireland. There is a general convention to replicate, where possible, the position in Great Britain and this will be done through the draft Road Traffic (Northern Ireland) Order 2006 that was issued for public consultation on 6 October 2005 with a closing date for comments of 12 January 2006.

The Road Safety Bill seeks to extend Part 2 of the Vehicles (Crime) Act 2001(c.3) (regulation of number plate suppliers) to Scotland and Northern Ireland. This is a reserved matter that cannot be included in the draft Road Traffic (Northern Ireland) Order.

The arrangements for replicating measures contained in the Road Safety Bill were made at official level and there has been no correspondence between my right hon. Friend the Secretary of State for Northern Ireland and Cabinet colleagues on this matter.

Staff Absence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the rate of worker absence has been in each Department in each year since 2001; and if he will make a statement. [22649]

Angela E. Smith: Sick absence statistics for the Northern Ireland Departments are analysed by financial year as opposed to calendar year. The information set out as follows represents the total number of days lost due to sickness absence in each of the Departments of the NI Administration and the NIO for each year since 2001–02. The figures for 2004–05 are currently being compiled and the annual report will be published later this year.

NI Departments:

Absence information 2000–01

Department/agency	*Average days lost per staff year*	*Absence rate percentage of available working days lost*
DARD	12.2	5.5
DCAL	14.7	6.7
DE	15.7	7.1
DEL	17.9	8.1
DETI	12.4	5.6
DFP	12.8	5.8
DHSSPS	12.9	5.8
DOE	14.6	6.6
DRD	12.2	5.5
DSD	18.6	8.4
OFMDFM	9.7	4.4
MO	12.8	5.8
NI prison staff(civilian)	16.6	[1]

[1] No figures available.

Notes:

1. Staff from the Parliamentary Commissioner for Complaints and the Planning Appeals Commission are included in the DFP figures.
2. Staff from HSENI and OFREG are included in the DETI figures.

Absence information 2001–02

Department/agency	*Average days lost per staff year*	*Absence rate percentage of available working days lost*
DARD	11.8	5.3
DCAL	14.6	6.6

Waiting Lists/Times

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 20 October 2005, *Official Report*, column 1238W, on waiting lists, if he will take steps to record waiting times for radiotherapy in the Province. [24916]

Mr. Woodward: There is no evidence to suggest that there is any difficulty accessing radiotherapy services in Northern Ireland. A national audit of radiotherapy waiting times has recently been carried out by the Royal College of Radiologists. Data were collected for all patients who commenced treatment in Northern Ireland during the week beginning 26 September 2005. Preliminary local analysis indicates that no emergency patient waited more than 24 hours and that waiting times for other patients were in line with national guidelines. The Department has no plans to record waiting times for radiotherapy on an ongoing basis.

Appeals

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of Crown court convictions in Northern Ireland have been successfully appealed in each of the last five years. [25640]

Bridget Prentice: I have been asked to reply.

	Number of Crown court convictions (non-scheduled)	*No. of convictions quashed in Court of Appeal*	*Percentage of appeals quashed compared to convictions in the Crown*
2004	962	5	0
2003	742	0	0
2002	670	2	0
2001	635	5	0
2000	761	5	0

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of convictions in the Diplock courts have been successfully appealed in each of the last five years. [25641]

Bridget Prentice: I have been asked to reply.

	Number of Diplock convictions	*Number of convictions quashed in Court of Appeal*	*Percentage of appeals quashed compared to convictions in the Diplock Courts*
2004	30	0	0
2003	53	2	4
2002	47	1	2

	Number of Diplock convictions	Number of convictions quashed in Court of Appeal	Percentage of appeals quashed compared to convictions in the Diplock Courts
2001	22	3	14
2000	35	5	14

Teacher Training

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much has been spent on teacher training in the Province in each of the last five years. [25793]

Angela E. Smith: Funds allocated for teacher training in Northern Ireland in each of the last five financial years are provided in the table.

Funds allocated for teacher training in Northern Ireland between 2001–02 and 2005–06

	£ million
Actual allocation	
2001–02	31.855
2002–03	32.409
2003–04	35.129
2004–05	36.057

Funds allocated for teacher training in Northern Ireland between 2001–02 and 2005–06

	£ million
Estimated allocation	
2005–06	41.090

Telecommunications Masts

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many planning applications there have been to construct or add to existing telecommunication masts in each local authority in Northern Ireland in each of the last 10 years; and how many applications were *(a)* approved and *(b)* refused in each year. [25156]

Angela E. Smith: The number of applications to construct or add to existing telecommunication masts is set out in the following table.

Number of applications for telecommunication masts by council area between 2000 and 2005 (including prior approval applications)

Council area	2000	2001	2002	2003	2004	2005[1]
Antrim	17	19	17	11	6	9
Ards	26	22	7	4	3	5
Armagh	33	21	14	8	3	2
Ballymena	34	17	15	1	5	0
Ballymoney	7	3	3	0	1	1
Banbridge	19	5	12	3	0	0
Belfast	48	134	69	36	23	15
Carrickfergus	7	6	5	0	2	2
Castlereagh	8	20	13	5	6	2
Coleraine	16	33	20	1	5	5
Cookstown	15	6	4	2	1	0
Craigavon	30	21	14	2	11	11
Derry	23	44	21	9	20	9
Down	22	26	10	7	9	7
Dungannon	45	25	13	7	8	1
Fermanagh	24	19	8	5	6	2
Larne	11	16	9	3	1	1
Limavady	18	14	12	6	2	4
Lisburn	43	47	37	12	17	9
Magherafelt	12	3	9	2	3	3
Moyle	12	4	5	5	0	4
Newry and Mourne	34	15	19	4	6	9
Newtownabbey	14	25	14	4	10	4
North Down	27	35	11	6	19	6
Omagh	24	16	10	4	3	7
Strabane	12	12	4	1	1	2

[1] So far.

It is only possible to provide accurate data for the last five years as all the information for previous years is not held electronically and could be extracted only at a disproportionate cost.

It should be noted that figures up to 2002 also include applications made under the prior approval process. In June 2002 Permitted Development rights were removed by statute except in the case of an emergency and applications for telecommunications equipment were subject to the full planning process.

Details of how many applications were refused or approved since 2000 is set out in the following table.

Decisions issued on telecommunication masts by council area between 2000 and 2005

Council area	2000		2001		2002	
	Refused	Approved	Refused	Approved	Refused	Approved
Antrim	1	13	4	9	4	12
Ards	3	19	1	12	0	5
Armagh	7	27	5	18	2	12
Ballymena	0	17	2	14	0	14
Ballymoney	1	4	0	4	0	4

Decisions issued on telecommunication masts by council area between 2000 and 2005

Newtownabbey	1	4	0	7	0	5
North Down	0	6	1	6	1	14
Omagh	3	7	0	3	0	4
Strabane	0	2	0	1	0	1

[1] So far.

It should be noted that there is no direct correlation between the number of applications submitted per year and the number of decisions issued.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what steps he plans to put in place for telecommunication mast sharing. [25157]

Angela E. Smith: Prevailing planning policy for telecommunications development in Northern Ireland, set out in Planning Policy Statement (PPS) 10 'Telecommunications', already strongly encourages the sharing of masts where this represents the best environmental option in a particular case.

To promote sharing through the planning process, the PPS advises that all applications for new masts should be accompanied by evidence that the possibility of erecting antennas on an existing building, mast or other structure has been explored and should outline the specific reasons why this course of action is not possible. Where the evidence regarding the consideration of alternative options is not considered satisfactory, then planning permission can be refused.

Vehicle Certification

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost of providing the vehicle testing service in Northern Ireland has been in each of the last five years. [25215]

Angela E. Smith: The cost of providing the vehicle test service in Northern Ireland in each of the last five years is as follows:

	Cost (£000)
2000–01	9,476
2001–02	9,931

	Cost (£000)
2002–03	13,411
2003–04	16,322
2004–05	16,999

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much money has been received through vehicle test fees in Northern Ireland in each of the last five years. [25216]

Angela E. Smith: Money received through vehicle tests in Northern Ireland in each of the last five years is set out in the table:

	Fee earned (£000)
2000–01	9,113
2001–02	10,161
2002–03	14,155
2003–04	18,097
2004–05	18,395

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the current average waiting time is for a vehicle test in Northern Ireland. [25217]

Angela E. Smith: The current average waiting time for a vehicle test in Northern Ireland is currently 27 calendar days.

Warm Homes Scheme

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many households received funding from the Warm Homes Scheme in the last 12 months in each Westminster parliamentary constituency in the Province. [24871]

Mr. Hanson: Under the Warm Homes Scheme, eligible applicants are provided with insulation measures. The Warm Homes Plus scheme provides heating and insulation measures for all eligible pensioners.

The information is as follows:

Constituency	Number of households in receipt of insulation measures[1]	Number of households in receipt of heating measures[1]
Belfast East	304	134
Belfast North	477	235
Belfast South	253	82
Belfast West	508	246
East Antrim	255	139
East Londonderry	331	179
Fermanagh/South Tyrone	476	319
Foyle	627	232
Lagan Valley	356	145
Mid-Ulster	583	325
Newry and Armagh	683	324
North Antrim	379	192
North Down	402	145
South Antrim	392	209
South Down	562	265
Strangford	319	125
Upper Bann	594	265
West Tyrone	509	210

[1] These columns include those households which received both heating and insulation measures.

Water Rates

Mrs. Spelman: To ask the Secretary of State for Northern Ireland how much was raised in gross revenue in domestic water rates in Northern Ireland in 2004–05; and how much he expects to be raised in *(a)* 2005–06 and *(b)* 2006–07. [24690]

Mr. Woodward: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

Letter from Mrs. Katharine Bryan to Mrs. Caroline Spelman, dated 7 November 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about the gross revenue raised from domestic water rates in Northern Ireland in 2004–05, and the estimated gross revenue for 2005–06 and 2006–07. I have been asked to reply as this issue falls within my responsibility as Chief Executive of Water Service.

There are no domestic water charges in Northern Ireland and therefore no income has been or will be raised from water rates in the 3 year period to March 2007. In September this year, the Government announced that domestic water and sewerage charges would be introduced in Northern Ireland from 1 April 2007.

EDUCATION AND SKILLS

0870 Numbers

Dr. Cable: To ask the Secretary of State for Education and Skills if she will list the occasions in the last five years on which 0870 telephone numbers have been used by her Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24466]

Bill Rammell: The Department for Education and Skills currently has nine non-geographic 0870 numbers in use as follows:

	Number of lines
Main DfES Switchboard Number	1
Public Communications Unit (PCU)	1
Office of the Schools Adjudicator (OSA)	1
Special Educational Needs Tribunal (SEN Tribunal)	5
EDUBASE (Provision of schools data to the public)	1

The Department for Education and Skills does not participate in revenue share schemes associated with 0870 telephone numbers and therefore derives no revenue from the use of these numbers.

16 to 18-year-olds

Julia Goldsworthy: To ask the Secretary of State for Education and Skills how many and what proportion of young people aged 16 to 18 were *(a)* in full-time education, *(b)* in employment, *(c)* in training and *(d)* not in education, employment or training in each year since 1997, broken down by local authority area. [24096]

Bill Rammell: Tables showing numbers and proportions of 16 and 17-year-olds in *(a)* full-time education and *(c)* work based learning (e.g.

apprenticeships) are available at local authority level for 1997 onwards. These were published in the Statistical First Release "Participation in education and training by 16 and 17 year olds in each local area in England". Figures for 18-year-olds are not available at a local level.

The publication is accessible on the DfES website via the link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/index.shtml

The specific figures are available through the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000568/SFR11-2005tables_lea.xls

Information for young people *(b)* in employment and *(d)* not in education, employment or training (NEET) are not available at local authority level.

Ability Grouping

Mr. Gibb: To ask the Secretary of State for Education and Skills what percentage of lessons is recorded as set by ability in *(a)* Year 7, *(b)* Year 8, *(c)* Year 9, *(d)* Year 10 and *(e)* Year 11 in secondary schools inspected by Ofsted between 1995 and 2004. [24008]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, David Bell, has written to the hon. Member and a copy of his letter has been placed in the Library.

Letter from David Bell to Mr. Nick Gibb, dated 8 November 2005:

Your recent parliamentary question has been referred to me, as Her Majesty's Chief Inspector of schools, for reply.

You asked what percentage of lessons is recorded as set by ability in *(a)* Year 7, *(b)* Year 8, *(c)* Year 9, *(d)* Year 10 and *(e)* Year 11 in secondary schools inspected by Ofsted between 1995 and 2004.

The tables (attached) show the percentage of lessons seen by inspectors during the academic years 1996/97 and 2002/03. The data were not recorded by inspectors for 1995/96 and in 2003/04 inspectors were not required to distinguish between setting and banding in the information they recorded about lessons.

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both Houses.

	1996–97		1997–98		1998–99		1999–2000

Year 11	15,108	42.6	13,812	40.6	12,982	39.9
Total Year 7–11	73,454	39.1	65,496	37.5	59,719	37.6

Notes:

1. Framework changes occurred in January 2000 and September 2003. Changes in the way groupings in lessons were recorded may mean that data are not directly comparable from periods of one framework to another.
2. From January 2000 to July 2003, the inspection arrangements included full and short inspections. The majority of lessons observed

Academies

Mr. Hoban: To ask the Secretary of State for Education and Skills what freedoms are available to academies that will not be automatically available to Trust schools. [24281]

Jacqui Smith: Academies are fully independent of the local authority, and have considerable freedoms around staffing, curriculum and governance. They have the freedom to establish their own pay and conditions system for staff with the exception of those who transfer from the predecessor school under TUPE. They must offer a broad and balanced curriculum, and have the freedom to establish this in their own innovative way, with the assistance of the Department. Academy sponsors can appoint the entire governing body, except for three places which are reserved for an LEA representative, and elected parent and staff representatives.

Trust schools are part of the local authority family of schools. Like other maintained schools they must follow the Teachers' Pay and Conditions Document and the National Curriculum, unless they demonstrate that proposed changes will raise standards and obtain permission to innovate from the Secretary of State. In terms of governance, Trusts will be able to appoint a majority of governors and places will be reserved for representatives of parents, staff, LEA and the community.

Admissions Code

Mike Penning: To ask the Secretary of State for Education and Skills when she will publish the responses to the Consultation on the Draft Admissions Code; and if she will make a statement. [25946]

Jacqui Smith: We expect to be able to publish results on the Department's Consultation website by early December—well within the three months of the end of consultation time scale recommended by the Cabinet Office.

Avian Influenza

Mr. Swire: To ask the Secretary of State for Education and Skills what discussions she has had with ministerial colleagues about the advice to be issued to schools in the event of a civil contingency caused by the outbreak of an avian influenza pandemic. [25393]

Phil Hope: This Department has taken part in discussions with ministerial colleagues, which are to continue. In due course, the Government will issue interim advice to local emergency planners, which will include advice on schools.

Call Centres

Mr. Laws: To ask the Secretary of State for Education and Skills how many call centres were run by her Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23303]

Bill Rammell: The Department operated one call centre (the DfES Publications Line) in 2003–04, 2004–05 and 2005–06 to date. Call answering statistics for each of these years for this call centre are:

	2003–04	*2004–05*	*2005–06[1]*
Calls handled by an adviser	547,477	543,264	245,042
Calls receiving engaged tone	4,492	2,224	2,131
Percentage of total	0.8	0.4	0.87
Calls abandoned	9,250	8,984	3,912
Percentage of total	1.6	1.6	1.6

[1] To date.

The Department currently has no Agencies and did not have any in the years covered by the question.

Child Care

Shona McIsaac: To ask the Secretary of State for Education and Skills how many child care places were available in each of the past 10 years in Cleethorpes constituency. [26478]

Beverley Hughes: The Department is unable to provide details of available child care places in the past 10 years, additionally we are unable to provide details of places within each constituency. Statistics have only been collected by local authority area since 1999 following the introduction of the National Childcare Strategy for England.

The following table details the stock of child care places in North East Lincolnshire, each year since 1999.

Stock of child care places

March	*Number*
1999	154
2000	73
2001	611
2002	930
2003	1,578
2004	2,199
2005	2,597

Disabled Students' Allowance

Mr. Laws: To ask the Secretary of State for Education and Skills how many staff are employed to deal with applications for the disabled students' allowance. [26558]

Bill Rammell: Applications for disabled students' allowances (DSAs) are handled by awards officers in local authorities, which decide individually on appropriate staffing levels. The Open university acts similarly with regard to students on OU courses receiving DSAs. Statistics of local authority and OU staff administering student support applications are not kept centrally.

Education Funding

Kelvin Hopkins: To ask the Secretary of State for Education and Skills how many hon. Members *(a)* she, *(b)* the Minister of State for Lifelong Learning, Further and Higher Education and *(c)* the Parliamentary Under-Secretary of State for Skills have met formally since February to discuss (i) adult education and (ii) funding for 16 to 19-year-olds in schools and colleges. [23620]

Phil Hope: The Minister of State for Lifelong Learning, Further and Higher Education and the Parliamentary Under Secretary of State for Skills also invited all hon. Members to attend open meetings in June on funding for further education. 39 hon. Members accepted although no formal record was made of attendance at the meetings.

The Secretary of State for Education and Skills has met three hon. Members formally since February to discuss funding for 16 to 19-year-olds in schools and colleges.

The Minister of State for Lifelong Learning, Further and Higher Education has, since February, formally met: one hon. Member to discuss adult education; one hon. Member to discuss funding for 16 to 19-year-olds in schools and colleges; and four hon. Members to discuss both.

The Parliamentary Under Secretary of State for Skills has, since February, formally met: two hon. Members to discuss funding for 16 to 19-year-olds; and one hon. Member to discuss both adult education and funding for 16 to 19-year-olds.

Extended Schools

Mr. Dismore: To ask the Secretary of State for Education and Skills (1) what criteria will be used by local authorities in deciding which schools receive priority for extended school funding; [24228]

(2) how many extended schools she expects will operate in each of the most deprived local authorities, as defined by the Index of Local Deprivation, by 2008; [24229]

(3) what steps she will take to ensure that access to 'charged for services' in extended schools is maximised among families who are *(a)* unwaged and *(b)* in receipt of tax credit. [24230]

Beverley Hughes: It will be for each local authority, in discussion with all schools in their area, to take a strategic approach to developing access to extended services through schools. As part of that strategy, local

authorities and schools will need to take into account a number of factors such as what services are already available in the local community, levels of deprivation and how the proposed extended services will be delivered. Funding will be released to schools in accordance with that strategy. The aim is to avoid schools 'bidding' for funding but ensure that funding is released against the priorities identified. A key priority will be to fill gaps in services, such as child care. We anticipate that there will be gaps in services in many deprived communities and hence these areas will be prioritised.

The Government's aim is that half of all primary schools and a third of all secondary schools will be offering access to a core set of extended services by 2008. We anticipate that many of them will be located in areas of high deprivation (in allocating the funding we have factored in deprivation levels into the distribution formula). We are providing £840 million to support the development of extended services.

For some of these services, such as child care, we expect them to become sustainable longer term by charging. Parents on low income may be eligible to apply for the child care element of the working tax credit to support the cost of school based child care. Local authorities are well placed to provide schools and parents with advice on accessing the tax credits available and can work with schools to encourage greater take up of tax credits in deprived communities. We will expect children from unwaged families to access a good range of study support activities free of charge through schools. In addition to the resources that schools already have within their existing budgets for study support programmes, the Government is investing a further £335 million by 2007–08 for secondary schools to develop a more personalised programme of study support. For those schools with the highest number of pupils who have fallen behind in their learning, the Government will provide a further £60 million shared between the primary and secondary sectors in each of 2006–07 and 2007–08. Every school should therefore be well placed to ensure that every child in their school has access, free of charge, to the study support that they need. For other services such as health and social care and adult learning opportunities, local authorities, using children's trust arrangements, will be able to provide resources to support services in deprived areas where that is appropriate.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what assessment she has made of the potential requirement for additional training of staff for extended schools. [25001]

Beverley Hughes: My department has made available £680 million over the next two years for schools and local authorities to deliver extended services. This is in addition to the £160 million that we have already spent. This funding can be used flexibly by local authorities and schools to overcome any barriers to the development of extended services. We anticipate that some of this funding will be used to ensure that staff working in extended services get the training and support they need in their roles, including on important issues such as health and safety requirements. We have made it clear from the outset that there is no expectation that teachers will deliver these services. Schools will need to work with existing providers from both the private and voluntary sectors and other children's services and make good use of their expertise and skills. It may also be the case that, following consultation, some existing school support staff may be interested in taking up some of these roles. We have also appointed the National Remodelling Team, within the Training and Development Agency, to work with schools to ensure that they have the right skills in place for developing extended services.

Foreign Language Degrees

Andrew Rosindell: To ask the Secretary of State for Education and Skills how many students have studied a foreign language at degree level in an English university in the last 10 years after living for over five years in the country where the foreign language is the native tongue. [21087]

Bill Rammell: Information is not held centrally on the number of native foreign language speakers taking degrees in their native language at English universities. The Higher Education Statistics Agency collects data annually on the number of overseas students enrolled at English higher education institutions but they do not collect data on the native language of students. The available information from HESA shows the number of foreign domiciled students studying the language of their country of domicile, but it does not necessarily follow that students from a particular overseas country will be a native speaker of that country.

Free Transport

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many children in *(a)* England, *(b)* Staffordshire and *(c)* Tamworth receive free transport to (i) primary and (ii) secondary schools. [26164]

Jacqui Smith: A joint survey conducted by DfES, the Confederation of Education and Childrens Service Managers, and the Audit Commission, covering local authority school transport policies, expenditure and pupil numbers carried, was published for the first time in January 2004. It reported that about 700,000 pupils received free and assisted home to school to mainstream schools in England, and that just over 7,500 pupils received free or assisted transport to mainstream schools in Staffordshire in 2001/02. No more detailed information is available.

Further Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills when *(a)* the Minister of State for Lifelong Learning, Further and Higher Education, *(b)* the Parliamentary Under-Secretary of State for Skills and *(c)* she was informed orally or in writing of the conclusions of the Learning and Skills Development Agency's report entitled "The Funding Gap—Funding in schools and colleges for full-time students aged 16 to 18"; and if she will make available the minutes of discussions on the report. [20651]

Bill Rammell: The Learning and Skills Development Agency's report was commissioned by the Learning and Skills Council as part of their agenda for change

proposals. My predecessor and the former Parliamentary Under-Secretary of State for Skills were made aware of the conclusion of the work being undertaken by LSDA to assess the size of the gap in early March 2005 and the Secretary of State was informed shortly after. However, there were no detailed discussions of the conclusions of the report until the end of June 2005, shortly before the report was made public. There are no minutes of discussions on this report. The Minister of State for Schools and 14–19 Learning signalled in her statement to the House of Commons on 21 July that we intend to explore the scope for addressing the technical anomalies between the school sixth form and further education funding systems. We aim to announce decisions on the way forward shortly.

Mr. Michael Foster: To ask the Secretary of State for Education and Skills what her most recent assessment is of the comparative performance of students studying in *(a)* sixth-form colleges, *(b)* further education colleges and *(c)* sixth-forms in schools; and if she will make a statement. [24874]

Bill Rammell: Comparable data for sixth form colleges (SFCs), general further education colleges (GFECs) and sixth-forms in schools are available for people studying for GCE and VCE A/AS-levels and Key Skills at level 3 qualifications.

When data are adjusted for prior attainment (average GCSE grade attained in year 11) there is a small performance advantage for SFCs over schools (about one tenth of a grade in each A-level taken) and for schools over GFECs (about one sixth of a grade in each A-level taken).

Further information can be found in paragraphs 85 to 90 of the DfES document: "Success for All Delivery Plan—Evidence Report".

(http://www.successforall.gov.uk/index.cfm?pg = 160)

GCSEs

Mr. Gibb: To ask the Secretary of State for Education and Skills how many and what proportion of 15-year-olds achieved five or more grades at *(a)* A* to C and *(b)* A* to G at GCSE, excluding equivalents, in each year since 1995. [23527]

Jacqui Smith: The information requested can be found in the following table:

		GCSE only[1]			
	Number of 15-year-old pupils2 (thousands)	*Number achieving 5 + A*-C (thousands)*	*Percentage achieving 5 + A*-C*	*Number achieving 5 + A*-G (thousands)*	*Percentage achieving 5 + A*-G*
2005[3]	637.2	325.0	51.0	555.2	87.1
2004	643.6	322.8	50.2	564.4	87.7
2003	622.1	310.2	49.9	549.5	88.3
2002	606.6	303.7	50.1	537.8	88.7
2001	603.3	297.4	49.3	535.2	88.7
2000	580.4	282.9	48.7	515.4	88.8
1999	581.0	276.3	47.6	513.3	88.4
1998	575.2	264.9	46.1	502.8	87.4
1997	586.8	264.2	45.0	506.9	86.4
1996	594.0	264.5	44.5	511.5	86.1
1995	578.2	251.4	43.5	495.5	85.7

[1] This includes GCSE full courses only, GCSE Short courses and vocational GCSEs are not included in these figures.
[2] Age at the beginning of the academic year (i.e. 31st of August).
[3] Figures for 2005 are provisional. All other figures are final.

Grandparents (Child Care Arrangements)

Mr. Frank Field: To ask the Secretary of State for Education and Skills what research her Department has *(a)* commissioned and *(b)* evaluated on grandparents who are raising their grandchildren full-time. [19536]

Beverley Hughes *[holding answer 20 November 2005]:* The Department for Education and Skills has not commissioned research specifically on grandparents who are raising their children full-time. The Department regularly reviews available research evidence on different aspects of parenting, including fostering by relatives, to inform policy development. It recently published a comprehensive review of research on foster care[1] which includes evidence on the role of relatives as foster carers. Nearly half of these relatives are grandparents.

[1] 'Fostering Now: messages from research', Ian Sinclair, 2005. Published by Jessica Kingsley Publishers on behalf of DfES.

Homework Clubs

Mike Penning: To ask the Secretary of State for Education and Skills how much funding has been allocated to homework clubs in schools in *(a)* Dacorum and *(b)* Hertfordshire in 2005–06. [25811]

Jacqui Smith: The information requested is not available. Homework clubs may form part of a school's or local authority's study support (out of school hours learning) programme, for which funding is available through their base budgets, and the School Development Grant (SDG). Schools and local authorities may use their SDG for any purposes linked to school improvement, and it is for them to determine the amount to be allocated to study support.

Study support forms an integral part of the Government's extended services agenda, which will require schools to offer a varied menu of activities from 8 am to 6 pm year round, including during school holidays. Additional funding of £680 million is being made available up to 2008 to support the start up of extended services in schools.

Learning and Skills Council

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer to the hon. Member for Fareham (Mr. Hoban) of 18 October 2005, *Official Report*, column 961W, on the Learning and Skills Council, what the cost of support per capita was at each level. [25060]

Bill Rammell: The following table shows the funding per learner for the academic year 2003/04, by level of qualification:

Table 1: Funding per learner by level of qualification, 2003/04[1]

Level	*Cost per learner 2003/04 (£)*
Below level 2	540
Full level 2	1,140
Part level 2	520
Full level 3	1,540
Part level 3	740
Level not specified	230

[1] These funding per learner is an annual cost and not whole qualification costs.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what role the Learning and Skills Council played in developing the support strategy set up for redundant Rover workers. [25087]

Bill Rammell: The LSC played a central role in developing a support package that reduced the devastating impact on individuals and the West Midlands economy of the closure of MG Rover. Working with a range of partners, including Jobcentre Plus, the LSC put in place a range of measures including:

A manufacturing Job Match Hotline—for all companies who were interested in taking over former MG Rover employees.

A £22 million package of support drawn from European Funds to support training and to help fund skills advisors who have worked with 3,500 workers to develop individual skills needs plans.

Funding skills advisors to work in Business Link offices to help identify company and employee skills needs.

Establishing a network of Further Education Colleges across the West Midlands to co-ordinate an offer for retraining opportunities through colleges and other providers.

Placing more than 2,500 people into tailored retraining programmes and supporting almost 600 people, through re-skilling them, into alternative jobs in manufacturing.

John Penrose: To ask the Secretary of State for Education and Skills what estimate she has made of the savings to be made by the Learning and Skills Council as a result of the changes to running costs announced on 16 September in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [25518]

Bill Rammell: The LSC's core administration costs have fallen steadily from 4.6 per cent. of total funding in 2001–02, to 2.5 per cent. of its planned total budget in 2005–06. The LSC's Administration Budget for 2005–06 is almost £255 million. The Administration Budget for future years was set out in the Secretary of State's Grant Letter issued on 31 October 2005. This Grant Letter provides the LSC with just over £252 million (2.4 per cent. of planned total budget) for 2006–07 and just under £240 million (2.2 per cent. of planned total budget) for 2007–08 to cover its administration costs including the cost of capital and depreciation. This reflects efficiency savings already agreed. It is too early to say what further savings will arise. The overall Administration Budget will be reassessed when the results of the consultation on the LSC's "Agenda for Change", particularly its restructuring, are finalised. Further savings could then be released to the sector.

Learning and Skills Development Agency

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what effect she expects *(a)* the splitting of the Learning and Skills Development Agency and *(b)* the establishment of the Learning and Skills Network to have on costs; and if she will make a statement. [25067]

Bill Rammell: Re-structuring the Learning and Skills Development Agency to form the Learning and Skills Network and the Quality Improvement Agency for Lifelong Learning will enable us to achieve significant efficiency savings in future years in line with the Department's commitments to the Gershon Review. It is a key part of our streamlining and rationalisation programme to reduce costs and complexity in the sector.

National Skills Academies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills (1) how many of those graduating from national skills academies since they were established have found work in the sectors for which they were trained; [24987]

(2) how many of those graduating from national skills academies since they were established left with *(a)* Level 2, *(b)* Level 3 and *(c)* Level 4 qualifications; [24988]

(3) how many young people have studied in national skills academies since they were established; [24989]

(4) how many young people have successfully completed courses at national skills academies since they were established; [24990]

(5) how many of those graduating from national skills academies since their inception have gone on to higher education. [24998]

Phil Hope: The Fashion Retail Academy opened in September 2005 with 50 students studying at Level 2 and Level 3. Building on this, we announced on 31 October that a further four sectors would be supported to develop their proposals for national skills academies through more detailed business planning. It is therefore too early to provide any information on students graduating from national skills academies.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the contribution from public funds to the four proposed national skills academies will be; and how much funding will come from industry. [24997]

Phil Hope: Public funds will be available to help meet the four sectors further develop their proposals for national skills academies (including, for example, business planning and research and development costs). If these proposals are accepted, funding may then be available to support the capital and revenue costs of each academy. The amount will be negotiated by the Learning and Skills Council with each sector and will depend on the size and nature of each proposal.

Capital funding will be available to support the up front investment required to establish a national skills academy. This will be drawn from a range of contributors. On average, around 35 per cent. will come from Government via the Learning and Skills Council

(LSC), 50 per cent. from employers sponsoring the academy and the remaining 15 per cent. from a range of other sources and partners.

The day to day revenue income of national skills academies will be earned by delivering skills training and will come from a variety of sources including the LSC and from employers purchasing training services.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what role the skills councils of the relevant industries will have in each of the proposed National Skills academies. [25037]

Phil Hope: Expressions of Interest to develop a National Skills Academy must have the formal endorsement of the relevant Sector Skills Council. Each of the four proposals to develop National Skills Academies now moving into detailed business planning are led by a Sector Skills Council. We expect the Sector Skills Councils to continue to work with employers and other key partners to develop business models, governance and other arrangements which meet the needs of their sectors.

Nursery Places

Mr. Dismore: To ask the Secretary of State for Education and Skills how many nursery places were available through the Neighbourhood Nurseries Initiative in each participating authority in 2004–05; and what the average cost per place was in each area. [24233]

Beverley Hughes: The Neighbourhood Nurseries Initiative aimed to create 45,000 new full-time child care and early education places for children aged 0 to 5 in the 20 per cent. most disadvantaged areas in England by March 2004. £100 million of capital funding from the New Opportunities Fund (now the Big Lottery Fund), £28 million of Sure Start capital and £243 million of start-up revenue funding from the Sure Start Unit was made available to 142 of the 150 local authorities to support the development and delivery of these places. The places have been developed through a diverse range of local and national providers and are intended to be responsive to local needs and preferences. By end March 2005, over 49,000 places across over 1,390 neighbourhood nursery projects had been delivered.

Information on the number of nursery places open as part of the Neighbourhood Nurseries Initiative in each participating local authority in 2004–05 is in the following table.

Information on the average cost per place in each area is not available. One of the conditions set for all providers taking part in the Neighbourhood Nurseries Initiative was that fees charged should not exceed the level of help available to parents towards the costs of child care through the working tax credit for the period that the nursery received its initial start-up funding from the Government.

Nursery Places

Mr. Newmark: To ask the Secretary of State for Education and Skills how many children in Braintree constituency attended nursery in each of the last 10 years for which figures are available; and how many children in Braintree have taken up free nursery places since the policy was introduced. [21803]

Beverley Hughes: All four-year-olds have been entitled to a free early education place since 1998 and from April 2004 this entitlement was extended to all three-year-olds. The free entitlement consists of a minimum of five two and a half hour sessions per week for 33 weeks of the year for six terms before statutory school age, which is the term following their fifth birthday.

Some local authorities may additionally offer subsidised child care places but this information is not collected centrally.

Figures for January 2005 show that all four-year-old children receive some form of free entitlement. The figure for three-year-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 535,100 three-year-olds and 568,300 four-year-olds.

The available information on the number of free nursery education places taken up by three and four-year-olds in Braintree parliamentary constituency area and Essex local authority is shown in the tables. For 2005, information for private and voluntary providers is available for Essex but not currently available for Braintree constituency.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 43/2005 "Provision for children under five years of age in England—January 2005 (final)" in September, which is available on my Department's website www.dfes.gov.uk/rsgateway/

Number of free nursery education places[1] taken up by three and four-year-olds—Braintree parliamentary constituency. Position in January each year.

[7] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools Census.

[8] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools Census.

Changes in pupil figures may arise from changes to the underlying population in the local authority area and other factors. However, my Department does not publish population figures for individual age cohorts at sub-national level because of the unreliability of the underlying population estimates. The Office for National Statistics publish sub-national population estimates in five-year age bands.

Olympic Games

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills whether the construction industry is anticipating a skills shortage due to the building requirements of the London 2012 Olympics. [24961]

Phil Hope: The construction industry estimates that it will need to grow its Olympic work force to a peak of 7,500 employees by 2010. This will equate to no more than 3 per cent. of construction related employment in greater London (in 2010).

Coordination of construction projects in London and across the UK, together with the development by CITB-ConstructionSkills of a dedicated skills academy for the Olympics site will ensure we have an effective response to the skills needs generated by the London 2012 Olympics.

Overseas Students

Mr. Fallon: To ask the Secretary of State for Education and Skills if she will relax the three year residency requirement for overseas students in respect of publicly funded further education courses equipping people to work in the NHS and social services. [25003]

Bill Rammell *[holding answer 7 November 2005]:* My Department have no plans to review the policy regarding the three year residency requirement. We do recognise the needs of the NHS and social services, however, publicly funded education and training cannot be made available for non-EU nationals. All adults seeking to qualify for publicly funded education and training must satisfy the three year residency rule or other criteria specified by the Learning and Skills Council which funds post-16 learning in England. This requirement applies equally to UK citizens who have not been resident in the UK/EEU. This long standing residency requirement reflects the Government's view that it is reasonable to expect a person to have established a relevant connection with the UK before being allowed to benefit from funding provided by UK taxpayers.

Employers, public or private, who bring workers from outside the EU into this country have a clear responsibility to ensure they have the skills required for their jobs.

Personalised Learning

Helen Jones: To ask the Secretary of State for Education and Skills what assessment she has made of *(a)* the staff required and *(b)* the workforce development programme needed to deliver more personalised learning in schools. [23944]

Jacqui Smith *[holding answer 1 November 2005]:* Many schools have tailored the curriculum and teaching methods to meet the needs of pupils with great success for many years. We now want this to be common practice across all schools, particularly for children at either end of the ability spectrum whose needs can be the most challenging to meet.

It is for schools to determine their strategies and priorities for workforce deployment to deliver personalised learning. Schools are in the best position to identify their pupils' teaching and learning needs; and with the support of the Government's Primary and Secondary National Strategies, to determine how best to invest their resources and to access workforce development programmes to deliver them. Many

schools are employing staff other than teachers to support pupils and teachers as part of a professional school team.

We will support schools by allocating £335 million by 2007–08, specifically earmarked within our Dedicated Schools Grant, to provide the resources secondary schools need to deliver personalised learning in key stage 3. For those schools with the highest numbers of children who have fallen behind we will provide a further targeted £60 million in each of 2006–07 and 2007–08, shared across the primary and secondary sectors, to provide more effective one-to-one and small group tuition.

Through the National Strategies we will provide new resources and best practice guidance so that all schools will have a workforce that is well-equipped to tailor teaching and learning for those pupils who have fallen behind in English and maths. This will include material on the use of ICT and ways to engage and support parents in contributing to their children's learning. We propose to introduce a national training programme so that every school will have an expert leading professional to drive personalisation across the whole school, make best use of the new resources available and personalise learning to the needs of each pupil.

Postgraduate Certificate in Education

Andrew Rosindell: To ask the Secretary of State for Education and Skills how many physically disabled people have gained the Postgraduate Certificate in Education in each year since 1997. [20799]

Bill Rammell: The latest information is shown in the following table.

	1997/98	1998/99	1999/2000	2000/01	2001/02	2002/03	2003/04
Number of students obtaining PGCEs	15,870	15,590	15,300	16,925	18,530	20,415	23,325
of which, those with:							
Physical disabilities[1]	70	50	45	50	75	70	90
Other disabilities[2]	350	375	345	430	580	695	880
No known disability	14,580	14,580	14,025	15,880	17,465	19,250	21,755
Not known[3]	870	585	885	565	410	400	600

[1] Includes students who recorded their disability as blind, deaf, wheelchair users or with personal care support.
[2] Includes students who recorded their disability as mental health difficulties, dyslexia, an unseen disability, multiple disabilities, or any other disability.
[3] Not all students indicated whether or not they had a disability.
Source:
Higher Education Statistics Agency (HESA) student record. Figures have been rounded to the nearest 5.

Qualifications

Mr. Davey: To ask the Secretary of State for Education and Skills what proportion of *(a)* 19-year-olds and *(b)* 59 to 64-year-olds are economically inactive and do not have a Level 2 qualification. [25473]

Bill Rammell: From the summer 2005 Labour Force Survey we estimate that *(a)* 7.0 per cent. of 19 to 21-year-olds and *(b)* 11.0 per cent. of 59 to 64-year-olds in England are economically inactive and do not have a Level 2 qualification.

For comparison, 9.8 per cent. of the adult population in England are economically inactive and do not have a Level 2 qualification.

School Admissions

Mr. Chaytor: To ask the Secretary of State for Education and Skills what research she has commissioned on the effect of current school admissions policies on house prices in the vicinity of popular schools. [25595]

Jacqui Smith: The Secretary of State has not commissioned specific research of this type. However, we are aware of research by Professor Steven Machin and Dr. Steve Gibbons in 2001 which shows that more affluent parents, who can afford to move into the catchment area of popular schools, drive up house prices. This makes it harder for children from disadvantaged backgrounds to secure places.

Our White Paper "Higher Standards, Better Schools For All—More choice for parents and pupils" outlines our proposals to extend choice and open up access to schools for more parents, underpinned by a fair admissions system.

School Sports

Mrs. May: To ask the Secretary of State for Education and Skills what percentage of *(a)* primary and *(b)* secondary state schools in England offer pupils the chance to participate in (i) baseball, (ii) basketball, (iii) volleyball, (iv) handball and (v) softball. [25648]

Jacqui Smith: This information is not collected in the format requested. However, the 2004/05 School Sport Survey of schools in School Sport Partnerships collected data relating to the range of sports which schools provided for their pupils. No schools in the survey reported providing baseball or handball for their pupils in 2004/05. 16 per cent. of schools provided softball for their pupils; 25 per cent. provided volleyball; and 63 per cent. provided basketball. Overall, schools provided an average of 15 different sports for their pupils. The results of the survey were published in September this year and copies have been placed in the House Libraries.

Qualification Statistics

Mike Penning: To ask the Secretary of State for Education and Skills what percentage of the working age population in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire hold a qualification (i) at degree level and (ii) above degree level. [25567]

Bill Rammell: This data is not available in precisely the form requested. Table 1 shows the proportion of the working age population with a level 4/level 5 qualification[1], as their highest qualification held: so for those with both first and higher degree qualifications, only the latter is recorded (under "Level 5"). Data comes from the Local Labour Force Survey for 2004–05.

[1] Level 4 qualifications include first degree, NVQ level 4 and sub-degree higher education qualifications such as teaching and nursing certificates, HNC/HNDs, other HE diplomas and other qualifications at level 4. Level 5 qualifications include higher degrees and NVQ level 5.

Table 1: Proportion of the working age population holding a level 4/level 5 qualification, as their highest qualification held.

	Percentage	
	Level 4	*Level 5*
Hemel Hempstead	26.2	[1]6.4
Hertfordshire	25.5	6.9
England	20.6	5.3

[1] This estimate is based on a small sample size and is therefore subject to a higher degree of sampling variability. It should therefore be treated with caution.

Note:
The working age population is defined as males and females aged 16–64 and 16–59 respectively.

Source:
Local Labour Force Survey for 2004/05.

Schools White Paper

Tony Baldry: To ask the Secretary of State for Education and Skills further to her oral statement of 25 October 2005, *Official Report*, column 170, on the Schools White Paper, if she will set out her proposals for incentives to encourage schools to tailor educational provision to the needs of each child. [23714]

Jacqui Smith: Many schools have tailored the curriculum and teaching methods to meet the needs of pupils with great success for many years. We now want this to be common practice across all schools, particularly for children at either end of the ability spectrum whose needs can be the most challenging to meet.

We will therefore allocate £335 million by 2007–08, specifically earmarked within our Dedicated Schools Grant, to provide the resources secondary schools need to start delivering personalised learning for pupils in Key Stage 3, particularly for those who have fallen behind in literacy and numeracy and for those who are gifted or talented. For those schools with the highest numbers of children who have fallen behind we will provide a further targeted £60 million in each of 2006–07 and 2007–08, shared across the primary and secondary sectors, to provide more effective one-to-one and small group tuition. We will also provide all schools with best practice materials, guidance and access to training on the most effective teaching and learning strategies to personalise learning to the needs of each pupil.

Through School Improvement Partners and the new Ofsted inspection regime we will challenge every school to demonstrate they are planning and delivering effective tailored teaching and learning for every child, including the gift and talented. And the achievement and attainment tables for 2006 will show schools' success in ensuring pupils achieve not only five good GCSEs but also in the fundamentals of English and mathematics.

Scottish Universities

Jim Cousins: To ask the Secretary of State for Education and Skills if she will make representations to the Scottish Executive on its proposals to treat English students in Scottish universities differently in terms of student costs and finance from other students within the European Union. [24257]

Bill Rammell: The Scottish Executive informed us of their proposed fee levels for all UK and EU students studying at Scottish universities from 2006.

However, following devolution they have full responsibility for the fees charged to all students studying at Scottish institutions, and the support arrangements for students domiciled in Scotland and EU students studying there. While we will ensure that students domiciled in England and studying in Scotland have the necessary fee support available to them, we will not be making any representation to the Scottish Executive on this issue.

Social Care Staff

Mr. Burstow: To ask the Secretary of State for Education and Skills what information the Children, Young People and Families Workforce Development Council has received on the number of *(a)* domiciliary care workers, *(b)* outreach workers, *(c)* residential child workers, *(d)* social care managers and *(e)* staff responsible for recruitment and supervision of social care staff who will be covered by future requirements for registration with the General Social Care Council. [22197]

Maria Eagle: Responsibility for registering categories of social care staff lies with the General Social Care Council (GSCC). Responsibility for collecting numbers of staff is divided between Children's Workforce Development Council (CWDC) for those working with children and young people and Skills for Care for those working with adults. Data will be collected through the new National Minimum Data Set for Social Care (NMDS-SC), launched on 20 October.

At present, the CWDC only has limited data collected from the local authority SSDS001 census of Social Care staff, so figures are likely to be revised as the NMDS-SC data is refreshed and the GSCC sets out its priority order for registration. Current data made available to the CWDC is as follows:

(a) Domiciliary care staff: SSDS001 gives around 2300 in England employed by local authorities. It is not known what proportion of these work with children.

(b) Outreach workers: There is no category for these workers in the SSDS001—the closest are community workers in children's services. These number 1,455 as employed by local authorities.

(c) Residential child workers: The estimated number of these staff is 26,575 across all sectors. This includes managers, social care staff and other supervisory roles.

(d) Social care managers: The number of social care managers in local authority operational children's services field teams is 3,550.

(e) Staff responsible for (i) recruitment and (ii) supervision of social care staff: (i) may be different from (ii) inasmuch as there are HR staff and planning officers at strategic levels. Those managing or supervising social care staff in non-residential settings number around 6,000 to 7,000. It is not known how many have direct supervisor roles, but many will.

Sports Hubs

Mr. Dismore: To ask the Secretary of State for Education and Skills if she will list schools designated as sports hubs in each London local authority. [24227]

Jacqui Smith: The list of School Sport Partnership hub sites in each London local education authority is as follows:

LEA	*Hub.school*
Barking and Dagenham	Barking Abbey Comprehensive School and Sports College
Barnet	Whitefield School
Barnet	East Barnet School
Barnet	Queen Elizabeth's Girls School
Bexley	Bexley LEA
Bexley	Hurstmere Foundation School for Boys
Brent	Capital City Academy
Brent	Kingsbury High School
Bromley	Kelsey Park School
Bromley	Priory School
Camden	Haverstock School
Croydon	Archbishop Lanfranc School
Croydon	Selhurst High School for Boys
Croydon	Woodcote High School
Ealing	Featherstone High School
Ealing	West London Academy
Enfield	Enfield LEA
Enfield	Lea Valley High School
Greenwich	Eltham Green Specialist Sports College
Hackney	Hackney Free and Parochial CofE School and Sports College
Hammersmith and Fulham	Hammersmith and Fulham LEA
Haringey	St. Thomas More RC School
Haringey	White Hart Lane Secondary School
Harrow	Harrow LEA
Havering	Coopers Company and Coborn School
Havering	Emerson Park School
Hillingdon	John Penrose School
Hounslow	Isleworth and Syon School for Boys
Islington	Islington LEA
Kensington and Chelsea	Kensington and Chelsea LEA
Kingston Upon Thames	Chessington Sports College
Lambeth	London Nautical School
Lewisham	Haberdashers Askes Knights Academy
Lewisham	Lewisham LEA
Merton	Tamworth Manor High School
Newham	Cumberland School
Newham	Langdon School
Redbridge	Caterham High School
Redbridge	Mayfield School and College
Richmond Upon Thames	Whitton School and Sports College
Southwark	Bacons College
Southwark	Waverley School
Tower Hamlets	Langdon Park Community School
Tower Hamlets	Tower Hamlets LEA
Waltham Forest	Leytonstone School
Waltham Forest	Norlington School for Boys
Waltham Forest	Rush Croft School
Wandsworth	Southfields Community College
Westminster	City of Westminster LEA

Sure Start

Daniel Kawczynski: To ask the Secretary of State for Education and Skills what steps she is taking to ensure that deprived areas of Shrewsbury have access to the Sure Start programme. [24305]

Beverley Hughes: Shrewsbury and Atcham Sure Start Local Programme has been operating in Shrewsbury since March 2003, delivering Sure Start services to children under four and their families. The designation of Shrewsbury Children's Centre in December 2004 brought integrated services to 1,156 children under 5 and their families living in the wards of Harlescott, Sundorne, Battlefield and Heathgates, Castlefields and Quarry, Monkmoor and Underdale.

For Phase 2 of the children's centre programme (2006–08) Shropshire local authority has been asked to create a further 10 children's centres and reach an additional 8,549 children. The authority has been allocated £3,339,900 in funding for this period.

Trust Schools

Helen Jones: To ask the Secretary of State for Education and Skills what powers she proposes to give Trust schools which are not available to Foundation schools. [26300]

Jacqui Smith: The detailed arrangements for Trust schools will be set out in the Education Bill expected in the new year. Trust schools will benefit from all the freedoms available to Foundation schools. In addition the opportunity to form partnerships with external organisations will strengthen Trust schools' governing bodies, and help to invigorate school leadership by providing an external source of direction, continuity and focus for the school.

Helen Jones: To ask the Secretary of State for Education and Skills what audit arrangements she intends to put in place for the trust schools proposed in the White Paper. [26305]

Jacqui Smith: The audit arrangements for Trust schools will be the same as for all maintained schools. They will comply with the audit arrangements as set out by the local authority. All Trusts will by law be charities and will be subject to regulation by the Charities Commission.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to ensure that school trusts *(a)* build upon best practice and *(b)* tackle underachievement. [26085]

Jacqui Smith: School Trusts will build on the long tradition of voluntary schools which are backed by Trusts and on the experience of Academies of working with a private or voluntary sector sponsor.

The opportunity to form partnerships with external organisations will strengthen Trust schools' governing bodies, and help to invigorate school leadership by providing an external source of direction, continuity and focus for the school. Trust governors will help their schools to develop a distinctive ethos and approach to the curriculum and the organisation of the school, with a central focus on raising standards and creating new opportunities for children.

Written Answers to Questions

Wednesday 9 November 2005

INTERNATIONAL DEVELOPMENT

Labour Standards

7. **Dr. Iddon:** To ask the Secretary of State for International Development if he will make a statement on the steps his Department is taking to improve the treatment of workers in developing countries. [25991]

Hilary Benn: Implementation of proper labour standards can play an important part in reducing poverty. DFID is supporting a range of activities to improve the treatment of workers in developing countries, including the elimination of child labour and trafficking for forced labour. Our support is primarily given through the International Labour Organisation. But we also support the work of non-governmental organisations, trade unions and business, for example through the Ethical Trading Initiative.

Kashmir Earthquake

8. **Simon Hughes:** To ask the Secretary of State for International Development if he will make a statement on the UK's relief effort following the Kashmir earthquake. [25992]

Hilary Benn: To date, we have allocated £33 million for the immediate relief effort. We are prepared to do more to help ensure the survival of the affected population through the forthcoming winter months. Our immediate assistance has included search and rescue, provision of priority relief materials, funding of air transport including helicopters and support to the United Nations, Red Cross and non-governmental organisations. In addition the European Commission has pledged €93.6 million for relief and reconstruction. The UK's share of this is £11 million.

I will continue to update the House of the details on what we are doing through our regular Situation Reports. These are also available to the public on the DFID website at: www.dfid.gov.uk.

13. **Joan Walley:** To ask the Secretary of State for International Development what assessment he has made of the urgent unmet humanitarian need in Kashmir following the earthquake. [25998]

Hilary Benn: The situation remains critical. More and continuing assistance is needed. The United Nations has developed a priority plan targeting assistance to an estimated 200,000 individuals in the high valleys, as well as 150,000 people expected to settle in both spontaneous and planned camps. The focus of the plan is an emergency shelter programme, medical evacuations, pre-positioning of food assistance for 700,000 and the maintenance of mobile health units and vaccination services. Additionally, site planning and construction of 30 camps, repair of vital damaged water supply systems and installation of latrines, establishment of temporary schools, and provision of heating and cooking supplies for 150,000 in camps.

World Trade Organisation

9. **Ann McKechin:** To ask the Secretary of State for International Development what steps his Department is taking to ensure that the interests of developing nations are taken into account in the current World Trade Organisation negotiations. [25993]

Mr. Thomas: Working with DTI and other Government Departments, and in line with the aims and objectives set out in the 2004 Trade and Investment White Paper, we are actively pursuing an outcome to the WTO talks which delivers real development gains. DFID works with the poorest group of developing countries to ensure their views are represented in the WTO by providing technical assistance and policy research, and through direct engagement with Least Developed Countries.

12. **Lynne Featherstone:** To ask the Secretary of State for International Development what steps the Government are taking during its presidency of the EU to encourage other EU countries to support a fair deal on trade for developing countries at the World Trade Organisation talks. [25996]

Hilary Benn: The Government have had regular contact with EU member states about securing a good development outcome to the current WTO round of trade negotiations. Most recently I held discussions with European Development Ministers at the Informal Council of Development Ministers on 24 October in Leeds, also attended by the European Commissioner for Trade. Specifically we discussed the concept of Aid for Trade, which would help developing countries adjust to new trading conditions as well as support their supply side needs so that they are better able to benefit from the increased opportunities which trade liberalisation could bring.

14. **Mark Lazarowicz:** To ask the Secretary of State for International Development what steps his Department is taking to promote the needs and interests of developing countries at the current round of World Trade Organisation negotiations. [25999]

Mr. Thomas: Working with the DTI and other Government Departments, and in line with the aims and objectives set out in the 2004 Trade and Investment White Paper, we are actively pursuing an outcome to the WTO talks which delivers real development gains. DFID works with the poorest group of developing countries to ensure their views are represented in the WTO by providing technical assistance and policy research and through direct engagement with least developed countries.

China

10. **Mr. Harper:** To ask the Secretary of State for International Development what discussions the Government plans to have with the Chinese President during his visit to the United Kingdom to encourage humanitarian reform in China. [25994]

Mr. Thomas: My right hon. Friend the Prime Minister will be discussing a range of issues with President Hu. China's response system to humanitarian emergencies is developing fast and we welcome China's readiness to offer its expertise in responding to international humanitarian disasters such as the tsunami and earthquake in Pakistan.

Medical Staff (UK Recruitment)

11. **Anne Moffat:** To ask the Secretary of State for International Development what assessment he has made of the impact on health services in developing countries of recruitment to the UK of medical and nursing staff from the developing world. [25995]

Hilary Benn: The Code of Practice for the International Recruitment of Healthcare Professionals prevents the NHS from actively recruiting health workers from developing countries.

International migration is one course contributing to the shortage of health workers in developing countries. Other causes include chronic under-investment and the affects of HIV and AIDS.

Tackling health worker shortages must include increased investment and strengthening of health services and its human resources. That is why, in addition to implementing ethical recruitment practices which help to address factors pulling health workers out of their communities, the UK is supporting developing country governments to build stronger health services which effectively recruit, train, deploy and retain health workers in the public sector.

Civil Service

Dr. Cable: To ask the Secretary of State for International Development how many full-time equivalent employee reductions *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06 as a result of the Gershon review in his Department; what (i) cost savings relating to IT projects and (ii) total efficiency savings (A) were achieved in 2004–05 and (B) are expected to be achieved in 2005–06 as a result of that review; and if he will make a statement. [25914]

Mr. Thomas: As a result of the Gershon review, DFID agreed to reduce the home civil service headcount to 1610 by the end of 2007–08. The programme was due to start in April 2005, at the start of which the DFID headcount was 1883. Plans are in place to reduce this to 1820 by the end of 2005–06 and 1715 by the end of 2006–07. Progress so far this year will be reported in DFID's autumn performance report 2005.

It is not possible to give an exact figure for efficiency savings from IT projects, however, forecast administration costs savings of £2 million by 2007–08 include savings from IT projects. Administration costs savings will begin in 2006–07.

Savings so far from DFID's efficiency programme will be reported in DFID's autumn performance report 2005. DFID has an efficiency target of £420 million by the end of 2007–08. The 2004 spending review did not set intermediate targets.

External Consultants

Mr. MacShane: To ask the Secretary of State for International Development how much his Department paid to external consultants in each year since 1997. [25478]

Hilary Benn: DFID's expenditure on consultancy services was as follows:

	£ million
1997–98	204
1998–99	199
1999–2000	192
2000–01	194
2001–02	210
2002–03	222
2003–04	215
2004–05	219

Source:
Statistics on International Development—3 November 2005

Famine (Overseas Aid)

Andrew Rosindell: To ask the Secretary of State for International Development how much aid the Government has allocated to *(a)* Niger and *(b)* other countries in the region in relation to the current famine. [25865]

Hilary Benn: In response to the current food crisis in the Sahel, DFID has allocated £3.25 million to Niger, £550,000 to Mali and £110,00 to Burkina Faso.

Iraq

Mike Penning: To ask the Secretary of State for International Development if he will make a statement on the international aid for Iraqi reconstruction. [25339]

Hilary Benn: The international community is providing support to the Iraqi Government to help rebuild Iraq and improve the quality of life for its people. At the Madrid Conference in October 2003, 37 bilateral donors, the European Community, the World Bank and the International Monetary Fund (IMF) pledged a total of US$32 billion for Iraq's reconstruction. Since 2003, the amount pledged for Iraq's reconstruction has risen to over $40 billion. As of October 2005, over US$14 billion of these pledges has been spent.

The UK pledged £544 million for humanitarian and reconstruction work in Iraq, of which more than £350 million has been spent to date. DFID's programme of assistance this year, focuses on macro-economic reform, strengthening Iraqi institutions at the centre of government and in the south, improving power and water supplies in the south, strengthening Iraqi civil society and encouraging broad participation in the political process. Reconstruction activities in Iraq are also funded by the Ministry of Defence (MOD), the Foreign and Commonwealth Office (FCO), and the Global Conflict Prevention Pool for Iraq (jointly funded by MOD, FCO, and DFID).

The following table provides details on the other major international aid programmes in Iraq.

	Major international aid programmes
United States	The US has approved more than $28 billion for Iraq's reconstruction. This is being spent on programmes in a wide range of sectors including power, water and sanitation, oil production, transport, health, education, civil society and the training and equipping of Iraqi security forces.
Japan	Japan has fully committed US$1.5 billion of grant assistance to Iraq and is currently in discussion with the Iraqi Government on the use of its US$3.5 billion concessional loan programme which will focus on medium-term infrastructure projects.
World Bank	The World Bank has pledged a minimum of US$3 billion in lending to Iraq. An interim Strategy Note on World Bank assistance to Iraq was recently approved, and outlines the bank's support over the next two years, including the implementation of a US$500 million International Development Assistance concessional loan programme. The World Bank is also implementing projects under the International Reconstruction Fund Facility for Iraq (see below).
IMF	The IMF has pledged to provide over US$2.5 billion in lending to Iraq. In September 2004, the IMF Board approved US$436 million of Emergency Post-Conflict Assistance (EPCA). The main goals under the EPCA are to maintain economic stability, lay the groundwork for future economic reform, and begin the process of restoring Iraq's fiscal and external debt sustainability.
International Reconstruction Fund Facility for Iraq (IRFFI)—United Nations and World Bank Trust Funds	Bilateral donors have channelled over US$1 billion into the IRFFI, which is managed jointly by the UN and World Bank. Funded through IRFFI, the UN and World Bank have delivered £69 million school textbooks, rehabilitated schools, provided vaccines, conducted extensive training programmes, provided humanitarian relief, and supported the elections. DFID contributed £70 million to the IRFFI in 2004.
European Commission	The EC has allocated over €500 million for humanitarian and reconstruction assistance, and is currently focusing on improving basic education, health services, and employment opportunities. The EC has also contributed funds and expertise to the constitutional process and the elections.
Australia	Australia has allocated over US$90 million for reconstruction assistance focussing on support to the agriculture sector, trade reform, electricity and police training.
Canada	Canada has allocated over US$222 million for humanitarian and reconstruction assistance, mainly channelled through multilateral programmes.
Denmark	Denmark has allocated over US$85 million focusing on human rights, rule of law and police, infrastructure, agriculture and humanitarian assistance.

The Iraqi Government are leading on the reconstruction and development of Iraq and have presented a National Development Strategy outlining its reconstruction priorities. The Iraqi Government co-ordinates their own and international reconstruction funding by means of Sector Working groups that meet regularly in Baghdad, chaired by Iraqi Ministries with support from the United Nations, the World Bank and a range of donors. Iraq has huge potential, and increasingly, oil sales, tax revenues and foreign investment will be able to finance reconstruction costs, so that Iraq will rely less on external donors.

In spite of the obvious challenges, reconstruction is continuing and progress has been made. For example, there has been continued economic growth, power generation is higher than before the conflict, more Iraqis now have access to drinking water and sewerage systems, thousands of healthcare and education facilities have been rehabilitated, transport and telecommunications systems are improving and civil society groups and the media are flourishing and finding ways of engaging in the political process.

Leprosy

Michael Fabricant: To ask the Secretary of State, Department for International Development if he will make a statement on his Department's actions to help eradicate leprosy in developing countries. [25997]

Mr. Thomas: Much of the remaining global leprosy burden is found in India where DFID provides specific targeted project support through the Leprosy Mission. DFID funds community based efforts to improve access to care, reduce stigma and rehabilitate those affected. Similar projects with other non-government organisations have recently ended in Brazil and Nepal. DFID provides substantial support to developing countries to implement their national health plans. Such plans address the major causes of illness, death and disability, including leprosy where it remains a problem.

Maldives Islands

Mr. MacShane: To ask the Secretary of State for International Development how much development aid the Maldives islands has received in each year since 1997. [25829]

Mr. Thomas: The following table sets out how much development aid the Maldives have received each year since 1997, and how much aid they have received from the UK:

Total donor aid and UK aid to Maldives: 1997–2004

£ millions

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Total all donors	15.82	15.09	18.96	12.73	17.32	18.30	12.58	[1]—
Total UK	0.25	0.27	0.31	0.32	0.24	0.26	0.21	0.2

[1] not available

The UK also provides aid through multilateral institutions, some of which will benefit the Maldives. The following table sets out the UK's equivalent contribution to the Maldives as a share of our multilateral assistance.

£ thousands

UK multilateral shares	*EC*	*Other*	*UN*	*World Bank*	*Grand total*
1998	0.0	10.0	130.0	230.0	370.0
1999	30.0	0.00	140.0	0.0	170.0
2000	30.0	40.0	190.0	140.0	400.0

£ thousands

UK multilateral shares	EC	Other	UN	World Bank	Grand total
2001	10.0	120.0	200.0	-30.0	300.0
2002	0.0	200.0	150.0	0.00	350.0
2003	0.0	230.0	150.0	340.0	720.0

DAC on-line and imputed multilateral shares—4 November 2005

Millennium Development Goals

Mr. Burstow: To ask the Secretary of State for International Development whether he expects the Millennium Development Goal of halving the number of people without access to clean water to be reached by 2015; and how his Department is contributing towards this goal. [25990]

Hilary Benn: While the global target to halve the proportion of people without access to safe water by 2015 should be achieved, sub-Saharan Africa is not expected to meet it. The linked target for sanitation is likely to be missed.

DFID is working with governments and development agencies including the UN to increase access to water and sanitation. This year I announced a doubling of UK aid for water to Africa by 2007–08.

Sexually Transmitted Diseases

Andrew Rosindell: To ask the Secretary of State for International Development what steps he is taking towards education of the African population on the spread of sexually transmitted diseases, with particular reference to HIV. [25868]

Hilary Benn: Across Africa, DFID supports awareness raising and education about Sexually Transmitted Infections (STIs) and HIV through our bilateral country programmes, funding to multilateral agencies and global initiatives such as the Global Fund to Fight AIDS, Tuberculosis and Malaria.

In this way, DFID supports awareness raising and education as an integral part of broader programmes to tackle STI and HIV prevention, which include other activities such as provision of sexual and reproductive health services and commodities (such as male and female condoms). We are also targeting groups such as vulnerable women and young people with appropriate forms of information in addition to sexual and reproductive health services and commodities and we help to reduce the financial and social barriers which can limit access to these services such as tackling stigma and discrimination.

For example, as a part of the Ugandan national HIV programme, DFID funds are used to raise awareness about STIs and HIV through AIDS information centres, youth clubs and schools, radio and newspapers.

DFID has committed to spending £1.5 billion on HIV and AIDS globally over the next three years. Raising awareness of STIs and HIV will remain an important part of the comprehensive approach we support.

Sudan

Mr. Drew: To ask the Secretary of State for International Development what steps he is taking in international fora to ensure greater protection of refugees in Darfur. [23985]

Hilary Benn: The primary responsibility for the protection of vulnerable people lies with their Government. This was endorsed at the 2005 Millennium Review Summit, to which the Government of Sudan was party. The UK Government continues to press the Government of Sudan on its responsibilities in Darfur, and we press all parties to abide by their commitments they have made. We have done this both directly to the Government of Sudan, and in our role as EU presidency. The UK also played a leading role in securing six recent UN Security Council Resolutions on Sudan, including resolutions 1591 and 1593, which extended the Darfur arms embargo to cover the Government of Sudan, allowed targeted sanctions on individuals responsible for the worst abuses, and referred the situation in Darfur to the International Criminal Court.

The African Union (AU) mission in Darfur is also playing an important role in protecting the people of Darfur. Despite the recent worrying upsurge in violence in Darfur, including the attack on the Aro Sharow camp on 28 September, attacks on civilians have decreased where the AU is deployed. DFID welcomes the ongoing expansion of the force to more than 7,700. The UK has provided £32 million to support the AU mission since its inception. The EU has provided €92 million (£63 million) so far, and has recently committed a further €70 million (£48 million).

The humanitarian community also supports the protection of civilians. This year the UK channelled £45 million through the UN Humanitarian Co-ordinator in Khartoum for humanitarian operations across Sudan, £2.4 million of this was allocated for UN and non-governmental protection work in Darfur, such as advocacy on child protection, victim counselling, work on sexual and gender-based violence, and the monitoring of agreements preventing force returns.

TB

Mr. Burrowes: To ask the Secretary of State for International Development what UK Government expenditure on TB control in developing countries *(a)* was between 2001 and 2004 and *(b)* is proposed in (i) 2005 and (ii) 2006; how much of this total is accounted for by (A) multilateral and (B) bilateral aid; and how much of the bilateral aid is accounted for by (1) project support, (2) health-sector support and (3) direct budget support. [25898]

Mr. Thomas: I refer the member for Enfield, Southgate to the response given to my hon. Friend for Cardiff North on 28 October 2005, *Official Report*, columns 632–33w.

Water and Sanitation (Funding)

Emily Thornberry: To ask the Secretary of State for International Development when, on present trends, he expects the Sanitation Millennium Development target to be met in sub-Saharan Africa. [25910]

Hilary Benn: The most recent survey data (2002) from the United Nations Childrens Fund (UNICEF)/World Health Organisation (WHO) Joint Monitoring Programme (JMP), shows that 440 million people (64 per cent.) in sub-Saharan Africa do not have access to basic sanitation. The JMP analysis suggests that, based on progress between 1990 and 2002, it would take 90 years to achieve the Millennium Development Goal (MDG) target for sanitation in sub-Saharan Africa.

In recognition of this bleak situation, DFID is giving a particular focus to sanitation and supporting a number of bodies working to achieve the target, including the African Ministers' Council on Water, UNICEF and WaterAid. DFID has also recently committed to doubling its expenditure on water and sanitation in Africa over the next three years

Zimbabwe

John Battle: To ask the Secretary of State for International Development what assistance the UK Government have given to humanitarian projects in Zimbabwe since September 2001; and what types of project have been supported. [24973]

Hilary Benn: DFID has spent approximately £120 million in Zimbabwe since September 2001. Almost all of this relates to humanitarian assistance, tackling HIV/AIDS and emergency support to the health sector.

Approximately £65 million has been spent in response to the crisis of food insecurity, resulting from a combination of poor Government policies, adverse weather and the HIV/AIDS crisis. DFID has recently pledged a further £10 million to the UN World Food Programme's operations in Zimbabwe. DFID has been one of the major donors supporting the annual humanitarian appeals made through the United Nations. We also provide substantial resources through direct funding of non-governmental organisations (NGOs). Activities which DFID has supported include monthly food distributions to food insecure families, food for families affected by AIDS through home based care programmes, school feeding programmes and supplementary clinic feeding for underweight children.

To date, some £25 million has been spent on health programmes, predominantly for HIV prevention and care. Other health-related support includes basic vaccinations for children, emergency obstetrics care for women, provision of water treatment chemicals, emergency response to cholera outbreaks, provision of commodities to the National Blood Transfusion Service and provision of insecticide-treated bed nets for the prevention of malaria.

Some £20 million has been allocated to agricultural support to small-scale farmers in communal areas, aimed at increasing productivity and food security at the household level. Other smaller humanitarian programmes include support for displaced people, including those made homeless and destitute by the Government of Zimbabwe's recent slum clearances, and those in danger of HIV/AIDS, exploitation and abuse through irregular migration.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abattoirs

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to prevent local abattoirs from closing; and if she will make a statement. [23921]

Jim Knight: The overall number of abattoirs has declined dramatically in Britain in the last few decades, reflecting an increase in slaughtering capacity in fewer and larger abattoirs. Much of this has been due to logistic requirements of the major supermarket chains. Regulatory impacts of measures to improve food safety have also played a part. Some businesses, particularly in older premises, may be faced with investment costs if they are to continue to comply with EU-wide standards for hygienic production.

The Government are nevertheless keen that an appropriate network of abattoirs and cutting plants continue to support sustainable livestock production in Britain. To this end we are encouraging our Regional partners (Government Offices, Regional Development Agencies, Rural Development Service) to develop Regional Red Meat Strategies which recognise the importance of an appropriate red meat infrastructure (abattoirs, cutting plants and marketing).

Agricultural/Horticultural Machinery Imports

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with HM Revenue and Customs regarding the compliance with CE markings of imported agricultural and horticultural machinery. [23801]

Alan Johnson: I have been asked to reply.

Most agricultural and horticultural machinery, whether imported or not, is regulated under the Supply of Machinery (Safety) Regulations 1992 as amended (SI 1992 No. 3073). My officials periodically discuss regulatory issues with HM Revenue and Customs. However the lead enforcement authority for these regulations is the Health and Safety Executive, HM Revenue and Customs has no powers under this legislation.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will propose to ministerial colleagues that poultry auctioneers who are closed down as a result of Government measures to

prevent an outbreak of avian influenza be exempt from council tax and rates on their auction sites for the period of their closure. [25034]

Mr. Bradshaw: Government policy is not to compensate for consequential losses resulting from a disease outbreak.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government plans to introduce a standstill policy for poultry movements in the event of an avian influenza outbreak. [25053]

Mr. Bradshaw: In the event of a disease outbreak, current legislation restricts movements within the infected area.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what advice she has given to the poultry production and retail sectors on the possible effect of avian influenza on their business; and if she will make a statement; [27107]

(2) what representations she has received from the chicken and turkey retail sector on the influence of avian influenza on the market; and if she will make a statement; [27108]

(3) what discussions she has had with the chicken and turkey production industry on avian influenza. [27109]

Mr. Bradshaw: The Department is actively engaging with key stakeholders, including representatives of the production and retail sectors, in order to provide advice and discuss their concerns regarding both the possible effect of avian influenza on their industries and Government policies and plans. This is to keep the industry aware of the risks and potential actions required by a potential outbreak of avian influenza.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the primary mechanisms are for the spread of H5N1 avian influenza virus. [23906]

Mr. Bradshaw: The primary mechanisms for the spread of avian influenza are by movement of infected birds or by contact with their excreta either directly or through objects, clothes or vehicles contaminated with excreta.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how long the H5N1 virus retains its infectivity in the ambient atmosphere. [23907]

Mr. Bradshaw: The survival of avian influenza viruses in the environment will be influenced by the strain of the virus, whether they are held in water or faeces, the host from which the faeces came, the physical properties of the faeces and the ambient temperature. The scientific literature gives a range, with different strains of virus from 12 to 36 hours at 37° C for chicken faeces artificially infected with Low Pathogenic H7N2 to at least 105 days in wet faeces under field conditions with High Pathogenic H5N2.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research the Department has *(a)* commissioned and *(b)* evaluated on (i) whether mechanically extracted exhaust air from intensive poultry sheds can carry viable H5N1 virus and (ii) over what distance viable virus transmission may occur. [23908]

Mr. Bradshaw: The Department have not commissioned any research on this topic as the evidence is that this potential means of transmission can only occur over short distances and is unlikely to be significant in transmission between flocks under conditions prevailing in Great Britain.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the risks that random mutation of an existing H5N1 strain may give rise to a new pandemic virus. [23912]

Mr. Bradshaw: To date the H5N1 avian influenza assessment made by the World Health Organisation has assisted policy formation. A cross-departmental group will be commissioned to assess this risk as part of its remit.

Biomass Industry

Mr. Letwin: To ask the Secretary of State for Environment, Food and Rural Affairs what courses have received Government funding to train engineers and builders in understanding, selling and installing combined heat and power boilers in each of the last three years. [22082]

Margaret Beckett: We have provided training on community heating with CHP, delivering four workshops in 2002–03 and two in 2003–04. These covered skill shortages and CHP installation. Over the past three years we also provided general training to bidders to our Community Energy programme.

We are additionally funding training for heating installers to help them sell and install high efficiency condensing boilers. During the financial year 2004–05 22,000 installers were trained. So far this financial year a further 9,000 have been trained.

Bird Trade

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many smuggled birds were seized by HM Customs and Excise entering the UK *(a)* in 2004 and *(b)* to date in 2005; and what checks were made for avian influenza among these birds; [23814]

(2) what information she has received on the number of smuggled birds seized entering the European Union *(a)* in 2004 and *(b)* to date in 2005; and whether checks were made for avian influenza among these birds. [23815]

Mr. Bradshaw: There is little hard evidence on the volume of illegal trade as by its nature only an uncertain proportion is detected. We do not have EU figures for seizures of illegally imported birds.

Her Majesty's Revenue and Customs (HMRC) seize imported live birds where import is in contravention of the Convention on International Trade in Endangered Species of Flora and Fauna (CITES). In 2004 HMRC seized 2,922 live birds. The provisional figure so far for

2005 is 313 birds. These figures include birds that are seized as a result of regulatory breaches as well as those which are smuggled.

Rare species of birds which are seized by HMRC are normally donated to zoos or other conservation groups. These birds are quarantined and tested for disease including the avian influenza virus.

Any other live birds found would be detained by HMRC and handed over to the relevant competent authorities (the state veterinary service/local authority) at points of entry. They too would be quarantined and tested.

I can assure you that in the current heightened disease situation, all enforcement bodies are being more vigilant for signs of illegal trade or movement of birds.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many chickens have been imported from Thailand in each of the last three years; and if she will make a statement. [24194]

Jim Knight *[holding answer 3 November 2005]:* There have been no imports of live chickens into the UK from Thailand in the last three years as recorded by the overseas trade statistics.

The importation of fresh poultry meat produced on or after 1 January 2004 and cooked poultry meat which has not been heat treated to at least 70°C was banned in January 2004. Poultry meat products which have been cooked to 70°C or more are not considered to be a risk. Chicken meat imported from Thailand in the last three years is shown in the following table.

UK Imports of chicken and chicken offal from Thailand for 2002–04

Description	2002		2003		2004	
	t'000	*£ million*	*t'000*	*£ million*	*t'000*	*£ million*
Chicken, prepared or preserved	26.23	59.88	33.79	68.72	41.76	76.67
Chicken, fresh, chilled or frozen	7.12	11.14	11.29	15.59	2.56	3.35
Grand total	33.35	71.02	45.07	84.31	44.32	80.02

Colchester Oyster

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in having Protected Geographical Indication status granted to the Colchester Oyster. [26130]

Mr. Bradshaw: The completed application to register Colchester Oysters as a Protected Geographical Indication was finalised earlier this year and sent to interested parties within the UK to allow them to comment or object. This is a necessary stage of the application process to ensure that all views are considered before a decision is taken by Defra on whether the application is justified and meets the requirements of the relevant regulation. Objections were received and sent to the applicant group in July for it to consider. Their reply was received in October and is being considered by officials.

Departmental Policies

Mrs. Hodgson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out, with statistical evidence relating as closely as possible to Gateshead, East and Washington, West constituency, the effects in Gateshead, East and Washington, West of changes to her Department's policies since 1997. [22283]

Jim Knight: Since its establishment in 2001 Defra has put in place a comprehensive programme of action on issues including sustainable development, climate change and energy, sustainable consumption and production, natural resource protection, sustainable rural communities, and a sustainable farming and food sector. A summary of some our achievements to date can be found on the Defra website (www.defra.gov.uk) I am confident that the Gateshead, East and Washington, West constituency will have benefited from these.

For example, we are committed, through our national strategy for waste, to achieving a massive shift in sustainable waste management, including tough national targets to recycle or compost 25 per cent. of household waste in 2005–06. To help contribute towards this target, each local authority in England was set a statutory recycling target for household waste in 2003–04 and 2005–06. In 2002–03, the recycling rate for Gateshead and Sunderland was just 5 per cent. and 2 per cent. respectively. They are now both expected to reach or exceed their statutory targets set for them of 18 per cent. by the end of 2005–06. In total over the past three years, Defra has given Gateshead over £2.5 million and Sunderland over £2 million for waste management and recycling. Many north-east councils have recently made significant progress on recycling from historically low levels, through the support of Defra's Waste Implementation Programme and Waste and Resources Action Programme. Defra's Municipal Waste Management Survey 2003–04 records that the north-east region quadrupled the amount of household waste recycled from 3.8 per cent. in 1996–97 to 12.3 per cent. in 2003–04.

Through English Nature, we have provided £76,000 to Gateshead council for a 'Wildspace' project, including a community liaison officer, which has resulted in five new local nature reserves (LNRs) being designated in the east of the borough, and the project has involved local people in caring for and enjoying the sites. Regular litter removal and maintenance of entrances and paths has ensured they appear well managed and welcoming. Along with management plans for the sites, this is maximising biodiversity, and there is a strategy to secure long term gains for local people. Due to the success of the project, Gateshead council have continued to employ the officer to carry on the good work.

We also provide grants through our agencies to voluntary groups such as the Friends of Princess Anne Park in Washington and have provided funding for a wildlife survey to identify potential for enhancing wildlife and creating habitats. This has drawn in additional funding from Sunderland city council for a park ranger. The park runs along the Oxclose and Biddick Burns, and Environment Agency field teams are carrying out targeted pollution prevention work with relevant local businesses, advising them on managing environmental risk, so improving water quality and associated habitats to prevent pollution through run off.

In my hon. Friend's constituency, forestry grants to the Woodland Trust, the local councils and a private company have created around 10 hectares of new woodland, including screening for Springwell Quarry. Altogether over £16,000 has come through the Forestry Commission for woodland maintenance and improved public access.

We have invested £10,000 in Durham Wildlife Trust, whose area includes Gateshead and Washington. The trust use this Environment Agency money to employ a community wildlife officer to work directly with communities in Washington, encouraging residents to prevent pollution in household drains and to recycle more, and speaking to schools and community groups around pollution hot spots. The aim is to reduce or prevent fly tipping and other contamination in watercourses, and enable other habitat improvements.

Defra provides comprehensive statistical information. The following web address will take my hon. Friend directly to the service: http://statistics.defra.gov.uk/esg/default.asp.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department spent on items of art in 2004–05. [23472]

Jim Knight: The Department spent no money on items of art in 2004–05.

Environment Agency

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Environment Agency telephone helpline is unable to process calls without the name and address of callers. [24840]

Mr. Morley: The Environment Agency operates three main contact lines. All of these are able to process calls without the name and address of the caller except in the situations set out as follows:

1. Customer Contact Centre (08708 506506)

This centre receives most of the general telephone enquiries from external customers and delivers some specific business services.

(a) General enquiry calls—The agency normally asks the customer for their name only so that it can personalise the call as a matter of courtesy and so that if it cannot resolve the customer's enquiry, the call can be transferred effectively to another member of staff.

There are some situations where the agency asks for an address:

where it is going to send a publication or application form to the customer;

where it needs to ensure it transfers the customer to the correct area team—the agency normally just ask for postcode so that they can locate the correct area;

where the customer actually needs to talk to their local authority rather than to the agency, it normally asks for the postcode so that it can provide the correct local authority contact details.

(b) Flood risk/property search enquiries—To be able to respond to these enquiries correctly, the call centre needs full address details—a postcode is not specific enough.

(c) Hazardous waste producer registrations

The Agency needs full address details to be to deliver this business service.

2. Floodline

This service provides flood warning information and flood risk awareness services.

Full address information is required in order to inform customers about flood risk related to their property, but not for general advice on flood awareness/protection.

3. Incident hotline

This service is used for recording pollution/flooding incidents. Although the name and address of the customer is requested so that the agency can update how the incident is being managed and resolved, it is however entirely acceptable for customers to report incidents anonymously.

Farm Plastic Collections

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs what farm plastic collections are made in *(a)* Dacorum and *(b)* Hertfordshire; and if she will make a statement. [26379]

Mr. Bradshaw: At present I am aware of at least one specialist farm plastics collection service that can arrange collection from anywhere in the UK, and I know that there are other collection schemes being established.

The Environment Agency is currently completing an on-line Waste Recycling Directory that will allow businesses to identify recyclers, disposal sites and waste management companies that deal with specific wastes in their areas using a simple postcode search. The website www.wasterecycling.org.uk will be available late November 2005.

Farming Co-operatives

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to encourage the creation of farming co-operatives; and if she will make a statement. [23923]

Jim Knight: Support and encouragement for collaboration and co-operation among farmers is one of the elements of the Government's Strategy for Sustainable Farming and Food. As part of the Strategy we actively supported the establishment of English Farming and Food Partnerships (EFFP) which was set up to promote and encourage co-operation and collaboration between farmers and between farmers and the rest of the food chain. We have also undertaken to provide EFFP with funding of £0.5 million per annum for five years from 2004–05.

In addition, co-operation and collaboration benefiting primary producers is one of the Government's stated priorities for the award of grants under the Agricultural Development Scheme. EFFP is one of the beneficiaries of this scheme having been awarded five grants totalling approximately £1.2 million for projects to support its mission. A number of other projects concerned with collaborative activity have also been awarded grant.

Grants for collaborative projects are also available under the Processing and Marketing Grant Scheme and the Rural Enterprise Scheme.

In 2004 Defra commissioned and funded research into possible legislative and fiscal barriers to the development of co-operatives. The report of this research was published earlier this year.

Fly-tipping

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of fly-tipping have been recorded in each of the last five years. [25297]

Mr. Bradshaw: No national data were previously available before Flycapture, the national database for fly-tipping incidents, was launched in April 2004.

Initial data from the first year's Flycapture reports have indicated that local authorities and the Environment Agency dealt with 923,977 incidents of fly-tipping between April 2004 and March 2005.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to local authorities of clearing up fly-tipping in each of the last five years. [25298]

Mr. Bradshaw: No national data were previously available before Flycapture, the national database for fly-tipping incidents, was launched in April 2004.

Initial data from the first year's Flycapture reports have indicated that local authorities and the Environment Agency spent an average of £44 million on clearing and disposing of fly-tipping between April 2004 and March 2005.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much was imposed in fines for fly-tipping in each of the last five years. [25299]

Mr. Bradshaw: No national data were previously available before Flycapture, the national database for fly-tipping incidents, was launched in April 2004. Flycapture gathers summary data on the numbers of fly-tipping incidents dealt with by local authorities and the Environment Agency as well as data on the actions taken to deal with fly-tipping.

However, the 'Actions Taken' section of Flycapture only became compulsory in April 2005 so reliable national data from the first year is not yet available.

The Environment Agency, which deals primarily with the larger, more serious fly-tipping incidents, has been recording information on the total fines per year resulting from agency prosecution of persons depositing waste without authorisation since 1 January 2000.

	£
2000	582,055
2001	350,907
2002	445,824
2003	393,050
2004	368,988
2005	[1]488,240

[1] To date.

In addition, the following data illustrates the average fines issued at all courts in England and Wales between 1999 and 2003 for various 'fly-tipping' offences under section 33 of the Environmental Protection Act 1990.

Number of defendants proceeded against at magistrates courts found guilty and sentenced at all courts for certain offences under the Environmental Protection Act 1990, sections 33 and 34, England and Wales, 1999–2003[1]

Offence description	*Principal statute*	*Year*
Contravening conditions of a waste management licence	Environmental Protection Act 1990 section 33 (6)	1999
		2000[2]
		2001
		2002
		2003
Depositing, causing the deposition or permitting the deposition, treating, keeping or disposing of controlled waste(but not special waste) in or on land without a licence	Environmental Protection Act 1990 section 33 (8)	1999
		2000[2]
		2001
		2002
		2003
Depositing, causing the deposition or permitting the deposition of controlled special waste in or on land without a licence	Environmental Protection Act 1990 section 33 (9)	1999
		2000[2]
		2001
		2002
		2003

[1] These data are on the principal offence basis.

[2] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates' courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

Foodstuffs (Price Changes)

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on recent price changes for *(a)* beef, *(b)* lamb, *(c)* milk and *(d)* cereals. [23167]

Jim Knight: The following tables show trends in the UK producer (i.e. farmgate) prices of beef lamb, milk and cereals. The price trends are in index form based on 2000 = 100.

United Kingdom index of producer prices of agricultural products (2000 = 100)

			Annual average	
	Beef	*Lamb*	*Milk*	*Cereals*
2001	101	101	114	108
2002	104	119	101	95
2003	107	133	106	105
2004	113	132	109	115

Monthly index

	Beef	*Lamb*	*Milk*	*Cereals*
2004				
August	118	124	109	97
September	112	119	115	93
October	108	117	115	99
November	107	121	115	97
December	109	124	112	100
2005				
January	117	127	109	98
February	117	125	108	99
March	117	126	108	102
April	119	138	104	102
May	118	156	101	102
June	118	138	102	101
July	112	123	107	100
August	109	112	109	97

Source:
Defra: API, Food Statistics Branch

(a) Beef prices have risen over the last few years. Prices were stable in first half of 2005, but have fallen slightly over the last few months due to increasing domestic supplies and imports coinciding with weaker consumer demand.

(b) Lamb prices rose by more than 30 per cent. between 2000 and 2004. Lamb prices are seasonal. In the early part of 2005 prices were lower than in 2004 as increased supplies met with static demand. Prices rallied as new season lambs started to reach the market. However, since June prices have fallen again due to the increased supplies and the poor value of sheepskins.

(c) Farmgate milk prices in 2005 have been broadly similar to last year, despite the price support cuts for butter and skimmed milk powder agreed as part of the CAP reform package, for which dairy farmers have been partially compensated.

(d) Cereal prices are affected by a range of factors, including conditions on domestic and international markets and changes in exchange rates. The high prices of 2004 reflected the substantially lower EU harvest in 2003, but have subsequently fallen back to more normal levels.

Gershon Review

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalent employee reductions have been made as a result of the Gershon review; what *(a)* cost savings relating to IT projects and *(b)* total value of efficiency savings (i) were achieved in 2004–05 and (ii) are expected to be achieved in 2005–06; and if he will make a statement. [23991]

Jim Knight *[holding answer 2 November 2005]:* Data on headcount and financial efficiencies delivered to the end of financial year 2004–05 are reported in the departmental report 2005 published at http://www.defra.gov.uk/corporate/deprep/default.htm.

None of the programmes and projects contributing to DEFRA's efficiency targets is an exclusively IT related programme. A number of programmes have elements of IT-enabled change but also involve organisational and culture change elements.

Information about yearly targets for financial and headcount efficiencies are set in the Efficiency Technical Note (which can be viewed on the DEFRA website at www.defra.gov.uk/corporate/busplan/efficienynote-0410.pdf). This is being updated at present and will be published on the DEFRA website.

Illegal Timber

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has made *(a)* directly and *(b)* through the EU to the Government of (i) Brazil and (ii) Argentina regarding illegal logging; and what steps she has taken to ensure that illegal timber is not imported into the UK. [24693]

Mr. Morley: Although the my right hon. Friend, Secretary of State, has not made any recent representations to Brazil or Argentina on illegal logging, the UK Government are involved with a number of initiatives in Latin America.

The UK has contributed £14 million to the multi-donor Pilot Programme for the Preservation of Brazilian Rain Forests and is a major contributor to the Global Environment Facility (GEF) which is creating and maintaining protected areas in the region through the Amazon Region Protected Areas Programme. The managers of the GEF have approved or endorsed funding for 29 projects in Brazil, with a value of approximately £150 million. The UK also continues to support projects in the Amazon through multilateral organisations, including the European Commission and the World Bank.

On steps taken to ensure illegal timber will not be imported into the UK, under the UK's Presidency of the EU, unanimous Political Agreement was achieved on the EU Forest Law Enforcement, Governance and Trade (FLEGT) dossier. This will allow the EU to enter into agreements with developing countries and provide them with assistance to tackle illegal logging. This assistance will include a licensing system designed to identify products and license them for export to the EU. It will be reinforced by powers for Customs to take a

range of actions relating to unlicensed products from partner countries. This will allow illegal timber to be prevented from importation to the EU for the first time.

Local Government

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Environment Agency takes *(a)* to inspect, *(b)* to regulate and *(c)* to set targets for local authorities. [24596]

Mr. Morley: The Environment Agency does not generally inspect, regulate or set targets for local authorities. However, civic amenity sites (waste) run by local authorities are permitted and inspected by the Environment Agency. Local authorities may require licences for other operations that need their consent, for example, abstraction or discharge, and the Environment Agency would inspect and regulate these consents.

Lyons Review

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs how many people in her Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 following the Lyons review; where they have been relocated; and if she will make a statement. [23710]

Jim Knight *[holding answer 2 November 2005]:* 124 posts were relocated from London and the South East in response to the Lyons review in 2004–05. A further 86 are expected to move in 2005–06; of these seven have already relocated.

The following table below the breakdown of these posts:

Location	*Number of posts*
Moves in 2004–05	
York	22
Worcester	29
Various local offices outside London and the South East	10
Newcastle	13
Workington	50
Total	124
Moves in 2005–06	
Alnwick	7
Stafford	26
York	53
Total	86

Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to ensure that the Government's response to the Royal Commission on Environmental Pollution report on the impact of pesticide use on human beings is coordinated with the Department of Health. [26073]

Mr. Morley *[holding answer 8 November 2005]:* The Department has already put in place arrangements to ensure that all relevant Government Departments, including the Department of Health, are fully involved in formulating the Government's response to the RCEP report.

PG5/2(04)

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate the Government has made of the cost to local authorities of the implementation of Environmental Protection guidance note PG5/2(04); [24589]

(2) what estimate the Government has made of the cost to local authorities of implementing Environmental Protection guidance note PG5/2(04) setting higher emissions standards for municipal crematoria. [26928]

Mr. Bradshaw: In accordance with the two consultation papers issued by the Department in May 2003 and September 2004 http://www.defra.gov.uk/CQrporate/consult/crematoria/index.htm and http://www.defra.gov.uk/corporate/consult/crematoria-two/consultation.pdf the estimated total cost of fitting mercury abatement to cover 50 per cent. of all cremations is between £90 million and £100 million. About 90 per cent. of crematoria are currently owned and operated by local authorities.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish a regulatory impact assessment for Environmental Protection guidance note PG5/2(04). [24594]

Mr. Bradshaw: The two consultation papers referred to in my reply to UIN 24595 contained an assessment of costs and benefits.

Process guidance notes, such as PG5/2(04), are produced to provide advice to local authority regulators on what constitutes the Best Available Techniques under the Pollution Prevention and Control Act 1999. The Act was subject to a regulatory impact assessment. The statutory Best Available Techniques concept enshrines a balance between costs and benefits. It is not practice for my Department or the Environment Agency to produce a separate regulatory impact assessment for each sector or process guidance note.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment the Government has made of the effect of Environmental Protection guidance note PG5/02(04) on fees charged to the public for municipal services. [24595]

Mr. Bradshaw: The consultation paper issued by the Department in May 2003 http://www.defra.gov.uk/corporate/consult/crematoria/index.htm contained an estimate that new requirements to abate mercury from all crematoria would increase costs by £55 per cremation. This compared with the average cost of a funeral assessed by the Office of Fair Trading in 2001 of £1,215 (for cremation) and £2,048 (for burial).

The second consultation paper issued by the Department in September 2004 http://www.defra.gov.uk/corporate/consult/crematoria-two/consultation.pdf proposed that only 50 per cent. of cremations should be subject to mercury abatement. This was adopted in the form of PG5/2(04), as amended. If the system of burden sharing enabled by the guidance is taken up by the cremation sector, this should mean an increase of between £25 and £30 per cremation. I understand that the Federation of British Cremation Authorities, which represents the majority of all crematoria operators, has arrived at a figure of £25.

Recycling (Milton Keynes)

Mr. Lancaster: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of household waste in Milton Keynes was recycled in 2004–05. [27183]

Mr. Bradshaw: Information on recycling from individual local authorities for 2004–05 is not yet available.

Local authority Best Value Performance Indicators for 2004–05, which include information on household waste recycling rates will be available on 15 December from the Office of the Deputy Prime Minister's website at: www.bvpi.gov.uk

Refrigerators

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what quantity of CFCs has been recovered from refrigerators and freezers since the implementation of EU Regulation 2037/2000; and what percentage this represents of the total amount contained in those refrigerators and freezers. [25022]

Mr. Morley: The information is not available in the form requested, as the data on the recovery of CFCs does not identify the equipment from which they were recovered. The total amount of CFCs recovered from all equipment, including commercial equipment, was:

387 tonnes in 2002

494 tonnes in 2003

427 tonnes in 2004

It is not possible to calculate the percentage of CFCs recovered from the total amount contained in the equipment. This is because it is not known how much refrigerant fluid is in the equipment on arrival at licensed waste management sites, as many units are damaged in use or transit, and some fluid will have escaped before the equipment is received for disposal.

Single Payment Scheme

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the conditions for cross-compliance for the single farm payment which are imposed by EU other member states. [23802]

Jim Knight: Cross-compliance conditions involve two main elements: specific requirements in relation to 19 EU directives and regulations that apply in all member states, with many of these having been law for a number of years; and keeping agricultural land in Good Agricultural and Environmental Condition (GAEC) as defined at member state, or as the case may be, regional level within an EU framework. Given the requirement in the EC regulations to define GAEC to reflect the specific character of the areas concerned including the condition of the land, environmental conditions and agricultural activity, it is to be expected that a variety of standards will have been set within the EU. Whether those standards fulfil member states' EU regulatory obligations will be considered by the European Commission, which has already begun a programme of audits covering cross-compliance. In the meantime, DEFRA officials continue to liaise closely with the European Commission and other member states, both to ensure a common understanding of the EU regulatory obligations and to share practical experience of implementation.

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs when the Single Payment Scheme will be implemented; and whether her Department plans to propose further reform of the common agricultural policy. [22733]

Jim Knight: Ministers regularly assess the likely timing of Single Payment Scheme awards with officials at the Rural Payments Agency (RPA), which is responsible for the administration of the scheme in England. RPA remains on course to commence payments in February 2006 and complete 96 per cent. of payments by the end of March, in line with announcements made at the start of the year.

The UK Government has called for a fundamental review of the whole EU budget, including the common agricultural policy (CAP), to report during the next EU financial perspective (2007–13). We have held detailed discussions with every member state about the budget and remain committed to working for a deal in December.

As part of that process, we have called for a proper debate about the budget and stressed that we must begin making the necessary changes, including to CAP expenditure, before the next budget period begins in 2014. We have also been clear that any change to the CAP must take account of the legitimate business planning needs of farmers and happen over time.

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements she has made for releasing data on individual recipients of farm support payments under the Single Payment Scheme. [23552]

Jim Knight: The Rural Payments Agency (RPA) will be releasing details of payments made under the Single Payments Scheme (SPS).

We will publish an annual aggregate figure for payments to each recipient under the SPS drawn from our financial records. The regional analysis will be produced using the Nomenclature of Units for Territorial Statistics (NUTS). NUTS was established by Eurostat more than 25 years ago in order to provide a single uniform breakdown of territorial units for the production of regional statistics for the European Union. We will use NUTS levels one and two to provide the regional analysis. The information will be extracted, calculated and published on the RPA website after the closure of the payment window on 30 June 2006, probably by end September 2006.

Statutory Instruments

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of statutory instruments laid before the House by her Department arose as a direct consequence of European legislation in each of the last three years. [23001]

Jim Knight: It is possible to extrapolate from existing data sources a broad estimate of the percentage of SIs which came into force for each of the last three years that arose as a direct consequence of European legislation. The figures are:

	Measures arising from EU affecting the private sector as percentage of total SIs coming into force
2004	53
2003	51
2002	61

Archived data is stored depending on the date of entry into force of specific measures and not the date on which the implementing statutory instrument was laid before Parliament. Therefore, information in the precise form requested could be obtained only at disproportionate cost.

Furthermore, the data provided relates only to measures which have a relatively significant or wide-ranging impact on business. Minor technical or updating amendments to existing regulations, which may have arisen as a consequence either of EU or domestic policies, are not included in the data source.

The total number of SIs covered on this basis for EU and domestic policies, and which came into force in each of the three years, is: 2004 70 SIs; 2003 92 SIs; and 2002 57 SIs. The total number of SIs in any given year will be higher once minor, technical and amending measures are included.

Stewardship Scheme

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received about online applications to the entry level stewardship scheme; and if she will make a statement. [26256]

Jim Knight *[holding answer 8 November 2005]:* No representations have been received recently at a national level concerning the introduction of the ELS On-Line facility. However, we are aware that local RDS offices continue to receive informal enquiries from farmers and their agents on this subject.

The ELS On-Line system remains under development and our aim is to thoroughly test it before release to ensure that it is robust and fit for purpose. It is our intention to make it available early in the new year.

Sugar

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received on EU proposals for reform of the sugar regime. [20426]

Jim Knight: Defra has conducted a full public consultation exercise on the Commission's proposals for reform of the EU sugar regime. Thirty-seven written responses were received and copies of these are available for inspection in the Defra library. A summary of views expressed will be published shortly. In addition, Ministers have received a large number of letters on this subject outside the formal consultation exercise reflecting a similar range of concerns.

Meetings with stakeholders have been conducted at both ministerial and official level on a regular basis and will continue to take place as the negotiations progress.

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact on UK manufacturing industry of production quotas for sugar *(a)* over the last five years and *(b)* over the next five years. [23764]

Jim Knight: By sustaining high sugar prices and inefficient sugar production, national sugar quotas have restricted competition and choice for UK and EU based food manufacturers for whom sugar is a crucial ingredient. The European Commission's proposals for reform of the EU sugar regime are expected to increase competition and trade across Europe. Further analysis of these impacts is provided in the Government's detailed Regulatory Impact Assessment of options for reform of the EU Sugar Regime.

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs if she will accept the recommendation of the Environment, Food and Rural Affairs Committee in its Twelfth Report of Session 2003–04, paragraph 52, that, if the reformed Common Market Organisation for sugar maintains the quota system, the competition authorities should conduct an investigation into the UK sugar processing industry. [23849]

Jim Knight: This is a matter for the competition authorities themselves to consider. But the Government does believe that the European Commission's present proposals for reform of the EU sugar regime do represent a considerable step forward in the operation of the quota system, with the merger of A and B quotas, the abolition of C sugar and the possibility of some expansion for the most efficient producers.

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what the base price would be on which payments of export refunds would be calculated under the European Commission's proposals for reform of the Common Market Organisation in sugar. [23850]

Jim Knight: Export refunds for sugar are currently calculated as a function of the difference between the EU intervention price and world market levels. Under the European Commission's reform proposals the intervention system would be abolished and replaced with a number of different market management instruments, the need for which will be assessed in relation to representative prices on the EU market expressed as a reference level.

The question of how export refunds will be set in relation to this will be a matter for the Sugar Management Committee after the Agriculture Council has reached agreement on the main reform proposals.

Warm Front Scheme

Shona McIsaac: To ask the Secretary of State for Environment, Food and Rural Affairs how many households in Cleethorpes constituency have received assistance under the Warm Front scheme in each year since its introduction. [26573]

Mr. Morley: Between the launch of the Warm Front Scheme in June 2000 and the end of March 2005, the numbers of households assisted in each year in Cleethorpes constituency are as follows:

	Number of households assisted
2000–01	199
2001–02	898
2002–03	617
2003–04	790
2004–05	714
Total	3,218

Waste Disposal

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs how many landfill sites are operational in *(a)* England, *(b)* Tees Valley and *(c)* Middlesbrough, South and East Cleveland constituency. [26497]

Mr. Bradshaw: There are 561 operational landfill sites in England. This number is not constant given that the Environment Agency is currently undertaking the re-permitting of the landfill sector under the requirements of both the PPC and Landfill Regulations.

There are currently 13 operational landfill sites in Tees Valley and one in the Middlesbrough, South and East Cleveland area.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the current capacity of landfill sites is filled. [26498]

Mr. Bradshaw: The information is not available in the form requested at present. However, it is an area being addressed during development of the Waste Data Strategy.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs how many incinerators are used in England to burn *(a)* household, *(b)* industrial and *(c)* other waste. [26499]

Mr. Bradshaw: The Environment Agency regulates 64 incinerators in England under the Integrated Pollution Control Regime (Environmental Protection Act 1990, part 1) and the Pollution Prevention and Control Regulations 2000 SI 1972. The breakdown is as follows:

	Number
Burning household waste	16
Burning industrial waste	[1]23
Burning other waste	[2]25

[1] Two merchant waste incinerators and the remaining 21 are in-house waste incinerators.

[2] Clinical waste, sewage sludge and animal carcase incinerators

As regards smaller incinerators regulated by local authorities, data from our 2003–04 statistical survey for England and Wales (http://www.defra.gov.uk/environment/airquality/lapc/survey0304/index.htm) shows 65 incinerators were regulated and a further 36 combustion plant. We do not have a breakdown of how many of the 36 combustion plant burnt waste.

Separate data collected for 2001–02 for England and Wales (http://www.defra.gov.uk/environment/airquality/lapc/aqnotes/pdf/aq03(02).pdf) show that 19 installations were subject to guidance for waste combustion plant, 22 used clinical waste incineration guidance, 26 used animal carcase incineration guidance and seven used general waste incineration guidance.

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what plans there are to build additional incinerators to deal with refuse. [26500]

Mr. Bradshaw: The Government are exploring options to support the delivery of additional energy generation from residual, post-recycling, waste as part of their current review of waste strategy.

DEPUTY PRIME MINISTER

Housing

Mr. Holloway: To ask the Deputy Prime Minister what estimate he has made of the likely cost of the infrastructure necessary to support the proposed house building programme in the parliamentary constituency of Gravesham; and what percentage of this cost will be met from central funding. [24175]

Yvette Cooper: The Office of the Deputy Prime Minister (ODPM) is aware that for such an ambitious programme as the Thames Gateway, infrastructure is needed that will support the new homes and jobs envisaged for these areas.

ODPM is working closely with local partners in better defining and prioritising these costs. A proportion of these will be met by public sector as a means to enabling regeneration of the area, but it is also crucial that private sector contribute the necessary investment to make these areas sustainable.

There has been significant investment in Gravesham to date, some £40 million worth of projects in the area, as part of ODPM's Thames Gateway programme and some £210 million allocated to North Kent. These projects will help support new infrastructure and housing, for example through land remediation of brownfield sites, new greenspace and education provision.

Around £19 million are currently committed to Fastrack public transport system £4 million coming from ODPM and £15 million from DfT, which will run services connecting Gravesend, Dartford Bluewater and Ebbsfleet International Station.

In addition, significant investment has been made from across Government, and examples of this are the Gravesend and North Kent Hospital, and the road widening of the A2 between Bean and Cobham where the DfT has contributed with over £115 million.

Mike Penning: To ask the Deputy Prime Minister what assessment he has made of the impact on *(a)* road and *(b)* rail infrastructure of the new housing proposed for the Eastern Region. [26342]

Ms Buck: I have been asked to reply.

The draft Spatial Strategy for the East of England contains a regional transport strategy. This was developed by the region in consultation with its local authorities. The Examination in Public (EiP) for the draft strategy started on 1 November. It is the work of the EiP panel to hear the evidence and representations before it in order to make recommendations to the Government on the appropriate long-term strategy in the East of England. Once the scale and broad location of developments are known, transport requirements will be subject to refinement.

DfT Rail are finalising a Regional Planning Assessment for rail. This will help identify some of the medium to long-term requirements for the region. This work is in addition to the Route Utilisation Strategy for the region which will be implemented in December. This particular strategy seeks to maximise capacity on the rail network through measures linked with known and anticipated demand.

Local Authority Housing Stock

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether the system of writing off debt for local authorities which agree to large scale voluntary transfers of their housing stock has been approved by the European Union. [22256]

Yvette Cooper: It is the view of the Office of the Deputy Prime Minister that the system of writing off debt for local authorities which agree to large scale voluntary transfers of their housing stock is not a notifiable aid under article 87(1) of the EC Treaty, as it does not distort or threaten to distort competition.

Local Government Elections

Mr. Kemp: To ask the Deputy Prime Minister when the proposals to introduce whole council local elections every four years will be taken forward. [23208]

Mr. Woolas: As part of our ongoing local:vision debate on the future of local government we will, over the coming months, be seeking views of the Electoral Commission and other stakeholders on how best to implement the Electoral Commission's recommendations that all local authorities should hold whole council elections every four years.

Town Councils

Mr. Steen: To ask the Deputy Prime Minister whether there is a backlog of cases for proposed town councils for his consideration; what timescale he would expect for consideration of the establishment of a Brixham town council following a formal submission from the Torbay Unitary Authority; and if he will make a statement. [26265]

Mr. Woolas: Local authorities submit to the Office of the Deputy Prime Minister (ODPM) cases for the establishment, alteration and abolition of parish and town councils in accordance with the Local Government and Rating Act 1997 following parish reviews they undertake to their own time scale. These authorities are also required to forward to ODPM within three months valid local petitions from electors calling for the creation of a new parish and parish council. ODPM deals with its programme of such cases as they are received. It presently takes between six and nine months between ODPM receiving proposals and our making Orders to implement them in time for the first elections of new parish councils. Any proposal to establish a town council for Brixham would need to be submitted by Torbay council in line with these arrangements.

West Midlands Regional Spatial Strategy

Paul Farrelly: To ask the Deputy Prime Minister which organisations and individuals have been consulted during preparation of the Phase 2 Revision Draft of the West Midlands Regional Spatial Strategy. [26077]

Yvette Cooper: The Phase 2 revision of the West Midlands Regional Spatial Strategy was launched on Monday 7 November, when the West Midlands Regional Planning Body published a draft Project Plan for consultation. The Regional Planning Body has formally notified around 2,000 organisations and individuals of this consultation, which seeks views on the scope of the revision and the future participation arrangements. The full range of private and public bodies suggested in Annex D of PPS11 is being consulted and the consultation period ends on 31 December 2005. Further consultation is expected to take place on the options developed next summer and on the preferred option in 2007.

TREASURY

Alcohol and Tobacco

Mr. Amess: To ask the Chancellor of the Exchequer what the limits on the importation of *(a)* alcohol and *(b)* tobacco products into Britain by individuals who have bought them within the European Union and have paid the duty levied in the country of purchase have been in each year since 1992. [26358]

John Healey: Since the introduction of the Single Market in 1993, travellers making journeys within the EU have been able to bring back as much duty and tax paid alcohol and tobacco products as they like, provided the products are for their own use and are transported by them.

EC law allows member states to set guidelines which, alongside a number of other factors, officials may take into account to determine whether goods are imported for own use or commercial purposes.

From 1 January 1993 the UK introduced the following guide levels-10 litres of spirits, 20 litres of fortified wine such as port or sherry, 90 litres of wine (of which not more than 60 litres of sparkling wine), 110 litres of beer, 800 cigarettes, 200 cigars, 400 cigarillos, and one kilogram of smoking tobacco.

With effect from 29 October 2002, the UK introduced increased guide levels for cigarettes and some other tobacco products, 3,200 cigarettes and three kilograms of hand-rolling tobacco.

Biodiesel Duty

Mr. Lancaster: To ask the Chancellor of the Exchequer what research he has commissioned on the effects on take-up of biodiesel of a reduction in duty; and if he will reduce the duty on biodiesel. [26146]

John Healey: We have monitored the take-up of biodiesel since the introduction of a duty incentive in July 2002. Over the last three years, the duty incentive has led to increased use of the fuel in the UK and biodiesel alone now accounts for more than 2.5 million litres of fuel released for consumption each month in the UK.

Duty rates for alternative fuels, including biodiesel, are set according to the principles of the Alternative Fuels Framework, published in the 2003 pre-Budget report. In line with the commitment to provide rolling three-year certainty set out in the framework, the current differential of 20 pence per litre is guaranteed until 2008.

Birth Rates

Mr. Jenkins: To ask the Chancellor of the Exchequer how many babies have been born in Tamworth constituency in each year since 1997. [26156]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. Brian Jenkins, dated 9 November 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question for the number of babies born in Tamworth constituency in each year since 1997. (26156)

The table below relates to babies born anywhere in England and Wales to women usually resident in Tamworth constituency area at the time of the birth. Counts are provided up to 2004, the latest year for which figures are available.

Live births to residents of Tamworth constituency, 1997 to 2004

	Number
1997	1,174
1998	1,184
1999	1,115
2000	1,087
2001	1,084
2002	979
2003	1,149
2004	1,124

Construction Industry Scheme

Mr. Pelling: To ask the Chancellor of the Exchequer how many representations he has received from the construction industry on the timing of the introduction of the new Construction Industry Scheme. [26230]

John Healey: Treasury Ministers receive representations on a wide range of issues, including the Construction Industry Scheme.

Departmental Estate

Mr. Jenkins: To ask the Chancellor of the Exchequer what *(a)* land and *(b)* property his Department owns in Tamworth constituency. [26154]

John Healey: The Treasury owns no land or property in the Tamworth constituency.

Departmental Staff (Literacy and Numeracy)

Mr. Gibb: To ask the Chancellor of the Exchequer what proportion of new recruits to his Department do not have a level 2 qualification in English and mathematics. [23767]

John Healey: HM Treasury uses competency-based recruitment and as such focuses on skills rather than qualifications. Therefore no records are kept on the specific qualifications which new recruits have achieved.

Mr. Gibb: To ask the Chancellor of the Exchequer what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of his Department. [23800]

John Healey: I refer the hon. Gentleman to the answer I gave on 25 October 2005, *Official Report*, column 308W.

Duty Free Allowance

Mr. Amess: To ask the Chancellor of the Exchequer (1) what the duty free allowance per person was for *(a)* visitors to the United Kingdom and *(b)* British citizens in (i) 1975, (ii) 1977, (iii) 1979, (iv) 1983, (v) 1987, (vi) 1992, (vii) 1997 and (viii) each year since 2001; [26359]

(2) what recent discussions he has held with the European Commission about the current UK duty free allowance; and if he will make a statement. [26360]

John Healey: European Council Directive 69/169/EEC sets a tax and duty free allowance for all travellers bringing goods for personal use (excluding wine, spirits, tobacco and perfume) from outside the EU into the UK. This allowance applies equally to visitors to the United Kingdom and to British citizens.

When the directive was first agreed in 1969, the allowance was set at 45 Euros (£36). In 1994 it was increased to 175 Euros (£136), and the UK conversion was revalorised from £136 to £145 in 1995 to reflect exchange rate fluctuations. Since then the allowance has not been revised.

In order to change the tax and duty free allowance, the European Commission would have to make a proposal and unanimous agreement among member states would have to be reached. The Chancellor of the Exchequer wrote to the Commission at Budget 2005 proposing that the allowance be increased to £1,000. The Commission has expressed support in principle for the Government's proposal that the allowance should be raised, and it is hoped they will soon come forward with draft legislation to increase the allowance and thereby reduce unnecessary restrictions on travellers bringing goods into the EU for their own use.

Separate quantitative limits apply for wine, spirits, tobacco and perfume. These have not been revised since the directive was first agreed and are listed as follows:

Quantitative limits for exemptions from tax and duty for travellers bringing goods for personal use from outside the EU into the UK:

200 cigarettes; or 100 cigarillos; or 50 cigars; or 250g of tobacco

60cc of perfume

Two litres of still table wine

250cc of eau de toilette

One litre of spirits or strong liqueurs over 22 per cent. volume; or two litres of fortified wine, sparkling wine or other liqueurs

Mr. Amess: To ask the Chancellor of the Exchequer how many vehicles were confiscated by customs officers as a result of the driver carrying goods above the duty free allowance in each of the last 10 years. [26362]

John Healey: HM Revenue and Customs records of the number of vehicles seized do not differentiate between the nature of the offences in each case. Details of the total number of vehicles seized across the UK in the years 1994–95 to 1999–2000 are as follows:

	Number
1994–95	600
1995–96	1,446
1996–97	2,002
1997–98	2,929
1998–99	3,193
1999–2000	5,200
2000–01	10,219
2001–02	11,064
2002–03	8,616
2003–04	6,848

The number ofvehicles seized in 2004–05 will be published in the Customs Annual Report, published later this year.

Economic Indicators

Adam Afriyie: To ask the Chancellor of the Exchequer what methodology he uses to assess the UK's economic performance compared with other EU countries. [26237]

John Healey: The Treasury paper on "Long-term global economic challenges and opportunities for Europe" provides information on the economic performances of EU member states.

Employment Statistics

Mr. Jenkins: To ask the Chancellor of the Exchequer how many people were *(a)* employed and *(b)* unemployed in each electoral ward in Tamworth constituency in each year since 1997. [26161]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mr. Brian Jenkins, dated 9 November 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about employment and unemployment. (26161)

The Office for National Statistics (ONS) compiles statistics of employment and unemployment from the Labour Force Survey following International Labour Organisation definitions. Estimates of employment and unemployment are not available for wards as the survey sample size for such areas is too small.

Table 1, attached, shows the 2001 Census figures for numbers persons aged 16 to 74 in employment who were resident in the electoral wards of the Tamworth constituency.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance. Table 2, attached, shows annual averages, for 1996 to 2004, for wards within the Tamworth constituency.

Table 1: Number of persons aged 16 to 74 in employment resident in electoral wards of the Tamworth parliamentary constituency

Electoral wards[1]	*Number*
Bourne Vale	1,079
Fazeley	2,018
Little Aston	1,164
Mease Valley	885
Shenstone	1,557
Stonnall	767
Tame	842
Amington	4,497
Belgrave	3,633
Bolehall	3,369
Castle	4,209
Glascote	3,356
Mercian	3,109
Spital	2,449
Stonydelph	4,125
Trinity	3,933
Wilnecote	4,332
Total	45,324

[1] Electoral wards are defined on the basis of the boundaries as they were in 1991.

Jobcentre Plus administrative systems.

External Contractors

Dr. Cable: To ask the Chancellor of the Exchequer if he will list the research commissioned externally by *(a)* his Department and *(b)* its agencies in each year since 1997; which external contractor was commissioned in each case; what the cost was of each research project; how long it took to complete each project; and if he will make a statement. [25764]

John Healey: This information is not held centrally in Treasury or its agencies.

This information could be obtained only at disproportionate costs.

Fatality Statistics

Mike Penning: To ask the Chancellor of the Exchequer how many fatalities in Hertfordshire have been attributed to *(a)* fires and *(b)* road traffic accidents in each year since 1997. [25573]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Michael Penning, dated 9 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many fatalities in Hertfordshire have been attributed to *(a)* fires and *(b)* road traffic accidents in each year since 1997. I am replying in her absence. (25573)

The most recent available information is for deaths in 2004. Figures for deaths due to land transport accidents and exposure to smoke, fire or flames, are shown in the attached table for each year from 1997 to 2004.

Deaths due to land transport accidents and exposure to smoke, fire, or flames,[1] for normal residents of Hertfordshire, registered 1997 to 2004

	Land transport accidents	*Smoke, fire or flames*
1997	68	11
1998	62	9
1999	59	4
2000	63	8
2001	36	5
2002	53	8
2003	60	1
2004	56	1

[1] Cause of death was defined using the codes below from the International Classification of Diseases, Ninth Revision (ICD-9) for the years 1997 and 2000, and Tenth Revision (ICD-10) from 2001 onwards.
Land transport accidents:
ICD-9-E800-E829
ICD-10-V01-V89
Smoke, fire or flames:
ICD-9-E890-E899, E958.1, E968.0, E988.1
ICD-10-X00-X09, X76, X97, Y26.
Includes deaths given a verdict of accident, assault, suicide or undetermined intent. Deaths were selected using the original underlying cause.

Good Hope Hospital

Mr. Jenkins: To ask the Chancellor of the Exchequer how many babies have been delivered at Good Hope hospital in Sutton Coldfield in each year since 1997. [26155]

John Healey: The information requested falls within the responsibility of the national statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Brian Jenkins, dated 9 November 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking for the number of babies delivered at Good Hope Hospital, Sutton Coldfield in each year since 1997. (26155)

The table below shows the information requested up to 2004, the latest year for which birth counts are available.

Live births delivered at Good Hope hospital, Sutton Coldfield, 1997 to 2004

	Number
1997	2,989
1998	2,939
1999	2,961
2000	3,060
2001	2,930
2002	2,859
2003	3,063
2004	3,197

IT Projects

Dr. Cable: To ask the Chancellor of the Exchequer what comparative studies the Government have undertaken of the performance of the public and private sectors in the management of large technology projects; and if he will publish the findings. [26589]

John Healey: This information is not held centrally and can be obtained only at disproportionate cost.

Kettering General Hospital

Mr. Hollobone: To ask the Chancellor of the Exchequer how many babies have been delivered at Kettering general hospital in each year since 1997. [24749]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Mr. Philip Hollobone, dated 9 November 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question asking for the number of babies delivered at Kettering General Hospital in each year since 1997. I am replying in her absence. (24749)

The table below shows the information requested up to 2004, which is the latest year for which birth counts are available.

Number of live births delivered at Kettering general hospital 1997–2004

	Number
1997	3,245
1998	3,171
1999	3,211
2000	3,341
2001	3,224
2002	3,167
2003	3,400
2004	3,513

Lorry Road User Charging Scheme

Tom Brake: To ask the Chancellor of the Exchequer how much has been paid to *(a)* Serco Ltd. *(b)* Siemens plc. *(c)* T-Systems International, *(d)* Autostrade S.p.A, *(e)* TraCS Consortium, *(f)* Capita Group plc. and *(g)* IBM (UK) Ltd. in compensation for costs incurred in the procurement process for the lorry road-user charging scheme before the scheme was suspended. [25880]

John Healey: Specific payments to individual bidders are a matter of commercial confidentiality, but the total of the Proof of Solution payments and any payments made for other costs will be reported in the annual accounts of HMRC.

PFI

David Taylor: To ask the Chancellor of the Exchequer what representations he has received on the private finance initiative. [26065]

John Healey: The Treasury has received many representations on PFI from a wide number of parties.

Sustainable Development

Dr. Cable: To ask the Chancellor of the Exchequer how much is due to be spent in *(a)* the 2005–06 financial year and *(b)* each of the next four financial years on the carbon offset scheme by (i) his Department and (ii) each agency of his Department; and what estimate he has made of the number and distance of flights and related carbon dioxide emissions which require offsetting. [21999]

John Healey: The Departments and agencies responsible to Treasury Ministers are currently looking at the feasibility of implementing the carbon offsetting scheme and committing 1 per cent. of the annual cost of air travel to carbon offsetting from April 2006.

The data available concerning the number of flights and their cost are as follows:

HM Treasury: approximately 3,000 flights per annum—£2.4 million

HM Revenue and Customs: 30,640 flights in 2004–05—£6 million

Office for National Statistics: approximately 800 flights in 2005–06—£275,000.

Office of Government Commerce: 552 flights in 2004–05—£160,000.

Government Actuary's Department: 63 flights in 2005–06—£33,000.

Debt Management Office: approximately 10 flights in 2004–05—£6,000

Workless Households

Andrew Rosindell: To ask the Chancellor of the Exchequer how many workless households there are in the UK; and if he will make a statement. [26234]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Andrew Rosindell, dated 9 November 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about workless households in the UK. (26234)

In the three months ending May 2005, there were 10.8 million households in which at least one person was of working age (a man aged 16–64 or a woman aged 16 to 59). Among these, there were 3.07 million workless households in which no one was in employment.

These estimates from the Labour Force Survey are, as with any sample survey, subject to sampling variability.

TRANSPORT

A21

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of the economic impact of the proposed A21 upgrade on the local community; and if he will make a statement. [25101]

Dr. Ladyman: An economic appraisal of the scheme has been carried out in accordance with Department for Transport guidance. The views of local businesses, the public and interested parties were taken into account as a result of the Public Consultation undertaken in 2002–03, which led to the Preferred Route Announcement in February 2005.

Gregory Barker: To ask the Secretary of State for Transport what surveys his Department has conducted on the effect of the proposed A21 upgrade on local businesses; and whether these surveys have been made available to residents in the areas affected by the route. [25102]

Dr. Ladyman: Specific surveys have not been carried out on the effect of the proposed A21 on local businesses. However, the views of local businesses, the public and interested parties were taken into account as a result of the Public Consultation undertaken in 2002–03, which led to the Preferred Route Announcement in February 2005.

A41

Mike Penning: To ask the Secretary of State for Transport what assessment he has made of the level of congestion on the A41 in Hertfordshire. [25576]

Dr. Ladyman: No assessment has been made since the A41 was de-trunked and became the responsibility of Hertfordshire county council as local highway authority.

Air Carrier Insolvencies

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will make a statement on his plans in respect of airlines which have not taken voluntary measures in relation to airline insolvency insurance. [25158]

Ms Buck: Following initial meetings on 24 October, airlines representing half of UK international passengers carried on scheduled services have agreed to implement voluntary measures in relation to insolvency insurance. I plan to contact further airlines and continue this process.

Aircraft Emissions

Peter Law: To ask the Secretary of State for Transport what assessment he has made of the merits of low emissions passenger aircraft. [25471]

Ms Buck: It is for the industry to work towards improved emissions performance of passenger aircraft within a policy framework set by the international community and by increasing Government and market expectations of environmental responsibility.

Antisocial Behaviour

Anne Milton: To ask the Secretary of State for Transport how many instances of antisocial behaviour have been recorded on buses in *(a)* Surrey and *(b)* England in each of the last 10 years. [25693]

Ms Buck: The Department does not collect statistics on the number of antisocial behaviour incidents on buses.

Bald Tyres

Andrew Rosindell: To ask the Secretary of State for Transport what the penalty is for a driver of a car with a bald tyre. [26454]

Dr. Ladyman: If a driver accepts a fixed penalty notice, the fine is £60. If convicted in court, the maximum fine is £2,500. The offence also attracts three penalty points on the driver's licence and could also result in disqualification at the discretion of the courts, or if the total number of penalty points on the driver's licence required it.

Bathside Bay

Mr. George Howarth: To ask the Secretary of State for Transport when he will announce a decision on Bathside Bay. [26524]

Dr. Ladyman: The report of the public inquiry into the proposed Bathside Bay Container Terminal Development is under careful consideration, and an announcement will be made as soon as possible.

Mr. Carswell: To ask the Secretary of State for Transport when he expects the Government to make an announcement regarding the proposed Bathside Bay port development. [25481]

Dr. Ladyman: The report of the public inquiry into the proposed Bathside Bay Container Terminal Development is under careful consideration, and an announcement will be made as soon as possible.

Coach Seat Belts

Mr. Amess: To ask the Secretary of State for Transport whether he plans to introduce legislation to require passengers to wear seat belts in the passenger seats of coaches; and if he will make a statement. [25735]

Dr. Ladyman: Drivers and front seat passengers are required to use seat belts in all vehicles where they are installed. Passengers in the rear (that is all other) seats of buses and coaches are required to use seat belts where they are available in vehicles up to 2,540 kgs unladen weight (roughly 16 seats).

Regulations are presently in preparation to come into force in 2006 (subject to parliamentary approval) to require seated passengers aged three years and above in the rear seats of larger buses/coaches to use seat belts where they are available. This follows a departmental consultation in 2004 about the changes needed in seat belt wearing regulations in order to transpose the requirements of European Directive 20/2003/EC into domestic legislation. The consultation document and the subsequent decision letter are available on-line at: www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/divisionhomepage/039143.hcsp

Coastguard

David Mundell: To ask the Secretary of State for Transport how many emergency calls were made to the Coastguard Service in each of the last five years; and how many such calls were found to be hoaxes. [26132]

Dr. Ladyman: The information requested is as follows.

	Total number of calls	*Hoax calls*
2000	12,016	221
2001	12,541	206
2002	13,395	260
2003	13,849	232
2004	14,240	301

Concessionary Travel

Dr. Starkey: To ask the Secretary of State for Transport (1) if he will estimate *(a)* the cost of extending to the rest of England the London scheme of free bus travel for under-16s, and *(b)* the cost of extending free travel to under-18s in full-time education; [25936]

(2) what estimate he has made of *(a)* extending the travel concession on buses for under-16s in London to all of England and *(b)* extending that concession to include under-18s in full-time education. [26000]

Ms Buck: Analysis for the Department for Transport estimated the costs of providing free bus travel, at all times and for all purposes, for five to 16-year-olds at around £365 million. Extending free bus travel to 17 and 18-year-olds, for education trips only, would cost about another £65 million. The costings are in 2002–03 prices.

Crossrail

Adam Afriyie: To ask the Secretary of State for Transport how many existing stopping services from Oxford, Reading and Slough to Paddington will cease to operate once Crossrail is constructed. [23122]

Derek Twigg: Crossrail services will subsume many of the suburban services, but project planning assumes that a twice hourly diesel operated service will run throughout the day between Reading and London Paddington on the Relief (slow) Lines. These trains could be a continuation of the existing twice hourly stopping service between Oxford and Reading.

Departmental Staff

Mr. George Howarth: To ask the Secretary of State for Transport how many people worked in his Department in each year since 1998, broken down by sex, grade and race. [25633]

Ms Buck: The information is published in civil service statistics which is available in the Library of the House.

Electric Cars

Mr. Sheerman: To ask the Secretary of State for Transport if he will ensure that electric cars are included in the low carbon grant scheme. [24432]

Dr. Ladyman: The proposed low carbon car grant programme is technology neutral. Any car meeting the necessary emissions standards would be eligible for a grant irrespective of the technology used. As electric cars have no tailpipe emissions they are generally treated as ultra low carbon emitting vehicles (i.e. <100g/km CO_2).

Mr. Sheerman: To ask the Secretary of State for Transport what steps he is taking to ensure that incentives to encourage the take up of emission-free cars include electric cars. [24433]

Dr. Ladyman: Fully electric vehicles are exempt from vehicle excise duty (VED). New electric hybrid vehicles (i.e. those that are powered by a combination of electricity and another fuel) registered since March 2001 enjoy a VED discount over conventionally fuelled vehicles.

The company car tax system includes an incentive to encourage take up of low and zero emission technology. Cars that are capable of running solely on electricity and other alternative fuels benefit from a discount from the equivalent petrol company car tax percentage charge.

Electric vehicles also enjoy a number of other local benefits, including free parking in some areas and an exemption from the central London congestion charge.

All current and proposed grant programmes to encourage the take up of low emission vehicles are technology neutral. The eligibility criteria for the programmes focus on reducing emissions, irrespective of the technology used. Applications for electric cars and technology will be assessed against technology-neutral criteria and considered equally alongside other technologies.

Felixstowe

Mr. George Howarth: To ask the Secretary of State for Transport when he will announce a decision on the Port of Felixstowe. [26538]

Dr. Ladyman: The report of the public inquiry into the proposed Felixstowe South re-configuration is under careful consideration and an announcement will be made as soon as possible.

Departmental Funding

Mike Penning: To ask the Secretary of State for Transport how much funding was allocated by his Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in each of the last eight years. [25734]

Ms Buck: The Hemel Hempstead constituency is covered by the Hertfordshire county council local transport plan. The funding provided to Hertfordshire county council for local transport capital expenditure for each of the last eight years is shown in the following table.

Hertfordshire county council nature of funding

£ million

	Capital maintenance	*Integrated block*	*Major schemes*	*Total*
1998–99	2.179	1.809	.565	4.553
1999–2000	2.438	4.200	.220	6.858
2000–01	4.467	5.000	0	9.467
2001–02	10.083	12.500	0	22.583
2002–03	10.586	12.950	1.900	25.436
2003–04	7.939	14.170	1.409	23.518
2004–05	9.262	12.350	18.650	40.262
2005–06	8.596	12.600	14.200	35.396

Capital maintenance funding is allocated to local highways authorities for investment in their highway network, including their structures and street lighting. The integrated transport block is Government funding support for transport improvements schemes each costing less than £5 million and can be used for local highways or public transport capital projects. It has been for Hertfordshire county council to determine how these allocations were spent, in line with their local transport plan and their priorities.

Funding paid by the Department to Hertfordshire county council in the form of Rural Bus Subsidy Grant, and Rural Bus challenge funding since 1998 is shown in the following table.

Hertfordshire county council nature of funding

	£ million Bus grants
1998–99	.64
1999–2000	.73
2000–01	.65
2001–02	1.26
2002–03	.92
2003–04	.62
2004–05	.68
2005–06	.71

The revenue support grant (RSG) from the Office of the Deputy Prime Minister provides further revenue funding for highway maintenance, concessionary fares and subsidising bus services. However, RSG is unhypothecated and may be applied by local authorities to any services.

The Department's spend on railways can not be disaggregated by constituency.

Shona McIsaac: To ask the Secretary of State for Transport how much *(a)* capital and *(b)* revenue funding was allocated by his Department to (i) North East Lincolnshire and (ii) North Lincolnshire in each of the last five years. [25443]

Ms Buck: The funding provided to North Lincolnshire council and North East Lincolnshire council for local transport capital expenditure since 2001 is shown in the following tables:

North Lincolnshire county council

£ million

	Nature of funding		
	Capital maintenance	Integrated block	Total
2001-02	2.468	1.200	3.668
2002-03	2.598	2.200	4.798
2003-04	2.109	2.900	5.009
2004-05	2.447	3.156	5.603
2005-06	2.554	2.700	5.254

North East Lincolnshire county council

£ million

	Nature of funding			
	Capital maintenance	Integrated block	Major schemes	Total
2001-02	0.965	2.100	0.359	3.424
2002-03	0.970	4.700	0.158	5.828
2003-04	1.128	3.600	0.0	4.728
2004-05	2.067	3.220	0.0	5.287

Capital maintenance funding is allocated to local highways authorities for investment in their highway network, including their structures and street lighting. The integrated transport block is Government funding support for transport improvements schemes each costing less than £5 million and can be used for local highways or public transport capital projects. It has been for North Lincolnshire and North East Lincolnshire councils to determine how these allocations were spent, in line with their local transport plan and their priorities.

Funding allocated by my Department to both North Lincolnshire council and North East Lincolnshire council in the form of Rural Bus Subsidy Grant and Rural Bus Challenge funding since 2001 is shown in the following table.

Bus grants

£ million

	North Lincolnshire	North East Lincolnshire
2001-02	.33	.05
2002-03	.38	.78
2003-04	.87	.06
2004-05	.39	.07
2005-06	.41	.08

The Revenue Support Grant (RSG) from the Office of the Deputy Prime Minister provides further revenue funding for highway maintenance, concessionary fares and subsidising bus services. However, RSG is unhypothecated and may be applied by local authorities to any services.

Humber Bridge

Shona McIsaac: To ask the Secretary of State for Transport what the toll for the Humber Bridge was in each year since its opening. [24772]

Dr. Ladyman: The following are the maximum tolls chargeable at the Humber Bridge since the confirmation of the initial toll order in 1980, with reference to the statutory instrument authorising the toll charges:

The Humber Bridge Tolls Order 1979 Confirmation Instrument 1980

Class of traffic	Maximum toll (£)
Motor cycles with or without side-cars	70p
Cars, including three wheeled cars, and Light Vans up to 30 cwt capacity	1.50
Light commercial vehicles (30 cwt to 3 tons). Cars and Light Vans with trailers	2.90
Heavy commercial vehicles (over 3 tons):	
Class A (2 axle)	5.20
Class B (3 axle)	6.60
Class C (4 or more axles)	8.00
Mini-buses with a seating capacity of more than eight but not more than 16 passengers	2.90
Buses and coaches with a seating capacity of 17 and over.	5.20

The Humber Bridge (Revision of Tolls and Vehicle Classification) Order 1989

		Toll charges (£)
1	Motor cycle with or without sidecar	70p
2	Car, Goods vehicle having a maximum weight not exceeding 3.5 tonnes.	1.60
3	Goods vehicle having a maximum weight exceeding 3.5 tonnes but not exceeding 7.5 tonnes; vehicle within class 2 above with trailer; small bus; and Motor caravan.	2.90
4	Goods vehicle having a maximum weight exceeding 7.5 tonnes with 2 axles, Large bus.	6.50
5	Goods vehicle having a maximum weight exceeding 7.5 tonnes with 3 axles.	8.70
6	Goods vehicle having a maximum weight exceeding 7.5 tonnes with 4 or more axles.	10.90

The Humber Bridge (Revision of Tolls and Vehicle Classification) Order 1997

		Toll charges (£)
1	Motor cycle with or without sidecar	1
2	Car, Goods vehicle having a maximum weight not exceeding 3.5 tonnes.	2.30
3	Goods vehicle having a maximum weight exceeding 3.5 tonnes but not exceeding 7.5 tonnes; vehicle in class 2 above with trailer; small bus (up to 16 passengers excluding driver); and Motor Caravan.	4.10
4	Goods vehicle exceeding 7.5 tonnes maximum weight with 2 axles.	9.20
5	Goods vehicle exceeding 7.5 tonnes maximum weight with 3 axles.	12.30
6	Goods vehicle exceeding 7.5 tonnes maximum weight with 4 or more axles.	15.40

The Humber Bridge (Revision of Tolls and Vehicle Classification) Order 2000

		Toll charges (£)
1	Motor cycle with or without sidecar	1
2	Car, Goods vehicle having a maximum weight not exceeding 3.5 tonnes and Motor Caravan	2.40
3	Goods vehicle having a maximum weight exceeding 3.5 tonnes but not exceeding 7.5 tonnes; vehicle in class 2 above with trailer; and small bus (up to 16 passengers excluding driver).	4.30
4	Goods Vehicle exceeding 7.5 tonnes maximum weight with 2 axles.	9.60
5	Goods vehicle exceeding 7.5 tonnes maximum weight with 3 axles.	12.90
6	Goods vehicle exceeding 7.5 tonnes maximum weight with 4 or more axles.	16.10

The Humber Bridge (Revision of Tolls) Order 2002

		Toll charges (£)
1	Motor cycle with or without sidecar	1.10
2	Motor Car, Goods vehicle having a maximum weight not exceeding 3.5 tonnes and Motor Caravan	2.50
3	Goods vehicle having a maximum weight exceeding 3.5 tonnes but not exceeding 7.5 tonnes; vehicle in class 2 above with trailer; and small bus (up to 16 passengers excluding driver).	4.50
4	Goods vehicle exceeding 7.5 tonnes maximum weight with 2 axles.	10.00
5	Goods vehicle exceeding 7.5 tonnes maximum weight with 3 axles.	13.40
6	Goods vehicle exceeding 7.5 tonnes maximum weight with 4 or more axles.	16.70

Left-hand Drive HGVs

Mr. Pickles: To ask the Secretary of State for Transport if he will introduce regulations to ensure that left-hand drive heavy goods vehicles have sufficient side mirrors to alleviate blind spots in relation to vehicles passing on the right. [25673]

Dr. Ladyman: International obligations do not allow us to require, unilaterally, levels of equipment that exceed the requirements of agreed international standards. However, we have agreed, with European partners, a directive that will require large goods vehicles to be fitted with additional mirrors that provide a wider angle of vision along both sides of the vehicle and also a better downward view of the traffic adjacent to the side of the vehicle. This directive will apply to newly registered vehicles within the European Community and will start to take effect from January 2007.

Light Rail and Trams

Mr. George Howarth: To ask the Secretary of State for Transport what his policy is on light rail and tram schemes. [25616]

Derek Twigg: As my right hon. Friend the Secretary of State for Transport said in his written statement to the House on 3 November 2005, *Official Report*, columns 59–62WS, we recognise that trams can be very effective in heavily trafficked areas. We will continue to be prepared to support trams, where they are the right solution but we will not do so at any cost, and in many cases a well designed and promoted bus based system is likely to provide a more cost effective solution.

Where trams are promoted, they will need to be developed as part of an integrated approach to tackling an area's problems, and they will need to be supported by commitments to complementary measures to deliver the benefits of increased public transport usage and reduced congestion. We will continue to work closely with promoters and the industry to seek to ensure that these benefits can be realised, and that the costs of tram systems are minimised and properly controlled.

LPG

Andrew Rosindell: To ask the Secretary of State for Transport what steps the Government is taking to encourage the use of liquid petroleum gas fuel in cars. [26451]

Dr. Ladyman: The Government recognises the environmental benefits of LPG and has provided support to the LPG industry through fuel duty incentives, grants for vehicle conversion and reduced rates of vehicle excise duty and company car tax.

The rationale for decisions on the level of Government support for different fuels is set out in the Alternative Fuels Framework published in the Chancellor of the Exchequer's 2003 pre-Budget report. In Budget 2005 the Chancellor of the Exchequer set out the level of fuel duty incentives that LPG would enjoy until 2008.

Merseytram

Mr. George Howarth: To ask the Secretary of State for Transport what informal advice was *(a)* sought and *(b)* received by Ministers of his Department in relation to Merseytram Line 1. [25645]

Derek Twigg: Ministers in this Department have had information and advice from a number of interested parties on aspects of the Merseytram Line 1 scheme. It is not possible to record every bit of advice that may be sought or received.

Motorways

Mike Penning: To ask the Secretary of State for Transport (1) what assessment he has made of the level of congestion on the M1 in Hertfordshire; [25570]

(2) what assessment he has made of the level of congestion on the M25 in Hertfordshire. [25575]

Dr. Ladyman: Congestion on the M25 and the M1 in Hertfordshire is monitored using a number of methods, such as traffic counts, individual surveys and cameras.

Recent assessments have been carried out as part of two multi-modal studies 'Orbit: Transport Solutions Around London' and the London and South Midlands Multi-Modal Study, and the route management strategies for the M1 and M25.

Following these assessments a number of recommendations have been made. These include widening of the M25 from dual three lanes to four between junctions 16 to 27, and widening the M1 between junctions 6 to 13 to a consistent dual four lane carriageway.

The first phase of widening on the M25 will begin in autumn 2007 between junctions 16 and 19. The widening on the M1 between junctions 6 to 10 will start next spring. Both these schemes will greatly reduce existing congestion on the M1 and M25 in Hertfordshire.

Mrs. May: To ask the Secretary of State for Transport (1) what plans he has to introduce a quieter road surface on the M4 and its slip roads in the vicinity of junctions 8 and 9; [26088]

(2) what surface materials will be used in the forthcoming work to introduce a third lane in the slip roads on and off the M4 at junctions 8 and 9. [26089]

Dr. Ladyman: There are no plans at present to resurface the main carriageway of the M4 in the vicinity of junction 8 and 9. However, when resurfacing for safety and operational reasons becomes necessary a low noise surfacing material will be used.

The resurfacing material to be used as part of the widening scheme to introduce a third lane on the slip roads of the M4 at junction 8 and 9 will be a thin surface course material, which has noise reducing properties.

Some short sections of the slip roads on the approaches to the traffic signals at the junction will then be overlaid with high skid resistance surfacing to enhance road safety. This material has little or no noticeable effect of mitigating traffic noise but is essential to road safety.

Multi-modal Studies

Miss McIntosh: To ask the Secretary of State for Transport which recommendations of the multi-modal studies have been accepted; and what progress has been made with implementing these. [25607]

Dr. Ladyman: 21 multi-modal studies have been completed and we have issued detailed responses to the recommendations from 19 of these studies. In view of the number of studies and recommendations involved, it would be possible to answer this question only at a disproportionate cost. Copies of our responses to each study were placed in the House Library at the time they were made.

Miss McIntosh: To ask the Secretary of State for Transport which recommendations of the multi-modal studies have been rejected; and for what reasons in each case. [25608]

Dr. Ladyman: We have provided detailed responses to the recommendations from 19 multi-modal studies. Each response was placed in the House Library at the time that it was made and provides the reasons for rejected recommendations.

October Clock Adjustment

Mr. Kidney: To ask the Secretary of State for Transport what research he has *(a)* commissioned and *(b)* evaluated on the effects on numbers of road casualties of turning back the clocks in October each year. [26482]

Dr. Ladyman: A Government commissioned report by the Transport Research Laboratory (TRL) published in October 1998 concluded that, if the UK adopted single/double summertime (ie GMT plus one hour in the winter, from October to March, and GMT plus two hours in the summer, from March to October) thereby making the evenings lighter, there could be a reduction in road casualties of over 400 people killed or seriously injured per year in Great Britain, including 100 deaths. However, a wide variety of issues would have to be considered very carefully if such a change was to be implemented of which casualty changes would be just one.

Pedestrian Crossing Deaths

Andrew Rosindell: To ask the Secretary of State for Transport how many people have died after being hit by a vehicle on a pedestrian crossing in each year since 1998. [26461]

Dr. Ladyman: The number of pedestrians killed on a pedestrian crossing after being involved in a personal injury road accident between 1998 and 2004 are shown in the table.

Pedestrian fatalities on pedestrian crossings[1]: 1998–2004

	Number of fatalities
1998	68
1999	72
2000	62
2001	63
2002	74
2003	78
2004	59

[1] Includes footbridges, subways and uncontrolled central refuges.

Port Capacity

Mr. George Howarth: To ask the Secretary of State for Transport whether port capacity in England and Wales is being exceeded [26546]

Dr. Ladyman: Not at present. Locally, from time to time and for particular kinds of traffic, demand might exceed existing port capacity. In the short to medium-term the port sector will adjust contracts and prices to balance supply with demand. In the longer term, current and proposed investments in new facilities—for example, new dry bulk quays at Immingham and new container cranes at Tilbury—are an indication of the commodity sectors where the ports industry expects demand to grow in excess of current capacity.

Consultants working for the Department, MDS Transmodal, are currently developing demand forecasts to support the forthcoming ports policy review.

Public Sector Relocation

Dr. Cable: To ask the Secretary of State for Transport how many people in his Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of the Lyons review of public sector relocation; to which places they have been relocated; and if he will make a statement. [24332]

Ms Buck *[holding answer 3 November 2005]:* The Department and its agencies are implementing the Lyons Review recommendations to relocate 60+ posts out of London and the South East by 2010.

During 2004–05, the Department relocated 12 posts from London to Hastings and 25 posts from London to Derby. The work of a further 10 posts was dispersed from London to VOSA staff located outside the South East, making a 2004–05 total of 47 posts. No relocations under the Lyons Review are currently planned for 2005–06, but further relocations are planned for future years.

Public Transport

Andrew Rosindell: To ask the Secretary of State for Transport what steps the Government is taking to ensure people have access to effective public transport, with particular reference to rural communities. [25903]

Ms Buck: We are working with the bus industry and local authorities to ensure that all communities have the effective bus services they need. The Bus Partnership Forum brings together senior representatives of the industry, central and local government to find practical ways of improving local bus services. The forum has, for example, published guidance on improving the punctuality of bus services and has encouraged bus operators and local authorities to form local punctuality improvement partnerships to help bring about improvements in performance.

Local and central Government provides funding of over £1.6 billion annually to support bus services. This includes £53 million this year provided by the Department in the form of Rural Bus Subsidy Grant to assist local authorities to support bus services in rural areas. Since 1998 we have also allocated a total of £110 million to 300 rural transport projects under the Rural Bus Challenge scheme.

On 1 November we announced "Kickstart" support, totalling £20 million, for 43 projects involving new and improved bus services which will become viable through growth in passenger numbers after an initial period of pump-priming from Government funds. 11 of these schemes will serve areas which are mainly rural in character.

Finally, we are expecting all local transport authorities to include accessibility strategies in their next Local Transport Plans, due in March next year. These strategies should be based on evidence and analysis of the problems people face in accessing jobs and essential services and facilities. They should include consideration of the accessibility and availability of local public transport. Our guidance to authorities makes clear that the strategies should take account of the particular needs of rural communities.

Colin Challen: To ask the Secretary of State for Transport what steps he is taking to improve public transport *(a)* in Leeds and *(b)* in West Yorkshire. [26171]

Ms Buck: This Government has invested in long term public transport improvements in Leeds and West Yorkshire as a whole. Funding provided to local authorities for local highways and public transport capital projects in West Yorkshire has increased by 46 per cent. in real terms over the last five years, from £34 million in 2000–01 to £54 million in 2005–06.

West Yorkshire has also benefited from significant investment in major bus schemes, with £39 million committed since 2001 to schemes that are realising major improvements in bus services. These include East Leeds Quality Bus Corridor, A641 Manchester Road, Bradford Quality Bus Scheme and West Yorkshire Education Transport (My Bus).

With regard to rail, 16 new four-coach Class 333 electric trains have been introduced on the Airedale and Wharfedale lines, which have seen a significant increase in patronage. This success story has helped rail patronage in West Yorkshire to rise from 16.3 million passengers in 1999–2000 to 21.1 million in 2004–05, an increase of 30 per cent. The new TransPennine franchise began in February 2004. It will deliver more than £250 million worth of investment, with a brand new fleet of 50 trains due to be introduced in 2006. Also benefiting Leeds and West Yorkshire is a 44 per cent. increase in East Coast main line services since 1996—currently 53 services per day, rising to 66 services per day in December 2007.

Railways

Mr. George Howarth: To ask the Secretary of State for Transport what progress has been made in the development of the rail accident investigation branch since its establishment; how many times its officials have met representatives of the light rail sector; and what protocols have been established with the light rail sector. [26529]

Derek Twigg: The rail accident investigation branch (RAIB) was established in 2003 and consultation took place with 165 organisations in drawing up the Railways (Accident Investigation and Reporting) Regulations 2005. These regulations, which in addition to the Railway Transport and Safety Act 2003, give the RAIB its powers and duties came into force on 17 October 2005.

The RAIB has worked closely with the rail industry, including the light rail sector, during its development.

No protocols have been established for light rail as this has not been seen to be necessary by either the RAIB or the light rail sector. It is industry's responsibility to ensure their operational procedures are revised to reflect the changes necessary to comply with the rail accident investigation and reporting regulations and to reflect RAIB's work. However RAIB has had discussions with the light rail sector to facilitate this and has issued guidance. The light rail sector has indicated this has provided all the information necessary.

Mr. George Howarth: To ask the Secretary of State for Transport how many times officials from the Rail Accident and Investigation Branch have met representatives of *(a)* the police and *(b)* the Health and Safety Executive. [26531]

Derek Twigg: Since the Rail Accident Investigation Branch (RAIB) was formed in 2003, officials from the RAIB have had frequent meetings with both the police and the Health and Safety Executive (HSE).

Tom Brake: To ask the Secretary of State for Transport what the *(a)* passengers in excess capacity and *(b)* total number of passengers was (i) for each London commuting service train operator and (ii) in total, broken down into (A) am peak and (B) pm peak figures measured in the most recent survey; and how many peak passengers into London there were for (1) am peak periods, (2) pm peak periods and (3) in total for each London commuting service train operator in that period. [24439]

Derek Twigg: The figures requested are in the following table:

Passenger counts : Services to and from London Terminals

	2004								
TOCs	*AM peak number of trains*	*Number of passengers*	*PIXC*	*PIXC (%)*	*PM peak number of trains*	*Number of passengers*	*PIXC*	*PIXC (%)*	*Overall*
Chiltern	36	9,518	157	1.6	34	8,451	0	0.0	0.9
Southern	140	75,228	5,833	7.8	134	58,174	1,040	1.8	5.2
SET	175	117,661	2,830	2.4	169	92,578	383	0.4	1.5
One	137	74,842	1,690	2.3	136	69,263	1,629	2.4	2.3
LTS/c2c	46	27,175	610	2.2	43	22,649	249	1.1	1.7
Silverlink	84	22,828	1,080	4.7	58	20,724	265	1.3	3.1
South West Trains	133	82,139	5,607	6.8	138	62,815	710	1.1	4.4
FGWL	41	10,874	275	2.5	39	9,627	147	1.5	2.1

Total	898	471,829	19,270	4.1	860	389,079	5,758	1.5	2.9

Note:
Capacity measured at the point on the journey where the highest number of passengers is carried.

Road Accidents/Safety

Mr. Ruffley: To ask the Secretary of State for Transport how many *(a)* road traffic accidents and *(b)* road fatalities there have been on the A14 in Suffolk in each of the last 10 years. [25181]

Dr. Ladyman: The number of personal injury road accidents and the number of resultant fatalities on the A14 in the county of Suffolk for the years 1995 to 2004 are shown in the table.

Year of accident	*Personal injury accidents*	*Fatalities*
1995	91	7
1996	101	5
1997	128	7
1998	123	2
1999	122	8
2000	138	8
2001	138	10
2002	157	5
2003	128	3
2004	143	5

The Department for Transport does not collect statistics on damage-only accidents.

Mrs. James: To ask the Secretary of State for Transport what assessment he has made of the road safety implications of variable or rolling advertising billboards at road junctions; and if he will make a statement. [25002]

Dr. Ladyman: The Department has not undertaken such an assessment. Local planning authorities are responsible for the control of outdoor advertisements. They are required by the Town and Country Planning Act 1990 to consider public safety before giving consent to display an advertisement. Advice to them is to consider the effect of the advertisement on the safe use and operation of any form of traffic when considering an application for consent to display any advertising billboards at road junctions.

Mrs. Dunwoody: To ask the Secretary of State for Transport how many road safety violations by *(a)* domestic and *(b)* non-domestic heavy goods vehicles in England and Wales were recorded by the British Transport Police in England and Wales in (i) 2002, (ii) 2003 and (iii) 2004; and if he will make a statement. [25135]

Derek Twigg: The numbers of crimes recorded in England and Wales by the British Transport Police (BTP) for the offence of failing to obey road traffic signs are shown as follows:

	Number of crimes
2002	1,866
2003	2,414
2004	1,863

The separate figures for *(a)* domestic and *(b)* non-domestic heavy goods vehicles can be provided only at disproportionate cost.

Mike Penning: To ask the Secretary of State for Transport if he will make it his policy to record the nationality of all drivers involved in road traffic accidents in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire. [25743]

Dr. Ladyman: I refer the hon. Member to my answer of 3 November 2005, *Official Report*, column 1289W.

Road Schemes

Gregory Barker: To ask the Secretary of State for Transport what representations he has received opposing the Bexhill to Hastings link road; and if he will make a statement. [25237]

Dr. Ladyman: I refer the hon. Member to my answer of 11 July 2005, *Official Report*, column 668W. Since then there have been around 10 further written representations, all of which have been against the scheme.

Seat Belts

Mr. Amess: To ask the Secretary of State for Transport how many *(a)* males and *(b)* females travelling in coaches were (i) killed, (ii) seriously injured and (iii) injured in road accidents in each of the last five years for which figures are available; and of these how many were wearing a seat belt. [25736]

Dr. Ladyman: The following table gives number of fatal, seriously injured and injured bus and coach users that were seated by gender .for 2000–04. Figures for coach users cannot be identified separately. Bus and coach casualties in the table are not necessarily those from vehicles used for public service. Routine statistics on accidents do not include information on seat belt usage.

Casualties: bus and coach users: 2000–04

	Fatal (seated)	*Seriously injured (seated)*	*Slightly injured (seated)*	*All seated casualties*	*All bus/coach casualties*
Male					
2000	5	60	1,527	1,592	3,486
2001	0	55	1,605	1,660	3,543
2002	4	53	1,391	1,448	3,179
2003	0	43	1,365	1,408	3,140
2004	5	50	1,450	1,505	3,144
Female					
2000	2	173	3,722	3,897	6,571
2001	1	142	3,575	3,718	6,328
2002	4	152	3,222	3,378	5,797
2003	0	129	3,447	3,576	5,908
2004	2	129	3,153	3,284	5,663
Total[1]					
2000	7	233	5,262	5,502	10,088
2001	1	197	5,188	5,386	9,884
2002	8	207	4,635	4,850	9,005
2003	0	172	4,826	4,998	9,068
2004	7	179	4,607	4,793	8,820

[1] Includes cases where gender was not reported.

Mr. Amess: To ask the Secretary of State for Transport what estimate he has made of the current seat belt wearing rate in coaches by *(a)* males and *(b)* females; and what the estimated rates were in each of the last two years for which figures are available. [25737]

Dr. Ladyman: Information is not collected to make such estimates. Roadside observers undertake regular surveys for the Department of the seat belt wearing of drivers and passengers in cars and goods vehicles but cannot collect such information in respect of passengers in buses or coaches.

Andrew Rosindell: To ask the Secretary of State for Transport whether the Government plans to introduce the use of seat belts on buses. [26452]

Dr. Ladyman: I refer to the answer the hon. Member to the answer given to the hon. Member for Southend West (Mr. Amess) today (UIN 25735) about seat belt wearing in coaches. There are no plans to require seat belts to be installed in vehicles that are not presently required to have them fitted.

Andrew Rosindell: To ask the Secretary of State for Transport what the penalty is if a driver is found not to be wearing a seat belt while driving. [26459]

Dr. Ladyman: If a driver accepts a fixed penalty notice, the fine is £30. If convicted in court, the maximum fine is £500.

Transport Security and Contingencies Directorate

Tom Brake: To ask the Secretary of State for Transport what financial support the Transport Security Directorate has offered to International Maritime Organisation regional missions in each of the past three years. [24196]

Dr. Ladyman: The Transport Security and Contingencies Directorate has won support from the Foreign and Commonwealth Office Global Opportunities Fund (Counter Terrorism) funds in respect of:

Financial year	*Purpose*	*Sum (£)*
2005–06	IMO sub-regional seminar held in the Yemen	27,000
	Will be provided for a further six IMO projects	102,000
2004–05	Contribution to the International Maritime Security Trust Fund	180,000
	IMO security training courses in Africa	26,000
2003–04	n/a	None

Transport for London

Mrs. Lait: To ask the Secretary of State for Transport if he will seek to amend the relevant legislation to strengthen the requirements for consultation by Transport for London. [26024]

Ms Buck: We have no plans at present to amend the legislation.

Transport Investment (Eastern Region)

Mr. Spring: To ask the Secretary of State for Transport pursuant to the Answer of 26 October 2005, *Official Report*, column 384W, on what date a committee was appointed to advise on priorities for investment in transport for the Eastern region; and who the members of the committee are. [24984]

Dr. Ladyman: No committee has been specifically appointed to advise on priorities for investment in transport in the East of England. The advice will be

delivered through the East of England Regional Assembly following consideration by the Regional Planning Panel of that body. Details of the membership of the Regional Planning Panel can be obtained from the Regional Assembly's website.

Transport Projects

Mr. Kemp: To ask the Secretary of State for Transport what transport projects his Department is planning for *(a)* Houghton and Washington East constituency, *(b)* the Wearside area and *(c)* the North East Region. [25512]

Ms Buck: The Secretary of State for Transport plans and funds through his Department and its agencies a variety of capital and revenue projects. He also funds projects which are planned by others, particularly local authorities, through the Local Transport Plan (LTP) process and Revenue Support Grant allocations.

The LTP system provides capital funding to local authorities to cover expenditure on major schemes (those costing more than £5 million) and minor improvement works and maintenance by way of block allocations.

In terms of the block allocations, the guideline figures for the five years from 2006–07 are in the order of:

(a) The Houghton and Washington East Constituency

£25 million[1] for Sunderland city council. It is not possible to provide this information for the constituency.

(b) The Wearside area

As above.

(c) The North East Region

£410 million[1].

[1] Exact figures are confirmed annually and relate to the assessments of progress in delivering the LTPs.

In terms of Local Authority and Highways Agency capital transport infrastructure improvement projects costing more than £5 million, it should be noted that, in July 2005, regions were provided with indicative annual capital allocations to 2015–16 for transport (excluding rail funding) in order that they could prioritise schemes and provide advice to the Secretary of State in January 2006. Highways Agency trunk road projects in the North East included in this process are all bar those on the A1 in the region to its junction with the A19 from the south.

There are a number of major schemes in the region which have recently been completed or are currently under construction:

A167 Chilian Bypass, Durham

South Stockton Link Road

Stephenson Link, North Tyneside

Scotswood Road Dualling, Newcastle

Eldon Square Bus Station

Sunderland Southern radial Route

Durham Park and Ride

There are currently two major schemes in the region which are planned to commence construction in early 2006:

A66 Long Newton Junction Improvement, Stockton

Pegswood Bypass, Northumberland

In addition, the Department is involved with its regional partners in the planning or funding of the following major projects. Progress and timing for these schemes will be subject to regional advice, the future availability of finance and individual projects representing value for money:

(a) The Houghton and Washington East Constituency

Sunderland Central Route.

(b) The Wearside area

As above.

(c) The North East Region

North Middlesbrough Accessibility Improvement Scheme

Darlington Eastern Transport Corridor

Wheatley Hill to Bowburn, Durham

Northern Gateway, North Tyneside

A1 Adderstone to Belford Dualling, Northumberland

A1 Morpeth to Felton Dualling, Northumberland

A19 Seaton Burn Junction Improvement, North Tyneside

A19 Testos Junction Improvement, South Tyneside

A69 Haydon Bridge Bypass

A1 West Mains to Bridge Mill Dualling, Northumberland

A1 Gateshead/Newcastle Western Bypass Widening

A19 Moor Farm Junction Improvement, Northumberland

A19 Coast Road Junction Improvement, North Tyneside

A66 Bowes Bypass Dualling, Durham

A66 Cross Lanes to Greta Bridge Dualling, Durham

In addition to the above, there are further schemes which are identified in the draft Regional Spatial Strategy recently submitted to Ministers and which are emerging through Local Transport Plans and the on-going development of the trunk road and rail networks, which will be considered in due course but which have no degree of funding commitment at this stage.

Transport Security Directorate

Tom Brake: To ask the Secretary of State for Transport how many *(a)* full-time and *(b)* part-time staff are assigned to the Transport Security Directorate. [24198]

Dr. Ladyman: The Transport Security and Contingencies Directorate (TRANSEC) currently comprises 200 posts. As at 1 November 2005 TRANSEC had eight staff working on a part-time basis (less than normal full-time hours).

Vehicle Licensing

Annette Brooke: To ask the Secretary of State for Transport what procedures are in place for local authorities to be able to cross-check details with *(a)* the Driver and Vehicle Licensing Agency and *(b)* the police when neither the recipient of a penalty notice, nor their vehicle, has been in the vicinity of the relevant local authority area. [24854]

Dr. Ladyman: Regulations provide for the release of vehicle keeper details to the police and to local authorities for purposes connected with the investigation of an offence or decriminalised parking contravention. Local authorities can apply without

charge for the keeper at the date of event in writing or by completing a DVLA form. A number of local authorities have access to the DVLA data electronically either directly or through service providers. The police can also apply on a case-by-case basis and receive daily up-dates from DVLA for the Police National Computer.

The recipient of the penalty notice would be required to satisfy the local authority by providing evidence that he or she was not responsible for the offence. This would be a matter for the local authority concerned. It would always be open to the local authority to contact the police on a case by case basis if it was established that there were two vehicles carrying the same registration mark. In these circumstances the recipient of the penalty notice should also notify the police and DVLA of the issue.

Violence against Transport Personnel

Anne Milton: To ask the Secretary of State for Transport pursuant to the Answer to the hon. Member for Hertsmere of 28 June 2005, *Official Report*, columns 1421–2W, on violence against transport personnel, how many bus drivers and conductors were the victims of offences of violence while on duty in Surrey in each of the last 10 years. [25692]

Ms Buck: The following table shows the number of incidents, of work-related violence to bus drivers which caused a physical injury (defined as absence from work lasting more than over three days) reported to the Health and Safety Executive (HSE) and local authorities under the Reporting of Injuries, Dangerous Diseases and Occurrences Regulations (RIDDOR) 1995.

No fatal injuries to bus drivers, or fatal and non-fatal injuries to bus conductors, were reported to HSE in Surrey during the period.

	Local authority[1]		
Severity of injury	*Guildford*	*Mole Valley*	*Reigate and Banstead*
1996–97			
Non-fatal major injury	1	—	—

[1] Other local authorities in Surrey reported no incidents.

TRADE AND INDUSTRY

Age Discrimination

Kelvin Hopkins: To ask the Secretary of State for Trade and Industry what steps he is taking to ensure there is no discrimination in the provision of goods and services on the grounds of age. [26141]

Mr. Sutcliffe: The Government are currently considering the case for outlawing discrimination in the provision of goods and services on the grounds of age as part of its Discrimination Law Review, which was announced earlier this year. The Review's findings will inform the Single Equality Bill, which it intends to introduce during the lifetime of the Parliament, in line with manifesto commitments.

Alternative Energy Provision

Mr. Drew: To ask the Secretary of State for Trade and Industry what research and development funding has been made available by his Department to *(a)* wind energy, *(b)* tidal stream, *(c)* tidal lagoon, *(d)* biomass, *(e)* wave power, *(f)* photovoltaics, *(g)* solar and *(h)* solar hot water systems in each of the last five years for which figures are available. [22896]

Malcolm Wicks: Funding made available for research and development by the Department into renewable technologies is not pre-allocated on a technology type basis. The primary mechanism for applying for research and development funding is through the technology call process whereby each application is treated on its individual merits along with the others that have responded to that particular technology call.

In addition the Research Councils have supported further research relating to energy in the work of the Tyndall Centre for Climate Change Research, which has some £10 million funding from Research Councils over 2000–05, and in the work of the UK Energy Research Centre, which commenced operation in 2004, with a budget of £13 million for 2004–09.

The DTI spend on research and development for new and renewable technologies can be found in the following table.

DTI new and renewable energy programme—external spend for each technology area by financial year from 1999–2000

Rounded to nearest £000

	Spend					
Programme area	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Solar	1,278,000	1,264,000	1,522,000	4,485,000	3,131,000	1,970,340
Tidal	0	27,000	305,000	1,996,000	2,914,000	1,268,530
Wave	11,000	331,000	662,000	748,000	2,104,000	—
Wind	801,000	913,000	1,248,000	1,428,000	1,395,000	1,459,600

Notes:
1. From 2000–01, figures do not include spend on contracts placed direct by DTI
2. For 2004–05, the figure for tidal is a combined spend for the wave and tidal.

Research Council spend

Research area	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Wind	178,000	261,000	330,000	490,000	482,000	256,000
Wave and tidal	175,000	301,000	606,000	617,000	830,000	1,050,000
Biomass	736,000	601,000	701,000	783,000	1,043,000	1,186,000
Biofuel	0	22,000	52,000	144,000	135,000	92,000
Photovoltaic	2,760,000	2,992,000	3,536,000	2,770,000	2,381,000	2,762,000
Solar	1,076,000	1,134,000	1,130,000	1,157,000	1,453,000	1,753,000

BREEAM98

Mr. Alan Reid: To ask the Secretary of State for Trade and Industry what percentage of *(a)* new building work and *(b)* refurbishment of buildings of (i) his Department and (ii) agencies of his Department has been subject to environment assessment using BREEAM and BREEAM98 since May 1997. [21510]

Alan Johnson: Since May 1997, my Department has not carried out any new building work. Any refurbishments works carried out in this period have not involved changes to building structures and services for which a BREEAM assessment would be appropriate.

In 1996 a BREEAM assessment was undertaken as part of the major refurbishment of 1 Victoria Street when it achieved a very good rating.

Letter from Ron Marchant to Mr. Alan Reid, dated 9 November 2005:

I am responding to this parliamentary question, tabled on 20 October 2005. No refurbishment or new building work undertaken at the Patent Office since May 1997 has been subject to environmental assessment using BREEAM andBREEAM98.

Letter from Iain MacGregor to Mr. Alan Reid, dated 9 November 2005:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question regarding what percentage of *(a)* new building work, and *(b)* refurbishment of buildings of DTI agencies has been subject to environment assessment using BREEAM and BREEAM98 since May 1997.

NWML rents the building at Teddington from DTI. The answer already given to you by DTI Headquarters will have covered any building works completed here at NWML.

Letter from Jeanne Spinks to Mr. Alan Reid, dated 9 November 2005:

You asked the Secretary of State for Trade and Industry, what percentage of *(a)* new building work and *(b)* refurbishment of buildings of (i) his Department and (ii) agencies of his Department has been subject to environment assessment using BREEAM and BREEAM98 since May 1997.

Since May 1997 this Agency has not carried out any new building work. Any refurbishment works carried out in this period have not involved changes to building structures and services for which a BREEAM assessment would be appropriate.

Letter from Desmond Flynn to Mr. Alan Reid, dated 9 November 2005:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (1344/2005) asking about our use of BREEAM and BREEAM98 assessments of our new building work and refurbishments since 1997.

We have undertaken no new building work since 1997. Our refurbishment work in the period has only been concerned with redecoration and partitions removals and has therefore has not been considered appropriate for BREEAM assessment.

Letter from Claire Clancy to Mr. Alan Reid, dated 9 November 2005:

I am responding to your recently tabled Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

Companies House has not carried out any new building work or refurbishment of buildings using BREEAM or BREEAM98.

British Summer Time

Mr. Kidney: To ask the Secretary of State for Trade and Industry if Her Majesty's Government will accept the recommendation of the Royal Society for the Prevention of Accidents for a three year pilot of single/double summer time to establish whether lighter evenings all year round will reduce road casualties. [26480]

Mr. Sutcliffe: The last experiment with lighter evenings between 1968 and 1971 proved to be unpopular and was abandoned following a vote in Parliament. The Government have no plans to introduce another pilot of single/double summertime.

Mr. Kidney: To ask the Secretary of State for Trade and Industry what research he has *(a)* commissioned and *(b)* evaluated on the effects on accidents at work of turning back the clocks each October. [26481]

Mr. Sutcliffe: I am not aware of any recent specific research on the effects on accidents at work of turning back the clocks each October.

Carbon Dioxide Emissions

Stephen Williams: To ask the Secretary of State for Trade and Industry what recent estimate the Government have made of the carbon dioxide emissions produced by the building, maintenance and decommissioning of a tidal power station over *(a)* 10, *(b)* 20 and *(c)* 50 years; and if he will make a statement. [25667]

Malcolm Wicks: The carbon dioxide emissions produced by the building, maintenance and decommissioning of a tidal power station will vary on a case-by-case basis.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Trade and Industry whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23735]

Malcolm Wicks: DTI HQ estate engaged with the Carbon Trust framework on Carbon Management in 2004 at which time the Carbon Trust undertook a survey of the estate to:

(a) promote energy saving efficiency awareness with DTI building occupants, and,

(b) to conduct a survey of DTI HQ buildings and plant to identify where, with investment, energy efficiencies could be made.

As a result of this the Department has reviewed the findings and has developed proposals for the estate infrastructure to improve energy efficiency.

The Department will be including the Carbon Trust carbon management 'five stage' approach within its estate strategy to meet its commitment to achieving the energy targets and Part L of the building regulations .

Clear Skies Programme

Colin Challen: To ask the Secretary of State for Trade and Industry how many community projects receiving funding under his Department's Clear Skies programme. [27207]

Malcolm Wicks: 333 Community projects are receiving grant support under the Clear Skies Programme.

Colin Challen: To ask the Secretary of State for Trade and Industry what plans he has for ensuring continuity of support for school and other community projects under his Department's Clear Skies programme. [27208]

Malcolm Wicks: A new low carbon buildings programme will continue to offer grant support to school and community projects once the current Clear Skies Programme comes to an end. The new programme will begin in April 2006, subject to EU State Aids approval. My Department is also looking to work in partnership with major private sector players in the energy field in order to expand the micro generation sector, with a particular emphasis on renewable energy technologies on schools.

Colin Challen: To ask the Secretary of State for Trade and Industry what funding will be available for school *(a)* hot water, *(b)* wind, *(c)* biomass and *(d)* ground-source heat pump projects after the final deadline for applications to his Department's Clear Skies programme. [27209]

Malcolm Wicks: Further funding for schools will be available through a low carbon buildings programme, which will allow developers to chose the most appropriate technology for each project, including all those mentioned above. The new programme will begin in April 2006, subject to EU State Aids approval. The Department is also looking to work in partnership with major private sector players in the energy field in order to expand the micro generation sector, with a particular emphasis on renewable energy technologies on schools.

Departmental Policies

Mrs. Hodgson: To ask the Secretary of State for Trade and Industry if he will set out, with statistical evidence relating as closely as possible to Gateshead, East and

Washington, West constituency, the effects in Gateshead, East and Washington, West of changes to his Department's policies since 1997. [22281]

Alun Michael: The Department of Trade and Industry (DTI) has, since 1997, introduced a range of policies which:

Foster science and innovation,

Champion business in Government, Europe and across the world,

Raise UK productivity and promote high performance workplaces,

Build flexible labour markets,

Ensure that citizens' and employees rights are protected,

Increase consumer choice by opening up markets to fair competition,

Ensure that all our regions and nations contribute fully to the UK's economic performance,

Deliver, and plan for the future delivery of, secure and sustainable energy.

Since 1997 the Department has applied policies which have resulted in there being some 300,000 more businesses than in 1997. We have made life easier for business by cutting corporation tax, simplifying VAT registration and setting the highest VAT threshold in Europe. We have simplified company law and introduced reforms removing the preferential creditor status of the Crown, freeing up £70 million more each year for business. The Company Law Reform Bill will generate deregulatory benefits of some £250 million a year (including £100 million for small companies), and we are pursuing a £1 billion deregulatory target over the lifetime of our five year programme.

In 2001 we undertook a review of our direct business support measures and subsequently introduced a range of streamlined and simplified products, which include grants and loans for capital investment and research and development, knowledge transfer, and support for the implementation of best practice. The annual business support measures budget is some £400 million, and many of the DTI services have been delivered through strong and effective regional development agencies since their creation in 1999.

Recognising the importance of manufacturing to the UK economy, the DTI launched its Manufacturing Strategy in 2002. The strategy sets out the actions needed to create a high value, high skill manufacturing sector capable of introducing new products and processes into our economy, creating new markets, and delivering a huge boost to our prosperity. The Manufacturing Advisory Service, which provides expert advice to manufacturers, has to date generated over £155 million of added value for UK firms.

The DTI is working to significantly strengthen the links between higher education and industry, and will continue to build on the UK's outstanding science base. Between 1997 and 2007, the science budget will have more than doubled, rising to £[illegible] billion.

The Department seeks to work closely with all our stakeholders. We have introduced independent members to the DTI board enabling us to function better with input from business people, trade unionists, academics and others.

Although the policies and initiatives mentioned above have benefited individuals, businesses and communities in every part of the United Kingdom, it is not possible to quantify precisely all of the benefits accruing directly to individual constituencies.

Energy Shortages/Supplies

Gregory Barker: To ask the Secretary of State for Trade and Industry what contingency plans he has in place to respond to possible energy shortages in *(a)* industry and *(b)* domestic homes this winter; and what forecast he has for energy usage in the next 20 years. [26129]

Malcolm Wicks: National Grid's Winter Outlook report shows that under normal weather conditions there are sufficient gas supplies and electricity generation to meet demand.

Under much worse than normal winter weather, or if unexpected major problems are experienced on the supply side, it may be necessary for large industrial users to restrain demand for gas. Much of this can be done through the electricity generating industry switching to coal or other fuels. In a competitive market such as that in the UK we would expect this to take place on a commercial basis in response to price signals indicating tightness in the gas market.

Ministers are liaising with both Ofgem and National Grid to ensure that all possible measures are taken to anticipate problems with power supply in the highly unlikely event of the market being unable to balance supply and demand in this way.

Under all credible scenarios, however, the market will be able to deliver energy supplies to domestic consumers.

Projections of future energy usage up to 2020 can be found in annex 4 of: http://www.dti.gov.uk/energy/sepn/uep_addendum.pdf

Andrew Rosindell: To ask the Secretary of State for Trade and Industry what discussions he has had with EU partners on the security of energy supplies. [24352]

Malcolm Wicks: My right hon. Friend the Secretary of State and I have had extensive discussions with EU partners, including member states, the European Commission and European Parliament, on a range of energy issues, including security of energy supplies.

Adam Afriyie: To ask the Secretary of State for Trade and Industry what recent discussions he has had *(a)* with Ministerial colleagues and *(b)* others about the security of the UK's energy supply. [24170]

Malcolm Wicks: I refer the hon. Member to the answer my right hon. Friend, the Secretary of State gave on 3 November 2005, *Official Report*, column 949.

Gas Suppliers

John Hemming: To ask the Secretary of State for Trade and Industry what contingency plans the Department has to ensure the continued supply of gas in the event of a domestic gas supplier ceasing to trade. [23917]

Malcolm Wicks: Since the implementation of the Utilities Act 2000 licensing schemes and standard licence conditions in October 2001, Ofgem has had the power to appoint a Supplier of Last Resort (SoLR) for all customers, domestic and non-domestic, in both the gas and electricity markets. This power is essential to ensure that all of a failed supplier's customers have continuity of supply.

Under the current licence conditions Ofgem can require any licensed gas supplier to become a SoLR and take the responsibility for supplying gas to customers of another supplier whose licence has been revoked. For customers whose annual consumption is reasonably expected to be less than 73,200 kWh the authority can direct a supplier to be a SoLR. For customers whose annual consumption is reasonably expected to be between 73,200 kWh and 2,196,000 kWh the authority can only direct a supplier to be a SoLR with that supplier's consent. There is no provision for appointing a SoLR (by consent or otherwise) for customers whose annual consumption is reasonably expected to be more than 2,196,000 kWh.

Once appointed, a SoLR will initially be supplying the customer on a deemed contract. This deemed contract will cover the period from appointment until customers have agreed a replacement contract with the SoLR or another supplier of their choice. There are licence obligations to ensure that the prices charged under a deemed contract are not excessive. A SoLR's deemed contract must also allow for its termination when the customer chooses to take a supply from another supplier.

Fuel Poverty

Norman Lamb: To ask the Secretary of State for Trade and Industry how many people he estimates were living in fuel poverty in each of the last five years; what estimate he has made of the numbers in 2005–06; and if he will make a statement. [26205]

Malcolm Wicks: Figures for the number of households in fuel poverty in England are produced from analysis of the English House Condition Survey. From 2003, the survey is being carried out on a continuous rolling basis. Prior to 2001, however, this survey was conducted on a five-yearly basis. Hence, the number of households in fuel poverty is not available for all of the last five years. The figures for 2001 and 2003 are available, with an estimate being available for 2002. These statistics are detailed in the following table:

Million

	Total number of households in fuel poverty	*Total number of vulnerable households in fuel poverty*
2001	1.7	1.4
2002 (estimate)	1.4	1.2
2003	1.2	1.0

Fuel poverty statistics for the United Kingdom are published in the UK Fuel Poverty Annual Progress Report.

Analysis of the overall effects of changes in fuel prices and incomes, excluding consideration of energy efficiency improvements, suggests that the total number of vulnerable households in fuel poverty is likely to rise by between 200,000 and 800,000 households in England between 2003 and 2006. This is based on a range of price and income assumptions published by the DTI in July 2005.

Internet

Mark Lazarowicz: To ask the Secretary of State for Trade and Industry what his policy is on the governing and administration of the internet. [25631]

Alun Michael: DTI is actively engaged with key players in the provision of internet services in the UK. Our approach to the administration of the internet has been to rely on self-regulation informed by a continuing dialogue on public policy issues—such as spam and child pornography—where Government and business can and do effectively work in partnership prevent or end abuse. The take-up and innovative use of broadband in the UK compares favourably with other leading industrial countries and reinforces the value of this approach.

The international aspects of governing and administering the internet is a key issue currently under discussion for the World Summit on the Information Society, due to take place in Tunis from 16–18 November

The EU position, which I shall present on behalf of the UK as presidency of the Council of the European Union, is defined by the Council conclusions of 27 June. We recognise that the United States Government carry out their key role fairly and effectively, but that a number of countries would want a more multilateral involvement in what they see as key internet infrastructure. We recognise the need to show the international accountability of the system. This is why the EU is advocating a new cooperation model, building on existing structures to assure all countries that the system continues to be managed in an open, transparent and accountable manner.

Mine Reserves Services Ltd.

Paddy Tipping: To ask the Secretary of State for Trade and Industry what recent discussions he has had with the local authority about further financial support to Mines Reserve Services Ltd., in its role as a provider of the statutory Mines Reserve Scheme, for *(a)* 2006–07 and *(b)* 2007–08. [25482]

Malcolm Wicks: The Coal Authority has provided £5 million of support to Mines Rescue Services Ltd. over the last two years using unexpected gains from the sale of property assets inherited from British Coal. It appears unlikely at this stage, however, that further gains will emerge to enable such funding this year or in the future.

Powergen

Norman Lamb: To ask the Secretary of State for Trade and Industry if he will make a statement on recent mistakes made by Powergen in billing customers; and what discussions he plans to have with the company to consider the implications of the billing problems. [26026]

Malcolm Wicks *[holding answer 8 November 2005]:* I understand that Powergen's recent errors in billing some of its customers arose from its introduction of a single billing system across its operations. The migration of former customers of TXU Energi, which has now been completed, was the cause of particular difficulties affecting customers in Eastern England. Energywatch, which is responsible for investigating complaints against gas and electricity suppliers, is currently exploring with Powergen both any further action required to address billing errors and the company's proposals for dealing with customers who have been distressed or inconvenienced by those errors.

Smart Meters

Norman Baker: To ask the Secretary of State for Trade and Industry pursuant to the Answer of 17 October 2005, *Official Report*, columns 796–97W on smart meters, what is involved in the work being undertaken by officials from his Department, Ofgem and the Department for Environment, Food and Rural Affairs, on a market framework and cost/benefit analysis; and when he expects the group will report. [25934]

Malcolm Wicks: My officials, working closely with Ofgem and Defra, are currently assessing the market framework for metering in the UK. Ofgem are currently undertaking an analysis of the costs/benefits of different kinds of innovative metering options, focusing on what evidence there is to support possible benefits and looking at what lessons can be learned from international experience in markets such as Italy and California. Their analysis will be completed by the end of the year.

St. George's Day

Andrew Rosindell: To ask the Secretary of State for Trade and Industry if the Government will take steps to introduce an official national holiday on St. George's Day. [25938]

Mr. Sutcliffe: The present pattern of bank holidays in the United Kingdom is well established and accepted, and the Government have no plans to change the arrangements.

Working Time Directive

Mr. Hollobone: To ask the Secretary of State for Trade and Industry what assessment he has made of the effects on UK business of the EU's Working Time Directive; and if he will make a statement. [25438]

Mr. Sutcliffe: The Government published a Compliance Cost Assessment (CCA) of the predicted effect of the EU Working Time Directive on UK business with Explanatory Memorandum 13526/98 on 11 January 1999.

The Department has also commissioned and published five research reports on the effects of the Working Time Directive, in its Employment Relations Research Series. A summary of Departmental monitoring and evaluation of the Working Time Regulations can be found in "Employment relations monitoring and evaluation plan 2005" (No. 44, July 2005).

The European Parliament and Council of Ministers are currently debating proposals from the Commission to amend the Working Time Directive. The Government has published two initial Regulatory Impact Assessments (RIAs) of the predicted effect of the proposed Directive on UK business. The most recent was submitted on 12 July 2005, following Explanatory Memorandum 9554/05.

LEADER OF THE HOUSE

Petrol Allowance

Tom Brake: To ask the Leader of the House how many hon. Members claimed the petrol allowance in the last year for which figures are available; and how much each of the 10 highest claimers claimed: [24613]

Mr. Hoon: 591 Members claimed a total of £3.73 million in motor mileage allowance in the 2004–05 financial year. The amounts claimed by each of the top 10 highest claimers were as follows:

£22,845.01
£22,034.80
£17,876.48
£17,822.65
£17,581.58
£17,317.35
£16,185.36
£14,703.52
£14,247.12
£14,016.46

In 2004–05 the motor mileage allowance was paid as follows:

up to 20,000 miles per year at the rate of 57.7p per mile;
over 20,000 at 26.6p per mile.

For 2005–06 this rate has been reduced to a rate of 40p for the first 10,000 miles and 25p per mile thereafter.

SCOTLAND

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Scotland whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23723]

David Cairns: The Scotland Office subscribes to the environmental policies adopted by the Department for Constitutional Affairs. I refer the hon. Member to the reply given by my hon. Friend, the Parliamentary Under Secretary of State at the Department for Constitutional Affairs, on 7 November 2005, *Official Report*, column 162W.

IT Projects

Mr. Laws: To ask the Secretary of State for Scotland how many IT projects have been developed for his Department since 2001; and whether he has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23523]

David Cairns: The Scotland Office's IT systems and support are provided by the Scottish Executive. There have been only two IT projects specific to the Scotland Office since 2001, both of which centred on the redevelopment of websites. As both projects were relatively small, neither was subject to a Gateway review.

CABINET OFFICE

Better Regulation Taskforce

Mr. Hollobone: To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the Better Regulation Task Force's analysis of the extent of regulation faced by voluntary and community organisations. [26347]

Mr. Jim Murphy: The Better Regulation Task Force is an independent body, set up to advise Government on action to ensure that regulation and its enforcement comply with the five principles of good regulation.

My hon. Friend, the Parliamentary Under-Secretary of State at the Home Office (Paul Goggins), has agreed to act as sponsor Minister for this report and will prepare a formal reply from the Government within the specified 60 days.

The Government welcomes the report which contains a number of helpful recommendations on ways to improve the regulatory climate in which the voluntary and community sector operates.

Senior Civil Service

John Bercow: To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the representation in the senior civil service of *(a)* women, *(b)* people with disabilities and *(c)* ethnic minorities in 2004–05. [26679]

Mr. Jim Murphy: The civil service has already made good progress in increasing diversity at senior levels—meeting its targets to double the proportion of women in top management posts, from 12.7 per cent. in 1998 to 25.5 per cent. in 2005, and staff from minority ethnic backgrounds in the senior civil service (SCS), from 1.6 per cent. (1998) to 3.2 per cent. (2005). The civil service did not achieve the 2005 targets of 35 per cent. of women in the SCS and 3 per cent. for disabled staff in the SCS but still made significant progress, from 17.8 per cent. (1998) to 29.1 per cent. (2005) and from 1.5 per cent. (1998) to 2.3 per cent. (2005) respectively. Delivering A Diverse Civil Service—A 10-Point Plan, launched on 1 November 2005, commits to 10 key areas of change to lead broader change across the service in the way we manage and value equality and diversity at all levels, in all aspects of our business.

WALES

Departmental Consultation

Mr. Peter Ainsworth: To ask the Secretary of State for Wales if he will list formal consultations being sponsored by his Department; and what the *(a)* commencement date and *(b)* deadline for responses is in each case. [22579]

Mr. Hain: None at present.

Poultry Cull (Avian Influenza)

Mr. Roger Williams: To ask the Secretary of State for Wales what discussions he has had with the Welsh Assembly Government on the likely economic consequences of a large-scale cull of poultry in Wales following an avian influenza outbreak. [24504]

Mr. Hain: I have regular meetings with the Assembly's First Minister to discuss a variety of issues of which a possible outbreak of avian influenza in Wales is one.

The Assembly Government have worked closely with the poultry industry in Wales to develop its contingency plan. This plan will enable Wales to play its part in delivering a swift and seamless response to any 'bird flu' outbreak and ensure that the Assembly Government are taking the necessary measures to achieve this aim.

Government's present assessment is that the likelihood of further geographical spread across the world is high. This in turn increases the risk to the UK as it increases the opportunities for the introduction of the virus via migrating birds, trade in live birds and movement of people. Government are continuing to monitor developments closely and is also working with the poultry industry to minimise the risk of the disease entering the UK and address the impact on the industry if an outbreak does occur.

HOME DEPARTMENT

Asylum and Immigration

Mr. Mudie: To ask the Secretary of State for the Home Department what the average time was between the receipt of an appeal by his Department's appeal processing centre and the despatch of that appeal to the Asylum and Immigration Tribunal in the last period for which figures are available. [24873]

Andy Burnham: Since 4 April 2005 appeals have been lodged direct with the Asylum and Immigration Tribunal (AIT). They are then forwarded to the Appeals Processing Centre to prepare the appeal bundle.

Data are unavailable for appeals lodged prior to 4 April 2005 and could be obtained only at disproportionate cost by examination of individual case records.

For appeals lodged after 4 April 2005 the average processing times are as follows:

Asylum appeals: 4.3 days

In-country immigration appeals: 17.8 days.

Dr. Starkey: To ask the Secretary of State for the Home Department which regions of Somalia are deemed by his Department to be safe for returned failed asylum seekers. [18108]

Mr. McNulty: The safety or otherwise of a particular part of Somalia for a particular claimant will depend on the individual circumstances of that claimant. We do not make a generalised assessment of safety irrespective of the individual circumstances.

All Somali asylum and human rights applications are considered by the Home Office on their individual merits, in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Each application is considered against the background of the latest available information about the situation in the country of origin. These sources include intergovernmental organisations, governmental sources and human rights organisations. Full account is taken of the ability of the individual concerned to safely reside in other parts of Somalia. caseworkers have access to the Somalia Country report produced by the Immigration and Nationality Directorate's (IND) Country of Origin Information Service as well as the Somalia Operational Guidance Note which assesses the most common types of asylum claims received and the circumstances in which they are likely to prove well founded or unfounded. Both documents are published on the IND website.

The Government firmly believe that the right approach is to continue to carefully assess the protection needs of individuals on an individual basis. Returns are similarly taken forward on a case by case basis and we only enforce the return of an individual where we are satisfied that the person concerned will not be at risk and has been unsuccessful in any appeals against the decision in their particular case.

Lynne Jones: To ask the Secretary of State for the Home Department how many *(a)* pregnant women, *(b)* single mothers with young babies, *(c)* single adults with young children and *(d)* families are in receipt of National Asylum Support Service section 4 support. [20495]

Mr. McNulty: The information requested is not recorded centrally and could be obtained only by an examination of individual case records. Families with children represent only a small fraction of the total on section 4 support. Failed asylum seekers who have children in their household generally retain access to regular NASS support provided under section 95 of the Immigration and Asylum Act 1999 and have no need to seek section 4 support. Access to section 95 support is only usually lost if they fail to comply with removal directions or fail to take steps to leave the United Kingdom voluntarily and therefore fall to be considered under the provisions of section 9 of the Asylum and Immigration (Treatment of Claimants, etc) Act 2004.

Mr. Davey: To ask the Secretary of State for the Home Department what support is available for failed asylum seekers with mental health problems. [23876]

Mr. McNulty: The general position is that failed asylum seekers are no longer entitled to access free NHS healthcare. This does not prevent failed asylum seekers being sectioned under Mental Health legislation or receiving after-sectioning care. Failed asylum seekers who have been discharged from compulsory detention under the Mental Health Act 1983 are entitled to receive continuing residential support in the community. Failed asylum seekers with mental health problems, identified as in need of care and attention as a result of being destitute, may be supported by the local authority under the National Assistance Act 1948.

Colombia (Drug Traffickers)

Andrew Rosindell: To ask the Secretary of State for the Home Department what steps the Government are taking to stop drug traffickers from Colombia selling drugs in the UK. [22954]

Paul Goggins: UK law enforcement authorities work closely with their international colleagues in Colombia, and in other countries along the supply route, in order to reduce the amount of cocaine trafficked into the UK. From 1 April next year this task will become the responsibility of the newly formed Serious Organised Crime Agency.

In 2003–04 23 tonnes of cocaine which was destined for consumption in the UK was taken out of the supply chain and 175 organised crime groups responsible for supplying class A drugs to the UK were disrupted or dismantled.

Correspondence

Tony Baldry: To ask the Secretary of State for the Home Department when the Minister for Immigration will respond to the letter of 19 September from the hon. Member for Banbury regarding Miranda Alia, Ref No A1034158. [18135]

Mr. McNulty: My hon. Friend, the Under-Secretary of State for the Home Department, (Andy Burnham) wrote to the hon. Member on 12 October.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many investigating officers were appointed by the Criminal Cases Review Commission during the period from 31 March 2003 to 31 March 2004; and how many cases were investigated during this period. [21727]

Fiona Mactaggart: As at 31 March 2004 the Criminal Cases Review Commission had 47 case review managers (CRMs) in post. Two CRMs were appointed between 1 April 2003 and 31 March 2004 and there were five departures. During the period, 901 cases were completed and 885 new cases were received. The Commission also appointed five investigating officers under section 19 of the Criminal Appeal Act 1995 between 31 March 2003 and 31 March 2004 to investigate six cases. There was also one ongoing investigation in the same period which involved one investigating officer investigating three cases.

Diplomatic Immunity

Mike Penning: To ask the Secretary of State for the Home Department if he will list offences committed in the UK in 2004 by persons holding diplomatic immunity, broken down by nationality. [16702]

Mr. Straw: I have been asked to reply.

I shall issue a written statement within this parliamentary Session, which will contain a list of offences allegedly committed by persons holding diplomatic immunity in the UK in 2004. The list will not be broken down by nationality because disclosure of this information could damage our relations with the countries concerned and affect their willingness to cooperate with us in future when dealing with alleged offenders.

Forensic Science Service

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress towards the Forensic Science Service becoming a public-private partnership. [26677]

Andy Burnham: The Government's intention is that the Forensic Science Service will become a Government-owned company in December 2005. A public-private partnership remains an option for the future, and no irrevocable decision about the future status of the organisation will be taken before December 2006.

John Bercow: To ask the Secretary of State for the Home Department if he will make a statement on progress with the transformation of the Forensic Science Service from a trading fund to a wholly owned Government company. [26678]

Andy Burnham: The target date for vesting as a government-owned company remains December 2005.

Identity Cards

Mr. Wallace: To ask the Secretary of State for the Home Department what he expects the cost of the registration and issuing of a biometric passport and biometric identity card to be. [19169]

Mr. McNulty: The current best estimate for the unit cost of an adult passport/ID card package for UK citizens valid for 10 years is £93. The actual amount charged to a person will depend on future policy decisions on charging within the scope allowed by the Identity Cards Bill.

Illegal Immigrants

Mr. Hayes: To ask the Secretary of State for the Home Department what his most recent estimate is of the number of people living illegally in the United Kingdom *(a)* through overstaying visas, *(b)* as illegal immigrants and *(c)* as failed asylum seekers; and if he will make a statement. [22843]

Mr. McNulty: No government has ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately, and that remains the case.

Although it is impossible to determine accurately how many people are in the UK illegally the Home Office published a report which included an estimate of the size of the illegal migrant population in the UK in 2001. A copy of the RDS On-line report 29/05—"Sizing the unauthorised (illegal) migrant population in the United Kingdom in 2001" can be found at: http://www.homeoffice.gov.uk/rds/notes/june_summaries.html

It's Your Call Campaign

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) how many police forces have introduced an It's Your Call Campaign; and if he will make a statement; [21932]

(2) what assessment has been made of the It's Your Call Campaign; and if he will make a statement. [21934]

Hazel Blears: "It's Your Call" campaigns have been introduced in 47 areas around the country. It has been for the individual area to decide on how the It's the Call service should be implemented and which of the services might take the lead for responding to the initial call. This initiative is part of the commitment made by Action Areas to raise levels of action and to make services more accessible to the public. The campaign seeks to encourage the community to play their part in reporting antisocial behaviour and for feedback to be communicated on the actions taken.

An early evaluation of the campaign focused on callers from eight of the first 25 areas showed that the campaign had been a success. Four out of five callers (82 per cent.) would recommend it to a friend or neighbour and two thirds (66 per cent.) had their problem resolved after just one call. Nearly three in five (57 per cent.) said they were satisfied with this new service.

The 'It's Your Call Antisocial Behaviour Hotline Evaluation Survey' can be found by visiting the TOGETHER website at www.together.gov.uk.

Knife Crime

Mr. Hollobone: To ask the Secretary of State for the Home Department how many violent knife crimes were recorded in each year since 1997 in *(a)* Northamptonshire and *(b)* England; and how many led to convictions. [23696]

Hazel Blears: The information requested is not collected centrally. Violent crimes involving the use of a knife cannot be separately identified in the recorded crime statistics.

Police

Miss McIntosh: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Ogmore of 10 October 2005, *Official Report*, column 168W, on police force structures, what guidance he has given to chief officers and police authorities on the criteria they should adhere to in drawing up proposals for the restructuring of police forces. [18665]

Hazel Blears: The Home Secretary wrote to all Chief Officers and Chairs of Police Authorities on 22 September to set out his views on the development of options for force restructuring. The letter outlined the key design criteria which forces and authorities should consider when developing options for force restructuring. The criteria is outlined in the table.

To complement these criteria and to support the development of proposals for change, a toolkit and guidance to help forces with evaluating options for change has been sent to all forces and authorities.

The Home Secretary's letter, the criteria and the toolkit and guidance are available on the Home Office website.

Criteria	*Description*
Size	To what extent do the proposals for restructuring create units of sufficient size (the HMIC report gave an indicative figure of a minimum of 4,000 officers, 6,000 total staff) to provide the necessary capacity and resilience in the provision of protective services to meet both current and future demands for such services?
Mix of capability	Mix of capability—and reduction in risks- to what extent do the prospective partnerships bring together forces with complementary strengths in addressing volume crime and the provision of protective services? To what extent will they enable performance in relation to both to be improved?
Criminal markets	To what extent do the proposals take cognisance of the underlying criminal markets and patterns of cross-boarder criminality in the areas concerned?
Geography	To what extent do the proposals recognise and take account of particular challenges posed by the geography of the proposed force area and the transport links and worrying patterns within it?
Co-terminosity	To what extent do the proposals respect established political and partners boundaries or, alternatively, support the case for the realignment of the boundaries of other partner agencies so that the benefits of co-terminosity can be preserved? The very strong starting presumption will be that any new force areas should not subdivide an existing force area between two or more new forces and that the new forces areas should not cross Government office regional boundaries (it follows that very compelling arguments would need to be submitted in support of any merger proposals which went contrary to these presumptions).
Identity	To what extent do the proposals build on strong historical or regional identities?
Clarity of command and control and accountability	To what extent are the proposed governance arrangements for any new entity clear and unambiguous.
Performance	To what extent do the proposals for restructuring minimise any risks to current performance during the transitional period and support further improvements in performance over the medium-term? (assessments under this heading should be made against the statutory performance indicators).
Costs and efficiency	To what extent will the proposals minimise the cost of change and maximise efficiency savings?

Daniel Kawczynski: To ask the Secretary of State for the Home Department why the grant to West Mercia police authority on a per head of population basis differs from the neighbouring police authority areas. [25337]

Hazel Blears: Government general funding for police authorities is based on the relative need of each police authority area for police services, calculated by the police funding formula. To identify the pressures satisfactorily, the formula uses a range of socio-economic indicators. Funding is not, and never has been, distributed on a simple per capita basis.

Seatbelts (Fixed Penalties)

Shona McIsaac: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued for *(a)* carrying a child under 14 years without a seatbelt (i) in the front and (ii) in the rear seat, *(b)* driving a car with an unrestrained child under 12 years and *(c)* failure to wear a seatbelt in the Humberside police area in each of the past five years. [24759]

Paul Goggins: Available information held centrally on police action taken for motoring seat belt offences, does not distinguish between the offence of driving/riding in a motor vehicle not wearing a seat belt and that of driving a motor vehicle with a child not wearing seat belt. Nor does it distinguish between individual circumstances that may have existed at the time each offence was committed.

Primates

Mr. Hancock: To ask the Secretary of State for the Home Department how many primates have been used for biomedical tests in the United Kingdom in each of the last five years. [10194]

Andy Burnham: The number of primates used in procedures for which the primary purpose was applied studies in human medicine or dentistry is given in Table 1a of the annual publication Statistics of Scientific Procedures on Living Animals, a copy of which is in the Library.

Only the number of procedures starting in a particular year is recorded against that particular year; the figures exclude procedures which started in a previous year and are ongoing.

A brief extract from this table, showing also total figures, is shown in the table.

Number

	Non-human primates which started regulated procedures under the Animals (Scientific Procedures) Act 1986	*Applied studies in human medicine or dentistry*
1999	3,191	2,740
2000	2,951	2,473
2001	3,342	2,511
2002	3,173	2,649
2003	3,073	2,191

Road Accidents

Shona McIsaac: To ask the Secretary of State for the Home Department how many people involved in road traffic accidents in the Humberside police area were *(a)* uninsured, *(b)* banned from driving and *(c)* had not passed a driving test in each of the past five years. [24761]

Paul Goggins: The information is not collected centrally by the Home Office.

Andrew Rosindell: To ask the Secretary of State for the Home Department what action the Government are taking to reduce the number of road accidents. [26450]

Dr. Ladyman: I have been asked to reply.

In March 2000, the Government launched the road safety strategy, "Tomorrow's roads—safer for everyone", establishing new long-term 10 year casualty reduction targets to be achieved by the end of 2010. These are:

a 40 per cent. reduction in the number of people killed or seriously injured (KSI)

a 50 per cent. reduction in the number of child (under 16) KSIs

a 10 per cent. reduction in the rate of slight casualties, expressed as the number of people slightly injured per 100 million vehicle kilometres

(compared with the average for 1994–98).

The Department for Transport has a road safety public service agreement (PSA) target to reduce the number of people killed or seriously injured and children killed or seriously injured as outlined above. In 2002 the PSA target was strengthened to include a commitment to

"tackling the higher incidence of casualties among disadvantaged communities".

The first review of the road safety strategy was published in April 2004 and concluded that good progress was being made. It highlighted issues of particular concern, such as the levelling out of road deaths and the potential under reporting of slight casualties. The Department for Transport has commissioned research to investigate both of these issues. The second review of the strategy will commence in spring 2006.

A comprehensive Road Safety Bill is currently progressing through the House of Lords, to give effect to several elements of the road safety strategy and support the casualty reduction targets.

There is continued good progress towards our targets. Full 2004 data (published 29 September 2005) show KSI casualties 28 per cent. down on the 1994–98 baseline, and child KSIs down 43 per cent. 2004 saw the biggest annual drop (8 per cent.) in both deaths and serious injuries since the road safety strategy was launched. Provisional data for Q2 2005 show a continuing decline in KSIs, down 33 per cent. on baseline.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many deaths of children aged seven to 16 years there were on 30 miles per hour limit roads in each year since 1997; and if he will make a statement. [26453]

Dr. Ladyman: I have been asked to reply.

The number of children aged seven to 16 years killed in personal injury road accidents between 1997 and 2004 on roads where the speed limit was 30 miles per hour are shown in the table.

	Number of fatalities
1997	111
1998	82
1999	89
2000	98
2001	110
2002	78
2003	81
2004	75

We remain committed to achieving our PSA targets of a 40 per cent. reduction in the overall number of people killed or seriously injured compared with the 1994–98 baseline by 2010; and our target of reducing the number of children aged 0–15 killed or seriously injured to 50 per cent. of the 1994–98 baseline by 2010. In 2004 all killed and seriously injured casualties were 28 per cent. below the baseline and such child casualties were 43 per cent. below the baseline.

Telecommunications Masts

Mr. Crabb: To ask the Secretary of State for the Home Department what assessment his Department has made of the suitability of the location of the Tetra mast in Haverfordwest; and if he will make a statement. [657]

Hazel Blears: None. The provision of the infrastructure needed by the airwave radio system is the responsibility of O_2 Airwave, the network provider. Radio masts are subject to ODPM planning regulations.

Vehicle Excise Duty Evasion

Mr. Evans: To ask the Secretary of State for the Home Department how many people were convicted of vehicle excise duty evasion in each of the last six years. [24629]

Paul Goggins: *[holding answer 3 November 2005]:* Available information taken from the Home Office Court Proceedings Database from 1998 to 2003 (latest available) is given in the following table. 2004 data will be available early in 2006.

Total findings of guilt at all courts for the vehicle offence of failing to pay appropriate duty[1] England and Wales, 1998–2003

	Number of offence England and Wales
1998	143,600
1999	126,657
2000	132,776
2001	129,183
2002	134,598
2003	176,581

[1] Offence under the Vehicle Excise and Registration Act 1994 s. 29 (1)—(3)

Note:

The statistics of court proceedings are based on returns made by the police to the Home Office's Data Collection Group. Although these include offences where there have been no police involvement such as those prosecutions instigated by Government Departments (in this case DVLA) and private organisations and individuals, the reporting of these types of offences is known to be incomplete. Moreover, it is thought that for some police force areas, the reporting of court proceedings, in particular those relating to motoring offences and to TV licence evasion may also be less than complete; the extent of under-reporting may vary from year to year and this could be responsible in part for the annual variations.

Vehicle Offences

Shona McIsaac: To ask the Secretary of State for the Home Department how many recorded theft and unauthorised taking of vehicle offences there were in the Humberside police area in each of the past five years. [24758]

Paul Goggins: The information requested is given in the following tables.

Table 1: Offences of theft or unauthorised taking of a motor vehicle recorded by the police in Humberside—2000–01 and 2001–02

	Number of offences
2000–01	6,033
2001–02	6,469

Note:

The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Offences of theft or unauthorised taking of a motor vehicle recorded by the police in Humberside—2002–03 to 2004–05

	Number of offences
2002–03	7,607
2003–04	7,619
2004–05	6,096

Note:

The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

WORK AND PENSIONS

Amicus v. The Government

Mr. Waterson: To ask the Secretary of State for Work and Pensions when he expects a decision by the European Court of Justice in the case being brought by Amicus against the Government. [25177]

Mr. Timms: It is difficult to predict with any certainty when judgment in this case may be given. However, from our experience of other cases, we would expect a decision in 2007. The timing is, of course, dependent on the court's handling of the case, and the timing of each case can vary.

Financial Assistance Scheme

Mike Penning: To ask the Secretary of State for Work and Pensions when he expects the Financial Assistance Scheme to become fully operational; and if he will make a statement. [24667]

Mr. Drew: To ask the Secretary of State for Work and Pensions when he expects payments to be made for those eligible for support under the Financial Assistance Scheme. [24697]

Mr. Timms: The Financial Assistance Scheme Operational Unit opened for business on 1 September. The Unit is currently receiving scheme information during the notification period which concludes on 28 February 2006. As my right hon. Friend the former Secretary of State for Work and Pensions, the Member for Sheffield, Brightside (Mr. Blunkett) said in a written answer to my hon. Friend the Member for Stroud (Mr. Drew) on 31 October 2005, *Official Report*, column 610, we hope to make the first payments before Christmas.

Hemel Hempstead

Mike Penning: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people in *(a)* Hemel Hempstead constituency, *(b)* Dacorum and *(c)* Lancashire who have lost their pensions due to firm insolvency since 1997. [25747]

Mr. Timms: I refer the hon. Member to the answer I gave on 26 October 2005, *Official Report*, column 461W to the hon. Member for Coventry, South (Mr. Cunningham).

Incapacity Benefit

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants of working age receive *(a)* income support with a disability premium, *(b)* incapacity benefit and *(c)* severe disablement allowance; and how many did so in May 1997. [22190]

Mr. Plaskitt: The information is in the table.

Numbers of working age claimants of incapacity benefit, severe disablement allowance, and income support with a disability premium, by benefit combination at dates shown

	May 1997	2005
Incapacity benefit only	1,730,800	1,614,500
Incapacity benefit and income support	550,300	867,200
Income support only	106,400	116,200
Severe disability allowance only	144,200	76,200
Severe disability allowance and income support	199,200	183,400

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.
2. 5 per cent. IB/SDA figures have been rated up to match 100 per cent. WPLS totals for working age IB/SDA.
3. "Income support" includes only those income support claims that include a disability premium.

Source:

DWP Information Directorate, combination of Work and Pensions Longitudinal Study (WPLS) and 5 per cent. data.

Jobcentre Contracts

Mr. Drew: To ask the Secretary of State for Work and Pensions if he will make a statement on the effect of the reduction in the number of referrals in Gloucestershire and Wiltshire on job centre contracts for re-training for those seeking work. [22493]

Margaret Hodge: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Mr. David Drew, dated 9 November 2005:

The Secretary of State has asked me to reply to your question concerning the effect of the reduction in the number of referrals in Gloucestershire and Wiltshire on Jobcentre contracts for re-training and those still seeking work. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The reduction in referrals reflects lower numbers of customers on Jobseeker's Allowance (down 11.3% since April 2001) and the increased focus on programmes for our most disadvantaged customers.

We have sought to improve the effectiveness of our contracting processes to ensure we deliver improved results. As a result contracts were only extended where performance was satisfactory and there was a clear business need or mandatory requirement for the provision. In the Gloucestershire, Wiltshire and Swindon district all but one contract was extended beyond April 2005. All New Deal customers who wish to access Jobcentre Plus funded training are able to do so.

I hope this is helpful.

Jobseeker's Allowance

Annette Brooke: To ask the Secretary of State for Work and Pensions what was the average time taken in England to process a claim for jobseeker's allowance in the last period for which figures are available; and what the target is. [23070]

Margaret Hodge *[holding answer 28 October 2005]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie to Annette Brooke, dated 9 November 2005:

The Secretary of State has asked me to reply to your question concerning the average time taken to process a claim to Jobseeker's Allowance (JSA). This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The latest available data is to the end of September 2005. This shows that on average, a claim to JSA takes 15.4 days to process in England against a target of 12 days.

The time taken to process a claim is calculated from the date of first contact with the customer; or the first day of the customer's unemployment, to the date when a decision or payment notification is issued to the customer. It also includes a period where the claim might be awaiting further supporting evidence form the customer.

Link-Age Pilots

Mr. Burstow: To ask the Secretary of State for Work and Pensions which of the Link-Age pilots offer information on care options. [22269]

Mr. Timms: The first phase of Link-Age has concentrated on increasing benefit take-up by older people, including pension credit, housing benefit, council tax benefit and attendance allowance. The second phase will include Link-Age Plus pilots, based on Sure Start principles. These pilots will provide a comprehensive information service which will include care options. The pilots will commence next year. In addition, the initial pilot of Individual Budgets for care will commence by the end of 2005, with further pilots beginning next year.

Pension Commission

Mike Penning: To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Pension Commission; and if he will make a statement. [24670]

Mr. Timms: Ministers have discussions from time to time with the Pensions Commissioners on issues within their remit.

The Commission is due to publish its final report on 30 November. This will provide an independent view of the long term pensions challenges posed by increasing longevity and an ageing society.

We will wish to analyse the evidence and consider any options and recommendations put forward by the Commission before making our response. We expect that response to set out proposals for reform and set an ambitious pace for any timetable for consultation and legislative change.

Pension Credit

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of pensioners *(a)* entitled to and *(b)* receiving pension credit; and if he will make a statement. [21956]

Sir Malcolm Rifkind: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of pensioners who are entitled to pension credit but who are not claiming it. [22926]

Mike Penning: To ask the Secretary of State for Work and Pensions if he will make a statement on the take-up of pension credit since it was introduced. [24665]

Mr. Timms: Information on numbers of households and individuals in receipt of pension credit at 30 June 2005 is contained in the most recent quarterly pension credit progress report published on 20 October. A copy of the report is available in the Library.

It is becoming clear that the number of people who are eligible for pension credit is less than the initial estimate. National statistics showing the number of pensioners entitled to pension credit in the first six months after its introduction and the subsequent take-up rate are expected to be available in December. The precise date of release of these statistics and the publication plans for the following set, covering 2004–05, will be pre-announced in "National Statistics Updates"; the diary of statistical releases.

Mike Penning: To ask the Secretary of State for Work and Pensions whether he expects pension credit to be up-rated in line with earnings after 2008; and if he will make a statement. [24666]

Mr. Timms: The Government have given an undertaking to increase the guarantee credit in line with earnings up to March 2008 ensuring that pensioners are sharing in the nation's rising prosperity. Ministers have not yet announced a policy on up-rating of pension credit after this date.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people received pension credit in *(a)* March and *(b)* June. [25176]

Mr. Timms: The information available is in the following table.

Pension credit recipients in Great Britain

	Individuals	*Households*
March 2005	3,288,600	2,704,800
June 2005	3,291,300	2,705,900

Notes:
1. Caseloads are rounded to the nearest hundred.
2. Pension credit (PC) replaced minimum income guarantee (MIG) on 6 October 2003. Existing MIG recipients were automatically converted onto pension credit on that date (assuming they still met the eligibility criteria).
3. Data from the generalised matching service (GMS) 100 per cent. scans taken on 18 March 2005 and 10 June 2005. All figures have been rated up to give month-end estimates.
4. These figures are early estimates. Operational processing times mean that a number of claim commencements and terminations are not reflected in the figures. The final figures incorporated within the Work and Pensions Longitudinal Study (WPLS) will take account of such cases.
5. Beneficiaries figures include a small number of partners under the age of 60.

Source:
Information Directorate 100 per cent. data

Pensions

Mr. Evans: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people in *(a)* Ribble Valley and *(b)* Lancashire who have lost their pensions due to firm insolvency since 1997. [24128]

Mr. Timms: I refer the hon. Member to my answer to the hon. Member for Coventry, South (Jim Cunningham) on 26 October 2005, *Official Report*, column 461W.

Nick Harvey: To ask the Secretary of State for Work and Pensions if he will re-open negotiations on reciprocal agreements with those countries where they are not already in place to provide for the annual up-rating in line with inflation of pensions paid to UK pensioners living in such countries. [24167]

Mr. Timms: The UK state pension is payable in all countries abroad to those who are entitled to it. It is up-rated in the normal way for UK pensioners living overseas where there is a legal requirement or a reciprocal social security agreement to do so. To bring everyone up to the current rate they would receive if they had remained in the UK, but not to pay arrears, would cost around £400 million in 2005–06.

The Government focus resources on helping the least well off pensioners in the UK. We have no plans to negotiate further agreements.

Shona McIsaac: To ask the Secretary of State for Work and Pensions how many people in each constituency in the Yorkshire and Humber region received a state pension in each of the past three years. [24752]

Mr. Timms: The number of State Pension recipients in each constituency within the Yorkshire and Humber Government Office Region as at 31 May for the years shown is in the table.

Thousand

	2003	*2004*	*2005*

DEFENCE

Afloat Craft

Mr. Ancram: To ask the Secretary of State for Defence what assessment he has made of the construction of the military afloat reach and sustainability craft overseas; and if he will make a statement. [23051]

Mr. Ingram: The military afloat reach and sustainability project has recently entered the assessment phase and it is therefore too early to say what the final designs and specifications for these vessels might be and where the work will be carried out. We will use the assessment phase to look into the potential options, taking into account best value for money and wider industrial factors, before any decisions are made at the main gate investment point.

Aircraft Carriers

Dr. Julian Lewis: To ask the Secretary of State for Defence whether the in-service dates for the two future aircraft carriers remain 2012 and 2015 respectively. [23738]

Mr. Ingram *[holding answer 3 November 2005]:* As for all projects, in-service dates (ISDs) are not set until the main investment decision. The time scale parameters for the Future Aircraft Carrier (CVF) will continue to be refined and will be confirmed following the project's main investment decision, which will be taken when we have a proper understanding of the risks, costs and contractual framework.

Angola

Mr. Robathan: To ask the Secretary of State for Defence what assessment he has made of the suitability of Angola for overseas military training. [24371]

Mr. Ingram: HQ Land has made a general appreciation of a number of African countries for overseas training, including Angola. A further detailed assessment is not required at present.

Armed Forces

Mr. Peter Robinson: To ask the Secretary of State for Defence how many *(a)* people from Northern Ireland and *(b)* citizens of the Republic of Ireland are serving in the UK armed forces. [25220]

Mr. Touhig: The number of 'British' and 'Republic of Ireland' nationals in the Armed Forces are shown as follows. Nationality figures are unavailable below United Kingdom level for the Naval Service and RAF. For Army personnel, figures for personnel declaring nationality of 'British/N. Ireland' are also shown. However, this only includes NI personnel who are recorded as such and excludes those that may be from NI, but recorded as 'British'.

Service	British	Of which recorded as British/N. Ireland	Republic of Ireland
Naval Service	39,010	—	60
Army[2]	100,860	2,005	210
Royal Air Force[3]	50,520	—	60

[1] Naval Service data are provided by AFPAA as data are not centrally held by DASA. Data are for personnel serving at 3 October 2005. Data are for UK Regular Forces (trained and untrained) including Nursing Services, FTRS and activated reservists.

[2] Army data are provided by DASA for personnel serving at 1 September 2005. Data are for UK Regular Forces (trained and untrained), including Nursing Services and excluding Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists.

[3] RAF data are provided by AFPAA as data are not centrally held by DASA. Data are for personnel serving as at 16 September 2005. Data are for UK Regular Forces (trained and untrained) including Nursing Services, FTRS and activated reservists.

Source:
DASA (Tri-Service)

Mrs. Humble: To ask the Secretary of State for Defence what number of army recruits successfully completed Phase II training in each of the past four years; and what percentage that represents of their cohort recruited at Phase I entry level. [26284]

Mr. Touhig: Records do not exist in the format requested due to the variety in the length, type and location of Phase II training to which members of the same Phase I cohort group may be assigned.

The following table covers the last four financial years and shows the numbers entering training and the numbers leaving training as trained soldiers. They do not necessarily relate to the same cohort group and therefore direct comparison of the two figures could be misleading.

Regular army soldiers

Financial year	Untrained intake	Outflow from untrained to trained strength
2001–02	13,510	8,870
2002–03	15,070	10,150
2003–04	13,820	10,390
2004–05	10,620	8,950

Notes:
1. UK Regular Forces includes nursing services but excludes full-time reserve service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised Reservists.
2. Figures include those that have just completed their training and are therefore transferring to the trained strength.
3. All figures have been rounded to the nearest 10.

Bowman

Ann Winterton: To ask the Secretary of State for Defence what the bandwidth is of Bowman at each of its levels of deployment. [25291]

Mr. Ingram: The bandwidth of the Bowman tactical communications and information system depends on the type of equipment deployed. The very high frequency radio works in the 30–87.975 MHz frequency band; its theoretical bandwidth is 16 kbps. The high frequency radio works in the 1.8–30 MHz frequency band; its maximum bandwidth is 9.6 kbps, and depends on the quality of the communications link. The high-capacity data radio works in the 225–400 MHz frequency band; its data bandwidth is up to 500 kbps, but it automatically adapts this to suit the quality of the communications link and the distances between radios. Voice and data communications within vehicles, and between vehicles grouped in headquarters, is provided by using standard 10/100 mbps Ethernet interfaces.

Buffalo Armoured Vehicle

Ann Winterton: To ask the Secretary of State for Defence whether his Department is evaluating the USA Buffalo armoured vehicle; and whether his Department plans to introduce this vehicle for work against roadside explosive devices. [25290]

Mr. Ingram: The Ministry of Defence has carried out a broad assessment of the Buffalo Mine Protected Clearance Vehicle but has no current plans to procure it for use by United Kingdom forces.

Civilian Staff (Redundancies)

Mr. Donaldson: To ask the Secretary of State for Defence how many civilian staff employed by his Department in Northern Ireland have been made redundant in each year since 1998. [25046]

Mr. Touhig *[holding answer 7 November 2005]:* The following table gives details of Ministry of Defence civilian redundancies, both voluntary and compulsory, for the financial years 1999–2000 to 2004–05. Comparable information for financial year 1998–99 is not available.

Civilian staff redundancy Northern Ireland: Financial years 1999–2000 to 2004–05

Financial year	*Headcount*
1999–2000	10
2000–01	20
2001–02	10
2002–03	—
2003–04	30
2004–05	10

'—'denotes 5 or less.

Notes:
1. This table uses the revised definition of civilian personnel (www.dasa.mod.uk) and includes trading funds.
2. No redundancy information is available for Royal Fleet Auxiliary or locally engaged civilian staff.
3. Due to the rounding methods used, figures are rounded to the nearest 10, numbers ending in 5 have been rounded to the nearest 20 to prevent systematic bias.

Complaints Mechanisms

Mrs. Humble: To ask the Secretary of State for Defence what his target is for completion of his review of monitoring of the formal and informal complaints mechanisms employed by the Army. [26293]

Mr. Touhig: The Redress of Complaints trial officially began in October 2004 and it is expected that the results will be reported to the Army Board in January 2006. Informal complaints mechanisms are not included in this trial and are not currently subject to specific review.

Defence Export Service Organisation

Jeremy Corbyn: To ask the Secretary of State for Defence what the total administrative cost was of the Defence Export Service Organisation in 2004–05; and what the projected equivalent figure is for 2005–06. [24590]

Mr. Ingram: Net operating costs for the Defence Export Services Organisation (DESO) for the last and current financial years are as follows:

Financial year	*Net operating costs (£ million)*
2004–05 Outturn	16.922
2005–06 Forecast	14.365

The costs of DESO are more than offset by benefits to the Defence budget arising from defence exports.

Jeremy Corbyn: To ask the Secretary of State for Defence how many members of staff of the Defence Export Services Organisation are seconded from industry; and what functions such staff perform. [24606]

Mr. Ingram: The Head of Defence Export Services was recruited by open competition from the defence industry, and is working on contract to the Ministry of Defence.

In addition, on 1 November one member of the Defence Export Services Organisation (DESO) was on secondment from a defence company, of which he remains an employee. The secondee performs duties as required in one of the DESO Regional Directorates.

Departmental Expenditure

Mr. Ancram: To ask the Secretary of State for Defence pursuant to note 20 of his Department's Annual Report and Accounts 2004–05, if he will list the capital commitments that have been contracted for but not yet provided. [24578]

Mr. Ingram: The capital commitments figure in Note 20 of the Departmental Resource Accounts represents the aggregate estimated value of contracts, across the Department, for work that has not yet been undertaken and, therefore, has not been provided for in the accounts. The following list, of all commitments over £100 million each, represents £18,571 million (90.8 per cent. of the total of £20,446 million quoted in Note 20).

	£000
Typhoon Production	5,171,069
A400M (heavy lift aircraft)	2,048,300
Support Vehicles	1,065,635
T45 Destroyer	1,044,179
Typhoon Development	1,042,728
Joint Combat Aircraft	900,000
Bowman (communications system)	774,323
Investment at AWE	724,657
Nimrod MRA4 (multi-role aircraft)	717,953
BVRAAM (air to air missile)	644,000
PAAMS (missile system)	605,686
Astute (submarine)	457,153
Stingray (torpedo)	288,654
Infantry Anti-Tank guided weapon	259,573
NLAW (light anti-armour weapon)	259,067
Swiftsure and Trafalgar (update) Final Phase (submarine)	251,771
HMS Victorious	232,803
Terrier (earth moving vehicle)	231,230
Sea Wolf Block 2	228,369
Brimstone (anti-armour weapon)	203,245
HVM Missiles	188,574
ASTOR (radar system)	177,847
Building to house laser system	159,500
Wheeled Tanker	154,449
Future Command and Liaison Vehicle	144,838
Sea Wolf midlife update	132,395
Trojan and Titan (armoured vehicles)	130,590
Precision Guided Bomb	124,467
Soothsayer (communications)	108,083
Single Living Accommodation	100,000

There are a further 302 smaller commitments, some as little as £1,000, details of which are not held centrally and could be provided only at disproportionate cost.

Employee Reductions

Dr. Cable: To ask the Secretary of State for Defence how many full-time equivalent employee reductions have been made in his Department as a result of the Gershon review; what cost savings relating to IT projects have been achieved; what value of efficiency savings *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06; and if he will make a statement. [24636]

Mr. Touhig [holding answer 7 November 2005]: In 2004–05 there was a reduction of 2,460 full-time equivalent military personnel and 1,230 full-time equivalent civilian personnel as a consequence of the Department's efficiency programme. The latter excludes operational locally employed civilians, whose numbers increased by 650.

Further progress on both manpower reductions and wider efficiency savings will be reported in the Department's autumn performance report. However, while the department has an efficiency target for 2007–08, there is no intermediate target for 2005–06.

The Defence Communications Services Agency delivered £84 million of IT/IS related efficiencies in 2004–05. Other savings in the departmental efficiency programme will also have been enabled by IT, but information is not held on the amounts involved.

Equality and Diversity Centre (Shrivenham)

Mrs. Humble: To ask the Secretary of State for Defence if he will list the courses organised since October 2004 at the Joint Equality and Diversity Centre at Shrivenham; and what the attendance was on each course. [26294]

Mr. Touhig: Between 1 November 2004 and 4 November 2005 Joint Equality and Diversity Training Centre delivered 36 x five-day Equal Opportunities Advisers Courses to 843 middle-ranking personnel from the three Armed Services and the Ministry of Defence Civil Service. In addition, 149 Senior Civil Servants and Military Officers at Brigadier (and equivalent) level and above attended one of 11 one-day Equality and Diversity Seminars held at Shrivenham.

Fraud Investigations

Mrs. Humble: To ask the Secretary of State for Defence at how many *(a)* barracks and *(b)* other army sites personnel have been (i) investigated and (ii) suspended in relation to investigations into fraud by the Special Investigations Branch in the last 12 months. [21526]

Mr. Ingram: In the last 12 months to 31 October 2005 the Royal Military Police Special Investigation Branch has carried out a total of 238 investigations into alleged offences which involve some element of fraud. The geographical breakdown of the investigations could be provided only at disproportionate cost. Information about the suspension of soldiers is not held centrally and could be provided only at disproportionate cost. No officers have been suspended in the period.

FRES

Mr. Kevan Jones: To ask the Secretary of State for Defence what the likely in-service date is of the FRES; and what the cost of the system has been to date. [24853]

Mr. Ingram: The in-service date will not be formally endorsed until the main investment decision, but our current planning assumption is that the early variants of FRES will be introduced into service early in the next decade, with a phased approach to achieving full operational capability thereafter.

FRES is currently in its initial assessment phase; the total expenditure to date is approximately £25 million.

Mr. Kevan Jones: To ask the Secretary of State for Defence if he will make a statement on the Future Rapid Effect System. [24880]

Mr. Ingram: The Future Rapid Effect System is in the initial assessment phase. The broad aims of this phase are to further define the FRES capability and develop a series of affordable options for meeting the requirement; to develop optimum procurement and support strategies for future phases and to manage technology and supplier risk to acceptable levels.

Hemel Hempstead (Funding)

Mike Penning: To ask the Secretary of State for Defence how much funding was allocated by his Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in each of the last eight years. [25732]

Mr. Touhig: The Ministry of Defence's funding for capital projects in 2005–06 is £795,000. There were no capital projects during the years 1998–99 to 2004–05. Revenue costs for the eight years are estimated to be in the range of £75,000 to £100,000 per annum.

More precise figures are not available centrally and could be provided only at disproportionate cost.

Illegal Drugs (RN Seizures)

Mr. Hollobone: To ask the Secretary of State for Defence what quantity of illegal drugs has been seized by the Royal Navy in each of the last five years, broken down by *(a)* type of drug and *(b)* location of seizure. [24783]

Mr. Ingram *[holding answer 7 November 2005]:* Detailed historical information concerning quantities and types of drugs seized in the Caribbean by Royal Navy units is temporarily unavailable due to hurricane damage at the Joint Inter Agency Task Force South (JIATFS) in Key West, Florida. Available details on major seizures are outlined as follows.

	Royal Navy unit	*Location*	*Amount*	*Drug*
July 2001	HMS Coventry	Caribbean	(£80 million)	Cocaine
July 2002	HMS Newcastle	Caribbean	(£1.5 million)	Marijuana
	HMS Newcastle	Caribbean	(£42 million)	Cocaine
September 2002	HMS Grafton	Caribbean	(£1 million)	Marijuana
October 2002	HMS Grafton	Caribbean	(£65 million)	Cocaine
May 2003	HMS Cumberland	SW Approaches	3.5 tonnes	Cocaine
June 2003	HMS Iron Duke	Caribbean	3.7 tonnes	Cocaine
Caribbean seizures since March 2005:				
May 2005	RFA Wave Knight	Eastern Caribbean	163 kg	Cocaine
	HMS Liverpool	Near St. Lucia (E Caribbean)	170 kg	Marijuana
June 2005	HMS Liverpool	Near Barbados (E Caribbean)	68 kg	Marijuana
October 2005	HMS Cumberland	Western Caribbean	1.9 tonnes	Cocaine

I will write to the hon. Member as soon as possible with the full details.

Mr. Hollobone: To ask the Secretary of State for Defence to what extent the Royal Navy co-ordinates its work on seizing illegal drugs with other navies. [24784]

Mr. Ingram *[holding answer 7 November 2005]:* HM Revenue and Customs are the lead United Kingdom agency for counter-drug operations. Co-operation with other navies and other nations customs services is co-ordinated through HMR and C.

Iraq

Mr. Ancram: To ask the Secretary of State for Defence what is the role and function of the Multi-National Security Transition Command-Iraq; and if he will make a statement. [23015]

John Reid: Multi-National Security Transition Command-Iraq is a US military organisation based in Baghdad that oversees security sector reform across Iraq. It comprises three main components: the Coalition Military Assistance Training Team (CMATT), which helps recruit, train, and equip the Iraqi Armed Forces (IAF) and provides ongoing mentoring; the Joint Headquarters Advisory Support Team (JHAST), which assists the Joint Headquarters of the IAF; and the Civilian Police Assistance Training Team (CPATT), which organises, trains, equips and mentors the Iraqi Civilian Police Forces, border enforcement forces and monitors, advises and certifies the Facilities Protection Service Forces. Its mission is to assist the Iraqi Government in the development, organisation, training, equipping, and sustainment of Iraqi Security Forces.

Mr. Ancram: To ask the Secretary of State for Defence what the average absent without leave rate is among NATO-trained Iraqi forces; and if he will make a statement. [23149]

John Reid: There are no NATO-trained Iraqi forces.

Mr. Ancram: To ask the Secretary of State for Defence (1) how many requests for provision of armoured Land Rovers from commanders on the ground in Multi National Division (South East) in Iraq have been received by his Department in the last year for which figures are available; and if he will make a statement; [23313]

(2) how many armoured Land Rovers have been donated to Iraqi security forces by the UK Government since January 2004; and if he will make a statement. [23314]

Mr. Ingram: Requests for the provision of military vehicles are submitted through the chain of command. There are no records of requests for any uplift in establishment figures, but 13 requests have been received for the replacement of armoured Land Rovers damaged or destroyed in Multi National Division (South East) over the past year.

As at 31 October 2005, the Iraqi Police Service in MND(SE) had taken receipt of 59 refurbished Land Rovers donated under the auspices of Project OSIRIS, the security sector reform project which aims to re-equip the Iraqi security forces with the vehicles, infrastructure and equipment they require to undertake security themselves. These Land Rovers are of a type not operated by UK forces. The Iraqi Army and Department for Border Enforcement are not receiving Land Rovers, but they are receiving other vehicles.

Landing Ships Dock (Auxiliary) Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence what estimate he has made of the likely value of the contract awarded to Swan Hunter to convert the final ship in the Landing Ships Dock (Auxiliary) programme into a hospital ship. [24820]

Mr. Ingram: The Ministry of Defence has not placed any contract with Swan Hunter to convert a Landing Ship Dock (Auxiliary) into a hospital ship.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether his Department has paid compensation to BAE Systems in settlement of claims made by BAE Systems from Swan Hunter for delays in the delivery of design information as part of the Landing Ships Dock (Auxiliary) programme. [24828]

Mr. Ingram: No claims have been made by BAE Systems against Swan Hunter. The Ministry of Defence has made payments to BAE Systems for delay and dislocation costs associated with the Landing Ship Dock (Auxiliary) project. This is as a result of the delays to their build programme as a consequence of the late delivery of design information and equipment.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he plans to transfer design authority for the Landing Ships Dock (Auxiliary) vessels from Swan Hunter to BAE Systems following his decision to award lead ship status to the BAE-built vessel, Mounts Bay. [24832]

Mr. Ingram: Swan Hunter remains the design authority for the LSD(A) vessels.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether he plans to award a through-life support contract for the Landing Ships Dock (Auxiliary) vessels to Swan Hunter. [24833]

Mr. Ingram: The future support strategy for Landing Ships Dock (Auxiliary) vessels is under consideration. We are currently engaging with industry to develop proposals for contracting on a through-life support basis, but the process is in its early stages.

Married Quarters

Mr. Ancram: To ask the Secretary of State for Defence what assessment he has made of the impact the Defence Estate's rationalisation programme will have on the married quarters estate in terms of *(a)* disposals and *(b)* a requirement for new stock. [23322]

Mr. Touhig: The Ministry of Defence's rationalisation programme is coordinated by the Defence Estates agency whose responsibilities include the management of the Service Families Accommodation stock. Numbers of personnel and location will determine the timing and location of disposals, new build and acquisitions.

Nuclear Deterrent

Sir Menzies Campbell: To ask the Secretary of State for Defence pursaunt to the answer of 20 October 2005, *Official Report*, column 1217W, on Trident, whether he expects to take the decision on the replacement of Trident within the next six months; and if he will make a statement. [22249]

John Reid: I have nothing to add to the answer I gave on 3 November 2005, *Official Report*, column 1262–63W, to the hon. Member for New Forest, East (Dr. Lewis).

Dr. Julian Lewis: To ask the Secretary of State for Defence what percentage of the defence budget has been spent on the nuclear deterrent in each year since 1997; and if he will make a statement. [24570]

Mr. Ingram *[holding answer 7 November 2005]:* The annual proportion of the defence budget spent on capital and running costs of the United Kingdom independent nuclear deterrent in each year since 1997 has ranged between 2 and 4 per cent.

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of the practicability of air-launched Cruise missiles as an alternative to a submarine-launched nuclear deterrent system. [25056]

John Reid: No decisions on any replacement for Trident have yet been taken. Initial preparatory work is being undertaken by officials on possible options for the future of the UK's nuclear deterrent beyond the current planned life of the Trident system. However, Ministers have not yet begun to consider the position on this issue in any detail. It is therefore premature to speculate on the merits of any particular option.

Dr. Julian Lewis: To ask the Secretary of State for Defence when he expects to discuss the future of the British nuclear deterrent with his United States counterpart. [25057]

John Reid: Discussions with my United States counterpart cover a wide range of issues. Nuclear deterrence is of course one element of our continuing dialogue.

Nuron Programme

Ann Winterton: To ask the Secretary of State for Defence whether his Department is in negotiation with the French Government in order to participate in the Nuron programme. [25292]

Mr. Ingram: No.

Reverse Auction

Mr. Hancock: To ask the Secretary of State for Defence what spending programmes he intends to complete by reverse auction in financial year 2006–07. [22712]

Mr. Ingram: Decisions on which spending programmes the Ministry of Defence will complete by reverse auction are not taken centrally and there is no central programme of reverse auctions for financial year 2006–07.

Mr. Hancock: To ask the Secretary of State for Defence what level of authorisation is required to complete a spending programme by reverse auction; by what criteria reverse auction is determined to be appropriate; whether any projects have been completed by reverse auction which did not meet these criteria; and if he will make a statement. [22713]

Mr. Ingram: Reverse auctions are considered as a routine competitive procurement process by the Ministry of Defence and internal departments, such as Integrated Project Teams, are encouraged to utilise them wherever they are appropriate. Authorisation to use a reverse auction is provided in accordance with the MOD's delegated investment approvals processes.

Reverse auctions are normally appropriate where there is an effective field of competition and a robust specification. The likely return on the investment of the cost of the auction is also taken into account. The use of, or type of, reverse auction employed may also be determined by the likely impact on long-term value for money.

No reverse auctions have been committed to where these criteria were known to be invalid. However, there have been a small number of cases where effective competition was later demonstrated not to be present; but in all these cases the projects have remained affordable and produced acceptable outcomes for the Department.

Royal Ordnance

Mr. Hoyle: To ask the Secretary of State for Defence what discussions his Department has had with Royal Ordnance on the closure of the Chorley site; and if he will place in the Library the minutes of the meetings held. [25372]

Mr. Ingram *[holding answer 7 November 2005]:* A number of meetings were held between BAES Land Systems and Ministry of Defence on their proposed closure of the Chorley site. The aim of these meetings was to ensure continued security of supply and value for money for the MOD. The documental records are of a commercial nature and as such their release would be contrary to the commercial interests of the MOD and BAES Land Systems.

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the implications of the proposed closure of the Chorley Royal Ordnance on security of supply. [25373]

Mr. Ingram *[holding answer 7 November 2005]:* I am aware that BAE Systems Land Systems have made an announcement regarding the closure of manufacturing operations at their Chorley site. We are confident in the BAE Systems Land Systems continuing ability to maintain security of supply in light of the closure of manufacturing operations at their Chorley site.

Mr. Hoyle: To ask the Secretary of State for Defence what is stored at Heapey Magazine facility owned by Royal Ordnance. [25374]

Mr. Ingram *[holding answer 7 November 2005]:* The Heapey magazine facility is part of BAE Systems Land Systems. Storage at the facility is a matter for the company.

Mr. Hoyle: To ask the Secretary of State for Defence what the security arrangements are for the Royal Ordnance Heapey storage facility in relation to *(a)* armed response, *(b)* CCTV and *(c)* movement of explosives. [25418]

Mr. Ingram *[holding answer 7 November 2005]:* The Heapey magazine facility is part of BAE Systems Land Systems. The security of the facility is a matter for the company.

Scottish Constituencies' Statistics

Stewart Hosie: To ask the Secretary of State for Defence whether it is his policy to provide statistics relating to Scottish constituencies in terms of *(a)* Westminster and *(b)* Scottish parliamentary boundaries. [15644]

Mr. Touhig: Statistics are provided on both Westminster and Scottish parliamentary boundaries wherever underlying data is available at a sufficiently detailed level.

Statistics are currently published at local authority level and can be found in Tri Service Publication 10, UK Regular Forces Distribution Across the UK, published quarterly. This publication is available in the House of Commons Library and on http://www.dasa.mod.uk/

Spectrum Review

Derek Wyatt: To ask the Secretary of State for Defence what contribution the Department has made to the Cave Review of Public Sector Spectrum Holdings; what assessment he has made of the potential for *(a)* increasing efficiency in the Department's use of the radio spectrum and *(b)* sharing spectrum with other organisations; and if he will make a statement. [24823]

Mr. Ingram: The Ministry of Defence has been fully engaged in the Independent Audit of Major Public Sector Spectrum Holdings led by Professor Martin Cave.

The MOD is striving to achieve greater effectiveness and efficiency in the use of the radio spectrum it manages. The potential for increasing the effectiveness and efficiency of the Department's use of the radio spectrum and the potential for MOD to share more of its spectrum bands with other organisations is continuously reviewed.

Tomahawk Missile

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the Royal Navy vessels which *(a)* are fitted and *(b)* are scheduled to be fitted with Tomahawk cruise missiles. [26027]

Mr. Ingram: *[holding answer 8 November 2005]:* HMS Spartan, HMS Trafalgar, HMS Turbulent, HMS Trenchant and HMS Triumph are capable of launching Tomahawk Land Attack Missiles (TLAM).

HMS Sceptre, HMS Tireless, HMS Talent, HMS Torbay and the submarines of the Astute class are also programmed to receive the capability.

Type-23 Frigates

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 26 October 2005, *Official Report*, column 37W, on the D530 Mark 2 naval gun, what defence Type 23 frigates have against fast-attack craft until the gun is fitted; and if he will make a statement. [25172]

Mr. Ingram: As a defence against fast attack craft, Type 23 Frigates are currently equipped with two permanently mounted DS30B manually operated 30mm Gun Systems, an outfit of pedestal mounted General Purpose Machine Guns and, dependant on whether the ship is deployed to a high threat area, two M323 7.62mm Gatling Miniguns. These arrangements will be further enhanced by the fitting of the DS30M Mark 2 Automated Small Calibre Gun.

Typhoon Fighter Plane

Lynne Featherstone: To ask the Secretary of State for Defence what the total cost was of his trip in July to discuss the sale of BAE Systems' Typhoon fighter planes to the Saudi Arabian defence forces; and if he will make a statement. [25286]

John Reid: I visited the Kingdom of Saudi Arabia shortly after my appointment as Defence Secretary to discuss a wide range of bilateral and multilateral defence and security issues, including Counter-Terrorism and Developments in the Middle East. En route I met with and was briefed by Commander British Forces (Cyprus). The total cost of this visit (including the operational visit to Cyprus) is estimated to have been around £45,000.

Urban Warfare Training

Mr. Ancram: To ask the Secretary of State for Defence (1) how much time was spent on urban warfare training for infantry units in *(a)* 2003 and *(b)* the last 12 months; [23315]

(2) how many infantry battalions have received urban warfare training in the last 12 months. [23316]

Mr. Ingram: I can confirm that elements of 38 of the 40 Army Infantry battalions have received urban warfare training since October 2004. Two battalions did not undertake such training owing to operational commitments but will do so in the forthcoming months.

A certain amount of urban warfare training is organised on an individual unit basis by each of the Infantry battalions and records are not held centrally. Details of the time spent on such training during *(a)* 2003 and *(b)* the last 12 months could, therefore, be provided only at a disproportionate cost.

CULTURE, MEDIA AND SPORT

Athletics

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to encourage children in *(a)* Romford and *(b)* Greater London to participate in athletics; and what funds have been allocated for such purposes. [25888]

Mr. Caborn: The Government's National School Sport Strategy aims to increase participation in physical education and sport in schools, which includes athletics. The national strategy is being delivered through the national network of school sport partnerships. The overall aim is that by 2006, 75 per cent. of pupils in partnerships spend a minimum of least two hours each week on high quality PE and sport.

Schools in the constituency of Romford are linked to three school sport partnerships. These are Coopers Company and Coborn school sport partnership, Davenant Foundation school sport partnership, and Emerson Park school sport partnership.

Coopers Company and Coborn school sport partnership has to date received a total of £853,627, with a further £618,280 pending. Davenant Foundation school sport partnership has to date received a total of £446,156, with a further £89,518 pending. Emerson Park school sport partnership has to date received £324,403, with a further £413,250 pending.

Essex county sports partnership has a target to make 11 links between school partnerships in their area and athletics clubs, and has been provided £18,000 to support the development of these links.

Information from the latest national survey of school sport partnerships shows that 91 per cent. of all schools provided athletics during the 2004–05 academic year. 33 per cent. of schools had links with athletics clubs.

Information for Greater London is not held in the format requested.

The results of the survey were published in September and copies have been placed in the Libraries of both Houses.

Departmental Policies

Mr. Kemp: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Houghton and Washington, East constituency, the effects on Houghton and Washington, East of her Department's policies and actions since 2 May 1997. [25515]

Mr. Lammy: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Houghton and Washington, East since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A further £519 million was announced by the Prime Minister for the strategy in December 2004. In addition, the Government have provided funding for 3,000 Community Sports Coaches to be in place across England and Wales by the end of 2006. As a result of this investment the following initiatives have been implemented in Houghton and Washington, East.

There are two School Sports Partnerships in Houghton and Washington, East—Biddick and Houghton Kepier. The 2004–05 school sport survey showed that 78 per cent. of pupils in Biddick and 76 per cent. of pupils from Houghton Kepier received two hours of high quality PE and out of hours school sport during the academic year. In addition, 14 per cent. of pupils from Biddick and 7 per cent. from Houghton Kepier have been actively involved in sports volunteering in the same period and 27 per cent. from

Houghton Kepier and 17 per cent. from Biddick have participated in community sports activities through school club links.

Through the Community Sports Coach scheme a full time health and fitness coach will start at the beginning of December to deliver after school sessions to partnerships with Sunderland (including Biddick and Houghton Kepier) and five part time multi skill coaches are currently being recruited to start in the new year to assist with the development of basic Moves clubs and academies. Biddick partnership currently has access to three part time Community Sports Coaches and Houghton partnership to one.

The Government's investment in the Biddick School Sport Partnership has resulted in the partnership piloting the multi skill club programme (a multi skill club was implemented in every primary school). The success of this pilot has enabled multi skill clubs to be rolled out across the country and the aim is to provide 1,600 clubs by 2008. Multi skill clubs provide children with the opportunity to develop basic physical skills in order to lead to sporting success.

To achieve our challenging targets for increased participation in sport and physical activity, we have invested in over 4,000 new and refurbished public sports facilities. Sports facilities in the Gateshead and Sunderland area have benefited from 42 awards from Sport England and the Big Lottery Fund to the total of £19.7 million.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2005–06 funding to Arts Council England, North East increased from £5.7 million to £14.4 million. In 2005–06 the total Arts Council England investment in the North East, including grant in aid and lottery expenditure, will be £17.7 million. Houghton and Washington, East has benefited from grants to arts projects, organisations and individuals in the area, ranging from the BALTIC Centre for Contemporary Art to the Gatehead NHS Trust which received £30,000 for public art commissions for the new NHS treatment centre in Gateshead.

Houghton and Washington, East is part of the Durham and Sunderland Creative Partnership area, which was set up in phase 1 of the programme in 2002. Creative Partnerships aims to give school children and their teachers the opportunity to explore their creativity by working on sustained projects with creative organisations and individuals, including artists, theatre companies, dance studios, museums, orchestras, film-makers and historic buildings. Funding of £65 million was allocated for the period 2002–05 to develop Creative Partnerships, and the programme will receive at least a further £86 million in 2005–08.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Houghton and Washington, East will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

In 2002 the Department, working through the Museums, Libraries and Archives Council, began investing in regional museums for the first time with the Renaissance funding programme. Since 2003, the North East Regional Museums Hub, led by Tyne and Wear Museums, working in partnership with the North East Museums, Libraries and Archives Council (NEMLAC) has invested £4.7 million in museums in the North East. As a result, 88 per cent. of schools in Gateshead LEA, and 68 per cent. in Sunderland LEA have participated in museum based learning at Tyne and Wear Museums. And since April 2005, museum hub outreach officers in Gateshead and Sunderland have worked with 2,073 people.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Houghton and Washington, East with at least one person aged 75 or over claiming the winter fuel payment in 2004–05 was 4,490.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Act 2005 will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licences and local authorities will be able to decide not to issue licences for casino premises. These changes will give local communities, including those in Houghton and Washington, East, a greater say in the regulation of gambling in their area.

Tourism in Houghton and Washington, East has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new

domestic marketing remit for England, and we gave strategic responsibility for tourism development to the regional development agencies, including One North East. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Houghton and Washington, East.

In common with all those in the United Kingdom, the public library branches in Houghton are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

Information from the national lottery distributors indicates that since 2 May 1997 Houghton and Washington, East has benefited from over 230 awards totalling over £9.8 million. Of these, 27 awards worth over £5.2 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Hemel Hempstead (Revenue)

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how much funding was allocated by her Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in each of the last eight years. [25738]

Mr. Lammy: Apart from the National Museums and Galleries, The Department for Culture, Media and Sport does not allocate funding directly to any of our sectors. Instead money allocated to us by Parliament is channelled through our various non-departmental public bodies who are responsible for deciding how and where it is spent. For instance Arts Council England, East has allocated £184,339 to the Old Town Hall in Hemel Hempstead over the last eight years. Similarly between 1995 and 1999 English Heritage allocated £92,108 to the constituency and a proportion of its £170,618 in strategic grants to Hertfordshire would also have benefited the town. According to the Department's Lottery Award database (using information supplied by the Lottery distributors) a total of just over £8 million in lottery has been awarded to Hemel Hempstead since 1997.

Library Lending

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how many *(a)* videos, *(b)* DVDs and *(c)* CDs were lent by public libraries in (i) Dacorum and (ii) Hertfordshire in each year since 1997. [25819]

Mr. Lammy: This information is not held centrally. However, the table shows the number of loans of sound recordings (encompassing music and talking books) and Videos and DVDs for Hertfordshire for the period 1997–98 to 2003–04. This information is drawn from the Public Library Statistics, published by the Chartered Institute of Public Finance and Accountancy. These are collected at library authority level and do not contain comparable details for the Dacorum borough area.

£

	Sound recordings	*Videos/DVDs*
1997–98	922,117	436,906
1998–99	688,364	393,930
1999–2000	655,303	387,661
2000–01	633,440	427,593
2001–02	604,923	346,789
2002–03	459,593	364,796
2003–04	452,102	324,899

Olympic Games

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport what *(a)* public and *(b)* Lottery funding allocations are planned for young athletes preparing for the 2012 Olympics for each year between 2006–07 and 2010–11. [25909]

Mr. Caborn: UK Sport's World Class Performance Programme (WCPP) will provide £22.5 million of lottery money for high performance athletes from 2005 to 2009, in the run up to the Beijing Olympic and Paralympic games. The annual figure of £5.625 million may rise to £6.952 million in April 2006 following a comprehensive review of its athlete personal awards scheme.

Over the same period, UK Sport intends to provide £75.3 million (£32.3 million exchequer and £43 million lottery money) to the National Governing Bodies for Olympic and Paralympic sports as part of their one stop plans, which will directly benefit athletes.

UK Sport will review its funding for each sport at the end of this four year cycle, after the Beijing games. Government have not yet determined the level of funding for the London games cycle (2008–12).

UK Sport will take responsibility from Sport England for the performance pathway in April 2006. Currently, individual sports decide how much to allocate to athletes with the greatest potential through the whole sport plan process. UK Sport will make a decision about how much to allocate to sports for this part of the pathway early next year.

In addition, UK Sport will take responsibility for the talented athlete scholarship scheme (TASS) in April 2006. Funding is currently in place for TASS until 2008. It is currently expected that UK Sport will allocate £5 million to TASS a year between April 2006 and April 2008, £1 million of which will be lottery money.

Private Art Projects

Andrew Rosindell: To ask the Secretary of State for Culture, Media and Sport how much Government funding has been directed towards private art projects in each year since 1997. [25883]

Mr. Lammy: The Department for Culture, Media and Sport does not fund the arts directly, but through Arts Council England, who are responsible for distributing

public money from Government. Arts Council England allocates grant-in-aid funding to their portfolio of regularly funded organisations.

The following figures supplied by Arts Council England provide a breakdown of the information requested.

£

	Arts Council England, London regularly funded organisation budget	*Havering regularly funded organisations allocation*
1998–99	13,604,000	—
1999–2000	14,612,000	—
2000–01	25,780,000	—
2001–02	28,456,000	82,000
2002–03	33,845,000	179,560
2003–04[1]	133,780,000	258,605
2004–05	145,798,000	285,000
2005–06	152,343,000	325,000
Total	548,218,000	1,130,165

[1] Due to restructuring, with effect from 1 April 2003, Arts Council England transferred most national office clients to their regional offices.

There are no Arts Council England regularly funded organisations in Romford.

School Sports

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to encourage the participation of pupils in *(a)* primary and *(b)* secondary state schools in England in (i) baseball, (ii) basketball, (iii) volleyball, (iv) handball and (v) softball. [25647]

Mr. Caborn: The Department for Culture Media and Sport and the Department for Education and Skills share a joint Public Service Agreement target to increase participation in physical education and sport in school as part of the national PE and school sport strategy.

Club Links, one of the national strategy work strands, aims to increase the number of 5–16 year olds from School Sport Partnerships (primary and secondary schools) taking part in high quality club sport. This programme is delivered in partnership with the governing bodies of 22 sports and with dance and fitness organisations.

The PESSCL 2004–05 school sport survey showed that 22 per cent. of pupils in school sport partnerships had links with clubs, which is an increase of 15 per cent. since the last survey. 25 per cent. of schools provided links with basketball clubs, 2 per cent. of schools with volleyball clubs and 1 per cent. of schools to softball clubs. No schools in the survey reported providing club links for baseball or handball for their pupils in 2004–05.

The survey also showed the range of sports which schools provided for their pupils. 63 per cent. provided basketball for their pupils; 25 per cent. provided volleyball and 16 per cent. of schools provided softball. No schools in the survey reported providing baseball or handball for their pupils in 20040–05. Overall, schools provided an average of 15 different sports for their pupils.

The results of the survey were published In September this year and copies have been placed in the Libraries of both Houses.

Swimming Pools

Mrs. May: To ask the Secretary of State for Culture, Media and Sport which applications are being considered for new public and competition swimming pools in each county in England; and what steps the Government are taking to ensure that the location of the proposed new Olympic swimming pools is a deciding factor when current applications are considered. [25649]

Mr. Caborn: Funding applications for new public sector swimming pools currently at the pre-award stage of consideration by Sport England are listed in the table:

County	*Facility*
Avon	Bristol—50m pool
Cleveland and Tees Valley	Redcar—25m pool
Devon	Plymouth—50m pool; Torrington—25m pool
Durham	Consett—25m pool
Hampshire	Portsmouth—50m pool
Northumberland	Blyth Valley—25m pool
	Glendale Sports and Leisure Association—community pool
Warwickshire	Coventry—25m pool

Sport England is also working with the Amateur Swimming Association to consider swimming pool provision in London, including the impact of the Olympic Games pool provision.

There will be a permanent Aquatics facility in Stratford which will serve as the main competition pool for the Olympic Games and provide post-Olympic legacy facilities of two 50m pools and diving facilities. A further five temporary pools are planned for the Games which will be redistributed against an agreed legacy strategy.

FOREIGN AND COMMONWEALTH AFFAIRS

0870 Numbers

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions in the last five years on which 0870 telephone numbers have been used by his Department as contact numbers for members of the public; and how much revenue was received from the use of 0870 contact numbers in each of the last five years for which records are available. [24460]

Dr. Howells: Foreign and Commonwealth Office Travel Advice was available on an 0870 number when it was first introduced in February 2003. The telephone number has been discontinued and was replaced by an 0845 number on 9 September 2005.

The revenue received from this number to date is £76,887.86. This is set against the cost of running the call centre, which is around £120,000 a year.

The revenue is broken down as follows:

	£
2003	4,817.43
2004	22,974.49
2005	49,095.94

Over 203,000 calls were made to the call centre before 2 September 2005.

Algeria

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to help Algeria to tackle terrorism. [25117]

Dr. Howells: Algeria is a priority partner for the Government's counter terrorism effort. The Government are committed to the development of closer co-operation with the Algerian authorities and Algerian officials have recently visited the UK to study UK counter-terrorism structures. Discussions of an agreement on deportation with assurances continue with the Algerian Government.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government are taking to support the development of democracy in Algeria. [25274]

Dr. Howells: The UK is committed to working with the Algerian Government to support their development of democracy. The EuroMed Tenth Anniversary Summit on 27 to 28 November 2005 in Barcelona will be an important opportunity to help the EU's Mediterranean Partners, including Algeria, to address the challenges of the 21st century, including in good governance. At the Summit, we want leaders to endorse an outcome-oriented Five Year Work Plan. This Plan will include the creation of a large EU Facility which will provide a package of assistance for Mediterranean Partners who show a clear commitment to good governance.

Carbon Management Programme

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department will sign up to the Carbon Trust's Carbon Management programme. [23733]

Mr. Straw: The Foreign and Commonwealth Office is committed to reducing its carbon impact on the environment. We use an externally-certified Environmental Management System (EMS) to identify environmental issues on our estate in the UK, including carbon impact. We are currently implementing measures projected to reduce CO_2 emissions from our UK estate by 22.5 per cent. by 2010–11, relative to 1999–2000. We are also introducing this financial year arrangements to offset emissions generated by air travel by Ministers, and officials based in the UK.

We judge that our current system for managing carbon emissions already covers the main elements of the Carbon Trust's Carbon Management Programme, we have not yet signed it but are considering whether to do so carefully.

European Institute of Technology

Mr. Weir: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the European Commission on establishing a European Institute of Technology. [26201]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary has not had any discussions with the European Commission on establishing a European Institute of Technology.

The European Commission is currently conducting a wide-ranging consultation on the proposed European Institute of Technology (EIT). The UK response will be submitted shortly and a copy will be placed in the Library of the House. Any proposal must add clear value. Promoting excellence in the European University sector is vital to ensuring Europe's long term competitiveness in the global economy.

Iran

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to Russia about the sale of nuclear fuel to Iran. [26264]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary and his officials have regular discussions on Iran's nuclear programme with international partners, including Russia. In their proposal to Iran of 5 August 2005, the Foreign Secretary and the Foreign Ministers of France and Germany, with the support of the high representative of the EU, stated that they fully support long-term co-operation in the civil nuclear field between Iran and Russia in the context of an overall agreement on long-term arrangements.

Iraq

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether US Federal Special Prosecutor Patrick Fitzgerald *(a)* contacted and *(b)* sought assistance from his Department concerning the allegations made in British official policy documents that Iraq sought to procure uranium from Niger as part of the recent US Grand Jury inquiry. [24936]

Dr. Howells: No, on both points.

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on negotiations with the Iraqi Government concerning troop withdrawals. [25318]

Dr. Howells: The UK is committed to Iraq until such time as the Iraqis are able to take responsibility for their own security. Withdrawal of our troops from Iraq will not depend on reaching certain dates or timetables, but on achieving certain conditions.

These conditions will be based upon principles outlined by the Iraqi Joint Committee to transfer security responsibility and are based on four broad categories: an assessment of the insurgents' threat level; Iraqi security forces' ability to take on the security task; the capacity of provincial bodies to cope with the changed security environment; and the posture and support available from coalition forces.

We will not make significant changes to the UK's force posture in any province in Iraq until we, coalition partners and, in particular, the Iraqis are confident that the conditions set out by the Joint Committee are met.

We expect the Committee's recommendations to be confirmed soon. Thereafter, assessments will be made to determine which areas of Iraq are ready to transfer to Iraqi control. While we do not want to be in Iraq any longer than is necessary, we will not be deflected from our task. We have made a commitment to the Iraqi people and it is important that we honour that commitment and see our task through.

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Iranian involvement in the insurgency in Iraq. [25325]

Dr. Howells: As my right hon. Friend the Prime Minister has said, the nature of some explosive devices used, including against British troops, leads us either to Iranian elements or to Lebanese Hezbollah, which has very close links with Iran's Revolutionary Guards. We are unable to provide further details as to do so could prejudice the capability, effectiveness, and security of the armed forces.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs how many employees in his Department requested training to improve their *(a)* literacy and *(b)* numeracy skills in each year since 2002. [23371]

Mr. Straw: Complete statistics over this time have not been collected. No requests for training in numeracy were received during this time. One or two employees each year request funding for external training to improve their English language skills.

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to promote uptake of the national tests in adult literacy and numeracy among employees of his Department. [23409]

Mr. Straw: The vast majority of Foreign and Commonwealth Office (FCO) staff have formal qualifications matching or in excess of the national tests by virtue of their meeting the FCO's entry requirements. As part of a revision of training in writing skills taking place in early 2006, staff who may wish to revise fundamental basic skills will be directed to the national tests as well as other training opportunities.

Mr. Gibb: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head in each year since 2002. [23430]

Mr. Straw: The Foreign and Commonwealth Office does not provide in-house training in literacy or numeracy because staff are required on entry to demonstrate these abilities. Any shortfall is met through external training.

Norway

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has had discussions with his counterpart in Norway to encourage that country to join the European Union. [25341]

Mr. Douglas Alexander: My right hon. Friend the Foreign Secretary met his new Norwegian counterpart, Jonas Gahr Støre, on 26 October. Mr. Støre explained Norway's approach to EU membership. The United Kingdom would welcome Norway as a partner in the European Union, but the question of applying for EU membership is a matter for the Norwegian Government and people.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the outcome of the sixth round of inter-Sudanese peace talks on Darfur. [22895]

Ian Pearson: The sixth round of the inter-Sudanese peace talks on Darfur concluded on 20 October. Overall, the parties engaged more constructively than in previous rounds and some progress was made. All three areas identified for inclusion in a final peace agreement, power sharing, wealth sharing and security arrangements, were discussed. The parties agreed two out of the nine agenda items for negotiations on power sharing, adopted the agenda for wealth sharing negotiations to begin at the next round and held informal consultations on security arrangements.

But much greater progress needs to be made at the next round of talks, due to begin on 21 November. The African Union (AU) plans to hold workshops in between rounds on wealth sharing and security arrangements, to enable negotiations on these issues to take place in parallel with power sharing. We and our international partners will continue to co-ordinate our strategy in support of the AU, including through the provision of experts to these workshops. We are also working to help resolve the internal divisions within the Sudan Liberation Movement/Army.

The UK remains fully committed to the AU-led peace talks on Darfur. The UK observer will continue to attend the talks in support of the AU mediation and the parties to help them reach the political solution the people of Darfur need.

Yemen

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to help the Yemeni Government fight terrorism. [25116]

Dr. Howells: We enjoy a constructive political dialogue with the Yemeni Government on counter-terrorism. We also have an extensive programme of counter-terrorism capacity building of the Yemeni authorities in, for example, maritime security, investigative techniques, forensic and crime scene management. We spent £800,000 on counter-terrorism capacity building in Yemen in financial year 2004–05.

Zimbabwe

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the Governments of *(a)* Botswana and *(b)* Namibia steps they could take to encourage Zimbabwe to make their Government more democratic and accountable. [24293]

Ian Pearson: Ministers will continue to take every opportunity to discuss with African Ministers, including from Namibia and Botswana, issues that affect the region, including the political situation in Zimbabwe. On 22 June my right hon. Friend the Foreign Secretary challenged African leaders to recognise the scale of the problem in Zimbabwe and we continue to urge them to press the Government of Zimbabwe to restore democracy, and respect human rights and the rule of law.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the UK's current relations with Zimbabwe. [24972]

Ian Pearson: On 1 November my right hon. Friend the Foreign Secretary confirmed that we maintain full diplomatic relations with the Government of Zimbabwe, which is important for the consular protection of British passport holders and also ensures we have a full understanding about the situation in Zimbabwe. But the Government have made no attempt to disguise our abhorrence for Mugabe's policies which continue to diminish the quality of life for ordinary Zimbabweans. We continue to call for a return to democratic governance, full respect for human rights and the rule of law.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK Government have made to *(a)* the UN and *(b)* the Government of Zimbabwe regarding the human rights record of the Zimbabwe regime; and if he will make a statement. [24975]

Ian Pearson: My right hon. Friend the Foreign Secretary is in regular touch with the UN Secretary-General on Zimbabwe. The Secretary-General made a statement on 31 October, deploring Zimbabwe's refusal to accept UN assistance following his recent housing clearances (Operation Murambatsvina). The UK and our international partners have also ensured that Zimbabwe is raised at the UN Security Council, most recently on 27 July and 4 October. We will continue our work with the UN to build the pressure on Mugabe to reform. Our ambassador in Harare raises our concerns directly with the Government of Zimbabwe. In June he called on the Vice President to express our grave concern about the brutality of Operation Murambatsvina.

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to try to stop the evictions of white Zimbabwean farmers; and if he will make a statement. [25115]

Ian Pearson: The Government, together with EU and other international partners, have condemned the chaotic and brutal handling of the state-sponsored land grabs together with other flawed policies in Zimbabwe that have resulted in the fastest shrinking economy in the world. This has ruined the agricultural sector in Zimbabwe, impoverishing the farming community and destroying the livelihoods of local farm workers and their families.

Mike Penning: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights in Zimbabwe. [25320]

Ian Pearson: The Government's views on human rights in Zimbabwe are set out clearly in the Foreign and Commonwealth Office Human Rights Annual Report. Since its publication in July, Operation Murambatsvina has made 700,000 Zimbabweans homeless and destitute, and new constitutional amendments allowing for passports to be withdrawn, thereby denying individuals their right to free movement, have underlined the Government of Zimbabwe's continued lack of respect for human rights. We will continue to work for the restoration of the rule of law and good governance in Zimbabwe.

SOLICITOR-GENERAL

Abandoned Court Cases

Mr. Carswell: To ask the Solicitor-General what percentage of cases handled by the Crown Prosecution Service were abandoned in error in each of the last 10 years. [25451]

The Solicitor-General: The Crown Prosecution Service (CPS) prosecutes a substantial number of cases, a proportion of which are abandoned. It is not known how many may have been abandoned in error.

Since April 2004, the CPS has recorded the reason for each decision to abandon proceedings on its Compass Case Management System. The attached table gives information drawn from the system for 2004–05 and for 2005–06 to date, showing outcome reasons numerically, and expressing each as a proportion of all cases completed during the year. Also shown are the number and proportion of cases acquitted by the courts, and the number and proportion resulting in conviction.

The various reasons are divided into: administrative finalisations (where the defendant cannot be traced by the police, has died, or has been found unfit to plead); evidential reasons; public interest reasons; cases in which a prosecution cannot proceed; and all other reasons.

The figures show that the proportion of abandoned prosecutions has fallen year on year, from 17.4 per cent. of completed cases in 2004–05, to 15.4 per cent. in 2005–06 to date.

It will also be seen that substantial numbers of cases are dropped unavoidably: for example where the victim, or another witness, refuses to give evidence, or fails to attend court, where key legal elements are missing from the prosecution case; or where there is a conflict of evidence.

Reasons for prosecutions dropped 2004–05

	Number	As percentage of completed cases
Administrative finalisations [1]	51,589	4.3
E10 Key witness does not support case	1,503	0.1
E11. Unreliable/lack of identification	7,152	0.6
El Inadmissible evidence—Breach of PACE	330	0.0
E2 Inadmissible evidence—other than Breach of PACE	1,048	0.1
E3 Unreliable confession	152	0.0
E4 Conflict of evidence	6,504	0.5
E5 Essential medical evidence missing	454	0.0

Total completed	677,453	100.0

[1] An administrative finalisation is recorded where a defendant cannot be traced by the police, or has died, or has been found unfit to plead

Call Centres

Mr. Laws: To ask the Solicitor-General how many call centres were run by the Law Officers' Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23296]

The Solicitor-General: None of the Departments for which I am responsible runs a call centre.

Literacy and Numeracy

Mr. Gibb: To ask the Solicitor-General how much his Department spent on in-house training on *(a)* literacy and *(b)* numeracy (i) in total and (ii) per head, in each year since 2002. [23436]

The Solicitor-General: Of the Departments for which I am responsible, only one has run specific in-house training on literacy and numeracy in the period specified. The figures for the SFO are shown in tabular form as follows. Included in the literacy figures is the cost of running courses on effective writing and business writing. The numeracy figures cover the cost of running courses on financial management.

SFO spend on in-house literacy training

Financial year	*Total cost*	*Cost per head* (£)
2002–03	2,475	9.5
2003–04	1,329	5
2004–05	1,930	7
2005–06	7,720	26

SFO spend on in-house numeracy training

Financial year	*Total cost*	*Cost per head* (£)
2002–03	15,000	58
2003–04	7,500	30
2004–05	8,500	29
2005–06	17,000	57

Note:
The figures for 2005–06 are the anticipated spend for this financial year.

CONSTITUTIONAL AFFAIRS

Departmental Staff

Dr. Cable: To ask the Minister of State, Department for Constitutional Affairs how many full-time equivalent employee reductions *(a)* were achieved in 2004–05 and *(b)* are expected to be achieved in 2005–06 as a result of the Gershon review in her Department; what (i) cost savings relating to IT projects and (ii) total efficiency savings (A) were achieved in 2004–05 and (B) are expected to be achieved in 2005–06 as a result of that review; and if she will make a statement. [25916]

Bridget Prentice: There were no headcount reductions planned for 2004–05. By March 2007–08, the Department will have reduced its headcount by 1,100. Progress towards this will be reported in the Department's autumn performance report.

There were no planned cost savings relating to IT projects for 2004–05. By 2007–08 the Department will deliver IT project-related savings of £3 million. Progress towards this £3 million saving will be reported in the Department's autumn performance report.

There were no planned efficiency gains for 2004–05. DCA will deliver savings of £292 million by March 2007–08. While there is no intermediate target for 2005–06, progress towards the £292 million target will be reported in the Department's autumn performance report.

Relocation

Dr. Cable: To ask the Minister of State, Department for Constitutional Affairs how many people in her Department *(a)* were relocated in 2004–05 and *(b)* are expected to be relocated in 2005–06 as a result of Sir Michael Lyons' independent review of public sector relocation; to which locations they have been relocated; and if she will make a statement. [25912]

Bridget Prentice: There were no planned DCA relocations for 2004–05 or 2005–06 under the Lyons review.

NORTHERN IRELAND

Ambulance Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when he expects ambulance control centres at *(a)* Altnagelvin, *(b)* Antrim and *(c)* Craigavon to close. [24909]

Mr. Woodward: The new regional Emergency Ambulance Despatch Centre, located at Knockbracken Healthcare Park, will open on 23 November 2005. It is planned that Emergency Despatch staff from Antrim will transfer to Knockbracken in January 2006, from Craigavon in February 2006 and from Altnagelvin in March 2006.

The control facility at Altnagelvin will not close as it will become the Regional Patient Care Despatch Centre from April 2006. Antrim and Craigavon Controls will close at this time when Patient Care Despatch staff move to Altnagelvin.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what equality impact assessment was conducted in relation to closure of ambulance control centres at *(a)* Altnagelvin, *(b)* Antrim and *(c)* Craigavon. [24910]

Mr. Woodward: Proposals for the reconfiguration of ambulance control were originally made in the Department of Health, Social Services and Public Safety's response to the 2000 Strategic Review of Ambulance Services. The Strategic Review Implementation Plan outlined proposals to move from four control centres to two and this document was subject to public consultation. At the same time an Equality Impact Assessment (EQIA) was published to inform this policy development. The departmental response to consultation, which included replies to points raised by the EQIA questionnaire, was published in May 2002.

The business case for the reconfiguration of control fully considered the new TSN implications of the move to two control centres.

Altnagelvin Control will remain open, dealing with non-emergency calls and providing a back-up to the emergency control, which will be centralised at Knockbracken.

Assets Recovery Agency

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what funding has been allocated in each year of its operation to the budget of the Assets Recovery Agency in Northern Ireland. [25168]

Mr. Woodward: The annual share allocation of the Assets Recovery Agency's baseline budget to the Northern Ireland Branch is a matter for the Director of the Assets Recovery Agency. A significant increase in funding was allocated this year.

The budget allocation for ARA in Northern Ireland since 2003/2004 is set out in the following table:

	£ million
2003–04	2.071
2004–05	2.326
2005–06	3.24

Attacks on Teachers

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many parents have been prosecuted for attacks on teachers in Northern Ireland in each of the last 10 years. [25765]

Angela E. Smith: I refer the hon. Gentleman to the reply I gave on 2 November 2005, *Official Report*, column 1234W.

Breast Cancer

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of women newly diagnosed with breast cancer in the Province in the last 12 months were tested for their suitability for Trastuzumab at the point of diagnosis. [24911]

Mr. Woodward: All patients diagnosed with invasive breast cancer in Northern Ireland are tested for their suitability for Trastuzumab.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many women have been given Trastuzumab in the Province in the early stages of breast cancer in the last 12 months. [24913]

Mr. Woodward: Five women in Northern Ireland have been given Trastuzumab for early stage breast cancer as part of the clinical trial. No women in Northern Ireland in the early stages of breast cancer have been given Trastuzumab through public funding.

Trastuzumab has not yet been licensed for the treatment of early stage breast cancer. It has also not yet been evaluated by NICE. In these circumstances I would not expect Trastuzumab to be available on the HPSS in Northern Ireland for patients with early stage breast cancer until further evidence on the safety, quality and effectiveness of the drug is available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many early stage breast cancer patients in the Province have requested Trastuzumab but been refused in the last 12 months. [24914]

Mr. Woodward: Information is not available on the number of patients with early stage breast cancer in Northern Ireland who have requested Trastuzumab but been refused.

Trastuzumab has not yet been licensed for the treatment of early stage breast cancer. It has also not yet been evaluated by NICE. In these circumstances I would not expect Trastuzumab to be available in Northern Ireland on the HPSS for patients with early stage breast cancer until further evidence on the safety, quality and effectiveness of the drug is available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many women have been given Trastuzumab in the Province for advanced breast cancer in the last 12 months. [24915]

Mr. Woodward: I refer the hon. Lady to my answer of 19 October 2005, *Official Report*, column 1111W.

Class Sizes

Sammy Wilson: To ask the Secretary of State for Northern Ireland which secondary schools in the Province had classes of more than 30 pupils during 1997. [25799]

Angela E. Smith: The requested information was not collected at the time, and any attempt to collect it retrospectively could be done only at disproportionate cost.

Domestic Regional Rate

Mr. Lidington: To ask the Secretary of State for Northern Ireland how much revenue he expects to raise in 2006–07 as a result of the planned increase in the domestic regional rate. [25841]

Angela E. Smith: The revenue for the regional domestic rate in 2006–07 is estimated to be £251.6 million, an increase of £44.9 million on 2005–06 forecast.

This estimate may change as a consequence of future updates to collection and valuation information.

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the total estimated revenue would be from the domestic regional rate in 2006–07 as a consequence of increasing 2005–06 rates by *(a)* 3.3 per cent., *(b)* 9 per cent., *(c)* 19 per cent. and *(d)* the rate of inflation. [25849]

Angela E. Smith: The total estimated revenue from the regional domestic rates in 2006–07 for the uplifts quoted, is set out in the following table:

Increase (percentage)	*Estimated total revenue (£ million)*
3.3	218.4
9.0	230.5
19.0	251.6
Rate of inflation	
2.5	216.7

These estimates may change as a consequence of future updates to collection and valuation information.

Education and Library Boards

Sammy Wilson: To ask the Secretary of State for Northern Ireland whether the Department of Education requires redundancy costs incurred by education and library boards to be accounted for in the financial year in which the redundancy occurs. [21731]

Angela E. Smith: Accounts should be prepared on the accrual basis of accounting. This requires the non-cash effects of transactions and other events to be reflected, as far as possible, in the accounts in the year in which they occur and not, for example, in the year in which any cash involved is received or paid. Therefore, it is for the board to determine when the redundancies arise and apply the above policy to the preparation of their accounts. It is for the NIAO to determine if the accounts reflect a true and fair view and are in compliance with the above policy. Should any liabilities arising be of uncertain timing or amount, recognition in the accounts should be in accordance with the principles contained in FRS 12 governing provisions.

Sammy Wilson: To ask the Secretary of State for Northern Ireland what the minimum amount is which an education and library board can disregard for the purposes of accounting in a financial year in respect of bills received after the end of that financial year. [25653]

Angela E. Smith: There is no minimum amount which an education and library board can knowingly disregard for the purposes of accounting in a financial year in respect of bills received after the end of the financial year. If during the preparation of the annual accounts an education and library board is aware of a cost relating to the previous year for which the bill is received after the year end, that amount should be accrued back to the previous year irrespective of the amount. If certain accruals are not captured as part of the accounts preparation process, but are discovered during audit, the Northern Ireland Audit Office (NIAO) may require the amounts to be accrued back to the previous year, if material. The levels of materiality are determined by NIAO.

Fair Employment

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how many complaints of discrimination in employment in Northern Ireland have been supported by the Equality Commission in each year since its inception, broken down by community background of complainant. [25495]

Angela E. Smith: I understand that the Chief Executive of the Equality Commission for Northern Ireland, Ms Evelyn Collins, has written to the hon. Gentleman in the following terms:

"The Equality Commission for Northern Ireland supported the following new employment and non-employment complaints in each year since its inception:

	Number
1999–2000	440
2000–01	654
2001–02	805
2002–03	150
2003–04	87
2004–05	90

The Equality Commission does not have complete information on the community background of complainants who have received its support."

Fireworks

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland if he will list the legal retailers of fireworks in Northern Ireland. [25509]

Mr. Woodward: The list of registered retailers of fireworks varies throughout the calendar year, given that each retailer is subject to licence renewal every 12 months and licence durations are not concurrent. However during the Halloween period this year some 226 premises were registered to keep and sell fireworks in Northern Ireland. The list of registered retailers has been placed in the Library.

Harbour Investment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 24 October 2005, *Official Report*, columns 91–2W, on harbour investment, what future plans the Department of Agriculture and Rural Development has for improvement and development at Portavogie Harbour; how much funding has been allocated; and what the timescale for completion is. [26240]

Angela E. Smith: The Northern Ireland Fishery Harbour Authority is the non-departmental public body that has responsibility for the improvement, management and maintenance of the three Northern Ireland fishery harbours at Portavogie, Kilkeel and Ardglass.

There is an ongoing programme of development works at Portavogie Harbour approved by the Department of Agriculture and Rural Development and undertaken by the Northern Ireland Fishery Harbour Authority.

Future plans include some works that have already started and projects that are due to get underway in the near future, once tendering and other practical procedures are finalised. The ongoing programme comprises four main projects funded under the Building Sustainable Prosperity programme for:

key wall repairs that are currently in progress and are expected to cost £547,600;

upgrade of harbour security systems presently out to tender at an estimated total cost of £104,300;

upgrade of the slipway that will cost £144,500 and on which work has just started; and

a further £125,000 has been approved for re-surfacing of and upgrade to the Princess Anne road.

All of the above projects are due to be completed within the next two years.

There are also several future development projects being considered under the "Taskforce" initiative, which would total approximately £500,000.

These comprise as follows:

developing a net repair area; and

working with Ards borough council and the Portavogie and District Development Group Ltd. to implement a number of other schemes in and around the harbour area and estate (including beach access/walkways, a recycling/fish waste facility, and the construction of business units).

It is expected that works proceeding under these "Taskforce" proposals will be completed within a three-year period.

Home Detention Curfews

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many people in each district command unit in Northern Ireland are under home detention curfew. [25165]

Bridget Prentice: I have been asked to reply.

There is currently no legislative provision in Northern Ireland for home detention curfew.

Income Statistics

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the level of real personal disposable income was in each of the last five years; and what the percentage change from the previous year was in each year. [25221]

Angela E. Smith: The information available is shown in the following table.

Gross disposable household income per head (current prices)

	£ per head	Percentage change, year on year (Percentage)
1999	8,805	4.2
2000	9,424	7.0
2001	10,062	6.8
2002	10,401	3.4
2003	10,809	3.9

Source:
Office for National Statistics

Integrated Schools

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many integrated *(a)* primary and *(b)* post primary schools are planned in each education and library board area over the next three years. [25015]

Angela E. Smith: There are four development proposals for new grant-maintained integrated (GMI) schools to receive funding with effect from September 2006. No decisions have yet been taken on any of the proposals.

The proposals are:

Education and library board area	School/area
Southern	New primary school in Clogher Valley
South-Eastern	New primary school in the Moira/ Hillsborough area
South-Eastern	New post-primary school in the Saintfield area
North-Eastern	Recognition for grant-aid of Lir integrated primary school in Ballycastle (currently an independent school).

Integrated schools can also be established through the transformation of existing schools. The Department is aware of one primary school in the South-Eastern education and library board area which is in the early stages of a parental ballot to determine whether that school would seek transformation to controlled integrated status. No formal timetable has yet been established.

The Northern Ireland Council for Integrated Education (NICIE) assists the development of GMI schools through support to established parental steering groups. The Department has been informed by NICIE that the following proposals are expected for 2007:

Education and library board area	School/area
Western	New grant-maintained integrated primary school for Strabane
Western	New grant-maintained integrated post-primary school in Limavady
North-Eastern	New grant-maintained integrated post-primary school in Antrim

NICIE are not currently aware of any plans to establish integrated schools in 2008.

Lysosomal Storage Disorders

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what provision is made in the Province for sufferers of lysosomal storage disorders; and what estimate he has made of the number of people in the Province who suffer from lysosomal storage disorders. [24920]

Mr. Woodward: Information on the number of individuals in the Province suffering from lysosomal storage disorders is not available centrally, however hospital admission information is available. In 2004–05, there were 124 admissions to hospital for patients with this condition. Patients can be admitted more than once over the course of the year and these 124 admissions related to 39 individuals.

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of health spending in the Province was allocated to mental health *(a)* services and *(b)* promotion in each of the last five years. [24864]

Mr. Woodward: The percentage of health and social services spent by HSS boards on the provision of mental health services is given as follows. Information on mental health promotion is not separately identified.

	Percentage
1999–2000	8.43
2000–01	[1]
2001–02	8.06
2002–03	7.70
2003–04	7.66

[1] Not available

Pensioners

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many pensioners in Northern Ireland are being held awaiting deportation. [21631]

Mr. McNulty: I have been asked to reply.

There are no immigration detainees of pensionable age being held in Northern Ireland for the purposes of removal or deportation from the UK.

Police Service (Religious Affiliation)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what time scale is planned for the ending of selection by religious affiliation for recruitment for the Police Service of Northern Ireland; and if he will make a statement. [25019]

Mr. Woodward: The temporary 50:50 recruitment measures are being applied as a response to the imperative of achieving a Police Service in Northern Ireland that is more representative of the community that it serves. Our goal, in line with the Patten Report, is to achieve a 30 per cent. Catholic composition among officers by 2010–11. As we are on target to achieve this goal, we do not foresee that these measures will be applied after this time.

These provisions are subject to review and possible renewal every three years, next due in March 2007, when the policy will be subject to detailed review, extensive consultation, and debate in both houses.

PR Consultancies

Mark Durkan: To ask the Secretary of State for Northern Ireland (1) if he will list *(a)* communications, *(b)* public relations and *(c)* media consultancy firms which have been contracted to each Northern Ireland Government Department and agency in the last 10 years; and how much each has been paid; [24787]

(2) how much was spent by each Government Department in Northern Ireland on printing public documents in the last five years. [24788]

Angela E. Smith: The information requested by the hon. Gentleman is not readily available and could be obtained only at disproportionate cost.

Pupil: Teacher Ratios

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will take steps to employ more teachers to reduce pupil to teacher ratios in Northern Ireland. [25762]

Angela E. Smith: Under Local Management of Schools arrangements decisions on the number of teachers to be employed and their deployment within a school are matters for the Boards of Governors of each individual school, taking account of the level of resources available.

The recently announced Budget 2005 proposals provide for current expenditure on Education to increase by over £100 million—from £1,567 million in 2005–06 to £1,673 million in 2007–08.

Resource-releasing Savings

Mr. Lidington: To ask the Secretary of State for Northern Ireland how much money was redistributed through resource-releasing savings by *(a)* all Northern Ireland Departments and *(b)* by each Department, agency and non-departmental public body in Northern Ireland in 2004–05; and if he will make a statement. [25839]

Angela E. Smith: No money was redistributed through resource-releasing savings in 2004–05.

A target for efficiency savings of 2.5 per cent. per year was set for the public sector in Northern Ireland for the period 2005–06 to 2007–08.

Respite Care

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to improve respite services for severely disabled young adults within the Eastern Health and Social Services Board area. [24867]

Mr. Woodward: The Eastern Health and Social Services Board currently provides a wide range of respite opportunities for disabled young adults and are working to develop more flexible and innovative respite provision for young disabled adults.

Schools

Dr. McCrea: To ask the Secretary of State for Northern Ireland what assessment the Department of Education has made of the effects on school building programmes of the use of private finance initiative schemes. [25783]

Angela E. Smith: The Private Finance Initiative (PFI) has an important role to play in delivering investment in school building programmes across the UK. It should only be used where it offers value for money. In Northern Ireland, PFI schemes have helped the Department of Education to announce larger capital programmes each year. Since 2001, PFI projects covering 30 schools with an estimated capital value in excess of £300 million have been announced.

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many pupils are enrolled at each primary school in the Province. [25774]

Angela E. Smith: The information has been placed in the Library.

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many whole-time equivalent *(a)* teachers and *(b)* other staff are employed at each primary school in the Province. [25775]

Angela E. Smith: The information is as follows:

(a) The information on full-time equivalent teachers in each primary school in 2004–05 has been placed in the Library.

(b) The information on non-teaching staff employed in each primary school is not immediately available, but has been requested from the education and library boards, and I shall write to the hon. Gentleman.

Student Fees

Dr. McCrea: To ask the Secretary of State for Northern Ireland if he will make a statement on student fees for Northern Ireland students. [25776]

Angela E. Smith: Northern Ireland students entering higher education from the 2006–07 academic year will be charged tuition fees of up to £3,000 a year for higher education courses at institutions in England and Northern Ireland. In Scotland the proposed fee levels at Scottish institutions are £1,700 with the exception of

medical courses which are proposed to be £2,700. In Wales, fees will be charged on the same basis as in England and Northern Ireland but from 2007–08. From 2006–07, all Northern Ireland domiciled students studying at institutions in the UK, will be able to defer payment by taking out a non-means tested loan which will not have to be repaid until after the student leaves higher education and is earning more than £15,000 per year.

Teriparatide

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland if he will make Teriparatide available to patients in Northern Ireland suffering from osteoporosis. [25524]

Mr. Woodward: I refer the hon. Gentleman to my answer of 17 October 2005, *Official Report*, column 751W.

Translink

Sammy Wilson: To ask the Secretary of State for Northern Ireland how much each education and library board in the Province has paid to Translink in each of the last five years. [25770]

Angela E. Smith: The education and library boards have incurred the following expenditure in the last five years in relation to schools services provided by Translink:

£

	BELB	NEELB	SEELB	SELB	WELB	Total
2000–01	777,597	6,584,803	6,153,086	4,880,971	3,904,699	22,301,156
2001–02	1,039,710	6,960,560	6,216,599	5,077,462	3,945,176	23,239,507
2002–03	827,000	7,373,000	6,419,000	5,135,000	3,731,000	23,485,000
2003–04	845,000	7,620,000	5,917,792	5,446,000	3,731,000	23,559,792
2004–05	866,000	8,373,000	6,931,000	5,966,000	4,340,631	26,476,631

Vacant Teaching Posts

Sammy Wilson: To ask the Secretary of State for Northern Ireland how many vacant teaching posts there were within each education and library board in the Province in 1997. [25797]

Angela E. Smith: This information is not held by the Department of Education nor by the relevant employing authorities, and could be provided only at disproportionate cost.

Water Charges

Mr. Lidington: To ask the Secretary of State for Northern Ireland what sum he originally budgeted to receive in 2006–07 from water charges. [25840]

Angela E. Smith: In considering public expenditure allocations for 2006–07, in the course of the Priorities and Budget 2005–08 process, it was estimated that the revenue from the phased introduction of water and sewerage charges, on 1 April 2006, would be between £50 million and £80 million for that year Reflecting the uncertainty regarding the final amount, the lower amount, £50 million, was factored into public expenditure allocations for 2006–07.

EDUCATION AND SKILLS

Careers Advice

Mr. Todd: To ask the Secretary of State for Education and Skills what arrangements are made to provide careers advice for those who leave higher education without completing their courses. [25745]

Bill Rammell: All Higher Education (HE) Careers Advisory Services, which are funded by institutions themselves, offer some level of information, advice and guidance (IAG) to students who are considering leaving their courses before completion. Institutions determine the level of provision to offer, taking account of funding and resource levels in their careers service, and also the specific circumstances of each discontinuing student.

HE Careers Services work with other IAG services to ensure that students who are leaving their course are referred to the most appropriate source of help, including: Connexions for young people; the national "learndirect" telephone and on-line advice service; and the local "nextstep" information and advice service for adults. Other services such as counselling or financial advice are recommended if appropriate.

Alongside this, the Higher Education Funding Council for England provides higher education institutions with substantial funding—£282 million for 2005–06—to help universities give more support to students who may be at risk of leaving their courses before completion.

Childrens' Diets

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps the Government is taking to ensure young children are eating a well-balanced diet. [25187]

Jacqui Smith: The Department for Education and Skills announced a package of measures in March 2005 to improve school food and good progress has been made. Elements of the package include: (i) the School Meals Review Panel which published its report containing recommendations for new nutritional standards for school lunches. The consultation period runs until 31 December 2005 and finalised standards will be announced in the new year; (ii) an independent School Food Trust which is currently being set up to support schools making the transformation to healthy meals; (iii) the new Ofsted inspection framework which will expect schools to present evidence about their general approach to food and healthy eating; (iv) and from September 2005, the 'Healthy Schools'

programme which has included healthy eating as a key element, which schools will need to address to reach the National Healthy Schools' standard.

The recently published 'Choosing Health White Paper' also sets out a number of actions to improve nutrition and physical activity levels, particularly among children and to reduce obesity.

Finally, the Department of Health's Food in Schools Toolkit provides guidance/resources to help schools deliver a whole school approach to healthier food and drink. A similar toolkit has recently been published by the Food Standards Agency for school Governors; and a Parents Toolkit has been published by the DfES.

Citizenship Education

Helen Jones: To ask the Secretary of State for Education and Skills (1) what steps she is taking to improve the quality of citizenship education in schools; [24385]

(2) what steps she is taking to ensure that staff teaching citizenship education have appropriate opportunities for continuing professional development. [24387]

Jacqui Smith *[holding answer 3 November 2005]:* Citizenship was made a statutory subject in the national curriculum for Key Stages 3 and 4 in 2002. We have introduced Initial Teacher Training in Citizenship and funded places for over 1,000 trainee teachers so far.

For existing teachers, we have developed a Continuing Professional Development (CPD) handbook which supports the development of effective teaching and learning in citizenship education. We are also developing a CPD certificate for the teaching of citizenship, which is currently being piloted in three areas.

In addition, we continue to support the Association for Citizenship Teaching and have developed a short course GCSE in Citizenship Studies which 38,000 pupils took in 2005, an increase of 10,000 over the previous year.

Community Schools

Lynne Jones: To ask the Secretary of State for Education and Skills whether it is her policy that community schools should be allowed to be run by religious educational trusts. [27081]

Jacqui Smith: A community school could not acquire a religious character by acquiring a trust. In order for a school without a religious character to acquire such a character proposals must be published to close the school and to open a new school with a religious character in its place.

A school which did not have a religious character could acquire a trust which had some religious objects, as well as educational ones, but that trust could not affect the religious character of the school.

Disabled Students Allowance

Mr. Laws: To ask the Secretary of State for Education and Skills how long on average an individual waited when claiming the Disabled Students' Allowance from the point of application to the point of receiving the allowance in 2004–05. [26556]

Bill Rammell: Applications are dealt with by local authorities and the information requested is not held centrally. The target turn round for all applications for student support is six weeks. Applications for Disabled Students' Allowances (DSAs) tend to take longer because they involve a specialist assessment to determine course related needs. We do not set and monitor specific DSA processing times, but we have given advice to local authorities to prioritise DSA applications and speed up the referral process with the aim of achieving payment of DSA in advance of the start of term for those who need it, wherever possible.

Mr. Laws: To ask the Secretary of State for Education and Skills what measures are being taken to reduce the time taken for an individual to receive the Disabled Students' Allowance. [26557]

Bill Rammell: Following a review of Disabled Students' Allowances (DSAs) we changed DfES guidance to local authority awards officers for 2002/03 to allow disabled students to receive a DSA funded assessment of their course needs prior to the start of the course, so that arrangements could be made for their special support to be ready in time for the start of their course.

Currently over 35,000 students are receiving DSAs annually. We are not aware of any general problem of undue delays in the DSA assessment process but are always prepared to consider carefully further proposals for improving the speed and efficiency of administration.

Education Maintenance Allowance

Annette Brooke: To ask the Secretary of State for Education and Skills pursuant to the answer of 31 October 2005, *Official Report*, columns 815–17W, on education maintenance allowance, what representations she has received regarding the 45 per cent. of post-16 students who are not eligible to receive education maintenance allowance. [25530]

Maria Eagle *[holding answer 7 November 2005]:* From 1 April 2005, the Secretary of State delegated responsibility for Education maintenance allowance (EMA) operational policy to the Learning and Skills Council (LSC). LSC took over responsibility for responding to EMA related correspondence in July. The total amount of correspondence received by the LSC specifically mentioning EMA in the period July to September totals 757 cases. This includes correspondence sent to Ministers and cases sent directly by members of the public to the LSC.

A number of issues are encompassed within that figure of 757 which do not always relate to an individual's eligibility. The broad categories and breakdown of inquiries are listed in the following table (including additional figures for telephone contacts which cannot be classified).

	July	August	September	October	Telephone Queries	Total
Income-related	49	36	262	142	15	504
Age-related	8	3	23	25	4	63
Pilot Area issues	7	3	1	2	0	13
General queries	15	30	31	30	0	106
General EMA Complaints	11	12	24	18	4	69
Other	—	3	3	17	0	25
	90	87	346	234	23	780

Those who are not eligible for receipt of EMA will largely fall into the categories of "Income-related", "Age-related" and "Pilot area issues".

3,762 pieces of correspondence have been dealt with by the DfES Central Correspondence Unit relating to students who are not eligible for EMA during the period September 2004 to the end of October 2005—3,535 of these were from members of the public and 227 from Members of Parliament. The following table shows the types of correspondence as classified by my Department:

	Number
Income-related	2,339
Age-related	1,437
Bonus payments	58

Exam Standards

Adam Afriyie: To ask the Secretary of State for Education and Skills what steps she is taking to increase the rigour of GCSEs and A-levels. [26339]

Jacqui Smith: Our White Paper, "14–19 Education and Skills" sets out proposals to strengthen GCSEs and A-levels.

We will restructure English and mathematics GCSEs to ensure that in future students cannot get a grade C or above without passing new functional skills units.

At A-level we will introduce a new section in papers covering Advanced Extension Award type material and an Extended Project requiring a high degree of planning, preparation, research and autonomous working.

Failing Schools

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the reasons for school failure; and what steps her Department is taking to tackle school failure. [26082]

Jacqui Smith: Her Majesty's chief inspector of schools has a duty to keep the Secretary of State informed about school failures and the reasons for failure. Inspectors look at the overall effectiveness of a school, teaching, standards and attainment, leadership and management, governance, value for money, improvement since the last inspection and the school's capacity to improve.

The Government have introduced new legislation and a number of successful initiatives, including the Fresh Start programme and Academies, to address failure since 1997. The recent Schools White Paper sets out proposals for further measures to ensure local authorities take rapid and decisive action.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to improve the turnaround of failing schools. [26083]

Jacqui Smith: This is a fundamental responsibility of local authorities, and we have challenged them to use their powers of intervention to tackle failure quickly and effectively. When a school fails an Ofsted inspection, authorities may appoint additional governors, or replace an entire governing body with an interim executive board. The authority may also suspend the school's right to a delegated budget. In addition we have encouraged federation and collaboration with other schools, and emphasised that there may be a need to change the head teacher or other senior staff. In cases of severe failure, schools may be closed and replaced under the Fresh Start initiative, or as Academies.

The recent Schools White Paper announced the Government's intention to require local authorities to consider taking radical options as soon as schools are placed in special measures and to re-consider their use after 12 months if schools are making inadequate progress.

Faith Schools

Dr. Kumar: To ask the Secretary of State for Education and Skills how many proposals by faith organisations to open new faith schools were made in each year since 1997; and how many were successful. [26489]

Jacqui Smith: The following table shows the number of proposals made by faith organisations to open new faith schools in each year since 1997, and the number of those proposals that were subsequently approved (whether or not this was in the same year they were published).

	Proposals published	Of which approved
1997	13	12
1998	13	11
1999	8	7
2000	13	12
2001	13	13
2002	10	10
2003	17	16
2004	15	13
2005	10	9
Total	112	103

These figures do not include new faith schools resulting from schools amalgamating or infant and junior schools closing to be replaced by a primary school.

Dr. Kumar: To ask the Secretary of State for Education and Skills what percentage of *(a)* faith schools and *(b)* non-faith schools have been awarded a (i) grade 1 and (ii) grade 2 rating by Ofsted inspectors. [26490]

Jacqui Smith: This is a matter for Ofsted. HM Chief Inspector, David Bell, has written to the hon. Member and a copy of his letter will be placed in the Library.

Letter from David Bell to Dr. Ashok Kumar, dated 7 November 2005:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

Dr Ashok Kumar (Middlesbrough South & East Cleveland): To ask the Secretary of State for Education and Skills, what percentage of *(a)* faith schools and *(b)* non-faith schools have been awarded a (i) grade 1 and (ii) grade 2 rating by Ofsted Inspectors.

The tables attached show the percentage of schools judged to be highly effective (grade 1) and very effective (grade 2) by denomination during the academic year 2004/05.

A copy of this reply has been sent to Jacqui Smith and will be placed in the library of both houses.

Table 1: Percentage of primary schools judged either highly effective (grade 1) or very effective (grade 2): 2004/05

	Highly effective (grade 1)	*Very effective (grade 2)*
Faith schools	1	20
Non-faith schools	1	17

Table 2: Percentage of secondary schools judged either highly effective (grade 1) or very effective (grade 2): 2004/05

	Highly effective (grade 1)	*Very effective (grade 2)*
Faith schools	1	27
Non-faith schools	3	22

Further Education

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many colleges have offered courses tailored to their local area in each of the last five years. [24978]

Bill Rammell: Information on how many colleges have offered courses tailored to their local area in each of the last five years is not collected. As the Learning and Skills Council (LSC) funds further education provision on the basis of three year development plans which are agreed between colleges and their local LSCs then all courses should reflect local needs.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many Ministers with responsibility for further education her Department has had since 1997. [25004]

Bill Rammell: The Department for Education and Skills, and its predecessor Departments, has had nine Ministers with responsibility for further education since 1997.

Helen Jones: To ask the Secretary of State for Education and Skills how many courses in further education institutions in *(a)* Cheshire and *(b)* Warrington have had their fees (i) increased and (ii) reduced in the current academic year. [26583]

Bill Rammell: The Learning and Skills Council (LSC) increased its learner fee assumption from 25 per cent. to 27.5 per cent. of the basic course cost for 2005/06 in respect of all adults liable to pay fees.

Further education colleges have the discretion and responsibility to decide their own fee strategies and will continue to be free to set fee levels for courses and for individuals. My Department expects colleges to collect more of the fees they presently voluntarily forgo and the LSC is implementing a policy of setting fee income targets for all colleges. We do not monitor fees at course level although after the end of the year, detailed information is provided by colleges to the LSC about fees paid by individual learners.

My Department will continue to waive fees for all young people; those taking literacy and numeracy; and learners receiving income based benefits, the pension (guarantee) credit and those on higher levels of the working tax credit.

Gershon Review

Mr. Davey: To ask the Secretary of State for Education and Skills how much schools are expected to save as part of the Gershon review; and how these savings are being measured. [25529]

Bill Rammell: The Department is committed to realising total annual efficiency gains of at least £4.3 billion by 2007–08 as a result of Spending Review 2004. Within this total the schools sector is responsible for realising roughly two thirds of the total efficiency gains.

Details of how we plan to measure these gains are laid out in the Department's Efficiency Technical Note, (ETN), which can be found at: http://www.dfes.gov.uk/publications/otherdocs.shtml.

Highly Skilled Migrant Programme

Mr. Pelling: To ask the Secretary of State for Education and Skills how many students in further education have leave to remain in the UK as a member of a family in the Highly Skilled Migrant Programme; and how much in overseas tuition fees was paid by such students in each of the last five years. [24425]

Andy Burnham: I have been asked to reply.

The figures requested are not held centrally as the Home Office does not record whether dependants of migrants under the Highly Skilled Migrant Programme are in further education. However, dependants, aged 16 to 18, of migrants with leave under the Highly Skilled Migrant Programme are allowed to study in the UK without paying fees. The Department for Education and Skills has no information on the specific immigration leave of overseas students in further education in England and cannot identify any fees they may pay.

Key Stage 2 Results

Mike Penning: To ask the Secretary of State for Education and Skills who takes decisions on which data are included in the published key stage 2 results; and if she will make a statement. [25980]

Jacqui Smith: Decisions regarding the content and timing of the publication of key stage 2 data, published as National Statistics, are taken by the Head of Profession for Statistics. These decisions are taken in line with the National Statistics Code of Practice. Decisions regarding the content and timing of the Primary (KS2) Achievement and Attainment Tables are taken by Ministers.

Learning and Skills Council

Mr. Wills: To ask the Secretary of State for Education and Skills what the administrative costs of *(a)* the Learning and Skills Council in Wiltshire and Swindon and *(b)* all Learning and Skills councils were in (i) 2003, (ii) 2004 and (iii) 2005. [19339]

Bill Rammell: Administration costs of local council's are a matter for the Learning and Skills Council. LSC's chief executive, Mark Haysom will write to the hon. Member with further information and a copy of his reply will be placed in the Library.

The LSC's core administration costs have fallen steadily from 3.4 per cent. of total funding in 2001–02, to 2.5 per cent. of its planned total budget in 2005–06.

The LSC is embarking upon a major transformation programme that will make it a smaller, more dynamic and more customer-focused organisation. This will build upon its existing strengths; further develop its relationships with providers and with its partners, and help push the highest proportion of its funding out through colleges and providers into front line delivery. At local level, the LSC will develop small teams of professional staff who will support the delivery of its priority objectives through strategic relationships with colleges, providers and other key stakeholders and so ensure that the needs of local employers and learners are met. I fully support the changes the LSC is making as I believe it will help bring about an organisation that is fit for purpose.

Letter from Mark Haysom to Mr. Michael Wills, dated 9 November 2005:

I write to provide further information on your recent Parliamentary Question in which you asked the Secretary of State for Education and Skills what the administrative costs of *(a)* the Learning and Skills Council in Swindon and Wiltshire and *(b)* all the Learning & Skills councils were in 2003, (ii) 2004 and (iii) 2005.

The Learning and Skills Council (LSC) financial year covers the period 1 April 2004 to 31 March.

The attached table shows the total administration expenditure of each of the Learning & Skills Council, its regional offices and national office during the financial years 2002–03, 2003–04 and 2004–05.

I hope that you find this information helpful.

Table 2: Administrative costs by LSC

		Financial Year		
	LSC Name	*2004–05*	*2003–04*	*2002–03*
EE060	Norfolk	1,470,219	1,805,963	1,981,816
EE070	Cambridgeshire	1,569,191	2,068,357	2,329,571
EE080	Suffolk	1,468,409	1,762,619	1,695,017
EE090	Bedfordshire and Luton	1,521,678	1,934,059	1,924,289

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer to the hon. Member for Fareham (Mr. Hoban) of 18 October 2005, *Official Report*, column 962W, on the Learning and Skills Council, by whom those learners not funded by the Learning and Skills Council were funded. [24964]

Bill Rammell: There is a diverse range of possible sources of funding for Further Education (FE) provision that is delivered by the Learning and Skills Council (LSC) but not funded by the LSC. The most common sources of funding for learners in 2003/04 include: the Higher Education Funding Council for England (HEFCE); the Department of Health, national health service (NHS) and regional health authorities; other HM Government Departments and public bodies; overseas funding; United Kingdom (UK) industry and commerce; private training organisations; the Teaching Training Agency (TTA); local education authorities (LEAs); New Deal for both young people and the long term unemployed; funding from Europe including the European Social Fund (ESF); and learners paying for full-cost courses themselves.

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills pursuant to the answer to the hon. Member for Fareham (Mr. Hoban) of 18 October 2005, *Official Report*, column 962W, on the Learning and Skills Council, in what circumstances the level is not specified. [25062]

Bill Rammell: Qualification level of courses delivered by the Learning and Skills Council (LSC) is not specified where no level is assigned to a course, or where the level is mixed or not known. The vast majority of such provision is:

initial and diagnostic tests in literacy, language and numeracy;

taster provision of one-day or less duration;

vocational study not leading to a recognised qualification; and

leisure courses.

Literacy and Numeracy

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) what methods of assessment of *(a)* literacy and *(b)* numeracy skills are used as part of the recruitment process by employees of her Department; [23786]

(2) what proportion of new recruits to her Department do not have a level 2 qualification in English and mathematics. [23778]

Maria Eagle: In 2002, the last time the Department undertook a large recruitment of administrative staff, candidates were assessed via a selection process, which included written tests for numeracy and literacy.

We are unable to provide information on proportion of new recruits to the Department who have a level 2 qualification as the Department has not undertaken an external recruitment campaign at administrative level since 2002. Our selection processes at this level are competency based, supplemented with written tests covering numeracy and literacy—we do not recruit purely on qualifications.

Maintained Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills how many maintained schools share their site with another school. [25670]

Jacqui Smith: The information requested is not held centrally. This information would be available only from individual local authorities or schools.

National Employer Training Programme

John Penrose: To ask the Secretary of State for Education and Skills which companies were in receipt of funds as part of the National Employer Training Programme in 2004–05; and how much each received in each pilot area. [25519]

Phil Hope: Employer Training Pilots (ETP) were introduced in September 2002 to encourage employers to invest in skills and qualifications, particularly for low skilled trainees. The National Employer Training Programme (NETP) to be rolled-out from April 2006 will apply lessons learned from the Employer Training Pilots.

Information on individual employers taking part in ETP is treated as commercial-in-confidence; and the cost of disaggregating data to a financial year would be disproportionate.

The total number of employers who had participated in ETP since September 2002 (as of 3 November 2005) was 25,938. The numbers participating in each local Learning and Skills Council area involved were:

		Percentage
Berkshire	1,884	7.26
Birmingham and Solihull	1,123	4.33
Black Country	856	3.30
Cambridgeshire	735	2.83
County Durham	264	1.02
Derbyshire	1,565	6.03
Devon and Cornwall	1,142	4.40
Essex	3,125	12.05
Greater Manchester	3,054	11.77
Kent and Medway	1,670	6.44
Lancashire	764	2.95
Leicestershire	1,285	4.95
London East	1,373	5.29
Northumberland	238	0.92
Shropshire	857	3.30
South Yorkshire	1,450	5.59
Tees Valley	309	1.19
Tyne and Wear	1,621	6.25
West Yorkshire	1,189	4.58
Wiltshire	1,434	5.53

The support received by employers, via the pilots, was mainly indirect with payments going to a skills broker, learning provider and Information, Advice and Guidance adviser, rather than directly to the employer. However in some, though not all, pilots employers did receive a wage compensation payment aimed at reimbursing them for the time their participating employees spent on training. The rate of wage compensation varied between pilots, from between zero to 150 of pay, but averaged £260 per learner. Based on an average of eight learners per employer over the period of the pilots, the average payment received per employer for wage compensation equates to £2,080. From Phase 3 of the Pilots (September 2004), employers only receive wage compensation for time off actually taken when a learner successfully completes their learning.

John Penrose: To ask the Secretary of State for Education and Skills what estimate she has made of the financial impact on existing commercial providers of the introduction of the National Employer Training pilot. [25520]

Phil Hope: The new National Employer Training Programme (NETP) will be rolled-out from April 2006. It will offer employers informed choice between quality-assured, Learning and Skills Council approved training providers, whether colleges or other providers, that deliver the training employers want. It is based on the lessons learnt from the Employer Training Pilots (ETP) which have been running since September 2002.

By September 2005, over 203,000 individual learners had participated in ETP. The amount allocated from the ETP budget to training expenditure since the launch of the Pilots is £120,878,086. This covers actual training costs (but not other elements of the budget such as initial training assessments or additional learner support).

It is estimated that around 75 per cent. of ETP learning has been provided through commercial, private providers, and 25 per cent. by Further Education colleges. However, college engagement varies between ETP areas—the majority have 25 per cent. or higher college activity, with some reporting up to a 50:50 split of activity between private providers and colleges.

John Penrose: To ask the Secretary of State for Education and Skills what proportion of National Employer Training provision represents *(a)* provision which would have been provided previously at a fee to employers and *(b)* new provision which would not otherwise have been provided. [25521]

Phil Hope: Employer Training Pilots (ETP) were introduced in September 2002 to encourage employers to invest in skills and qualifications, particularly for low skilled trainees. The National Employer Training Programme (NETP) to be rolled-out from April 2006 will apply lessons learned from the Employer Training Pilots.

NETP will give employers real choice over the training they offer their employees, and will respond directly to their business development needs, whether for basic or high level skills. Training will be delivered flexibly, including in the workplace. The Government will fully fund the training of employees undertaking basic skills and first full Level 2 qualifications. Therefore most training up to and including Level 2 will be free to employers and employees.

By September 2005, over 25,000 employers had participated in ETP. A report by the Institute for Employment Studies (IES) published in March 2005, "Platform for Progression: Employer Training Pilots Year 2 Evaluation Report", found that half of the employers taking part in ETP had a previous involvement with either a business support agency, a training provider, or a national training initiative. One-third had been involved with at least one agency, provider or initiative. The remaining 14 per cent. had no previous involvement and could therefore be classified as harder-to-reach employers.

The IES evaluation found that ETP employers have a relatively positive approach to training compared with average employers. Most adopt a strategic approach to

training, express positive attitudes, and say that they provided at least some training to low-skilled employees.

Non-essential Learning

Helen Jones: To ask the Secretary of State for Education and Skills what guidance she has issued to Learning and Skills Councils on the definition of non-essential learning; and what definition of this term her Department uses. [26582]

Bill Rammell: I have issued no guidance of this type. I do not recognise the term non-essential learning. I wrote to hon. and right hon. Members on 21 October outlining my Department's priorities for further education and training for the period 2006–08. More detailed information is provided in the Learning and Skills Council's publication "Priorities for Success—Funding for Learning and Skills". This document is available on the LSC's website: www.lsc.gov.uk.

Parenting Contracts

John Bercow: To ask the Secretary of State for Education and Skills (1) what action is being taken by her Department to ensure that parenting contracts are effective; [26041]

(2) what assessment she has made of the contribution of parenting contracts to school discipline; [26042]

(3) what action is being taken by her Department to improve parental responsibility for pupil behaviour in school. [26045]

Jacqui Smith: Parenting contracts are available for school behaviour and attendance. They are formal agreements between parent and school or parent and local authority in which each side sets out the steps they will take to secure an improvement in the child's behaviour or attendance.

My Department has provided dedicated support and advice to local authorities on the introduction of these measures and their effective implementation. To support further, guidance and examples of effective practice have been published on the departmental website.

Parenting contracts are one of a range of strategies that schools and local authorities can use to improve school discipline. They can be used alone or in conjunction with other measures such as pastoral support programmes for pupils.

Qualifications

Mr. Davey: To ask the Secretary of State for Education and Skills what proportion of economically inactive adults without a Level 2 qualification are claiming benefits for people of working age. [25476]

Phil Hope: Analysis of the Labour Force Survey (Spring 2005) indicates that 51 per cent. of economically inactive people aged 16–59/64, in England, are without a Level 2 qualification. Of those economically inactive people, approximately 53 per cent. claim benefits (other than child benefit). In comparison, approximately 31 per cent. of economically inactive people aged 16–59/64, in England, who are qualified to NVQ level 2 equivalent or above, claim benefits (other than child benefit).

School Building Programme

Mr. Hepburn: To ask the Secretary of State for Education and Skills what plans there are to rebuild or remodel schools in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England. [26506]

Jacqui Smith: Complete information is not held in the form requested.

The Department is continuing to increase its capital support for investment in schools in England, from £5.5 billion in 2005–06, rising to £6.3 billion in 2007–08. Much of this funding is allocated to local authorities and schools by needs related formulae, so that decisions on how to target these resources can be taken locally in accordance with local asset management plans.

Building Schools for the Future (BSF), is our strategic programme which aims to rebuild and renew all secondary schools over 15 years starting in 2005–06. Prioritisation is based on our published criteria of relative educational and social need, which is being applied fairly and consistently, and all local authorities have been provided with indicative planning information to inform their own plans. We have announced those authorities that have joined the programme in the first three waves.

They are:

Wave 1: Bradford, Bristol, Gateshead, Greenwich, Knowsley, Lancashire, Leicester City, Leeds, Lewisham, Manchester, Newcastle upon Tyne, Newham, Sheffield, Solihull, South Tyneside, Southwark, Stoke on Trent, Sunderland, and Waltham Forest.

Wave 2: Birmingham, Hackney, Haringey, Islington, Kingston upon Hull, Lambeth, Liverpool, Middlesbrough, Nottingham City, and Tower Hamlets.

Wave 3: Barnsley, Durham, Derbyshire, Kent, Luton, North Lincolnshire, Salford, Sandwell, Tameside, and Westminster.

For those projects in BSF waves 1 to 3, 12 schools in South Tyneside and Gateshead and 39 other schools in the north-east region will benefit from BSF investment. Nationally projects in waves 1 to 3 will cover around 350 schools.

In addition, from 2008–09 we will be launching a new primary programme, with the aim of renewing at least half of primary school buildings over 15 years. We will be launching a consultation on that early in the new year.

School Expansions

Dr. Kumar: To ask the Secretary of State for Education and Skills whether there is a limit to the size to which a successful school can expand under the proposals in the White Paper: "Higher Standards, Better Education for All". [26504]

Jacqui Smith: There is no maximum size to which a successful school may expand under the proposals in the White Paper. This is a matter for local determination. Both large and small schools may be successful. There

are a range of strategies for the internal organisation of schools, and schools may spread their expertise by federation and collaboration as well as expansion.

Mr. Davey: To ask the Secretary of State for Education and Skills how many schools she expects to apply to expand in each of the next five years after plans to change presumption of the local education authority to be in favour of such an application are implemented. [26507]

Jacqui Smith: A fast-track for the expansion of successful and popular secondary schools was introduced in August of this year. At the same time, statutory guidance reinforced the presumption that such proposals should be approved. Expansion of schools is a matter for the schools themselves and the local education authority, and we have no targets for the numbers that should expand. However, over 1,300 secondary schools currently have no spare capacity, and we estimate that some 80 schools a year might wish to expand.

Mr. Davey: To ask the Secretary of State for Education and Skills what evidence she has collated on the effects on schools of choosing whether to apply to expand the powers of local education authorities to restrict and refuse such applications. [26508]

Jacqui Smith: All maintained schools may publish their own proposals to expand, and local authorities may also publish proposals for the expansion of community and foundation schools. Local authorities may decide their own proposals if there are no objections. Proposals are otherwise decided by the local School Organisation Committee or, where the Committee cannot agree unanimously, by the Schools Adjudicator. Statutory guidance to the decision-makers says that there should be a presumption in favour of approval of proposals to expand by successful and popular schools, and we have made capital available to support the expansion of such schools.

Local authorities may object to proposals by a governing body to expand their school, as may governing bodies to proposals by the authority if they do not agree. Four proposals by schools to expand have been rejected since the presumption in favour was introduced in June 2003.

School Food Trust

Mr. Drew: To ask the Secretary of State for Education and Skills when she expects to name the board members of the School Food Trust. [25276]

Jacqui Smith: The Board members for the School Food Trust have now been appointed and are as follows:

Chair

Suzi Leather, interim Chair of the School Food Trust and also Chair of the Human Fertilisation and Embryology Authority.

Members

Beverley Baker, Head of Commercial Services for Surrey County Council

Frances Crook, Director of the Howard League for Penal Reform

John Dyson, adviser to the British Hospitality Association on all food and technical matters

Andrew Gillard, Programme Area Manager at Peterborough Regional College

Julian Hunt, Editor of The Grocer and a school governor

Maggie Jones, Director of Policy and Public Affairs at UNISON

Paul Kelly, Corporate Affairs Director for Compass Group PLC

Carmell McConnell, founder of Magic Breakfast

Kristina Murrin, founder of What If!

Sir John Oldham, Head of the National Primary Care Development Team

Jeanette Orrey, school meals policy adviser for the Soil Association

Rob Rees, interim Board member of the School Food Trust, former restaurateur, chef and adviser

Sir Tom Shebbeare, Director of Charities to HRH the Prince of Wales

Sheila Walker, Head of Catering Services at Birmingham City Council

Ian Wasson, general manager of Devon Direct Services and former chair of LACA

Adviser to the Trust

Michael Holmes QBE, national spokesman on healthy eating and public sector procurement for the National Farmers Union

School Funding

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what the *(a)* mean, *(b)* upper decile and *(c)* lower decile funding were for each (i) primary and (ii) secondary pupil in each local education authority school (A) in the last year for which information is available and (B) in 2000. [25414]

Jacqui Smith *[holding answer 7 November 2005]:* The information requested is contained within the following table:

[1] Only schools open for the whole of the financial year are included in the analysis. The number of schools in each authority used in the calculation of the mean and deciles is also provided as each authority has varying numbers of primary and secondary schools which should be borne in mind when interpreting these deciles—as a decile for an authority with very few schools can be somewhat meaningless.

[2] City of London local authority have one primary school and zero secondary schools. On the 1 April 2002 Isles of Scilly amalgamated all their maintained primary and secondary schools into one school which is treated as a primary school for the purposes of Section 52.

[3] The lower decile budget share (plus grants) per pupil is calculated such that 10 per cent. of schools within that authority have per pupil figures below this amount. Similarly, the upper decile amount has 90 per cent. of schools within the authority receiving less than figure.

[4] The mean amount for an authority is calculated as the sum of all that authority's primary or secondary schools budget share plus grants divided by the total number of pupils at the primary or secondary schools within that authority.

Notes:

1. Budget share (plus grants) is the combination of the schools individual budget share plus any devolved standards fund and Excellence in Cities (EiC) grants allocated to the school. In 2005–06 the Schools Standards Grant is also included and this contributed £856 million to the money allocated to primary and secondary schools in England.
2. The amount of money delegated to schools depends very much on the individual local authorities own policy for funding their schools. Different authority's retain varying amounts of funding centrally to spend on behalf of their schools while others chose to give schools more autonomy over how they spend their money by devolving more funding to the individual school.
3. The pupil numbers used to calculate the per pupil amounts are as reported by the local authority on their section 52 budget statement comprising the full time equivalent number pupils registered at the school used for the initial determination of the school's budget share under the local authority's allocation formula.
4. Figures are taken from section 52 budget 2005–06 as reported by LEAs and rounded to the nearest 10.

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills which *(a)* secondary and *(b)* primary school received (i) the highest and (ii) the lowest allocation per pupil in each local education authority in the last year for which information is available. [25415]

Jacqui Smith: *[holding answer 7 November 2005]:* The available information has been placed in the House Libraries.

Schools (Hemel Hempstead)

Mike Penning: To ask the Secretary of State for Education and Skills how many pupils left school at the age of 16 years with fewer than five A*-C GCSE grades in *(a)* Hemel Hempstead constituency and *(b)* Hertfordshire in each of the last five years. [25566]

Jacqui Smith: The information requested is given in the following table.

Percentage of 15-year-olds[1] achieving less than five A-C grades at GCSE and Equivalent[2]*

	Hemel Hempstead parliamentary constituency	*Hertfordshire local authority*
2000	52.7	44.6
2001	56.8	43.7
2002	54.1	43.3
2003	54.6	41.5
2004[3]	51.6	41.9

[1] Pupils aged 15 at the beginning of the academic year (i.e. 31 August).
[2] Figures are for GCSE and Equivalent qualifications for 2004. All previous years are for GCSE/GNVQ only.
[3] 2004 is the latest year for which figures are available at both parliamentary constituency and local authority level.

Science

Mrs. Dorries: To ask the Secretary of State for Education and Skills how many students have gained *(a)* an A-Level, *(b)* an AS Level and *(c)* a GCSE in (i) biology or human biology, (ii) chemistry and (iii) physics in each year since 1997, broken down by grade; and if she will make a statement. [22928]

Jacqui Smith *[pursuant to the reply, 2 November 2005, Official Report, c. 1205–05]:* There was an error with the rounding in the A-Level table.

(a) A level examination results of 16 to 18-year-old[1] students by grade

[1] Age at the beginning of the academic year (i.e. 31 August).
Figures for 2005 are provisional. All other figures are final.
[3] Includes ungraded, no award (absent/declined) and pending.
[4] Grade U refers to pupils who are ungraded or unclassified.
[5] Grade X refers to pupils who were absent or results pending.
[6] As numbers are rounded, figures in each row will not sum exactly to row totals.

Secondary School Pupils

Mr. Davey: To ask the Secretary of State for Education and Skills what estimate she has made of the number of secondary school pupils in *(a)* England and *(b)* each region for each year between 2006 and 2016 (i) in total and (ii) broken down by (A) 10 to 14 and (B) 15 to 19-year-olds. [25359]

Jacqui Smith: The information requested is as follows:

(a) National projections for the number of secondary school age pupils in maintained schools (secondary, special and Pupil Referral Units (PRUs)) are shown in the following table.

Pupil projections (full-time equivalent)—number at January, aged at start of the school year

	Maintained secondary and special schools and PRUs	
	Aged 10 to 14	*Aged 15 to 19*
2006	2,395,900	949,600
2007	2,343,600	953,500
2008	2,290,400	952,200

Beyond 2008 the degree of uncertainty in making projections increases substantially particularly when looking at separate types of school and when considering future levels of participation beyond age 16.

For all schools (also including academies and the independent sector) for ages 11 to 15 the projected numbers of pupils are:

	Number
2006	3,242,800
2007	3,205,300
2008	3,153,500
2009	3,[illegible],700
2010	3,089,000
2011	3,054,200
2012	3,017,600
2013	2,979,200
2014	2,924,700
2015	2,907,600
2016	2,915,500

We know that the overall number of 16 to 19-year-olds will fall beyond 2008. At the same time the Department is committed to increasing 16 to 19 participation to 90 per cent. of 17-year-olds by 2015, as set out in the 14 to 19 Education and Skills White Paper published in February 2005. Such an increase in participation would offset the falling number of 16 to 19-year-olds so we might expect the number of 16 to 19-year-olds in schools to remain broadly constant between 2008 and 2016.

(b) Pupil projections by region are not available for the time period requested. The Department has recently released pupil number projections at local education authority level for 2006 and 2007 which it plans to use in setting authorities' Dedicated Schools Grant guaranteed units of funding. These projections are for all children aged three to 15 funded by authorities, and are not split by educational setting. They can be seen at the following address: http://www.teachernet.gov.uk/docbank/index.cfm?id=9224

To improve comparability between the national projections given above and the pupil number projections used in setting authorities' DSGs the following table provides projections for the pupils aged 11 to 15 and 16 to 19 in maintained secondary and special schools and PRUs, also including a few children aged 11 or over still in primary school.

Pupil projections (full-time equivalent)—number at January, aged at start of the school year

	Maintained primary, secondary and special schools and PRUs	
	Aged 11 to 15	*Aged 16 to 19*
2006	2,975,500	350,900
2007	2,926,700	351,900
2008	2,866,200	356,900

Sex and Relationships Education

Mr. Lansley: To ask the Secretary of State for Education and Skills what plans she has to make sex and relationships education part of the core national curriculum. [26009]

Jacqui Smith: In all maintained secondary schools, sex education is a statutory element of science which is a core subject in the national curriculum. Sex and relationship education is discretionary in primary schools, though primary schools are encouraged to have a sex and relationship education programme tailored to the age and the physical and emotional maturity of the children. Schools are encouraged to deliver sex and relationship education through the non-statutory personal social and health education framework.

Social Mobility

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of education upon social mobility. [26180]

Jacqui Smith: In the Secretary of State's speech to IPPR on 26 July 2005, she set out the Government's commitment to help develop a society which can foster greater social mobility. The Secretary of State's speech underlined the important role that education can play in improving life chances for all individuals, and it set out the forward looking context for our programme of reform across the system.

Education has an important role to play in promoting social mobility. For example analysis by researchers at the London School of Economics in their report published by the Sutton Trust: "Intergenerational Mobility in Europe and North America" estimate that measures of education account for 35 to 40 per cent. of the intergenerational income mobility for cohorts born in 1958 and 1970.

John Bercow: To ask the Secretary of State for Education and Skills what action is being taken by her Department to promote social mobility. [26213]

Jacqui Smith: Improving life-chances for all lies at the heart of the principles behind our 5-year "Strategy for Children and Learners":

Early intervention to support very young children and families to lay the foundations for later success—not just in education, but in supporting the welfare of the whole child, carrying through into better services for all children and young people;

A continuing drive to ensure that every child leaves primary school with the basics in reading, writing and maths; and an enjoyment of learning, built through an enriched curriculum including the arts, music, sport and a foreign language;

Creating secondary and further education which widens choice, stretches and engages the underachieving and prepares young people better for working life;

Reducing the historic deficit in adult skills, not just by greater participation and attainment by 16–19 year olds, but by addressing the needs of those in the work force to update their skills; and

Sustaining an excellent university sector, capable of high quality teaching, world class research and increasing responsiveness to employers.

Education has an important role to play in improving social mobility and so we must make sure that a good education is available to every child in every community. The White Paper "Higher Standards, Better Schools for All" marks the next phase in the Government's continuing drive towards transforming our education system by:

tailoring education around the needs of each individual child—so that no child falls behind and no child is held back from achieving their potential;

putting parents at the centre of our thinking—giving them greater choice and active engagement in their child's learning and how schools are run; and

empowering schools and teachers to respond to local and parental demands, injecting dynamism and innovation into our schools.

Special Schools

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) how many and what proportion of special schools have adopted a curricular specialism; [25662]

(2) how many specialist schools have special educational needs specialism. [25663]

Maria Eagle: 12 specialist special schools have been designated with a special educational needs specialism, 11 of which became operational this September. The 12th will become operational in September 2006.

30 special schools are operating as curricular specialists, representing 3.3 per cent. of maintained and non maintained special schools with secondary age pupils.

Student Finance

Mr. Ruffley: To ask the Secretary of State for Education and Skills what proportion of students who applied for *(a)* student loans and *(b)* grants from Suffolk local education authority for the 2005/06 academic year received them in time for the start of that year; and what the equivalent figures were in the 2004/05 academic year. [25179]

Bill Rammell: By 16 September 2005, Suffolk local education authority had received just over 8,800 student finance applications, of which 68 per cent. had been processed to a point at which loan and grant payments could be released on the same date in 2004, 59 per cent. of Suffolk's applications had been processed to the same stage. In both years contingency payments were made to a number of Suffolk students to ensure that funds were available to them at the beginning of term; and other local authorities provided assistance to Suffolk to help the timely processing of their applications.

Student Loans and Grants

Mr. Jenkins: To ask the Secretary of State for Education and Skills what proportion of students who applied for *(a)* student loans and *(b)* grants from Staffordshire Local Education Authority for the 2005/06 academic year received them in time for the start of that year; and what the equivalent figures were for the 2004/05 academic year. [26168]

Bill Rammell: By 16 September 2005, Staffordshire Local Education Authority had received just over 14,200 student finance applications, of which 89 per cent. had been processed to a point at which loan and grant payments could be released. Staffordshire had also processed 89 per cent. of their applications to this stage by the same date in 2004.

Teaching Standards

John Bercow: To ask the Secretary of State for Education and Skills (1) what steps are being taken by her Department to improve teaching standards; [26177]

(2) what steps are being taken by her Department to improve teachers' awareness of socio-economic factors and their impact upon pupil achievement; [26059]

(3) what training is given to teachers to improve their capacity to tackle under achievement by pupils from low socio-economic backgrounds. [26047]

Jacqui Smith: According to Ofsted, we already have the best ever generation of teachers and the quality of teaching in our schools has been transformed in our schools since 1997. Ofsted judged teaching to be good or better in 78 per cent. of secondary schools inspected in 2004/05 compared with 59 per cent. in 1996/97, and in 74 per cent. of primary schools compared with 45 per cent. in 1996/97. Our recent White Paper "Higher Standards, Better Schools for All" set out our plans for a "new professionalism" for teachers, in which career progression and financial rewards will go to those who make the biggest impact on pupil progress and those who show commitment to their own professional development and that of their colleagues. A thorough reform of all teachers' professional standards, with more stretch at every level, will set out what can be expected of teachers at each stage in their career. More effective performance development—which includes performance management—will help focus teachers on effective classroom practice and ensure that they are involved in the professional development that best meets their personal needs and the specific needs of the school and its pupils.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to improve teachers' authority in the classroom. [26212]

Jacqui Smith: This Government are committed to reinforcing teachers' authority in the classroom. To achieve this, we have already:

been clear that we back teachers' right to discipline pupils;

made changes to exclusion appeal panels, including giving a stronger voice for serving and former head teachers, and making it possible to uphold an appeal without reinstating the pupil; and

reinforced parent' responsibility for their children's behaviour.

However, in light of the Report of the Practitioners' Group on School Behaviour and Discipline, we recognise that there are further steps we can take to improve teachers' authority in the classroom. We will:

bring forward legislation making a teacher's right to discipline pupils clear and unambiguous, and we will consult with key stakeholders as to how we should frame this new law;

further improve the effectiveness of the exclusion appeal panels, by ensuring that panels have to accept the judgments of head teachers and governors where it is clear that the pupil has committed the offence in question; emphasising the need for head teachers and governors to be from the same phase of education as the excluding school; and making training for clerks and chairs of panels mandatory; and

extending parenting orders so that schools can use them to make parents take responsibility for their children's poor behaviour in school, even if an exclusion has not taken place.

Truancy

John Bercow: To ask the Secretary of State for Education and Skills what action is being taken by her Department to tackle truancy. [26052]

Andrew Rosindell: To ask the Secretary of State for Education and Skills what steps she is taking to tackle truancy among school children. [26233]

Jacqui Smith: I refer the hon. Members to the reply given on 2 November 2005, *Official Report*, column 1216W to the earlier question from the Member for Romford.

In addition to our strategy for improving attendance outlined in my previous reply, my Department has introduced a range of measures to promote parental responsibility for school attendance. These include supportive parenting contracts, compulsory parenting orders, penalty fines and prosecution. We are working with 146 secondary schools with high levels of persistent truancy, and a further 293 secondary schools with high levels of absence, to tackle persistent truancy by providing advice and effective practice. We are working with the 265 secondary schools in pathfinder partnerships to improve behaviour and tackle persistent truancy.

Under-achievement

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of parental education levels upon under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26031]

Jacqui Smith: The Department is aware that research studies show that the level of parental education is a good predictor of their children's achievement.

The Department funds the Centre for Research on the Wider Benefits of Learning (WBL) which produced a report and developed a model of the inter-generational transmission of educational success in 2004. The WBL report concluded that

"parental education is a major influence both directly and via other channels such as income and parenting skills. However, there are many other important elements".

These other factors include pre-school, neighbourhoods and schools which can mitigate or offset the impact of family level factors in a substantial way. Parental beliefs, values, aspirations and attitudes, as well as parental well-being, have an independent effect on pupil attainment. Parental skills in terms of warmth, discipline and education behaviours are all major factors in the formation of school success. These behaviours can be adopted by parents no matter what their background. (http://www.learningbenefits.net/Publications/ResReps/ResRep10.pdf).

Another influential report commissioned by the Department and published in 2003 reviewed a large number of studies on the impact of parental involvement, parental support and parental education on pupil achievement. The review confirmed the importance of maternal education on child outcomes. However, the authors noted that when effects such as parental education and income were controlled the findings show that what parents do is as important as who they are:

"parental involvement in the form of 'at-home good parenting' has a significant positive effect on children's achievement and adjustment even after all other factors shaping attainment have been taken out of the equation".

This suggests that parental involvement is particularly important for children from low socio-economic backgrounds. (http://www.dfes.gov.uk/research/data/uploadfiles/RR433.pdf)

The Department is sponsoring further research in this area to help increase our understanding of the issues and to inform policy development.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to improve the education and skills of parents of children from low socio-economic backgrounds. [26032]

Jacqui Smith: We aim to support such parents through the development of Sure Start with 3,500 children's centres planned by 2010. All centres will provide information, advice and support for parents. Those in the most disadvantaged areas will provide more intensive programmes of family support and parental outreach. These services can help parents to access the wide range of courses in further and adult education designed to help people attain the platform of employability through improving their language, literacy and numeracy skills and studying for a full level 2 qualification (equivalent to five GCSEs at A*-C). Help is also available through family learning programmes funded by the Learning and Skills Council with budgets in 2005/06 of £37 million. As part of this, extended schools can offer family learning sessions to enable children and parents to learn alongside each other. Adults from low socio-economic groups, including parents, are already eligible for a wide

range of support to improve their skills, including full fee remission for those on means-tested benefits. The Government's Skills Strategy will roll out implementation of further targeted support for adults to improve their skills, including the level 2 entitlement which gives free tuition for a first full level 2 qualification.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to tackle the impact of socio-economic factors upon under-achievement. [26037]

Jacqui Smith: Improving life-chances for all lies at the heart of the principles behind our 5-year "Strategy for Children and Learners":

> Early intervention to support very young children and families to lay the foundations for later success—not just in education, but in supporting the welfare of the whole child, carrying through into better services for all children and young people;
>
> A continuing drive to ensure that every child leaves primary school with the basics in reading, writing and maths; and an enjoyment of learning, built through an enriched curriculum including the arts, music, sport and a foreign language;
>
> Creating secondary and further education which widens choice, stretches and engages the underachieving and prepares young people better for working life;
>
> Reducing the historic deficit in adult skills, not just by greater participation and attainment by 16–19 year olds, but by addressing the needs of those in the work force to update their skills; and
>
> Sustaining an excellent university sector, capable of high quality teaching, world class research and increasing responsiveness to employers.

The Department remains committed to creating a system of education that allows all children to achieve, regardless of family circumstances. For example our recent White Paper "Higher Standards, Better Schools for All" sets out reforms to improve our school system and encourage greater personalisation, enabling all children to achieve. Curriculum reform is important too. The White Paper 14–19 Education and Skills sets out how we will build a system of 14–19 education to enable every child to reach their potential by providing better vocational routes; ensuring that all young people have a sound grounding in English and Maths and the skills they need for employment; and providing a stretching curriculum for all while re-engaging the disaffected.

We continue to analyse the impact of socio-economic factors upon under-achievement. Following the publication by the Department of the paper "Has the Social Class Gap Narrowed in Primary Schools" in July (IPPR/2005), further analysis will be carried out over the coming months. In particular, we will look at key stages 1, 3 and 4, to the extent that data for these phases can be tracked over time on a comparable basis.

John Bercow: To ask the Secretary of State for Education and Skills (1) what steps are being taken by her Department to tackle social exclusion of children and young people; [26038]

(2) what steps are being taken by her Department to tackle deprivation among children of school age. [26039]

Jacqui Smith: Tackling poverty and exclusion is well embedded in the Department for Education and Skills policies. Through our "Five Year Strategy for Children and Learners" (July 2004), we are committed to giving children and families the best possible start in life, reducing the number of young people who leave school with low qualifications and providing opportunities through widening participation for the number of young adults with low and poor skills.

DfES policies place particular emphasis on tackling child poverty and investing in high quality early years services because we know that this improves outcomes for children and that those benefits are greatest for children from disadvantaged backgrounds. Many of these programmes, including Sure Start local programmes, neighbourhood nurseries and the early children's centres, are concentrated in the most disadvantaged areas. By promoting children's development, supporting parents and helping build strong local communities, early years provision particularly tackles deprivation and social exclusion by benefiting vulnerable families and disadvantaged neighbourhoods.

We recognise, though, that the life chances of children and young people are still strongly determined by their parents' background. Through the recently published Schools White Paper we aim to break completely the cycle that makes under-achievement (and not 'lack of ability') and low expectations a regular hand-me-down from parent to child.

Well-organised, safe and stimulating activities before and after school make a real difference to children's chances at school. We have committed additional funding to support the development of extended services in schools by making approximately £160 million of funding available to local authorities since 2003 and we will be making a further £680 million available from 2006–08. Deprivation levels will be a factor in distributing funding.

The 14–19 White Paper sets out our priorities for those aged 14–19, including new opportunities for young people to enjoy new styles of learning, in different settings and with more opportunities for practical and applied learning. Those at most risk of dropping out will get extra support, including progression. Financial support and a number of learner support funds will be available for those who need it.

John Bercow: To ask the Secretary of State for Education and Skills what efforts are being made to *(a)* reduce the rate of exclusion and *(b)* improve the provision of alternative education when excluded to children from low socio-economic backgrounds. [26043]

Jacqui Smith: The Department is putting in place a range of measures to reduce the rate of exclusion of pupils from school, including that of children from low socio-economic backgrounds. In particular, since 2002 the Department's Improving Behaviour and Attendance Programme has provided all schools with high-quality guidance and training materials on managing behaviour, backed by advice from expert teachers; and has targeted extra resources on schools facing the greatest challenges, particularly those in disadvantaged areas.

In addition, by September 2007 we expect all secondary schools to be part of a partnership to improve behaviour and attendance. Partnerships will have funding devolved from their local authorities to enable

them to commission a range of support and provision for pupils at risk of exclusion, persistent truants and excluded pupils. Evidence from existing partnerships shows that they are effective in reducing the rate of exclusion.

Head teachers will have a direct interest in ensuring that the alternative provision available to partnerships is of good quality and is value for money, whether this is provided by a pupil referral unit or is contracted externally. We are committed to developing a more vibrant, diverse and effective alternative provision market. Over the next six months we shall be carrying out a survey of alternative provision to establish a clear picture of the provision that is available and whether it meets the needs of pupils. This information will help us to guide school partnerships, and enable them to commission and procure good quality, effective, and value for money provision that suits the needs of their pupils

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of exclusion upon educational under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26044]

Jacqui Smith: Departmental data shows that schools with higher levels of permanent exclusions tend to have lower levels of attainment and that young people who have been excluded from school also have lower levels of attainment. For example, only one in five young people who was reported as having been excluded from school in years 10 or 11, permanently or for a fixed period, achieved 5 A*-C GCSEs compared to almost three in five young people who had not been excluded. However, a direct causal link between exclusion and attainment has not been established.

As well as having lower levels of attainment, in general schools with higher rates of permanent exclusion also tend to have higher percentages of pupils who are eligible for free school meals. However, there is a lot of variation at individual school level. Data from the Department for Work and Pensions shows that children who have been temporarily excluded from school are more likely to come from lone-parent families or from families where both parents are working less than 15 hours per week.

In the recently published White Paper, "Higher Standards, Better Schools For All", we committed to requiring schools and local authorities to provide suitable full-time education for all excluded pupils from the sixth day of their exclusion, rather than from the sixteenth day as at present. This should help to raise levels of attainment among excluded pupils.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of truancy upon under-achievement *(a)* nationally and *(b)* by children from low socio-economic backgrounds. [26051]

Jacqui Smith: Analyses of national data show that there is a correlation between both authorised and unauthorised absences from school and pupils' levels of achievement On average, pupils in schools with lower levels of absence tend to perform better at key stage 2, key stage 3 and GCSE than pupils in schools with higher levels of absence.

Analyses of national data also show links between higher levels of pupils in receipt of free school meals and higher levels of absence. Recent research on behalf of the Department by the National Foundation for Educational Research "An analysis of pupil attendance data in Excellence in Cities areas and non-EiC EAZs: final report" reports that the highest levels of attainment at key stage 3 and GCSE, once all other pupil characteristics, prior attainment and school variables were taken into account, were associated with, among other things, pupils who lived in areas of relatively less deprivation compared with the cohort. On average, these pupils also tended to have fewer absences from school than other pupils in the cohort.

The associations identified do not in themselves prove that there is a direct causal relationship between pupils' absences and their attainment. However, we believe that every pupil should attend school regularly if they are to achieve their full potential and our strategy aims to reduce the overall level of absences from school, including those due to persistent truancy.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of the introduction of university top up fees upon the educational performance of children from low socio-economic backgrounds. [26056]

Bill Rammell: The new student support arrangements are designed to protect and support students from lower socio-economic groups. The new package abolishes up-front costs; makes generous provision of grants and bursaries for students from low-income families; offers extended subsidised loans; and increases the repayment threshold.

Analysis by PwC[1] shows that, once the timing of the payments are taken account of, for many students the average net effect of these changes is to increase the financial benefits to a degree. We expect that those from lower socio-economic groups will benefit the most, being more likely to receive grants and bursaries.

Concern about debt is a significant factor in making HE choices. However this is just one of many issues that people weigh-up in coming to their participation decision, and the new reforms should offer peace of mind by removing up-front tuition costs and only requiring repayments when earning £15,000 or more.

[1] PwC (2005) The economic benefits of HE qualifications, RSC and IoP.

John Bercow: To ask the Secretary of State for Education and Skills what assessment she has made of the capacity of schools to focus upon socio-economic factors in under-achievement. [26064]

Jacqui Smith: We are providing schools with increasingly sophisticated data to help them measure the progress of their pupils. This includes being able to compare the achievement of pupils taking account of contextual factors including deprivation and prior attainment and against the achievement of similar schools in the top quartile of performance nationally.

School improvement partners will help schools to interpret this data, focusing particularly on groups of pupils that are falling behind and the best ways to help them. The Primary and Secondary National Strategies and other initiatives will continue to provide schools with advice, guidance and a range of targeted support.

John Bercow: To ask the Secretary of State for Education and Skills what steps are being taken by her Department to *(a)* remove under-performing teachers from schools and *(b)* retrain them. [26176]

Jacqui Smith: Teachers who fail to perform satisfactorily are monitored and supported by their employers, either through continuing professional development or, if necessary, in accordance with locally agreed capability procedures. Where teachers fail to improve to a satisfactory standard, they may be dismissed or moved to more suitable duties. Teachers dismissed on capability grounds are reported to the General Teaching Council which may require certain conditions of them, including retraining, to retain their registration.

Underperforming Schools

John Bercow: To ask the Secretary of State for Education and Skills (1) what resources are available to schools to tackle under achievement; [26177]

(2) what steps are being taken by her Department to improve the spread of best practice to schools that are underperforming; [26178]

(3) what steps are being taken by her Department to improve the successful adoption of the characteristics of good schools by underperforming schools. [26179]

Jacqui Smith: The Department is working to ensure that underperforming and low attaining schools receive the resources, advice and support that they need to improve outcomes for their pupils.

In particular, the National Strategies focus consultant support on underperforming and low attaining schools at both primary and secondary stages and produce an extensive range of good practice materials which schools can readily access. The Department also supports several programmes which enable successful schools to collaborate and share good practice with other schools including those which are underperforming. This includes Leading Edge Partnership Programme schools that are funded to work with other schools to share their best practice, and a Secondary Performance Project which draws on the expertise of successful schools and the Specialist Schools Trust to work in partnership with schools that while not below the floor target have nevertheless been underperforming in value added terms. Local Authorities are also in the process of appointing trained School Improvement Partners who will work with individual schools to help them identify and access the support their self evaluation identifies as necessary for improvement.

Veterinary School Lecturers

Mr. Paice: To ask the Secretary of State for Education and Skills what her policy is on veterinary school lecturers receiving commercial funding. [24764]

Bill Rammell: As higher education institutions are autonomous, independent bodies they are responsible for determining their own academic and administrative affairs, including terms and conditions for their staff. The Government play no part in setting conditions of service for higher education staff, and as such, have no policy on this specific issue.

HEALTH

Abortions

Nick Harvey: To ask the Secretary of State for Health (1) how many abortions were conducted in the past 12 months in England and Wales *(a)* at 20 or more weeks, gestation and *(b)* at 12 weeks, or fewer of gestation; [24185]

(2) what information she collects on the number of Northern Irish women who come to England or Wales to have an abortion. [24186]

Caroline Flint: The information requested can be found in the Department's statistical bulletin 2005/11 "Abortion Statistics, England and Wales: 2004", which is available on the Department's website at:

www.dh.gov.uk/assetRoot/04/11/75/74/04117574.pdf

Copies are also available in the Library.

The available, provisional abortion data for January to March 2005 can be found in "Health Statistics Quarterly 27" at:

www.nationalstatistics.gov.uk/StatBase/Product.asp?vlnk=6725&Pos=&ColRank=1&Rank=422

Assaults on NHS Workers

Mr. Holloway: To ask the Secretary of State for Health how many assaults have been committed against NHS workers while on duty in the Gravesham constituency in each of the last three years. [24136]

Caroline Flint: The information requested is not collected in the format requested. The NHS Security Management Service (NHS SMS) has policy and operational responsibility for the management of security in the national health service, including work to tackle violence against NHS staff. In November 2003, a comprehensive range of measures were introduced by NHS SMS to proactively and reactively deal with the problem of violence against NHS staff.

Since that time, an estimated 85,000 front line NHS staff have been trained to prevent and manage violence and the number of prosecutions identified involving those who have physically assaulted staff has risen from 51 in 2002–03 to 759 in 2004–05.

Breastfeeding

Joan Walley: To ask the Secretary of State for Health if she will take steps to promote breastfeeding. [23758]

Caroline Flint: The Government are committed to the promotion of breastfeeding as the best form of nutrition for infants and has a range of ongoing activities to increase support for breastfeeding. In particular, the Government are demonstrating its commitment to the

promotion of breastfeeding by supporting national breastfeeding awareness week, which will be held 14 to 20 May 2006.

Phase one of healthy start, a reform of the welfare food scheme, is expected to commence later this year and one of its aims is to increase promotion and support for breastfeeding by encouraging earlier contact with the national health service. Healthy start will also provide equal benefits for breastfeeding mothers.

Cancer

Mr. Pelling: To ask the Secretary of State for Health what steps she will take to expedite the approval of *(a)* Xeloda and *(b)* Cetuximab by the National Institute for Health and Clinical Excellence. [23488]

Jane Kennedy: I understand that the National Institute for Health and Clinical Excellence is currently consulting on its draft guidance on Xeloda for colon cancer and that final guidance is scheduled to be published in June 2006. Guidance on Cetuximab for colon cancer is scheduled for publication in November 2006.

Mr. Lansley: To ask the Secretary of State for Health what her estimate is of the number of additional scans needed each year to meet the guidance issued by the National Institute for Health and Clinical Excellence recommendation that women aged between 40 and 49 years and at high risk of breast cancer be screened every year for breast cancer; what assessment she has made of whether this guidance is being implemented; and what assessment she has made of the relative effectiveness of MRI scans and mammography in detecting breast cancer in women aged between 40 and 49 years. [23967]

Jane Kennedy: The National Institute for Health and Clinical Excellence (NICE) clinical guideline on the classification and care of women at risk of familial breast cancer estimated that an extra 21,000 scans annually would be needed to implement the guideline nationally.

Clinical guidelines from NICE are reflected in the standards published by the Department which provide a framework for continuous improvement in the overall quality of care people receive. Clinical guidelines are covered by the developmental standards, standards which the national health service is expected to achieve over time. The Healthcare Commission has responsibility for assessing progress towards achieving these standards. Clinicians are expected to take full account of NICE guidelines because they are based on the best available evidence and have been put together after wide consultation, drawing on the views of patients and carers as well as the experts in the field.

A multi-centre trial, magnetic resonance imaging for breast screening (MARIBS), compared regular mammographic screening and regular magnetic resonance imaging (MRI) for women at a high familial risk of breast cancer. The study ran for five years, and was funded by the Medical Research Council and National Health Service research and development. The results of the study were published in May 2005. The NICE guideline noted that several MRI studies, including MARIBS, would be published over the next few years. When the information from these studies becomes available, the recommendations in the guideline will be reviewed by NICE.

We are delivering an unparalleled expansion in most diagnostic services in the NHS, and there will be a 100 per cent. increase of 900,000 MRI scans between 2004–05 and 2007–08.

Children's TV (Advertising)

Dr. Kumar: To ask the Secretary of State for Health what assessment she has made of the impact on children's health of advertising of *(a)* fast foods and *(b)* sweets and snacks during children's television. [24366]

Caroline Flint: The Food Standards Agency commissioned a comprehensive study in 2003 (Hastings) into the effects of food promotion to children. The study concluded that food promotion is having an impact on children's preferences, purchase behaviour and consumption. Other studies have shown that the majority of foods advertised during children's peak viewing times are for foods high in fat, salt and sugar. The Choosing Health White Paper outlined the Government's strategy to restrict further the advertising and promotion to children of those foods high in fat, salt and sugar.

Dartford, Gravesham and Swanley PCT

Mr. Holloway: To ask the Secretary of State for Health if she will make a statement on the financial position of the Dartford, Gravesham and Swanley primary care trust. [24137]

Caroline Flint: The latest available data on the financial position of primary care trusts (PCTs) is for 2004–05. The 2004–05 financial position of Dartford, Gravesham and Swanley PCT is £1.1 million deficit.

Dentistry

Mr. Drew: To ask the Secretary of State for Health how many dentists in the Cotswold and Vale primary care trust area *(a)* operate fully within the NHS and *(b)* only offer NHS treatment for children. [24699]

Caroline Flint: As at 30 September 2005, there were 95 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Cotswold and Vale primary care trust (PCT).

The data source is the Dental Practice Board. A dentist with a GDS or PDS contract may provide as little or as much NHS treatment as he or she chooses or has agreed with the PCT. The Dental Practice Board has no information concerning the amount of time dedicated to private or NHS work by individual dentists.

Information about who dentists offer to treat is not collected centrally. However, an analysis of NHS patient registrations data as at 1 June 2005 show that within Cotswold and Vale PCT there were three dentists having only children registered.

Departmental Call Centres

Mr. Laws: To ask the Secretary of State for Health how many call centres were run by her Department and its agencies in *(a)* 2003–04, *(b)* 2004–05 and *(c)* 2005–06 to date; and how many and what proportion of calls (i) were handled by an adviser, (ii) were received but abandoned and (iii) received an engaged tone. [23301]

Jane Kennedy: In 2003–04, 2004–05 and 2005–06 to date a call centre has been run by the Department but not by any of its executive agencies.

Figures on calls answered and abandoned are not held for 2003. For 2004 and 2005, data is held on calls answered and abandoned but not calls receiving the engaged tone.

In 2004, the Department received 114,883 calls, of which 102,196 were answered by an information adviser. 12,687 calls were abandoned once connected to a message—a rate of 11.04 per cent.

In 2005, the Department has, to the end of October, received 97,488 calls and 93,534 were answered by an information adviser. 3,954 calls were abandoned once connected to a message—a rate of 4.05 per cent.

Health Protection Agency

Mr. Drew: To ask the Secretary of State for Health how many staff are employed at each office of the Health Protection Agency. [23970]

Caroline Flint: The information requested has been placed in the Library. It gives details of staff at each location as at October 2005.

Health Services (Tooting)

Mr. Khan: To ask the Secretary of State for Health how much her Department has allocated for *(a)* hospital services, *(b)* general practitioner services and *(c)* dental services in the constituency of Tooting in each year since 1997. [18117]

Jane Kennedy: The information requested is shown in the tables.

Funding for general practitioner services and dental services has historically, with some exceptions, been held centrally and not allocated to primary care trusts (PCTs). Funding was demand led, with payments made in response to claims submitted by general practitioners and dentists.

Following the new general practitioner contract, the Department made primary medical services allocations to PCTs in 2004–05 and 2005–06, which will become part of PCTs' overall allocations from 2006–07.

Following the new dental contract, the Department will make dental allocations to PCTs from 2006–07.

The Department has made allocations to PCTs from 2003–04.

The Department made separate primary medical services (PMedS) allocations to PCTs in 2004–05 and 2005–06.

Table 1 shows the allocations made to Merton, Sutton and Wandsworth Health Authority (HA) in 1997–98 and 1998–99. The Department made allocations to HAs from 1996–97 for hospital and community health services (HCHS).

Table 1: HCHS allocations 1997–98 to 1998–99

£ million

HA	1997–98	1998–99
Merton, Sutton and Wandsworth	309.3	322.3

Note:
It is not possible to separate the allocations for hospital services from the allocations for community health services.

Table 2 shows the unified allocations made to Merton, Sutton and Wandsworth HA between 1999–2000 and 2002–03. The Department made unified allocations to HAs from 1999–2000 covering HCHS, prescribing and general medical services cash limited.

Table 2: Unified allocations 1999–2000 to 2002–03

£ million

HA	1999–2000	2000–01	2001–02	2002–03
Merton, Sutton and Wandsworth	423.0	455.9	498.6	563.1

Note:
These services cannot be separately identified. These figures are not comparable with earlier years which cover HCHS only.

Table 3 shows the revenue allocations made to Wandsworth PCT for 2003–04 to 2005–06.

Table 3: Revenue allocations 2003–04 to 2005–06

£ million

PCT	2003–04	2004–05	2005–06
Wandsworth	275.8	303.1	332.2

In February 2005, the Department announced revenue resource allocations to PCTs for 2006–07 and 2007–08. Table 4 shows the revenue allocations to Wandsworth PCT for 2006–08.

Table 4: Revenue resource allocations 2006–07 and 2007–08

£ million

PCT	2006–07	2007–08
Wandsworth	388.4	420.0

Note:
These include primary medical services funding and are not comparable with earlier years.

Table 5 shows the PMedS allocations to Wandsworth PCT in 2004–05 and 2005–06.

Table 5: Primary medical services allocations 2004–05 and 2005–06

£ million

PCT	2004–05	2005–06
Wandsworth	25.2	26.5

Note:
These allocations covered the bulk of the funding for the new GP contract, with the remaining funding for quality being allocated to the NHS Bank.

Hip Replacement (Waiting Time)

Mr. Amess: To ask the Secretary of State for Health what the average waiting time for a hip replacement operation has been in *(a)* Southend primary care trust, *(b)* Essex, *(c)* the Metropolitan police area of London and *(d)* England in each year since 1997. [14267]

Mr. Byrne: The main national health service data returns on inpatient waiting times, which provide a count of those waiting for admission and how long they have been waiting, are not available for hip replacement operations but are available for trauma and orthopaedics procedures more generally. Annual average waiting times for each year since 1997 have been placed in the Library. They show that average waiting times for trauma and orthopaedics have fallen from:

15.7 weeks at the end of 2003–04 to 9.8 weeks at the end of 2004–05 in Southend primary care trust.

22.0 weeks at the end of 1997–98 to 10.6 weeks at the end of 2004–05 in Essex strategic health authority (SHA).

22.7 at the end of 1997–98 to 11.3 weeks at the end of 2004–05 in the London SHAs.

18.3 weeks at the end of 1997–98 to 11.3 weeks at the end of 2004–05 in England.

The NHS collects annual data through hospital episodes statistics (HES) on the time waited by patients who have completed their wait for a hip replacement operation. This includes periods of suspension (where the patient is medically unfit for treatment or has made themselves unavailable for treatment) and all patients treated by NHS provider organisations (whether or not they are the responsibility of NHS commissioning bodies in England). This HES data has also been placed in the Library. The data shows increases in the first part of this period followed by more recent reductions and reflects the NHS's achievements during this period in tackling backlogs of long waits for orthopaedic patients.

HIV/AIDS

Dr. Cable: To ask the Secretary of State for Health how much her Department has spent on advertising and promoting awareness of HIV/AIDS in England in each of the last five years for which figures are available. [17835]

Caroline Flint: In addition to investment locally by the national health service, the totals the Department has spent on targeted HIV health promotion work, including advertising, are shown in the table.

Totals spent on advertising and promotion of awareness of HIV/AIDS: England, 2000–01 to 2004–05

	Amount (£ million)
2004–05	1.710
2003–04	1.750
2002–03	1.950
2001–02	1.600
2000–01	1.640

Dr. Cable: To ask the Secretary of State for Health how many condoms have been distributed free of charge by her Department in each of the last five years for which records are available. [17851]

Caroline Flint: The information requested is not collected centrally. The Department does not distribute condoms. Primary care trusts are responsible for local sexual health and HIV health promotion including the provision of free condoms.

Infection Control

Mr. Lansley: To ask the Secretary of State for Health when she plans to publish her response to the consultation on action on healthcare associated infection in England. [23106]

Jane Kennedy: A summary of the consultation responses will be available on the Department's website shortly.

Influenza

Mr. Lansley: To ask the Secretary of State for Health which groups of health professionals are allowed to prescribe *(a)* Tamiflu and *(b)* other anti-viral drugs; and whether she plans to expand the prescribing rights of groups of health professionals to cover anti-virals (i) in the event of an influenza pandemic and (ii) at other times. [23115]

Jane Kennedy: Anti-virals, including Tamiflu, can be prescribed by doctors, dentists and supplementary prescribers. They can also be supplied and/or administered under a patient group direction by a wide range of health professionals including nurses, pharmacists and paramedics.

Patients in defined at-risk groups are eligible to receive Tamiflu on national health service prescription. Private prescriptions may be issued to other patients outside the defined risk groups.

We are exploring additional ways of making antiviral medicines available for timely patient treatment in a pandemic scenario should that be required.

The Department is already embarked upon a general programme to expand non-medical prescribing to suitably qualified members of registered healthcare professions.

IT Projects

Mr. Laws: To ask the Secretary of State for Health how many IT projects have been developed for her Department since 2001; and whether she has agreed to make public Gateway reviews for these projects *(a)* in full and *(b)* in part. [23518]

Jane Kennedy: The Department has undertaken 58 information technology (IT) projects since 2001. The Office of Government Commerce has released part of one Gateway review report on the National Programme for IT. The Department has released part of one of the Gateway review reports related to the national health service e-recruitment project.

MRSA

Andrew Rosindell: To ask the Secretary of State for Health how many patients have contracted MRSA at hospitals in *(a)* Romford, *(b)* Essex and *(c)* London in 2005. [22947]

Jane Kennedy: The information requested is not available in the format requested, but the number of cases of meticillin resistant *Staphylococcus aureus* blood stream infections reported from April 2004 to March 2005 in Essex, London and the Barking, Havering and Redbridge Hospitals National Health Service Trust, which covers Romford, is shown in the table.

Strategic health authority (SHA)	*2004–05*
Essex	183
London SHAs[1]	1373
Barking, Havering and Redbridge NHS Trust	98

[1] There are five SHAs in London. The figure covers all of them.

Source:
Health Protection Agency.

NIHCE

Mr. Holloway: To ask the Secretary of State for Health when she expects to make a decision on the proposals for changes to the National Institute for Health and Clinical Excellence topic selection process. [24140]

Jane Kennedy: The process of selecting topics for the National Institute for Health and Clinical Excellence is reviewed from time to time and we are currently considering the scope for further improvements.

Sterile Services

Mr. Oaten: To ask the Secretary of State for Health if she will publish the findings of the Pathfinder initiative on sterile services. [20205]

Jane Kennedy *[holding answer 20 October 2005]:* The Pathfinder project will deliver improved decontamination services to the Bradford Teaching Hospitals National Health Service Foundation Trust, the Leeds Teaching Hospitals NHS Trust and the Calderdale and Huddersfield NHS Trust. An evaluation report will be published after the project is complete.

Road Accidents

Mr. Hepburn: To ask the Secretary of State for Health how many people have died in road accidents in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the north east and *(d)* England in each year since 1997. [26571]

Dr. Ladyman I have been asked to reply.

The number of people who have died in road accidents in *(a)* the Jarrow constituency, *(b)* the district of South Tyneside, *(c)* the north east Government office region and *(d)* England in each year since 1997 are given in the table.

Year of accident	*Parliamentary constituency* *Jarrow*[1]	*Local authority (district)* *South Tyneside*	*Government office region* *North east*	*Country* *England*
1997	0	2	135	3,001
1998	1	2	121	2,834
1999	6	6	126	2,922
2000	1	3	93	2,915
2001	1	1	102	2,916
2002	2	3	126	2,980
2003	3	7	132	3,004
2004	3	5	128	2,714

[1] Based on 2004 boundaries

Waiting Times

Mr. Lansley: To ask the Secretary of State for Health if she will instruct the Health Protection Agency to carry out an audit of waiting times for genito-urinary medicines services. [23962]

Caroline Flint: The Department commissioned the Health Protection Agency in 2004 to undertake a bi-annual, and now quarterly, audit of waiting times in genito-urinary medicine (GUM) clinics. The latest data, from a survey undertaken in May 2005, show that 45 per cent. of patients are seen within 48 hours at GUM clinics. Primary care trusts and strategic health authorities have already developed plans on how they will meet the target of 48-hour access through the local delivery planning process. To support this, the Department is investing an additional £130 million for GUM services and infrastructure in 2006–07 and 2007–08 to enable clinics to expand their services and reduce waiting times. An additional £15 million capital funding has also been recently allocated.

Written Answers to Questions

Thursday 10 November 2005

TREASURY

Economic Growth (Immigration)

7. **Mr. Lilley:** To ask the Chancellor of the Exchequer what assumptions he has made, in forecasting economic growth, about the impact of immigration on *(a)* the growth of the labour force and *(b)* the rate of growth of productivity per head of the existing labour force. [26728]

John Healey: Net inward migration makes a positive contribution to growth of the UK labour force and the trend rate of output growth. Details of the Treasury's methodology for projecting trend growth and its productivity and labour input components are set out in the publication "Trend Growth: Recent Developments and Prospects" (2002). The projection for net inward migration is based on projections by the Government Actuary's Department. The Treasury's latest published economic forecast and underlying assumptions for trend growth and its components were set out in Budget 2005, and will be updated in the forthcoming pre-Budget report.

Climate Change

12. **Mr. Blizzard:** To ask the Chancellor of the Exchequer what research he has commissioned on the relative costs of energy sources and tackling climate change. [26733]

John Healey: This Government attach great importance to tackling climate change, as demonstrated by their decision to make climate change a priority for the UK presidencies of the G8 and EU. To build up our knowledge base of the challenges we face the Chancellor has asked Sir Nick Stern to lead a major review of the economics of climate change. This review will allow us to understand more comprehensively the nature of the economic challenges we face and how they can be met, in the UK and globally.

The review will report to the Prime Minister and Chancellor by autumn 2006.

Biofuels (Capital Allowances)

13. **Chris McCafferty:** To ask the Chancellor of the Exchequer what the capital allowances are for the development of biofuel production. [26734]

John Healey: Budget 2005 announced that the Government considered that offering enhanced capital allowances for the cleanest biofuels processing plants would be a useful additional measure of support to the UK biofuels industry, subject to Commission approval. We are currently undertaking further detailed work on this issue and will update the position as part of the pre-Budget report. Where combined heat and power is used as part of biofuels plant, that equipment is already eligible for a 100 per cent. ECA.

Millennium Development Goals

14. **Colin Burgon:** To ask the Chancellor of the Exchequer what contribution he is making towards meeting the 2015 targets for reducing world poverty. [26735]

Mr. Ivan Lewis: UK aid will reach nearly £6.5 billion a year by 2007–08, and the Chancellor has announced that we will reach the UN target of 0.7 per cent. overseas development aid as proportion of gross national income in 2013.

Stamp Duty

16. **Mr. Bellingham:** To ask the Chancellor of the Exchequer how much revenue was raised by stamp duty in *(a)* 1996–97 and *(b)* 2004–05. [26738]

Mr. Ivan Lewis: The amount of revenue raised in 1996–97 by stamp duty on residential land and property transactions was £675 million.

The amount of revenue raised in 2004–05 by stamp duty land tax on residential land and property transactions was £5.5 billion.

Mrs. Spelman: To ask the Chancellor of the Exchequer how much revenue was raised from stamp duty, on *(a)* residential and *(b)* commerical property in (i) each Government office region, (ii) Wales, (iii) Scotland and (iv) Northern Ireland in each financial year since 1996–97. [26938]

Mr. Ivan Lewis: Latest estimates of the amount of stamp duty raised on residential land and property transactions are available at:

http://www.hmrc.gov.uk/stats/stamp_duty/table15_2_october04.pdf

Latest estimates for stamp duty raised on commercial transactions are given in the table.

European Single Currency

17. **Ann Winterton:** To ask the Chancellor of the Exchequer what assessment he has made of the performance of the European single currency. [26739]

Mr. Ivan Lewis: To be fully equipped for the global economy, Europe must become more open and outward looking, more flexible and competitive, and more committed to reform to compete worldwide and move to full employment. Membership of the European single currency places an additional premium on flexibility in capital, product and labour markets since the ability to vary national interest rates and the nominal exchange rate between euro area countries no longer exists.

Debt Cancellation

18. **Mr. Devine:** To ask the Chancellor of the Exchequer if he will make a statement on his policy on the cancellation of debt for the world's poorest countries. [26740]

Mr. Ivan Lewis: At the annual meetings in September we secured agreement from the IMF and World Bank for multilateral debt relief for up to 38 of the world's most indebted countries of a full 100 per cent. Britain goes further than this and we will unilaterally service our share of the debts of other poor countries where the resources freed up will be used for poverty reduction.

Illegal Working

19. **Mr. Hollobone:** To ask the Chancellor of the Exchequer what his latest estimate is of the impact on tax revenues and the economy of illegal working by *(a)* British and EU citizens, *(b)* asylum seekers and *(c)* illegal immigrants. [26741]

John Healey: It is not possible to provide reliable estimates of the impact on tax revenues and the economy of illegal working by British and EU citizens, asylum seekers or illegal immigrants.

Tax Credits

20. **Mr. Gauke:** To ask the Chancellor of the Exchequer what recent assessment he has made of the administration of the tax credits system. [26742]

Dawn Primarolo: In my statement to the House of 26 May I set out a series of important measures for improving the administration of tax credits. I updated the House on progress in a statement to the Treasury Sub-Committee on 26 October.

Over 6 million families—nine out of 10 families in this country—are benefiting from tax credits. For the majority of families the system is working well. And it has helped lift more than half a million children out of poverty since 1998–99.

24. **Meg Hillier:** To ask the Chancellor of the Exchequer how many families in Hackney, South and Shoreditch received tax credits in 2004–05; and if he will make a statement. [26746]

Dawn Primarolo: In 2003–04 there were on average 4,600 families in the Hackney, South and Shoreditch constituency who benefited from child and working tax credits. Figures for 2004–05 will be available after family incomes and circumstances have been finalised.

Andrew Rosindell: To ask the Chancellor of the Exchequer how many claimants have made incorrect claims for *(a)* working tax credits and *(b)* child tax credits in 2005. [22962]

Dawn Primarolo: The information requested is not available.

Mr. Frank Field: To ask the Chancellor of the Exchequer when the constituent of the right hon. Member for Birkenhead, Mrs. Williams of Slatey Road, Wirral, will receive the tax credits owed to her since July. [25131]

Dawn Primarolo: HM Revenue and Customs is statutorily debarred from disclosing information relating to the tax affairs of individuals. The Tax Credit Office will however, be writing to the right hon. Gentleman very shortly about his constituent's claim for tax credits.

Mr. Davey: To ask the Chancellor of the Exchequer (1) what estimate he has made of the expenditure on child tax credit for parents of 16 to 19-year-olds in full-time education for *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; [25380]

(2) what the estimated expenditure is on child benefit for 16 to 19-year-olds in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [25384]

Dawn Primarolo: The information requested is not available.

The latest figures on the number of children by age for whom child benefit is received are published in "Child Benefit. Quarterly Statistics. May 2005". The publication can be found on the HMRC website under the link given below:

http://www.hmrc.gov.uk/stats/child_benefit/quarterly.htm

The latest figures available on the number of children by age for whom child tax credit is received are published in "Child and Working Tax Credit Statistics. April 2005". The publication can be found on the HMRC website under the link below:

http://www.hmrc.gov.uk/stats/personal-tax-credits/c-wtc-stats-april05.pdf

Minimum Wage

21. **Mr. McGovern:** To ask the Chancellor of the Exchequer what assessment he has made of the merits of an extension of the minimum wage to 16 and 17-year-olds. [26743]

Dawn Primarolo: In its 2004 report, the Low Pay Commission proposed the introduction of a National Minimum Wage for 16 and 17-year-olds, at an hourly rate of £3.00 per hour. The Government accepted the Commission's recommendation and the Youth Rate was introduced in October 2004.

The Government agree with the Commission that the Youth Rate puts a stop to clear exploitation while neither encouraging young people out of education nor harming the supply of training places.

The Low Pay Commission are currently considering a range of matters in connection with the minimum wage, including the impact of the new rate for 16 and 17-year-olds workers, and we expect to receive their report in spring 2006.

Mr. Kemp: To ask the Chancellor of the Exchequer how many businesses were found to be employing workers for less than the minimum wage in *(a)* Houghton and Washington East and *(b)* Sunderland city council area in each year since the minimum wage was introduced; and how many were (i) fined and (ii) forced to cease trading. [25514]

Dawn Primarolo: The information requested is not available.

National minimum wage statistical data are not held by reference to constituency or council areas.

City Academies

22. **Simon Hughes:** To ask the Chancellor of the Exchequer when he expects a resolution satisfactory to city academies to be reached following the discussions between his Department and colleagues at the Department for Education and Skills. [26744]

John Healey: Discussions with the Department for Educations and Skills are on-going, including about the impact of the VAT rules on academies. The Government are also in discussion with academies about this issue.

Golden Rule

23. **Mike Penning:** To ask the Chancellor of the Exchequer if he will introduce an independent monitoring system for the Golden Rule. [26745]

Mr. Des Browne: Progress against the golden rule is measured by the average annual surplus on the current budget as a percentage of GDP since the cycle began. The independent Office for National Statistics produces the public finance and national accounts statistics on which this measurement is based. These statistics are subject to the same safeguards and quality control procedures that apply to all statistics produced within the National Statistics framework.

In addition, the Comptroller and Auditor General has been asked to audit the end date of the previous economic cycle and give us his view as to whether the judgment is reasonable and cautious.

Child Trust Fund Vouchers

Rosie Cooper: To ask the Chancellor of the Exchequer how many child trust fund vouchers had been issued up to 30 September in West Lancashire; how many of these have been cashed; and if he will make a statement. [27747]

Mr. Ivan Lewis: The information requested is available only at disproportionate cost. UK-wide information on the number of child trust fund vouchers issued and the number of accounts opened are published quarterly on the HMRC website at http://www.hmrc.gov.uk/stats/child_trust_funds/child-trust-funds.htm. The second set of quarterly figures was published on 31 August 2005.

Data showing activity to 20 November will be published on the 30 November 2005.

Childcare Vouchers

Margaret Moran: To ask the Chancellor of the Exchequer what estimate he has made of the take-up rate of tax-free child care vouchers. [26105]

Dawn Primarolo: Estimates of the cost of the new tax and national insurance contributions (NICs) exemption for employer supported child care were included in page 6 of the "Economic and Fiscal Strategy Report" and "Financial Statement and Budget Report 2004"[1]. Her Majesty's Revenue and Customs are monitoring the levels of take-up but the information is not yet available.

[1] This page can be accessed at http://www.hm-treasury.gov.uk/media/7A8/DF/bud04_cha_190.pdf

Document Terminology

Andrew Selous: To ask the Chancellor of the Exchequer what his policy is on the use of the word spouse in official documents; if he will encourage the use of the term spouse/partner; and if he will make a statement. [24778]

Dawn Primarolo: For tax purposes, official documents and forms will continue to use the term "spouse" where it already occurs. Following the start of the civil partnership scheme on the 5 December 2005 documents and forms will in due course include the term "civil partner" to recognise this new relationship.

From 5 December, in line with the changes to tax credits legislation made by the Civil Partnership Act and consequential regulations, child and working tax credits forms and documents will refer to an extended definition of the term 'couple', including same-sex couples.

Dormant Accounts

Mr. Martyn Jones: To ask the Chancellor of the Exchequer if he will list the dates of meetings that have taken place between his officials and representatives of *(a)* banks and *(b)* building societies to discuss dormant accounts in the last two years; and if he will make a statement. [27609]

Mr. Ivan Lewis: HM Treasury meet regularly with representatives of banks and building societies to discuss this and other issues.

Mr. Martyn Jones: To ask the Chancellor of the Exchequer what progress has been made in discussions between his officials and representatives of *(a)* banks and *(b)* building societies on dormant accounts; and if he will make a statement. [27654]

Mr. Ivan Lewis: As stated in the Budget 2005, HM Treasury is engaged in constructive discussions with the industry to take work on unclaimed assets forward. A report on progress will be made in due course.

Farming Industry (Suicides)

Mr. Steen: To ask the Chancellor of the Exchequer how many suicides were recorded in the farming industry in each of the last five years. [26269]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell to Mr. Anthony Steen, dated 10 November 2005:

As National Statistician, I have been asked to answer your question asking how many suicides were recorded in the farming industry in each of the last five years. (26269)

The most recently available information is for deaths in 2004. Figures for deaths in farm workers or farm owners from suicide or injury or poisoning of undetermined intent are shown in the table for each year from 2000 to 2004.

Number of deaths from intentional self-harm[1] and injury or poisoning of undetermined intent[2] in farm workers or farm owners[3], England and Wales, 2000–04[4]

Calendar year	Number of deaths
2000	58
2001	55
2002	45
2003	55
2004	42

[1] The cause of death for intentional self-harm was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950 to E959 for 2000, and for the years 2001 to 2004, the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84.

[2] The cause of death for injury or poisoning of undetermined intent was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E980 to E989 excluding E988.8 for 2000, and, for the years 2001 to 2004, the International Classification of Diseases, Tenth Revision (ICD-10) codes Y10-Y34 excluding Y33.9 where the coroner's verdict was pending.

[3] The occupation coded at death registration is the last gainful occupation of the deceased, as supplied by the informant who registers the death and is recorded for all persons aged 16 to 74. ONS Standard Occupation Classification 1990 (SOC90) was used to code data for 2000, and ONS Standard Occupational Classification 2000 (SOC2K) was used to code data from 2001 to 2004.

[4] Data are for occurrences of death in each calendar year.

Films (Tax Relief)

Mr. Don Foster: To ask the Chancellor of the Exchequer (1) if he will extend the deadline for principal photography and acquisition to be completed for films claiming tax relief under section 48 of the Finance (No. 2) Act 1997; [26691]

(2) what arrangements have been made for the transition period to the new tax credit system for films claiming under section 42 of the Finance (No. 2) Act 1997. [26692]

Dawn Primarolo: The Government have recently carried out a consultation on the replacement of the current tax relief for UK film production. We will consider the representations that have been made and make an announcement in due course.

Land Registry (Birkenhead)

Mr. Frank Field: To ask the Chancellor of the Exchequer what factors are responsible for the delay in settling the increase in the 2005–06 pay of Land Registry staff in Birkenhead; and whether the increase in pay will reflect the delay in the annual pay review. [27246]

Mr. Des Browne: For staff below the senior civil service, Departments and agencies have authority to determine pay and conditions, appropriate to their business needs and taking account of wider Government policies on public sector pay. Proposals for pay remits must be submitted, then negotiated with HM Treasury and, in most cases, are subject to ministerial approval. The length of time to agree is determined, In part, by the complexity of the proposals put forward.

Having submitted their pay remit this year and following discussions with the Treasury and the Cabinet Office, the Land Registry entered into negotiations with the relevant trade union bodies on the final pay award to reach a settlement, publishing details of this year's offer to staff on November 8. The level of award will be back-dated by the Land Registry to the annual settlement date.

National Insurance Contributions Bill

Mr. Lancaster: To ask the Chancellor of the Exchequer what assessment he has made of the possible impact of the National Insurance Contributions Bill on orchestras and ensembles. [24846]

Dawn Primarolo: The National Insurance Contributions Bill was introduced to ensure that employers and employees who have participated in tax avoidance pay their fair share of National Insurance Contributions on rewards of employment. It has no specific impact on orchestras and ensembles.

Revenue Increases

Mrs. Spelman: To ask the Chancellor of the Exchequer what assessment the Government have made of the causes of increases in *(a)* stamp duty revenues and *(b)* inheritance tax revenues since May 1997; and if he will make a statement. [26943]

Mr. Ivan Lewis: Tax revenues will automatically rise each year as the economy grows, asset prices increase, more people are in work and people are earning more.

This is a sign of economic success and increased national prosperity with employment increasing by over 2.2 million since 1997.

The Government publish their analysis of the economic factors that influence tax revenues twice yearly: at the pre-Budget report and the Budget.

VAT

Jim Cousins: To ask the Chancellor of the Exchequer what the intended date is for introduction of VAT on outsourced insurance services; and whether it will apply to services outsourced to *(a)* Crown dependencies and overseas territories, *(b)* countries of the European Union and *(c)* other countries. [26202]

Mr. Ivan Lewis: HM Revenue and Customs issued a consultation document on the proposed changes to the VAT exemption for insurance-related services in July. The consultation exercise formally closed on 30 September 2005. The responses are currently being considered very carefully ahead of any decision.

Whether UK VAT is chargeable on services outsourced from outside the UK depends on the exact nature of the service supplied. This will determine where they are deemed to be supplied. General administration services are deemed to be supplied where the supplier belongs and would be outside the scope of UK VAT when supplied from outside the UK.

Windfall Tax

Andrew Rosindell: To ask the Chancellor of the Exchequer what criteria are used to decide whether to impose windfall taxation. [27151]

Dawn Primarolo: The Government believe that a modern and fair tax system should encourage work and saving, keep pace with business practices and the global economy and provide the foundation for building world-class public services. The Government keep all taxes under review and any changes to taxation are considered as part of the normal Budget process.

HOME DEPARTMENT

Air Weapons

Shona McIsaac: To ask the Secretary of State for the Home Department how many air weapon offences were committed in the Humberside police area in each of the last five years. [24737]

Hazel Blears: The information requested is given in the following table.

Offences involving air weapons recorded by Humberside police, 1999–2000 to 2003–04

	Number of offences
1999–2000	482
2000–01	433
2001–02[1]	410
2002–03[2]	312
2003–04	264

[1] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard in advance of national implementation.

[2] The National Crime Recording Standard was introduced on 1 April 2002. Figures before and after this date are not directly comparable.

Mr. Hollobone: To ask the Secretary of State for the Home Department what assessment he has made of the potential impact of the Violent Crime Reduction Bill on the pastime of airsofting; and what representations he has received on this issue. [25350]

Hazel Blears: We have received representations from both participants and organisers, including the Association of British Airsoft, about the effects of the Violent Crime Reduction Bill and are considering whether it would be appropriate and possible for the sport of airsoft to be exempted from the provisions of the Bill without undermining its main purpose. Under the provisions of the Bill as currently drafted, participants will still be able to use their existing guns and will be able to buy any airsoft which is not so realistic as to make it indistinguishable from a real firearm.

Antisocial Behaviour

Mr. Carswell: To ask the Secretary of State for the Home Department what percentage of those issued with antisocial behaviour orders in *(a)* England and Wales and *(b)* Tendling district have breached the terms of their order in the most recent period for which figures are available. [25450]

Hazel Blears: Data on convictions for breach of an antisocial behaviour order (ASBO) are currently available from one June 2000 to 31 December 2003. Of the 1,892 ASBOs issued during this period within England and Wales, as reported to the Home office, 42 per cent. of persons (793) breached their ASBO on one or more occasions.

ASBO breach data are available at Criminal Justice System area level only.

Asylum Seekers

Martin Linton: To ask the Secretary of State for the Home Department how many Somalian nationals have claimed asylum at Heathrow arriving on flights from *(a)* Nairobi and *(b)* Addis Ababa in the last five years. [25121]

Andy Burnham: In the last five years, 58 Somalian Nationals, arriving on flights from Nairobi, have claimed asylum at Heathrow and 44 Somalian Nationals, on arrival from flights from Addis Ababa, have claimed asylum at Heathrow over the corresponding period.

John Bercow: To ask the Secretary of State for the Home Department what percentage of new substantive asylum applications received between 1 January and 30 June 2005 had initial decisions reached and served within two months. [26662]

Andy Burnham: Information on the timeliness of initial decisions is published quarterly and annually, data for Q2 2005 will be published in the Asylum Statistics: 3rd Quarter 2005 publication available on

22 November 2005 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Biometrics

Mr. Drew: To ask the Secretary of State for the Home Department if any future use of biometrics for both passports and identity cards will be entirely managed and delivered within the public sector. [25657]

Andy Burnham: It is currently envisaged that the services required to support the delivery of biometrics for the use in both passports and identity cards, will be managed within the public sector and delivered using both public and private sector resources. This approach ensures that the best possible use can be made of external capability, while retaining critical decision making and strategically important functions within the public sector. Any developments in the future will support this principle and will ensure that the public sector retains control of all key decision making in regard to the use of biometrics and all decisions about enrolments using biometrics.

Community Policing

Andrew Rosindell: To ask the Secretary of State for the Home Department if he will make a statement on community policing in Romford; and what assessment has been made of the effectiveness of ward policing in London. [26442]

Hazel Blears: The Government are committed to every area in England and Wales benefiting from dedicated, visible, accessible and responsive neighbourhood policing teams by 2008. Within London, the roll-out of safer neighbourhoods teams are a decision for the commissioner of the Metropolitan police. There are currently eight teams in the London borough of Havering, and the commissioner plans that all areas of London will benefit by April 2007.

The Home Office has commissioned an evaluation of the impact of the National Reassurance Policing programme which includes four wards in the Metropolitan Police Service, in Bexley, Enfield, Kensington and Chelsea and Merton. This study will assess the impact of police activity on public feelings of safety and security, community engagement and confidence in the police, and will be published in the early part of 2006. The MPS are conducting their own internal assessment of the Safer Neighbourhoods programme for operational purposes, which includes a public attitudes survey.

Court Orders

Andrew Rosindell: To ask the Secretary of State for the Home Department how many breaches of anti-social behaviour orders have *(a)* resulted in and *(b)* not resulted in court action in (i) Romford and (ii) Havering since they were introduced. [26441]

Hazel Blears: The Home Office court proceedings database holds breach proceedings only where there has been a conviction. These data are available at Criminal Justice System area level only.

Criminal Assets

John Bercow: To ask the Secretary of State for the Home Department what his target is for the recovery of criminal assets in 2005. [26649]

Hazel Blears: As set out in the Home Office Strategic Plan 2004–08 (Cm 6287) the target for 2004–05 was £60 million, with more in future years. In 2005–06 we aim to exceed last year's performance where £84.4 million of criminal proceeds was recovered.

Criminal Injuries Compensation

Dr. Cable: To ask the Secretary of State for the Home Department what proportion of cases have been considered for more than two years before a decision has been reached under the Criminal Injuries Compensation Scheme 2001. [21262]

Fiona Mactaggart: The Criminal Injuries Compensation Authority advises that in 2003–04 (the first year in which any case could satisfy this criterion) the percentage was 2.5 per cent. In 2004–05 it was 4.5 per cent.

Cross-border Co-operation

Mrs. Dorries: To ask the Secretary of State for the Home Department what protocols the Government have in place to ensure that cross-border co-operation between police forces is effective; and if he will make a statement. [24516]

Hazel Blears: There are currently protocols for forces to collaborate to deal with cross border crime. The Closing the Gap report identified that some of these arrangements were not as effective as they could or should be. These issues are currently being progressed as part of the Review of the Structure of Police Forces.

Departmental Spending

David T.C. Davies: To ask the Secretary of State for the Home Department how much his Department spent on items of art in 2004–05. [23468]

Mr. Charles Clarke: In 2004–05, as part of the interior art strategy for the new Home Office at 2 Marsham Street, £17,260 was spent on art. The exterior art strategy for 2 Marsham Street was paid for by the developer Annes Gate Property plc. Art provided to Ministers' offices are loaned by the Government Art Collection at no cost to my Department.

Firearms Certificates

Ian Lucas: To ask the Secretary of State for the Home Department how many firearms certificate applications were processed by each police force in England and Wales in each of the last three years for which records are available. [24732]

Hazel Blears: The information requested is given in the following table.

Firearm certificate applications in England and Wales by police force area, 2001 to 2003–04

Number

Police force area	*2001*	*2002*	*2002–03*	*2003–04*
Avon and Somerset	1,692	1,689	1,430	633

Notes:

1. Data collected by calendar year until 2002, financial year thereafter.
2. Includes granted and refused applications for new, renewal and variation certificates.

Knife Crime

Mr. Ruffley: To ask the Secretary of State for the Home Department what the rate of knife crime was in each police authority area in each year since 1997. [25041]

Hazel Blears: The information requested is not collected centrally. Crimes involving the use of a knife cannot be separately identified in the recorded crime statistics.

Military Police

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department (1) what criteria are used in assessing whether military police should participate in policing civilian areas and events; [23652]

(2) how long he expects Cheshire police to be collaborating with military personnel in Operation Yellow Card; [23653]

(3) what guidelines are in place for establishing chain of command when military police and civil police forces work together; [23654]

(4) what assessment he has made of how the civil police force might be supplemented by the military police force; and if he will make a statement. [23655]

Hazel Blears: I am advised by Cheshire police that operation yellow card does not involve military personnel. Operational policing is the responsibility of the chief police officer in the area concerned. Military assistance can be sought in exceptional circumstances in accordance with arrangements that include the need to seek approval of the relevant Ministers in the Home Office and the Ministry of Defence. In such circumstances, military personnel provide support to and work under the control of the chief police officer. This remains the case even in circumstances where military personnel are deployed in support of the police.

Offensive Weapons

Richard Younger-Ross: To ask the Secretary of State for the Home Department how many people have been found to be carrying knives in public without a good reason or lawful authority in *(a)* England and Wales and *(b)* the Teignbridge constituency since the coming into force of the Knives Act 1997; and how many of these received a prison sentence. [25892]

Hazel Blears: The information available is shown in the following table.

Defendants sentenced and given custody for carrying a weapon or blade, 1997–2004[1]

		1997	*1998*	*1999*	*2000*
Teignbridge magistrates court[2]					
Possession of offensive weapons without lawful authority or reasonable excuse	Sentenced	5	1	1	7
	Immediate custody	2	0	1	0
Having an article with a blade in a public place	Sentenced	1	1	1	3
	custody Immediate	0	1	0	0
Total of both offences	Sentenced	6	2	2	10
	Immediate custody	2	1	1	0
South Devon magistrates court[2]					
Possession of offensive weapons without lawful authority or reasonable excuse	Sentenced	n/a	n/a	n/a	n/a
	Immediate custody	n/a	n/a	n/a	n/a
Having an article with a blade in a public place	Sentenced	n/a	n/a	n/a	n/a
	Immediate custody	n/a	n/a	n/a	n/a
Total of both offences	Sentenced	n/a	n/a	n/a	n/a
	Immediate custody	n/a	n/a	n/a	n/a

Defendants sentenced and given custody for carrying a weapon or blade, 1997–2004[1]

		1997	1998	1999	2000
England and Wales					
Possession of offensive weapons without lawful authority or reasonable excuse	Sentenced	4,130	4,375	4,135	4,108
	Immediate custody	509	585	554	595
Having an article with a blade in a public place	Sentenced	3,341	3,788	3,548	3,518

Total of both offences	Sentenced	n/a	n/a	n/a	n/a
	Immediate custody	n/a	n/a	n/a	n/a
South Devon magistrates court[2]					
Possession of offensive weapons without lawful authority or reasonable excuse	Sentenced	23	18	29	20
	Immediate custody	2	1	2	3
Having an article with a blade in a public place	Sentenced	8	17	31	14
	Immediate custody	1	1	0	0
Total of both offences	Sentenced	31	35	60	34
	Immediate custody	3	2	2	3
England and Wales					
Possession of offensive weapons without lawful authority or reasonable excuse	Sentenced	4,873	5,441	5,394	5,758
	Immediate custody	634	787	760	817
Having an article with a blade in a public place	Sentenced	4,303	5,269	5,311	5,802
	Immediate custody	589	766	755	803
Total of both offences	Sentenced	9,176	10,710	10,705	11,560
	Immediate custody	1,223	1,553	1,515	1,620

[1] The aboye offences are not covered within the Knifes Act 1997 which came into force, partly in September 1997 and fully in March 1999. The offences are covered under previous Acts. The offences of possession of offensive weapons without lawful authority or reasonable excuse is covered under the Prevention of Crime Act 1953 S.1. The offence of having an article with a blade or point in a public place is covered by the Criminal Justice Act 1988 S.139.

[2] The Teignbridge Court was amalgamated into the South Devon magistrates court in 2000–01. The figures are shown for each court separately

RDS NOMS 3 11 2005

Persistent Offenders

Mr. Hepburn: To ask the Secretary of State for the Home Department what action is being taken to deal with persistent offenders. [24286]

Hazel Blears: The Prolific and other Priority Offenders (PPO) strategy was launched by the Prime Minister in March 2004 to target not only existing prolific offenders but also those young people who are on the cusp of a prolific offending lifestyle. The strategy has three strands: prevent and deter—to stop young people becoming prolific offenders; catch and convict—tackling those who are already prolific offenders; and rehabilitate and resettle—working to increase the number of offenders who stop offending by offering a range of supportive interventions.

Over 10,000 existing prolific offenders have been identified by schemes across England and Wales. In addition, approximately 4,000 young people have been identified as suitable for support as part of the prevent and deter strand. A report of the early findings of the evaluation of the PPO strategy was published in October 2005. It provides encouraging but early indicative data on the impact on the offending rates of PPOs, as well as information about the characteristics of the targeted PPO population and how schemes are intervening with them.

Police

Mr. Hepburn: To ask the Secretary of State for the Home Department how many police officers there were in *(a)* the South Tyneside area command and *(b)* Northumbria in each year since 1997. [24289]

Hazel Blears: The available information is provided in the following table.

Number of police officers (full-time equivalent) (1997–2005)

As at 31 March	*South Tyneside*[1]	*Northumbria*
1997	—	3,677
1998	—	3,769
1999	—	3,840
2000	—	3,788
2001	254.93	3,857
2002	267.59	3,929
2003	333.31	4,018
2004	392.14	4,061
2005	441.27	4,088

[1] Data are unavailable prior to 2001.

Mr. Lancaster: To ask the Secretary of State for the Home Department if he will provide additional resources over the next four years to the Thames Valley police for the enforcement of the recent ban on hunting with dogs. [26110]

Hazel Blears: The enforcement of the ban on hunting with dogs is a normal policing function and forces are expected to absorb the costs of this activity within their plans and budgeted resources. These are operational matters for the local chief constable.

We have invested heavily in policing in England and Wales over the past five years. Expenditure supported by Government grant or spent centrally on policing increased by 39 per cent. or over £3 billion between 2000–01 and 2005–06. Thames Valley is receiving its fair share of the available resources.

Andrew Rosindell: To ask the Secretary of State for the Home Department what plans there are to expand the number of *(a)* full-time and *(b)* part-time police officers working in (i) Romford, (ii) Havering, (iii) Essex and (iv) Greater London over the next 12 months. [26443]

Hazel Blears: This information is not available centrally. The number of police officers deployed in particular areas of Essex and London are operational decisions which are the responsibility of the chief constable and the commissioner.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many police officers were charged for speeding in each police force in each of the last 10 years. [26447]

Hazel Blears: Information on the number of police personnel charged by type of offence is not collected centrally.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many graduates in the police force's fast-tracking system met his Department's target of becoming a chief inspector in seven years in each of the last five years. [26563]

Hazel Blears: There is no target for fast tracking police officers with a university degree to the rank of chief inspector within seven years. The Police High Potential Development Scheme, which is currently placed 20 in the 2005–06 Times Top 100 Graduate Employers listing, provides development opportunities tailored to individual needs for those who successfully pass the selection process to combine real work experience, practical training and academic study in order to move through the ranks to senior leadership positions in the police service.

Bob Spink: To ask the Secretary of State for the Home Department how many police cells are in use in Essex, broken down by location. [18085]

Hazel Blears: This is an operational matter for the chief constable of Essex police but I understand that the numbers of cells in use in Essex are as set out in the following table.

Police cells in use in Essex	*Number*
Braintree	8
Brentwood	7
Chelmsford	11
Clacton	12
Colchester	17
Grays	12
Harlow	14
Harwich	5
Loughton	3
Rayleigh	16
Southend	23
South Woodham Ferrers	4
Stansted	3
Tilbury	3
Total	138

Mr. Ruffley: To ask the Secretary of State for the Home Department what the projected funding per head of the population was for each police authority in England and Wales in 2004–05. [24934]

Hazel Blears: I refer the hon. Member to the answer I gave to the hon. Member for Meriden (Mrs. Spelman) on 7 June 2005, *Official Report*, column 514W.

Greg Mulholland: To ask the Secretary of State for the Home Department how many police officers there were in Leeds, North West in each year since 1997, broken down by ethnicity; and what percentage of the total in each year was accounted for by each ethnic group. [23998]

Hazel Blears: This information is not collected centrally. Data are available for West Yorkshire police and is provided in the following table.

Police officer strength for West Yorkshire (1997–2005)
Ethnicity breakdown[1]

Full-time equivalent[2]

As at 31 March	*White*	*Mixed*	*Black or black British*	*Asian or Asian British*	*Other ethnic group*	*Not stated*	*Total minority ethnic*	*Total all Police officers*
1997	—	—	—	—	—	—	130	5,209
1998	—	—	—	—	—	—	133	5,155
1999	—	—	—	—	—	—	131	4,982
2000	—	—	—	—	—	—	127	4,822
2001	—	—	—	—	—	—	139	4,815
2002	—	—	—	—	—	—	152	4,889
2003	4,830	29	38	87	9	45	163	5,037
2004	5,088	38	37	100	11	40	186	5,314
2005	5,427	46	43	120	12	24	221	5,671

[1] Ethnicity breakdown is only available from 2003 onwards.

[2] FTE includes those on career breaks and maternity/paternity leave.

Police officer strength for West Yorkshire (1997–2005)
Ethnicity Breakdown[1]

Percentage

As at 31 March	*White*	*Mixed*	*Black or black British*	*Asian or Asian British*	*Other ethnic group*	*Not stated*	*Total minority ethnic*	*Total number (FTE) of police officers*
1997	—	—	—	—	—	—	2.5	5,209
1998	—	—	—	—	—	—	2.6	5,155
1999	—	—	—	—	—	—	2.6	4,982
2000	—	—	—	—	—	—	2.6	4,822
2001	—	—	—	—	—	—	2.9	4,815
2002	—	—	—	—	—	—	3.1	4,889
2003	95.9	0.6	0.8	1.7	0.2	0.9	3.2	5,037
2004	95.7	0.7	0.7	1.9	0.2	0.8	3.5	5,314
2005	95.7	0.8	0.8	2.1	0.2	0.4	3.9	5,671

[1] Ethnicity breakdown is only available from 2003 onwards

Andrew Rosindell: To ask the Secretary of State for the Home Department how many official complaints have been lodged against police officers in each London borough in each of the last 10 years. [27121]

Hazel Blears: The Independent Police Complaints Commission (IPCC) is responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to the hon. Member directly. Copies of the letter containing the IPCC's response will be placed in the Libraries.

Sarah Teather: To ask the Secretary of State for the Home Department what guidance his Department provides on the minimum number of officers necessary to staff a police station at night. [24475]

Hazel Blears: This is a matter for local determination according to operational need. The Home Office does not issue guidance on it.

Mrs. Dorries: To ask the Secretary of State for the Home Department how many criminal investigators there were in the Bedfordshire police force in each year since 1997; and if he will make a statement. [24378]

Hazel Blears: The available information is for 2002–03, 2003–04 and 2004–05 and is given in the table. Information for previous years is not currently available.

Police officers in CID function (full-time equivalent) in Bedfordshire (1997–2005)

	CID[1] *officers*
1997	n/a
1998	n/a
1999	n/a
2000	n/a
2001	n/a
2002	n/a
2003	85
2004	124
2005	131

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number.

Mrs. Dorries: To ask the Secretary of State for the Home Department what steps the Government are taking to reduce the loss of experienced criminal investigators from Bedfordshire to other forces, as identified by the Police Performance Assessment 2004–05; and if he will make a statement. [24379]

Hazel Blears: We understand that the numbers of detectives transferring from Bedfordshire has declined and is not considered a problem. Like all forces, Bedfordshire have a range of pay and other incentives to retain officers in particular posts.

Student Task Force

John Bercow: To ask the Secretary of State for the Home Department what proportion of the 1,206 colleges visited by his Department's student task force were judged to be *(a)* genuine colleges and *(b)* not genuine colleges. [26668]

Andy Burnham: Between April 2004 and December 2004, 1,218 educational institutions were visited and 314 (25 per cent.) were found not to be genuine. All applications from students to study at institutions found not to be genuine were refused.

Terrorist Attacks (London)

Chris Huhne: To ask the Secretary of State for the Home Department pursuant to the Answer of 10 October 2005, *Official Report*, column 180W, on terrorist attacks in London, how long it took to reach each underground train affected by the incidents. [24245]

Hazel Blears: After consultation with the Metropolitan Police Service, the British Transport Police, the London Fire Brigade Service and the London Ambulance Service I can inform the hon. Member that the information he has requested is not readily available.

Following normal practice, the London Ambulance Service did not record the times that their paramedics and technicians reached the trains, only the stations which were the locations given in the 999 calls. This also applies to the Metropolitan Police Service, the British Transport Police and the London Fire Brigade.

It is considered that to collate the information requested could be obtained only at disproportionate cost as it would require information from each of the individual responders from the emergency services.

I can inform the hon. Member that the London Underground have provided information that in respect of the Aldgate and Edgware Road incidents, London Underground staff reached the trains within 3–5 minutes of the blasts occurring.

In respect of the Kings Cross incident, London Underground staff reached the train within 3–7 minutes of the blasts occurring. Again, exact arrival times are not recorded.

DEPUTY PRIME MINISTER

Belfast Protocol

Joan Walley: To ask the Deputy Prime Minister what action he will take in response to the publication of the Belfast Protocol by the British Toilet Association on 11 October; and if he will make a statement. [26623]

Mr. Woolas: I met with the British Toilet Association on 11 October to discuss good practice in public toilet provision. The Office of the Deputy Prime Minister will work with the BTA to produce further guidance, including examples of best practice. This will be undertaken as part of our "How To Deliver Cleaner, Safer, Greener Communities" good practice programme.

Departmental Estate

David Howarth: To ask the Deputy Prime Minister what information he collects on *(a)* the number of buildings, *(b)* the number of staff working from each building and *(c)* the management of the buildings in (i) his Department and (ii) its executive agencies. [24412]

Jim Fitzpatrick: Information collected by the Office of the Deputy Prime Minister is as follows:

(a) Number of buildings

(i) The Office of the Deputy Prime Minister has four headquarters buildings in London which are in the process of being rationalised. There is additional minor office space at Hempstead House, Kernel Hempstead, Ashdown House, Hastings and 1 High Street, Glossop.

The Fire and Rescue Service Directorate also occupies premises at Marchington, Moreton-in-Marsh, Little Rissington and Garston.

A team to oversee Thames Gateway is based in Gateway House, Exchange Tower and similarly a small team is based within the Planning Inspectorate Offices at Temple Quay House, Bristol.

The Office of the Deputy Prime Minister also owns Burlington House in London, Sheffield House in Stevenage, West Point in Manchester and a building at Little Rissington.

(ii) In relation to the Office of the Deputy Prime Minister's Executive Agencies, the Fire Services College occupies buildings at Moreton in Marsh and the Queen Elizabeth II Conference Centre is located in Westminster. The Planning Inspectorate occupies Temple Quay House, Bristol.

(b) Number of staff working from each building

(i) Figures are based on staff with an entry on the Office of the Deputy Prime Minister personnel database, but exclude staff on temporary leave of absence from the office, eg maternity leave, staff working in the Regional Coordination Unit and staff working in the Executive agencies which are recorded as follows. Figures for staff are likely to differ from those published elsewhere as they have been produced on a different basis. All figures are shown as actual number of staff.

Figures as at 30 October 2005 are as follows:

	Number
Ashdown House Victoria	329
Eland House, Victoria	1,368
Hempstead House	95
Glossop	3
Building 3 Garston	13
Marchington	49
Fire Experimental Unit, Moreton-in-Marsh	8
Admiralty House, 26 Whitehall	153
Allington Towers, Victoria	143
Ashdown House, Hastings	40
Exchange Tower, London	13
Temple Quay House, Bristol	29

Figures are not available for Little Rissington, Burlington House, Sheffield House, Stevenage or West Point, Manchester as these buildings are not occupied by ODPM staff.

(ii) Figures for staff in buildings occupied by the Executive agencies are only available as full-time equivalents and this will almost certainly be an underestimate of the number of individuals employed. Figures include agency staff and contractors and may differ from figures published elsewhere using different definitions.

Figures as at 30 June 2005 are as follows:

	Full-time equivalents
Fire Service College	296.2
Planning Inspectorate	821.14
Queen Elizabeth II Conference Centre	53.3

(c) Management of the buildings

The Office of the Deputy Prime Minister centrally collects information relating to the Sustainable Development in Government targets for each and publicly reports on this. This can be viewed at http://www.sustainable-development.gov.uk/delivery/integrating/estate/estate.htm. No other information is retained centrally.

This answer does not include buildings occupied by Government offices, which carry out functions on behalf of 10 Government Departments.

Departmental Funding

Mike Penning: To ask the Deputy Prime Minister how much funding was allocated by his Department to Hemel Hempstead constituency for *(a)* capital projects and *(b)* revenue funding in the last eight years. [25742]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) does not hold separate expenditure information on the Hemel Hempstead constituency.

The following table sets out payments made to Dacorum borough council since the ODPM was established following the Machinery of Government changes on 29 May 2002. For earlier years (from 1999–2000), the table shows the amount paid by ODPM's predecessor Departments from programmes which are now administered by the Office.

All figures (£ million)

Funding to Dacorum borough	*(a) Capital*	*(b) Revenue*
1999–2000	1.354	7.504
2000–01	2.958	7.868
2001–02	6.190	8.488
2002–03	5.237	8.608
2003–04	4.315	8.800
2004–05	3.873	8.159
Total	23.927	49.247

Departmental Spending

Dr. Starkey: To ask the Deputy Prime Minister how much funding was allocated by his Department to Milton Keynes for *(a)* capital projects and *(b)* revenue funding in each of the last five years. [23503]

Jim Fitzpatrick: The Office of the Deputy Prime Minister (ODPM) was established following the Machinery of Government changes on 29 May 2002. The following table sets out payments made to Milton Keynes since 2002–03. For earlier years, the table shows the amount paid by ODPM's predecessor Departments from programmes which are now administered by ODPM.

Funding

£ million

	Capital	*Revenue*
2000–01	0.012	131.448
2001–02	14.050	132.734
2002–03	32.200	138.753
2003–04	26.455	162.572
2004–05	53.473	173.529
Total	126.190	739.036

Departmental Working Groups

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 26 October 2005, *Official Report*, column 448W, on departmental working groups, which *(a)* staff member and *(b)* Minister within his Department approves the creation of new departmental working groups. [24718]

Jim Fitzpatrick: I refer the hon. Member to the answer given on 14 October 2005, *Official Report*, columns 608–09W. A variety of cross-divisional groupings exist within the Office of the Deputy Prime Minister. There is no formal definition of these as departmental working groups and no centrally held record of the creation of them. There is no designated staff member with the role of centrally approving the creation of new departmental working groups.

Fire Precautions Regulations

John McDonnell: To ask the Deputy Prime Minister what requests for exemptions to the Fire Precautions (Sub-Surface Railway Stations) Regulations 1989 have been made under regulation 12 of the regulations since 1989. [26555]

Jim Fitzpatrick: The Office of the Deputy Prime Minister does not keep such records centrally, nor do we require fire and rescue authorities to supply any to us.

Local Government Finance

Mr. Pope: To ask the Deputy Prime Minister what the percentage change in central government funding to Hyndburn borough council has been in each of the last five years. [25623]

Mr. Woolas: The percentage change in central government funding to Hyndburn council in each of the last five years for which data are available is shown in the table as follows.

	Change in funding on previous year (%)
1999–2000	2.9
2000–01	4.7
2001–02	8.2
2002–03	12.7
2003–04	13.7

Notes:

1. Central government funding is defined here as the sum of Specific grants inside Aggregate External Finance (AEF) and Formula grant (Revenue Support Grant, Redistributed business rates and Police Grant). Specific grants inside AEF are those revenue grants paid for councils' core services (such as waste collection), excluding funding for local authorities' housing management.
2. Comparisons across years may not be valid due to changing local authority responsibilities.
3. The information provided excludes capital funding and funding for local authorities' housing management responsibilities.
4. The information excludes those grant programmes, such as European funding, where authorities are simply one of the recipients of funding paid towards an area.

ODPM Revenue Outturn (RO) returns—RS data

Lyons Review

Dr. Cable: To ask the Deputy Prime Minister how many people in his Department were relocated in 2004–05 as a result of the Lyons review of public sector relocation, broken down by locations to which they have been relocated; how many are expected to be relocated in 2005–06; and if he will make a statement. [23690]

Jim Fitzpatrick *[holding answer 1 November 2005]:* 103 posts were relocated from September 2003 to April 2005, of which 91 were to locations outside of London and the south-east, excluding Hastings. Relocation of up to 138 posts is taking place during 2005–06.

Region	*Number of posts relocated*
Yorkshire and the Humber	14
North-west	14
North-east	5
South-west	8
West Midlands	6
East Midlands	17
East	17
South-east—Hastings	10
Sub-total	91
South-east excluding Hastings	5
London	7
Total	103

Pathfinder Areas

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to his answer of 17 October 2005, *Official Report*, column 814W, on pathfinder areas, if he will break down the estimated number of homes to be demolished by pathfinder area. [22471]

Yvette Cooper: Pathfinders have drawn up their own plans on the level and tenure of demolition required. Not all of the pathfinders have included information on tenure in their submissions to the Office of the Deputy Prime Minister. For those who have, the information is recorded in the following table for 2005–06.

Estimated demolitions 2005–06

Planning

Steve Webb: To ask the Deputy Prime Minister in what circumstances a local councillor living in the ward that he represents may make representations to his local authority about a planning application relating to that ward; and by what means such a councillor may represent his community's interests where he himself is directly affected also by the application. [25536]

Yvette Cooper *[holding answer 7 November 2005]:* I refer the hon. Member to the Adjournment debate: Roll of Local Councillors in the Planning System that took place on 8 November 2005, *Official Report*, columns 65–72WH.

Standards Board for England

Mr. Gibb: To ask the Deputy Prime Minister what plans he has to abolish the Standards Board for England; and if he will make a statement. [23763]

Mr. Woolas: The Office of the Deputy Prime Minister has no plans to abolish the Standards Board for England.

Terrorism

Mrs. Lait: To ask the Deputy Prime Minister what assessment he has made of the effectiveness of the Multi Agency Initial Assessment team pilot following its response to the bombing on 7 July; and what plans he has to allocate funding for its *(a)* continuation and *(b)* development. [26025]

Hazel Blears: Ministers are currently considering the results of the Multi Agency Initial Assessment team trial and I will write to you shortly.

HEALTH

Avian Influenza

Mr. Burstow: To ask the Secretary of State for Health what assessment she has made of *(a)* the impact of an influenza pandemic on bed occupancy rates and *(b)* the adequacy of the current supply of intensive care beds in the event of an influenza pandemic. [19686]

Ms Rosie Winterton: We recognise that a major influenza pandemic, or indeed any major biological or infectious illness whether caused by nature or terrorist activity, would place a serious burden on critical care facilities.

All trusts have escalation plans for increasing short-term capacity to meet incidents, whether natural or terrorist, and we are constantly reviewing these plans. We are working closely with the Intensive Care Society and other professional organisations on ensuring that these plans are robust and appropriate for possible contingencies including an influenza pandemic.

Bed Numbers

Mike Penning: To ask the Secretary of State for Health what assessment she has made of the likely effects of the change in bed numbers planned in West Hertfordshire Hospital Trust Investing in Your Health Plan on the standard of healthcare for the people of Hemel Hempstead; and if she will make a statement. [24721]

Ms Rosie Winterton: No assessment has been made of any likely effects of the change in bed numbers planned in West Hertfordshire Hospital Trust's "Investing in Your Health" plan. The Department's capacity planning focuses on activity rather than bed numbers. It is for the national health service locally to ensure there is suitable provision of beds in order to deliver this.

Cancer

Sandra Gidley: To ask the Secretary of State for Health (1) what assessment has been made of the likely effects of the decision to end the automatic offer of testing for bowel cancer at the age of 69 years when the screening programme is introduced from April 2006; [23826]

(2) if she will fund a pilot for screening for bowel cancer with no upper age limit. [23827]

Ms Rosie Winterton: We are determined that the new screening programme should not have a detrimental effect on services for patients with bowel cancer symptoms. The decision to begin screening with men and women aged 60 to 69 was based on evidence from research studies and the United Kingdom colorectal (bowel) cancer screening pilot. The risk of bowel cancer increases with age, with over 80 per cent. of bowel

cancers arising in people who are 60 or over. When we have rolled out the programme to the whole country, we will make an assessment on whether to expand it to other age groups.

We will encourage men and women aged 70 and over to self refer by seeing their general practitioner or contacting their local screening unit.

Mr. Brady: To ask the Secretary of State for Health what research her Department has undertaken into a possible link between breast cancer survival rates and the availability of *(a)* monitoring and *(b)* on-going care for cancer patients. [17512]

Ms Rosie Winterton: The Department has not commissioned any research into the link between breast cancer survival rates, monitoring and/or on-going care for breast cancer patients.

Mr. Lansley: To ask the Secretary of State for Health what progress is being made to ensure those for whom Herceptin may be suitable are offered the HER2 test; and what recent estimate she has made of the percentage of potentially eligible women who are being offered the HER2 test. [23972]

Ms Rosie Winterton: Each of the 34 cancer networks has been asked to submit action plans to the Department by 4 November 2005 on how they will implement human epidermal growth factor receptor 2 (HER2) testing.

Information on the percentage of potentially eligible woman being offered the HER2 test is not collected centrally.

Mr. Gibb: To ask the Secretary of State for Health what proportion of women diagnosed with breast cancer were tested for the presence of Human Epidermal Growth Factor Receptor 2 in 2004–05. [24423]

Ms Rosie Winterton: Information is not collected centrally on the proportion of women diagnosed with breast cancer who are tested for the presence of human epidermal growth factor receptor 2 (HER2).

Plans are now being put in place to ensure that all women diagnosed with breast cancer are tested for the presence of HER2.

Cataract Operations

Dr. Richard Taylor: To ask the Secretary of State for Health how many cataract operations were carried out by the NHS in England in 2003–04; and how many have been performed on NHS patients in mobile independent sector treatment centres by Netcare. [20359]

Ms Rosie Winterton: 301,664 cataract operations were carried out by national health service hospitals in England in 2003–04. Netcare UK has been operational since February 2004 and its mobile cataract units have carried out over 17,000 procedures to date.

Dentistry

Mr. Lansley: To ask the Secretary of State for Health how many applications to extend dental school training places were submitted to her Department by 28 September; how many were applications for *(a)* establishing new dental schools and *(b)* expanding existing dental schools; which organisations submitted applications; and when she expects the joint implementation group to reach conclusions on the business cases submitted. [23963]

Ms Rosie Winterton: Six applications have been received from universities that do not currently have dental schools and eight from universities wishing to expand their dental schools. We do not consider it appropriate to release the name of these universities while competition is still under way. The joint implementation group will put its recommendations to the board of the Higher Education Funding Council for England to consider at its meeting on 26 January.

Influenza

Bill Wiggin: To ask the Secretary of State for Health how many doses of influenza vaccine are available in *(a)* Herefordshire, *(b)* Worcestershire and *(c)* England. [24938]

Caroline Flint: The Department does not centrally purchase flu vaccine. General practitioners purchase their own supplies of vaccine from one of the six United Kingdom suppliers, based on the number of eligible patients on their practice register.

13.4 million doses of flu vaccine are available to order this year.

Mr. Lansley: To ask the Secretary of State for Health what plans she has to vaccinate poultry handlers against *(a)* seasonal influenza and *(b)* influenza of subtype A/H5N1. [25273]

Caroline Flint: There are no plans to vaccinate poultry workers against seasonal influenza in the absence of an outbreak of highly pathogenic avian influenza (HPAI). When an outbreak of HPAI is confirmed, or in the case of heightened risk of an outbreak in poultry, poultry workers on the infected farm, together with vets, contractors and other people engaged in disease control activities, will be offered seasonal influenza vaccine, plus anti-viral therapy, within 24 to 48 hours of disease confirmation.

There is currently no vaccine against influenza of subtype A/H5N1. Manufacturers have been asked to tender for a contract to supply a limited amount of vaccine against the H5N1 strain of avian influenza currently circulating in South East Asia. This vaccine could offer some protection against an H5N1 flu strain.

If an outbreak occurs or is deemed likely, we will make the vaccine available for those at high risk of infection through occupational exposure to diseased birds.

Mr. Lansley: To ask the Secretary of State for Health over what time period the contracts agreed by her Department with seasonal influenza vaccine manufacturers have effect; with which influenza vaccine manufacturer such contracts have been agreed; and when each was agreed. [23114]

Caroline Flint: The Department does not place contracts with manufacturers but negotiates with manufacturers for United Kingdom influenza vaccine

supply. General practitioner practices make their own contractual arrangements with manufacturers for the supply of influenza vaccine.

Steve Webb: To ask the Secretary of State for Health how soon it is necessary for tamiflu to be administered once someone has been infected with influenza for the treatment to be effective. [25537]

Ms Rosie Winterton *[holding answer 7 November 2005]:* Tamiflu is licensed for the treatment of influenza A and B when influenza is circulating and should be administered within 48 hours of the onset of symptoms. Full details of antiviral agents for influenza can be found in annex H of the "UK Influenza Pandemic Contingency Plan", which is available in the Library.

NHS Ambulance Service Trusts (London)

Mr. Davey: To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management costs by each NHS ambulance service trust in London, expressed (i) as a percentage of their total budget and (ii) as the cost per head of population in areas they cover in the latest year for which figures are available. [23882]

Jane Kennedy: The information requested for 2004–05, the latest available year, is shown in the table.

London Ambulance National Health Service Trust

Management costs per weighted head of the population (£000)	1.41
Management costs as a percentage of turnover	3.9

Notes:
1. Administration costs are not identified separately so all information given relates to management costs only.
2. London has one ambulance trust. The population figures for this have been compiled by the primary care trust weighted population figures within the London area.
3. 'Total budget' has been interpreted as total income (turnover).

Audited summarisation schedules of the named trust.

NICE

Steve Webb: To ask the Secretary of State for Health what additional resources she will be making available to the National Institute for Health and Clinical Excellence in respect of the new single technology appraisal process. [26397]

Jane Kennedy *[holding answer 8 November 2005]:* Funding available to the National Institute for Health and Clinical Excellence (NICE) is sufficient for it to accommodate the new single technology appraisal process without detriment to its existing work programme. NICE'S funding for 2005–06 is £30.2 million[1].

[1] This figure includes capital charges.

Primary Care Trusts (London)

Mr. Davey: To ask the Secretary of State for Health how much was spent on *(a)* administration and *(b)* management costs by each primary care trust in London, expressed (i) as a percentage of their total budget and (ii) as the cost per head of population in areas they cover in the last year for which figures are available. [23881]

Jane Kennedy: The information requested for 2004–05, the latest available year, is shown in the table.

Primary care trusts (PCTs) in the London area

	Management costs (£000)	*Management costs per weighted head of population (£)*	*Management costs as a percentage of net operating costs*
Barking and Dagenham	3,744	18.97	1.9
Barnet	7,957	26.07	2.0
Bexley Care Trust	2,926	14.99	1.2
Brent Teaching	11,273	42.80	3.0
Bromley	4,931	18.07	1.4
Camden	7,399	27.99	2.0
City and Hackney Teaching	5,708	18.48	1.7
Croydon	5,703	17.63	1.5
Ealing	5,985	17.90	1.5
Enfield	4,710	17.51	1.5
Greenwich Teaching	3,374	13.65	1.1
Hammersmith and Fulham	3,997	23.14	1.7
Haringey Teaching	5,296	19.43	1.7
Harrow	3,932	21.25	1.7
Havering	5,205	22.33	1.9
Hillingdon	2,590	10.99	0.9
Hounslow	5,168	23.92	1.7
Islington	5,176	20.97	1.7
Kensington and Chelsea	6,979	35.96	2.4
Kingston	3,850	26.96	2.1
Lambeth	6,752	20.19	1.4
Lewisham	5,854	20.35	1.7
Newham	5,978	17.86	1.7
Redbridge	4,406	19.69	1.7
Richmond and Twickenham	3,459	23.31	1.6
Southwark	6,169	20.12	1.7
Sutton and Merton	9,828	29.43	2.3
Tower Hamlets	4,556	15.64	1.4
Waltham Forest	4,329	17.31	1.5
Wandsworth	7,166	26.35	2.0
Westminster	6,598	30.27	1.9

Notes:
1. Administration costs are not identified separately so all information given relates to management costs only.
2. 'Total budget' has been interpreted as net operating costs for PCTs.

Smoking

Mr. Lansley: To ask the Secretary of State for Health what her most recent estimate is of the proportion of pubs which will fall into the category of preparing and serving food for the purposes of the ban on smoking in enclosed public places; and what estimate she has made of the percentage of pubs which will discontinue serving food as a result of the proposals contained within the Health Bill. [25272]

Caroline Flint: In the White Paper, "Choosing Health", we estimated that some 10 per cent. to 30 per cent. of pubs would fall into the category of preparing and serving food. Two separate nationwide estimates have been produced, one by Action on Smoking and Health of 29 per cent. and one by the British Beer and Pub Association (BBPA) of 19 per cent. The percentage of pubs that might discontinue serving food will depend on the final content of the regulations that the Bill provides for. Until the regulations are finalised it will not be possible to estimate meaningfully how many pubs might choose to allow smoking rather than serve food.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were crushed in England in the past 12 months for which figures are available. [26121]

Mr. Bradshaw: The most recent data available are for the year 2003–04 when 221,400 abandoned vehicles were removed and destroyed by local authorities.

Avian Influenza

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her EU counterparts about possible EU-wide co-ordinated action in the event of an outbreak of Avian influenza. [24116]

Mr. Bradshaw: I have had discussions with ministerial counterparts on a regular basis since the H5N1 strain of the virus emerged in South East Asia four years ago.

Mr. Holloway: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department has taken to prevent the spread of avian influenza to the United Kingdom. [22734]

Mr. Bradshaw: On 28 October, the EU introduced a ban on imports into the community of all captive birds (wild birds), along with new restrictions on the importation of pet birds. UK import rules have been amended to reflect this.

In line with EU-wide measures, we have banned imports of all live birds and products which could potentially transmit the disease to other birds from countries with the H5N1 strains of avian influenza.

The risk assessment that we have carried out on the spread of the avian influenza virus indicates that there is a high risk that the geographical spread will continue, given the recent detections of the virus in various geographical areas since May 2005.

The UK recognises that the situation continues to develop worldwide. We are monitoring it closely and have stepped up work on surveillance, biosecurity and emergency preparedness.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on EU guidance on the vaccination of poultry. [25042]

Mr. Bradshaw: Prophylactic or preventative vaccination of poultry against avian influenza is not permitted except under special circumstances. Emergency vaccination in an outbreak is permitted in principle by Council Directive 92/40/EEC, providing it is used only to supplement other control measures subject to a Decision by the Standing Committee on the Food Chain and Animal Health (SCoFCAH) Any vaccine used must be authorised by the competent authority.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether pigeons are vulnerable to avian influenza. [25137]

Mr. Bradshaw *[holding answer 7 November 2005]:* The susceptibility of pigeons appears to vary with the strain of avian influenza virus, but in general they appear to be less susceptible than poultry and some wild birds. Wild pigeons do not appear to play any significant role in the spread of disease.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many qualified personnel her Department has at its disposal to manage an outbreak of Avian influenza. [26830]

Mr. Bradshaw: The State Veterinary Service has about 1,500 staff including veterinary surgeons, animal health officers and administrative personnel. Regular training and exercising helps to equip these staff to deal with an outbreak of exotic disease including Avian influenza. These front line staff are supported by the staff in policy divisions and corporate services in Defra.

In the event of an outbreak these staff would be augmented as necessary by contingency LVIs, vets from other signatory country members of the International Animal Health Emergency Reserve and staff from elsewhere in Defra, other Government Departments and agencies.

Brazilian Meat

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are taken by *(a)* her Department and *(b)* the European Commission to ensure that there is no cross-border transit of cattle or carcases between those provinces of Brazil from which imports are banned and those from which imports are still permitted. [26075]

Mr. Bradshaw *[holding answer 8 November 2005]:* The European Commission is aware of problems in Brazil with regard to control mechanisms in place in Brazil with regard to transit of animals. It is for this reason that the area from which imports have been banned cover a much wider area than would normally be necessary.

The restrictions will not be lifted until the Commission has received positive evidence of improved controls. The European Commission has undertaken to keep member states informed of developments.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements are in place to test imports of beef from Brazil for the foot and mouth virus. [26076]

Mr. Bradshaw *[holding answer 8 November 2005]:* Testing imported meat would be both impractical and prohibitively expensive. Currently available tests have only been validated for detecting viruses in clinical samples.

Current EU legislation contains measures to ensure that meat imported into the EU does not originate from animals infected with serious disease.

All meat imported into the UK from third countries must enter at designated UK border inspection posts (BIPs) where it is subject to veterinary inspections. All consignments are subject to documentary and identity checks and at least 20 per cent. of consignments undergo

physical checks. These ensure import conditions are met and that the products remain in a satisfactory condition during transport.

Caseous Lymphadenitis

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* sheep and *(b)* goats have been infected with caseous lymphadenitis in each of the last five years. [25434]

Mr. Bradshaw: Caseous lymphadenitis is not a notifiable disease and so there are no records of total numbers of cases occurring nationally. The Veterinary Laboratories Agency retains records of the numbers of diagnoses made in samples which have been submitted to its laboratories in England and Wales in its Veterinary Investigation Diagnosis Analysis (VIDA) database. The figures for the years 2000, 2001, 2002, 2003 and 2004 are as follows:

	Sheep	*Goats*
2000	38	3
2001	28	4
2002	22	16
2003	23	6
2004	35	2

Electric Shock Collars

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from the Kennel Club on electric shock collars in the context of the Animal Welfare Bill. [25546]

Mr. Bradshaw: We have received correspondence from, and met with representatives of the Kennel Club, to discuss the issue of electric shock collars in the context of the Animal Welfare Bill.

Energy Efficiency

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been introduced since 1997 to help homeowners meet the cost of improved energy efficiency measures. [26963]

Mr. Morley: The Government has introduced a range of measures to help homeowners meet the cost of improved energy efficiency measures. Key examples include: the Energy Efficiency Commitment (and its predecessor)—an obligation on energy suppliers to increase household energy efficiency; the Warm Front programme, providing grants to those in fuel poverty for a variety of energy efficiency and heating measures; reduced VAT levels for certain commercially installed energy efficient materials, notably insulation; and the Landlords' Energy Saving Allowance, providing landlords a clear incentive to improve the energy efficiency of their properties.
